SPECIAL

Road Safety (Vehicles) Regulations 1999

NOTICE AS TO AREAS AND ROUTES ON WHICH AND TIMES AT WHICH CLASS 1 LOAD CARRYING VEHICLES MAY BE USED

Clause 7 of Schedule 1 to the Road Safety (Vehicles) Regulations 1999 provides that a Class 1 vehicle may only be used on a highway—

(a) that is in an area or on a route; and

(b) at the times—

specified by the Corporation by notice published in the Government Gazette.

In accordance with that clause, I, Alastair Robinson, delegate of the Corporation specify the areas, routes and times set out in Annexure 1 to this Notice for—

(a) Class 1 vehicles carrying large indivisible items; and

(b) Class 1 vehicles that are specially designed to carry a large indivisible item—

subject to the exclusions set out in Annexures 2 and 3.

In this Notice—

(a) the interpretations in Annexure 4 apply; and

(b) expressions that are not defined in Annexure 4 have the same meaning as in the Regulations.

This Notice comes into operation on 1 January 2000 and expires on 31 December 2004.

Road Safety (Vehicles) Regulations 1999

CLASS 1 NOTICE AS TO AGRICULTURAL VEHICLES AND AGRICULTURAL COMBINATIONS AND NOTICE AS TO AREAS AND ROUTES ON WHICH AND TIMES AT WHICH CLASS 1 AGRICULTURAL VEHICLES AND AGRICULTURAL COMBINATIONS MAY BE USED

Regulation 105(2)(a), (d) and (e) of the Road Safety (Vehicles) Regulations 1999 provides that for the purposes of those Regulations the Corporation may by notice published in the Government Gazette declare

- an area to be an agricultural vehicle area of operation
- a highway to be a major road
- an area to be an urban area.

Regulation 502 of those Regulations provides that the Corporation may by a notice in the Government Gazette exempt a category of Class 1 vehicles from a mass or dimension limit, other than a limit that relates to a GVM or GCM or a manufacturer's limit, or from any other requirement set out in Schedule 1 to the Regulations.

Clause 7 of Schedule 1 to the Regulations provides that a Class 1 vehicle may only be used on a highway—

(a) that is in an area or on a route; and

(b) at the times—

specified by the Corporation by notice published in the Government Gazette.

In accordance with those provisions, I, Alastair Robinson, delegate of the Corporation—

(a) exempt an agricultural vehicle in the Broad-Acre Area of operation from the height limit in Clause 41 of Schedule 1 to the Regulations on condition that the height of the vehicle does not exceed 5.0 metres;

(b) exempt an agricultural vehicle in the Broad-Acre Area of operation from the width limit in Clause 44 of Schedule 1 to the Regulations on condition that the width of the vehicle does not exceed 6.5 metres;

(c) exempt an agricultural vehicle from the length limit in Clause 43(1) of Schedule 1 to the Regulations on condition that the length of the vehicle does not exceed 15 metres on any road in Victoria;

(d) exempt an agricultural combination in the Broad-Acre Area of operation from the length limit in Clause 43(3) of Schedule 1 to the Regulations on condition that the length of the combination does not exceed 30 metres;

(e) exempt a Class 1 vehicle in the Flat Area or Broad-Acre Area that is an agricultural harvesting machine that is wider than 3.1 m from the prohibition on travel at night in Clause 21 of Schedule 1 to the Regulations on condition that its width does not exceed 4.0 metres;

(f) exempt a Class 1 vehicle that is an agricultural vehicle from the requirement to display a warning sign in Clause 9(1) and Clause 45(2) of Schedule 1 to the Regulations on condition that the agricultural vehicle is only crossing a road or only travelling along a road-related area beside the road;

(g) exempt a Class 1 vehicle that is an agricultural vehicle from the requirement to display a warning light in Clause 9(7) and Clause 45(1) of Schedule 1 to the Regulations on condition that the agricultural vehicle is only crossing a road, or only travelling along a road-related area beside the road;

Road Safety (Vehicles) Regulations 1988

NOTICE DECLARING CERTAIN VEHICLES TRANSPORTING CONTAINERS TO BE CLASS 3 VEHICLES

Regulation 515(2) of the Road Safety (Vehicles) Regulations 1999 provides that the Roads Corporation may by notice published in the Government Gazette declare a category of vehicles to be class 3 vehicles.

Clause 40 of Schedule 3 to the Regulations provides that the dimension limits for a vehicle in a category of vehicles declared by the Corporation under regulation 515(2), are the relevant dimension limits for that vehicle set out in Division 2 of Part 4 of the Regulations except to the extent that the Corporation specifies otherwise in the declaration.

In accordance with those provisions, I, Alastair Robinson, delegate of the Roads Corporation, declare that a vehicle in one of the following categories is a class 3 vehicle if –

(a) the maximum height for a vehicle, other than a double-decker bus, exceeds the 4.3 metre limit in Regulation 407 (1) of the Regulations but does not exceed 4.6 metres; and

(b) the vehicle otherwise meets the conditions of operation in the Annexure to this Notice.

VEHICLE CATEGORIES

(i) rigid truck;

(ii) rigid truck towing a trailer;

(iii) prime mover towing a semi-trailer;

(iv) semi-trailer connected to a prime mover or semi-trailer.

I further declare that the dimension limits for a vehicle in a category of vehicles specified above are the relevant dimension limits for that vehicle set out in Division 2 of Part 4 of the Regulations except to the extent specified otherwise in the Annexure to this Declaration.

This Notice comes into operation on 1 January 2000 and expires on 30 June 2000.

In this Notice, unless the contrary intention appears-

(a) expressions used have the same meaning as in the Road Safety Act 1986 and the Road Safety (Vehicles) Regulations 1999; and

(b) "container" means a loaded or empty multi-modal box-shaped unit that is specially designed and built to carry freight on a ship or train.

ANNEXURE

- INDEX -

Part 1 - Operating Conditions

Part 2 - Roads

PART 1

Operating Conditions

1.1(1) At the beginning of each trip, the driver must:

(a) measure the height of the highest point of the loaded vehicle; and

(b) record the measured height and the container number(s).

1.1(2) The driver must have undertaken training which ensures he/she is able to:

(a) use the VicRoads' publication entitled "Height Clearance on Roads" to plan a route which avoids low bridges, tram wires and other overhead structures; and

(b) secure the load and drive an over height vehicle in accordance with the requirements of Sections A, B3, C9(1)-(4) and D(1) of the "Load Restraint Guide" published by the Australian Government Publishing Service; and

(c) measure and record the height of the loaded vehicle.

1.1(3) The vehicle's owner and operator are responsible for ensuring that the driver has successfully completed the training referred to in sub clause 1.1(2), and must verify that the training has been completed by providing the driver with a certificate or letter which:

(a) carries the name of the vehicle's owner or operator; and

(b) is signed by an authorised representative of the vehicle's owner or operator; and

(c) contains the following statement-

"I, [name of the authorised representative] certify that on [date on which training was completed], [name of driver], the holder of Driver Licence No [number] successfully completed the training requirements specified in the Victoria Government Gazette NOTICE DECLARING CERTAIN VEHICLES TRANSPORTING CONTAINERS TO BE CLASS 3 VEHICLES of December 1999."

1.1(4) The driver must carry the following documents in the driving compartment and must produce them when requested by a Roads Corporation Officer or a Police Officer:

(a) a copy of the VicRoads' booklet entitled "Height Clearance on Roads"; and

(b) a copy of the letter or certificate mentioned in sub clause 1.1(3); and

(c) a record of the measured height of the loaded vehicle and the container number(s); and

(d) from 1 February 2000, documentation that an order has been lodged with a vehicle and/or equipment supplier by 31 January 2000, for a low profile vehicle and/or equipment modifications to be able to carry the current container on the new or modified vehicle within the national height limit of 4.3 metres. The documentation must have the purchaser's name on it and the driver must be able to show that he/she is currently working for the purchaser.

1.1(5) The vehicle may carry other freight in addition to a container if the loaded height of the other freight does not exceed 4.3 metres.

1.1(6) The operator and driver of the vehicle are responsible for planning each journey to ensure that:

(a) the vehicle crosses bridges and negotiates curves in a safe manner, bearing in mind that some roads and intersections may not be capable of accommodating vehicles at the dimensions allowed by this Notice; and

(b) the vehicle does not travel-

(i) on a road, bridge or structure where any posted mass or dimension limit would be exceeded; or

(ii) beneath a bridge or overhead structure which carries a sign with the words "LOW CLEARANCE" or "CLEARANCE" if the height of the loaded vehicle is equal to or greater than the height shown on the sign; or

(iii) beneath any other overhead structures, cables, wires or trees unless there is at least 200 mm clearance to the highest point of the vehicle.

1.1(7) Any journey is made at the absolute risk of the vehicle's owner, operator and driver. No representation is made by the Roads Corporation that any road, bridge, culvert, causeway or grid is capable of withstanding the vehicle, that there is sufficient clearance under structures, wires or trees, or that there is sufficient ground clearance at railway level crossings.

1.1(8) Except where explicitly varied by this or any other Gazette Notice or any permit, the provisions of the Road Safety Act 1986 and its Regulations and any other Act, Regulation or By-Law are applicable.

PART 2

Roads

2.1 Except as provided in this Part, travel is permitted on all roads.

2.2 Travel is not permitted on any road or bridge in contravention of a mass limit specified on a sign relating to that road or bridge.

Road Safety (Vehicles) Regulations 1999

NOTICE CONCERNING B-DOUBLE ROUTES

Clause 11 of Schedule 2 to the Road Safety (Vehicles) Regulations 1999 provides that a B-double may only be used on a highway that is in an area, or on a route, specified by the Roads Corporation by notice published in the Government Gazette.

For the purposes of that provision, I, Alastair Robinson, delegate of the Roads Corporation, specify that-

(1) the routes on which all B-doubles may be used are routes consisting only of:

(a) declared roads within the meaning of the Transport Act 1983 that are freeways, State highways, main roads, forest roads, metropolitan bridges, the West Gate Bridge or the Link road, but excluding the roads, bridges and structures listed in Schedule 1 to this Notice; and

(b) local roads on which B-double travel is permitted, as listed in Schedule 2 to this Notice; and

(2) the routes on which B-doubles meeting the description set out in Schedule 3 to this Notice may be used are all highways in Victoria.

This Notice comes into operation on 1 January 2000 and expires on 31 December 2004.

Nothing in this Notice authorises the driving of a B-double in a manner or in a condition or place that is otherwise prohibited by the Regulations.
