Mosman Local Environmental Plan 1998 (Amendment No 9)— Acid Sulfate Soils and Wetlands

under the

Environmental Planning and Assessment Act 1979

I, the Minister for Planning, make the following local environmental plan under the *Environmental Planning and Assessment Act 1979*. (S01/01208/S69)

ANDREW REFSHAUGE, M.P.,
Minister for Planning

Clause 1 Mosman Local Environmental Plan 1998 (Amendment No 9)—Acid Sulfate Soils and Wetlands

Mosman Local Environmental Plan 1998 (Amendment No 9)—Acid Sulfate Soils and Wetlands

1 Name of plan

This plan is *Mosman Local Environmental Plan 1998 (Amendment No 9)—Acid Sulfate Soils and Wetlands*.

2 Aims of plan

This plan aims:

- (a) to update a reference to a development control plan that has been amended, and
- (b) to avoid any potential environmental hazard in relation to acid sulfate soils, and
- (c) to protect wetland areas from inappropriate development in and around wetland areas, and
- (d) to provide planning controls and procedures to prevent or regulate, or prevent and regulate, development that has the potential to disturb acid sulfate soils or to have an environmental impact on wetland areas.

3 Land to which plan applies

- (1) To the extent that this plan deals with exempt and complying development and acid sulfate soil, it applies to all land in the Mosman local government area.
- (2) To the extent that this plan deals with wetlands and the foreshore protection map, it applies to land within the Mosman local government area identified on the maps marked “Mosman Local Environmental Plan 1998—Foreshore Protection Map” and “Wetlands”, deposited in the office of Mosman Municipal Council.

4 Amendment of Mosman Local Environmental Plan 1998

Mosman Local Environmental Plan 1998 is amended as set out in Schedule 1.

Mosman Local Environmental Plan 1998 (Amendment No 9)—Acid Sulfate
Soils and Wetlands

Amendments

Schedule 1

Schedule 1 Amendments

(Clause 4)

[1] Clause 10A What is exempt and complying development?

Insert “and amended on 12 February 2002” after “1999” wherever occurring in clause 10A (1)–(3).

[2] Clause 31A

Insert after clause 31:

31A Acid sulfate soils

- (1) The objectives of this clause are:
 - (a) to minimize disturbance to acid sulfate soils in Mosman so as to avoid any potential environmental hazard, and
 - (b) to require development consent for works that would disturb soils or ground water levels in localities identified as having acid sulfate soils, and
 - (c) to require the special assessment of certain development of land identified as being subject to risks associated with the disturbance of acid sulfate soils.
- (2) A person must not, without the consent of the Council, carry out the following works on or under land identified on the foreshore protection map:
 - (a) as being within an acid sulfate soil area—works beyond 1 metre below the existing ground surface or involving the disturbance of more than 1 tonne of soil (such as occurs in carrying out the construction or maintenance of drains, dredging, the construction of artificial waterbodies including detention basins, the construction of underground structures including basement carparks, the construction of foundations or flood mitigation works) or both, or
 - (b) as being within a buffer area—works involving excavation below 1m AHD, or

Page 3

Mosman Local Environmental Plan 1998 (Amendment No 9)—Acid Sulfate Soils and Wetlands

Schedule 1 Amendments

- (c) in relation to any land identified on the foreshore protection map—works that are likely to lower the ground water table, regardless of how much soil is to be disturbed.
- (3) Despite subclause (2), development consent is not required for the carrying out of such works if:
- (a) a copy of a preliminary assessment of the proposed works undertaken in accordance with the *Acid Sulfate Soils Assessment Guidelines* has been given to the Council, and
 - (b) the Council has provided written advice to the person proposing to carry out the works confirming that the results of the preliminary assessment indicate that the proposed works need not be carried out pursuant to an acid sulfate soils management plan prepared in accordance with the *Acid Sulfate Soils Assessment Guidelines*.
- (4) The Council must not grant a consent required by this clause unless the Council has considered:
- (a) the adequacy of an acid sulfate soils management plan prepared for the proposed development in accordance with the *Acid Sulfate Soils Assessment Guidelines*, and
 - (b) the likelihood of the proposed development resulting in the discharge of acid water, and
 - (c) any comments received from the Department of Land and Water Conservation within 40 days of the Council having sent that Department a copy of the development application and of the related acid sulfate soils management plan.
- (5) This clause requires consent for development to be carried out by a public authority, despite clause 10 (1) (a). However, despite subclause (2) of this clause, consent is not required for a public authority to carry out development for the purposes of:
- (a) emergency work, or
 - (b) routine maintenance, or
 - (c) minor excavation work.

Mosman Local Environmental Plan 1998 (Amendment No 9)—Acid Sulfate
Soils and Wetlands

Amendments

Schedule 1

-
- (6) Despite subclause (2), the following development may be carried out by the Council without development consent:
- (a) the installation of stormwater quality improvement devices and drainage works, and
 - (b) any work ancillary to that development, such as the construction of accessways, the provision of power, water and sewerage supplies, and landscape works.
- (7) If the Council carries out work referred to in subclause (6) and is reasonably likely to encounter acid sulfate soils in carrying out that work, the Council:
- (a) must conduct a preliminary assessment of the proposed works in accordance with the *Acid Sulfate Soils Assessment Guidelines* so as to minimise the actual or potential impact to the environment arising from the disturbance of the soils, and
 - (b) must implement reasonable measures to minimise that impact.

31B Wetlands

- (1) The objectives of this clause are:
- (a) to protect Mosman's wetlands from inappropriate development by preventing or regulating, or preventing and regulating, development that has the potential to fragment, pollute, disturb or diminish the value of the wetlands, and
 - (b) to protect, restore and maintain ecological processes, natural systems and biodiversity within the wetlands, and
 - (c) to improve, maintain and restore the quality of water within the wetlands and water entering the wetlands so as to ensure that wetland values and natural ecological functions are not diminished.
- (2) This clause applies to land within the Mosman local government area identified as "Wetlands" or "Wetlands buffer" on the map marked "Wetlands" drawn by SPH in May 2001.

Mosman Local Environmental Plan 1998 (Amendment No 9)—Acid Sulfate
Soils and Wetlands

Schedule 1 Amendments

- (3) The Council must not consent to the carrying out of works on land to which this clause applies that have the potential to fragment, pollute, disturb or diminish wetland values, unless the Council:
- (a) has made an assessment of the predicted environmental impacts of the proposed works and proposed measures for mitigation, and
 - (b) has considered the relevant objectives and requirements of:
 - (i) *Sydney Regional Environmental Plan No 23—Sydney and Middle Harbours*, and
 - (ii) any relevant policies and guidelines published from time to time by NSW Fisheries.
- (4) If, after making an assessment, the Council considers the proposed development will have either a direct or indirect adverse impact on land to which this clause applies identified as wetland areas or wetland buffer areas, the Council may refuse to consent to the proposed development.
- (5) Despite subclauses (3) and (4), the following development may be carried out by the Council without development consent:
- (a) the installation of stormwater quality improvement devices and drainage works, or
 - (b) any work ancillary to that development, such as the carrying out of minor excavation work, the construction of accessways, the provision of power, water and sewerage supplies, and landscape works.
- (6) If the Council plans to carry out work referred to in subclause (5), the Council:
- (a) must have regard to the predicted environmental impact of the work on land to which this clause applies identified as wetland areas, and
 - (b) must implement reasonable measures for mitigation of that impact, such as suitable erosion and sediment controls.
- (7) The requirements imposed by this clause apply to development to be carried out by a public authority, despite clause 10 (1) (a).

Mosman Local Environmental Plan 1998 (Amendment No 9)—Acid Sulfate
Soils and Wetlands

Amendments

Schedule 1

However, the requirements do not apply to a public authority carrying out development for the purposes of:

- (a) emergency work, or
- (b) routine maintenance, or
- (c) minor excavation work.

CONTAMINATED LAND MANAGEMENT ACT 1997

Section 21 — Declaration of Remediation Site Declaration Number 21023

The Environment Protection Authority ("EPA") declares the following land to be a remediation site under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies:

Lot 2 in DP 528411 and Lot 11 in DP 625019, located at Woodstock Street, Mayfield, New South Wales.
(referred to as "the site").

2. Nature of the substances causing the contamination:

Coal tars, which include polycyclic aromatic hydrocarbons ("PAHs") have been found in the soil and groundwater at the site.

Metals, ammonia, petroleum hydrocarbons (C₆-C₉), cyanide and phenols are commonly associated with coal tar contamination and may be present on the site.

3. Nature of harm that the substance may cause:

The EPA has considered the matters in s.9 of the Act and found that:

- Soil at the site is contaminated with PAHs at concentrations that exceed the applicable human health investigation levels;
- Groundwater at the site is contaminated with PAHs at concentrations that significantly exceed the ANZECC water quality criteria;
- The contaminated groundwater has the potential to migrate off-site to adjoining premises, along the infilled Platts Channel and towards the Hunter River;
- The EPA also has reasonable grounds to believe that other contaminants associated with the manufacture of coal tar products may be present on the site.

The EPA has found that the site is contaminated with PAHs in such a way as to present a significant risk of harm to human health and the environment. There is a significant risk that:

- Harm may be caused to workers at the site who may be potentially exposed to the contaminants in the soil and groundwater; and
- Harm may be caused to aquatic ecosystems through the presence and further migration of contaminants in groundwater.

4. Further action under the Act:

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the EPA is satisfied that the proposal meets the requirements of s.26 of the Act, the EPA may agree not to issue a remediation order to the party to the proposal, if the remediation is carried out in accordance with the proposal.

5. Submissions invited:

The EPA advises that the public may make written submissions to the EPA on:

- Whether the EPA should issue a remediation order in relation to the site or
- Any other matter concerning the site.

Submissions should be made in writing to:

A/Director Contaminated Sites
Environment Protection Authority
PO Box A290
SYDNEY SOUTH NSW 1232

or faxed to: (02) 9995 5999, by not later than 21 August 2002

CAROLYN STRANGE,
A/Director Contaminated Sites,
Environment Protection Authority
(by Delegation)

Date: 15th July 2002.

NOTE:**Remediation order may follow**

If remediation of the site or part of the site is required, the EPA may issue a remediation order under s.23 of the Act.

Variation/Revocation

This declaration remains in force until it is otherwise varied or revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm (s.44 of the Act).

Information recorded by the EPA

Section 58 of the Act requires the EPA to maintain a public record. A copy of this remediation declaration will be included in the public record.

Information recorded by councils

Section 59 of the Act requires the EPA to inform the relevant local council as soon as practicable that a declaration has been made. The council is then required to note on planning certificates issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act that the land is currently within a remediation site. The EPA is required to notify council as soon as practicable when the declaration is no longer in force, and the notation on the certificate will no longer be required.

NSW Protection of the Environment Operations (Clean
Air — Domestic Solid Fuel Heaters) Regulation 2002

Public Exhibition of Proposed New Regulation and
Regulatory Impact Statement

AS part of a regular review of legislation, the Environment Protection Authority (EPA) has drafted a new Regulation under the Protection of the Environment Operations Act 1997, to replace the current Clean Air (Domestic Solid Fuel Heaters) Regulation 1997. A Regulatory Impact Statement for the draft Regulation has been prepared in accordance with the Subordinate Legislation Act 1989, to assess the economic, social and environmental costs and benefits of the proposed Regulation. The new Regulation will take effect from 1 September 2002.

The proposed Regulation continues the requirement for new domestic slow combustion heaters sold in New South Wales to comply with emission limits in Australian Standard AS/NZS 4013. It also streamlines compliance arrangements. State-based certificates of compliance will no longer be needed for heater models offered for sale in NSW, but the Regulation will require a national certificate for each heater model to verify that it has been tested in accordance with the Australian Standard and complies with the relevant emission limits.

You are invited to comment on the draft Regulation and the associated Regulatory Impact Statement (RIS).

Copies of the RIS (which includes the draft Regulation), are available from the EPA's Pollution Line on 131 555 or from the EPA's website at www.epa.nsw.gov.au/consult.

Notice of Final Determination

THE Scientific Committee, established by the Threatened Species Conservation Act 1995, has made a final determination to REJECT a proposal to omit the Red-crowned Toadlet, *Pseudophryne australis* (Gray 1835), from Schedule 2 (Vulnerable species) of the Act.

The Committee is of the opinion that the Red-crowned Toadlet *Pseudophryne australis* (Gray 1835), is likely to become endangered unless the circumstances and factors threatening its survival or evolutionary development cease to operate, and is therefore eligible to remain listed as a Vulnerable Species.

Copies of this Determination may be inspected at the National Parks Centre, 102 George Street, The Rocks, Sydney and at NPWS Area Offices or Visitors Centres during business hours.

**WORKPLACE INJURY MANAGEMENT AND WORKERS COMPENSATION
ACT 1998**

Amendment to the WorkCover Guides for the Evaluation of Permanent Impairment

The WorkCover Guides for the Evaluation of Permanent Impairment, being guidelines issued by the WorkCover Authority under section 376 (1) (a) of the *Workplace Injury Management and Workers Compensation Act 1998* with respect to the assessment of the degree of permanent impairment of an injured worker as a result of an injury (as published in Government Gazette No. 195A of 21 December 2001 at pp.10312-10396), are amended pursuant to section 376 (3) of that Act as set out in Schedules 1 and 2.

Kate McKenzie
General Manager
WorkCover Authority
on behalf of the Authority
3 July 2002

SCHEDULE 1

At page 33 of the Guides, Table 6.1 titled *Criteria for rating permanent impairment due to facial disorders and/or disfigurement* is amended by deleting from the column titled “*Class 4 16%-50% impairment of the whole person*” the words “, combine with any mental and behavioural impairment (AMA5 Chapter 14)”.

SCHEDULE 2

At page 44 of the Guides, Table 9.1 titled *Relationship of binaural hearing impairment to whole person impairment* is amended:

- a) by omitting “0.0 - 6.0” from the column headed “% Binaural hearing impairment” and instead inserting “0.0 – 5.9”; and
- b) by omitting “6.1 – 6.7” from the same column and instead inserting “6.0 – 6.7”.

EXPLANATORY NOTE

Pursuant to section 376(1)(a) of the *Workplace Injury Management and Workers Compensation Act 1998* (the 1998 Act) WorkCover may issue guidelines with respect to the assessment of the degree of permanent impairment of an injured worker.

WorkCover published on 21 December 2001 the *WorkCover Guides for the Evaluation of Permanent Impairment* (the Guides).

The above amendments address certain anomalies.

The amendment to *Table 6.1: Criteria for rating permanent impairment due to facial disorders and/or disfigurement* on page 33 clarifies that impairment arising from psychological or psychiatric injury and the degree of permanent impairment that results from the physical injury are to be assessed separately.

The amendment to *Table 9.1 Relationship of binaural hearing impairment to whole person impairment* on page 44 clarifies that in determining the whole person impairment percentage of an injured worker, 6% binaural hearing loss is to be considered as amounting to 3% impairment of the whole person.

Attached are Tables 6.1 and 9.1 as amended.

Table 6.1: Criteria for Rating Permanent Impairment due to facial disorders and/or disfigurement.

Class 1 0%-5% Impairment of the Whole Person	Class 2 6%-10% Impairment of the Whole Person	Class 3 11%-15% Impairment of the Whole Person	Class 4 16%-50% Impairment of the Whole Person

Note: Tables used to classify the examples in this section (p 256-259) should also be ignored and assessors should refer to the modified table above for classification.
