Her Excellency the Governor, with the advice of the Executive Council, has made the following Regulation under the *Criminal Records Act 1991*.

BOB DEBUS, M.P.,
Attorney General

Explanatory note

The object of this Regulation is to remake (with only minor changes in substance) the provisions of the *Criminal Records Regulation 1999* which is due to be repealed on 1 September 2004 by section 10 (2) of the *Subordinate Legislation Act 1989*. (The changes in substance concern the prescribing of the Australian Customs Service, the CrimTrac Agency and New Zealand Police as law enforcement agencies for the purposes of the *Criminal Records Act 1991* (*the Act*) and providing for the exclusion from section 12 of the Act of persons who apply for appointment as Crown Prosecutors.)

This Regulation:

- (a) prescribes the former offence of a self-excluded person entering or remaining in a casino to which an exclusion order in respect of the person relates as an offence to which section 8 (5) of the Act applies, with the result that the former offence became spent immediately the offence ceased to be an offence, and
- (b) excludes persons who apply for appointment or employment in the Office of the Director of Public Prosecutions, the Independent Commission Against Corruption, the Police Integrity Commission or the New South Wales Crime Commission, or who apply for engagement as a consultant by the Inspector of the Police Integrity Commission or for appointment as a Crown Prosecutor, from section 12 of the Act (which relates to the consequences of convictions becoming spent), with the result that such persons may be required to disclose their spent convictions in their job applications or interview with the agency concerned, and

 - (e) permits the disclosure of information concerning spent convictions by the officer in charge of the Criminal Records Section of NSW Police to the Casino Control Authority or the Director of Liquor and Gaming or, in certain circumstances, to persons employed in the Department of Corrective Services, the Bureau of Crime Statistics and Research, the Office of the Sheriff or the Office of Fair Trading, Department of Commerce, and

WATER ACT 1912

Volumetric Water Allocation Scheme
Section 20Z of the Water Act 1912

THE Department of Infrastructure, Planning and Natural Resources is satisfied that during the 2004/2005 water year, the water sources of the Peel River catchment below Chaffey Dam which are subject to a scheme pursuant to section 20X of the Water Act 1912, are unlikely to have sufficient water available to meet the requirements of persons authorised by law to take water from the water sources or to meet other requirements for water previously determined by the Department.

Consequently, for that year, except as provided hereunder, all allocations under the PEEL WATER ALLOCATION SCHEME are reduced to 5% of their basic entitlements.

This reduction shall take effect on and from 20 August 2004.

This reduction does not apply to the allocations applying to high security licences or allocations under entitlements for town water supply, stock, domestic, industrial or recreation (other than recreation involving maintenance of golf fairways).

CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority
Declaration of remediation site
Section 21
Declaration No: 21049

THE EPA declares the following land to be a remediation site under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

- 71 Russell Street NSW, comprising Lot 8 of Section 104 in Deposited Plan 758065 in the local government area of Bathurst.

2. Nature of the substances causing the contamination

- Polycyclic aromatic hydrocarbons (PAHs), including benzo(a)pyrene;
- Benzene; and
- Cyanide.

3. Nature of harm that the substance may cause:

The EPA has considered the matters in s.9 of the Act and found that:

- PAHs, including benzo(a)pyrene, are present in soil at the site in concentrations significantly exceeding human health based criteria for commercial / industrial land use as listed in the National Environment Protection (Assessment of Site Contamination) Measure (National Environment Protection Council, 1999). Workers at the site may become exposed to the contamination;

- PAHs, including benzo(a)pyrene, benzene and cyanide are present in groundwater at the site in concentrations significantly exceeding the 95% trigger values for the protection of aquatic ecosystems as listed in the Australian and New Zealand Guidelines for Fresh and Marine Water Quality (ANZECC and ARMCANZ, 2000);
- PAHs, including benzo(a)pyrene, and cyanide are present in surface water at the site in concentrations significantly exceeding the 95% trigger values for the protection of aquatic ecosystems as listed in the Australian and New Zealand Guidelines for Fresh and Marine Water Quality (ANZECC and ARMCANZ, 2000); and
- Contaminated waters may potentially migrate off-site and impact on Queen Charlottes Vale Creek and users of regional groundwater.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the proposal satisfies the requirements of s.26 of the Act, the EPA may agree not to issue a remediation order to the person or persons bringing the proposal.

5. Submissions invited

The EPA advises that the public may make written submissions to the EPA on:

- Whether the EPA should issue a remediation order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Director Contaminated Sites
Department of Environment and Conservation
PO Box A290
SYDNEY SOUTH NSW 1232
or faxed to: (02) 9995 5930

by not later than 17 September 2004.

CAROLYN STRANGE,
Director Contaminated Sites,
Department of Environment and Conservation

Dated 17 August 2004

NOTE:

Remediation order may follow

If remediation of the site or part of the site is required, the EPA may issue a remediation order under s. 23 of the Act.

Variation/Revocation

This declaration remains in force until it is otherwise varied or revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm (s. 44 of the Act).

Information recorded by the EPA

S. 58 of the Contaminated Land Management Act 1997 requires the EPA to maintain a public record. A copy of this remediation declaration will be included in the public record.

Information recorded by councils

S.59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s. 149 (2) of the Environmental Planning and Assessment Act that the land is currently an area covered by a declaration issued under the Act. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s. 149 (2) certificate is removed.
