**ALTERATION OF PURPOSE/CONDITIONS OF A WESTERN LANDS LEASE**

IT is hereby notified that in pursuance of the provisions of section 18J, Western Lands Act 1901, the purpose and conditions of the undermentioned Western Lands Lease have been altered as shown.

TONY KELLY, M.L.C.,  
Minister for Lands

*Administrative District – Broken Hill;  
Shire – Unincorporated Area;  
Parish – Umberumberka; County – Yancowinna*

The purpose and conditions of Western Lands Lease 13223, being the land contained within Folio Identifier 37/44275 has been altered from “Grazing (Camels) and Business Purposes (Amusement Park)” to “Grazing (Camels), Business Purposes (Amusement Park) and Residence” effective from 25 November 2008.

As a consequence of the alteration of purpose/conditions rent will be assessed annually in line with the Western Lands Act 1901 and Regulations.

The conditions have been altered by the inclusion of the special conditions following.

**SPECIAL CONDITIONS ATTACHED TO WESTERN LANDS LEASE 13223**

- (1) The lessee must obtain the prior approval of the Western Lands Commissioner or his delegate before erecting or constructing any residence, building or any other structure on the lease.
- (2) The lessee must submit an application for building approval with appropriate engineering design plans to the Western Lands Commissioner prior to any building or structure being erected on the lease.
- (3) The lessee must ensure that any building plans are in accordance with the Draft Heritage Conservation and Development Policy 2008.
- (4) The lessee should consult with the Heritage Advisor for the Unincorporated Area in regard to building designs and materials to be utilised.
- (5) The lessee must ensure any construction is supervised by a Licensed Builder.
- (6) The lessee must ensure all electrical and plumbing works undertaken are supervised and authorised by Licensed Contractors.
- (7) The lessee must ensure all components and materials used and construction methods employed comply with Australian Manufacturers standards.
- (8) The lessee must ensure that the lease is always left in a clean and tidy state and any building materials, waste or rubbish is removed at the conclusion of the construction.
- (9) The lessee must ensure suitable stormwater capture is implemented by either installing a rainwater tank or some other approved method by the completion of any building or structure.
- (10) The Trust shall indemnify and keep indemnified the Minister administering the Crown Lands Act against all actions, suits, claims, debts, obligations and other liabilities that may arise from any construction that occurs on the lease.
- (11) The lessee must obtain approval from Country Water prior to the erection or construction of any building or structure or before any works can be carried out because the lease is within the Umberumberka Creek Special Area administered by Country Water.

**DEDICATION OF CROWN LAND AS  
PUBLIC ROAD**

PURSUANT to section 12 of the Roads Act 1993, the Crown Land described hereunder is, from the date of publication of this notice, dedicated as public road. The public road hereby dedicated is declared not to be Crown road within the meaning of the Roads Act 1993.

(Clause 4)

### [1] Clause 5 Interpretation

Insert “(excluding a secondary dwelling within the meaning of Division 3C of Part 3)” after “means development” in the definition of *dual occupancy development* in clause 5 (1).

### [2] Part 3 Special provisions

Insert after Division 3B:

#### Division 3C Secondary dwellings

##### 21P Aims

The aims of this Division are:

- (a) to encourage a greater diversity of housing types and wider housing choice in appropriate locations with adequate physical and social infrastructure, and
- (b) to provide additional opportunities for more compact and affordable forms of housing with minimal environmental impact, and
- (c) to improve utilisation of building stock and infrastructure.

##### 21Q Definitions

In this Division:

*secondary dwelling* means a self-contained dwelling that:

- (a) is established in conjunction with another dwelling (the *principal dwelling*), and
- (b) is on the same lot of land (not being an individual lot in a strata plan or community title scheme) as the principal dwelling, and
- (c) is located within, or is attached to, or is separate from, the principal dwelling.

*secondary dwellings map* means the map marked “Pittwater Local Environmental Plan 1993 (Amendment No 58)—Secondary Dwellings Map”, as amended by the maps (or, if any sheets of maps are specified, by the specified sheets of the maps) marked as follows:

## Schedule 1 Amendments

**21R Secondary dwellings in Zone No 2 (a), 2 (b), 2 (e) or 2 (f)**

- (1) Except as provided by this clause, the erection of secondary dwellings on land within Zone No 2 (a), 2 (b), 2 (e) or 2 (f) is prohibited.
- (2) A secondary dwelling may be erected with the consent of the council on land within Zone No 2 (a), 2 (b), 2 (e) or 2 (f) only in an area shown coloured red on the secondary dwellings map.
- (3) The total floor area of the secondary dwelling (excluding any area used for parking) must not exceed whichever of the following is greater:
  - (a) 60 square metres,
  - (b) 20% of the total floor area of both the self-contained dwelling and the principal dwelling.
- (4) The council must not grant its consent for the carrying out of development for the purpose of a secondary dwelling unless it is satisfied that the development will not have an adverse effect of any significance on:
  - (a) the protection of rare and endangered flora and fauna species and the protection of habitats for native flora and fauna, or
  - (b) the protection of wildlife corridors and vegetation links with nearby bushland, or
  - (c) the protection of bushland as a natural stabiliser of the soil surface and the protection of existing landforms such as natural drainage lines and watercourses, or
  - (d) the protection of bushland for scenic values and the retention of the unique visual identity of the landscape, or
  - (e) the retention of tree canopy and the protection of the visual amenity of the area, including its visual amenity when viewed from other residences, from the water, and from any public place, or
  - (f) Aboriginal sites.

**Site B** means the land shown distinctively edged and designated as “Site B” on the Site Map.

## **DESIRED FUTURE CHARACTER**

### **Introduction**

The Dee Why Town Centre locality will be an attractive living centre that sustains the social, economic and environmental needs of its community and visitors, characterised by high quality housing that is balanced with an appropriate mix of shopping, business, cultural and recreational facilities consistent with its role as a major centre (as referred to in the *North East Subregion—Draft Subregional Strategy* published by the Department of Planning in July 2007).

The locality is recognised as a distinctive civic and commercial hub in the Northern Beaches as well as being a destination for the wider community for the purposes of civic activities, recreation, business, employment and shopping.

The locality will continue to grow as one of the region’s most significant and vibrant service centres serving the social, economic and recreational needs of the local community and the region.

### **Building form**

The Dee Why Town Centre locality will be characterised by a unified and consistent building form and provide for a diversity of uses (retail, commercial, community, recreational, residential and car parking).

Buildings will be of the highest design quality, and use attractive, durable materials and finishes. The development will achieve architectural and urban design excellence and be environmentally sustainable through measures such as passive solar design, water harvesting or reuse (or both) and use of renewable materials.

The street edges will be lined with a bustling mix of retail shops, cafes and restaurants. To achieve this positive reinforcement of the street edge and a good human to built form scale, a 3 storey podium to street wall will define the street edge of the proposed new road adjoining Site A, while a 4 storey podium to street wall will define the Oaks Avenue frontage to Site A and surrounding street edge of Site B. Building setbacks and heights will be designed to ensure adequate levels of natural sunlight and to ensure a high level of amenity to occupiers of the buildings as well as the adjacent public domain and surrounding developments. Upper levels should not overhang ground level

## Schedule 1 Amendments

---

with the exception of balconies and other minor extrusions of building elements which are encouraged to pronounce articulation and modification of building facades.

Ground floor levels of development will be highly active and accessible to the street and create a lively and active ambience. Ground floor retail development is to be at grade with the footpaths and provide opportunities for a generous promenade and distinctive street tree planting to provide shade and shelter.

The pattern of development will reflect the underlying urban form in Dee Why with predominantly east-west orientated buildings and high levels of visual and physical permeability. The streets will be legible and lead to well designed and publicly accessible open spaces. Taller buildings will be distributed across the town centre from west to east to establish a coordinated, modulated and varied skyline to protect the scenic qualities of Dee Why, its views and vistas and to maintain adequate sunlight access within Dee Why.

**Streetscape**

The Howard Avenue street frontage of Site B will be tree lined with distinctive coastal indigenous species that provide landscape elements while not obscuring the views into and out of the town square from Pittwater Road or Howard Avenue.

**Tower buildings**

Two iconic, slimline towers will be provided in the western part of the locality (Site B), with one smaller tower provided in the eastern part of the locality (Site A). The towers will largely provide for a transition in building height from west (Pittwater Road) to east (proposed new road) and respond to the surrounding natural escarpment. The Building Heights Map prescribes the maximum building heights for the locality.

The towers will be spatially separated to provide well designed, generous, usable public spaces and provide good sunlight penetration to the southern side of Oaks Avenue and the Town Square. This will ensure the Town Centre is provided with a high level of amenity for the public throughout the entire year.

Mid-rise elements on Site B facing Oaks Avenue are to reflect the simple clarity displayed by the tower and podium elements and floor area limits stipulated are not to be considered as entitlements, but if achieved, are subject to conformity with other controls and the achievement of satisfactory urban design quality.

**Retail and commercial uses**

Dee Why must provide additional employment opportunities and commercial space for businesses, consistent with its role as a major centre (as referred to in the metropolitan strategy known as *City of cities—A plan for Sydney's future* published by the Department of Planning in December 2005). The Dee

Why Town Centre locality will facilitate its commercial focus and functions by providing at least 2 levels (excluding the ground floor) of development for non-residential purposes contributing to the locality's service functions, as well as providing for enhanced employment opportunities.

Shops and cafes with active frontages will give a sense of liveliness, vitality and safety within the locality. Double storey height colonnades adjoining the proposed Town Square will provide strategic links to improve the efficiency of the locality and an enhanced retail environment for businesses and patrons alike. On the edges of streets and public spaces, buildings will be provided with continuous colonnades or pedestrian awnings.

Design and management solutions will be provided that will provide for an appropriate mix and diversity of retail uses that will encourage and facilitate the diversity of the shopping experience.

Signage associated with new developments will be high quality, innovative, co-ordinated and minimised to avoid visual clutter and will complement the overall urban design, streetscape and architectural quality and amenity of the centre for its patrons whilst also achieving a balanced and reasonable level of exposure for businesses.

### **Residential amenity**

Exemplary and innovative treatments will be applied to the configuration and design of communal access and recreational areas within residential elements that will promote a socially effective urban village.

### **Mobility, traffic management and parking**

Improved vehicle access and circulation in the Dee Why Town Centre locality will be achieved by good design and management of traffic flows within the existing and proposed new roads servicing the locality.

There will be a new north-south street, between Howard and Oaks Avenue, along the eastern side of the Council site adjacent to St. Kevin's Church (specifically involving Lot 2, DP 526306 and Lot 19, DP 8172).

Traffic will circulate in a one way anti-clockwise direction around the locality via Oaks Avenue, the proposed new road and Howard Avenue.

Improved vehicle access and circulation within the locality is a prerequisite to redevelopment. Development will reinforce the prioritisation of pedestrian movements and networks and make the locality a safer, enjoyable and attractive town centre for the public and existing and future residents.

Car parking, principally underground, will be provided to accommodate the demand of the additional residential, retail and commercial uses. On Site B, only one level of above ground car parking is allowed. This car parking will be located on Level 2. Appropriate architectural screening of the car park level will occur and is to be visually integrated and coordinated with the design of building facades of the remainder of the development to ensure that vehicles

## Warringah Local Environmental Plan 2000 (Amendment No 21)

## Schedule 1 Amendments

---

will be screened completely from surrounding vantage points and to protect the streetscape and urban design quality of the development. Where car parking adjoins a street frontage, the amenity of the adjoining and nearby uses are to be protected. Loading facilities and waste collection facilities will be accommodated using intelligent, innovative design and in a manner that does not adversely impact on the visual amenity of the public domain or conflict with pedestrian access or the amenity of adjoining and nearby residential properties.

Minimal disruption to retail and commercial activity at street level will occur by minimising the width of the footpath crossings and vehicle entrances, by ensuring that loading facilities are substantially enclosed by occupied floor space and by high standards of civic design applied to portions of loading dock and car park entrances that would be visible from the street.

**Town square and open space**

A Town Square will be the heart of the community. It will contain attractive, useable open spaces interlinked by a secure network of pedestrian connections.

The proposed Town Square will address Howard Avenue in accordance with the Town Square, Pedestrian Connections, and Public Open Space Map. It will be a flexible, multi-use space that will be suitable for markets, entertainment and community events and as a meeting place for the general public. Colonnades will surround the perimeter of the Town Square providing all weather access to the ground floor retail outlets. These retail uses will provide opportunities for alfresco dining, casual seating and recreation. Residential accommodation situated above will provide casual surveillance of the Town Square and bring life and vitality to the Town Square throughout the day. An appropriate canopy of indigenous tree species will also be provided throughout the Town Square to enhance its amenity.

**North-south pedestrian connection**

A north-south pedestrian connection will link the proposed Town Square with Oaks Avenue and will provide a strong physical and visual connection between Howard Avenue and Oaks Avenue ensuring a high level of permeability of the locality. A north-south pedestrian connection leading from the proposed Town Square to Oaks Avenue will introduce a generous pedestrian and retail precinct. The pedestrian connection will be defined by retail development, with double storey colonnades providing access on a 24 hour, 7 days a week basis, and be designed to ensure all weather access to ground level retail, food and beverage outlets. The pedestrian connection will have a clear width of not less than 14 metres to ensure high levels of sunlight access and provide view lines through the development in accordance with the Town Square, Pedestrian Connections and Public Open Space Map.

### **Hydrology**

Future development of the locality is to be designed to take account of, and be compatible with, the hydrological conditions associated with the Dee Why Lagoon South Catchment.

### **Stormwater management**

Future development is to be designed and located to take into account stormwater management issues and is to incorporate water sensitive urban design and ecologically sustainable development principles. Innovative design solutions are essential and must be consistent with contemporary best design practices. They are to minimise stormwater impacts (including stormwater quantity and quality impacts on the Dee Why Lagoon system).

Finished floor levels and basement car park entry levels are to incorporate adequate freeboards to protect against the entry of stormwater from Council's street drainage system.

## **LAND USE**

### **Category One**

Development for the purposes of the following:

- community facilities
- shops on the ground and first floor level within Site B
- shops on the ground floor level within Site A
- restaurants on the ground floor

## BUILT FORM

### BUILDING HEIGHT

**Note.** The building height controls establish a vertical limit to which a future building may be constructed. The height limits are a maximum height and not an expression of uniform height over the entire site.

The building height control is not to be read in isolation. A suite of development controls apply to land within the locality that must be considered concurrently to assist in determining the manner, form and configuration of future development.

### Objectives

The objectives of the building height controls for the locality are as follows:

- (a) to ensure that future development responds to the desired scale and character of the locality (referred to in the Desired Future Character Statement for this locality),
- (b) to ensure that future development responds to the surrounding escarpment and that building heights do not dominate the surrounding topography,
- (c) to limit overshadowing to the front set back areas on the southern side of Oaks Avenue opposite Site A during mid-winter (22 June),
- (d) to limit overshadowing to the footpath on the southern side of Oaks Avenue opposite Site B during mid-winter (22 June),
- (e) to limit overshadowing to the Town Square during mid-winter (22 June).

### Controls

Buildings on any land in the locality are to be no more than the maximum height (in metres AHD) shown for the land on the Building Heights Map.

Despite the building envelopes established by the Building Heights Map, a building envelope boundary of the following proposed towers may be varied by up to 2 metres in a horizontal direction, but only if the floor area of any storey of the tower after such a variation does not exceed the floor area of any such storey had the variation not occurred:

- (a) the proposed tower shown on that map as having a maximum height of 52.5 metres AHD (Site A),
- (b) the proposed tower shown on that map as having a maximum height of 75 metres AHD (Site B),
- (c) the proposed tower shown on that map as having a maximum height of 78 metres AHD (Site B).

No less than 2 hours of sunlight must be provided between 10am and 2pm to the front setback areas on the Southern side of Oaks Avenue opposite Site A in midwinter (June 22).

## Warringah Local Environmental Plan 2000 (Amendment No 21)

## Schedule 1 Amendments

---

No less than 2 hours of sunlight must be provided between 10am and 2pm to the public footpath on the Southern side of Oaks Avenue opposite Site B at a distance of 6 metres from the property boundary in midwinter (June 22).

No less than 4 hours of sunlight must be provided midwinter (June 22) to the proposed Town Square.

Only temporary structures may be erected on the land indicated as Pedestrian Connections on the Town Square, Pedestrian Connections and Public Open Space Map.

In these controls, *height*, in relation to a building, means the distance, measured vertically between the top most point of the building and the existing ground level below.

## OAKS AVENUE ABOVE PODIUM PROVISIONS

### Site A

**Application:** The following provisions apply to buildings on the Site A Oaks Avenue podium land as shown on the Above Podium Elements Map (*the Site A Oaks Avenue podium land*).

The following provisions apply despite the maximum building height control set out above and in the Building Heights Map.

### Objectives

The objectives of the above podium provisions for the Site A Oaks Avenue podium land are as follows:

- (a) to allow buildings fronting Oaks Avenue on the Site A Oaks Avenue podium land to have components above 28.5 metres AHD level permitted by the building height control and the Building Heights Map (*the podium level*),
- (b) to control building bulk above the podium level on the Site A Oaks Avenue podium land,
- (c) to limit the depth of buildings and control the gross floor area above the podium level of 28.5 metres AHD on the Site A Oaks Avenue podium land,
- (d) to limit overshadowing to the front setback areas on the southern side of Oaks Avenue opposite Site A in midwinter (June 22),
- (e) to allow design flexibility.

### Controls

Despite the maximum building height control and the Building Heights Map, a building may be erected on the Site A Oaks Avenue podium land that has a component above 28.5 metres AHD, but only if:

Schedule 1

- 
- (a) **Gross floor area**  
the total gross floor area of the components of the buildings above the podium level does not exceed 2,000m<sup>2</sup>, and
- (b) **Separation in building wall**  
a minimum of 20 per cent of the east-west length of Site A above the podium level comprises physical breaks or separation between buildings, and
- (c) **Rear building alignment**  
any component of the building above the podium level does not extend north beyond the Site A Oaks Avenue rear building alignment line as shown on the Above Podium Elements Map (being the line 32 metres from the Oaks Avenue front building line (which is 2.275 metres from the Oaks Avenue Site A boundary)), and
- (d) **Building plane**  
the building is sited or located under a plane that projects at an angle of 29 degrees from the height of 28.5 metres AHD above the Oaks Avenue front building line as shown on the Above Podium Elements Map (which is 2.275 metres from the Oaks Avenue Site A boundary), and
- (e) **Shadowing—Oaks Avenue south side**  
no less than 2 hours of sunlight is provided between 10am and 2pm to the front setback areas on the southern side of Oaks Avenue opposite Site A in midwinter (June 22).

### Site B

**Application:** The following provisions apply to buildings on the Site B Oaks Avenue podium land as shown on the Above Podium Elements Map (*the Site B Oaks Avenue podium land*).

The following provisions apply despite the maximum building height control set out above and in the Building Heights Map.

### Objectives

The objectives of the above podium provisions for the Site B Oaks Avenue podium land are as follows:

- (a) to allow buildings on the Site B Oaks Avenue podium land to have components above 31 metres AHD level permitted by the building height control and the Building Heights Map (*the podium level*),
- (b) to control building bulk above the podium level on the Site B Oaks Avenue podium land,
- (c) to limit the depth of buildings and control the gross floor area above 31 metres AHD,

- 
- (d) to ensure that there is an adequate separation between the above podium buildings envelopes set out in the Building Heights Map for the towers and surrounding podium of the Howard Avenue side of the site and the buildings south of the Site B rear building alignment,
  - (e) to limit the overshadowing of the footpath on the southern side of Oaks Avenue opposite Site B,
  - (f) to allow design flexibility.

**Controls**

Despite the maximum building height control and the Building Heights Map, a building may be erected on the Site B Oaks Avenue podium land that has a component above 31 metres AHD, but only if:

- (a) **Gross floor area**  
the total gross floor area of the components of the buildings on the Site B Oaks Avenue above the podium level does not exceed 3,800m<sup>2</sup>, and
- (b) **Separation in building wall**  
a minimum of 20 per cent of the east-west length of Site B above the podium level comprises physical breaks or separation between buildings, and
- (c) **Rear building alignment**  
any component of the building above the podium level does not extend north beyond the Site B rear building alignment line shown on the Above Podium Elements Map (being the line 27.5 metres from the Oaks Avenue front building line), and
- (d) **Shadowing—Oaks Avenue south side**  
no less than 2 hours of sunlight is provided between 10am and 2pm to the public footpath on the southern side of Oaks Avenue opposite Site B at a distance of 6 metres from the property boundary in midwinter (June 22).

**PROPOSED NEW ROAD ABOVE PODIUM PROVISIONS**

**Application:** The following provisions apply to buildings on the Site A Proposed New Road podium land as shown on the Above Podium Elements Map (*the Site A Proposed New Road podium land*).

The following provisions apply despite the maximum building height control set out above and in the Building Heights Map.

**Objectives**

The objectives of the above podium provisions for the Site A Proposed New Road podium land are as follows:

- (a) to allow buildings on the Site A Proposed New Road podium land to have components above 25 metres AHD level permitted by the building height control and the Building Heights Map (*the podium level*),
  - (b) to control building bulk above the podium level on the Site A Proposed New Road podium land,
  - (c) to limit the depth of buildings and control the gross floor area above the podium level of 25 metres AHD,
  - (d) to allow design flexibility.

### Controls

Despite the maximum building height control and the Building Heights Map, a building may be erected on the Site A Proposed New Road podium land that has a component above 25 metres AHD, but only if:

- (a) **Gross floor area**  
the total gross floor area of the components of the buildings on the Site A Proposed New Road podium land above the podium level does not exceed 1,000m<sup>2</sup>, and
- (b) **Rear building alignment**  
any component of the building above the podium level does not extend west beyond the proposed new road rear building alignment line as shown on the Above Podium Elements Map (being the line 19.5 metres from the proposed new road front building line), and
- (c) **Building plane**  
the building is sited or located under a plane that projects at an angle of 45 degrees from the height of 25 metres AHD above the proposed new road front building line toward the rear building alignment (as shown on the Above Podium Elements Map), and
- (d) **Maximum height**  
the height of the building does not exceed 43.5 metres AHD.

### DESIGN EXCELLENCE

#### Objectives

The objectives of the following control is to ensure that buildings on Site A and Site B exhibit design excellence.

#### Control

Development consent must not be granted for development involving the construction of a new building or external alterations to an existing building unless the consent authority has considered whether the proposed development exhibits design excellence.

## Warringah Local Environmental Plan 2000 (Amendment No 21)

## Schedule 1 Amendments

---

In considering whether development exhibits design excellence, the consent authority must have regard to the following matters:

- (a) whether a high standard of architectural design, materials and detailing appropriate to the building type and location will be achieved,
- (b) whether the form and external appearance of the proposed development will improve the quality and amenity of the public domain,
- (c) whether the building meets sustainable design principles in terms of sunlight, natural ventilation, wind, reflectivity, visual and acoustic privacy, safety and security and resource, energy and water efficiency,
- (d) whether the architect responsible for the proposed design has an outstanding reputation in architecture,
- (e) whether satisfactory arrangements have been made to ensure that the proposed design is carried through to the completion of the development concerned.

**ALLOWANCE FOR EXTERNAL ANCILLARY PLANT AND ROOF ACCESS****Objectives**

The objectives of the controls relating to external ancillary plant and roof access are as follows:

- (a) to ensure that the height, scale and number of permanent or temporary external ancillary structures located on roofs of buildings do not add to the perceived height of buildings or detract from the roof form of buildings,
- (b) to ensure that roof forms are attractive when viewed from surrounding vantage points, including when viewed, at a short distance, from the public domain and surrounding apartment buildings as well as when viewed, from a long distance, from the southern and western hill sides that enjoy northerly and easterly aspects, respectively, over Dee Why,
- (c) to promote low-scale vegetative landscaping of podium roofs of buildings and the use of podium roof spaces as areas for passive recreation for residents of the buildings concerned.

**Controls**

The height of any external ancillary plant or access point is to be minimised and should not exceed 3.0 metres. The access point is to be suitably integrated with either landscaping or architectural elements of the roof design. The total area of such plant and access points must not exceed 10% of the roof area.

Any balustrade or similar safety restraint (except a building parapet) is to be set in from the roof edge a minimum distance of 3 metres.

Warringah Local Environmental Plan 2000 (Amendment No 21)

Amendments

Schedule 1

Any external ancillary plant or access point is to be integrated with the architectural design of the building.

Any external ancillary plant or access point is to be centrally located within the roof area to minimise or completely avoid being visible from the public domain in close proximity to the building.

No external ancillary plant is to be located on the roof of the tall tower located on Site A or the two slimline towers on Site B.

### COMPLYING DEVELOPMENT

The following Table shows the development that is complying development in the Dee Why Town Centre locality. Column A describes the development and Column B shows the requirements that the development must comply with to be complying development.

Notice of Receipt of Application for Aquaculture Lease  
Notification under s.163 (7) of the Fisheries Management  
Act 1994 and cl.33 of the Fisheries Management  
(Aquaculture) Regulation 2007

NSW Department of Primary Industries (NSW DPI) advises an application has been received for a new aquaculture lease over public water land for the purpose of cultivating Sydney rock oysters. Location is the Hastings River, described as follows:

- 0.1654 hectares over former oyster lease OL62/057

NSW DPI is calling for written submissions from any person supporting or objecting to the oyster lease proposal, citing reasons for the support/objection. NSW DPI is also calling for expressions of interest from persons or corporations interested in leasing the area specified above,

for the purpose of aquaculture. An expression of interest must be in the form of a written response referring to lease number OL62/057 to be signed and dated with a return address. If additional expressions of interest are received, NSW DPI may offer the area for leasing through a competitive public tender process, auction or ballot.

If granted the lease will be subject to standard covenants and conditions of an aquaculture lease and aquaculture permit, under the Fisheries Management Act, 1994. Specific details of the proposed lease can be obtained, or enquiries made with NSW DPI, Aquaculture Administration Section, Port Stephens on (02) 4982 1232. Objections or expressions of interest for consideration in the determination of the application must be received at the address below, within 30 days from the date of publication of this notification.

**CHARITABLE TRUSTS ACT 1993**

Order under Section 12

Administrative Scheme relating to  
the Estate of the Late Rose Emma Murphy

ROSE EMMA MURPHY died on 31 December 2004. She  
had made a will dated 9 January 1999 leaving 50% of the  
residue of her estate 'to cancer research'. The executor of  
the will has applied under Part 4 of the Charitable Trusts  
Act 1993, asking that the Attorney General establish a cy  
près scheme in respect of this gift to the Australian Cancer  
Research Foundation (ACRF).

As the gift in the will has not failed to provide a  
suitable and effective means of using the trust property,  
an administrative (rather than cy près) scheme is required  
for this trust. The organisation suggested by the executor  
(ACRF) clearly carries out cancer research and holds on trust  
and applies money for this purpose. Therefore, a suitable  
administrative scheme would be for the relevant share of  
residuary estate to be given to the ACRF to be held on trust  
and applied for the purpose of cancer research.

As delegate of the Attorney General in charitable trust  
matters, I determined that the gift in the will of the late  
Rose Emma Murphy created a trust for a valid charitable  
purpose. Accordingly, I approved the establishment of an  
administrative scheme pursuant to section 12(1)(b) of the  
Charitable Trusts Act 1993. This scheme was advertised in  
the *New South Wales Government Gazette* of 17 October 2008  
and no objections or comments have been received.

Therefore, pursuant to section 12 of the Charitable Trusts  
Act, I hereby ORDER that the gift 'to cancer research' in the  
Testator's Will be implemented by means of an administrative  
scheme that will enable the Australian Cancer Research  
Foundation to hold funds bequeathed in the will of Rose  
Emma Murphy on trust for the purpose of cancer research.  
Such Order is to take effect 21 days after its publication in  
the *New South Wales Government Gazette*, in accordance  
with section 16(2) of the Charitable Trusts Act.

Date of Order: 19 November 2008.

M. G. SEXTON, SC,  
Solicitor General  
(as delegate of the Attorney General)

**PROTECTION OF THE ENVIRONMENT  
OPERATIONS (WASTE) REGULATION 2005 –  
GENERAL EXEMPTION UNDER PART 6,  
CLAUSE 51 AND 51A**

The Food Waste Exemption 2008

## Name

1. This exemption is to be known as 'The food waste exemption 2008'.

## Commencement

2. This exemption commences on 1 December 2008. 'The food waste exemption 2008' which commenced 20 June 2008 is revoked from 1 December 2008.

## Duration

3. This exemption is valid until 1 November 2009 unless revoked at an earlier date by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

## Legislation

4. Under the Protection of the Environment Operations (Waste) Regulation 2005 (the Regulation):

- 4.1. Clause 51 (2) authorises the EPA to grant an exemption in relation to any matter or thing including an activity or class of activities, and
- 4.2. Clause 51A authorises the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:
  - the provisions of sections 47 to 49 and 88 of the Protection of the Environment Operations Act 1997 (the Act),
  - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
  - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

## Exemption

5. In this Notice of Exemption:

- 5.1. The responsible person listed in Column 1 of Table 1 is exempt from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions set out in this Notice.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

- 5.2. Where a responsible person complies with the conditions of this Notice of Exemption, the activity referred to in Schedule 1 from which that person is exempt is taken to be a non-scheduled activity for the purposes of the Act.

Table 1

| <i>Column 1</i>    | <i>Column 2</i>  |
|--------------------|--|
| Responsible person | Provisions from which the responsible person is exempt                                 |
| Processor          | section 48 of the Act in respect of clause 39 of Schedule 1 to the Act                 |
| Consumer           | section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act |

This Notice of Exemption is a general exemption for the purposes of clause 51 (3) of the Regulation.

#### Definitions

##### 6. In this Notice of Exemption:

*Consumer* means a person who applies, causes, or permits the application to land of food waste within the definitions of “application to land” in accordance with the Act. The consumer may be the landholder responsible for the land to which food waste is applied. Where a person responsible for transporting the food waste to the land application site is also the party applying the food waste, this person must also meet the responsibilities of the consumer.

*Food waste* means waste from the manufacture, preparation, sale or consumption of food but does not include grease trap waste or animal waste.

*Processor* means a person who generates, supplies, causes, or permits the supply of food waste to a consumer, or who processes, mixes, blends, or otherwise incorporates food waste into a material for supply to a consumer.

*Relevant waste* means the food waste that meets the requirements of Section 7.

#### General conditions

7. This Notice of Exemption is subject to the following conditions:

- 7.1. The food waste can only be applied to land as a soil amendment material.
- 7.2. The consumer must land apply the food waste within a reasonable period of time.

#### Exemption Granted

STEVE HARTLEY,  
Acting Manager, Waste Management Section,  
Environment Protection Authority  
by delegation

#### Notes

The EPA may amend or revoke this exemption at any time. It is the responsibility of the generator, processor and consumer to ensure that they comply with all relevant requirements of the most current exemption. The current version of an exemption will be available on the EPA website: [www.environment.nsw.gov.au](http://www.environment.nsw.gov.au)

In gazetting this general exemption, the EPA is exempting the relevant waste from the specific requirements of the Act and Regulations as stated in this exemption. The EPA is not in any way endorsing the use of this substance or guaranteeing that the substance will confer benefit.

The use of exempted material remains subject to other relevant environmental regulations within the Act and Regulations. For example, a person who pollutes land (s142A) or water (s120), or does not meet the special requirements for asbestos waste (clause 42), regardless of having an exemption, is guilty of an offence and subject to prosecution.

For the purposes of arrangements between a generator, a processor and a consumer, a ‘transaction’ is taken to mean the contractual agreement between the two parties which specifies the exchange of waste material from one party to another. A ‘statement of compliance’ must be in writing and be provided with each transaction.

The conditions set out in this exemption are designed to minimise the risk of potential harm to the environment, human health or agriculture, however, neither this exemption nor these conditions guarantee that the environment, human health or agriculture will not be harmed.

It should be noted that other contaminants may be present in the relevant waste that can potentially cause harm. Application rates may need to be lower than those listed in the exemption depending on local circumstances and should be determined as appropriate to those circumstances prior to application. Plants may display symptoms of toxicity, and/or reductions in yield may occur at values below the maximum concentration limits specified in this exemption.

The consumer should assess whether or not the exempted material is fit for the purpose the material is proposed to be used and whether this use will cause harm. The consumer may need to seek expert engineering or technical advice.

This exemption does not apply to any material received at a premises that is required to be licensed for waste disposal (application to land) activities under the provisions of the Act. This exemption does not remove the need for a site at which processing occurs to be licensed, if required under Schedule 1 of the Act.

This exemption does not alter the requirements of any other relevant legislation that must be met in utilising this material, including for example, the need to prepare a Material Safety Data Sheet (MSDS).

Regardless of any exemption provided by the EPA, the person who causes or permits the application of the substance to land must ensure that the action is lawful and consistent with the development consent requirements of the land.

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

**OTHER NOTICES****FORM 22 ELECTION PETITION**

HIGH COURT OF AUSTRALIA (rule 30.01)

Filed: 3 November 2008.

Office of the Registry Sydney in the High Court of Australia No. S481 of 2008, Sydney Registry

Between: Stewart Gordon SCOTT-IRVING, Petitioner.  
and

Rob OAKESHOTT – First Respondent.

AUSTRALIAN BROADCASTING CORPORATION –  
Second Respondent.

Election Petition

This petition concerns the election for: By-Election, Federal Seat of Lyne NSW, held on Saturday, 6 October 2008.

Return of Writ

The writ for the election was returned on Monday, 15th September 2008.

Entitlement to File this Petition

The petitioner is entitled to file this petition because of both candidate and constituent status.

Statement of Facts

1. If in Australia, where the Westminster System should be characterised by a career public service which "impartially serves the government of the day" and the ABC is both an independent public service and Australia's national public broadcaster, then the ABC's performance during the campaign period breached its impartiality with particular respect to its content and program level on the one hand and its platform levels of ABC Television, ABC.
  2. Radio and ABC Online on the other. (See ABC Preamble and Editorial Policies statements attached).
  3. The ABC was responsible for an inequitable candidate profile detailing the background of each candidate (copy attached), gave inequitable broadcast time to each candidate (able to be verified by ABC political broadcasting requirements) and carried a link to the webpages of three of the candidates, one of which (that of the declared winner) carried no political authorisation statement as required of all political advertising by the Australian Electoral Commission.
- Further, the winner's website carried a You Tube attachment (again without authorisation statement) and media releases from the candidate's extensive 12 year state political career, each of which was a political advertisement and all of which was available during the mandatory, electronic media "blackout period."
4. Possibly a breach of both the Westminster System and the Australian Constitution, the ABC has an election coverage policy document that apportions "free-to-air" radio coverage time to candidates on the basis of the party

success reflected in the number of seats won by the party at the previous election, and independent candidates can be allotted discretionary time by the broadcaster.

Discretion can lead to indiscretion and then transgression. In this case discretion fell to one independent over several others: celebrity over equity. The informed electorate is supposedly reliant on a public broadcaster's impartiality.

Each candidate, whether party affiliated or independent, required \$500 fee provision and 50 constituent nominations.

It should be noted, that the ABC has been seen to have noted and corrected some of the above inequities, identified in the same electorate with the same ABC Regional Manager. The recent state by-election for the seat of Port Macquarie witnessed a more equitable internet candidate profile.

#### Relief

The petitioner asks the Court to make the following orders:

1. That the ABC make known in all its media platforms, radio, television and internet, that a more equitable manner of election coverage should have and will be carried out in the future, and an apology be made to the candidates and public on all three of these platforms.
2. That the ABC be directed, encouraged or consider to refuse to carry out what appears to be a "two-party by default" piece of legislation, identified in the "free-to-air" apportionment of radio or television time currently favouring the two dominant parties, which infringes on the right of Independents to be granted equitable media treatment by an impartial public broadcaster.
3. That in light of the reliance by the electorate's voters on the public broadcaster to be both impartial and vigilant of AEC political advertising requirements, and the ABC's subsequent, inequitable apportionment of time, space and coverage given to the now-declared winner, (reflected overwhelmingly in the ballot) that the election be declared null and void.
