1.1 Name of Plan

This Plan is *Canada Bay Local Environmental Plan 2008*.

1.2 Aims of Plan

- (2) The particular aims of this Plan are as follows:
 - (a) to create a land use framework that allows detailed provisions to be made,
 - (b) to maintain and enhance the existing amenity and quality of life of the local community,
 - (c) to protect areas from inappropriate development,
 - (d) to ensure development embraces the principles of:
 - (i) ecological sustainability, and
 - (ii) quality urban design,
 - (e) to identify and conserve those items and localities that contribute to the local, built form, environmental and cultural heritage of Canada Bay,
 - (f) to promote opportunities for social, cultural and community activities,
 - (g) to protect and manage areas of remnant bushland, natural watercourses and threatened species,
 - (h) to provide measures to retain, and where possible to extend, public access to the foreshore areas of Canada Bay and to control development in those areas,
 - (i) to provide effective community participation and consultation for planning and development,

Canada Bay Local Environmental Plan 2008

Clause 1.3

Preliminary

Part 1

-
- (j) to provide clarity and certainty for the community and development applicants, while allowing flexibility to respond to changing needs.

1.3 Land to which Plan applies

- (1) This Plan applies to the land identified on the Land Application Map.
- (1A) Despite subclause (1), this Plan does not apply to the land identified on the Land Application Map as “Deferred matter”, being land that is excluded from this Plan under section 68 (5) or 70 (4) of the Act.

1.4 Definitions

The Dictionary at the end of this Plan defines words and expressions for the purposes of this Plan.

1.5 Notes

Notes in this Plan are provided for guidance and do not form part of this Plan.

1.6 Consent authority

The consent authority for the purposes of this Plan is (subject to the Act) the Council.

1.7 Maps

- (1) A reference in this Plan to a named map adopted by this Plan is a reference to a map by that name:
- (a) approved by the Minister when the map is adopted, and
 - (b) as amended or replaced from time to time by maps declared by environmental planning instruments to amend or replace that map, and approved by the Minister when the instruments are made.
- (2) Any 2 or more named maps may be combined into a single map. In that case, a reference in this Plan to any such named map is a reference to the relevant part or aspect of the single map.
- (3) Any such maps are to be kept and made available for public access in accordance with arrangements approved by the Minister.
- (4) For the purposes of this Plan, a map may be in, and may be kept and made available in, electronic or paper form, or both.

Note. The maps adopted by this Plan are to be made available on the official NSW legislation website in connection with this Plan. Requirements relating to the maps are set out in the documents entitled *Standard technical requirements for LEP maps* and *Standard requirements for LEP GIS data* which are available on the Department of Planning’s website.

Clause 1.8 Canada Bay Local Environmental Plan 2008
 Part 1 Preliminary

1.8 Repeal of other local planning instruments applying to land

- (1) All local environmental plans and deemed environmental planning instruments applying only to the land to which this Plan applies are repealed.
- (2) All local environmental plans and deemed environmental planning instruments applying to the land to which this Plan applies and to other land cease to apply to the land to which this Plan applies.
- (2A) Despite their repeal, the following continue to apply to the land marked “Deferred matter” on the Land Application Map:
 - (a) *Concord Planning Scheme Ordinance*,
 - (b) *Concord Local Environmental Plan No 103 (Heritage)*.

1.8A Savings provision relating to pending development approvals

If a development application has been made before the commencement of this Plan in relation to land to which this Plan applies and the application has not been finally determined before that commencement, the application must be determined as if this Plan had been exhibited but had not commenced.

1.9 Application of SEPPs and REPs

- (1) This Plan is subject to the provisions of any State environmental planning policy and any regional environmental plan that prevail over this Plan as provided by section 36 of the Act.

Note. Section 36 of the Act generally provides that SEPPs prevail over REPs and LEPs and that REPs prevail over LEPs. However, a LEP may (by an additional provision included in the Plan) displace or amend a SEPP or REP to deal specifically with the relationship between this Plan and the SEPP or REP.

- (2) The following State environmental planning policies and regional environmental plans (or provisions) do not apply to the land to which this Plan applies:

State Environmental Planning Policy No 1—Development Standards

State Environmental Planning Policy No 4—Development Without Consent and Miscellaneous Exempt and Complying Development (clauses 6 and 10, and Parts 3 and 4)

State Environmental Planning Policy No 9—Group Homes

State Environmental Planning Policy No 60—Exempt and Complying Development

- (1) For the purpose of enabling development on land in any zone to be carried out in accordance with this Plan or with a development consent granted under the Act, any agreement, covenant or other similar instrument that restricts the carrying out of that development does not apply to the extent necessary to serve that purpose.
- (2) This clause does not apply:
 - (a) to a covenant imposed by the Council or that the Council requires to be imposed, or
 - (b) to any prescribed instrument within the meaning of section 183A of the *Crown Lands Act 1989*, or

Canada Bay Local Environmental Plan 2008

Clause 2.4

Permitted or prohibited development

Part 2

-
- (3) In the Table at the end of this Part:
- (a) a reference to a type of building or other thing is a reference to development for the purposes of that type of building or other thing, and
 - (b) a reference to a type of building or other thing does not include (despite any definition in this Plan) a reference to a type of building or other thing referred to separately in the Table in relation to the same zone.
- (4) This clause is subject to the other provisions of this Plan.

Notes.

- 1 Schedule 1 sets out additional permitted uses for particular land.
- 2 Schedule 2 sets out exempt development (that is generally exempt from both Parts 4 and 5 of the Act). Development in the land use table that may be carried out without consent is nevertheless subject to the environmental assessment and approval requirements of Part 5 of the Act or, if applicable, Part 3A of the Act.
- 3 Schedule 3 sets out complying development (for which a complying development certificate may be issued as an alternative to obtaining development consent).
- 4 Clause 2.6 requires consent for subdivision of land.
- 5 Part 5 contains other provisions that require consent for particular development.

2.4 Unzoned land

- (1) Development may be carried out on unzoned land only with consent.
- (2) Before granting consent, the consent authority:
 - (a) must consider whether the development will impact on adjoining zoned land and, if so, consider the objectives for development in the zones of the adjoining land, and
 - (b) must be satisfied that the development is appropriate and is compatible with permissible land uses in any such adjoining land.

2.5 Additional permitted uses for particular land

- (1) Development on particular land that is described or referred to in Schedule 1 may be carried out:
 - (a) with consent, or
 - (b) if the Schedule so provides—without consent,
 in accordance with the conditions (if any) specified in that Schedule in relation to that development.
- (2) This clause has effect despite anything to the contrary in the Land Use Table or other provision of this Plan.

Clause 2.6 Canada Bay Local Environmental Plan 2008
Part 2 Permitted or prohibited development

2.6 Subdivision—consent requirements

- (1) Land to which this Plan applies may be subdivided, but only with consent.
- (2) However, consent is not required for a subdivision for the purpose only of any one or more of the following:
 - (a) widening a public road,
 - (b) a minor realignment of boundaries that does not create:
 - (i) additional lots or the opportunity for additional dwellings, or
 - (ii) lots that are smaller than the minimum size shown on the Lot Size Map in relation to the land concerned,
 - (c) a consolidation of lots that does not create additional lots or the opportunity for additional dwellings,
 - (d) rectifying an encroachment on a lot,
 - (e) creating a public reserve,
 - (f) excising from a lot land that is, or is intended to be, used for public purposes, including drainage purposes, rural fire brigade or other emergency service purposes or public toilets.

Note. If a subdivision is exempt development, the Act enables the subdivision to be carried out without consent.

Also, certain dual occupancies cannot be subdivided, see Part 6.

2.6A Temporary use of land

- (1) The objective of this clause is to provide for the temporary use of land if the use does not compromise future development of the land, or have detrimental economic, social, amenity or environmental effects on the land.
- (2) Despite any other provision of this Plan, development consent may be granted for development on land in any zone for a temporary purpose for a maximum period of 182 days (whether or not consecutive days) in any period of 12 months.
- (3) Development consent must not be granted unless the consent authority is satisfied that:
 - (a) the temporary use is necessary and reasonable for the economic use of the land pending its subsequent development in accordance with this Plan and other relevant environmental planning instruments, and
 - (b) the temporary use will not prejudice the subsequent carrying out of development on the land in accordance with this Plan and any such other instrument, and

Canada Bay Local Environmental Plan 2008

Clause 2.6A

Land Use Table

Part 2

-
- (c) the temporary use will not adversely impact on any adjoining land or the amenity of the neighbourhood, and
 - (d) the temporary use and location of any structures related to the use will not adversely impact on environmental attributes or features of the land, or increase the risk of natural hazards that may affect the land, and
 - (e) at the end of the temporary use period, the use and any associated structures will be removed and the site appropriately restored.

Part 3 Exempt and complying development

3.1 Exempt development

Note. Under section 76 of the Act, exempt development may be carried out without the need for development consent under Part 4 of the Act or for assessment under Part 5 of the Act.

The section states that exempt development:

- (a) must be of minimal environmental impact, and
 - (b) cannot be carried out in critical habitat of an endangered species, population or ecological community (identified under the *Threatened Species Conservation Act 1995* or the *Fisheries Management Act 1994*), and
 - (c) cannot be carried out in a wilderness area (identified under the *Wilderness Act 1987*).
- (1) The objective of this clause is to identify development of minimal environmental impact as exempt development.
 - (2) Development specified in Schedule 2 that meets the standards for the development contained in that Schedule and that complies with the requirements of this Part is exempt development.
 - (3) To be exempt development, the development:
 - (a) must meet the relevant deemed-to-satisfy provisions of the *Building Code of Australia*, and
 - (b) must not, if it relates to an existing building, cause the building to contravene the *Building Code of Australia*, and
 - (c) must not be designated development, and
 - (d) must not be carried out on land that comprises, or on which there is, an item that is listed on the State Heritage Register under the *Heritage Act 1977* or that is subject to an interim heritage order under the *Heritage Act 1977*, and

Canada Bay Local Environmental Plan 2008

Clause 3.2

Part 3

-
- (e) must not require a tree to be removed, and
 - (f) must not be carried out forward of the front alignment of the main building (if any) on the site, if the proposed development is in a heritage conservation area or on land on which there is a heritage item (other than driveways or pathways, paving, flagpoles, public works and scaffolding), and
 - (g) must not involve alterations or additions (including attaching any structure) to a heritage item, and
 - (h) must not be located on the front slope of the roof of a heritage item or be visible from a public place on land on which there is a heritage item or in a heritage conservation area, if the development involves roof ventilators, skylight windows, satellite dishes, television aerials, microwave antennae or water heaters.
- (4) Development that relates to an existing building that is classified under the *Building Code of Australia* as class 1b or class 2–9 is exempt development only if:
- (a) the building has a current fire safety certificate or fire safety statement, or
 - (b) no fire safety measures are currently implemented, required or proposed for the building.

3.2 Complying development

Note. Under section 76A of the Act, development consent for the carrying out of complying development may be obtained by the issue of a complying development certificate.

The section states that development cannot be complying development if:

- (a) it is on land that is critical habitat of an endangered species, population or ecological community (identified under the *Threatened Species Conservation Act 1995* or the *Fisheries Management Act 1994*), or
- (b) it is on land within a wilderness area (identified under the *Wilderness Act 1987*), or
- (c) the development is designated development, or

4.5 Calculation of floor space ratio and site area

(1) Objectives

The objectives of this clause are as follows:

- (a) to define **floor space ratio**,
- (b) to set out rules for the calculation of the site area of development for the purpose of applying permitted floor space ratios, including rules to:
 - (i) prevent the inclusion in the site area of an area that has no significant development being carried out on it, and
 - (ii) prevent the inclusion in the site area of an area that has already been included as part of a site area to maximise floor space area in another building, and
 - (iii) require community land and public places to be dealt with separately.

(2) Definition of "floor space ratio"

The **floor space ratio** of buildings on a site is the ratio of the gross floor area of all buildings within the site to the site area.

(3) Site area

In determining the site area of proposed development for the purpose of applying a floor space ratio, the **site area** is taken to be:

- (a) if the proposed development is to be carried out on only one lot, the area of that lot, or
- (b) if the proposed development is to be carried out on 2 or more lots, the area of any lot on which the development is proposed to be

Clause 4.5	Canada Bay Local Environmental Plan 2008
Part 4	Principal development standards

carried out that has at least one common boundary with another lot on which the development is being carried out.

In addition, subclauses (4)–(7) apply to the calculation of site area for the purposes of applying a floor space ratio to proposed development.

(4) **Exclusions from site area**

The following land must be excluded from the site area:

- (a) land on which the proposed development is prohibited, whether under this Plan or any other law,
- (b) community land or a public place (except as provided by subclause (7)).

(5) **Strata subdivisions**

The area of a lot that is wholly or partly on top of another or others in a strata subdivision is to be included in the calculation of the site area only to the extent that it does not overlap with another lot already included in the site area calculation.

(6) **Only significant development to be included**

The site area for proposed development must not include a lot additional to a lot or lots on which the development is being carried out unless the proposed development includes significant development on that additional lot.

(7) **Certain public land to be separately considered**

For the purpose of applying a floor space ratio to any proposed development on, above or below community land or a public place, the site area must only include an area that is on, above or below that community land or public place, and is occupied or physically affected by the proposed development, and may not include any other area on which the proposed development is to be carried out.

(8) **Existing buildings**

The gross floor area of any existing or proposed buildings within the vertical projection (above or below ground) of the boundaries of a site is to be included in the calculation of the total floor space for the purposes of applying a floor space ratio, whether or not the proposed development relates to all of the buildings.

(9) **Covenants to prevent “double dipping”**

When consent is granted to development on a site comprised of 2 or more lots, a condition of the consent may require a covenant to be registered that prevents the creation of floor area on a lot (the restricted lot) if the consent authority is satisfied that an equivalent quantity of

Canada Bay Local Environmental Plan 2008

Clause 4.6

Principal development standards

Part 4

floor area will be created on another lot only because the site included the restricted lot.

(10) Covenants affect consolidated sites

If:

- (a) a covenant of the kind referred to in subclause (9) applies to any land (*affected land*), and
- (b) proposed development relates to the affected land and other land that together comprise the site of the proposed development, the maximum amount of floor area allowed on the other land by the floor space ratio fixed for the site by this Plan is reduced by the quantity of floor space area the covenant prevents being created on the affected land.

(11) Definition

In this clause, *public place* has the same meaning as it has in the *Local Government Act 1993*.

4.6 Exceptions to development standards

- (1) The objectives of this clause are:
 - (a) to provide an appropriate degree of flexibility in applying certain development standards to particular development, and
 - (b) to achieve better outcomes for and from development by allowing flexibility in particular circumstances.
- (2) Consent may, subject to this clause, be granted for development even though the development would contravene a development standard imposed by this or any other environmental planning instrument. However, this clause does not apply to a development standard that is expressly excluded from the operation of this clause.
- (3) Consent must not be granted for development that contravenes a development standard unless the consent authority has considered a written request from the applicant that seeks to justify the contravention of the development standard by demonstrating:
 - (a) that compliance with the development standard is unreasonable or unnecessary in the circumstances of the case, and
 - (b) that there are sufficient environmental planning grounds to justify contravening the development standard.
- (4) Consent must not be granted for development that contravenes a development standard unless:
 - (a) the consent authority is satisfied that:

Clause 4.6 Canada Bay Local Environmental Plan 2008
Part 4 Principal development standards

- (i) the applicant's written request has adequately addressed the matters required to be demonstrated by subclause (3), and
 - (ii) the proposed development will be in the public interest because it is consistent with the objectives of the particular standard and the objectives for development within the zone in which the development is proposed to be carried out, and
 - (b) the concurrence of the Director-General has been obtained.
- (5) In deciding whether to grant concurrence, the Director-General must consider:
- (a) whether contravention of the development standard raises any matter of significance for State or regional environmental planning, and
 - (b) the public benefit of maintaining the development standard, and
 - (c) any other matters required to be taken into consideration by the Director-General before granting concurrence.
- (6) Consent must not be granted under this clause for a subdivision of land in Zone RU1, RU2, RU3, RU4, RU6, R5, E2, E3 or E4 if:
- (a) the subdivision will result in 2 or more lots of less than the minimum area specified for such lots by a development standard, or
 - (b) the subdivision will result in at least one lot that is less than 90% of the minimum area specified for such a lot by a development standard.
- (7) After determining a development application made pursuant to this clause, the consent authority must keep a record of its assessment of the factors required to be addressed in the applicant's written request referred to in subclause (3).
- (8) This clause does not allow consent to be granted for development that would contravene any of the following:
- (a) a development standard for complying development,
 - (b) a development standard that arises, under the regulations under the Act, in connection with a commitment set out in a BASIX certificate for a building to which *State Environmental Planning Policy (Building Sustainability Index: BASIX) 2004* applies or for the land on which such a building is situated,
 - (c) clause 5.4.

- (1) The objective of this clause is to enable the Council to classify or reclassify public land as “operational land” or “community land” in accordance with Part 2 of Chapter 6 of the *Local Government Act 1993*.

Note. Under the *Local Government Act 1993*, “public land” is generally land vested in or under the control of a council (other than roads, Crown reserves and commons). The classification or reclassification of public land may also be made by a resolution of the Council under section 31, 32 or 33 of the *Local Government Act 1993*. Section 30 of that Act enables this Plan to discharge trusts on which public reserves are held if the land is reclassified under this Plan as operational land.

- (2) The public land described in Part 1 or Part 2 of Schedule 4 is classified, or reclassified, as operational land for the purposes of the *Local Government Act 1993*.

 - (b) continues to be affected by any trusts, estates, interests, dedications, conditions, restrictions or covenants that affected the land before its classification, or reclassification, as operational land.
- (5) The public land described in Part 2 of Schedule 4, to the extent (if any) that it is a public reserve, ceases to be a public reserve when the description of the land is inserted into that Part and is discharged from all trusts, estates, interests, dedications, conditions, restrictions and covenants affecting the land or any part of the land, except:

Clause 5.3

Miscellaneous provisions

Part 5

5.3 Development near zone boundaries

- (1) The objective of this clause is to provide flexibility where the investigation of a site and its surroundings reveals that a use allowed on the other side of a zone boundary would enable a more logical and appropriate development of the site and be compatible with the planning objectives and land uses for the adjoining zone.
- (2) This clause applies to so much of any land that is within the relevant distance of a boundary between any 2 zones. The relevant distance is 25 metres.
- (3) This clause does not apply to:

 - (a) the development is not inconsistent with the objectives for development in both zones, and
 - (b) the carrying out of the development is desirable due to compatible land use planning, infrastructure capacity and other planning principles relating to the efficient and timely development of land.
- (5) The clause does not prescribe a development standard that may be varied under this Plan.

Schedule 6 Transitional provisions for certain sites

(Clause 6.9)

Part 1 Development of certain land at Breakfast Point

1 Land to which this Part applies

This Part applies to the land that is former Lot 1, DP 716536, as shown on Sheet 4 of the Special Transitional Sites Map and identified as “B1”, “B2”, “B3” and “B4”.

2 Planning and development objectives for Breakfast Point

The objectives relating to the planning and development of the land to which this Part applies are as follows:

- (a) **Access, traffic management and parking**
 - (i) to provide a hierarchy of roads and landscape elements to distinguish access points and different types of circulation through Breakfast Point, and
 - (ii) to provide access to and through Breakfast Point that is safe and convenient for all users (for example, public transport, private vehicles, cyclists and pedestrians) and minimises adverse environmental amenity impacts, and
 - (iii) to ensure public pedestrian and cycle access along the foreshore and between the foreshore and adjoining public areas such as Cabarita Park, and
 - (iv) to provide convenient access for people with disabilities, and
 - (v) to encourage the establishment of a suitable ferry wharf, and
 - (vi) to encourage integrated public transport systems to service Breakfast Point and adjoining neighbourhoods, and
 - (vii) to provide adequate vehicle and bicycle parking, in terms of demand and design, for employees, residents and visitors,
- (b) **Built form and integration with adjoining development**
 - (i) to provide a variety of housing types and forms having regard to the needs of the community, and
 - (ii) to encourage buildings that physically address the public domain and particularly the street, and
 - (iii) to promote the integration of heritage buildings and items with new buildings and open space, and

Canada Bay Local Environmental Plan 2008

Schedule 6 Transitional provisions for certain sites

-
- (iv) to position low-rise buildings next to existing residential areas and provide a gradation of higher buildings towards the centre of Breakfast Point so that impacts of higher buildings on existing residential areas are contained, and
 - (v) to ensure the creation, retention and enhancement of significant vistas to and from Breakfast Point and, in particular, to and from the Parramatta River, and
 - (vi) to provide development that responds to the topography of Breakfast Point and incorporates the natural and man-made landscape features, and
 - (vii) to use appropriate separation between buildings as a means of providing acoustic and visual privacy, and
 - (viii) to recognise the unique characteristics and development objectives of the different precincts into which Breakfast Point is divided.

In general, these precincts and their respective characteristics and development objectives are as follows:

Precinct B1 generally comprises the southern part of Breakfast Point, adjoining existing residential areas in Brays Road and Bishop and Medora Streets. Its objective is to provide low-rise residential development that is of a scale, style and character sympathetic to existing residential development in the locality, without imitating that development.

Precinct B2 generally comprises the northern part of Breakfast Point fronting the Parramatta River. Its objectives are:

- to integrate future development with heritage items remaining in this precinct, and
- to encourage development that takes advantage of views and view corridors to and from the Parramatta River, and
- to provide supporting land uses around any ferry wharf, and
- to integrate other development with the public access and landscaped open space provided along the foreshore.

Canada Bay Local Environmental Plan 2008

Transitional provisions for certain sites

Schedule 6

Precinct B3 generally comprises the central part of Breakfast Point. Its objectives are:

- to encourage taller forms of development where adverse impacts on existing adjoining residential areas are less likely to occur and where views of the Parramatta River and beyond can be achieved, and
- to integrate new development with heritage items.

Precinct B4 generally comprises the western part of Breakfast Point, adjoining Tennyson Road and Emily Street. Its objectives are:

- to integrate future development with heritage items remaining in this precinct, and
- to encourage the location of non-residential uses in this precinct as well as residential uses.

(c) **Ecologically sustainable development**

to ensure ecologically sustainable development as a means of meeting the needs of the present without compromising the ability of future generations to meet their own needs,

(d) **Environmental amenity issues**

to provide development that addresses environmental amenity issues (both on the land to which this Part applies and in surrounding residential areas) such as noise levels, traffic generation, overshadowing, privacy, visual amenity and ecological sustainability,

(e) **Heritage**

- (i) to conserve and enhance the environmental heritage of the local government area of the City of Canada Bay, and
- (ii) to integrate heritage items with new development on Breakfast Point, and
- (iii) to incorporate in the pattern of uses of Breakfast Point a recognition of the former history of Breakfast Point by encouraging the adaptive re-use of heritage items through adaptation and modification, and the incorporation, if appropriate, of industrial artefacts,

(f) **Land use and density**

- (i) to promote a mix of land uses in a coordinated way combining business and employment opportunities in the area and opportunities for people to live and work in an urban village environment, and
- (ii) to provide development on Breakfast Point for primarily residential uses, including a proportion of housing

Canada Bay Local Environmental Plan 2008

Schedule 6 Transitional provisions for certain sites

-
- designed for the aged, persons with disabilities and those on a low income, and
 - (iii) to limit the scale and adverse impacts of non-residential uses and minimise their adverse impacts on residential areas, and
 - (iv) to encourage retailing and community uses that serve the local community,
 - (g) **Landscaping**
 - (i) to use landscaping as a means of enhancing the quality of the built environment and the perception of public accessibility of streetscapes and public spaces, and
 - (ii) to apply ecologically sustainable development principles as a part of the landscape design, and the on-going maintenance of landscaped areas, and
 - (iii) to include native flora species in landscaping for its scenic and habitat values, such plantings being of suitable maturity and species, and
 - (iv) to use landscaping as a means of providing acoustic and visual privacy by encouraging such devices as appropriate walls, screen planting and level changes,
 - (h) **Planning and development**
to ensure a holistic planning approach for the whole of Breakfast Point,
 - (i) **Public domain and open space**
 - (i) to provide development that enhances and complements an attractive and functional public domain, and
 - (ii) to provide development of open space for passive and active recreational use by residents, employees and the public, and
 - (iii) to provide public open space and ensure public access along the foreshore and linking to Cabarita Park and provide open space linkages throughout the site.
 - (iv) to provide view opportunities to and from the Parramatta River by means of the open space design, and
 - (v) to provide a hierarchy of open space areas of different sizes and functions that are interspersed throughout Breakfast Point.

Transitional provisions for certain sites

Schedule 6

-
- 2 primary vehicular access points to the land to which this Part applies will be or have been provided, one of which must be on the southern side of the land to which this Part applies and one of which must be on the western side of that land.
- (2) The consent authority must not grant consent to a development application relating to the land to which this Part applies unless it is satisfied that the proposed development is designed to have regard to such of the objectives relating to that land as are relevant to the proposed development.
- (3) The consent authority may, for the purpose of complying with subclause (2), consider the location of the boundaries between precincts to be approximate, but not to the extent that one or more precincts are extinguished and not to the extent that the objectives for each precinct cannot be met.
- (4) Despite Part 2 of this Plan, a person may, with the consent of consent authority, on the part of the land to which this Part applies that is defined as foreshore public open space, carry out development for the purpose of boatsheds, seawalls, slipways, jetties, wharves, waterway access stairs or swimming pools, or for the purpose of open space, landscaping, picnic facilities, cycleways or walking trails, accessible by the public, or carry out development that is, in the opinion of the consent authority, required by and ancillary to development elsewhere.
- (5) The consent authority must not grant consent to a development application relating to either:
- (a) any part of the land to which this Part applies which adjoins that part of the land to which this Part applies that is defined as foreshore public open space, or
 - (b) the foreshore public open space,
- unless the consent authority is satisfied that the proposed development is so designed as to have regard to the function of the foreshore public open space, and adequate access to and from the foreshore public open space and other public space (if any) on the remainder of the land to which this Part applies will be or has been provided.
- (6) The consent authority may only grant consent to development of the land to which this Part applies for the purpose of:
- (a) landscaping, or
 - (b) remediation, or
 - (c) demolition of buildings other than heritage items, or
 - (d) development that is, in the opinion of the consent authority, of a minor nature, if it has had regard to a plan identifying

numerically and graphically the Containment Cell Area or Areas that are to be constructed on the land to which this Part applies.

4 Carrying out works

A person must not, on the land to which this Part applies:

5 Development standards

- (1) Despite any other provision of this Plan (but subject to compliance with the Floor Space Ratio Map), a person may, with the consent of the consent authority, carry out development for the purpose of non-residential land uses on the land to which this Part applies, but only if:
 - (a) the total gross floor area of all buildings comprising the development does not exceed 15% of the total floor area permissible under the Floor Space Ratio Map for the land to which this Part applies, and
 - (b) the location of the development is considered suitable by the consent authority, having regard to the existing and likely future surrounding residential amenity and existing and likely future road and public transport access, and
 - (c) not more than 10,000m² of gross floor area will be used on the land to which this Part applies for the purpose of business premises and retail premises (whether or not in the same building).
- (2) The maximum number of dwellings that may be erected on the land to which this Part applies is 40 dwellings per hectare.
- (3) The consent authority must not grant consent for development for the purpose of non-residential buildings or land uses unless it is satisfied the traffic impacts on the road network will be equivalent to or less than the traffic impacts on the road network that would be generated by the maximum number of dwellings allowed by subclause (2) in the absence of any additional development.
