Regulations

New South Wales

Criminal Case Conferencing Trial Regulation 2008

under the

Criminal Case Conferencing Trial Act 2008

The Administrator, with the advice of the Executive Council, has made the following Regulation under the *Criminal Case Conferencing Trial Act 2008*.

JOHN HATZISTERGOS, M.L.C.,
Attorney General

Explanatory note

The object of this Regulation is to prescribe the form of a statement that must be given by a Magistrate to an accused person when the Magistrate sets a timeframe for the holding of a compulsory conference under the *Criminal Case Conferencing Trial Act 2008* in relation to an indictable offence alleged to have been committed by the person. The statement is to describe the effect of the compulsory conference and sentence discounting provisions of that Act and the accused person's rights under those provisions.

The Regulation also prescribes certain offences that are to be excluded from the compulsory conference provisions of that Act and prescribes the time at which a notice excluding an offence from the sentence discounting provisions of that Act must be tendered by the prosecution in cases where no compulsory conference is required to be held.

This Regulation is made under the *Criminal Case Conferencing Trial Act 2008*, including sections 6 (1) (a) (ii), 10 (2) and 22 (the general regulation-making power).

This Regulation comprises or relates to matters of a machinery matter.

Criminal Case Conferencing Trial Regulation 2008

under the

Criminal Case Conferencing Trial Act 2008

1 Name of Regulation

This Regulation is the *Criminal Case Conferencing Trial Regulation 2008*.

2 Definitions

- (1) In this Regulation:
the Act means the *Criminal Case Conferencing Trial Act 2008*.
- (2) Notes included in this Regulation do not form part of this Regulation.

3 Exclusion of offences from compulsory conferencing provisions

For the purposes of section 6 (1) (a) (ii), the following offences are prescribed:

- (a) an offence that is being heard together with an offence against a law of the Commonwealth,
- (b) an offence being prosecuted by a member of staff of the Office of the Director of Public Prosecutions of the Commonwealth.

4 Statement to be given by Magistrate

For the purposes of section 10 (2) of the Act, the form of words for the statement to be given by a Magistrate to an accused person is set out in Schedule 1.

5 Time for excluding offences under section 18 of the Act

- (1) For the purposes of section 18 (2) of the Act, the prosecutor may exclude an offence from the operation of section 16 of the Act by notice in writing tendered at the next appearance before the court by the prosecutor and the accused person (or the accused person's legal representative) after the service on the accused person of a copy of the brief of evidence.
- (2) This clause applies only in cases where there is no pre-conference disclosure certificate filed.

Criminal Case Conferencing Trial Regulation 2008

Schedule 1 Statement of effect of legislation and accused person's rights

Schedule 1 Statement of effect of legislation and accused person's rights

(Clause 4)

Statement**Compulsory conferences**

A compulsory conference is to be held in relation to the offence with which you have been charged.

Purpose of compulsory conference

The purpose of the compulsory conference is to determine whether there is any offence or are any offences to which you are prepared to plead guilty and whether you and the prosecution can reach agreement on certain other matters, such as the details of the agreed facts and facts in dispute in relation to any offence to which you have offered to plead guilty.

Who must attend the compulsory conference

Your legal representative and an officer from the Office of the Director of Public Prosecutions representing the prosecution are to attend the compulsory conference.

Documents to be provided to your legal representative

The prosecution must give a brief of evidence and then a pre-conference disclosure certificate to your legal representative before the holding of the compulsory conference. Those documents will outline the offence or offences with which you have been charged and the prosecution's case in relation to those offences.

Holding of compulsory conference

If you don't plead guilty, the pre-conference disclosure certificate will then be filed and the compulsory conference will be held.

If you plead guilty before the filing of the pre-conference disclosure certificate, the compulsory conference will not be held.

Outcome of compulsory conference

The prosecution and your legal representative will sign a compulsory conference certificate after the holding of the compulsory conference and that document will be filed with the court. The certificate will set out the offence or offences with which you have been charged and other matters arising from the compulsory conference, such as whether you offered to plead guilty to any offences and whether you or the prosecution rejected any such offers. It may also include whether you consider the brief of evidence to have been inadequate.

Criminal Case Conferencing Trial Regulation 2008

Statement of effect of legislation and accused person's rights

Schedule 1

The compulsory conference certificate can only be used by a sentencing court for limited purposes.

Disclosing any information in a compulsory conference does not count as a pre-trial disclosure for the purposes of any additional sentence discounts.

Sentence discounts

Maximum sentence discount for guilty plea before committal for trial

If you plead guilty before being committed for trial, you are entitled to a 25% discount on your sentence for the guilty plea.

Maximum sentence discount for guilty plea after committal for trial

If you plead guilty at any time after being committed for trial, a court may discount your sentence by up to 12.5% for the guilty plea depending on how much of a benefit will result from you pleading guilty at that stage of the proceedings. If the court considers there is no benefit gained from the guilty plea at that stage, no discount for the guilty plea will be allowed.

In certain exceptional circumstances, you may be allowed a sentence discount of up to 25%.

Prosecutor may exclude offences

The prosecution may exclude any offence from the operation of the sentence discounting provisions by a notice in writing filed with the court at the same time as the pre-conference disclosure certificate. The prosecution can only exclude an offence if the prosecutor is satisfied that the case in question is an extreme case and there is a high probability of conviction.

Environmental Planning and Assessment Amendment (Public Authorities and Planning Certificates) Regulation 2008

under the

Environmental Planning and Assessment Act 1979

The Administrator, with the advice of the Executive Council, has made the following Regulation under the *Environmental Planning and Assessment Act 1979*.

FRANK SARTOR, M.P.,
Minister for Planning

Explanatory note

The objects of this Regulation are to amend the *Environmental Planning and Assessment Regulation 2000*:

- (a) to include Australian Rail Track Corporation Ltd as a “public authority”, so as to provide it with the same rights and responsibilities as a public authority:
 - (i) in relation to Part 3A of the *Environmental Planning and Assessment Act 1979* for rail and related transport facilities under *State Environmental Planning Policy (Major Projects) 2005*, and
 - (ii) in relation to Part 5 of the Act for rail infrastructure facilities, development in and adjacent to rail corridors and development for particular railway projects that are permitted without consent under *State Environmental Planning Policy (Infrastructure) 2007* or any other planning instrument, and
- (b) to require a statement of whether there is a current site compatibility certificate, issued under *State Environmental Planning Policy (Housing for Seniors or People with a Disability) 2004* or *State Environmental Planning Policy (Infrastructure) 2007* (of which the council is aware), to be included in a planning certificate for that land issued under section 149 of the Act by a council.

This Regulation is made under the *Environmental Planning and Assessment Act 1979*, including sections 4 (1), 149 and 157 (the general regulation-making power).

**ALTERATION OF PURPOSE/CONDITIONS OF A
WESTERN LANDS LEASE**

IT is hereby notified that in pursuance of the provisions of Section 18J, Western Lands Act 1901, the purpose and conditions of the undermentioned Western Lands Lease have been altered as shown.

TONY KELLY MLC,
Minister for Lands

*Administrative District – Hillston North;
Shire – Wentworth;
Parish – Gol Gol & Cliffs;
County – Wentworth*

The purpose/conditions of Western Lands Lease 9473, being the land contained within Folio Identifier 1/1099648 has been altered from "Accommodation Paddock & Grazing" to "Grazing and Cultivation" effective from 07 March 2008.

As a consequence of the alteration of purpose/conditions rent will be assessed annually in line with the Western Lands Act 1901 and Regulations.

The conditions have been altered by the inclusion of the special conditions following.

SPECIAL CONDITIONS ATTACHED TO WESTERN
LANDS LEASE 9473

1. This Consent may be reviewed by the Western Lands Commissioner at any time, and the conditions may be altered. Unless the Commissioner determines otherwise, the holder of this Consent will be provided three calendar months in which to consult with the Commissioner or his delegate before any review or alteration is effected.
2. The lessee may request alteration of any condition upon payment of the fee as determined from time to time.
3. If the lessee commits, permits or suffers to occur any breach or default in the due observance and performance of any of the conditions of this Consent, then the Western Lands Commissioner may suspend the Consent, or after affording the lessee an opportunity to be heard, cancel or continue the Consent.
4. The lessee may reapply for a new Consent provided that he/she shall have complied with the conditions under the Consent throughout the period.
5. The lessee shall ensure that persons employed or otherwise engaged by him/her for the purpose of this Consent do not contravene the provisions of the Consent.
6. Every contractor, supervisor or other responsible person engaged in cultivation authorised by this Consent shall be familiar with and have ready access to this Consent, or a copy of this Consent and shall be able to produce the Consent within 24 hours when requested to do so by an authorised officer.
7. Cultivation is only permitted within the boundaries of the consent area as outlined by the yellow edge on the attached diagram.
8. Cultivation shall be carried out on the approximate contour.
9. All areas designated for exclusion are to remain permanently uncultivated.
10. Sandhills and other soils with a surface texture of loamy sand or coarser shall be left uncultivated unless specifically approved by the Commissioner.
11. Texture Contrast (or Duplex) soils are soil types which have a sandy to loamy topsoil abruptly overlying a clay subsoil and are prone to scalding (producing claypans and hummocks). Land within 60 metres of any texture contrast or duplex soil area shall not be cultivated except in accordance with a plan approved by the Commissioner.
12. Areas with a slope greater than 2% shall not be cultivated until any soil conservation measures considered necessary by the Land Management Officer of the Department of Lands have been implemented at the lessee's expense.
13. Access tracks to the area to be cultivated must be arranged in such a manner as to minimise the disturbance of any land surfaces within the areas required to be left uncultivated to comply with the conditions of this Consent.
14. Cultivation adjacent to a road is permitted; however, such cultivation shall be carried out such as to not interfere with road formation.
15. Incised drainage lines, other than man made structures, which carry water after storms shall be left uncultivated in the channels and for a distance of at least 20 metres on either side of the banks of the channels except when the Commissioner specifies otherwise.
16. There shall be no cultivation within 100 metres of the South Eastern property boundary fence-line as shown on the attached diagram.
17. Stubble shall be retained on the soil surface and shall not be burnt, except with the approval of the Commissioner or his delegate. Where such approval is granted, stubble burning is to be carried out as per the requirements of the NSW Rural Fire Service.
18. Cropping frequency will not be limited when land management actions such as stubble retention and pasture ley maintain soil fertility and prevent the risk or occurrence of soil erosion.
If the Commissioner considers that the land resource is at risk then the limits to cropping frequency may be imposed.
19. Long fallow shall only be carried out using approved conservation farming techniques. In the event that the commissioner is of the view that the soil is being depleted by the rotation adopted, a restricted rotation may be required
20. Livestock may be excluded from cultivated fallows by direction of the Commissioner or the Rangeland Management Officer.

21. The lessee shall maintain records of cultivation dates and methods; of cropping or pasture sowings; of the success or failure and yield (where relevant) of each sowing attempt and fertiliser or agricultural chemicals used. These records are to be made available to the Commissioner or his delegate upon request and the Commissioner may retain and use information from such records.
22. The lessee shall undertake any appropriate measures, at his/her own expense, ordered by the Commissioner to rehabilitate any degraded cultivated areas.
23. The lessee shall establish windbreaks, at his/her own expense, ordered by the Commissioner to provide adequate protection of the soil.
24. Cultivation and cropping are not to alter the natural flood regime. Crops are not to be protected by levees.
25. Aboriginal Sites are protected under the National Parks and Wildlife Act 1974, and are extremely vulnerable to many kinds of agricultural development.

Should any Aboriginal archaeological relics or sites be uncovered during the proposed works, work is to cease immediately. The lessee must consider the requirements of the National Parks and Wildlife Act 1974 with regards to Aboriginal relics. Under Section 90 it is an offence to damage or destroy relics without prior consent of the Director-General of the National Parks and Wildlife Service (NPWS). If a site is discovered the lessee should contact the Manager, Cultural Heritage Unit, National Parks and Wildlife Services on Phone (02) 6883 5324 or at 58-62 Wingewarra St, Dubbo.

ERRATUM

IN the Government Gazette of 14 March 2008, folio 2265 under the heading "Withdrawal of Lands from Western Lands Leases", the New Lease Area in Column 5 to title 3779/766192 should have read 21470 and to title 483/761342 should have read 26799.

ALTERATION OF PURPOSE/CONDITIONS OF A WESTERN LANDS LEASE

IT is hereby notified that in pursuance of the provisions of Section 18J, Western Lands Act 1901, the purpose and conditions of the undermentioned Western Lands Lease have been altered as shown.

TONY KELLY MLC,
Minister for Lands

*Administrative District – Hillston North;
Shire – Cobar;
Parish – Eribendery;
County – Blaxland*

The purpose/conditions of Western Lands Leases 12696, being the land contained within Folio Identifier 167/46652 has been altered from "Grazing" to "Grazing and Cultivation" effective from 29 April 2008.

As a consequence of the alteration of purpose/conditions rent will be assessed annually in line with the Western Lands Act 1901 and Regulations.

The term of the lease and the conditions have been altered by the inclusion of the special conditions following.

SPECIAL CONDITIONS ATTACHED TO WESTERN LANDS LEASE 12696

Dryland Cultivation

1. The lessee shall only cultivate an area of 2788 hectares as shown cross hatched on the diagram hereunder.
2. The lessee shall ensure that cultivation and associated activities do not interfere with any road formation within the allowable area.
3. Stubble shall be retained on the soil surface and shall not be burnt, except with the approval of the Commissioner or his delegate. Where such approval is granted, stubble burning is to be carried out as per requirements of the NSW Rural Fire Service.
4. The lessee shall undertake any appropriate measures, at his/her own expense, ordered by the Commissioner to rehabilitate any degraded cultivated areas.
5. The lessee shall establish windbreaks at his/her own expense as may be ordered by the Commissioner to provide adequate protection of the soil.
6. The lessee shall undertake any fuel management and/or provision of fire trail access in accordance with fire mitigation measures to the satisfaction of the NSW Rural Fire Service.
7. Cultivation and cropping are not to alter the natural flood regime. Crops are not to be protected by levees.

8. Cultivation is permitted over the whole area covered by this Consent unless the Commissioner has required that specific areas remain uncultivated.
9. Long fallow shall only be carried out using approved conservation farming techniques. In the event that the Commissioner is of the view that the soil is being depleted by the rotation adopted, a restricted rotation may be required.
10. Livestock may be excluded from cultivated fallows by direction of the Commissioner or the Rangeland Management Officer.

Irrigated Cultivation

1. The lessee shall only cultivate an area of 200 hectares as shown hatched on the diagram hereunder.
2. The lessee shall ensure that cultivation and associated activities do not interfere with any road formation within the allowable area.
3. Stubble shall be retained on the soil surface and shall not be burnt, except with the approval of the Commissioner or his delegate. Where such approval is granted, stubble burning is to be carried out as per requirements of the NSW Rural Fire Service.
4. The lessee shall undertake any appropriate measures, at his/her own expense, ordered by the Commissioner to rehabilitate any degraded cultivated areas.
5. The lessee shall establish windbreaks at his/her own expense as may be ordered by the Commissioner to provide adequate protection of the soil.
6. The lessee shall undertake any fuel management and/or provision of fire trail access in accordance with fire mitigation measures to the satisfaction of the NSW Rural Fire Service.
7. Cultivation and cropping are not to alter the natural flood regime. Crops are not to be protected by levees.
8. Cultivation is permitted over the whole area covered by this Consent unless the Commissioner has required that specific areas remain uncultivated.
9. Disposal of tailwater into creeks and rivers is controlled by the Department of Environment and Climate Change under the Protection of the Environment Act, 2003. Before disposing of any tailwater or water which may be contaminated with fertiliser, herbicide or pesticide the Department of Environment and Climate Change must be contacted.
10. The lessee shall ensure that no run-off will escape onto adjoining lands.

ERRATUM

IN the notification appearing in the Government Gazette of 11 April 2008, Folio 2672, appearing under the heading "Granting of a Western Lands Lease", Western Lands Lease 14930 should read Western Lands Lease 14993.

PLANT DISEASES ACT 1924

Proclamation P185

PROCLAMATION to regulate the importation, introduction and bringing into specified parts of New South Wales of certain fruit originating from or which has moved through other specified parts of New South Wales on account of an outbreak of Queensland fruit fly at Barellan, New South Wales.

The Administrator

The Honourable JUSTICE KEITH MASON, A.C.

I, the Honourable Justice Keith Mason, A.C., Administrator of the State of New South Wales, being of the opinion that the movement of fruit within a portion of New South Wales is likely to introduce the pest Queensland fruit fly (*Bactrocera tryoni*), with the advice of the Executive Council and pursuant to section 4 (1) of the Plant Diseases Act 1924 ("the Act"), do by this Proclamation regulate the movement of fruit within New South Wales in the manner set out in this Proclamation.

1. Host Fruit that originates from or that has moved through the:

- (a) Outbreak Area must not be imported, introduced or brought into the Suspension Area;
- (b) Suspension Area must not be imported, introduced or brought into the Outer Area,

unless:

- (i) a Plant Health Certificate or a Plant Health Assurance Certificate has been issued in respect of the Host Fruit, and
- (ii) the Host Fruit is transported and stored in accordance with any conditions relating to such matters which are stated in the Plant Health Certificate or the Plant Health Assurance Certificate, and
- (iii) the Plant Health Certificate or the Plant Health Assurance Certificate is in the possession of the driver of the vehicle transporting the Host Fruit or the person otherwise having custody or control of the Host Fruit while it is in the Suspension Area or the Outer Area as the case may be, and
- (iv) the Plant Health Certificate or the Plant Health Assurance Certificate is produced on demand to an inspector or a person authorised pursuant to section 11 (3) of the Act.

Definitions

In this Proclamation:

Department means the New South Wales Department of Primary Industries.

Host Fruit means the fruit specified in Schedule 1.

Outbreak Area means the part of New South Wales specified in Schedule 2.

CASINO CONTROL ACT 1992

Order

PURSUANT to section 66(1) of the Casino Control Act 1992, the Casino Control Authority does, by this Order, approve the following amendments to the rules for the playing of the game of "Poker" in the casino operated by Star City Pty Limited under licence granted by the Casino Control Authority on 14 December 1994:

- (1) Amendments to the rules for the playing of "Poker"
 - (a) Poker sub-rule 27.7.3 is repealed and in substitution therefor, the following new sub-rule 27.7.3 is approved:

27.7.3 Where two or more all-in players who would have been eligible for a place in the tournament are eliminated in the same

round of play, the winner/place getter shall be the player who had the higher table stake before the round of play in which they were eliminated commenced.

- (1) If two or more players are eliminated from the same table in a single round of play those players will attain a tournament ranking according to the value of each of their banks of tournament chips as at the commencement of that round of play. If those banks of tournament chips are of equal value, those players will attain an equal tournament ranking.
- (2) Without limiting clause 1) above, if two or more players are eliminated from two different tables on a corresponding round of play, those players will attain an equal tournament ranking, regardless of the value of each of their banks of tournament chips as at the commencement of that round of play.
- (3) Where Electronic Poker is in play and players had the same value of tournament chip account credits at the commencement of the round of play, then the higher ranking will be given to the player closest to the left of the button in a clockwise direction.

- (b) Poker sub-rule 27.9.2.4 is repealed and in substitution therefor, the following new sub-rule 27.9.2.4 is approved:

27.9.2.4 Where two or more all-in players who would have been eligible for a place in the tournament are eliminated in the same round of play, the winner/place getter shall be determined by a count back (as per rule 27.7.3).

This Order shall take effect on from the date of publication.

Signed at Sydney, this 30th day of April 2008.

"**Mini Baccarat/Even Money Mini Baccarat**" means a version of the game of Baccarat/Even Money Baccarat when played on a layout cloth marked in a manner substantially similar to that shown in diagrams "A", "B", "C", "D", "F", "G", "H", "I", "J" or "K";

"**multishuffler**" means a machine used for shuffling either four(4), six(6) or eight(8) decks of cards;

"**natural**" means a point count of eight or nine for either the Player's Hand or the Banker's Hand in the initial deal;

"**no bet coup**" means a coup which is dealt in accordance with these rules, except that no wagers are placed;

"**Perfect Pairs wager**" means an optional additional wager, which may be made by a player in accordance with rule 10.3;

"**point count**" means a total value of cards in a hand as determined in accordance with rule 3.3;

"**shuffling device**" means a device used for the shuffling of cards and from which cards are dealt (*Note* – does not include a multishuffler);

"**standoff**" means where a wager shall neither win nor lose;

"**table differential**" means the maximum allowable difference between the total amount wagered on the Player's Hand and the total amount wagered on the Banker's Hand for any coup;

"**tie**" means that both Player's Hand and the Banker's Hand have the same point count at the end of a coup;

"**void**" means invalid with no result;

"**WRD**" (**Winning Result Display**) means an electronic display that may, at the discretion of the casino operator, be attached to a table for the purposes of recording and/or displaying the present and most recent winning results at the table.

2. Table Layout and Equipment

- 2.1 The game of Baccarat shall be played at a table having numbered places for up to fourteen seated players and places for the dealer(s).
- 2.2 The layout cloth covering the table shall display the name and/or logo of the casino, or the name and/or logo of the Private Gaming Rooms, shall have areas designated for the placement of wagers by both seated and standing players and shall be marked in a manner substantially similar to that shown in diagram "A", "B", "C", "D", "E", "F", "G", "H", "I", "J" or "K" and having numbered spaces for between 6 and 14 seated players.
- 2.3 The following equipment shall also be used:
- 2.3.1 a card shoe or shuffling device;
- 2.3.2 a discard rack or holder capable of holding eight decks of cards;
- 2.3.3 two markers denoting "Player" and "Banker" respectively, which shall be used to indicate the players acting for the Player's Hand and the Banker's Hand respectively.
- 2.4 The table shall have a drop box attached to it.
- 2.5 Where the game in play is Even Money Baccarat a sign indicating the payout odds shall be displayed on the table.

2.6 Where the Dragon Bonus option is offered a sign indicating the payout odds shall be displayed on the table.

3. The Cards

3.1 The game of Baccarat shall be played with either three decks or four decks or six decks or eight decks of cards, each deck having 52 cards without jokers, with backs of the same colour and design and a cutting card, provided however that the Perfect Pairs option described in rule 10 shall be played with either six decks or eight decks of cards.

3.2 The value of the cards shall be as follows:

3.2.1 any card from 2 to 9 inclusive shall have its face value;

3.2.2 any ten, jack, queen or king shall have a value of zero; and

3.2.3 an ace shall have a value of one.

3.3 The point count of a hand shall be:

3.3.1 where the total value of the cards in the hand is a number between 0 and 9 inclusive, that number; or

3.3.2 where the total value of the cards in the hand is the number 10 or a higher number, the right digit of that number.

3.4 Cards shall be checked by a dealer or a casino supervisor or by use of a deck-checking device prior to use on a gaming table.

3.5 Cards may be checked, pre-shuffled and secured until such time as they may be required.

3.6 All cards used in the game of Baccarat shall be dealt from a card shoe or shuffling device specifically designed for such purpose.

3.7 No player or spectator shall handle, remove or alter any cards used in the game except as expressly permitted by these rules, and no dealer or other person shall permit a player or spectator to do so.

3.8 At the completion of the last coup as determined in accordance with rules 4.9 and 4.10 the cards may, at the discretion of a casino supervisor, be removed from the table and replaced by new cards. The new cards shall be shuffled in accordance with rule 4.1.

3.9 When cards are handled by players during any shoe, all the cards from that shoe shall be replaced.

3.10 Where a casino supervisor forms the opinion that the cards have become unfit for further use and provided no coup is in progress, the casino supervisor shall direct that the cards be replaced. The new cards shall be shuffled in accordance with rule 4.1.

4. The Shuffle and Cut

4.1 The dealer shall shuffle the cards so that they are randomly intermixed:

- 4.1.1 before the start of play (unless pre-shuffled cards are introduced);
 - 4.1.2 at the completion of the last coup as determined in accordance with rules 4.9 and 4.10 (unless pre-shuffled cards are introduced);
 - 4.1.3 after a coup if directed by a casino supervisor, where there is reason to suspect that the cards are not randomly intermixed.
- 4.2 Where pre-shuffled cards are to be introduced the dealer shall, upon the request of a player and with the approval of a casino supervisor, riffle shuffle the cards either prior to placing them into the shuffle machine or immediately prior to the cut.
- 4.3 After the cards have been shuffled, or when pre-shuffled cards have been introduced, the dealer shall offer the stack of cards, with backs facing away from him/her, to the players to be cut. The player to cut the cards shall be:
- 4.3.1 the first player to the table if the game is just commencing or another player designated by this patron;
 - 4.3.2 the player seated to the immediate left of the dealer or another player designated by this patron.
- 4.4 If the player designated in rule 4.3 refuses the cut, the cards shall be offered to each player moving clockwise around the table until a player accepts the cut. If no player accepts the cut, a casino supervisor shall cut the cards.
- 4.5 A person designated in rule 4.3 or 4.4 shall cut the cards by placing the cutting card in the stack at least one deck in from either end of the stack.
- 4.6 Once the cutting card has been inserted by the person designated in these rules the dealer shall arrange the cards so that all cards in front of the cutting card are placed to the back of the stack, after which the dealer shall insert the cutting card at least twenty cards in from the back of the stack. The stack of cards shall then be inserted in the card shoe for commencement of play.
- 4.7 Before the start of play following each shuffle and cut of cards, the dealer shall:
- 4.7.1 remove the first card from the card shoe or shuffling device, face up;
 - 4.7.2 draw, face down, additional cards equal in number to the face value of the first card drawn; and
 - 4.7.3 burn the first and additional cards drawn.
- 4.8 For the purposes of rule 4.7 a ten, jack, queen and king shall have a face value of ten and an ace a face value of one.
- 4.9 Subject to rule 4.10, whenever the cutting card appears during play, it shall be removed and placed to the side and the coup shall be completed. Upon completion of that coup, the dealer calling the game shall announce "last coup". Upon completion of one more coup, the cards shall be replaced or reshuffled.

- 4.10 Where the cutting card appears as the first card of a coup, it shall be removed and placed to the side and the dealer calling the game shall announce "last coup". Upon completion of the coup, the cards shall be replaced or reshuffled.
- 4.11 When a shuffling device is used, the cards shall be placed in the shuffling device to be shuffled and shall not be cut.
- 4.12 The dealer at the discretion of a casino supervisor may perform a manual shuffle prior to inserting the cards into the shuffling device.

5 Wagers

- 5.1 The wagers defined in this rule shall be the permissible wagers at the game of Baccarat:
- 5.1.1 a wager on the "Player's Hand" which shall -
- 5.1.1.1 win if the Player's Hand has a point count higher than that of the Banker's Hand;
 - 5.1.1.2 lose if the Player's Hand has a point count lower than that of the Banker's Hand;
 - 5.1.1.3 be declared a standoff if the point counts of the Player's Hand and the Banker's Hand are equal;
- 5.1.2 a wager on the "Banker's Hand" which shall -
- 5.1.2.1 win if the Banker's Hand has a point count higher than that of the Player's Hand;
 - 5.1.2.2 lose if the Banker's Hand has a point count lower than that of the Player's Hand;
 - 5.1.2.3 be declared a standoff if the point counts of the Banker's Hand and the Player's Hand are equal;
- 5.1.3 a "Tie" bet which shall win if the point counts of the Player's Hand and the Banker's Hand are equal and shall lose if such point counts are not equal.
- 5.2 All wagers shall be placed by means of chips and/or casino promotional tokens.
- 5.3 A wager by a player shall be placed on the appropriate wagering areas of the Baccarat layout prior to the first card being removed from the card shoe or shuffling device for each coup.
- 5.4 Subject to rule 12.12, until a decision and settlement has been made in respect of any wager, no wager may be handled, placed, increased or withdrawn after the first card of the coup has been removed from the card shoe or shuffling device.
- 5.5 Where the layout in use is A, B, C, D, F, G, H, I, J or K, a casino supervisor may permit up to three players to wager on any one wagering area of the layout.

- 5.6 Where the layout in use is E, wagers may be placed by standing players in the designated areas at the discretion of the casino supervisor. Unless prior approval has been granted by a Casino Duty Manager or above, standing players shall not participate in the cut of the cards or touch or handle the cards used in the game in any manner.
- 5.7 For any coup a player may wager on:
- 5.7.1 the Player's Hand; or
 - 5.7.2 the Player's Hand and Tie; or
 - 5.7.3 the Banker's Hand; or
 - 5.7.4 the Banker's Hand and Tie; or
 - 5.7.5 a Tie; or
 - 5.7.6 with the approval of a Casino Duty Manager, the Banker's Hand and the Player's Hand; or
 - 5.7.7 with the approval of a Casino Duty Manager, the Banker's Hand and the Player's Hand and a Tie.
- 5.8 Where it is not possible to pay a wager exactly in chips it shall be paid to the next highest amount to which payment can be made in chips.
- 6. Minimum and Maximum Wagers**
- 6.1 The minimum and maximum wagers permitted to be played by a player and/or for each playing area and/or the table differential shall be shown on a sign at the table. Unless stated on the sign, wagers are not required to be made in multiples of the minimum. The sign may also state the minimum unit in which wagers may be made above the table minimum.
- 6.2 Where, prior to the first card being removed from the card shoe or shuffling device, the total of the wagers for a coup is found to exceed the table differential or the table playing area maximum displayed on the table sign, the dealer may reduce wagers pro rata on either the Player's Hand or Banker's Hand so that the total no longer exceeds the table differential or the playing area maximum.
- 6.3 Where a table differential is in use and it is discovered after the first card of the coup has been removed from the shoe that the differential has been exceeded, then all wagers for that coup will be considered valid wagers.
- 6.4 A wager found to be below the stated minimum, after the first card has been removed from the card shoe or shuffling device, shall be valid.
- 6.5 A wager found to be above the stated maximum shall be paid or collected to the maximum. In the event that a player has been found to have wagered above the table differential or exceeded the table playing area maximum displayed on the table sign on any previous coup(s) the wagers and results of the previous coup(s) shall stand.
- 6.6 Players are responsible for ensuring that their wagers comply with the limits stated on the sign on the table.
- 6.7 A casino supervisor may alter the limits on a gaming table at any time except that a minimum wager can only be changed to a higher minimum if a sign indicating the new minimum and proposed time of change has been displayed at the table at least 20 minutes before the change.

- 6.8 A casino supervisor may allow a player to wager in excess of the stated maximum wagers permitted on that table, provided that a sign denoting the new minimum and maximum wagers for that player is placed on an appropriate area of the table.
- 7. The Initial Deal**
- 7.1 Immediately before the start of each coup, the dealer may announce "place your bets" and/or "no more bets".
- 7.2 There shall be two hands dealt, one of which shall be designated as the Player's Hand and the other as the Banker's Hand.
- 7.3 Four cards shall be dealt from the card shoe or shuffling device. The first and third cards shall respectively represent the first and second card of the Player's Hand and the second and fourth cards dealt shall respectively represent the first and second cards of the Banker's Hand.
- 7.4 Only where a card shoe is in use, the first three coups of any new shoe may be dealt as no bet coups. The dealer may announce "place your bets", and if no bets are placed in a reasonable time, the dealer will announce "first/second/last no bet coup" as applicable. The coup will then be dealt in accordance with the rules of the game.
- 7.5 Notwithstanding rules 7.4, 12.1.1 and 12.3, a Casino Duty Manager may permit a no bet coup to be dealt at a specific table at the request of a player(s), providing:
- 7.5.1 all other players at the table agree to a 'no bet coup' being dealt; and
- 7.5.2 no more than three no bet coups may be played consecutively.
- 8. Dealing Methods**
- 8.1 The game shall be conducted in accordance with one of the following dealing methods, namely 'Method A', 'Method B', 'Method C', 'Method D' or 'Method E' providing that the use of either 'Method D' or 'Method E' is approved by a person exercising the functions of a Casino Duty Manager or higher and providing that 'Method D' or 'Method E' is not used on the Main Gaming Floor or when a card shoe that is capable of scanning the cards is in use. The use of either "Method B" or 'Method C' on the Main Gaming Floor is subject to prior approval of, and subject to any conditions imposed by, an inspector.
- 8.2 The card shoe shall be retained by the dealer except when 'Method D' or 'Method E' is in use, providing that 'Method D' or 'Method E' are only conducted on a table layout marked in a manner substantially similar to that shown in diagrams 'C', 'E' or 'J' and Surveillance and an inspector are informed prior to either 'Method D' or "Method E" being used.
- 8.3 Where cards are passed to a player designated to receive them in accordance with these rules, that player may pick up the cards but must ensure that the cards:
- 8.3.1 remain continually in full view of everyone participating in the game; and
- 8.3.2 do not leave the area of the table layout nor are held away from the table.

- 8.4 A casino supervisor may at any time direct a player designated to receive the cards or card shoe to forfeit control of the cards or card shoe.
- 8.5 With the prior approval of a casino supervisor, where cards are passed to a player designated to receive them in accordance with these rules, that player may nominate another seated player or seated players to expose either both of the initial two and/or third card(s) on their behalf.

Method A

- 8.6 The dealer shall retain control of the cards for both the Player's Hand and the Banker's Hand and players shall not be permitted to handle the cards.
- 8.7 The dealer shall:
- 8.7.1 deal the first four cards face upwards, or face downwards and then expose the cards, to the areas designated on the table layout for both the Player's Hand and the Banker's Hand; and
 - 8.7.2 announce the point count of the Player's Hand and then the point count of the Banker's hand.
- 8.8 Any third card required to be dealt to the Player's Hand or the Banker's hand, in accordance with rule 9, shall be dealt in the same manner as the initial four cards.

Method B

- 8.9 The dealer shall offer a marker denoting "Player" or "Banker" to the seated players with the highest amount wagered on the Player's Hand and the Banker's Hand respectively. By accepting the marker, the player shall be required to receive the cards dealt to the Banker's Hand or Player's Hand.
- 8.10 If a player with the highest amount wagered on either hand refuses to accept the marker, the marker shall be passed to the player having the next highest amount wagered on the respective hand.
- 8.11 In the event that two or more persons have made a wager on either hand which constitutes the highest amount wagered in respect of that hand, the dealer shall first pass the marker to that player with the equal highest wager who occupies the seat nearest to the right of the dealer.
- 8.12 If that player refuses to accept the marker, the marker shall be passed by the dealer to the next person with the equal highest wager, moving counter clockwise around the table.
- 8.13 The dealer shall deal the first four cards face downwards and shall pass the cards for the Player's Hand and the Banker's Hand face downwards to the players indicated by the markers.
- 8.14 The cards for the Player's Hand and the cards for the Banker's Hand shall not be passed out at the same time. Only one set of cards, either the Player's Hand or the Banker's Hand, shall be handled by the players at any one time.
- 8.15 The cards for either the Player's Hand or the Banker's Hand shall be retained by the dealer in the event that:

- 8.15.1 no player has wagered on that coup; or
- 8.15.2 all players wagering on that coup refuse to accept the cards.
- 8.16 Having checked the cards the designated player may expose the hand and the dealer shall then:
 - 8.16.1 collect the cards and place them face upwards on the area designated on the layout; and
 - 8.16.2 turn over any cards that are not exposed by the players; and
 - 8.16.3 announce the point count of the Player's Hand and then the point count of the Banker's Hand.
- 8.17 Any third card required to be dealt to the Player's Hand or the Banker's Hand in accordance with rule 9 shall be dealt in the same manner as the initial four cards.

Method C

- 8.18 The dealer shall offer a marker denoting "Banker" to the seated players, starting with the player seated to the immediate right of the dealer. By accepting the marker, the player shall be required to place a wager on the Banker's Hand and to receive the cards dealt to the Banker's Hand.
- 8.19 If such player rejects the offer, the dealer shall offer the marker to each of the other seated players in turn counter clockwise around the table.
- 8.20 A player who has accepted the marker may pass it after any coup.
- 8.21 A player accepting the marker shall retain control of the Banker's cards until either the player elects to pass the marker or the Banker's Hand loses or the player is directed by the casino supervisor to forfeit control of the cards.
- 8.22 Should all players decline to accept the marker the game shall be dealt in accordance with 'Method A'.
- 8.23 The dealer shall deal the first four cards face downwards and shall pass the cards for the Banker's Hand face downwards to the player accepting the marker.
- 8.24 The dealer shall retain the cards for the Player's Hand.
- 8.25 Having checked the cards the designated player may expose the hand and the dealer shall then:
 - 8.25.1 collect the cards and place them face upwards on the area designated on the layout; and
 - 8.25.2 turn over any cards that are not exposed by the players; and
 - 8.25.3 announce the point count of the Player's Hand and then the point count of the Banker's Hand.

- 8.26 Any third card required to be dealt to the Player's Hand or the Banker's Hand in accordance with rule 9 shall be dealt in the same manner as the initial four cards.
- 8.27 When the Banker's Hand loses, the marker shall be offered counter clockwise around the table, starting to the immediate right of the last player accepting the marker.

Method D

- 8.28 At the commencement of each coup, the dealer shall offer the card shoe commencing with the player with the highest amount wagered on the area of the layout designated as 'Banker', or, in accordance with rule 8.32.2, 'Player', moving to the next highest wager should that player decline the card shoe, and so on until a player accepts the card shoe.
- 8.29 In the event that two or more persons have made a wager on either hand which constitutes the highest amount wagered in respect of that hand, the dealer shall first pass the card shoe to that player with the equal highest wager who occupies the seat nearest to the right of the dealer.
- 8.30 If that player refuses to accept the card shoe, the card shoe shall be passed by the dealer to the next person with the equal highest wager, moving counter clockwise around the table.
- 8.31 Should all players decline the card shoe, the coup shall be dealt in accordance with 'Method A', 'Method B' or 'Method C'.
- 8.32 For the purpose of dealing the cards, a player accepting the card shoe:
- 8.32.1 acts as 'Banker' playing the Banker's Hand with the dealer playing the Player's Hand; or
 - 8.32.2 with the prior approval of the casino supervisor, acts as 'Player' playing the Player's Hand with the dealer playing the Banker's Hand.
- 8.33 Marker buttons denoting 'Player' or 'Banker' shall be placed in front of the player accepting the card shoe and shall denote the hand to be played by the player.
- 8.34 A player who accepts the card shoe must only draw cards at the instruction of the dealer.
- 8.35 Having checked the cards the designated player may expose the hand and the dealer shall then:
- 8.35.1 collect the cards and place them face upwards on the area designated on the layout;
 - 8.35.2 turn over any cards that are not exposed by the players;
 - 8.35.3 announce the point count of the Player's Hand and then the point count of the Banker's Hand.
- 8.36 A third card required to be dealt to the Banker's Hand or Player's Hand in accordance with rule 9 shall be dealt in the same manner as the initial four cards.

Method E

- 8.37 The dealer shall offer the card shoe counter-clockwise commencing with the player seated to the immediate right of the dealer and who has placed a wager. By accepting the card shoe, the player shall be required to place a wager on the Banker's Hand or, in accordance with rule 8.39.2, the Player's Hand.
- 8.38 Should all players decline the card shoe, the game shall be dealt in accordance with either 'Method A', 'Method B' or 'Method C'.
- 8.39 For the purpose of dealing the cards, a player accepting the card shoe:
- 8.39.1 acts as 'Banker' playing the Banker's Hand with the dealer playing the Player's Hand; or
 - 8.39.2 with the prior approval of the casino supervisor, acts as 'Player' playing the Player's Hand with the dealer playing the Banker's Hand.
- 8.40 A player accepting the card shoe shall retain control of the card shoe until either the player elects to pass the card shoe or the player's wager loses or the player is directed by the casino supervisor to forfeit control of the card shoe.
- 8.41 Marker buttons denoting 'Player' or 'Banker' shall be placed in front of the player accepting the card shoe and shall denote the hand to be played by the player.
- 8.42 A player who accepts the card shoe must only draw cards at the instruction of the dealer.
- 8.43 Having checked the cards the designated player may expose the hand and the dealer shall then:
- 8.43.1 collect the cards and place them face upwards on the area designated on the layout;
 - 8.43.2 turn over any cards that are not exposed by the players;
 - 8.43.3 announce the point count of the Player's Hand and then the point count of the Banker's Hand.
- 8.44 A third card required to be dealt to the Banker's Hand or Player's Hand in accordance with rule 9 shall be dealt in the same manner as the initial four cards.
- 8.45 When the Banker's Hand, or in accordance with rule 8.39.2 the Player's Hand, loses the card shoe shall be offered counter clockwise around the table, starting to the immediate right of the last player accepting the card shoe.
- 9. Dealing of Additional Cards**
- 9.1 Following the announcement of the point counts of each hand, a third card shall be dealt to each hand if so required pursuant to rules 9.2 to 9.6 inclusive.
- 9.2 If the point count of the Player's Hand or the Banker's Hand after the initial four cards are dealt is 8 or 9, which is called a "natural", no more cards shall be dealt to either hand.

9.3 If the point count of the Banker's Hand is 0 to 7 inclusive after the initial four cards are dealt, the Player's Hand shall:

9.3.1 draw (i.e. take a third card); or

9.3.2 stand (i.e. not take a third card),

in accordance with the requirements of Table 1 below.

TABLE 1 : PLAYER'S HAND

A Player having a point count of:-	
0-1-2-3-4-5-	Draws a card
6-7	Stands
8-9	Has a natural and cannot draw

9.4 When the 'Player's Hand' draws, the 'Banker's Hand' shall:

9.4.1 draw (i.e. take a third card), or

9.4.2 stand (i.e. not take a third card),

in accordance with the requirements of Table 2 below.

- 10.3.3.2 a sign advising players of the restriction is displayed at the table.
- 10.3.4 Where players are not required to have placed an initial wager in accordance with rule 5, there must be at least one initial wager placed on either the Banker’s Hand, the Player’s Hand or the Tie in accordance with rule 5 before a player(s) may make a Perfect Pairs wager and the cards are dealt for that coup.
- 10.3.5 Up to three Perfect Pairs wagers shall be allowed per playing area and a player may only place one Perfect Pairs wager on the Banker’s Hand and/or Player’s Hand per coup. Subject to rule 10.3.3, preference of wagering will be given to those players who have also placed an initial Baccarat wager in accordance with rule 5, with any available positions going to other players in the order that wagers are placed.
- 10.3.6 For the purposes of playing “Perfect Pairs” a pair shall mean a hand that comprises the first two cards dealt to either the Banker’s Hand or the Player’s Hand that are:
- 10.3.6.1 of the same number, namely, Ace, 2, 3, 4, 5, 6, 7, 8, 9 or 10; or
- 10.3.6.2 of the same picture type, namely jack, queen or king.
- 10.3.7 Where a Perfect Pairs wager is made on either the Banker’s Hand or the Player’s Hand and the initial two cards dealt to that particular hand in that coup are:
- 10.3.7.1 A “Mixed Pair” being a pair that comprises two cards of the same number or picture type but of different colours (i.e. one red card and one black card), the player shall win and be paid at the odds of five to one;
- 10.3.7.2 A “Coloured Pair” being a pair that comprises two cards of the same number or picture type and colour but of different suits (i.e. clubs and spades), the player shall win and be paid at the odds of ten to one;
- 10.3.7.3 A “Perfect Pair” being a pair that comprises of two cards of the same number or picture type and suit (i.e. two queens of spades or two 5 of clubs), the player shall win and be paid at the odds of thirty to one.

- 10.3.8 Losing Perfect Pairs wagers shall be collected and winning Perfect Pairs wagers paid by the dealer at settlement.
- 10.4 Dragon Bonus**
- 10.4.1 Where the Dragon Bonus wager is offered, and the game of Baccarat is played at a table with a layout cloth marked in a manner substantially similar to that shown in diagram “H”, “I” or “K”, a player may elect to place a Dragon Bonus wager on the Banker’s Hand and/or the Player’s Hand before the coup commences. Dragon Bonus wagers shall be placed in the appropriate playing area of the layout.
- 10.4.2 The amount required to make a Dragon Bonus wager shall be shown on a sign at the table.
- 10.4.3 A Casino Duty Manager may limit the placement of Dragon Bonus wagers to those players who have also placed an initial Baccarat wager in accordance with rule 5, providing:
- 10.4.3.1 prior notification of the restriction is given to Surveillance and an inspector; and
- 10.4.3.2 a sign advising players of the restriction is displayed at the table.
- 10.4.4 Where players are not required to have placed an initial wager in accordance with rule 5, there must be at least one initial wager placed on either the Banker’s Hand, the Player’s Hand or the Tie in accordance with rule 5 before any player may make a Dragon Bonus wager and the cards are dealt for that coup.
- 10.4.5 Up to three Dragon Bonus wagers shall be allowed per playing area and a player may only place one Dragon Bonus wager on the Banker’s Hand and/or Player’s Hand per coup. - 10.4.7.3 win if the point count total of the Player's Hand does not form a natural and is five points higher than the Banker's Hand; or
- 10.4.7.4 win if the point count total of the Player's Hand does not form a natural and is six points higher than the Banker's Hand; or
- 10.4.7.5 win if the point count total of the Player's Hand does not form a natural and is seven points higher than the Banker's Hand; or
- 10.4.7.6 win if the point count total of the Player's Hand does not form a natural and is eight points higher than the Banker's Hand; or
- 10.4.7.7 win if the point count total of the Player's Hand does not form a natural and is nine points higher than the Banker's Hand; or
- 10.4.7.8 be declared a standoff if the Player's Hand and Banker's Hand both form a natural with the same point count total;
- but otherwise shall lose.
- 10.4.8 Winning Dragon Bonus wagers will be settled in accordance with one of the prize schedules approved by the Authority. The applicable odds will be displayed on a sign at the table.

11. Settlement

- 11.1 Settlement of wagers after the announcement of the result of the coup shall be as follows:
- 11.1.1 a winning wager on the Player's Hand shall be paid at the odds of 1 to 1;
- 11.1.2 a winning wager on the Banker's Hand shall be paid at the odds of 19 to 20;
- 11.1.3 a winning wager on a Tie bet shall be paid at the odds of 8 to 1.
- 11.2 Where the game in play is Even Money Baccarat, settlement of wagers after the announcement of the result of the coup shall be as follows:
- 11.2.1 a winning wager on the Player's Hand shall be paid at odds of 1 to 1;

- 11.2.2 a winning wager on the Banker's hand shall be paid at odds of 1 to 1 except where the winning hand has a point count of 6 which shall be paid at odds of 1 to 2;
- 11.2.3 a winning wager on a Tie bet shall be paid at odds of 8 to 1.

12. Irregularities

- 12.1 If at any time during a coup the dealer or designated player:
- (a) Deals the cards in such a way as to cast doubt on the correct order of the cards, or;
 - (b) Incorrectly deals the cards and the error is detected and notified to gaming staff prior to the commencement of the next coup;

The following shall apply:

- 12.1.1 a reconstruction of the cards shall be attempted in order to comply with the dealing procedures of rule 7.3 and/or rule 9. After the reconstruction has occurred, each player shall have the option of removing his or her wager prior to the coup resuming provided that once it has been removed, it cannot be replaced or remaining wagers either added to or reduced. If all wagers are removed, then a no bet coup will be dealt.
 - 12.1.2 where a coup cannot be reconstructed, the casino supervisor shall authorise that the coup be declared void and all monies returned for that coup. Play shall then continue with the remaining cards in the card shoe or shuffling device.
 - 12.1.3 where a card shoe is in use, and the requirements of 12.1.2 have been met the casino supervisor may, with the agreement of all players, remove the remaining cards from the card shoe and shuffle or replace the cards.
 - 12.1.4 should such an error not be notified to gaming staff prior to the commencement of the next coup, or prior to removal of all cards from a shoe or the closure of the table, then this will have the same effect as the "commencement of the next coup" and the results for all previous coups shall stand.
- 12.2 A third card dealt to the Player's Hand when no third card is authorised by these rules shall become the third card of the Banker's Hand if the Banker's Hand is obliged to draw in accordance with these rules. If the Banker's Hand is required to stand, the card dealt in error shall become the first card of the next coup.
- 12.3 If a card that would have been the first card of a coup has been disclosed or is found face upwards in the card shoe or shuffling device, that card shall become the first card of a no bet coup.
- 12.4 When a no bet coup arises, the cards shall be dealt in accordance with Method A, and no wagers shall be permitted.
- 12.5 If a card is found face upwards in the card shoe or shuffling device after the first card of a coup has been dealt, the card shall be played as if it were found face downwards.

- 12.5.1 where a shuffling device is used and there is reason to suspect that further cards may be incorrectly faced in the shuffling device, a casino supervisor may, after the coup has been completed, direct that all remaining cards be removed from the shuffling device and checked.
- 12.6 If there are found to be insufficient cards in the card shoe to complete a hand that coup shall be void.
- 12.7 In the event that the cards are not cut in accordance with rules 4.3 and 4.4, the dealer shall complete the coup. The cards shall then be shuffled and cut in accordance with these rules. The results of previous coups shall stand.
- 12.8 Should the dealer forget to burn the first and/or any additional cards from the card shoe or shuffling device in accordance with rule 4.7, then play shall continue with those cards remaining in play.
- 12.9 In the event that the cards are not shuffled following the exposure of the cutting card, subject to rule 12.7, the dealer shall complete coup. The cards shall then be shuffled and cut in accordance with these rules. The results of previous coups shall stand.
- 12.10 In the event that the game in play is Even Money Baccarat and the dealer settles wagers in accordance with rule 11.1 or where the game in play is Baccarat and the dealer settles the wagers in accordance with rule 11.2 the following shall apply:
- 12.10.1 the results of all previous coups shall stand; and
- 12.10.2 the game will then continue in accordance with the approved rules for the game in play.
- 12.11 In the event that a card(s) is found to be missing from a card shoe or shuffling device; or a card(s) is found that does not form part of the 52 cards that make up a deck in accordance with rule 3.1, the following shall apply:
- 12.11.1 the result of any coups previously completed shall stand; and
- 12.11.2 the coup where the missing card(s) is discovered or the foreign card(s) is found shall be declared void and all monies returned for that coup; and
- 12.11.3 the remainder of the cards in the card shoe or shuffling device shall then be removed and the decks checked for any further missing or foreign cards.
- 12.12 With the exception of dealing method A, and only prior to any cards being exposed, a Casino Duty Manager or above may modify the application of rule 5.4 if it is apparent that given the circumstances, strict application of the rule would be unfair to the player(s).
- 12.13 Where a card shoe that is capable of scanning the cards is in use and if there is a discrepancy between the actual cards dealt and the results of the coup indicated by the card shoe, a casino supervisor must seek to confirm the actual outcome. If a casino supervisor is unable to confirm the actual outcome, the casino supervisor shall declare the coup void.
- 12.14 The WRD unit must be disregarded if the WRD unit displays a result other than the actual outcome.

13. Shuffling Device Malfunction

- 13.1 This rule, and rules 13.2 to 13.3, apply if all of the following conditions are satisfied:
- 13.1.1 a shuffling device is in use for a game of Baccarat; and
 - 13.1.2 it becomes evident, in a coup for which 1 or more cards have been dealt, that the shuffling device is no longer capable of operating in the way it is intended to operate; and
 - 13.1.3 the malfunctioning of the shuffling device has not operated to the disadvantage of the casino operator or a player; and
 - 13.1.4 another shuffling device is readily available; and
 - 13.1.5 it is practicable to transfer cards to another shuffling device.
- 13.2 Where a shuffling device malfunctions without causing any damage to the cards in the shuffling device, the cards in the shuffling device must be transferred to another shuffling device and the game continued.
- 13.3 Where a shuffling device malfunctions and causes damage to any card in the shuffling device:
- 13.3.1 the damaged cards in the malfunctioning shuffling device are to be removed from play; and
 - 13.3.2 the undamaged cards still in the malfunctioning shuffling device are to be transferred from the malfunctioning shuffling device to another shuffling device; and
 - 13.3.3 the damaged cards are to be replaced with cards from a new deck, and the replacement cards are to be placed in the shuffling device containing the cards transferred from the malfunctioning shuffling device; and
 - 13.3.4 the game is continued.
- 13.4 Where a shuffling device malfunctions and the casino operator or a player is disadvantaged by reason of the malfunction, the coup is terminated, and the amount wagered by each player must be returned to the player. The result of any coups previously completed shall stand.
- 13.5 Where a shuffling device malfunctions and rules 13.1.4 or 13.1.5 can not be satisfied:
- 13.5.1 each player must be given the opportunity to have each amount wagered by the player in the coup returned to the player; and
 - 13.5.2 any damaged card must be replaced with cards from a new deck; and
 - 13.5.3 the replacement cards, if any, and any undamaged cards in the shuffling device are to be shuffled and cut in the same way as applies under rule 4; and

- 13.5.4 the coup for the players who elected not to have their wagers returned is completed using a card shoe.

14. General Provisions

- 14.1 A person shall not, either alone or in concert with any other person, use or control at or near a gaming table or location related to the playing of a game a calculator, computer, or other electronic, electrical or mechanical apparatus or device that is capable, with respect to a game or a part thereof, of recording, projecting, analysing or transmitting an outcome or the changing probabilities or the playing strategies to be used.
- 14.2 Rule 14.1 shall not apply to use or control by an agent or employee of the casino operator or an inspector where such person is acting in the course of their duty.
- 14.3 Where a casino supervisor is satisfied that a person has contravened any provision of rule 14.1, he/she may:
- 14.3.1 declare that any wager made by the person is void;
- 14.3.2 direct that the person shall be excluded from further participation in the game;
- 14.3.3 exclude the person from the casino in line with the provisions of section 79 of the Act;
- 14.3.4 cause the person(s) in possession of a prohibited device to be detained until such time as an inspector or a police officer has attended and assumed responsibility for the situation.
- 14.4 A casino supervisor may invalidate the outcome of a game if:
- 14.4.1 the game is disrupted by civil commotion, fire, riot, brawl, robbery, an act of God; or
- 14.4.2 any fraudulent act is perpetrated by any person that, in the opinion of the casino supervisor, affects the outcome of the game.
- 14.5 Where the outcome of a game is invalidated under rule 14.4, all wagers made by the players for that particular result may be refunded provided that a casino supervisor may direct that the wager of any player referred to in rule 14.4.2 be forfeited.
- 14.6 A player shall not be advised by an employee of the casino on how to play, except to ensure compliance with these rules.
- 14.7 No spectator or any player wagering at any table may, unless requested by a player, attempt to influence, influence or offer advice to that player regarding that player's decisions of play.
- 14.8 A casino supervisor may change the game in play (from or to Even Money Baccarat) providing that a sign indicating the game to be implemented and the proposed time of the change has been displayed at the table at least 20 minutes prior to the change or with the consent of all players participating in the current game.

- 14.9 A casino supervisor may close a gaming table at which players are present provided a sign showing the proposed time of closure has been displayed at the table for at least 20 minutes before the closure.
- 14.10 Notwithstanding rule 7.4 and 7.5, a player who abstains from placing any wagers for three consecutive coups, while all other seats or positions at the table are in use, may be required to vacate his/her seat or position.
- 14.11 Players and spectators are not permitted to have side bets with or against each other.
- 14.12 A casino supervisor or above may refuse, on reasonable grounds, any wager made by a player prior to the first card of a round of play being removed from the card shoe or shuffling device, and in so doing may cause the wager(s) to be removed from the layout.
- 14.13 Any dispute or complaint concerning a casino game shall be referred for decision in the first instance to a games supervisor, subject to a review (if requested) by a casino supervisor. In the absence of a games supervisor the matter must be referred in the first instance to a casino supervisor.
- 14.14 In any dispute arising from these Rules, the decision of the casino operator is final. Where any person is not satisfied with a decision of the casino operator relating to the conduct of gaming, the person will be advised their right to lodge a complaint with an inspector under section 110 of the Act.
- 14.15 A copy of these rules shall be made available for inspection upon request.

15 **Tournament Play**

15.1 **Definitions**

- 15.1.1 In these rules, unless the contrary appears:

“buy-in” means the prescribed amount of money to be converted into tournament chips by each tournament player prior to each session or final for participation in the tournament;

“marker” means an indicator which may be used to indicate the wagering order;

“pass card” an approved card which may be used by a tournament player in lieu of a wager in a round of play;

“play-off” means any session of play the purpose of which is to determine a winner and/or placegetter(s) of a session where two or more tournament players have finished that session with an equal value of chips other than zero;

“session” means a set time period, measured using a clock or determined by some other means, at the completion of which the winner and/or placegetter(s) advance to a further or final session;

“tie” means that two (2) or more tournament players have equal value amounts of tournament chips at the conclusion of a heat or final;

“tournament” means a competition for the playing of Baccarat, which is restricted to persons who have completed an entry form and have paid the prescribed entry fee;

“**tournament chips**” are chips issued to tournament players for the purposes of wagering and scoring in tournament play. In cases where tournament chips have a cash value, the chips shall be redeemable for cash chips at the same percentage value at which they were issued, at the conclusion of a session or when leaving the table. The tournament terms and conditions shall detail the ratios at which tournament chips with a cash value are issued and redeemed for cash chips;

“**Tournament Manager**” means a licensed person(s) appointed by the casino operator and responsible for the overall control of the tournament;

“**undisclosed wager**” means a wager made by a tournament player by writing the amount and type of wager on an approved form the details of which shall not be revealed to any other tournament player at the table until after the conclusion of the round of play in which the wager was placed;

15.2 Application of Baccarat rules

- 15.2.1 The rules for playing of Baccarat other than sub rules 6.4, 6.5, 6.7 and 6.8 shall apply, except where the rules are inconsistent with the rules for tournament play, in which case the rules for tournament play shall prevail.

15.3 Entry fees/prize pool for tournament

- 15.3.1 The casino operator may charge tournament players a fee to enter a tournament and may add value to the prize pool in the form of cash, goods or services.
- 15.3.2 All entry fees received by the casino operator shall be included in a prize pool for distribution to the winning tournament players in accordance with the conditions of play and no entry fee or part thereof shall be refunded to any person unless specifically permitted by the conditions of entry.
- 15.3.3 The casino operator may guarantee the prize pool based on a minimum number of entries being received. Should the number of entries be less than the minimum requirement, the casino operator may reserve the right to cancel the tournament.
- 15.3.4 The casino operator may cancel the tournament without liability. In the event of cancellation all entry fees will be refunded.

15.4 Tournament conditions

- 15.4.1 Dealing methods D and E shall not be used for tournament play.
- 15.4.2 The casino operator is to publish and provide to each tournament player a copy of the tournament conditions.
- 15.4.3 The tournament conditions must include, but is not limited to, the following:
- (a) the amount of the entry fee, if any;
 - (b) the amount of tournament chips to be allocated to or purchased by the tournament player at the commencement of a session;
 - (c) whether there is a minimum or compulsory wager for each round of play in a session;

- (d) the minimum and maximum wagers for each round of play in a session including, if applicable, the point at which the minimum and/or maximum wager may be increased during a session;
- (e) the structure of the tournament, including the dealing method to be used, the number and duration of rounds or sessions and the number of gaming tables to be active in each round or session, the method of progression from round to round or session to session; repechage, catch-up or secondary rounds or sessions;
- (f) the conditions of play applicable to the allocation of tables and wagering areas, the order of wagering, the use of pass cards and undisclosed wagers;
- (g) whether there is one or more opportunities for an eliminated tournament player to buy back into the tournament, and the method and timing of those opportunities;
- (h) in respect of eligibility for entry:
 - (i) a statement that only persons entitled to enter the casino and gamble are eligible to enter the tournament; and
 - (ii) if the casino operator is reserving the right generally to deny entry to the tournament, a statement that the casino operator may refuse any application; and
 - (iii) if the casino operator is applying general selection criteria to determine eligibility to enter the tournament, those criteria;
- (i) the terms of entry (including the period within which an tournament player may withdraw without financial penalty), the application form and the minimum and maximum numbers of tournament players;
- (j) the prizes and the method of payment and any undertaking, reservation or guarantee given by the casino operator, if applicable;
- (k) a statement that the tournament is conducted by the Tournament Manager in accordance with the tournament conditions and the applicable rules of the game and that, in the event of any inconsistency, the rules prevail.

15.4.4 The Tournament Manager may require each tournament player to agree in writing with the approved Rules and Conditions of the tournament prior to accepting entry into the tournament.

15.5 Conduct of Play

15.5.1 The Tournament Manager shall designate the gaming tables to be used in the conduct of the tournament.

15.5.2 The casino operator must ensure that, during any session or round of a tournament, a gaming table designated under rule 15.5.1 is used exclusively for tournament play.

15.5.3 The Tournament Manager may alter the starting time of any session, if reasonable notice has been given to the tournament players.

- 15.5.4 The Tournament Manager may determine the method of allocating tables and playing areas to tournament players, the order of wagering, the conditions applicable to the use of pass cards and undisclosed wagers, providing those conditions are consistent with the relevant rules of the game.
- 15.5.5 The Tournament Manager may conclude the play of a session or round at a particular gaming table prior to the completion of the scheduled number of hands or the scheduled completion time:
- 15.5.5.1 if the tournament player or players to progress to the following session from that gaming table or round have been determined; and
- 15.5.5.2 if the tournament conditions provide for the disposition of tournament chips in cash at the end of the session or round, providing all the tournament players at the gaming table agree.
- 15.5.6 Where a tournament player does not take an allotted seat at the specified time or is absent during a session the Tournament Manager may:
- 15.5.6.1 direct the dealer to deduct an amount equal to the minimum wager from the set amount of tournament chips for each round of play for which the tournament player is absent, to a maximum of three rounds of play; and/or
- 15.5.6.2 declare the tournament player's position cancelled and the tournament player disqualified. Once disqualified a tournament player will not be entitled to a refund of the entry fee except on the approval of the Tournament Manager but will retain the value of tournament chips won or purchased in accordance with these rules.
- 15.5.7 The Tournament Manager may disqualify a tournament player if found to have contravened any of the rules of Baccarat or tournament play and shall not be entitled to receive a refund of the entry fee but will, subject to rule 14.5, retain the value of tournament chips won or purchased in accordance with these rules.
- 15.5.8 At the completion of each session of play, dealers and/or casino supervisors shall total the value of tournament chips in front of each remaining tournament player. This amount is to be recorded and given to the Tournament Manager who will determine and announce the winners or place getters.
- 15.5.9 At the conclusion of each session of play, dealers and/or casino supervisors are to ensure that all tournament chips have been returned to the inventory. If a situation arises where tournament chips have not been returned to the table, the Tournament Manager is to be advised and the quantity and denomination recorded.
- 15.6 Wagers**
- 15.6.1 All wagers will be made with tournament chips.
- 15.6.2 Prior to the start of any session, each tournament player will receive or purchase an equivalent allotment of tournament chips at the table.
- 15.6.3 Any tournament player who cannot provide the prescribed buy-in prior to the commencement of each session shall be eliminated and the entry fee will not be refunded.

- 15.6.4 A tournament player must wager at least the minimum and no more than the maximum on each round of play during the session. A player who fails to wager on each round of play shall be disqualified unless he/she has played a pass card in accordance with rule 15.7.
- 15.6.5 Tournament players will be disqualified if they increase, or attempt to increase their buy-in by any other means than the payment of winning wagers by the dealer. No such tournament player shall be entitled to a refund of entry fee but will retain the value of tournament chips won or purchased in accordance with these rules.
- 15.6.6 Tournament players may not remove their tournament chips from the table. All chips must remain in full view of tournament players and staff whilst play is in progress. Tournament players must not exchange chips with other tournament players for any reason.
- 15.6.7 The Tournament Manager shall disqualify any tournament player found to be deliberately concealing, pocketing or otherwise hiding chips during tournament play. No such tournament player shall be entitled to a refund of entry fee but will retain the value of tournament chips won or purchased in accordance with these rules.
- 15.6.8 All wagers must be made and paid with the approved tournament chips.
- 15.6.9 Tournament chips in the possession of a tournament player at the conclusion of each session of play shall remain the property of the casino operator. In cases where tournament chips have a cash value the chips shall be redeemable for cash chips at the same percentage value at which they were issued, at the conclusion of a session or when leaving the table. The tournament terms and conditions shall detail the ratio at which tournament chips with a cash value are issued and redeemed for cash chips.
- 15.6.10 A tournament player shall wager only from their allocated position.
- 15.6.11 Subject to reasonable notice, the Tournament Manager may limit the time period within which individual wagers must be made.
- 15.6.12 Where a tournament player does not place a wager within the allotted time, the tournament player's wager may be restricted to an amount equal to the stated minimum wager for the table.
- 15.6.13 Any tournament player who cannot wager at least the minimum prior to the commencement of a round will be eliminated and must vacate the table.
- 15.6.14 Subject to rule 15.7 and 15.8, each tournament player must wager at least the minimum prescribed wager on each round of play and shall not exceed the maximum. All wagers shall be in units of the minimum. Wagers in excess of the stated maximum shall be paid or collected to the maximum. A wager found to be less than the minimum shall be required to be made up to the minimum. If the tournament player is unable to increase the wager to the prescribed minimum, the tournament player's wager shall be void, the cards shall be burned by placing them in the discard rack and the tournament player shall be eliminated from the session. A wager found to contain incomplete increments should be valid to the last complete wagered increment.
- 15.6.15 The minimum and maximum wager may be increased/decreased during the tournament providing tournament players have been notified of the condition prior to the commencement of the tournament.

15.7 Pass cards

- 15.7.1 If the tournament provides for the use of a pass card(s) such card(s) shall be allocated at the beginning of each heat. Each tournament player shall be allocated the same number of pass cards. The tournament player may place a pass card on the playing area in lieu of a wager. Pass cards will be collected by the dealer at the conclusion of each round of play.

15.8 Undisclosed wagers

- 15.8.1 A tournament may provide for the use of undisclosed wagers. The number of undisclosed wagers shall be determined by the terms and conditions of the tournament.
- 15.8.2 Where a tournament player elects to make an undisclosed wager the following shall apply:
- 15.8.2.1 the tournament player shall make the wager by writing the type of wager and amount of the wager on a form designed for the purpose and passing it to the game supervisor for recording; and
 - 15.8.2.2 each tournament player is responsible for the correct completion of his or her form; and
 - 15.8.2.3 undisclosed wagers shall be within the table minimum or maximum wagers prescribed and shall not exceed the amount of tournament chips in the tournament player's possession; and
 - 15.8.2.4 an undisclosed wager may be made in conjunction with a wager in tournament chips provided the combined total does not exceed the amount of tournament chips in the tournament player's possession; and
 - 15.8.2.5 the game supervisor will examine the undisclosed wager prior to the commencement of the round of play to ensure that it has been made in accordance with these rules and will place an indicator in front of the tournament player making the wager to indicate the existence of an undisclosed wager; and
 - 15.8.2.6 at the conclusion of the round of play the games supervisor shall announce the type and amount of each undisclosed wager and will have the tournament player place the wager in the appropriate section of the layout to be paid or taken by the dealer according to the result.
- 15.8.3 Where after the conclusion of a round of play an undisclosed wager is found not to have complied with 15.8.2:
- 15.8.3.1 an undisclosed wager less than the table minimum shall be deemed to be for the minimum.
 - 15.8.3.2 an undisclosed wager that exceeds the maximum shall be deemed to be for the maximum.
 - 15.8.3.3 an undisclosed wager that exceeds the amount of tournament chips in the tournament player's possession will be deemed to be for the full amount of those chips or the table maximum whichever is the lower.

15.8.3.4 an undisclosed wager that does not show the amount or type of wager the tournament player shall have an amount equal to the table minimum deducted from his/her tournament chip inventory.

15.8.4 At the conclusion of the round of play in which an undisclosed wager is played and prior to the first card of the next round of play is dealt, any tournament player may request and examine the form used by another tournament player to make the undisclosed wager.

15.9 Order of wagering

15.9.1 A tournament may provide for an order of wagering to be implemented. The order of wagering shall be determined by the terms and conditions of the tournament.

15.9.2 Where an order of wagering is to be implemented a marker will be used to indicate the wagering order. The marker will be placed on box one for the first round of play, box two for the second round of play and so on.

15.9.3 When the marker is placed on a tournament player's box, that tournament player must wager first, the remaining tournament players shall wager in sequence commencing with the tournament player to the left of the tournament player who wagers first.

15.9.4 A tournament player who wagers out of sequence as determined by rule 15.9.3 shall be required to remove their wager and wait their turn.

15.9.5 Once a tournament player has made their wager in turn, wagers may not be removed or altered.

15.10 Session winners/placegetters

15.10.1 The number of tournament players to advance to the next session will be determined at the start of the tournament.

15.10.2 The winner(s) of each session will be the tournament player(s) on each table with the highest value of chips at the end of the session.

15.10.3 If, at the completion of each session, the remaining number of tournament players, having an equal value of tournament chips, exceeds the number of tournament players to advance to the next session a play off will be conducted amongst those tournament players. At the end of each round of play a count of the tournament player's tournament chips shall be conducted until an order is determined.

15.10.4 If two (2) or more tournament players are eliminated in the same round of play, a count of residual chips will determine the placings unless two or more tournament players have equal or no residual chips, in which case the tournament player with the smallest wager will be deemed to have been eliminated first. If the tournament players have made equal wagers the tournament player whose chips were removed first shall be deemed to have been eliminated first.

15.11 General provisions

15.11.1 Tournament players may not advise or seek advice from other tournament players or persons not involved in the tournament during play.

- 15.11.2 In the event of a dispute relating to the rules or conditions of entry, the decision of the Tournament Manager will be final and the game will not proceed until the dispute is settled.
- 15.11.3 At the Tournament Manager discretion, a count of all tournament player's chips may be conducted.
- 15.11.4 A tournament player may be disqualified if found to contravene any of these rules. No such tournament player shall be entitled to a refund of entry fee but will retain the value of tournament chips won or purchased in accordance with these rules.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Clause 51A

The treated grease trap waste exemption 2008

Name

1. This exemption is to be known as 'The treated grease trap waste exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorises the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:

- the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
- the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
- the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions referred to in Column 3 of the table.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Table 1

Column 1	Column 2	Column 3
Responsible person	Provisions from which the responsible person is exempt	Conditions to be met by the responsible person
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act	all requirements specified in section 7 and 8
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation	all requirements specified in section 7 and 9

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Consumer means a person who applies, causes, or permits the application to land of treated grease trap waste within the definitions of “application to land” in accordance with the Act. The consumer may be the landholder responsible for the land to which treated grease trap waste is applied. Where a person responsible for transporting the treated grease trap waste to the land application site is also the party applying the treated grease trap waste, this person must also meet the responsibilities of the consumer.

Composite sample means a sample that combines 5 discrete sub-samples into a single sample for the purpose of analysis. The size of each sub-sample must be in proportion with the size of the load from which it is collected.

Grease trap waste means any grease, oils, solids, water or other matter resulting only from the preparation or manufacturing of food that is collected in a grease trap in the usual course of the operation of the grease trap. This definition includes dissolved air flotation (DAF) units used to treat grease trap waste, but does not include grease trap waste collected from grease traps in hospitals and shopping centres other than those solely from the preparation of food.

NA means not applicable.

Once-off sampling means sampling and testing that must be conducted only once on each individual truckload of treated grease trap waste. It is conducted where routine sampling is not applicable.

Processor means a person who treats grease trap waste, and/or mixes, blends, or otherwise incorporates treated grease trap waste into a material for land application. The processor will generally be the supplier, transporter, treatment facility, or consumer of the waste.

Relevant waste means treated grease trap waste that meets the requirements of Section 7.

Routine sampling means sampling and testing that must be conducted on the treated grease trap waste on an ongoing and regular basis.

Treated grease trap waste means grease trap waste that has undergone treatment according to the following specifications:

- a) screening to remove physical contaminants,
- b) leaving the grease trap waste to settle by operation of gravity for at least 4 hours, so that the floating fats and oils, the aqueous liquid waste and the settleable portions of the grease trap waste separate, and
- c) the floating layer must either be removed or be incorporated into the bottom settled layer following saponification by the addition of lime.

General conditions

7. This Notice of Exemption is subject to the following conditions:

- 7.1. The chemical concentration or other attribute of the treated grease trap waste listed in Column 1 of Table 5 must not exceed any of the following:
 - 7.1.1. the absolute maximum concentration or other value listed in Column 3 of Table 5,
 - 7.1.2. for routine or once-off tests, the maximum average (based on the arithmetic mean) concentration or other value listed in Column 2 of Table 5.
- 7.2. The treated grease trap waste can only be applied to land as a soil amendment material.

Processor responsibilities

8. The following conditions must be met by the processor for this exemption to apply:
- 8.1. Sampling and information on sample storage and preparation must be detailed in a written sampling plan.
 - 8.2. The treated grease trap waste must be sampled according to the requirements listed in Column 1 of Table 6.
 - 8.3. The processor may undertake once-off sampling of individual truckloads of treated grease trap waste according to the requirements listed in Column 2 of Table 6, for the range of chemicals and other attributes listed in Column 1 of Table 5. No other routine testing is then required. Once-off sampling will apply where the volume of treated grease trap waste received at a site is insufficient to satisfy the requirements of routine sampling.
 - 8.4. The processor must keep a written record of all routine test results and/or once-off test results for a period of three years.
 - 8.5. Records of the quantity of treated grease trap waste supplied to the consumer and the consumer's name and address must be kept for a period of three years.
 - 8.6. The processor of treated grease trap waste must provide a written statement of compliance to the consumer with each transaction, certifying that the treated grease trap waste complies with the relevant conditions of this exemption.
 - 8.7. The processor of treated grease trap waste must make information on the latest routine test results and/or once off test results available to the consumer. This must include information on the electrical conductivity, pH, oil and grease, total nitrogen and moisture content as tested in the relevant waste.

Consumer responsibilities

9. The following conditions must be met by the consumer for this exemption to apply:
- 9.1. Records of the quantity of the treated grease trap waste received by the consumer, the suppliers' name and address, the application area, application rate and information on the routine test results and/or once-off test results must be kept for a period of three years.
 - 9.2. The application rate must not exceed 100 t/ha (wet weight) in a 6 month period at a given location where the oil and grease content is 50% or greater. Where the oil and grease content of the treated grease trap waste is known to be less than Column 1 of Table 2, the application rate may be increased to the maximum application rate (wet weight) in Column 2 of Table 2.
 - 9.3. The treated grease trap waste must be injected between 10 cm and 30 cm below the soil surface at the time of the application.
 - 9.4. The treated grease trap waste must not flow across the surface of the land.
 - 9.5. The treated grease trap waste must not be applied to land where the site characteristics specified in Column 1 of Table 3 do not meet the requirements in Column 2 of Table 3. The treated grease trap waste must not be applied to land where the site characteristics specified in Column 1 of Table 3 do not meet the requirements in Column 2 of Table 3.
 - 9.6. The treated grease trap waste must not be applied to land that is within the buffer zones for the protected areas specified in Table 4.

- 9.7. The consumer must ensure that they do not cause or permit the emission of any offensive odour from the premises when applying treated grease trap waste to land.
- 9.8. Livestock must not be allowed to graze on land within the application area until at least 30 days after the application of treated grease trap waste to the application area.

Chemical and other material property requirements

10. This Notice of Exemption only applies to treated grease trap waste where the chemical and other attributes listed in Column 1 of Table 5 comply with the chemical concentrations and other values listed in Column 2 and Column 3 of Table 5, when analysed according to test methods specified in Column 4 of Table 5. Note that while limits are not included for electrical conductivity, pH, oil and grease, nitrogen, and moisture content, these must be tested in each sample and records kept of results.

Test methods

12. All testing must be undertaken by analytical laboratories accredited by the National Association of Testing Authorities, or equivalent. All chemicals and other attributes listed in Column 1 of Table 5 must be measured in accordance with the test methods specified below.

- 12.1. Test method for measuring the mercury concentration in treated grease trap waste:
 - 12.1.1. USEPA SW-846 Method 7471B Mercury in solid or semisolid waste (manual cold vapour technique), or an equivalent analytical method with a detection limit < 20% of the stated absolute maximum concentration in Table 5, Column 3, (i.e. 0.2 mg/kg dry weight).
 - 12.1.2. Report as mg/kg dry weight.
- 12.2. Test methods for measuring chemicals 2 - 9 in treated grease trap waste:
 - 12.2.1. Sample preparation by digestion using USEPA SW-846 Method 3051A Microwave assisted acid digestion of sediments, sludges, soils, and oils (or an equivalent method).
 - 12.2.2. Analysis using USEPA SW-846 Method 6010C Inductively coupled plasma - atomic emission spectrometry, or an equivalent analytical method with a detection limit < 10% of the stated absolute maximum concentration in Table 5, Column 3 (i.e. 10 mg/kg dry weight for lead).
 - 12.2.3. Report as mg/kg dry weight.
- 12.3. Test method for measuring the boron concentration in treated grease trap waste:
 - 12.3.1. Water soluble boron using a calcium chloride extractable method. Rayment, G.E. and Higginson, F.R. 1992. Method 12C1 or 12C2. *In* Australian laboratory handbook of soil and water chemical methods, Inkata Press, Australia (or an equivalent analytical method with a detection limit for hot water soluble boron or calcium chloride extractable boron < 10% of stated total concentration).
 - 12.3.2. Report as mg/kg dry weight.
- 12.4. Test methods for measuring the electrical conductivity and pH in treated grease trap waste:
 - 12.4.1. Sample preparation by mixing 1 part treated grease trap waste with 5 parts distilled water.
 - 12.4.2. Analysis using Method 103 (pH) and 104 (Electrical Conductivity). *In* Schedule B (3): Guideline on Laboratory Analysis of Potentially Contaminated Soils, National Environment Protection (Assessment of Site Contamination) Measure 1999 (or an equivalent analytical method).
 - 12.4.3. Report electrical conductivity in deciSiemens per metre (dS/m).
- 12.5. Test method for measuring the oil and grease content in treated grease trap waste:
 - 12.5.1. USEPA SW-846 Method 9071B n-Hexane Extractable Material (HEM) for Sludge, Sediment, and Solid Samples (or an equivalent analytical method). Note that the Soxhlet extraction may need to be repeated for samples containing large quantities of oil and grease.
 - 12.5.2. Report oil and grease in mg/kg dry weight.
- 12.6. Test method for measuring nitrogen in treated grease trap waste:

- 12.6.1. Total nitrogen – semimicro Kjeldahl. Rayment, G.E. and Higginson, F.R. 1992. Method 7A1 or 7A2. *In* Australian laboratory handbook of soil and water chemical methods, Inkata Press, Australia (or an equivalent analytical method).
- 12.6.2. Report nitrogen in % dry weight.
- 12.7. Test method for measuring the moisture content in treated grease trap waste:
- 12.7.1. USEPA SW-846 Method 9001 Determination of water in waste materials by quantitative calcium hydride reaction (or an equivalent analytical method).
- 12.7.2. Report moisture content in % w/w.

Notes

The EPA may amend or revoke this exemption at any time. It is the responsibility of the generator, processor and consumer to ensure that they comply with all relevant requirements of the most current exemption. The current version of an exemption will be available on the EPA website: www.environment.nsw.gov.au

In gazetting this general exemption, the EPA is exempting the relevant waste from the specific requirements of the Act and Regulations as stated in this exemption. The EPA is not in any way endorsing the use of this substance or guaranteeing that the substance will confer benefit.

The use of exempted material remains subject to other relevant environmental regulations within the Act and Regulations. For example, a person who pollutes land (s142A) or water (s120), or does not meet the special requirements for asbestos waste (clause 42), regardless of having an exemption, is guilty of an offence and subject to prosecution.

For the purposes of arrangements between a generator, a processor and a consumer, a 'transaction' is taken to mean the contractual agreement between the two parties which specifies the exchange of waste material from one party to another. A 'statement of compliance' must be in writing and be provided with each transaction.

The conditions set out in this exemption are designed to minimise the risk of potential harm to the environment, human health or agriculture, however, neither this exemption nor these conditions guarantee that the environment, human health or agriculture will not be harmed.

It should be noted that other contaminants may be present in the relevant waste that can potentially cause harm. Application rates may need to be lower than those listed in the exemption depending on local circumstances and should be determined as appropriate to those circumstances prior to application. Plants may display symptoms of toxicity, and/or reductions in yield may occur at values below the maximum concentration limits specified in this exemption.

The consumer should assess whether or not the exempted material is fit for the purpose the material is proposed to be used and whether this use will cause harm. The consumer may need to seek expert engineering or technical advice.

It is recommended that an appropriate rate of nitrogenous fertiliser be added concurrently where the C:N ratio of the applied treated grease trap waste or blended material is high (>25).

This exemption does not apply to any material received at a premises that is required to be licensed for waste disposal (application to land) activities under the provisions of the Act. This exemption does not remove the need for a site at which processing occurs to be licensed, if required under Schedule 1 of the Act.

This exemption does not alter the requirements of any other relevant legislation that must be met in utilising this material, including for example, the need to prepare a Material Safety Data Sheet (MSDS).

Regardless of any exemption provided by the EPA, the person who causes or permits the application of the substance to land must ensure that the action is lawful and consistent with the development consent requirements of the land.

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Clause 51A

The biosolids exemption 2008

Name

1. This exemption is to be known as 'The biosolids exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorise the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:
 - the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
 - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
 - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions set out in this Notice.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Table 1

Column 1	Column 2
Responsible person	Provisions from which the responsible person is exempt
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Biosolids means the organic product that results from sewage treatment processes (sometimes referred to as sewage sludge) in accordance with the Act.

Biosolids Guidelines means the document entitled *Environmental Guidelines: Use and Disposal of Biosolids Products*, published by the EPA and as in force from time to time.

Consumer means a person who applies, causes, or permits the application to land of biosolids within the definitions of "application to land" in accordance with the Act. The consumer may be the landholder responsible for the land to which biosolids are applied. Where a person responsible for transporting the biosolids to the land application site is also the party applying the biosolids, this person must also meet the responsibilities of the consumer.

Processor means a person who processes, mixes, blends, or otherwise incorporates biosolids into a material for supply to a consumer.

Relevant waste means biosolids that meets the requirements of Section 7.

General conditions

7. This Notice of Exemption is subject to the following conditions:

7.1. The responsible person must not cause or permit the land application of the biosolids where the biosolids do not comply with the requirements of the Biosolids Guidelines.

7.2. The biosolids can only be applied to land as a soil amendment material.

7.3. The consumer must land apply the biosolids within a reasonable period of time.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Clause 51A

The effluent exemption 2008

Name

1. This exemption is to be known as 'The effluent exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorise the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:

 - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
 - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions set out in this Notice.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Consumer means a person who applies, causes, or permits the application to land of effluent within the definitions of “application to land” in accordance with the Act. The consumer may be the landholder responsible for the land to which effluent is applied. Where a person responsible for transporting the effluent to the land application site is also the party applying the effluent, this person must also meet the responsibilities of the consumer.

Effluent means:

- (a) waste water from sewage treatment systems (including the treatment works, pumping stations, sewage overflow structures and the reticulation system), or
- (b) waste water from collection or treatment systems that are ancillary to processing industries involving livestock, agriculture, wood, paper or food, being waste water that is conveyed from the place of generation by means of a pipe, canal or conventional method used in irrigation (but not by means of a tanker or truck), or
- (c) waste water from collection or treatment systems that are ancillary to intensive livestock, aquaculture or mariculture, being waste water that is released by means of a pipe, canal or other conventional method used in irrigation as part of day to day farming operations, in accordance with the Act.

Processor means a person who generates, supplies, causes, or permits the supply of effluent to a consumer, or who processes, mixes, blends, or otherwise incorporates effluent into a material for supply to a consumer.

Relevant waste means effluent that meets the requirements of Section 7.

General conditions

7. This Notice of Exemption is subject to the following conditions:
- 7.1. The effluent can only be applied to land for the purposes of irrigation or as a soil amendment material.
 - 7.2. The consumer must land apply the effluent within a reasonable period of time.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Clause 51A

The food waste compost exemption 2008

Name

1. This exemption is to be known as 'The food waste compost exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorise the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:
 - the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
 - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
 - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions set out in this Notice.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Table 1

Column 1	Column 2
Responsible person	Provisions from which the responsible person is exempt
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

ARMCANZ means the *Australian Guidelines for Sewerage Systems - Biosolids Management*, published in 1995 by the ARMCANZ Water Technology Committee, Canberra and updated from time to time.

Composting means a process whereby the food waste and/or raw mulch, source separated garden organics, forestry and sawmill residues and urban wood residues, undergoes:

- (a) Pasteurisation, and
- (b) A period of not less than 6 weeks of composting plus curing.

Consumer means a person who applies, causes, or permits the application to land of food waste compost within the definitions of "application to land" in accordance with the Act. The consumer may be the landholder responsible for the land to which food waste compost is applied.

Engineered wood products means engineered or composite wood products such as particleboard, oriented strand board, plywood, laminated veneer lumber, glulam or fibreboard that are manufactured with glues, resins, water repellents, fire retardants, fungal inhibitors and/or other chemicals.

Food waste means waste from the manufacture, preparation, sale or consumption of food but does not include grease trap waste, animal waste or dissolved air flotation (DAF) sludges. This includes waste from the kerbside collection of source separated food waste.

Food waste compost means food waste that has undergone composting in combination with any of the following:

- (a) raw mulch,
- (b) source separated garden organics,
- (c) forestry and sawmill residues, and
- (d) urban wood residues.

Forestry and sawmill residues are untreated and uncontaminated plant materials from forestry operations such as logging, silviculture and sawmilling. Forestry and sawmill residues include materials such as bark, woodchip, sawdust and wood fibre that are collected as a source separated material stream for processing.

Pasteurisation means a process whereby the food waste and/or raw mulch, source separated garden organics, forestry and sawmill residues and urban wood residues, are treated to significantly reduce the numbers of plant and animal pathogens and plant propagules. It must undergo:

- (a) Appropriate turning of outer material to the inside of the windrow so that the whole mass is subjected to a minimum of 3 turns with the internal temperature reaching a minimum of 55°C for 3 consecutive days before each turn, or
- (b) An alternative process that guarantees the same level of pathogen reduction as required by ARMCANZ, and the elimination of plant propagules.

Preservative treated and coated wood residues means wood residues that are preservative treated with chemicals such as copper chrome arsenate (CCA), high temperature creosote (HTC), pigmented emulsified creosote (PEC) and light organic solvent preservative (LOSP) and/or coated with substances such as varnish or paint.

Processor means a person who processes, mixes, blends, or otherwise incorporates food waste compost into a material for supply to a consumer.

Raw mulch is any compostable organic plant material that is applied to land as a recycled organic product without having been subjected to an effective pasteurisation or composting process. Such materials may be shredded and/or screened to a preferred particle size grading for particular applications. Raw mulches include materials such as horticultural barks, leaf mulch and wood chip mulch produced from

source separated garden organics, forestry and sawmill residues and urban wood residues.

Relevant waste means food waste compost that meets the requirements of Section 7.

Source separated garden organics means garden vegetation and plant materials that are segregated at the point of generation and are collected as a separate material stream for processing. Source separated garden organics includes material from Council garden waste collections and public drop-off collections and can include materials such as branches, grass, leaves, plant trimmings, tree stumps, bark, and the like.

Urban wood residues means untreated and uncontaminated urban derived timber and wood material that is collected as a separate material stream for processing. Urban wood residues includes materials such as off-cuts, saw dust, wood shavings, packaging crates and pallets but does not include preservative treated and coated wood residues or engineered wood products..

General conditions

7. This Notice of Exemption is subject to the following conditions:
 - 7.1. The food waste compost can only be applied to land as compost, a soil amendment material or for the purpose of biofiltration.
 - 7.2. The processor of food waste compost must provide a written statement of compliance to the consumer with each transaction, certifying that the food waste compost complies with the relevant conditions of this exemption.
 - 7.3. The consumer must land apply the food waste compost within a reasonable period of time.

Notes

The EPA may amend or revoke this exemption at any time. It is the responsibility of the generator, processor and consumer to ensure that they comply with all relevant requirements of the most current exemption. The current version of an exemption will be available on the EPA website: www.environment.nsw.gov.au

In gazetting this general exemption, the EPA is exempting the relevant waste from the specific requirements of the Act and Regulations as stated in this exemption. The EPA is not in any way endorsing the use of this substance or guaranteeing that the substance will confer benefit.

The use of exempted material remains subject to other relevant environmental regulations within the Act and Regulations. For example, a person who pollutes land (s142A) or water (s120), or does not meet the special requirements for asbestos waste (clause 42), regardless of having an exemption, is guilty of an offence and subject to prosecution.

For the purposes of arrangements between a generator, a processor and a consumer, a 'transaction' is taken to mean the contractual agreement between the two parties which specifies the exchange of waste material from one party to another. A 'statement of compliance' must be in writing and be provided with each transaction.

The conditions set out in this exemption are designed to minimise the risk of potential harm to the environment, human health or agriculture, however, neither this exemption nor these conditions guarantee that the environment, human health or agriculture will not be harmed.

It should be noted that other contaminants may be present in the relevant waste that can potentially cause harm. Application rates may need to be lower than those listed in the exemption depending on local circumstances and should be determined as appropriate to those circumstances prior to application. Plants may display symptoms of toxicity, and/or reductions in yield may occur at values below the maximum concentration limits specified in this exemption.

The consumer should assess whether or not the exempted material is fit for the purpose the material is proposed to be used and whether this use will cause harm. The consumer may need to seek expert engineering or technical advice.

This exemption does not apply to any material received at a premises that is required to be licensed for waste disposal (application to land) activities under the provisions of the Act. This exemption does not remove the need for a site at which processing occurs to be licensed, if required under Schedule 1 of the Act.

This exemption does not alter the requirements of any other relevant legislation that must be met in utilising this material, including for example, the need to prepare a Material Safety Data Sheet (MSDS).

Regardless of any exemption provided by the EPA, the person who causes or permits the application of the substance to land must ensure that the action is lawful and consistent with the development consent requirements of the land.

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Clause 51A

The food waste exemption 2008

Name

1. This exemption is to be known as 'The food waste exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until 1 November 2008 unless revoked at an earlier date by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorise the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:
 - the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
 - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
 - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions set out in this Notice.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Table 1

Column 1	Column 2
Responsible person	Provisions from which the responsible person is exempt
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Consumer means a person who applies, causes, or permits the application to land of food waste within the definitions of “application to land” in accordance with the Act. The consumer may be the landholder responsible for the land to which food waste is applied. Where a person responsible for transporting the food waste to the land application site is also the party applying the food waste, this person must also meet the responsibilities of the consumer.

Food waste means waste from the manufacture, preparation, sale or consumption of food but does not include grease trap waste or animal waste.

Processor means a person who generates, supplies, causes, or permits the supply of food waste to a consumer, or who processes, mixes, blends, or otherwise incorporates food waste into a material for supply to a consumer.

Relevant waste means the food waste that meets the requirements of Section 7.

General conditions

7. This Notice of Exemption is subject to the following conditions:

- 7.1. The food waste can only be applied to land as a soil amendment material.
- 7.2. The consumer must land apply the food waste within a reasonable period of time.

Exemption Granted

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Section 51A

The recovered railway ballast exemption 2008

Name

1. This exemption is to be known as 'The recovered railway ballast exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorise the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:

- the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
- the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
- the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions referred to in Column 3 of the table.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Table 1

Column 1	Column 2	Column 3
Responsible person	Provisions from which the responsible person is exempt	Conditions to be met by the responsible person
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act	all requirements specified in section 7 and 8
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation	all requirements specified in section 7 and 9

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Characterisation means sampling and testing that must be conducted on the recovered railway ballast for the range of chemicals and other attributes listed in Column 1 of Table 2.

Composite sample means a sample that combines 5 discrete sub-samples into a single sample for the purpose of analysis.

Consumer means a person who applies, causes, or permits the application to land of recovered railway ballast within the definitions of "application to land" in accordance with the Act. The consumer may be the landholder responsible for the land to which recovered railway ballast is applied.

Processor means a person who generates, supplies, causes, or permits the supply of recovered railway ballast to a consumer, or who processes, mixes, blends, or otherwise incorporates recovered railway ballast into a material for supply to a consumer.

Recovered railway ballast means free draining coarse natural aggregate of high strength and a minimum particle size of 9.5 mm.

Relevant waste means the recovered railway ballast that meets the requirements of Section 7.

Routine sampling means sampling and testing that must be conducted on the recovered railway ballast on an ongoing and regular basis.

Once-off sampling means sampling and testing that must be conducted only once on a batch, truckload or stockpile of recovered railway ballast that is not repeated, reproduced and does not form part of a continuous process.

General Conditions

7. This Notice of Exemption is subject to the following conditions:

- 7.1. The chemical concentration or other attribute of the recovered railway ballast listed in Column 1 of Table 2 must not exceed any of the following:
 - 7.1.1. the absolute maximum concentration or other value listed in Column 4 of Table 2,
 - 7.1.2. for characterisation or once-off tests, the maximum average (based on the arithmetic mean) concentration or other value listed in Column 2 of Table 2, and
 - 7.1.3. for routine tests, the maximum average (based on the arithmetic mean) concentration or other value listed in Column 3 of Table 2.
- 7.2. The recovered railway ballast can only be applied to land for building or maintaining railway infrastructure or for road making activities.

Processor responsibilities

8. The following conditions must be met by the processor for this exemption to apply:

- 8.1. Sampling must be undertaken in accordance with Australian Standard 1141 Methods for sampling and testing aggregates (or equivalent). Sampling and information on sample storage and preparation must be detailed in a written sampling plan.
- 8.2. Where the recovered railway ballast is generated as part of a continuous process, the processor must undertake characterisation and routine sampling according to the requirements listed in Column 1 and Column 2 of Table 3.
- 8.3. Where the recovered railway ballast is not generated as part of a continuous process, the processor may undertake once-off sampling of a batch, truckload

or stockpile of recovered railway ballast according to the requirements listed in Column 3 of Table 3, for the range of chemicals and other attributes listed in Column 1 of Table 2.

- 8.4. Where there is a change in inputs that is likely to affect the properties in the recovered railway ballast, characterisation must be repeated. Characterisation samples can be used for routine testing and subsequent calculations.
- 8.5. Processors must keep a written record of all characterisation, routine and/or once-off test results for a period of three years.
- 8.6. Records of the quantity of recovered railway ballast supplied to the consumer and the consumer's name and address must be kept for a period of three years.
- 8.7. The processor of recovered railway ballast must provide a written statement of compliance to the consumer with each transaction, certifying that the recovered railway ballast complies with the relevant conditions of this exemption.
- 8.8. The processor of recovered railway ballast must make information on the latest characterisation and routine test results available to the consumer.

Consumer responsibilities

9. The following conditions must be met by the consumer for this exemption to apply:

- 9.1. Records of the quantity of the recovered railway ballast received by the consumer and the suppliers' name and address must be kept for a period of three years.
- 9.2. The consumer must land apply the relevant waste within a reasonable period of time.

Chemical and other material property requirements

10. This Notice of Exemption only applies to recovered railway ballast where the chemical and other attributes listed in Column 1 of Table 2 comply with the chemical concentrations and other values listed in Column 2, Column 3 and Column 4 of Table 2, when analysed according to test methods specified in Column 5 of Table 2.

Table 2

Chemicals and other attributes	Maximum average concentration for characterisation (mg/kg 'dry weight' unless otherwise specified)	Maximum average concentration for routine testing (mg/kg 'dry weight' unless otherwise specified)	Absolute maximum concentration (mg/kg 'dry weight' unless otherwise specified)	Test method specified within Section
1. Mercury	0.5	Not required	1	12.1
2. Cadmium	0.5	0.5	1	12.2
3. Lead	50	50	100	12.2
4. Arsenic	15	15	30	12.2
5. Chromium (total)	25	Not required	50	12.2
6. Copper	25	Not required	50	12.2
7. Nickel	25	Not required	50	12.2
8. Zinc	75	75	150	12.2

9. Electrical Conductivity	1 dS/m	1 dS/m	2 dS/m	12.3
10. Metal, glass, asphalt, ceramics and slag	2.5%	Not required	5%	12.4
11. Plaster, clay lumps and other friable materials	0.25%	Not required	0.5%	12.4
12. Rubber, plastic, bitumen, paper, cloth, paint, wood and other vegetable matter	0.05%	Not required	0.1%	12.4

Sampling and testing requirements

11. This Notice of Exemption only applies to recovered railway ballast sampled according to the requirements in Table 3.

Table 3

Column 1	Column 2	Column 3
Characterisation frequency	Routine sampling frequency	Once-off sampling frequency
20 composite samples, by taking 1 composite sample from a different batch, truckload or stockpile. This must be repeated every 2 years.	5 composite samples per 4000 tonnes or 5 composite samples per 3 months.	10 composite samples per 4000 tonnes.

Test methods

12. All testing must be undertaken by analytical laboratories accredited by the National Association of Testing Authorities, or equivalent. All chemicals and other attributes listed in Column 1 of Table 2 must be measured in accordance with the test methods specified below:

- 12.1. Test methods for measuring the mercury concentration in recovered railway ballast:
- 12.1.1. Particle size reduction & sample splitting may be required.
 - 12.1.1. Analysis using USEPA SW-846 Method 7471B Mercury in solid or semisolid waste (manual cold vapour technique), or an equivalent analytical method with a detection limit < 20% of the stated absolute maximum concentration in Table 2, Column 3 (i.e. 0.2 mg/kg dry weight).
 - 12.1.2. Report as mg/kg dry weight.
- 12.2. Test methods for measuring chemicals 2 - 8 in recovered railway ballast require:
- 12.2.1. Particle size reduction & sample splitting may be required.
 - 12.2.2. Sample preparation by digesting using USEPA SW-846 Method 3051A Microwave assisted acid digestion of sediments, sludges, soils, and oils.
 - 12.2.3. Analysis using USEPA SW-846 Method 6010C Inductively coupled plasma - atomic emission spectrometry, or an equivalent analytical method with a detection limit < 10% of the stated absolute maximum concentration in Table 2, Column 3, (i.e. 10 mg/kg dry weight for lead).

- 12.2.4. Report as mg/kg dry weight.
- 12.3. Test methods for measuring the electrical conductivity in recovered railway ballast:
- 12.3.1. Sample preparation by mixing 1 part recovered railway ballast with 5 parts distilled water.
- 12.3.2. Analysis using Method 104 (Electrical Conductivity). *In* Schedule B (3): Guideline on Laboratory Analysis of Potentially Contaminated Soils, National Environment Protection (Assessment of Site Contamination) Measure 1999 (or an equivalent analytical method).
- 12.3.3. Report in deciSiemens per metre (dS/m).
- 12.4. Test method for measuring the attributes 10 - 12 in recovered railway ballast:
- 12.4.1. NSW Roads & Traffic Authority Test Method T276 Foreign Materials Content of Recycled Crushed Concrete (or an equivalent method), for the materials listed in 10 - 12 of Column 1, Table 2. For recovered railway ballast with an average particle size between 50 and 100 mm, use a 20 kg sample. For recovered railway ballast with an average particle size greater than 100 mm, use a 50 kg sample
- 12.4.2. Report as %.

Notes

The EPA may amend or revoke this exemption at any time. It is the responsibility of the generator, processor and consumer to ensure that they comply with all relevant requirements of the most current exemption. The current version of an exemption will be available on the EPA website: www.environment.nsw.gov.au

In gazetting this general exemption, the EPA is exempting the relevant waste from the specific requirements of the Act and Regulations as stated in this exemption. The EPA is not in any way endorsing the use of this substance or guaranteeing that the substance will confer benefit.

The use of exempted material remains subject to other relevant environmental regulations within the Act and Regulations. For example, a person who pollutes land (s142A) or water (s120), or does not meet the special requirements for asbestos waste (clause 42), regardless of having an exemption, is guilty of an offence and subject to prosecution.

For the purposes of arrangements between a generator, a processor and a consumer, a 'transaction' is taken to mean the contractual agreement between the two parties which specifies the exchange of waste material from one party to another. A 'statement of compliance' must be in writing and be provided with each transaction.

The conditions set out in this exemption are designed to minimise the risk of potential harm to the environment, human health or agriculture, however, neither this exemption nor these conditions guarantee that the environment, human health or agriculture will not be harmed.

The consumer should assess whether or not the exempted material is fit for the purpose the material is proposed to be used and whether this use will cause harm. The consumer may need to seek expert engineering or technical advice.

This exemption does not apply to any material received at a premises that is required to be licensed for waste disposal (application to land) activities under the provisions of the Act. This exemption does not remove the need for a site at which processing occurs to be licensed, if required under Schedule 1 of the Act.

This exemption does not alter the requirements of any other relevant legislation that must be met in utilising this material, including for example, the need to prepare a Material Safety Data Sheet (MSDS).

Regardless of any exemption provided by the EPA, the person who causes or permits the application of the substance to land must ensure that the action is lawful and consistent with the development consent requirements of the land.

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Clause 51A

The raw mulch exemption 2008

Name

1. This exemption is to be known as 'The raw mulch exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorise the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:
 - the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
 - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
 - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions set out in this Notice.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Table 1

Column 1	Column 2
Responsible person	Provisions from which the responsible person is exempt
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Consumer means a person who applies, causes, or permits the application to land of raw mulch within the definitions of “application to land” in accordance with the Act. The consumer may be the landholder responsible for the land to which raw mulch is applied.

Engineered wood products means engineered or composite wood products such as particleboard, oriented strand board, plywood, laminated veneer lumber, glulam or fibreboard that are manufactured with glues, resins, water repellents, fire retardants, fungal inhibitors and/or other chemicals.

Forestry and sawmill residues means untreated and uncontaminated plant materials from forestry operations such as logging, silviculture and sawmilling. Forestry and sawmill residues include materials such as bark, woodchip, sawdust and wood fibre that are collected as a source separated material stream for processing.

Preservative treated and coated wood residues means wood residues that are preservative treated with chemicals such as copper chrome arsenate (CCA), high temperature creosote (HTC), pigmented emulsified creosote (PEC) and light organic solvent preservative (LOSP) and/or coated with substances such as varnish or paint.

Processor means a person who generates, supplies, causes, or permits the supply of raw mulch to a consumer, or who processes, mixes, blends, or otherwise incorporates raw mulch into a material for supply to a consumer.

Raw mulch means any compostable organic plant material that is applied to land as a recycled organic product without having been subjected to an effective pasteurisation or composting process. Such materials may be shredded and/or screened to a preferred particle size grading for particular applications. Raw mulches include materials such as horticultural barks, leaf mulch and wood chip mulch produced from source separated garden organics, forestry and sawmill residues and urban wood residues.

Relevant waste means raw mulch that meets the requirements of Section 7.

Source separated garden organics means garden vegetation and plant materials that are segregated at the point of generation and are collected as a separate material stream for processing. Source separated garden organics includes material from Council garden waste collections and public drop-off collections and can include materials such as branches, grass, leaves, plant trimmings, tree stumps, bark, and the like.

Urban wood residues means untreated and uncontaminated urban derived timber and wood material that is collected as a separate material stream for processing. Urban wood residues includes materials such as off-cuts, saw dust, wood shavings, packaging crates and pallets but does not include preservative treated or coated wood residues or engineered wood products.

General conditions

7. This Notice of Exemption is subject to the following conditions:
 - 7.1. The raw mulch can only be applied to land for the purposes of filtration or as a soil amendment material or used either singularly or in any combination as input material(s) to a composting process.
 - 7.2. The consumer must land apply the raw mulch within a reasonable period of time.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions referred to in Column 3 of the table.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Table 1

Column 1	Column 2	Column 3
Responsible person	Provisions from which the responsible person is exempt	Conditions to be met by the responsible person
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act	all requirements specified in section 7 and 8
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation	all requirements specified in section 7 and 9

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Characterisation means sampling and testing that must be conducted on the recovered aggregate for the range of chemicals and other attributes listed in Column 1 of Table 2.

Composite sample means a sample that combines 5 discrete sub-samples into a single sample for the purpose of analysis.

Consumer means a person who applies, causes, or permits the application to land of recovered aggregate within the definitions of "application to land" in accordance with the Act. The consumer may be the landholder responsible for the land to which recovered aggregate is applied.

Once-off sampling means sampling and testing that must be conducted only once on a batch, truckload or stockpile of recovered aggregate that is not repeated, reproduced and does not form part of a continuous process.

Processor means a person who processes, mixes, blends, or otherwise incorporates recovered aggregate into a material for supply to a consumer.

Recovered aggregate means material comprising of concrete, brick, ceramics and asphalt processed into an engineered material. This does not include asphalt that contains coal tar.

Relevant waste means recovered aggregate that meets the requirements of Section 7.

Routine sampling means sampling and testing that must be conducted on the recovered aggregate on an ongoing and regular basis.

General conditions

7. This Notice of Exemption is subject to the following conditions:

7.1. The chemical concentration or other attribute of the recovered aggregate listed in Column 1 of Table 2 must not exceed any of the following:

7.1.1. the absolute maximum concentration or other value listed in Column 4 of Table 2,

7.1.2. for characterisation or once-off tests, the maximum average (based on the arithmetic mean) concentration or other value listed in Column 2 of Table 2, and

7.1.3. for routine tests, the maximum average (based on the arithmetic mean) concentration or other value listed in Column 3 of Table 2.

7.2. The recovered aggregate can only be applied to land for road making activities, building, landscaping and construction works. This approval does not apply to any of the following applications:

(a) Construction of dams or related water storage infrastructure,

(b) Mine site rehabilitation,

(c) Quarry rehabilitation,

(d) Sand dredge pond rehabilitation,

(e) Back-filling of quarry voids,

(f) Raising or reshaping of land used for agricultural purposes, and

(g) Construction of roads on private land.

Processor responsibilities

8. The following conditions must be met by the processor for this exemption to apply:

- 8.1. The processor must implement procedures to minimise the potential to receive or process waste containing asbestos. These procedures must be formally documented and the records of compliance must be kept for a period of three years.
- 8.2. Sampling must be undertaken in accordance with Australian Standard 1141 Methods for sampling and testing aggregates (or equivalent). Sampling and information on sample storage and preparation must be detailed in a written sampling plan.
- 8.3. Where the recovered aggregate is generated as part of a continuous process, the processor must undertake characterisation and routine sampling according to the requirements listed in Column 1 and Column 2 of Table 3.
- 8.4. Where the recovered aggregate is not generated as part of a continuous process, the processor may undertake once-off sampling of a batch, truckload or stockpile of recovered aggregate according to the requirements listed in Column 3 of Table 3, for the range of chemicals and other attributes listed in Column 1 of Table 2.
- 8.5. Where there is a change in inputs that is likely to affect the properties in the recovered aggregate, characterisation must be repeated. Characterisation samples can be used for routine testing and subsequent calculations.
- 8.6. Processors must keep a written record of all characterisation, routine and/or once-off test results for a period of three years.
- 8.7. Records of the quantity of recovered aggregate supplied to the consumer and either the consumer's name and address or the registration details of the vehicle used to transport the recovered aggregate, must be kept for a period of three years.
- 8.8. The processor of recovered aggregate must provide a written statement of compliance to the consumer with each transaction, certifying that the recovered aggregate complies with the relevant conditions of this exemption.
- 8.9. The processor of recovered aggregate must make information on the latest characterisation and routine test results available to the consumer.

Consumer responsibilities

9. The following conditions must be met by the consumer for this exemption to apply:

- 9.1. Records of the quantity of the recovered aggregate received by the consumer and the suppliers' name and address must be kept for a period of three years.
- 9.2. The consumer must land apply the relevant waste within a reasonable period of time.

Chemical and other material property requirements

10. This Notice of Exemption only applies to recovered aggregate where the chemical and other attributes listed in Column 1 of Table 2 comply with the chemical concentrations and other values listed in Column 2, Column 3 and Column 4 of Table 2, when analysed according to test methods specified in Column 5 of Table 2.

Test methods

12. All testing must be undertaken by analytical laboratories accredited by the National Association of Testing Authorities, or equivalent. All chemicals and other attributes listed in Column 1 of Table 2 must be measured in accordance with the test methods specified below:

12.1. Test methods for measuring the mercury concentration in recovered aggregate:

12.1.1. Particle size reduction & sample splitting may be required.

12.1.2. Analysis using USEPA SW-846 Method 7471B Mercury in solid or semisolid waste (manual cold vapour technique), or an equivalent analytical method with a detection limit < 20% of the stated absolute

- 12.2.1. Particle size reduction & sample splitting may be required.
- 12.2.2. Sample preparation by digesting using USEPA SW-846 Method 3051A Microwave assisted acid digestion of sediments, sludges, soils, and oils.
- 12.2.3. Analysis using USEPA SW-846 Method 6010C Inductively coupled plasma - atomic emission spectrometry, or an equivalent analytical method with a detection limit < 10% of the stated absolute maximum concentration in Table 2, Column 3, (i.e. 10 mg/kg dry weight for lead).
- 12.2.4. Report as mg/kg dry weight.
- 12.3. Test methods for measuring the electrical conductivity in recovered aggregate:
- 12.3.1. Sample preparation by mixing 1 part recovered aggregate with 5 parts distilled water.
- 12.3.2. Analysis using Method 104 (Electrical Conductivity). *In* Schedule B (3): Guideline on Laboratory Analysis of Potentially Contaminated Soils, National Environment Protection (Assessment of Site Contamination) Measure 1999 (or an equivalent analytical method).
- 12.3.3. Report in deciSiemens per metre (dS/m).
- 12.4. Test method for measuring the attributes 10 - 12 in recovered aggregate:
- 12.4.1. NSW Roads & Traffic Authority Test Method T276 Foreign Materials Content of Recycled Crushed Aggregate (or an equivalent method), for the materials listed in 10 - 12 of Column 1, Table 2.
- 12.4.2. Report as %.

Exemption Granted

Manager, Waste Management Section
Environment Protection Authority
by delegation

Notes

The EPA may amend or revoke this exemption at any time. It is the responsibility of the generator, processor and consumer to ensure that they comply with all relevant requirements of the most current exemption. The current version of an exemption will be available on the EPA website: www.environment.nsw.gov.au

In gazetting this general exemption, the EPA is exempting the relevant waste from the specific requirements of the Act and Regulations as stated in this exemption. The EPA is not in any way endorsing the use of this substance or guaranteeing that the substance will confer benefit.

The use of exempted material remains subject to other relevant environmental regulations within the Act and Regulations. For example, a person who pollutes land (s142A) or water (s120), or does not meet the special requirements for asbestos waste (clause 42), regardless of having an exemption, is guilty of an offence and subject to prosecution.

For the purposes of arrangements between a generator, a processor and a consumer, a 'transaction' is taken to mean the contractual agreement between the two parties which specifies the exchange of waste material from one party to another. A 'statement of compliance' must be in writing and be provided with each transaction.

The conditions set out in this exemption are designed to minimise the risk of potential harm to the environment, human health or agriculture, however, neither this exemption nor these conditions guarantee that the environment, human health or agriculture will not be harmed.

The consumer should assess whether or not the exempted material is fit for the purpose the material is proposed to be used and whether this use will cause harm. The consumer may need to seek expert engineering or technical advice.

This exemption does not apply to any material received at a premises that is required to be licensed for waste disposal (application to land) activities under the provisions of the Act. This exemption does not remove the need for a site at which processing occurs to be licensed, if required under Schedule 1 of the Act.

This exemption does not alter the requirements of any other relevant legislation that must be met in utilising this material, including for example, the need to prepare a Material Safety Data Sheet (MSDS).

Regardless of any exemption provided by the EPA, the person who causes or permits the application of the substance to land must ensure that the action is lawful and consistent with the development consent requirements of the land.

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Section 51A

The recovered fines from construction and demolition waste processing exemption 2008

Name

1. This exemption is to be known as 'The recovered fines exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until 1 February 2009 unless revoked at an earlier date by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorise the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:
 - the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
 - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
 - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions referred to in Column 3 of the table.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Table 1

Column 1	Column 2	Column 3
Responsible person	Provisions from which the responsible person is exempt	Conditions to be met by the responsible person
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act	all requirements specified in section 7 and 8
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation	all requirements specified in section 7 and 9

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Characterisation means sampling and testing that must be conducted on the recovered fines for the range of chemicals and other attributes listed in Column 1 of Table 2.

Composite sample means a sample that combines 5 discrete sub-samples into a single sample for the purpose of analysis.

Consumer means a person who applies, causes, or permits the application to land of recovered fines within the definitions of “application to land” in accordance with the Act. The consumer may be the landholder responsible for the land to which recovered fines are applied.

NA means not applicable.

Processor means a person who processes, mixes, blends, or otherwise incorporates recovered fines into a material for supply to a consumer.

Recovered fines means a soil or sand substitute with a maximum particle size of 9.5 mm that is derived from the processing of mixed construction and demolition waste including residues from the processing of skip bin waste.

Relevant waste means recovered fines that meet the requirements of Section 7.

Routine sampling means sampling and testing that must be conducted on the recovered fines on an ongoing and regular basis.

General conditions

7. This Notice of Exemption is subject to the following conditions:

- 7.1. The chemical concentration or other attribute of the recovered fines listed in Column 1 of Table 2 must not exceed any of the following:
 - 7.1.1. the absolute maximum concentration or other value listed in Column 4 of Table 2.
- 7.2. The recovered fines can only be applied to land for the purposes of construction or landscaping. This approval does not apply to any of the following applications:
 - (a) Construction of dams or related water storage infrastructure,
 - (b) Mine site rehabilitation,
 - (c) Quarry rehabilitation,
 - (d) Sand dredge pond rehabilitation,
 - (e) Back-filling of quarry voids,
 - (f) Raising or reshaping of land used for agricultural purposes, and
 - (g) Construction of roads on private land.

Processor responsibilities

8. The following conditions must be met by the processor for this exemption to apply:

- 8.1. Sampling must be undertaken in accordance with Australian Standard 1141 Methods for sampling and testing aggregates (or equivalent). Sampling and information on sample storage and preparation must be detailed in a written sampling plan.
- 8.2. The recovered fines must be sampled according to the requirements listed Column 1 and Column 2 of Table 3.
- 8.3. Where there is a change in inputs that is likely to affect the properties of the recovered fines, characterisation must be repeated. Characterisation samples can be used for routine testing and subsequent calculations.

- 8.4. Processors must keep a written record of all characterisation and routine test results for a period of three years.
- 8.5. Records of the quantity of recovered fines supplied to the consumer and either the consumer's name and address or the registration details of the vehicle used to transport the recovered fines, must be kept for a period of three years.
- 8.6. The processor of recovered fines must provide a written statement of compliance to the consumer with each transaction, certifying that the recovered fines comply with the relevant conditions of this exemption.
- 8.7. The processor of recovered fines must make information on the latest characterisation and routine test results available to the consumer.

Consumer responsibilities

9. The following conditions must be met by the consumer for this exemption to apply:
 - 9.1. Records of the quantity of the recovered fines received by the consumer and the suppliers' name and address must be kept for a period of three years.
 - 9.2. The relevant waste must not be applied in or beneath water including groundwater.
 - 9.3. The consumer must land apply the relevant waste within a reasonable period of time.

Chemical and other material property requirements

10. This Notice of Exemption only applies to recovered fines where the chemical and other attributes listed in Column 1 of Table 2 comply with the chemical concentrations and other values listed in Column 4 of Table 2, when analysed according to test methods specified in Column 5 of Table 2.

Test methods

12. All testing must be undertaken by analytical laboratories accredited by the National Association of Testing Authorities, or equivalent. All chemicals and other attributes listed in Column 1 of Table 2 must be measured in accordance with the test methods specified below:

- 12.1. Test methods for measuring the mercury concentration in recovered fines:
- 12.1.1. Particle size reduction & sample splitting may be required.
 - 12.1.2. USEPA SW-846 Method 7471B Mercury in solid or semisolid waste (manual cold vapour technique), or an equivalent analytical method with a detection limit < 20% of the stated absolute maximum concentration in Table 2, Column 4, (i.e. 0.3 mg/kg dry weight).

- 12.1.3. Report as mg/kg dry weight.
- 12.2. Test methods for measuring chemicals 2 - 8 in recovered fines:
- 12.2.1. Particle size reduction & sample splitting may be required.
- 12.2.2. Sample preparation by digestion using USEPA SW-846 Method 3051A Microwave assisted acid digestion of sediments, sludges, soils, and oils (or an equivalent analytical method).

Notes

The EPA may amend or revoke this exemption at any time. It is the responsibility of the generator, processor and consumer to ensure that they comply with all relevant requirements of the most current exemption. The current version of an exemption will be available on the EPA website: www.environment.nsw.gov.au

In gazetting this general exemption, the EPA is exempting the relevant waste from the specific requirements of the Act and Regulations as stated in this exemption. The EPA is not in any way endorsing the use of this substance or guaranteeing that the substance will confer benefit.

The use of exempted material remains subject to other relevant environmental regulations within the Act and Regulations. For example, a person who pollutes land (s142A) or water (s120), or does not meet the special requirements for asbestos waste (clause 42), regardless of having an exemption, is guilty of an offence and subject to prosecution.

For the purposes of arrangements between a generator, a processor and a consumer, a 'transaction' is taken to mean the contractual agreement between the two parties which specifies the exchange of waste material from one party to another. A 'statement of compliance' must be in writing and be provided with each transaction.

The conditions set out in this exemption are designed to minimise the risk of potential harm to the environment, human health or agriculture, however, neither this exemption nor these conditions guarantee that the environment, human health or agriculture will not be harmed.

The consumer should assess whether or not the exempted material is fit for the purpose the material is proposed to be used and whether this use will cause harm. The consumer may need to seek expert engineering or technical advice.

This exemption does not apply to any material received at a premises that is required to be licensed for waste disposal (application to land) activities under the provisions of the Act. This exemption does not remove the need for a site at which processing occurs to be licensed, if required under Schedule 1 of the Act.

This exemption does not alter the requirements of any other relevant legislation that must be met in utilising this material, including for example, the need to prepare a Material Safety Data Sheet (MSDS).

Regardless of any exemption provided by the EPA, the person who causes or permits the application of the substance to land must ensure that the action is lawful and consistent with the development consent requirements of the land.

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Clause 51A

The recovered glass sand exemption 2008

Name

1. This exemption is to be known as 'The recovered glass sand exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorises the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:
 - the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
 - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
 - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions referred to in Column 3 of the table.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Column 1	Column 2	Column 3
Responsible person	Provisions from which the responsible person is exempt	Conditions to be met by the responsible person
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act	all requirements specified in section 7 and 8
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation	all requirements specified in section 7 and 9

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Characterisation means sampling and testing that must be conducted on the recovered glass sand for the range of chemicals and other attributes listed in Column 1 of Table 2.

Composite sample means a sample that combines 5 discrete sub-samples into a single sample for the purpose of analysis.

Consumer means a person who applies, causes, or permits the application to land of recovered glass sand within the definitions of "application to land" in accordance with the Act. The consumer may be the landholder responsible for the land to which recovered glass sand is applied. Where a person responsible for transporting the recovered glass sand to the land application site is also the party applying the recovered glass sand, this person must also meet the responsibilities of the consumer.

Once-off sampling means sampling and testing that must be conducted only once on a batch, truckload or stockpile of recovered glass sand that is not repeated, reproduced and does not form part of a continuous process.

Processor means a person who processes recovered glass into recovered glass sand for supply to a consumer.

Recovered glass means glass sourced from the collection of domestic or commercial waste. This includes glass collected from domestic commingled recycling collections. Glass recovered from the sorting or processing of mixed municipal or commercial and industrial sources is excluded.

Recovered glass sand means recovered glass that has been processed to produce a 'sand-like' glass material with a particle size diameter generally less than 5 mm, and that contains at least 98% glass.

Relevant waste means recovered glass sand that meets the requirements of Section 7.

Routine sampling means sampling and testing that must be conducted on the recovered glass sand on an ongoing and regular basis.

General conditions

7. This Notice of Exemption is subject to the following conditions:

- 7.1. The chemical concentration or other attribute of the recovered glass sand listed in Column 1 of Table 2 must not exceed any of the following:
 - 7.1.1. the absolute maximum concentration or other value listed in Column 4 of Table 2,
 - 7.1.2. for characterisation or once-off tests, the maximum average (based on the arithmetic mean) concentration or other value listed in Column 2 of Table 2, and
 - 7.1.3. for routine tests, the maximum average (based on the arithmetic mean) concentration or other value listed in Column 3 of Table 2.
- 7.2. The recovered glass sand can only be applied to land for the purposes of pipe bedding, drainage or for road making activities.

Processor responsibilities

8. The following conditions must be met by the processor for this exemption to apply:

- 8.1. Sampling must be undertaken in accordance with Australian Standard 1141 Methods for sampling and testing aggregates (or equivalent). Sampling and

information on sample storage and preparation must be detailed in a written sampling plan.

- 8.2. Where the recovered glass sand is generated as part of a continuous process, the processor must undertake characterisation and routine sampling according to the requirements listed in Column 1 and Column 2 of Table 3.
- 8.3. Where the recovered glass sand is not generated as part of a continuous process, the processor may undertake once-off sampling of a batch, truckload or stockpile of recovered glass sand according to the requirements listed in Column 3 of Table 3, for the range of chemicals and other attributes listed in Column 1 of Table 2.
- 8.4. Where there is a change in inputs that is likely to affect the properties of the recovered glass sand, characterisation must be repeated. Characterisation samples can be used for routine testing and subsequent calculations.
- 8.5. Processors must keep a written record of all characterisation, routine and/or once-off test results for a period of three years.
- 8.6. Records of the quantity of recovered glass sand supplied to the consumer and the consumer's name and address must be kept for a period of three years.
- 8.7. The processor of recovered glass sand must provide a written statement of compliance to the consumer with each transaction, certifying that the recovered glass sand complies with the relevant conditions of this exemption.
- 8.8. The processor of recovered glass sand must make information on the latest characterisation and routine test results available to the consumer.

Consumer responsibilities

9. The following conditions must be met by the consumer for this exemption to apply:
 - 9.1. Records of the quantity of the recovered glass sand received by the consumer and the suppliers' name and address must be kept for a period of three years.
 - 9.2. The consumer must land apply the relevant waste within a reasonable period of time.

Chemical and other material property requirements

10. This Notice of Exemption only applies to recovered glass sand where the chemical and other attributes listed in Column 1 of Table 2 comply with the chemical concentrations and other values listed in Column 2, Column 3 and Column 4 of Table 2, when analysed according to test methods specified in Column 5 of Table 2.

Sampling and testing requirements

11. This Notice of Exemption only applies to recovered glass sand sampled according to the requirements in Table 3.

Table 3

Column 1	Column 2	Column 3

20 composite samples, by taking 1 composite sample from a different batch, truckload or stockpile. This must be repeated every 2 years.	5 composite samples per 4000 tonnes or 5 composite samples per 3 months.	10 composite samples per 4000 tonnes.

Test methods

12. All testing must be undertaken by analytical laboratories accredited by the National Association of Testing Authorities, or equivalent. All chemicals and other attributes listed in Column 1 of Table 2 must be measured in accordance with the test methods specified below:

12.1. Test methods for measuring the mercury concentration in recovered glass sand:

12.1.1. Particle size reduction & sample splitting may be required.

12.1.1.1. Analysis using USEPA SW-846 Method 7471B Mercury in solid or semisolid waste (manual cold vapour technique), or an equivalent analytical method with a detection limit < 20% of the stated absolute maximum concentration in Table 2, Column 3 (i.e. 0.2 mg/kg dry weight).

12.1.2. Report as mg/kg dry weight.

12.2. Test methods for measuring chemicals 2 - 9 in recovered glass sand:

12.2.1. Particle size reduction & sample splitting may be required.

- 12.2.2. Sample preparation by digesting using USEPA SW-846 Method 3051A Microwave assisted acid digestion of sediments, sludges, soils, and oils.
 - 12.2.3. Analysis using USEPA SW-846 Method 6010C Inductively coupled plasma - atomic emission spectrometry, or an equivalent analytical method with a detection limit < 10% of the stated absolute maximum concentration in Table 2, Column 3, (i.e. 5 mg/kg dry weight for lead).
 - 12.2.4. Report as mg/kg dry weight.
- 12.3. Test methods for measuring the total organic carbon content in recovered glass sand:
- 12.3.1. Method 105 (Organic Carbon) and using a 2 gram sample. *In* Schedule B (3): Guideline on Laboratory Analysis of Potentially Contaminated Soils, National Environment Protection (Assessment of Site Contamination) Measure 1999 (or an equivalent analytical method).
 - 12.3.2. Reporting as % total organic carbon.
- 12.4. Test methods for measuring the electrical conductivity in recovered glass sand:
- 12.4.1. Sample preparation by mixing 1 part recovered glass sand with 5 parts distilled water.
 - 12.4.2. Analysis using Method 104 (Electrical Conductivity). *In* Schedule B (3): Guideline on Laboratory Analysis of Potentially Contaminated Soils, National Environment Protection (Assessment of Site Contamination) Measure 1999 (or an equivalent analytical method).
 - 12.4.3. Report in deciSiemens per metre (dS/m).
- 12.5. Test method for measuring 12 - 15 in recovered glass sand:
- 12.5.1. NSW Roads & Traffic Authority Test Method T276 Foreign Materials Content of Recycled Crushed Concrete (or an equivalent method) and modified to use a 2.36mm sieve, for the materials listed in 12 - 15 of Column 1, Table 2.
 - 12.5.2. Report as %.

Notes

The EPA may amend or revoke this exemption at any time. It is the responsibility of the generator, processor and consumer to ensure that they comply with all relevant requirements of the most current exemption. The current version of an exemption will be available on the EPA website: www.environment.nsw.gov.au

In gazetting this general exemption, the EPA is exempting the relevant waste from the specific requirements of the Act and Regulations as stated in this exemption. The EPA is not in any way endorsing the use of this substance or guaranteeing that the substance will confer benefit.

The use of exempted material remains subject to other relevant environmental regulations within the Act and Regulations. For example, a person who pollutes land (s142A) or water (s120), or does not meet the special requirements for asbestos waste (clause 42), regardless of having an exemption, is guilty of an offence and subject to prosecution.

For the purposes of arrangements between a generator, a processor and a consumer, a 'transaction' is taken to mean the contractual agreement between the two parties which specifies the exchange of waste material from one party to another. A 'statement of compliance' must be in writing and be provided with each transaction.

The conditions set out in this exemption are designed to minimise the risk of potential harm to the environment, human health or agriculture, however, neither this exemption nor these conditions guarantee that the environment, human health or agriculture will not be harmed.

The consumer should assess whether or not the exempted material is fit for the purpose the material is proposed to be used and whether this use will cause harm. The consumer may need to seek expert engineering or technical advice.

This exemption does not apply to any material received at a premises that is required to be licensed for waste disposal (application to land) activities under the provisions of the Act. This exemption does not remove the need for a site at which processing occurs to be licensed, if required under Schedule 1 of the Act.

This exemption does not alter the requirements of any other relevant legislation that must be met in utilising this material, including for example, the need to prepare a Material Safety Data Sheet (MSDS).

Regardless of any exemption provided by the EPA, the person who causes or permits the application of the substance to land must ensure that the action is lawful and consistent with the development consent requirements of the land.

All records required to be kept under this exemption must be made available to authorised officers of the EPA upon request.

Failure to comply with the conditions of this Notice of Exemption may constitute an offence under clause 51 of the Regulation and the responsible person will be required to comply with the normal regulatory provisions.

Protection of the Environment Operations (Waste) Regulation 2005 – General Exemption Under Part 6, Clause 51A

The stormwater exemption 2008

Name

1. This exemption is to be known as 'The stormwater exemption 2008'.

Commencement

2. This exemption commences on 2 May 2008.

Duration

3. This exemption is valid until revoked by the Environment Protection Authority (EPA) by notice published in the Government Gazette.

Legislation

4. Clauses 51 and 51A of the *Protection of the Environment Operations (Waste) Regulation 2005* (the Regulation) authorise the EPA to exempt a person from any of the following provisions in relation to an activity or class of activities relating to certain waste that is to be land applied or used as a fuel:
 - the provisions of sections 47 to 49 and 88 of the *Protection of the Environment Operations Act 1997* (the Act),
 - the provisions of Schedule 1 to the Act, either in total or as they apply to a particular activity, and
 - the provisions of Part 3 and clauses 45 and 47 of the Regulation.

Exemption

5. This Notice of Exemption exempts the responsible person listed in Column 1 of Table 1 from the provision/s listed in Column 2 of that table but only in relation to activities involving the relevant waste and only where the responsible person complies with the conditions set out in this Notice.

However, this Notice of Exemption does not exempt the responsible person from the provisions specified in Column 2 where the relevant waste is received at premises that are, despite this exemption, required to be licensed for waste disposal (application to land) activities under the provisions of the Act.

Column 1	Column 2
Responsible person	Provisions from which the responsible person is exempt
Processor	section 48 of the Act in respect of clause 39 of Schedule 1 to the Act
Consumer	section 48 of the Act in respect of clauses 34, 39, 41 and 42 of Schedule 1 to the Act section 88 of the Act clause 47 of the Regulation

This Notice of Exemption is a general exemption for the purposes of clause 51(3) of the Regulation.

Definitions

6. In this Notice of Exemption:

Consumer means a person who applies, causes, or permits the application to land of stormwater within the definitions of “application to land” in accordance with the Act. The consumer may be the landholder responsible for the land to which stormwater is applied.

Processor means a person who generates, supplies, causes, or permits the supply of stormwater to a consumer, or who processes, mixes, blends, or otherwise incorporates stormwater into a material for supply to a consumer.

Relevant waste means stormwater that is applied to land.

Stormwater means rainfall that runs off all urban surfaces such as roofs, pavements, carparks, roads, gardens and vegetated open spaces.
