### CONTAMINATED LAND MANAGEMENT ACT 1997

Section 21

Declaration of remediation site

Declaration Number 21129; Area Number 3259

THE Environment Protection Authority (EPA) declares the following land to be a remediation site under the Contaminated Land Management Act 1997 ("the Act"):

1. Land to which this declaration applies ("the site")

The site, comprising Lots 575, 576, 587, and 588 in DP 14716, is located at 20 Carvers Road, Oyster Bay in the local government area of Sutherland Shire Council.

2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances ("the contaminants"):

- Total Petroleum Hydrocarbons (TPH)
- Benzene, Toluene, Ethyl benzene and Xylenes (BTEX)

3. Nature of harm that the contaminants may cause:

The EPA has considered the matters in s.9 of the Act and has determined that the contamination at the site warrants regulation under the Act for the following reasons:

- High concentrations of contaminants, including TPH and BTEX, in groundwater exceed human health and ecological guideline criteria;
- Petroleum hydrocarbons, including benzene, have migrated off-site, beneath adjacent properties;
- Exposure to this contamination can cause adverse health effects;
- Exposure to the contamination may occur if contaminated groundwater is extracted, excavations are carried out in the affected area or from inhaling chemicals volatilising from groundwater.

4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the proposal satisfies the requirements of

s.26 of the Act, the EPA may agree not to issue a remediation order to the person or persons bringing the proposal.

#### 5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a remediation order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager Contaminated Sites  
Department of Environment and Conservation  
PO Box A290  
Sydney South NSW 1232  
or faxed to (02) 9995 5930

by not later than 24 April 2009.

NIALL JOHNSTON,  
Manager Contaminated Sites,  
Department of Environment and Climate Change  
Date: 1 April 2009

#### NOTE:

Remediation order may follow

If remediation of the site or part of the site is required, the EPA may issue a remediation order under s.23 of the Act.

#### Variation/Revocation

This declaration may be varied by subsequent declarations. It remains in force until it is otherwise revoked. A declaration may only be revoked when the EPA does not have reasonable grounds to believe that land is contaminated in such a way as to present a significant risk of harm (s.44 of the Act).

#### Information recorded by the EPA

Section 58 of the Contaminated Land Management Act 1997 requires the EPA to maintain a public record. A copy of this remediation declaration will be included in the public record.

#### Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act that the land is currently within a remediation site. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s.149 (2) certificate is no longer required.

#### Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.

## CONTAMINATED LAND MANAGEMENT ACT 1997

### Section 21

#### Declaration of Remediation Site

Declaration Number 21127 Area Number 3258

THE Environment Protection Authority "EPA" declares the following land to be a Remediation Site under the Contaminated Land Management Act 1997 ("the Act"):

#### 1. Land to which this declaration applies ("the site")

The site is a former Shell fuel depot located at Adelaided Street, Moree NSW 2400 in the Local Government Area of Moree Plains Shire Council and comprises:

- Lot 1 in Deposited Plan 316750;
- Lot A in Deposited Plan 410632; and
- Lot 1 in Deposited Plan 16225.

#### 2. Nature of contamination affecting the site:

The EPA believes that the site is contaminated with the following substances ("the contaminants"):

- Petroleum hydrocarbons including benzene, toluene, ethyl benzene and xylenes.

#### 3. Nature of harm that the contaminants may cause

The EPA has considered the matters in s.9 of the Act and has determined that the contamination at the site warrants regulation under the Act for the following reasons:

- The groundwater at the site is contaminated with separate phase hydrocarbons and dissolved phase hydrocarbons at concentrations exceeding relevant guideline values;
- The hydrocarbon contamination includes benzene;
- The hydrocarbon contaminated groundwater has migrated off-site towards adjoining residential area and there is potential for the contaminated groundwater to continue to migrate off-site if left unchecked; and
- There are potential exposure pathways to the contamination through the extraction and beneficial uses of groundwater in the vicinity of the site, and

workers may be accidentally exposed to vapours that may accumulate in excavations and service utilities.

#### 4. Further action under the Act

The making of this declaration does not prevent the carrying out of a voluntary remediation of the site and any person may submit a voluntary remediation proposal for the site to the EPA. If the proposal satisfies the requirements of s.26 of the Act, the EPA may agree not to issue an investigation order to the person or persons bringing the proposal.

#### 5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue an investigation order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Manager Contaminated Sites  
Department of Environment and Climate Change

Section 58 of the Contaminated Land Management Act 1997 requires the EPA to maintain a public record. A copy of this investigation declaration will be included in the public record.

#### Information recorded by councils

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s.149 (2) of the Environmental Planning and Assessment Act that the land is currently within an investigation area. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s.149 (2) certificate is no longer required.

#### Relationship to other regulatory instrument

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
