### PRACTICE NOTE DC (CIVIL) NO. 8

Early Return of Subpoenas

THIS Practice Note supersedes and replaces the previous Practices Notes referable to early return of subpoenas.

- 1. INTRODUCTION
  - 1.1 The issuing of subpoenas and the inspection of documents is vital to the proper preparation of cases. The Court provides a system for the early production of documents so that parties can meet the standards imposed by Practice Notes.
  - 1.2 The power to deal with subpoenas is delegated to the registrar by a direction under section 13 of the Civil Procedure Act 2005.
- 2. SYSTEM FOR EARLY RETURN OF SUBPOENAS
  - 2.1 The Court aims to allocate a return date within 6 weeks of the issue of a subpoena for production.
  - 2.2 The Court has adopted the following system for the early return of subpoenas and access to documents to give effect to the powers in rule 33.9 of the Uniform Civil Procedure Rules 2005:
    - (a) The issuing party will obtain a return date from the registry and endorse it on the subpoena. In Sydney, the return date will be on a Monday at 11am before the registrar.

- (b) The issuing party must attach to the service copies of the subpoena a notice in the form specified in the Practice Note. The issuing party is required to endorse a proposed access order and the producer is required to complete the attached declaration as to whether the material produced is copied material, original material or a mix of copied and original material. Unless an alternative order is sought the proposed access order will be "Plaintiff to have first access for 7 days; thereafter, in the absence of further application, access to all parties." Where a different proposed access order is sought the issuing party must state his or her reasons in the notice. If there is a dispute over the proposed access, the parties must appear on the return date.
- (c) The issuing party must serve a copy of the subpoena and notice on all other parties who have an address for service within 7 days of issue. If the return date is less than 2 weeks away, the copy and notice must be served within 24 hours.
- (d) The issuing party must appear on the return date if it has not notified all parties of the issue of the subpoena. All other parties must attend on the return date unless the issuing party has obtained consent to mention the matter for all parties. The Court may make costs orders against parties who have not complied with the rules and this practice note.
- (e) Any party or the producer, may object to the issuing party about the proposed access order. The issuing party must notify all other parties of the objection. Parties who wish to contest the proposed access order must appear on the return date and argue the question before the registrar.
- (f) If there is No. appearance on the return date, the Court will generally make the proposed access order. There is No. need for the parties to appear on the return date if all parties consent to the order sought.
- (g) If the subpoena has not been served, the issuing party should appear on the return date and ask the registrar for a new return date.
- (h) If documents have not been produced, any party may obtain a further return date from the registry. That party must inform all other parties of the new return date.

### 3. ACCESS TO DOCUMENTS

- 3.1 When the proposed access order takes effect, parties may inspect documents in the registry in accordance with that order. The other parties may inspect the documents produced as soon as the first access order has expired.
- 3.2 Practitioners should be aware that, if the party with first access does not inspect documents in accordance with the proposed access order, other parties may inspect privileged documents and the privilege may be lost.
- 3.3 The Court has broad discretionary powers under rule 33.8 of the Uniform Civil Procedure Rules 2005 with respect to access to and copying of documents.
- Dated: 5 May 2009.
