**PROTECTION OF THE ENVIRONMENT
OPERATIONS (WASTE) REGULATION 2014**

from the requirement to ensure that each vehicle that enters or leaves their facility is weighed by the weighbridge under clause 36 (3) (d) of the Waste Regulation in circumstances where the vehicle entering or leaving the facility has a ‘stored tare weight’ which the occupier uses to determine the weight of the vehicle, only when:

- b) If the facility uses a ‘stored tare weight’ for a vehicle, the most recently reviewed ‘stored tare weight’ of the vehicle must be used until the next review.
- c) all information in relation to the relevant entry or departure required under clause 27, 28, 29, 30, 32 or 33 of the Waste Regulation is recorded in accordance with the requirements of the Waste Regulation.
- d) A record of all stored tare weights of each vehicle, together with its registration number, must be retained within the electronic software system for a period of 6 years.

FISHERIES MANAGEMENT ACT 1994

Section 76

Instrument of Determination of Management Charge for 1 July 2015 to 30 June 2016

I, Geoff Allan, Deputy Director General, Department of Primary Industries, Fisheries, with the delegated authority of the Minister for Primary Industries and the Secretary of the Department of Industry, Skills and Regional Development pursuant to sections 227 and 228 of the *Fisheries Management Act 1994* ("the Act"), do by this instrument of determination pursuant to sections 76 (1) and (2) of the Act, determine the management charge for the period 1 July 2015 to 30 June 2016 payable by holders of shares in any of the relevant share management fisheries in respect of each fishing business the components of which include shares in one or more of the relevant share management fisheries as follows:

1. If the components of a fishing business include shares (of any class) in one or more of the relevant share management fisheries, the management charge in respect of that fishing business (the **management charge**) is the total of the following amounts:
 - (a) for the first class of shares held by the fishing business—\$1,109;
 - (b) for the second class of shares held by the fishing business—\$1,109;
 - (c) for the third and each subsequent class of shares held by the fishing business—the discounted amount for that class of shares.
2. The **discounted amount** for a class of shares is calculated as follows:
 - (a) for the third class of shares held by the fishing business—\$665 (being 60% of \$1,109, rounded to the nearest dollar);

- (b) for the fourth class of shares held by the fishing business—\$399 (being 60% of the discounted amount for the third class of shares held by the fishing business, rounded to the nearest dollar);
 - (c) for the fifth class of shares held by the fishing business—\$240 (being 60% of the discounted amount for the fourth class of shares held by the fishing business, rounded to the nearest dollar);
 - (d) for the sixth class of shares held by the fishing business—\$144 (being 60% of the discounted amount for the fifth class of shares held by the fishing business, rounded to the nearest dollar);
 - (e) and so on until all classes of shares held by the fishing business have been accounted for.
3. If the components of a fishing business for which a management charge is payable include a southern fish trawl endorsement, the calculation of the management charge is modified as follows:
- (a) the southern fish trawl endorsement is to be treated as if it were the first class of shares held by the fishing business;
 - (b) in subclause 1 (a) of this instrument of determination, the amount to be added for that first class of shares is nil.
- Note:** No management charge is included for the southern fish trawl endorsement because an annual contribution of \$1,109 is payable in respect of that endorsement under section 115A of the Act.
4. For the purposes of this instrument of determination, a class of shares is held by a fishing business if the shares are a component of that fishing business on 31 July 2015.

In this instrument of determination:

class of share means a class of share in a relevant share management fishery, as listed in:

- (a) clause 5 of the Appendix to the *Fisheries Management (Estuary General Share Management Plan) Regulation 2006*;
- (b) clause 5 of the Appendix to the *Fisheries Management (Estuary Prawn Trawl Share Management Plan) Regulation 2006*;
- (c) clause 5 of the Appendix to the *Fisheries Management (Ocean Hauling Share Management Plan) Regulation 2006*;
- (d) clause 4 of the Appendix to the *Fisheries Management (Ocean Trap and Line Share Management Plan) Regulation 2006*;
- (e) clause 4 of the Appendix to the *Fisheries Management (Ocean Trawl Share Management Plan) Regulation 2006*.

relevant share management fishery means any of the following share management fisheries, as described in Schedule 1 to the Act:

- (a) the estuary general fishery;
- (b) the estuary prawn trawl fishery;
- (c) the ocean hauling fishery;
- (d) the ocean trawl fishery;
- (e) the ocean trap and line fishery.

southern fish trawl endorsement has the same meaning as it has in the *Fisheries Management (General) Regulation 2010*.

- (26) The lessee must, if the Commissioner so directs, prevent the use by stock of any part of the land leased for such periods as the Commissioner considers necessary to permit of the natural reseeding and regeneration of vegetation and, for that purpose, the lessee must erect within the time appointed by the Commissioner such fencing as the Commissioner may consider necessary.
- (27) The lessee must furnish such returns and statements as the Commissioner may from time to time require on any matter connected with the land leased or any other land (whether within or outside the Western Division) in which the lessee has an interest.
- (28) The lessee must, within such time as may be specified by the Commissioner take such steps and measures as the Commissioner shall direct to destroy vermin and such animals and weeds as may, under any Act, from time to time be declared (by declaration covering the land leased) noxious in the Gazette and must keep the land free of such vermin and noxious animals and weeds during the currency of the lease to the satisfaction of the Commissioner.
- (29) The lessee must not remove or permit any person to remove gravel, stone, clay, shells or other material for the purpose of sale from the land leased unless the lessee or the person is the holder of a quarry license under regulations made under the *Crown Lands Act 1989* or, in respect of land in a State forest, unless the lessee or the person is the holder of a forest materials licence under the *Forestry Act 1916*, and has obtained the special authority of the Minister to operate on the land, but the lessee may, with the approval of the Commissioner, take from the land such gravel, stone, clay, shells or other material for building and other purposes upon the land as may be required by the lessee.

- (30) If the lessee is an Australian registered company then the following conditions shall apply:
- I The Lessee will advise the Commissioner of the name, address and telephone number of the Lessee's company secretary, that person being a person nominated as a representative of the company in respect of any dealings to be had with the company. The lessee agrees to advise the Commissioner of any changes in these details.
 - II Any change in the shareholding of the Lessee's company which alters its effective control of the lease from that previously known to the Commissioner shall be deemed an assignment by the Lessee.
 - III Where any notice or other communication is required to be served or given or which may be convenient to be served or given under or in connection with this lease it shall be sufficiently executed if it is signed by the company secretary.
 - IV A copy of the company's annual financial balance sheet or other financial statement which gives a true and fair view of the company's state of affairs as at the end of each financial year is to be submitted to the Commissioner upon request.
- (31) The lessee must ensure that cultivation and associated activities do not interfere with any road formation within the allowable area.
- (32) Access tracks to the area to be cultivated must be arranged in such a manner as to minimise the disturbance of any land surfaces within the areas required to be left uncultivated to comply with the conditions of this consent.
- (33) The lessee must ensure that sand hills and other soils with a surface texture of loamy sand or coarser are left uncultivated unless specifically approved by the commissioner.
- (34) The lessee must ensure that land within 60 metres of any texture contrast or duplex soil area remains uncultivated except in accordance with a plan approved by the Commissioner. Texture contrast (or duplex) soils are soil types which have sandy to loamy topsoil abruptly overlying a clay subsoil and are prone to scalding (producing clay pans and hummocks).
- (35) The lessee must ensure that areas with a slope greater than 2% remain uncultivated until any soil conservation measures documented in a plan approved by the Commissioner have been implemented at the lessee's expense.
- (36) The lessee must ensure incised drainage lines, other than man-made structures, which carry water after storms are left uncultivated in the channels and for a distance of at least 20 metres on either side of the banks of the channels except when the Commissioner specifies otherwise.
- (37) The lessee must ensure that there is no cultivation within at least 50 metres of the Wallanthery Road (WDR107).
- (38) The cultivation areas partly cover Travelling Stock Reserve (TSR) 618 and TSR 85157. The lessee must make suitable arrangements with the relevant Livestock Health and Pest Authority prior to commencement of any development. If suitable arrangements cannot be made with the Livestock Health and Pest Authority, the matter will be determined by the Commissioner.
- (39) The lessee must ensure stubble is retained on the soil surface and must not be burnt, except with the approval of the Commissioner or his delegate. Where such approval is granted, stubble burning is carried out as per requirements of the NSW Rural Fire Service.
- (40) The lessee must undertake any appropriate measures, at his/her own expense, ordered by the Commissioner to rehabilitate any degraded cultivated areas.
- (41) The lessee must establish windbreaks at his/her own expense as may be ordered by Commissioner to provide adequate protection of the soil.
- (42) The lessee must undertake any fuel management and/or provision of fire trail access in accordance with fire mitigation measures to the satisfaction of the NSW Rural Fire Service.
- (43) The lessee must ensure that cultivation and cropping do not alter the natural flood regime or obstruct the reasonable passage of floodwaters. Crops are not to be protected by levees.
- (44) The lessee must ensure that no tail water or drainage water run-off will escape or discharge into or onto adjoining lands by any means including surface or sub-surface drains or pipes.
- (45) The lessee must ensure that no cultivation or ancillary works associated with any cultivation are undertaken within 30 metres, on the landward side of the bank of the Lachlan River. The river buffer area must not be disturbed by the use of any implements or used for the purposes of any silo, temporary grain storage, machinery shed or other installations or works of any kind.
- (46) The lessee must ensure that no cultivation or ancillary works associated with any cultivation are undertaken within 30 metres, on the landward side, of the bank of Willandra Creek. The creek buffer area must not to be disturbed by the use of any implements or used for the purposes of any silo, temporary grain storage, machinery shed or other installations or works of any kind.
- (47) The lessee must only cultivate an area of 314 ha (being 306 ha on Western Lands Lease 1681 and 8 ha on Western Lands Lease 1791) shown cross-hatched on the diagram hereunder.
