of the State of

New South Wales

Number 46

Friday, 27 April 2018

The New South Wales Government Gazette is the permanent public record of official NSW Government notices. It also contains local council, private and other notices.

From 1 January 2018, each notice in the Government Gazette has a unique identifier that appears in square brackets at the end of the notice and that can be used as a reference for that notice (for example, [n2018-14]).

The Gazette is compiled by the Parliamentary Counsel's Office and published on the NSW legislation website (www.legislation.nsw.gov.au) under the authority of the NSW Government. The website contains a permanent archive of past Gazettes.

1. About this document

This document is the Bottle Crushing Service Operator “Processing Refund Protocol” (Protocol) which sets out the methodology to be applied in determining the amounts payable to bottle crushing service operators as processing refunds under the NSW Container Deposit Scheme. It is associated with the Material Recovery Facility Processing Refund Protocol referred to in the *Waste Avoidance and Resource Recovery Act 2001* and the Waste Avoidance and Resource Recovery (Container Deposit Scheme) Regulation 2017 (Regulation).

In the case of any inconsistency between this Protocol and the Regulation, the latter prevails to the extent of the inconsistency.

This Protocol only applies to bottle crushing service operators as defined in clause 7 of the Regulation.

2. Review of protocol

The Protocol will be reviewed, at a minimum, within 5 years of its publication, but may be reviewed more frequently when considered appropriate by the EPA.

3. Definitions

Terms within this Protocol have the same meaning as defined within the *Waste Avoidance and Resource Recovery Act 2001* (the Act) and the Waste Avoidance and Resource Recovery (Container Deposit Scheme) Regulation 2017 (the Regulation).

Abbreviations

NSW	New South Wales
EPA	NSW Environment Protection Authority
CDS	NSW Container Deposit Scheme
MRF	Material Recovery Facility
Protocol	Bottle Crushing Service Operator Processing Refund Protocol
Scheme material	Any material received from a network operator, a collection point operator or another MRF operator

4. Aims of the protocol

The aims of the Protocol are to:

- Protect the integrity of the CDS

- Maximise legitimate returns to communities
- Support equity between participants
- Promote efficiency

5. Making a claim

A bottle crushing service operator may make a claim for the payment of a processing refund by lodging a processing refund claim with the Scheme Coordinator in the approved form and manner. For each quarter, only one claim can be made by each bottle crushing service operator. The claim must cover relevant information required under this Protocol.

5.1 Available methods

One of the following methods must be used for estimating the total number of eligible containers processed for reuse or recycling by the bottle crushing service operator during any given quarter:

- a. Method 1 – Weighing (refer to Section 6.1.1); or
- b. Method 2 – Direct Counting (refer to Section 6.1.2).

A bottle crushing service operator must nominate which Method they will use by completing the *NSW Container Deposit Scheme – Bottle Crushing Service Operator Registration Form* and submitting it to the EPA.

If a bottle crushing service operator wishes to change the nominated Method, a *NSW Container Deposit Scheme - MRF Claim Method Nomination Form* must be submitted to the EPA and the Scheme Coordinator at least 28 calendar days before the commencement of the quarter for which the changed Method is to be used.

5.2 Method 1 - Weighing

Each bottle crushing service operator applying Method 1 must measure and record the total quantity of all glass received from within NSW and delivered for reuse or recycling.

The quantity of glass received by the bottle crushing service operator from within NSW and delivered for reuse or recycling must be determined by measuring the weight of all glass using calibrated weighing equipment and in accordance with the following:

- The weight must be measured in tonnes;
- The weight must be measured using weighing equipment that has the following minimum accuracy:
 - For weighbridges: +/- 20kg;
 - For all other weighing equipment: +/- 1 kg
- The weight must be recorded to a minimum 2 decimal places;
- The date of delivery and destination of each load of glass must be recorded;
- Weighing equipment must be calibrated in accordance with all manufacturer requirements; and
- Weighbridges, where used as weighing equipment for the purpose of this Section, must be verified (within the meaning of the National Measurement Act 1960) at least once a year.

5.2.1 Monthly reporting

Each bottle crushing service operator applying Method 1 must report the following information to the Scheme Coordinator in the approved form and manner within 14 days after the end of each month:

- The total measured weight of all glass received by the bottle crushing service operator from within NSW and delivered for reuse or recycling;
- The total number of bins received from all venues within NSW that use a bottle crushing machine operated by the bottle crushing service operator; and
- The average bin weight for all bins received from within NSW by the bottle crushing service operator; and
- The date of delivery and destination of each load of glass received by the bottle crushing service operator.

5.3 Method 2 - Direct counting (automated)

Each bottle crushing service operator applying Method 2 must count the number of individual eligible containers received by the bottle crushing service operator from within NSW and delivered for reuse or recycling. Counting must be undertaken on an automated basis, and the eligibility of each container that enters the bottle crushing machine must be scanned and recorded.

5.3.1 Monthly reporting

Each bottle crushing service operator applying Method 2 must report the following information to the Scheme Coordinator in the approved form and manner within 14 days after the end of each month:

- the number of eligible glass containers processed through each glass crushing machine in NSW operated by the bottle crushing service operator and delivered for reuse or recycling;
- the total number of containers processed through each glass crushing machine operated by the bottle crushing service operator;
- the weight of all material processed through each bottle crushing machine operated by the bottle crushing service operator; and
- The date of delivery and destination of each load of glass.

5.4 Making a processing refund claim

A bottle crushing service operator may make a processing refund claim to the Scheme Coordinator each quarter. The claim must:

- a. include any information required under the *Waste Avoidance and Resource Recovery Act 2001*, the *Waste Avoidance and Resource Recovery (Container Deposit Scheme) Regulation 2017* or prescribed under the Protocol (together, the "Processing Refund Requirements"); and
- b. be accompanied by any documents or reports required by the Processing Refund Requirements; and
- c. be assessed by an approved person for the purposes of determining whether the Protocol has been correctly applied in determining the amount of the claim; and
- d. be signed by an approved person; and
- e. be accompanied by a statutory declaration signed and completed by the approved person who has assessed the claim; and
- f. be lodged with the Scheme Coordinator in the approved form and manner, and received within 28 calendar days of the end of the quarter.

5.5 Information to be included with all processing refund claims

The following information is prescribed for the purposes of inclusion in each processing refund claim made under Section 6 of the Protocol:

- a. the name, address and contact details of the bottle crushing service operator; and
- b. the ABN and ACN of the bottle crushing service operator; and
- c. the name and contact details of a contact person for the claim; and

- d. the total weight of glass received by the bottle crushing service operator from within NSW and delivered for reuse or recycling during the quarter (where Method 1 is used); and
- e. the total number of eligible glass containers received by the bottle crushing service operator from within NSW and delivered for reuse or recycling during the quarter (where Method 2 is used);
- f. The date of delivery, quantity and destination of each load of glass delivered for reuse or recycling; and
- g. bank account details, including BSB and account number, for payment of processing refunds.

5.6 Information to be verified

The processing refund claim must:

- a. be verified by an approved person, who is one of the following:
 - i a director, chief executive, chief financial officer, or company secretary of the bottle crushing service operator; or
 - ii any designated person to whom the above persons have delegated their authority in writing; and
- b. state that:
 - i based on all reasonable steps having been taken to verify the information in the claim, the claim is accurate and complete as far as the person verifying knows; and
 - ii the claimant has correctly applied the Protocol in determining the details of the claim.
 - iii The claimant confirms that, to the best of its knowledge, the material the subject of the claim has not been and will not be the subject of a claim for refund amounts or processing refunds by any other MRF operator, Network Operator or Collection Point Operator under the *Waste Avoidance and Resource Recovery Act 2001*
 - iv The claimant confirms that, to the best of its knowledge, the material was not received before 1 December 2017.

5.7 Manner of lodging

A claim under Section 6 of the Protocol must be submitted to the Scheme Coordinator in the form and manner specified by the Scheme Coordinator.

6. Assessment of claims

The Scheme Coordinator is required, on receiving a valid processing refund claim, to pay the bottle crushing service operator a processing refund for eligible containers that have been reused or recycled (excluding any Scheme material, or material received from interstate or, material received before 1 December 2017). The amount payable by the Scheme Coordinator must be determined using the calculation detailed in this section.

6.1 Calculation of the number of eligible containers by output material type

6.1.1 Method 1

Where a bottle crushing service operator makes a processing refund claim using Method 1, the Scheme Coordinator must determine the estimated number of eligible glass containers processed during the quarter using the following calculation:

$$E = (Q \times EF)$$

Where:

E is the estimated number of eligible glass containers processed for reuse or recycling during the quarter

Q is the total weight of glass measured in tonnes received by the bottle crushing service operator from within NSW and delivered for reuse or recycling during the quarter.

EF is the eligible container factor for glass as referenced in Section 8.

6.1.2 Method 2

Where a bottle crushing service operator makes a processing refund claim using Method 2, the estimated number of eligible glass containers processed during the quarter using the following calculation:

$$E = QE$$

Where:

E is the estimated number of eligible glass containers processed during the quarter.

QE is the total counted number of eligible glass containers received by the bottle crushing service operator from within NSW and delivered for reuse or recycling during the quarter.

6.2 Receiving containers from states other than NSW

Bottle crushing service operators receiving material from sources outside of NSW are not entitled to a refund for containers received from those sources.

6.3 Calculation of the total processing refund payable

The Scheme Coordinator must calculate the total processing refund payable to a bottle crushing service operator for each quarter using the following calculation:

$$P = E \times RA$$

Where:

P is the Total Processing Refund payable to the bottle crushing service operator for the quarter.

E is the estimated number of eligible containers processed and delivered for reuse or recycling during the quarter (calculated in accordance with Section 7.1)

RA is the refund amount per eligible container, as set out in the Regulation.

6.4 Deduction of sampling costs

The Scheme Coordinator may deduct from the Total Processing Refund payable for each bottle crushing service operator the monetary cost incurred to undertake the procedures set out in the Sampling Plan prepared by the EPA. This cost shall be recovered proportionally from each Processing Refund Claim.

6.5 Claim assessment

Where a bottle crushing service operator makes a processing refund claim, the Scheme Coordinator must issue the bottle crushing service operator with a claim assessment. The claim assessment must include:

- a. the total processing refund payable to the bottle crushing service operator for the quarter;
- b. the sampling cost deduction for the bottle crushing service operator for the quarter;
- c. the estimated number of eligible containers processed for reuse or recycling during the quarter;
- d. where Method 1 was used:
 - i the total weight of glass processed for the quarter;
 - ii the eligible container factor applied for the quarter; and
 - iii the estimated number of eligible containers delivered for reuse or recycling during the quarter.
- e. where Method 2 is used:
 - i the total counted number of eligible glass containers processed and delivered by the bottle crushing service operator for reuse or recycling in the quarter.
- f. any other information required by the Processing Refund Requirements.

6.6 Timeframe for issuing claim assessment

Where a bottle crushing service operator makes a processing refund claim, the Scheme Coordinator must issue the bottle crushing service operator with a claim assessment within 45 calendar days of the end of the quarter to which the claim relates. Where the 45th calendar day falls on a weekend or public holiday, the claim assessment may be issued on the next business day.

6.7 Timeframe for payment of processing refunds

Processing refunds must be deposited into the nominated bank account of the bottle crushing service operator within 10 business days of the issuance of the claim assessment by the Scheme Coordinator.

6.8 Refusal of claims

The Scheme Coordinator may refuse a processing refund claim or any aspect of a processing refund claim where it reasonably determines that a claim has not been made in accordance with the Protocol.

6.9 Amending processing refund claims – Bottle crushing service operator initiated

The Scheme Coordinator may amend a processing refund claim if the bottle crushing service operator to whom the claim assessment is issued requests, in writing, an amendment. A request for an amendment must be made within 100 calendar days from the date of the original claim and include relevant information supporting the requested amendment. Requests for amendment of a processing refund claim will not be accepted where the initial processing refund claim was not lodged with the Scheme Coordinator and the EPA within 28 calendar days of the end of the quarter in the approved manner as detailed in Section 6.9.

In deciding whether to amend a processing refund claim, the Scheme Coordinator:

- a. must have regard to the matters required by the Processing Refund Requirements; and
- b. may have regard to any other matter that it considers relevant.

If the Scheme Coordinator refuses to amend a claim assessment upon request by a bottle crushing service operator, the Scheme Coordinator must notify the bottle crushing service operator accordingly and provide clear and justifiable reasons for refusing.

6.10 Amending processing refund claims – Scheme Coordinator initiated

The Scheme Coordinator may amend a processing refund claim if:

- a. a qualified assurance conclusion;
- b. an adverse conclusion; or
- c. a conclusion that the assurance provider is unable to form an opinion about the matter being assured;

is issued in relation to assurance carried out under Section 10 of the Protocol.

If the Scheme Coordinator amends a claim assessment on this basis, the Scheme Coordinator must notify the bottle crushing service operator accordingly and provide clear and justifiable reasons for the amendment.

6.11 Review of claim assessments

A bottle crushing service operator may request the Scheme Coordinator to reconsider an assessment made under this section. The request must be:

- a. in writing;
- b. provide a description of the matter to be reconsidered with reference to the Protocol and relevant supporting information and
- c. received by the Scheme Coordinator no later than 60 calendar days after the assessment is made.

The Scheme Coordinator must reconsider the assessment and confirm, vary or set aside the original assessment. The Scheme Coordinator must give written notice of its decision regarding the reconsideration to the bottle crushing service operator within 60 calendar days after the request is received by the Scheme Coordinator.

6.12 Reconciliation of payment of processing refunds

6.12.1 Underpayment

Where a processing refund claim is amended or reviewed in accordance with this section, and it is determined that there has been an underpayment to the bottle crushing service operator, the Scheme Coordinator must deposit the outstanding processing refund amount into the nominated bank account of the bottle crushing service operator within 10 business days of amending the claim, and within 10 business days of the provision of written notice of decision.

6.12.2 Overpayment

Where a processing refund claim is amended or reviewed in accordance with this section, and it is determined that there has been an overpayment to the bottle crushing service operator, the Scheme Coordinator must advise the bottle crushing service operator in writing that there has been an overpayment and detail the extent of that overpayment. The bottle crushing service operator must reimburse the Scheme Coordinator the total amount that has been overpaid within 10 business days of being notified of the overpayment by the Scheme Coordinator. Where a bottle crushing service operator is financially unable to meet this requirement, a repayment plan is to be negotiated between the bottle crushing service operator and the Scheme Coordinator.

7. Eligible container factor

7.1 Determining eligible container factor

The eligible container factor (EF) referred to in Section 7 will be calculated by the EPA. The eligible container factor for bottle crushing service operators using Method 1 may be determined using any combination of the following:

- Sampling data
- Sales data
- Claim information
- Any other relevant information

7.2 Sampling Plan

An EPA prepared Sampling Plan will be used to determine the Eligible Container Factor referred to in Section 7.

7.3 Publishing of eligible container factor

The EPA will publish the Eligible Container Factor for the quarter within 43 calendar days after the last day of the quarter. Where the 43rd calendar day falls on a weekend or public holiday, the Eligible Container Factor may be published on the next business day.

Note: *The EPA will determine the Eligible Container Factor for each quarter based on a range of data. In the initial stages of the scheme, the factor will be determined after each quarter to ensure it accounts for any changes in inputs during that time. As more data is collected, and as inputs stabilise over time, the EPA will review this approach with a view to releasing the factor prior to each quarter, or potentially half yearly or annually.*

8. Reporting and record keeping requirements

8.1 Annual recycling statement

Each bottle crushing service operator is required to prepare and submit an Annual Recycling Statement to the Scheme Coordinator and the EPA within 60 calendar days of the end of each year ended 30 June (the 'reporting period'). The Annual Recycling Statement must be prepared in accordance with the *NSW Container Deposit Scheme - Annual Recycling Statement Template* available on the EPA website, and must contain the following information:

- a. A throughput reconciliation, prepared in accordance with Section 9.2
- b. Where Method 1 has been applied:
 - i the total weight of glass processed for reuse or recycling for which a processing refund claim has been made during the reporting period; or
- c. Where Method 2 has been applied:
 - i the total number of eligible containers counted by the bottle crushing service operator for which a processing refund claim has been made during the reporting period.

8.2 Throughput reconciliation

Each bottle crushing service operator is required to prepare an Annual Throughput Reconciliation of all input materials received and all output materials delivered during the reporting period, including:

- Total quantity (weight in tonnes) of glass received by the bottle crushing service operator from within NSW;
- Total quantity (weight in tonnes) of glass received by the bottle crushing service operator from outside NSW;
- Total quantity (weight in tonnes) of glass from within NSW reused or recycled;
- Total quantity (weight in tonnes) of glass from outside NSW reused or recycled;

For bottle crushing operators using Method 2, the following must also be included:

- Total number of eligible containers received by the bottle crushing service operator from within NSW
- Total number of all containers received by the bottle crushing service operator

8.3 Record keeping

All records of evidence and supporting documents must be kept in a form that is easily and quickly accessible for inspection. This may be an electronic or hard copy format. The bottle crushing service operator must retain all records for 7 years from the end of the reporting period to which the records relate.

Each bottle crushing service operator must provide the EPA and Scheme Coordinator with any records required to be kept under the Processing Refund Requirements on request.

8.3.1 Minimum record keeping requirements

1. Each bottle crushing service operator must keep records of the activities that:
 - allow the bottle crushing service operator to report accurately under the Protocol; and
 - enable the Scheme Coordinator to ascertain whether the bottle crushing service operator has complied with its obligations under the Protocol.
2. Each bottle crushing service operator must collect and keep the following records:
 - A list of all venues that use a bottle crushing machine operated by the bottle crushing service operator; and
 - The number of bins received from each venue that uses a bottle crushing machine operated by the bottle crushing service operator; and
 - The average bin weight for all bins received by the bottle crushing service operator.
3. Each bottle crushing service operator must advise venues that they service that:
 - Sales data for each venue that uses a bottle crushing machine operated by the bottle crushing service operator must be made available to the EPA and Scheme Coordinator on request;
 - Note: the sales data must provide enough detail on beverages sold to be able to determine the type of container (e.g. glass or aluminium) and whether or not it is eligible. If a venue does not provide the EPA and Scheme Coordinator with data on request, the weight of material received from that venue must will be subtracted from the total weight claimed each quarter.

9. Assurance requirements

9.1 Independent assurance report

Each Annual Recycling Statement must be accompanied by an Independent Assurance Report which complies with this Section. Each bottle crushing service operator must engage an independent appropriately qualified assurance practitioner at their expense to complete the review and assurance report. The matters to be assured and covered by the assurance report are whether:

Reasonable assurance matters

- a. the person who made claims during the reporting period met the definition of a bottle crushing service operator in accordance with the Act and Regulations;
- b. the Annual Recycling Statement has been prepared in accordance with Section 9 of the Protocol;
- c. the Throughput Reconciliation for the reporting period was calculated in accordance with Section 9 of the Protocol; and
- d. the quantities of glass received and delivered by the bottle crushing service operator during the reporting period were measured in accordance with Section 6 of the Protocol;

Limited assurance matters

- a. the glass received by the bottle crushing service operator, for a which a processing refund was claimed, was reused or recycled or will be reused or recycled within 12 months from the date that the processing refund claim was submitted.

9.2 Scheme Coordinator initiated assurance

The Scheme Coordinator may, in addition to the verification activities completed by the Scheme Coordinators' internal audit team, appoint an appropriately qualified assurance practitioner as an assurance team leader to carry out assurance of a bottle crushing service operator's compliance with one or more aspects of the Protocol.

The Scheme Coordinator must give written notice to the bottle crushing service operator of a decision to appoint an assurance team leader. The notice must:

- a. specify the assurance team leader; and
- b. specify the period within which the assurance is to be undertaken; and
- c. specify the type of assurance to be carried out; and
- d. specify the matters to be covered by the assurance; and
- e. be given to the bottle crushing service operator at a reasonable time before the assurance is to be undertaken.

The bottle crushing service operator must provide the assurance team leader and any assurance team members with all reasonable facilities and assistance necessary for the effective exercise of the assurance team leader's duties under the Protocol.

If a bottle crushing service operator is given a notice under this Section, the bottle crushing service operator must arrange for the assurance team leader to carry out the assurance.

The costs associated with Scheme Coordinator assurance activities will be covered by the Scheme Coordinator.

9.3 Assurance team leader duties

Assurance reports issued under Section 10 of the Protocol must include one of the following conclusions for the matters in Sections 10.1 or 10.2(d):

- a. a reasonable assurance conclusion;
- b. a qualified reasonable assurance conclusion;
- c. an adverse conclusion;
- d. a conclusion that the assurance provider is unable to form an opinion about the matter being assured.

An assurance report under this Section must be the result of an assurance engagement which:

- a. was conducted in accordance with the relevant requirements for limited assurance engagements and reasonable assurance engagements under the Australian Standard on Assurance Engagements ASAE 3000 Assurance Engagements other than Audits or Reviews of Historical Financial Information and Australian Standard on Assurance Engagements ASAE 3100 Compliance Engagements; ASAE 3450 Assurance Engagements involving Corporate Fundraisings and/or Prospective Financial Information; and
- b. had an assurance team leader who is:
 - i registered as a Registered Company Auditor under the Corporations Act 2001; or
 - ii registered as a Category 2 auditor under subregulation 6.25(3) of the National Greenhouse and Energy Reporting Processing refund requirements 2008; or
 - iii Other registered auditors deemed appropriate by the EPA as set out on the EPA NSW website.

10. Dispute resolution

10.1 Mediation

Where a dispute between the bottle crushing service operator and the Scheme Coordinator remains unresolved, either party may give written notice to the other party (Mediation Notice) requiring that the dispute be submitted to mediation. The mediation must be in accordance with the Resolution Institute Mediation Rules. The mediator must be:

- (a) agreed between the parties within 10 business days after the receipt of the Mediation Notice; or
- (b) if the parties fail to reach agreement, the President for the time being of the Resolution Institute will nominate the mediator.

Failing any agreement to the contrary by the parties, the costs of mediation will be shared equally between the parties, and each party will bear its own costs.

10.2 Expert determination

Where a dispute between the bottle crushing service operator and the Scheme Coordinator remains unresolved after taking part in mediation in accordance with Section 11.1, either party may give written notice to the other party (Expert Determination Notice) requiring that the dispute be submitted for expert determination. The expert determination must be conducted by:

- (a) an independent industry expert agreed by the parties within 10 Business Days after receipt of the Expert Determination Referral; or
- (b) where the parties fail to reach an agreement, an independent industry expert appointed by the President for the time being of the Resolution Institute.

The expert will:

- i. act as an expert and not as an arbitrator;
- ii. proceed in any manner he or she thinks fit;
- iii. conduct any investigation which he or she considers necessary to resolve the dispute or difference;
- iv. examine such documents, and interview such persons, as he or she may require; and

- v. make such directions for the conduct of the determination as he or she considers necessary.

Unless otherwise agreed between the parties, the expert must notify the parties of their decision within 28 days from the acceptance by the expert their appointment.

Failing any agreement to the contrary by the parties, the costs of expert determination will be shared equally between the parties, and each party will bear its own costs.

10.3 Payment must not be withheld

No payment by the Scheme Coordinator to the bottle crushing service operator shall be withheld on account of a mediation or expert determination except to the extent that such payment is the subject of such dispute.

10.4 Repeal of protocol

The effect of Section 11 shall survive in the event that the Protocol is repealed.

11. Compliance audits

An EPA officer may conduct an audit or inspection to determine compliance with the Protocol at any time. The bottle crushing service operator must provide all reasonable assistance, records and facilities required by the EPA officer.

MARINE SAFETY ACT 1998

MARINE NOTICE

Section 12(2)

REGULATION OF VESSELS – EXCLUSION ZONE AND SPECIAL RESTRICTIONS

Revocation and Replacement

This Notice revokes and replaces the previous Notice relating to these works – NH1740 published in the Government Gazette No 54 of 12 May 2017.

Location

Clarence River – approaches to the existing Harwood Bridge, Harwood.

Duration

Monday 27 April 2018 to Sunday 31 March 2019.

Detail

Construction of a new Pacific Highway Bridge, immediately downstream of the existing Harwood Bridge will continue, affecting safe navigation on the Clarence River.

An **EXCLUSION ZONE** is specified during the construction works and will be created on the Clarence River 200 metres upstream and 300m downstream of either the existing Harwood Bridge.

The exclusion zone will be marked by yellow special marks (yellow buoys), specified at intervals of approximately 50 metres, and barges fitted with lights at night.

Unauthorised vessels and persons are strictly prohibited from entering the exclusion zone.

All vessel operators and persons using the waters near the zone should keep a proper lookout, keep well clear of the works and exercise extreme caution when navigating near the exclusion zone paying particular attention to construction work vessels, barges, anchoring cables, lighting & day shapes and any advisory signage.

A 'transit lane' will be established through the exclusion zone – and under the Harwood Bridge – and will be marked by the presence of port (red) and starboard (green) buoys, which will be lit at night, authorising vessels to pass through the river.

At times, navigable spans under the Harwood Bridge will be closed to navigation. "Channel blocked" lights and shapes will be displayed as appropriate.

Note: The lifting span of the Harwood Bridge will be closed to navigation 1 May 2018 to 1 October 2018 from 6:45am Mondays to 5:00pm Saturdays. The Harwood Bridge lift span will only be available to open; Saturdays after 5pm, Sundays all day, Mondays before 6:45am and on Public Holidays.

SPECIAL RESTRICTIONS apply to vessels navigating the transit lane. Vessels navigating the transit lane must not exceed a speed of 4 knots, must produce no wash, and must comply with any direction given by an authorised officer. Vessels must not anchor in the transit lane unless authorised.

Penalties may apply (section 12(5) – *Marine Safety Act 1998*)

Primary Industries Notices

BIOSECURITY ACT 2015

Biosecurity (Citrus Canker) Control Order 2018

I, CHRIS ANDERSON, Acting Director Plant Biosecurity and Product Integrity, with the delegated authority of the Minister for Primary Industries, in pursuance of section 62 of the *Biosecurity Act 2015* and on account of reasonably believing it is necessary to prevent the biosecurity risk associated with the bacterium *Xanthomonas citri* subsp. *citri* entering New South Wales, make the following Control Order.

Dated this 20th day of April 2018

CHRIS ANDERSON
ACTING DIRECTOR PLANT BIOSECURITY AND PRODUCT INTEGRITY
DEPARTMENT OF INDUSTRY

1. Name of Order

This Control Order is the *Biosecurity (Citrus Canker) Control Order 2018*

2. Commencement and Duration

(1) This Control Order commences on the date it is signed.

(2) This Control Order has effect for 18 months from the date on which the order commences.

Note: Notice of this Control Order will be given by publishing it on the Department's website and in the NSW Government Gazette.

3. Definitions

(1) In this Control Order:

Citrus canker means the disease caused by the bacterium *Xanthomonas citri* subsp. *citri*

Citrus canker carrier means citrus plants (including fruit and leaves) and equipment and machinery that has come into contact with citrus plants but does not include material from citrus plants and equipment that have been processed or treated in a manner to prevent transmission of Citrus canker.

Citrus plant means *Citrus* spp., including *Citrus trifoliata* L. (syn. *Poncirus trifoliata*), *Citrus glauca* (Lindley) Burkill (syn. *Eremocitrus glauca*) and *Citrus australasica* F. Muell. (syn. *Microcitrus australasica*), and their hybrids.

the Act means the *Biosecurity Act 2015*.

the Regulation means the *Biosecurity Regulation 2017*.

Note: *biosecurity matter, biosecurity risk, carrier, control order, control measures, control zone, Department and plant* all have the same meaning as in the Act.

4. Biosecurity Matter and Biosecurity Risk

(1) The biosecurity matter to which this Control Order relates is the bacterium *Xanthomonas citri* subsp. *citri*, causal agent of the disease Citrus canker.

(2) The biosecurity risk to which this Control Order relates is the biosecurity risk posed or likely to be posed by the introduction of Citrus canker into the Citrus Canker Control Zone.

5. Control Zone

(1) Pursuant to sections 62(1)(a) and 67 of the Act, the control zone to which control measures are required to be implemented under this Control Order is the State of New South Wales.

(2) The Control Zone is called the Citrus Canker Control Zone.

6. Persons or class of persons to whom the Control Order applies

Pursuant to section 63(d), the class of persons to whom the control measures apply are all persons moving or causing to move Citrus canker carriers into the Citrus Canker Control Zone.

7. Control Measure

A person must not move or cause the movement of any Citrus canker carrier into the Citrus Canker Control Zone from a jurisdiction where Citrus canker is present.

The hooks used on a lead line must be constructed of plain steel (that is, not stainless steel); 5. A lead line must not be used between half-an-hour past official sunset and half-an-hour before official sunrise; and 6. A lead line must not have weights of more than 500g attached to it when used in areas declared by a notification under section 220T of the Act to be critical habitat of the Grey Nurse Shark.

In this notification:

“**burleying**” means any activity that would be reasonably likely to result in the aggregation of fish associated with line fishing.

“**gang of hooks**” means a group of hooks, each of which is attached to, and in direct contact with, at least one other of those hooks.

“**hand held line**” means a rod (or pole) and line or handline.

“**line fishing**” means the use of a hand held line, set line or drift line.

“**Ocean Trap and Line Fishery**” means the share management fishery of that name, as described in Schedule 1 to the *Fisheries Management Act 1994*.

“**spinning**” means the use of an artificial fly or lure in connection with a hand held line deployed from a boat that is not making way (that is, a boat that is anchored, moored or otherwise held stationary), in a manner whereby the artificial fly or lure is retrieved at or near the surface of the water (that is, the fly or lure must not be allowed to sink prior to retrieval).

“**trolling**” means the use of an artificial fly or lure in connection with a hand held line deployed from a boat that is making way (that is, a boat that is under active propulsion).

Latitude and longitude coordinates are in WGS 1984 datum.

The provisions of this fishing closure in respect of endorsement holders in the Ocean Trap and Line Fishery have effect despite any provision in the *Fisheries Management (Ocean Trap and Line Share Management Plan) Regulation 2006*.

This notification commences on 16 May 2018 and is effective for a period of one (1) year, unless sooner amended or revoked.

Notes:

1. The purpose of this fishing closure is to continue to implement additional protection measures for the Grey Nurse Shark.
2. The declaration of areas as critical habitat of the Grey Nurse Shark is set out in *Critical Habitat of Grey Nurse Shark Notification 2002* published in NSW Government Gazette No. 237 of 29 November 2002 at pages 10137 to 10149 as amended by the *Critical Habitat of Grey Nurse Shark (Amendment) Notification 2013* published in NSW Government Gazette No 79 of 28 June 2013 at pages 3106 to 3107.

Dated this 10th day of April 2018

CHARITABLE TRUSTS ACT 1993

ORDER UNDER SECTION 12

CY PRÈS SCHEME RELATING TO
 THE ESTATE OF THE LATE DR WILLIAM LEONARD MAYO

Section 9(1) of the *Charitable Trusts Act 1993* permits the application of property cy-près where the spirit of the original trust can no longer be implemented.

Dr Mayo was the founder and president of the American Society for Environment Education ('ASEE') and the Australian Society for Environmental Education ('the Australian Society'). The Executor of Dr Mayo's estate commenced proceedings in the Supreme Court for judicial advice in relation to matters concerning Dr Mayo's estate and Dr Mayo's will.

In accordance with the decision of the Supreme Court in *In Application by Latham as Executor of the estate of the late William Leonard Mayo* [2016] NSWSC 1811, Dr Mayo held the sum of \$25,000 as trustee for ASEE, to be utilised for relocating ASEE to San Francisco upon Dr Mayo's death or resignation as president of the ASEE. In that decision, Steven J found that that as the ASEE no longer exists, there can be no question of relocation. Steven J further held that that trust was a charitable trust, with the objects of the ASEE being the promotion of environmental education in the nation's schools and colleges and amongst the corporate community and general public.

By order dated 13 December 2016, Steven J directed that the sum of \$25,000 should be set aside from the assets to be applied by way of a cy prèès scheme for the purposes of the ASEE.

The Outreach Program of the Environmental Defenders Office Ltd (ABN 72002880864) ('EDO NSW') has been identified as having a similar purpose to the ASEE. The objects of the EDO NSW include promoting community educational programs in matters relating to environmental law. The scope of the Outreach Program extends to a wide range of groups including schools, universities, community groups, environmental professionals, and people who make decisions impacting on the environment, including local and State government employees. This aligns

with the original purpose of the ASEE, being to foster and promote environmental education in schools, colleges, the corporate community, and the general public.

The executor of the estate has no objection to a cy près scheme applying the funds to EDO NSW for its Outreach Program.

This is an appropriate matter in which the Attorney General should approve a cy près scheme under s 12(1)(a) of the *Charitable Trusts Act 1993*.

I have previously approved a recommendation that the Attorney General establish a cy près scheme which would permit these charitable funds to be applied in a manner as close as possible to the original purposes of the trust.

Pursuant to section 12 of the *Charitable Trusts Act 1993*, I hereby order that the funds held by the Estate of the late Dr Mayo on behalf of the American Society for Environment Education are to be held on trust by the Environmental Defenders Office Ltd ABN 72002880864, to apply the capital and income for its Outreach Program.

This order will take effect 21 days after its publication in the Government Gazette, in accordance with section 16(2) of the *Charitable Trusts Act 1993*.

Local Government Remuneration Tribunal Annual Report and Determination 2018

Executive Summary

The Local Government Remuneration Tribunal (the Tribunal) is required to report to the Minister for Local Government by 1 May each year as to its determination of categories of councils and the maximum and minimum amounts of fees to be paid to mayors, councillors, and chairpersons and members of county councils.

Categories

The Tribunal has reviewed the criteria that apply to the categories of councils and the allocation of councils into those categories. The Tribunal found that there was no strong case to change the criteria or the allocation of councils into categories at this time. The criteria applicable to each of the categories are published in Appendix 1 of the determination and are unchanged from 2017.

Fees

The Tribunal has determined that the minimum and maximum fees applicable to each category will be increased by 2.5 per cent which is consistent with the government's policy on wages.

**Local Government Remuneration Tribunal Annual Report and
Determination 2018**

Section 1 Introduction

1. Section 239 of the *Local Government Act 1994* (the LG Act) provides for the Tribunal to determine the categories of councils and mayoral offices and to place each council and mayoral office into one of those categories. The categories are to be determined at least once every 3 years.
2. Section 241 of the LG Act provides for the Tribunal to determine, not later than 1 May in each year, for each of the categories determined under section 239, the maximum and minimum amount of fees to be paid to mayors and councillors of councils, as well as chairpersons and members of county councils.
3. In determining the maximum and minimum fees payable in each of the categories, the Tribunal is required, pursuant to section 242A (1) of the LG Act, to give effect to the same policies on increases in remuneration as those of the Industrial Relations Commission. The current policy on wages is that public sector wages cannot increase by more than 2.5 per cent, and this includes the maximum and minimum fees payable to councillors and mayors and chairpersons and members of county councils.
4. The Tribunal is however able to determine that a council can be placed in another existing or a new category with a higher range of fees without breaching the government's wage policy pursuant to section 242A (3) of the LG Act.
5. The Tribunal's determinations take effect from 1 July in each year.

**Local Government Remuneration Tribunal Annual Report and
Determination 2018**

Section 2 2017 Determination

6. The Tribunal undertook a significant review of the categories and the allocation of councils into each of those categories. The review was prompted by the amalgamation of councils resulting in the creation of 20 new councils and an overall reduction in the number of councils in NSW from 152 to 128.
7. In reviewing the categories the Tribunal examined a range of statistical and demographic data and considered the views of councils and Local Government NSW (the LGNSW). Having regard to that information, the Tribunal determined a categorisation model which differentiates councils primarily on the basis of their geographic location. Other factors which differentiate councils for the purpose of categorisation include population, the sphere of the council's economic influence and the degree of regional servicing.
8. The Tribunal's 2017 Determination was made on 12 April 2017 and determined the categories of general purpose councils as follows:

Metropolitan

- Principal CBD
- Major CBD
- Metropolitan Large
- Metropolitan Medium
- Metropolitan Small

Non-metropolitan

- Regional City
- Regional Strategic Area
- Regional Rural
- Rural

9. The criteria for the categories were also determined and are now contained in Appendix 1. The Tribunal's determination also provided for each of the 128 Councils to be allocated into one of the above categories.
10. The 2017 Determination provided a general increase of 2.5 per cent which was consistent with the Government's policy on wages.

**Local Government Remuneration Tribunal Annual Report and
Determination 2018**

Section 3 2018 Review

11. The Tribunal wrote to all mayors in November 2017 advising of the commencement of the 2018 Annual Review. In doing so the Tribunal noted that at the time of making the 2017 determination a number of further merger proposals were on hold as a consequence of legal action taken by councils covered by these proposals. On 27 July 2017 the Premier, the Hon Gladys Berejiklian MP, issued a media release which advised that due to the protracted nature of those legal challenges and the impact on ratepayers, that the following mergers would not proceed:
- Burwood, City of Canada Bay and Strathfield Municipal councils
 - Hornsby Shire and Ku-ring-gai councils
 - Hunter’s Hill, Lane Cove and City of Ryde councils
 - Mosman Municipal , North Sydney and Willoughby councils
 - Randwick City, Waverley and Woollahra Municipal councils.
12. While the Tribunal is only required to review the categorisation every three years, given the changed circumstances, if requested, the Tribunal stated it would review the allocation of the above metropolitan councils into the existing categories.
13. In this respect, any requests for a review would need to be supported by evidence which would indicate that the council is more appropriately allocated into another category based on the criteria.
14. The Tribunal also stated that it does not intend to alter the groups or the criteria which apply unless there is a very strong case to do so.
15. The Tribunal also wrote to the President of LGNSW in similar terms, and subsequently met with the Chief Executive of LGNSW. The Tribunal wishes to place on record its appreciation to the Chief Executive for meeting with the Tribunal.
16. In response to this review the Tribunal received 13 submissions from individual councils and a submission from LGNSW. Those submissions addressed the categorisation model and criteria, the allocation of councils into those categories, and/or the fees. A summary of the matters raised and the Tribunal’s consideration of those matters is outlined below.

Categorisation

Categorisation model

17. The majority of submissions supported the categorisation model, suggested additional categories or made no comment. Concerns were largely based on the criteria and in particular the emphasis on population to determine appropriate categorisation.
18. One submission also requested that consideration be given to making the criteria for Principal CBD and Major CBD more general in nature.
19. Apart from requests for new categories, no case has been put to the Tribunal to adjust or change the categorisation model. The Tribunal is required to review the categories every three years. As the current model was introduced in 2017 the Tribunal will next consider the model and the allocation of councils into that model in 2020.
20. The Tribunal has reviewed the criteria which apply to the categories of Principal CBD and Major CBD. The criteria for Principal CBD and Major CBD are specific to the characteristics of councils within those categories. This is different to the other categories which have indicative population thresholds and general criteria which describe common features of councils in these groups.

Allocation of councils into categories

21. The criteria applicable to the categories are outlined in Appendix 1. The categories differentiate councils on the basis of their geographic location with councils grouped as either metropolitan or non-metropolitan. With the exception of Principal CBD and Major CBD, population is the predominant criterion to determine categorisation. Other common features of councils within those categories are also broadly described. These criteria have relevance when population alone does not adequately reflect the status of one council compared to others with similar characteristics. In some instances the additional criteria will be sufficient enough to warrant the categorisation of a council into a group with a higher indicative population range.
22. In respect of the request to reconsider the criteria for Principal CBD and Major CBD, the Tribunal notes that the current criteria are specific to the councils of Sydney City and Parramatta City respectively. Prior to the making of the 2017 determination Sydney City Council was a standalone category. Parramatta City Council was grouped with Newcastle

Local Government Remuneration Tribunal Annual Report and Determination 2018

City Council and Wollongong City Council. The Tribunal's 2017 review determined that Parramatta City Council would also be a standalone category within the group of metropolitan councils. Newcastle and Wollongong were placed in a separate category, Regional City.

23. The allocation of Sydney City Council and Parramatta City Council into unique categories reflects their status within the metropolitan area. These precincts have been identified by the NSW Government in its metropolitan planning policies¹ as "Metropolitan City Centres" and are the only local government precincts to be given this status. The Tribunal considers that Parramatta City Council is the only council which currently meets the criteria of Major CBD.
24. The Tribunal received ten requests for re-categorisation. Each of those requests was considered having regard to the case put forward and the criteria for each category. A multi variable approach was adopted in assessing each council against all the criteria (not only population) for the requested category and also the relativities within the categories. At the time of making the determination the Tribunal only had available to it population data as of 2016. The Australian Bureau of Statistics (ABS) has advised that more up to date population data will not be published until 24 April 2018 which is too late for consideration as part of this review. The Tribunal found that the current categorisation was appropriate, but noted that some of those councils seeking to be moved are likely to meet the criteria for re-categorisation in future determinations in the medium term. A summary of the Tribunal's findings for each of the applications is outlined in the following paragraphs.

Penrith

25. Penrith sought to be re-categorised to a new category (possibly Metropolitan Large – Growth Centre) to reflect expected population growth and development. The council submitted that the new category could have fees equivalent to Regional City. The

¹ Greater Sydney Commission's (GSC) Greater Sydney Regional Plan – *A metropolis of three cities – connecting people – March 2018* (GSR Plan); Transport for NSW's *Future Transport Strategy 2056, March 2018*; NSW Government's *The NSW State Infrastructure Strategy 2018-2038, 18 March 2018*.

Local Government Remuneration Tribunal Annual Report and Determination 2018

submission also drew the Tribunal's attention to the regional servicing role of Penrith to Greater Western Sydney, the Blue Mountains and the Central West of NSW.

26. The Tribunal examined Penrith's submission in the context of other councils in the Metropolitan Large category. Penrith currently has the smallest population in this group of councils and the degree of population growth is comparable to other fringe metropolitan councils. While the council area is host to a range of regional facilities these are similar to those available in other council areas within this group. On the basis of the information available the Tribunal does not find there is a case to create a new category to accommodate Penrith.

Inner West

27. Inner West has sought to be re-categorised from Metropolitan Medium to Metropolitan Large. The council has a population of 190,500 (2016) which is substantially below the population of other Metropolitan Large councils. In considering this request the Tribunal has reviewed the additional factors which guide categorisation to both Metropolitan Large and Metropolitan Medium, as outlined in Appendix 1 of this determination. The Tribunal notes that while significant residential development is proposed for this council that development is influenced by a number of urban renewal and infrastructure projects which have either not commenced or are in their early stages. The Tribunal finds the council does not demonstrate a sufficient number of additional criteria to warrant re-categorisation as Metropolitan Large at this time. However, with expected population growth it is likely the council may be more comparable with other Metropolitan Large councils in the short to medium term.

Randwick

28. Randwick has sought to be re-categorised from Metropolitan Medium to Metropolitan Large principally on the basis of its regional servicing and facilities. The Tribunal notes that the council's population of 146,250 (2016) is squarely within the indicative range for this category of (100,000 to 200,000). In reviewing this request the Tribunal has also considered the degree of regional servicing and sphere of economic influence. Having regard to those factors the Tribunal does not find that the council can display additional criteria to a degree comparable to other councils in Metropolitan Large or that re-categorisation into this group is appropriate.

Local Government Remuneration Tribunal Annual Report and Determination 2018

Canada Bay

29. Canada Bay has sought to be re-categorised from Metropolitan Small to Metropolitan Medium. Canada Bay has a population 90,850 (2016) which is the largest of the councils in Metropolitan Small but still well below the indicative range of Metropolitan Medium councils. The council has put a case forward based on its growing regional influence with a large influx of workers, shoppers and visitors each day.
30. The Tribunal has compared the profile of Canada Bay to other councils in Metropolitan Medium and finds that the scale of its operations and degree of regional servicing are not sufficient to warrant re-categorisation. The Tribunal notes however, that similar to Inner West, expected population growth it is likely to make the council more comparable to those in Metropolitan Medium in the medium term.

Willoughby and North Sydney

31. Both Willoughby and North Sydney have sought to be re-categorised from Metropolitan Small to Metropolitan Medium. Under the new categorisation model these councils were allocated into a category with lower fees than those previously available under the former categorisation. The Tribunal finds that while some existing councillors may be receiving lower fees as a result of the revised categorisation, this is not a factor in the categorisation of councils into categories.
32. The categories have been developed to group councils with as many like characteristics as possible. The Tribunal has considered the characteristics of Willoughby and North Sydney in the context of those that apply to both Metropolitan Small and Metropolitan Medium.
33. Willoughby has a population of 77,950 (2016) and North Sydney 72,150 (2016). Willoughby has sought to be re-categorised having regard to additional criteria including its scale of operations and businesses and the regional significance of its centres. North Sydney has sought consideration of its regional services and facilities and high percentage of non-resident visitors and workers.
34. Both councils have sought recognition of the significant number and percentage of non-resident workers, however the available data from the ABS would suggest that many other metropolitan councils across all categories host a significant number of non-resident workers.

Local Government Remuneration Tribunal Annual Report and Determination 2018

35. The Tribunal notes that the current population of both councils is within the indicative population range for Metropolitan Small councils and well below that of Metropolitan Medium. Having regard to the addition criteria that apply to Metropolitan Small and Metropolitan Medium, the Tribunal finds that the characteristics of Willoughby and North Sydney are more appropriately aligned with those of other Metropolitan Small councils and finds no case for them to be re-categorised at this time.

Port Macquarie

36. Port Macquarie has sought to be re-categorised from Regional Rural to Regional Strategic Area. Alternatively, it is requested that consideration be given to the creation of a new category for similar councils in the Regional Rural group.

37. Port Macquarie has a population of 79,650 (2016) which is significantly below the indicative population range of Regional Strategic Area councils. The Tribunal finds that Port Macquarie has not demonstrated the additional criteria to warrant inclusion into this group.

38. The Tribunal notes that there is a large population range of those councils included in the Regional Rural category. These councils are grouped together to reflect their like features such as having a major township which provides regional servicing to smaller rural communities and rural councils. The Tribunal does not propose to further differentiate this group at this time.

Maitland

39. Maitland has sought to be re-categorised from Regional Rural to Regional Strategic Area or that a new category be created between Regional Rural and Regional Strategic Area.

40. Maitland has a population of 78,200 (2016) which is significantly below the indicative population range of Regional Strategic Area councils. The Tribunal finds that Maitland has not demonstrated the additional criteria to warrant inclusion into this group. As outlined above the Tribunal does not propose to further differentiate this group at this time.

Hilltops

41. Hilltops Council has sought to be re-categorised from Rural to Regional Rural. The new Hilltops Council is an amalgamation of three former councils in the Rural category (Young, Boorowa and Harden). The submission states that the new council has increased complexity of business and should be recognised as Regional Rural.

Local Government Remuneration Tribunal Annual Report and Determination 2018

42. The Tribunal notes that Hilltops has a population of 19,150 (2016) which is just below the indicative population range of Regional Rural councils. The category of Regional Rural currently includes one council – Broken Hill – which has a population similar to that of Hilltops. Broken Hill warrants categorisation as Regional Rural in recognition of the degree of regional servicing it provides to far western NSW. It is not considered that Hilltops provides the same degree of regional services and on that basis re-categorisation is not warranted at this time.

Leeton

43. Leeton has sought reconsideration of the criteria for eligibility to the categorisation of Regional Rural to take into account councils with populations of less than 20,000. Leeton has a population of 11,750 (2016).

44. Leeton has not sufficiently demonstrated that it meets the additional criteria for re-categorisation to Regional Rural level. The Tribunal does not propose to further differentiate this group at this time.

Fees

45. The LGNSW submission requested that the Tribunal increase fees by the allowable maximum of 2.5 per cent. The submission also reiterated its view that the current arrangement for setting fees is inappropriate and does not provide proper compensation for the significant workload and the range of responsibilities of mayors and councillors. Comparative information was presented in respect to board fees, fees paid to mayors and councillors of councils in Queensland and salaries for Members of Parliament. It was also suggested that when determining fees the Tribunal consider other matters, including the new induction and other professional development training requirements and the implementation of the NSW Local Government Capability Framework. The LGNSW submission also sought consideration of the non-payment of superannuation.

46. A number of submissions also sought an increase to the allowable maximum of 2.5 per cent and raised similar issues to LGNSW in respect to the current fees not being

Local Government Remuneration Tribunal Annual Report and Determination 2018

adequate compensation for the heavy or “full-time” workload and time commitment required to carry out mayoral and councillor duties.

47. One submission also raised the matter of fees for deputy mayors, submitting that an additional fee of \$200.00 per month be payable when the role of deputy mayor exists in a council.

Findings

Quantum of Fees

48. The Tribunal has considered the submissions received and notes the comparisons drawn between the fees paid to councillors and mayors in NSW with those in other states, members of Parliament in NSW, and members of boards and committees. The Tribunal is mindful that the roles and responsibilities of councillors and mayors in NSW are outlined in the LG Act and notes that they are not necessarily comparable to the roles and responsibilities of councillors and mayors in other states, members of Parliament or members of boards and committees.
49. The Tribunal also notes that some of the other matters raised by submissions are more appropriately dealt with in the context of the current Local Government reform agenda and are outside the Tribunal’s powers.
50. The Tribunal is required to have regard to the Government’s wages policy when determining the increase to apply to the maximum and minimum fees that apply to councillors and mayors. The public sector wages policy currently provides for a cap on increases of 2.5 per cent.
51. The Tribunal has reviewed the key economic indicators, including the Consumer Price Index and Wage Price Index, and had regard to budgetary limitations imposed by the Government’s policy of rate pegging, and finds that the full increase of 2.5 per cent is warranted. The 2.5 per cent increase will apply to the minimum and the maximum of the ranges for all existing categories.

Local Government Remuneration Tribunal Annual Report and Determination 2018

Other matters

52. The Tribunal notes that the NSW Independent Local Government Review Panel made a number of recommendations in 2013 which addressed the role and remuneration of mayors and deputy mayors. The Tribunal understands that those recommendations have not yet been implemented or were supported by the Government in part only.
53. Should the Government's policies change with respect to remuneration the Tribunal would be willing to participate in any further review or consideration of this matter.
54. The matter of the non-payment of superannuation has been previously raised in submissions to the Tribunal and is not a matter for the Tribunal to determine. Section 251 of the LG Act confirms that councillors are not employees of the council and the fee paid does not constitute a salary under the Act. The Tribunal notes that the Australian Tax Office has made a definitive ruling (ATO ID 2007/205) that allows councillors to redirect their annual fees into superannuation on a pre-tax basis and is a matter for councils (*Ref: Councillor Handbook, Oct 2017, Office of Local Government p.69*).
55. Councils have raised the matter of separate fees for deputy mayors on previous occasions and the Tribunal notes that it has previously determined that there is no provision in the LG Act to empower the Tribunal to determine a separate fee or fee increase for deputy mayors. The method for determining separate fees, if any, for a deputy mayor is provided in section 249 of the LG Act as follows:

249 Fixing and payment of annual fees for the mayor

- (1) *A council must pay the mayor an annual fee.*
- (2) *The annual fee must be paid in addition to the fee paid to the mayor as a councillor.*
- (3) *A council may fix the annual fee and, if it does so, it must fix the annual fee in accordance with the appropriate determination of the Remuneration Tribunal.*
- (4) *A council that does not fix the annual fee must pay the appropriate minimum fee determined by the Remuneration Tribunal.*

Local Government Remuneration Tribunal Annual Report and Determination 2018

- (5) *A council may pay the deputy mayor (if there is one) a fee determined by the council for such time as the deputy mayor acts in the office of the mayor. The amount of the fee so paid must be deducted from the mayor's annual fee."*

Conclusion

56. The Tribunal's determinations have been made with the assistance of the two Assessors - Mr Ian Reynolds and Mr Tim Hurst. The allocation of councils into each of the categories, pursuant to section 239 of the LG Act, is outlined in Determination No. 1. The maximum and minimum fees paid to councillors and mayors and members and chairpersons of county councils, pursuant to section 241 of the LG Act, are outlined in Determination No. 2.

Appendices

Appendix 1 Criteria that apply to categories

Principal CBD

The Council of the City of Sydney (the City of Sydney) is the principal central business district (CBD) in the Sydney Metropolitan area. The City of Sydney is home to Sydney's primary commercial office district with the largest concentration of businesses and retailers in Sydney. The City of Sydney's sphere of economic influence is the greatest of any local government area in Australia.

The CBD is also host to some of the city's most significant transport infrastructure including Central Station, Circular Quay and International Overseas Passenger Terminal. Sydney is recognised globally with its iconic harbour setting and the City of Sydney is host to the city's historical, cultural and ceremonial precincts. The City of Sydney attracts significant visitor numbers and is home to 60 per cent of metropolitan Sydney's hotels.

The role of Lord Mayor of the City of Sydney has significant prominence reflecting the CBD's importance as home to the country's major business centres and public facilities of state and national importance. The Lord Mayor's responsibilities in developing and maintaining relationships with stakeholders, including other councils, state and federal governments, community and business groups, and the media are considered greater than other mayoral roles in NSW.

Major CBD

The Council of the City of Parramatta (City of Parramatta) is the economic capital of Greater Western Sydney and the geographic and demographic centre of Greater Sydney. Parramatta is the second largest economy in NSW (after Sydney CBD) and the sixth largest in Australia.

As a secondary CBD to metropolitan Sydney the Parramatta local government area is a major provider of business and government services with a significant number of organisations relocating their head offices to Parramatta. Public administration and safety has been a growth sector for Parramatta as the State Government has promoted a policy of moving government agencies westward to support economic development beyond the Sydney CBD.

The City of Parramatta provides a broad range of regional services across the Sydney Metropolitan area with a significant transport hub and hospital and educational facilities. The City of Parramatta is home to the Westmead Health and Medical Research precinct which represents the largest concentration of hospital and health services in Australia, servicing Western Sydney and providing other specialised services for the rest of NSW.

The City of Parramatta is also home to a significant number of cultural and sporting facilities (including Sydney Olympic Park) which draw significant domestic and international visitors to the region.

Local Government Remuneration Tribunal Annual Report and Determination 2018

Metropolitan Large

Councils categorised as Metropolitan Large will typically have a minimum population of 200,000.

Other features may include:

- total operating revenue exceeding \$200M per annum
- the provision of significant regional services to greater Sydney including, but not limited to, major education, health, retail, sports, other recreation and cultural facilities
- significant industrial, commercial and residential centres and development corridors
- high population growth.

Councils categorised as Metropolitan Large will have a sphere of economic influence and provide regional services considered to be greater than those of other metropolitan councils.

Metropolitan Medium

Councils categorised as Metropolitan Medium will typically have a minimum population of 100,000.

Other features may include:

- total operating revenue exceeding \$100M per annum
- services to greater Sydney including, but not limited to, major education, health, retail, sports, other recreation and cultural facilities
- industrial, commercial and residential centres and development corridors
- high population growth.

The sphere of economic influence, the scale of council operations and the extent of regional servicing would be below that of Metropolitan Large councils.

Metropolitan Small

Councils categorised as Metropolitan Small will typically have a population less than 100,000.

Other features which distinguish them from other metropolitan councils include:

- total operating revenue less than \$150M per annum.

While these councils may include some of the facilities and characteristics of both Metropolitan Large and Metropolitan Medium councils the overall sphere of economic influence, the scale of council operations and the extent of regional servicing would be below that of Metropolitan Medium councils.

Local Government Remuneration Tribunal Annual Report and Determination 2018

Regional City

Councils categorised as Regional City will typically have a population above 150,000. These councils are metropolitan in nature with major residential, commercial and industrial areas. These Councils typically host government departments, major tertiary education and health facilities and incorporate high density commercial and residential development.

These councils provide a full range of higher order services and activities along with arts, culture, recreation and entertainment facilities to service the wider community and broader region. These councils typically also contain ventures which have a broader State and national focus which impact upon the operations of the council.

Newcastle City Council and Wollongong City Councils are categorised as Regional City.

Regional Strategic Area

Councils categorised as Regional Strategic Area are differentiated from councils in the Regional Rural category on the basis of their significant population. Councils categorised as Regional Strategic Area will typically have a population above 200,000. These councils contain a mix of urban and rural settlements. They provide a range of services and activities including business, office and retail uses, along with arts, culture, recreation and entertainment facilities to service the wider community. These councils host tertiary education campuses and health facilities.

While councils categorised as Regional Strategic Area may have populations which exceed those of Regional City, they would not typically provide the same range of regional services or have an equivalent sphere of economic influence.

Central Coast Council and Lake Macquarie Council are categorised as Regional Strategic Area.

Regional Rural

Councils categorised as Regional Rural will typically have a minimum population of 20,000.

Other features which distinguish them from other non-metropolitan councils include:

- a major town or towns with the largest commercial component of any location in the surrounding area
- a significant urban population existing alongside a traditional farming sector, and are surrounded by smaller towns and villages or may be located on or close to the coast with high levels of population and tourist facilities
- provide a full range of higher-order services including business, office and retail uses with arts, culture, recreation and entertainment centres
- regional services to the wider community through principal referral hospitals, tertiary education services and major regional airports
- these councils may also attract large visitor numbers to established tourism ventures.

Local Government Remuneration Tribunal Annual Report and Determination 2018

Rural

Councils categorised as Rural will typically have a population below 20,000.

Other features which distinguish them from other non-metropolitan councils include:

- one or two significant townships combined with a considerable dispersed population spread over a large area and a long distance from a major regional centre
- a limited range of services, facilities and employment opportunities compared to Regional Rural councils
- local economies based on agricultural/resource industries.

County Councils - Water

County councils that provide water and/or sewerage functions with a joint approach in planning and installing large water reticulation and sewerage systems.

County Councils - Other

County councils that administer, control and eradicate declared noxious weeds as a specified Local Control Authority under the *Noxious Weeds Act 1993*.
