### CONTAMINATED LAND MANAGEMENT ACT 1997

Environment Protection Authority

Declaration of significantly contaminated land

(Section 11 of the Contaminated Land Management Act 1997)

Declaration Number 20181115; Area Number 3439

The Environment Protection Authority (EPA) declares the following land to be significantly contaminated land under the *Contaminated Land Management Act 1997* ("the Act"):

#### 1. Land to which this declaration applies ("the site")

This declaration applies to 19 Pine Road, Yennora, NSW identified as Lot 8 in DP 59412, in the local government area of Cumberland Council.

A map of the declared area is attached.

#### 2. Nature of contamination affecting the site:

The EPA has found that the site is contaminated with the following substances ("the contaminants"):

- Chlorinated solvents, including trichloroethene (TCE), cis-1,2-dichloroethene (cis-DCE), 1,1-dichloroethene (DCE), 1,1-dichloroethane(DCA) and vinyl chloride.

#### 3. Nature of harm that the contaminants has caused or may cause:

The EPA has considered the matters in s.12 of the Act and for the following reasons believes that the land is contaminated, and that the contamination is significant enough to warrant regulation under the Act:

- The groundwater and soil vapour beneath the site has been contaminated by chlorinated solvents.
- Concentrations of chlorinated solvents in groundwater exceed the ANZECC (2000) freshwater criteria on the site, and the contaminated groundwater has migrated off-site towards Prospect Creek.
- Concentrations of chlorinated solvents in soil vapour beneath the site have been measured at concentrations above the criteria protective of human health in industrial/commercial scenarios.
- Management of the contamination is required to prevent the migration of groundwater and vapour contamination from the site and to mitigate against potential risks to on-site and off-site receptors.

#### 4. Further action under the Act

The making of this declaration does not prevent the carrying out of voluntary management of the site and any person may submit a voluntary management proposal for the site to the EPA.

#### 5. Submissions invited

The public may make written submissions to the EPA on:

- Whether the EPA should issue a management order in relation to the site; or
- Any other matter concerning the site.

Submissions should be made in writing to:

Director Contaminated Land Management  
Environment Protection Authority

by not later than **6 June 2019**.

ARMINDA RYAN  
Director Contaminated Land Management  
Environment Protection Authority

**NOTE:**

**Management order may follow**

If management of the site or part of the site is required, the EPA may issue a management order under s.14 of the Act.

**Amendment/Repeal**

This declaration may be amended or repealed. It remains in force until it is otherwise amended or repealed. The subsequent declaration must state the reasons for the amendment or repeal (s.44 of the Act).

**Information recorded by the EPA**

Section 58 of the Act requires the EPA to maintain a public record. A copy of this significantly contaminated land declaration will be included in the public record.

**Information recorded by councils**

Section 59 of the Act requires the EPA to give a copy of this declaration to the relevant local council. The council is then required to note on its planning certificate issued pursuant to s10.7 of the *Environmental Planning and Assessment Act 1979* that the land is declared significantly contaminated land. The EPA is required to notify council as soon as practicable when the declaration is no longer in force and the notation on the s10.7 certificate is no longer required.

**Relationship to other regulatory instrument**

This declaration does not affect the provisions of any relevant environmental planning instruments which apply to the land or provisions of any other environmental protection legislation administered by the EPA.
