

Northern Territory of Australia

Government Gazette

ISSN-0157-8324

No. G9

2 March 2016

General information

The Gazette is published by the Office of the Parliamentary Counsel.

The Gazette will be published every **Wednesday**, with the closing date for notices being the previous Wednesday at 4.00 pm.

Notices not received by the closing time will be held over until the next issue.

Notices will not be published unless a Gazette notice request form together with a copy of the signed notice and a clean copy of the notice in Word or PDF is emailed to gazettes@nt.gov.au

Notices will be published in the next issue, unless urgent publication is requested.

Availability

The Gazette will be available online at 12 Noon on the day of publication at <http://www.nt.gov.au/ntg/gazette.shtml>

Unauthorised versions of Northern Territory Acts and Subordinate legislation are available online at <http://www.legislation.nt.gov.au>

Northern Territory of Australia

Heritage Act

Provisional Declaration of Heritage Place

I, David William Tollner, Minister for Lands and Planning, under section 37(2) of the *Heritage Act*, provisionally declare the place described in the Schedule, known as the Kulaluk Lease Area, to be a heritage place.

Dated 10 February 2016

D. W. Tollner
Minister for Lands and Planning

Schedule

All that area of land and sea partly within the Towns of Darwin and Nightcliff in the Darwin Region in the Northern Territory of Australia, containing an area of 301.69 hectares or thereabouts being Lot 8630 in Coconut Grove and Lot 5182 in Ludmilla, more particularly delineated on survey plans S77/93 A to C, lodged with the Surveyor-General, to be a heritage place.

Northern Territory of Australia

Control of Roads Act

Proposal to Open Road

I, Craig Leslie Sandy, Surveyor-General, under section 18 of the *Control of Roads Act*:

- (a) give notice of a proposal to open a road through part NT Portions 3671 and 2255 in accordance with Survey Plan No. S2015/184 and as shown on the map in the Schedule; and
- (b) advise the adjoining owner is as follows:
 - i) NT Portion 7203
Lindsay and Bettina MacFarlane
 - ii) NT Portion 7204
T.F.S. Properties Ltd
 - iii) NT Portion 3859
Mataranka Aboriginal Land Trust
 - iv) NT Portions 3671, 2255 and 3069
NT Land Corporation

Dated 12 February 2016

C. L. Sandy
Surveyor-General

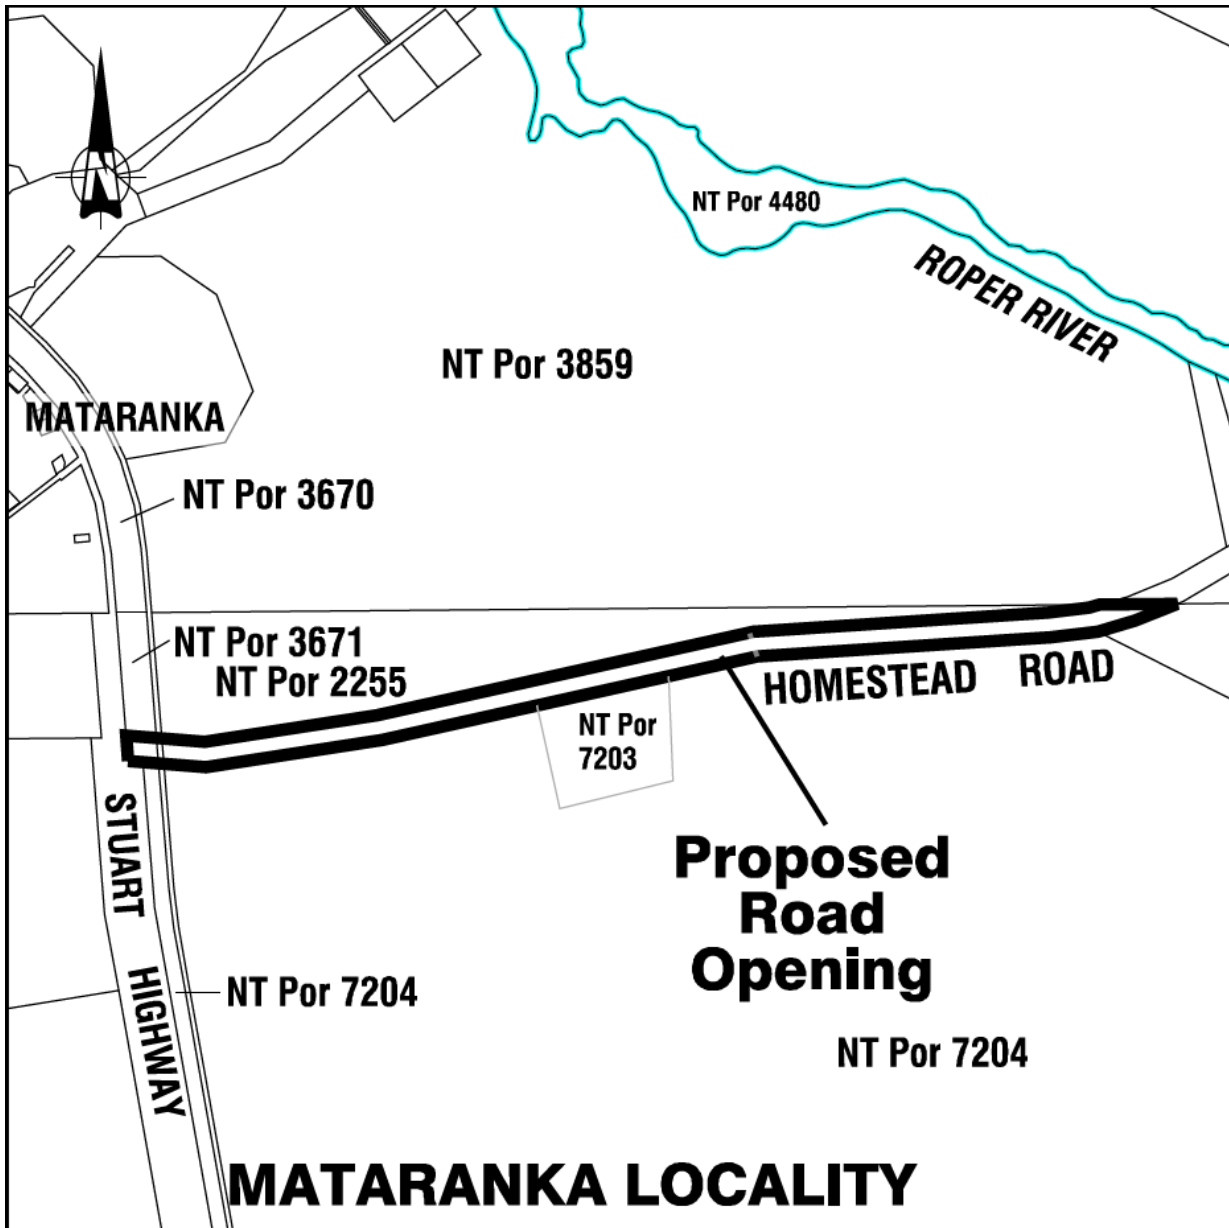

Notes

Survey Plan No S2015/184 may be inspected at the office of the Surveyor-General, Arnhemica House, Parap, Road, Parap.

Under section 20 of the Act, a person may object to the proposal by serving notice on the Minister. The notice must:

- (a) *be served personally or by post within 28 days from the later of the publication of this notice in the Gazette or a local newspaper; and*
- (b) *state the grounds for objections.*

Postal objections may be served on the Minister for Lands, Planning and the Environment, GPO Box 1680, Darwin NT 0801.

Northern Territory of Australia

Control of Roads Act

Proposal to Open Road

I, Craig Leslie Sandy, Surveyor-General, under section 18 of the *Control of Roads Act*:

- (c) give notice of a proposal to open a road through part Sections 1725 and 2643 Hundred of Strangways in accordance with Survey Plan No. S2015/211 and as shown on the map in the Schedule; and
- (d) advise the adjoining owner is as follows:
 - v) Lot 4163 Hundred of Strangways
Litchfield Shire Council
 - vi) Lot 1725 Hundred of Strangways
Crown c/- Department of Lands, Planning and the Environment
 - vii) Lot 2643 Hundred of Strangways
Crown c/- Department of Lands, Planning and the Environment
 - viii) Lot 4106 Hundred of Strangways
Humpty Doo Developments

Dated 12 February 2016

C. L. Sandy
Surveyor-General

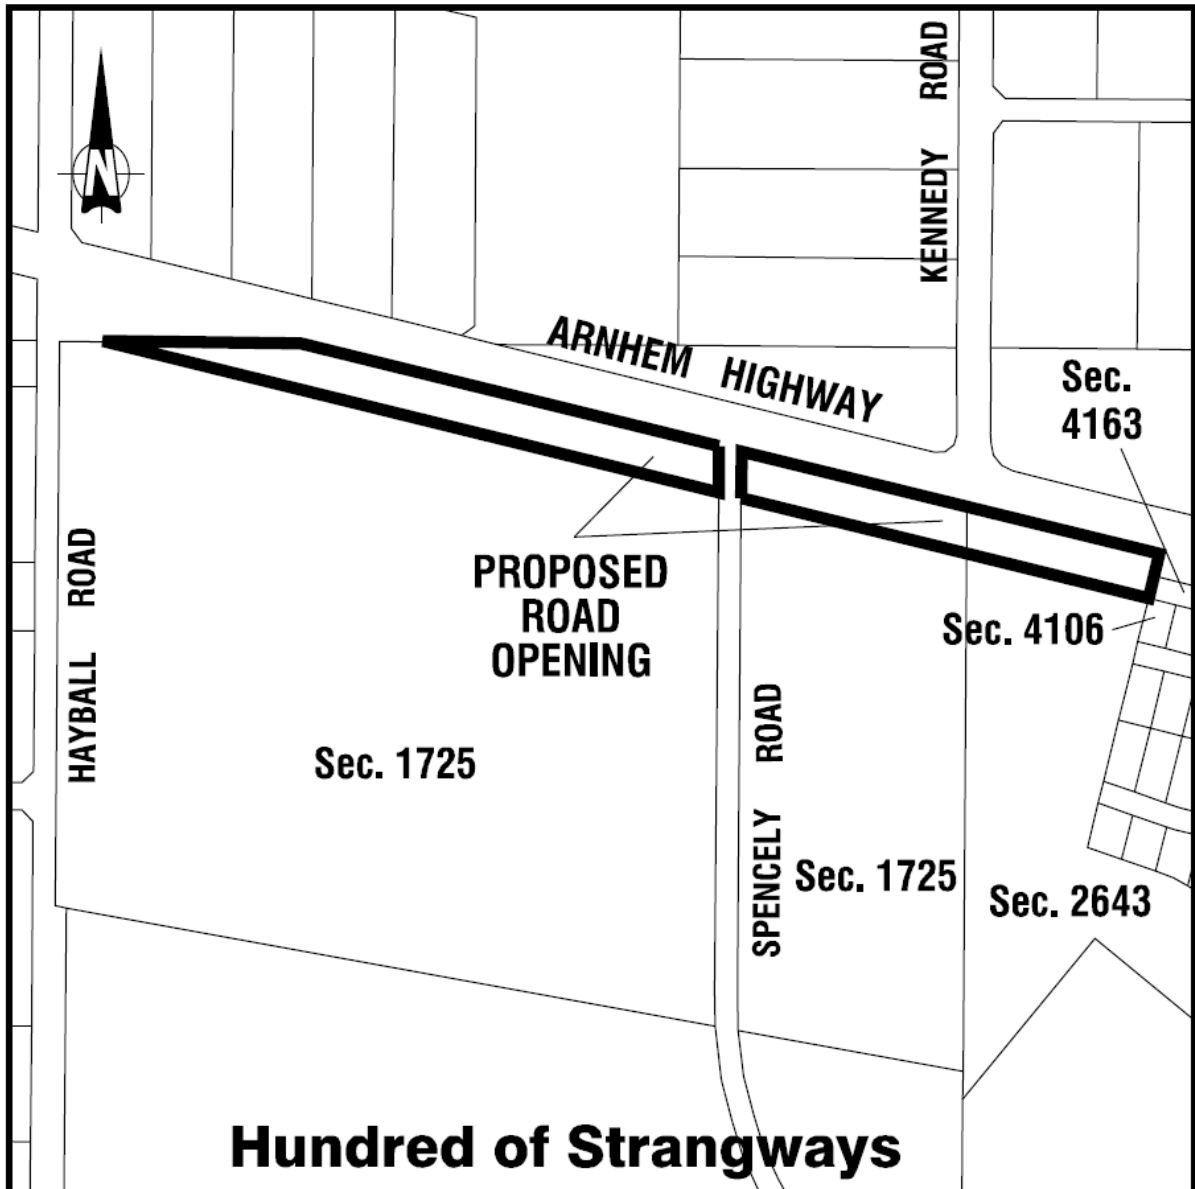

Notes

Survey Plan No S2015/211 may be inspected at the office of the Surveyor-General, Arnhemica House, Parap, Road, Parap.

Under section 20 of the Act, a person may object to the proposal by serving notice on the Minister. The notice must:

- (a) *be served personally or by post within 28 days from the later of the publication of this notice in the Gazette or a local newspaper; and*
- (b) *state the grounds for objections.*

Postal objections may be served on the Minister for Lands, Planning and the Environment, GPO Box 1680, Darwin NT 0801.

Northern Territory of Australia

Dangerous Goods Regulations

Approval of Periods for Purchasing, Possessing and
Throwing, Igniting or Exploding Shopgoods Fireworks

I, Peter Donald Styles, Minister for Business:

- (a) under regulation 139 of the *Dangerous Goods Regulations*, approve the period of time from 9 am to 9 pm on Friday 1 July 2016 as a period during which a person may purchase shopgoods fireworks; and
- (b) under regulation 140(1) of the Regulations and with reference to regulation 140A(1) of the Regulations:
 - (i) approve the period of time from 9 am on Friday 1 July 2016 to 12 noon on Saturday 2 July 2016 as a period during which a person may possess shopgoods fireworks, subject to the condition that this approval does not apply to the place specified in the Schedule; and
 - (ii) approve the period of time from 6 pm to 11 pm on Friday 1 July 2016 as a period during which a person may throw, ignite or explode shopgoods fireworks, subject to the condition that this approval does not apply to the place specified in the Schedule.

Dated 17 February 2016

P. D. Styles
Minister for Business

Schedule

All that parcel of land at Mindil Beach in the Town of Darwin, Northern Territory of Australia bounded by lines described as follows:

Commencing at the intersection of the north-westerly prolongation of the north-eastern boundary of Lot 5244 with the Low Water Mark of Fannie Bay; thence south-easterly by the said prolongation and boundary and its south-easterly prolongation to the north-easterly prolongation of the north-western boundary of Lot 5257; thence south-westerly to the northern corner of the said Lot; thence south-easterly by its north-eastern boundary to a north-western boundary of Gilruth Avenue; thence generally north-easterly by the said boundary to intersect parallel of south latitude 12 degrees 26 minutes 33.9 seconds, being a point on the centreline of a stormwater drain exiting under Gilruth Avenue; thence generally north-westerly by the centreline of the said drain to intersect a south-western boundary of Lot 5670; thence north west by the said boundary to the Low Water Mark of Fannie Bay; thence generally south-westerly by the said Low Water Mark to the point of commencement, the position of Low Water Mark referred to being as at Lowest Astronomical Tide.

Northern Territory of Australia

Youth Justice Act

Appointment of Superintendent of Youth

Detention Centres

I, Mark Leonard Payne, Acting Commissioner of Correctional Services, under section 151(1) of the *Youth Justice Act*, appoint Victor Arnold Charles Williams as the superintendent for each youth detention centre specified in the Schedule, on and from 15 February 2016.

Dated 15 February 2016

M. L. Payne
Acting Commissioner of Correctional Services

Schedule

Alice Springs Youth Detention Centre

Don Dale Youth Detention Centre

Youth Justice Court Youth Detention Centre (TCG Centre)

Northern Territory of Australia

Weeds Management Act

Appointment of Weed Management Officer

I, Alastair John Shields, Chief Executive Officer of the Department of Land Resource Management, as the delegate for the Minister for Land Resource Management, under section 24(1) of the *Weeds Management Act*, appoint Jace Ralph Emberg to be a weed management officer.

Dated 17 February 2016

A. J. Shields
Chief Executive Officer
Department of Land Resource Management

Northern Territory of Australia

Motor Vehicles Act

Exemption from *Motor Vehicles (Standards) Regulations*

Rear Overhang Exemption for Controlled Access Buses

I, Paul Nathan Rajan, Registrar of Motor Vehicles, pursuant to section 59(2) of the *Motor Vehicles Act*, exempt a Controlled Access Bus, as described in the Schedule, from the requirements of Rule 70(4) of Schedule 6 of the *Motor Vehicles (Standards) Regulations* subject to the following conditions:

- a) The rear overhang of a Controlled Access Bus must not be more than the lesser of:
 - i. 4.9 metres; and
 - ii. 70% of the distance between the centre-line of the front axle and the rear overhang line.
- b) The Controlled Access Bus must be fitted with an approved identification plate as described in the Schedule.

Schedule

Controlled Access Bus means a bus, except an articulated bus, which is:

- i. over 12.5 metres long; and
- ii. not longer than 14.5 metres.

Identification Plate means a plate declaring the status of a road vehicle in relation to the national standards and approved to be placed on vehicles of that type or description under procedures and arrangements provided for in subsection 10(1) of the *Motor Vehicle Standards Act 1989* (Commonwealth).

Dated this 9 day of February 2016

P. N. Rajan
Registrar of Motor Vehicles

Northern Territory of Australia

Motor Vehicles Act

Exemption from *Motor Vehicles (Standards) Regulations*

Mass Exemption for Two Axle Buses

I, Paul Nathan Rajan, Registrar of Motor Vehicles, pursuant to section 59(2) of the *Motor Vehicles Act*, exempt a bus as described in the Schedule, from the requirements of Regulation 7(b) of the *Motor Vehicles (Standards) Regulations* subject to the following conditions:

- a) The gross vehicle mass must not exceed the lesser of:
 - i. 18 tonnes; and
 - ii. the bus manufacturer's Gross Vehicle Mass rating.
- b) The mass on an axle of the vehicle must not be more than:
 - i. for a steer axle with single tyres – 7 tonnes; and
 - ii. for a rear drive axle with dual tyres – 12 tonnes.
- c) The vehicle must be operated within the limitations of each manufacturer's component rating.

Schedule

A bus means a two axle omnibus that:

- i. has a single steer axle with single tyres;
- ii. has a single rear (drive) axle with dual tyres;
- iii. has more than 9 seating positions (including that of the driver); and
- iv. is being used primarily for the transport of passengers.

Dated this 9 day of February 2016

Northern Territory of Australia
Notifiable Diseases Act
Declaration of Notifiable Diseases

I, Johan Wessel Elferink, Minister for Health:

- (a) under section 6 of the *Notifiable Diseases Act* and with reference to section 43 of the *Interpretation Act*, revoke all instruments under section 6 of the *Notifiable Diseases Act* in force immediately before the date of this instrument;
and
- (b) under section 6 of the *Notifiable Diseases Act*, declare the diseases specified in the Schedule to be notifiable diseases for the purposes of the Act.

Dated 17 February 2016

J. W. Elferink
Minister for Health

Schedule
Notifiable Diseases

- Acute post-streptococcal glomerulonephritis
- Adverse vaccine reaction
- AIDS
- Amoebiasis
- Anthrax
- Arbovirus infection: not otherwise specified
- Australian bat lyssavirus
- Avian influenza
- Barmah Forest virus infection
- Botulism
- Brucellosis
- Campylobacteriosis
- Chancroid
- Chickenpox
- Chikungunya virus infection
- Chlamydial conjunctivitis
- Chlamydial infection
- Cholera
- Ciguatera fish poisoning
- Congenital rubella infection
- Creutzfeldt-Jakob disease
- Crusted scabies (*)
- Cryptosporidiosis
- Dengue virus infection
- Diphtheria
- Donovanosis (granuloma inguinale)
- Food or water borne disease in 2 or more related cases
- Gastroenteritis involving one or more related cases in an institution or food handler

- Gonococcal conjunctivitis
- Gonococcal infection
- Gonococcal neonatal ophthalmia
- Group A streptococcal infection (invasive)
- Haemolytic uraemic syndrome
- Haemophilus influenzae:
 - non-type b (invasive)
 - type b (invasive)
- Hendra virus infection
- Hepatitis A
- Hepatitis B: chronic
- Hepatitis B: newly acquired
- Hepatitis B: unspecified
- Hepatitis C: newly acquired
- Hepatitis C: unspecified
- Hepatitis D
- Hepatitis E
- Hepatitis not otherwise specified
- HTLV1:
 - asymptomatic/unspecified
 - adult T cell leukaemia/lymphoma
 - tropical spastic paraparesis
- Human immunodeficiency virus (HIV)
- Hydatid infection
- Influenza
- Japanese encephalitis
- Kunjin virus infection
- Legionellosis
- Leprosy
- Leptospirosis
- Listeriosis
- Lymphogranuloma venereum
- Lyssavirus: not otherwise specified

- Malaria
- Measles
- Melioidosis
- Meningococcal infection
- Middle East respiratory syndrome (MERS) coronavirus infection (*)
- Mumps
- Murray Valley encephalitis
- Non-tuberculous mycobacterial disease
- Ornithosis
- Pertussis
- Plague
- Pneumococcal disease (invasive)
- Poliovirus infection
- Q fever
- Rabies
- Rheumatic fever
- Ross River virus infection
- Rotavirus infection
- Rubella
- Salmonellosis
- Severe acute respiratory syndrome (SARS)
- Shiga-like toxin (verocytotoxin) producing Escherichia coli infection
- Shigellosis
- Smallpox
- Strongyloidiasis (extraintestinal)
- Syphilis:
 - congenital
 - of greater than 2 years' or unknown duration
 - of less than 2 years' duration
- Tetanus
- Trichomoniasis
- Tuberculosis
- Tularaemia

- Typhoid and paratyphoid fever
- Typhus (all forms)
- Varicella infection unspecified
- Vibrio infection (invasive)
- Vibrio food poisoning
- Viral haemorrhagic fever:
 - Crimean-Congo fever
 - Ebola virus disease
 - Lassa fever
 - Marburg virus disease
 - not otherwise specified
- Yellow fever
- Yersiniosis
- Zoster

Notifiable Diseases

Information to be given by Medical Practitioners

I, Johan Wessel Elferink, Minister for Health:

- (a) under section 8(1) of the *Notifiable Diseases Act* and with reference to section 43 of the *Interpretation Act*, revoke all instruments under section 8 of the *Notifiable Diseases Act* in force immediately before the date of this instrument; and
- (b) under section 8(1) of the *Notifiable Diseases Act*, specify that:
 - (i) the information in Schedule 1, in relation to a disease listed in Schedule 2, is to be given in writing or by phone or facsimile (a ***non-urgent notification***); and
 - (ii) the information in Schedule 1, in relation to a disease listed in Schedule 3, is to be given by phone (an ***urgent notification***); and
 - (iii) the information in Schedule 4 is to be given to a medical officer if the medical officer requests the information, in the manner specified by the medical officer.

Dated 17 February 2016

J. W. Elferink
Minister for Health

Schedule 1

Information to be given

- Name of the infected person
- Contact details of the infected person:
 - address
 - phone number
 - mobile phone number
 - email address
- Date of birth of the infected person
- Gender of the infected person
- Indigenous status of the infected person
- Name and details of the disease
- Test(s) used to diagnose the disease and the result(s)
- Name, address and phone number of the medical practitioner giving the information
- Date of onset of the disease
- Date the specimen was taken
- Whether the infected person died and, if applicable, the date of death
- Name of laboratory where results referred for testing
- Whether the infected person was admitted to hospital
- The location where the infected person became or was likely to have become infected
- The reason for doing the test(s)
- The vaccination history of the infected person with respect to the disease

Schedule 2

Notifiable diseases (non-urgent notification)

- Adverse vaccine reaction
- AIDS
- Chickenpox
- Chikungunya virus infection, if acquired outside the Northern Territory
- Congenital rubella infection
- Creutzfeldt-Jakob disease
- Dengue virus infection, if acquired outside the Northern Territory
- Donovanosis (granuloma inguinale)
- Hepatitis B – chronic
- Hepatitis B – newly acquired
- Hepatitis B – unspecified
- Hepatitis C – newly acquired
- Hepatitis C – unspecified
- Hepatitis – not otherwise specified
- HTLV1:
 - adult T cell leukaemia/lymphoma
 - tropical spastic paraparesis
- Leprosy
- Lymphogranuloma venereum
- Mumps
- Non-tuberculous mycobacterial disease
- Rheumatic fever
- Rubella
- Syphilis:
 - congenital
 - of greater than 2 years' or unknown duration
 - of less than 2 years' duration
- Tetanus
- Typhus (all forms)

- Varicella infection unspecified
- Vibrio infection (invasive)
- Zoster

Schedule 3

Notifiable diseases (urgent notification)

- Acute post-streptococcal glomerulonephritis
- Anthrax
- Australian bat lyssavirus
- Avian influenza
- Botulism
- Chancroid
- Chikungunya virus infection, if suspected to have been acquired in the Northern Territory
- Cholera
- Ciguatera fish poisoning
- Dengue virus infection, if suspected to have been acquired in the Northern Territory
- Diphtheria
- Food or water borne disease in 2 or more related cases
- Gastroenteritis involving one or more related cases in an institution or food handler
- Gonococcal conjunctivitis
- Haemolytic uraemic syndrome
- Haemophilus influenzae type b (invasive)
- Hendra virus infection
- Japanese encephalitis
- Kunjin virus infection
- Lyssavirus: not otherwise specified
- Malaria
- Measles
- Meningococcal infection
- Middle East respiratory syndrome (MERS) coronavirus infection (*)
- Murray Valley encephalitis
- Pertussis
- Plague
- Poliovirus infection

- Rabies
- Severe acute respiratory syndrome (SARS)
- Smallpox
- Tuberculosis
- Tularaemia
- Typhoid and paratyphoid fever
- Viral haemorrhagic fever:
 - Crimean-Congo fever
 - Ebola virus disease
 - Lassa fever
 - Marburg virus disease
 - not otherwise specified
- Yellow fever

Note

Diseases marked () are newly added to the urgent notification diseases list.*

Schedule 4

Information to be given on request

Chlamydial infection, Trichomoniasis

- The information listed in Schedule 1
- Date and type of treatment given
- Clinical features of the disease
- Pregnancy status of the infected person
- Whether persons who have been in contact with the infected person have been followed up and treated

Donovanosis (granuloma inguinale)

- Date and type of treatment given
- Clinical features of the disease
- Pregnancy status of the infected person
- Whether persons who have been in contact with the infected person have been followed up and treated
- The exposure category
- Whether the person is a sex worker
- Type of clinical facility where the infection was diagnosed

Gonococcal infection,

- The information listed in Schedule 1
- Date and type of treatment given
- Clinical features of the disease
- Pregnancy status of the infected person
- Whether persons who have been in contact with the infected person have been followed up and treated
- The exposure category
- Whether the person is a sex worker
- Type of clinical facility where the infection was diagnosed

Group A streptococcal infection (invasive)

- Clinical features of the disease
- Whether the infection was acquired in the neonatal period

- Whether the infected person lives in an institution and, if so, the type of institution
- Whether the infected person attended child care during the period when the person was likely to have acquired the disease

Brucellosis, Hepatitis A, Hydatid infection, Legionellosis, Leptospirosis, Ornithosis, Q fever

- The information listed in Schedule 1
- The infected person's occupation
- The infected person's risk factors for the disease

Hepatitis B (any), Hepatitis C (any)

- The results and dates of all tests for the disease
- Whether the infected person's clinical manifestations are consistent with recent infection
- The infected person's risk factors for the disease
- The country of birth of the infected person
- The infected person's mode of exposure
- Whether the infected person has a history of intravenous drug use

Human immunodeficiency virus (HIV)

- The country of birth of the infected person
- The language the infected person speaks at home
- The clinical presentation
- The dates and results of previous tests for HIV
- The dates and results of tests measuring disease severity
- Where the person was living when diagnosed with HIV
- Exposure history including sexual exposure
- Whether the person has died and, if so, the cause of death

Influenza

- The information listed in Schedule 1
- Clinical features of the disease
- Pregnancy status of the infected person
- Date and type of any treatment given

- The infected person's risk factors for the disease
- Whether the infected person lives in an institution and, if so, the type of institution

Malaria

- The nationality of the infected person
- The date when the infected person arrived in Australia
- The locations the infected person has visited in Australia since becoming infected
- Whether the infected person had malaria previously
- How the infection was acquired
- Whether the infected person is a member of the Australian or an international military
- Whether the infected person had been prescribed and had taken preventative medication
- Whether the infection was diagnosed on screening and if so the reason for the screening
- The results and dates of all tests for the disease
- The treatment and dates of treatment the infected person received for the disease
- The dates for admission to and discharge from hospital
- The outcome of the disease
- Whether the infected person was followed up one week after discharge from hospital

Meningococcal infection

- The treatment and the dates of treatment the infected person received for the disease
- The results and dates of previous and subsequent tests for the disease
- The clinical manifestations of the disease
- Whether the contacts of the infected person have been followed up and treated – if applicable
- The outcome of the disease
- The infected person's risk factors for the disease

- Whether the person had a neurological deficit related to the disease on discharge

Non-tuberculous mycobacterial disease

- The country of birth of the infected person
- The year the infected person first arrived in Australia
- Whether the infected person had the disease previously
- If the infected person had been diagnosed outside the Northern Territory – the place of diagnosis
- The date the infected person first sought contact with a health care provider
- The results and dates of all tests for the disease
- The results of the infected person's test for Human immunodeficiency virus
- The Bacille Calmette-Guerin status of the infected person
- The organs affected by the disease
- The infected person's risk factors and exposures for the disease
- The infected person's symptoms
- The results of radiological tests used to diagnose the disease
- The treatment and dates of treatment the infected person received for the disease
- Whether the infected person had a reaction to any of the treatment agents
- The outcome of the disease
- If the infected person left the Northern Territory permanently while on treatment for the disease – the destination of the infected person and the date the infected person departed the Northern Territory

Pneumococcal disease (invasive)

- The information listed in Schedule 1
- The dates and details of all relevant vaccines administered to the infected person
- The clinical presentation
- The infected person's risk factors for the disease
- The Medicare number of the infected person

- The results and dates of all tests for the disease
- The hospital attended by the infected person
- The dates of admission to and discharge from hospital
- The number of days the infected person was admitted to the intensive care unit
- Whether the infected person left hospital prior to discharge
- Whether the infected person refused the offer of immunisation prior to discharge from hospital
- Whether the person had a neurological deficit related to the disease at discharge from hospital

Syphilis (any)

- Date(s) and type of treatment given
- Date(s) and type of previous treatment given for the same disease
- The results and dates of previous tests for the same disease
- Clinical features of the disease
- Pregnancy status of the infected person
- Whether persons who have been in contact with the infected person have been followed up and treated

Syphilis (less than 2 years duration)

- The exposure category
- Whether the person is a sex worker
- Type of clinical facility where the infection was diagnosed

Tuberculosis

- Country of birth of the infected person
- The year the infected person first arrived in Australia
- The immigration status of the infected person
- Whether the infected person was seen as part of a tuberculosis undertaking
- Whether the infected person had tuberculosis previously
- The place and year of previous treatment for tuberculosis
- If the infected person had been diagnosed outside the NT, the place of the diagnosis

- The date the infected person first sought contact with a health care provider
- The results and dates of previous Mantoux tests
- Whether the infected person had been diagnosed with latent tuberculosis infection
- If the infected person had been diagnosed with latent tuberculosis infection, whether treatment had been offered and taken and the respective dates
- The infected person's risk factors for the disease
- The results and dates of tests for the disease
- The organs affected by tuberculosis
- The treatment and dates of treatment the infected person received for the disease
- The compliance of the infected person with the treatment
- The outcome of the disease
- The names of persons in contact with the infected person, with respect to tuberculosis

Typhus (all forms), Vibrio infection (invasive)

- The infected person's occupation
- The infected person's risk factors for the disease

Northern Territory of Australia

Notifiable Diseases Act

Notifiable Diseases
Information to be given by Laboratories

I, Johan Wessel Elferink, Minister for Health:

- (a) under section 16(1) of the *Notifiable Diseases Act* and with reference to section 43 of the *Interpretation Act*, revoke all instruments under section 16 of the *Notifiable Diseases Act* in force immediately before the date of this instrument; and
- (b) under section 16(1) of the *Notifiable Diseases Act*, specify that:
 - (i) the information in Schedule 1, in relation to a disease listed in Schedule 2, is to be given in writing or by phone or facsimile (a ***non-urgent notification***); and
 - (ii) the information in Schedule 1, in relation to a disease listed in Schedule 3, is to be given by phone (an ***urgent notification***).

Dated 17 February 2016

J. W. Elferink
Minister for Health

Schedule 1

Information to be given

- Name of the infected person
- Contact details of the infected person:
 - address
 - phone number
 - mobile phone number
 - email address
- Date of birth of the infected person
- Gender of the infected person
- Indigenous status of the infected person
- Test(s) used to diagnose the disease and the result(s)
- Name of the referring practitioner
- Date the laboratory notified the disease
- Date the specimen was taken
- Name of the laboratory

Schedule 2

Notifiable diseases (non-urgent notification)

- Amoebiasis
- Arbovirus infection: not otherwise specified
- Barmah Forest virus infection
- Brucellosis
- Campylobacteriosis
- Chickenpox
- Chikungunya virus infection
- Chlamydial conjunctivitis
- Chlamydial infection
- Crusted scabies (*)
- Cryptosporidiosis
- Dengue virus infection
- Donovanosis (granuloma inguinale)
- Gonococcal infection – urgent notification if isolate is penicillin resistant
- Gonococcal neonatal ophthalmia – urgent notification if isolate is penicillin resistant
- Group A streptococcal infection (invasive)
- Haemophilus influenzae non-type b (invasive)
- Hepatitis B: chronic
- Hepatitis B: newly acquired
- Hepatitis B: unspecified
- Hepatitis C: newly acquired
- Hepatitis C: unspecified
- Hepatitis D
- HTLV1:
 - adult T cell leukaemia/lymphoma
 - asymptomatic/unspecified
- Human immunodeficiency virus (HIV)
- Hydatid infection
- Influenza
- Leprosy

- Leptospirosis
- Listeriosis
- Lymphogranuloma venereum
- Melioidosis
- Mumps
- Non-tuberculous mycobacterial disease
- Ornithosis
- Pneumococcal disease (invasive)
- Q Fever
- Ross River virus infection
- Rotavirus infection
- Rubella
- Salmonellosis
- Shigellosis
- Strongyloidiasis (extraintestinal)
- Syphilis:
 - of greater than 2 years' or unknown duration
 - of less than 2 years' duration
- Tetanus
- Trichomoniasis
- Typhus (all forms)
- Varicella infection unspecified
- Vibrio infection (invasive)
- Yersiniosis
- Zoster

Note

Diseases marked () are newly added to the non-urgent notification diseases list.*

Schedule 3

Notifiable diseases (urgent notification)

- Anthrax
- Australian bat lyssavirus
- Avian influenza
- Botulism
- Chancroid
- Cholera
- Diphtheria
- Gonococcal conjunctivitis
- Gonococcal infection: penicillin resistant isolate
- Gonococcal neonatal ophthalmia: penicillin resistant isolate
- Haemophilus influenzae type b (invasive)
- Hendra virus infection
- Hepatitis A
- Hepatitis E
- Japanese encephalitis
- Kunjin virus infection
- Legionellosis
- Lyssavirus: not otherwise specified
- Malaria
- Measles
- Meningococcal infection
- Middle East respiratory syndrome (MERS) coronavirus infection (*)
- Murray Valley encephalitis
- Pertussis
- Plague
- Poliovirus infection
- Rabies
- Severe acute respiratory syndrome (SARS)
- Shiga-like toxin (verocytotoxin) producing Escherichia coli infection
- Smallpox
- Tuberculosis

- Tularaemia
- Typhoid and paratyphoid fever
- Vibrio food poisoning
- Viral haemorrhagic fever:
 - Crimean-Congo fever
 - Ebola virus disease
 - Lassa fever
 - Marburg virus disease
 - not otherwise specified
- Yellow fever

Note

Diseases marked () are newly added to the urgent notification diseases list.*
