## DECISION

PURSUANT to section 48 of the *Development Act 1993* the Development Assessment Commission grants approval to vary the Governor's approval as described in the following:

- Application dated 29 November 1999 requesting a variation to condition 1 (6) of the Governor's approval dated 29 October 1998, by striking out the words "and the incorporation of floating booms and trash racks for pollution control into the culvert design." and substituting with the words "A strategy for achieving suitable environmental flows and pollution control for First Creek must be prepared, to the satisfaction of the Development Assessment Commission, and implemented within 5 years of the date of this approval."
- Application dated 5 May 2000 requesting a variation to condition 1 (10) of the Governor's approval dated 29 October 1998, by adding the words "for the construction stage" and by adding condition 1 (14).

**1. Development Approval** for the excavation/formation of land for the entrance channel, marina basin and waterways (including the installation of edge treatments and culverts) and for the public boat ramp facility, boat repair yard facility and residential lots subject to the following conditions:

## CONDITIONS FOR DEVELOPMENT AUTHORISATION

- (1) The works must be carried out as shown on plans in the application (Drawings Numbered 996335-3B dated January 1998, 996335-14 dated 7 April 1999 and 996335-4C dated 7 May 1998), except where varied by conditions described below.
- (2) Construction activities must be suitably managed to minimise and/or mitigate impacts on the community (especially noise and dust) and the natural environment as outlined in the 1990 Environment Impact Statement, especially the scheduling of major works during times when impacts on tourism can be minimised.
- (3) During construction, the temporary boat ramp and stockpiles of earth must be located to avoid damage or disturbance to native vegetation (including mangroves and seagrasses) and sand dunes.
- (4) The land to be used for land-based allotments must be formed to prevent stormwater flows entering into the waterways. To the extent that this is not practicable, stormwater must not be released into the waterways unless treated in accordance with the EPA Stormwater Pollution Prevention Codes of Practice.
- (5) Signs indicating the depth of the channel and other appropriate navigational aids must be erected in prominent locations to advise users of the marina facility of the navigational hazards associated with the limited channel depth, prior to use of the facility for boating purposes. Contingency plans must be prepared, in consultation with Transport SA, for minimising navigational risks, especially for visiting craft, prior to use of the facility for boating purposes. Council must monitor the extent of any hazard to navigation to determine whether it needs to increase the depth of the channel in the future to address any unacceptable risk.
- (6) The final design of modifications to the existing culvert on the Graham Smelt Causeway must allow for the reinstatement of the natural flow capacity of First Creek (at high tide). This may necessitate at least a three-fold increase in the cross-sectional area of the existing culvert. A strategy for achieving suitable environmental flows and pollution control for First Creek must be prepared, to the satisfaction of the Development Assessment Commission, and implemented within 5 years of the date of this approval. The final design must be independently certified by a registered engineer to the satisfaction of Planning SA, prior to the commencement of construction of the modifications.
- (7) The final design of the northern culvert must allow water flow into the basin only.
- (8) Any proposed culvert under the Graham Smelt Causeway must be designed to pass beneath the existing 200 mm water main.
- (9) The Council (as proponent), or the developer, and all subsequent agents, such as construction crews, must be conversant with the provisions of the *Aboriginal Heritage Act 1988*, particularly the requirement to immediately contact the Division of Aboriginal Affairs in the event archaeological items (especially skeletal material) are uncovered during earthmoving. The Biringa Inc. Aboriginal group must be consulted in regard to any known sites of significance in the area.
- (10) A monitoring program for the construction stage must be prepared and implemented, in accordance with the requirements of the EPA and the Amendment to the Assessment Report (section 6), to the satisfaction of Planning SA, prior to construction works commencing.
- (11) Edge treatments and other waterway related structures must be independently certified by a registered engineer to the satisfaction of Transport SA, prior to the commencement of construction.
- (12) If any work constitutes building work under the *Development Act 1993*, the work must be certified by a private certifier, or where relevant by a registered engineer, as complying with the Building Rules prior to any building work commencing.
- (13) If a private developer undertakes the construction of the development, a legal agreement delineating the management and monitoring responsibilities of each party must be prepared to the satisfaction of Planning SA, prior to the commencement of construction.

- (14) A monitoring program for the operational stage must be prepared and implemented, in accordance with the requirements of the EPA and the Amendment to the Assessment Report (Section 6), to the satisfaction of Planning SA, prior to the commencement of operation of the marina.

NOTES TO THE APPLICANT

1. The Environment Protection Authority will require approved monitoring programs to satisfy the Authority's licensing requirements for earthworks drainage. As part of licensing the proponent may need to prepare a Soil Erosion & Drainage Management Plan (prior to works commencing) to address the control of run-off to ensure water quality is not detrimentally affected. In addition the proponent would need to adopt or comply with the following:

- Environment Protection (Marine) Policy 1994;
- Draft Environment Protection (Water Quality) Policy; and
- Stormwater Pollution Prevention Codes of Practice.

2. The proponent must comply with the *Public and Environmental Health Act 1987* in regard to the maintenance of suitable water quality within the marina basin to protect public health and amenity.

3. If gravel traps on stormwater outlets are to be installed the layout design must be refined to indicate the area of land to be provided for such works.

**2. Provisional Development Plan Consent** for the future use of the subject land, formed up in accordance with the approval referred to in the preceding paragraph 1, for the marina facility, a boat ramp and refuelling facility, marine toilet pump-out and treatment facility, hardstand and parking areas on proposed allotments, a boat repair yard, slip-way and dry storage area, residential allotments on proposed allotments 1-22, 24-30 and 32-65 and medium density allotments for aged care or tourist accommodation facilities on proposed allotments 23 and 31, generally in accordance with the plans comprising the application.

CONDITION FOR DEVELOPMENT AUTHORISATION

1. The final location and design of the boat repair yard must be determined taking into account the impact of air emissions on adjoining residents.

NOTES TO THE APPLICANT

1. Development authorisation (for buildings) is required for structures associated with the marina facility, public boat ramp (including the refuelling facility and marine toilet pump-out/treatment facility) and boat repair yard (including the slip-way and dry storage area). Detailed design plans and cross-sections need to be provided for consent.
2. Development authorisation (for the division of land) is required for the division of land into the proposed allotments. A detailed description of service infrastructure, easement and open space reserve requirements needs to be provided as part of a subsequent land-division application. It is intended that any land-division approvals be conditional on no Certificates of Title being issued until management, maintenance and monitoring responsibilities are appropriately identified and allocated to the satisfaction of the Minister for Transport and Urban Planning.
3. The Environment Protection Authority will require approved monitoring programs to satisfy the Authority's licensing requirements for the operation of the marina facility (for 50 or more berths). As part of licensing the proponent may need to prepare a Waste Management Plan, which should encompass both the marina facilities and residential component. In addition the proponent would need to adopt or comply with the following:
  - Environment Protection (Marine) Policy 1994 (by following the Best Practice Guidelines for Waste Reception Facilities at Ports, Marinas and Boat Harbours in Australia and New Zealand);
  - Draft Environment Protection (Water Quality) Policy; and
  - Stormwater Pollution Prevention Codes of Practice.
4. The marina mooring structures must be designed in accordance with the Australian Standard AS3962—1991 Guidelines for Design of Marinas and be independently certified by a registered engineer, to the satisfaction of Transport SA.
5. The public boat ramp facility must be generally designed in accordance with the South Australian Boating Advisory Committee's Guidelines for Planning, Design and Construction of Boat Launching Facilities and be independently certified by a registered engineer, to the satisfaction of Transport SA (Marine Facilities), prior to construction commencing. Final design and construction of the boat ramp facility shall ensure any run-off or accidental spills are prevented from entering the basin without suitable prior treatment to reduce pollutants.
6. The boat refuelling dock and marine toilet pump-out/treatment facility must be designed and constructed in accordance with the requirements of the EPA and Transport SA and be located within allotments 57 and 58 to minimise impacts on adjacent land. For effluent disposal the marine toilet pump-out/treatment facility must be designed and constructed in accordance with the requirements of the South Australian Health Commission.
7. If foreign vessels are allowed to berth in the marina the proponent would need to consult with Transport SA (Marine Safety Section) to address any requirements of the Australian Quarantine Inspection Service (AQIS) and Australian Customs Service.

PURSUANT to section 48 (7) of the *Development Act 1993*, I specify that the matters of protection of water quality and the natural environment relevant to these authorisations are matters in relation to which the Governor may vary or revoke conditions of these authorisations or attach new conditions to them.

**WORKERS REHABILITATION AND COMPENSATION ACT, 1986**

The **WORKCOVER CORPORATION OF SOUTH AUSTRALIA** ("the Corporation") in accordance with those provisions of the **WORKERS REHABILITATION AND COMPENSATION ACT, 1986**, as amended ("the WRCA") and the **WORKCOVER CORPORATION ACT, 1994** ("the WCA") identified in Item 1 of the Schedule hereto ("the Schedule") makes its determination in the terms set out in Item 2 of the Schedule upon the grounds set out in Item 3 of the Schedule, if any, to come into effect on the date set out in Item 4 of the Schedule and determines further that notice of this determination shall be provided in the manner set out in Item 5 of the Schedule, if any, and further for the purposes of this determination the Corporation pursuant to Section 17 of the WCA delegates those powers or functions of the Corporation set out in Item 6 of the Schedule to the person or persons named therein ("the Delegate").

**SCHEDULE****Item 1 Legislation Empowering Determination**

Section 66 of the WRCA, and Section 17 of the WCA.

**Item 2 Terms of Determination****A. Establishment of levy funding rebate**

That the Delegate establish and implement under Section 66(12) of the WRCA and the Regulations under Section 66(12) a scheme for the remission of levies ("remissions") for a class of employers registered under Section 59 of the WRCA determined in accordance with this Determination ("the Levy Funding Rebate").

The Levy Funding Rebate must satisfy the following conditions:

- 2.1 The Levy Funding Rebate shall not apply to employers who are holders of exempt employer status.
- 2.2 The remission to be granted to a particular employer shall be the result, in net terms, of the application of the guidelines set out below.

**B. Guidelines for Levy Funding Rebate**

The Delegate shall determine, for each financial year, the application of a remission (if any) which reflects the application of the guidelines set out below.

- 2.3 The Delegate will only implement a Levy Funding Rebate for a financial year in respect of which the Board has formally resolved that the Levy Funding Rebate will apply.

The Board has determined that a Levy Funding Rebate will apply to the 2000/2001 financial year levy arising from an operating surplus for the 1998/1999 financial year.

- 2.4 If the Board formally resolves that the Levy Funding Rebate will apply for a particular financial year then the rebate shall be up to a maximum amount or level specified by the Board for that purpose.

The Board has resolved that the Levy Funding Rebate for the 2000/2001 financial year will be \$25,000,000.00.

- 2.5. The Levy Funding Rebate will be applied to all non-exempt employers active as at the end of the financial year to which the relevant operating surplus applies and for which there is declared remuneration (“qualifying employers”).

In the case of the Levy Funding Rebate to apply in the 2000/2001 financial year levy the rebate will be applied to all non-exempt employers active as at 30 June 1999 and for which there was, during the 1998/1999 financial year, declared remuneration.

- 2.6. The Levy Funding Rebate will be applied as a reduction of the levy which would otherwise apply in the financial year nominated by the Board for that purpose.

The Board have nominated that a Levy Funding Rebate will be applied against levy payable by qualifying employers in the 2000/2001 financial year.

- 2.7. If the amount of the Levy Funding Rebate reduces the levy payable by the qualifying employer to a levy less than the applicable minimum levy under Section 66(13) of the Act then the amount of the rebate applicable to that particular employer will be reduced so that the amount of the levy payable by that employer is equal to the amount of the minimum levy payable by that qualifying employer.

- 2.8. The Levy Funding Rebate is to be applied to qualifying employers in proportion to the levy paid during the financial year nominated by the Board for that purpose in respect of the levy industry rates (ie excluding the effect of any other remissions of levy or any supplementary levy).

- 2.9. Where an employer is not the same legal entity that was the qualifying employer, that new employer may apply for a rebate to be applied at the discretion of the Delegate on the following bases:

- where there has been a simple change of legal structure without any underlying change in control or ownership then the application should be considered favourably (but subject to all other relevant circumstances);
- where an employer has purchased a business which was a qualifying employer the purchaser will not be entitled to the rebate earned by the previous owner of that business unless the circumstances otherwise require;
- all cases will be considered on their merits by the Delegate having regard to the underlying principles and objectives of the Levy Funding Rebate.

- 2.10. An employer which would otherwise be a qualifying employer will not be entitled to receive a Levy Funding Rebate if, as at the commencement of the period to which the levy rebate applies (ie. 1 July 2000 in respect to the Levy Funding Rebate to apply to the financial year 2000/2001) that employer:

- has committed an unremedied breach of Section 58b of the WRCA; or
- is subject to a supplementary levy applied:
  - as a result of any matter arising under Section 58b of the WRCA; or
  - as a result of being targetted by Workplace Safety Management as a result of the application of criteria determined by Workplace Safety

**WORKERS REHABILITATION AND COMPENSATION ACT, 1986**

The **WORKCOVER CORPORATION OF SOUTH AUSTRALIA** ("the Corporation") in accordance with those provisions of the **WORKERS REHABILITATION AND COMPENSATION ACT, 1986**, as amended ("the WRCA") and the **WORKCOVER CORPORATION ACT, 1994** ("the WCA") identified in Item 1 of the Schedule hereto ("the Schedule") makes its determination in the terms set out in Item 2 of the Schedule upon the grounds set out in Item 3 of the Schedule, if any, to come into effect on the date set out in Item 4 of the Schedule and determines further that notice of this determination shall be provided in the manner set out in Item 5 of the Schedule, if any, and further for the purposes of this determination the Corporation pursuant to Section 17 of the WCA delegates those powers or functions of the Corporation set out in Item 6 of the Schedule to the person or persons named therein ("the Delegate").

**SCHEDULE****Item 1 Legislation Empowering Determination**

Section 66 of the WRCA, and Section 17 of the WCA.

**Item 2 Terms of Determination****A. Establishment of levy funding rebate**

That the Delegate establish and implement under Section 66(12) of the WRCA and the Regulations under Section 66(12) a scheme for the remission of levies ("remissions") for a class of employers registered under Section 59 of the WRCA determined in accordance with this Determination ("the Levy Funding Rebate").

The Levy Funding Rebate must satisfy the following conditions:

- 2.1 The Levy Funding Rebate shall not apply to employers who are holders of exempt employer status.
- 2.2 The remission to be granted to a particular employer shall be the result, in net terms, of the application of the guidelines set out below.

**B. Guidelines for Levy Funding Rebate**

The Delegate shall determine, for each financial year, the application of a remission (if any) which reflects the application of the guidelines set out below.

- 2.3 The Delegate will only implement a Levy Funding Rebate for a financial year in respect of which the Board has formally resolved that the Levy Funding Rebate will apply.

The Board has determined that a Levy Funding Rebate will apply to the 2000/2001 financial year levy arising from an operating surplus for the 1998/1999 financial year.

- 2.4 If the Board formally resolves that the Levy Funding Rebate will apply for a particular financial year then the rebate shall be up to a maximum amount or level specified by the Board for that purpose.

Management for the application of Section 67 of the WRCA (or if any supplementary levy is imposed upon the employer in like circumstances),

but such exclusion will not apply if either are applied after the commencement of the financial year to which the Levy Funding Rebate applies.

C. Adjustment of the Levy Funding Rebate

2.11 In order to give effect to the Levy Funding Rebate in a manner which will best achieve the objects of the WRCA under Section 2 of the WRCA and the primary objects of the Corporation under Section 12 of the WCA the Delegate may adjust the operation of the Levy Funding Rebate as follows:

- (a) the Delegate may establish and implement transitional arrangements and measures necessary or convenient to deal with the implementation of the Levy Funding Rebate in any financial year to which it applies; or
- (b) the Delegate may make such further or other adjustment of the operation of the Levy Funding Rebate as may in the opinion of the Delegate, best give effect to the objects of the WRCA (as specified in Section 2 of the WRCA) and the primary objects of the Corporation (as specified under Section 12 of the WCA) and having regard to the matters permitted to be considered under the Regulations under Section 66(12) and the decisions of the Board of the Corporation made to apply a Levy Funding Rebate to a particular financial year.

D. Review of Decisions

2.12. An employer may seek a review of a decision made by the Delegate in which case the Corporation shall deal with the application for a review in the same manner as a review under Section 72 of the WRCA subject to such procedural amendments as may be necessary to deal with any differences.

E. Previous Determinations

2.13 As and from the commencement of the Levy Funding Rebate all prior determinations of the Corporation as to matters dealt with in this Determination are to the extent that they are inconsistent with this Determination, amended by substituting so much of the previous Determination with this Determination as is necessary to give paramount force and effect to this Determination.

2.14. This Determination will have no force or effect until regulations are enacted under Section 66(12) of the WRCA permitting the making of a remission of levies on the terms contemplated by this Determination.

**Item 3 Grounds of Determination**

That the Levy Funding Rebate is a just and equitable means of applying Section 66(12) of the WRCA having regard to the objects of the WRCA and the primary objects of the Corporation and the Regulations under Section 66(12) of the WRCA.

**Item 4 Commencement Date of Determination**

This Determination shall commence on the date of making by the Board and the first Levy Funding Rebate shall commence on the 1<sup>st</sup> day of July 2000.

**Item 5 Notice of Determination**
