ADELAIDE S.A. 5000

Dear Stephen

Applications for Authorisation of National Electricity Code Changes

On 6 December 2000, the Australian Competition and Consumer Commission (Commission) made a number of decisions regarding applications for authorisation of amendments to the National Electricity Code (Code). This letter is to notify you of the decisions and includes a copy of each determination.

Determination

Applications for Authorisation of National Electricity Code— Rebidding, VoLL Scaling and Settlements Statements (A90730-A90732)

On 15 March 2000, the Commission received applications for authorisation (Nos A90730, A90731 and A90732) of amendments to the Code to introduce modified rules for rebidding. These applications were amended on 27 March 2000 to include Code changes relating to VoLL scaling and settlement statements.

On 3 November 2000, the Commission released a draft determination outlining its analysis and views on the proposed Code changes. You and other interested persons were invited to notify the Commission within 14 days whether you wished the Commission to hold a conference in relation to the draft determination.

The Commission received no such notification, consequently the Commission has made this determination. A copy of the determination is included with this letter.

The Commission authorises the amendments to the Code as specified in the applications Nos. A90730, A90731 and A90732 subject to the conditions of authorisation outlined in section 5 of the determination. This authorisation is subject to any application to the Australian Competition Tribunal for its review.

Determination

Applications for Authorisation of National Electricity Code— Introduction of the Goods and Services Tax (A90735-A90737)

On 15 June 2000, you requested authorisation of amendments to the Code—application numbers A90735, A90736 and A90737—to accommodate the introduction of the Goods and Services Tax (GST) from 1 July 2000. The Commission granted interim authorisation to these amendments on 21 June 2000.

The Commission released a draft determination outlining its analysis and views on the Code changes on 3 November 2000. You and other interested persons were invited to notify the Commission within 14 days as to whether you wished the Commission to hold a conference in relation to the draft determination.

The Commission received no such notification and hence, the draft determination has become the final determination. A copy of the determination has been included with this letter.

The Commission authorises the amendments to the Code as specified in the applications Nos. A90735, A90736 and A90737 subject to the conditions of authorisation outlined in section 7 of that determination. A person dissatisfied with the determination may apply to the Australian Competition Tribunal for its review.

Draft Determination

Applications for Authorisation of National Electricity Code— IRPC Consideration of Basslink Technical Issues (A90747, A90748, A90749)

On 13 September 2000, you lodged applications for authorisation (Nos. A90747, A90748 and A90749) of amendments to the Code with the Commission.

These Code changes are designed to facilitate consideration by the Inter-Regional Planning Committee (IRPC) of the technical network issues associated with Basslink and empower the National Electricity Market Management Company (NEMMCO) to impose any necessary technical requirements on its connection to the mainland grid.

The Commission proposes granting authorisation to the applications. A copy of the draft determination is included with this letter.

The Commission proposes, subject to any pre-determination conference pursuant to section 90A of the TPA that might be requested, to grant authorisation in respect of applications A90747, A90748 and A90749.

The Commission now invites you and other interested persons to notify it within 14 days whether you wish the Commission to hold a conference, pursuant to section 90A of the TPA in relation to this draft determination.

Interim Authorisation

Applications for Authorisation of National Electricity Code— Amendments to Queensland Derogations (A90751, A90752 and A90753)

On 24 October 2000, the Commission received applications from you and on behalf of the Queensland Government, an application for authorisation (Nos. A90751, A90752 and A90753) of amendments to the Code.

These amendments to the Code:

- extend the end dates of eight derogations from the date of the commissioning of the Queensland—New South Wales interconnector (QNI) to 31 December 2002; and
- make minor clarifications to definitions contained in the Queensland derogations.

The Commission was requested to consider these applications as soon as possible, in order to ensure that QNI is available to assist in meeting Queensland's increased energy demands over the forthcoming summer.

The Commission has decided to grant conditional interim authorisation to the applications. The Commission requires that proposed wording for Clause 9.37.15 (a) be deleted and replaced with:

The requirements for stability as defined in paragraph S5.1.8 of Schedule 5.1 of the Code are modified, for both NEMMCO and the relevant Network Service Provider, by the requirement that, until the end of 31 December 2002 and to the extent that they apply to localised supply arrangements in the Queensland region, a Network Service Provider whose network is a Queensland transmission network must use reasonable endeavours to ensure that the stability criteria are met except for events that the Network Service Provider reasonably believes to be low probability events or where it may be uneconomic to augment the transmission network to an extent that satisfies the above stability requirements. The relevant Network Service Provider must seek NEMMCO's consent prior to relying on this Clause 9.37.15 (a). NEMMCO may refuse to grant such consent where NEMMCO reasonably considers that there is a risk of cascading effects on power system security or a material impact on the power system outside the Queensland region.

This condition is designed to ensure that an independent umpire, NEMMCO, determines security risk to systems outside Queensland in the period after the Queensland—New South Wales interconnector is commissioned.

This interim authorisation takes effect from Wednesday 6 December 2000 and will lapse when the Commission reaches a final determination.

The Commission will recommence its statutory public consultation process regarding the applications as soon as possible, and hopes to release its draft determination early in the new year. Please note that under subsection 91(2) of the TPA, the Commission may revoke an interim authorisation at any time.

If you have any queries on any of the issues in this letter please contact me on (02) 6243 1254.

Yours sincerely,

P. BILYK, Acting General Manager Regulatory
Affairs—Electricity

- (d) subject to subregulation (2), is lined internally with impervious material that is at least 100 μm thick and of such a nature as to prevent the leakage of body fluids from the coffin; and

 - (iii) in any other case—Form 8.

Maximum penalty: \$2 500.
