I, MARK KENNION BRINDAL, Minister for Water Resources, hereby declare the following levies payable by persons authorised by a water licence, to take water from prescribed wells in the Mallee Prescribed Wells Area. MARK BRINDAL, Minister for Water Resources

WATER RESOURCES ACT 1997

Notice of Assessment of Quantity of Water Taken when Meter Readings are Not Used

I, MARK KENNION BRINDAL, Minister for Water Resources, hereby declare that the basis of assessment of water use rates and the method by which the assessment of water use where meter readings are not used will be as set out in Schedule 1.

SCHEDULE 1

The basis of the assessment of water use will be the estimation of water requirements for a crop.

The method by which the estimation of water requirements for crops will be used is the methodology of Doorenbos and Pruitt (1977), as refined by Allen *et al.*, (1998) and set out in the

PIRSA Technical Report No. 263, second edition ('the Report'). Crop factors will be calculated from Kc (crop coefficient) values from Food and Agriculture Organisation of the United Nations, Rome Irrigation and Drainage Paper 56 (Allen, Pereira *et al.*, 1998) ('FAO 56') and using site specific monthly Kp (pan coefficient) values and average monthly Kg values (bird guard coefficient) set out in the Report.

The methodology incorporates the use OF Bureau of Meteorology evaporation data, the application of crop specific factors to evaporation figures to calculate crop evapotranspiration for the crop and location in question, subtraction of effective rainfall and an allowance for leaching for salinity control and irrigation efficiency.

The water requirement calculated by this method is expressed as depth of water required in millimetres for a particular crop grown over a particular season. Depth multiplied by the number of hectares of that crop grown (in each specified season for short season crops), multiplied by 10 gives the volume of water required for each crop in kilolitres.

A copy of each of the Report and FAO 56 is obtained through the GEO Science Library at the Department of Primary Industries and Resources South Australia. The reference number for the Report is ISBN No. 07308-4349-1 and the reference number for FAO 56 is Kinetica/Amicus No. 000020037000 or ISBN No. 92-5-104219-5.

This notice has effect in relation to the financial year commencing on 1 July 2001.

Dated 26 June 2001.

allowances for rent, house allowed rent free, light and fuel.

(2) A higher duties allowance is excluded from the definition of "**salary**" in the Act for the purpose of calculating contributions and where such an allowance has been paid for a continuous period of less than 12 months it is excluded from the definition of "**salary**" for the purposes of calculating benefits as well but where such an allowance has been paid for a continuous period of 12 months or more, it will, subject to subregulation (3), be included as a component of salary for the purpose of calculating benefits.

(3) Where the amount of the allowances has changed during the period of 12 months immediately preceding termination of the contributor's employment, the allowance will be included as a component of salary for the purpose of calculating benefits at the lowest level paid during that period.

(7) Expense allowances paid to the Agent-General are a component of the Agent-General's salary for the purposes of the definition of "**salary**".

(8) This regulation does not exclude an allowance or payment from the definition of "**salary**" in the Act that was paid to an employee and treated as salary at the commencement of the Act unless the employee has elected, by notice in writing to the Board, to exclude the allowance or payment for the purpose of determining his or her salary.

Exclusion of non-monetary remuneration

26. Where a non-monetary component of a contributor's remuneration that is excluded from the definition of "**salary**" is changed—

- (a) to a monetary amount that is included as salary under the Act and these regulations for the purpose of determining both contributions and benefits; or
- (b) to another form of non-monetary remuneration that is included as salary under section 4(2c) of the Act for the purpose of determining both contributions and benefits,

the amount of the contributor's salary will be taken not to include that component for the purpose of determining benefits unless at least five years has elapsed since the change occurred and the value of the component has been included as a component of salary for the purpose of calculating contributions continuously since the change occurred.

DIVISION 2—TEC SALARY

Proportion of remuneration package that is salary

28. (1) Subject to this regulation and to Division 3, the proportion of the value of the total remuneration package specified in a TEC contract for the purposes of the first definition of "salary" in section 4(1) of the Act is—

- (a) in respect of a new scheme contributor—82.5 per cent;
 - (b) in respect of an old scheme contributor—78.5 per cent.
- (2) Where a component of the total remuneration package specified in a TEC contract is—
- (a) a higher duties allowance; or
 - (b) a bonus; or
 - (c) an allowance to compensate an employee for being denied a right of private practice or for being unable to exercise a right of private practice because of the nature of his or her employment; or
 - (d) an allowance or payment to compensate an employee in respect of money that was earned by the employee in the exercise of a right of private practice but was paid to his or her employer,

the amount of the contributor's salary for the purpose of determining both contributions and benefits will be taken to be an amount equivalent to the relevant proportion prescribed by subregulation (1) of the value of the total remuneration package excluding the value of that component.

(3) If, on the commencement of regulation 24AC of the revoked regulations, the salary of a contributor whose salary is to be determined under the first definition of "salary" in section 4(1) of the Act would have been less than it would be if determined under the second definition of "salary" in the Act, the proportion of the value of the total remuneration package specified in the contributor's TEC contract is the proportion that ensures that the value of the contributor's salary under both definitions of "salary" in the Act was the same at the commencement of that regulation.

(4) The proportion determined under subregulation (3) as at the commencement of regulation 24AC of the revoked regulations will continue to apply in relation to the contributor during his or her membership of the Scheme.

**DIVISION 3—PROVISIONS APPLICABLE TO BOTH TEC SALARY AND
NON TEC SALARY**

Salary in relation to fixed term appointments

29. (1) This regulation applies to, and in relation to, a contributor whether he or she is employed pursuant to a TEC contract or not.

(2) Subject to subregulations (4) and (5), where a contributor has, during his or her membership of the Scheme, been appointed to a higher position for a limited term of less than five years, the contributor's salary for the purpose of determining contributions and benefits will, during the term of the appointment, be taken to be the contributor's basic salary.

(3) Subject to subregulation (7), where a contributor has, during his or her membership of the Scheme, been appointed to a higher position for a limited term of five years or more, the contributor's salary for the purpose of determining contributions and benefits will thereafter be taken to be the highest level of salary achieved by the contributor during his or her membership of the Scheme.

(4) A contributor who has been appointed to a higher position for a limited term of less than five years will be taken, for the purposes of subregulations (2) and (3), to have been appointed for a term of five years or more if the term of that appointment when aggregated with the term of a previous appointment or appointments to higher positions during the contributor's membership of the scheme is five years or more.

(5) A contributor who has been appointed to a higher position for a limited term of less than five years will, if the term is extended to five years or more, be taken, for the purposes of subregulations (2) and (3) to have been appointed for a term of five years or more on the day on which the term is extended.

(6) The highest level of salary achieved by the contributor will be determined by comparing the salary levels for the time being of all positions held by the contributor during his or her membership of the Scheme and the following provisions will apply for the purpose of the comparison:

- (a) where the salary applicable to the position that the contributor holds or to a position previously held by the contributor has been reduced (except for disciplinary reasons) or the position has ceased to exist, the salary of the position will be taken to be—
- (i) where the salary has been reduced—the salary of that position on the last day on which the contributor was employed in the position before the reduction;
 - (ii) where the position has ceased to exist and subparagraph (i) does not apply—the salary of that position on the last day on which the contributor was employed in the position,

adjusted to reflect changes in the Consumer Price Index between that day and the day on which the comparison is made;

- (b) where the contributor holds, or held, a position pursuant to special conditions as to salary negotiated with his or her employer, the salary of the position will be taken to be the salary for the time being of the position (or the notional salary of the position determined under paragraph (a) if applicable) increased in accordance with the special conditions.

(7) The contributor's salary for the purposes of determining contributions and benefits will be taken to be the contributor's basic salary if the contributor has, by notice in writing to the Board within two months of the commencement of the fixed term appointment referred to in subregulation (3), made an election to that effect.

(8) An election referred to in subregulation (7) cannot be revoked and, as well as applying in relation to the fixed term appointment in relation to which it was made, applies also in relation to all subsequent periods served by the contributor pursuant to fixed term appointments.

(9) An election made by an officer of the teaching service before regulation 24B of the revoked regulations came into force under the corresponding regulation in force at that time will be taken to be an election referred to in subregulation (7) of this regulation.

(10) A person who is employed pursuant to a fixed term appointment when he or she becomes a member of the Scheme will be taken, for the purposes of this regulation, to have been appointed to the higher position on the day on which he or she became a member of the Scheme.

(11) Subregulations (3) and (4) do not apply to, or in relation to, the appointment of a contributor to a higher position for a limited term of two years or less if that term commences during the limited term of an existing appointment and expires on or before the end of the longer term.

(12) In this regulation, unless the contrary intention appear—

"**basic salary**" in relation to a contributor on a particular day means—

- (a) where the contributor was not employed pursuant to a fixed term appointment on that day—the contributor's salary on that day;
- (b) where the contributor was employed pursuant to a fixed term appointment on that day—the salary for the time being payable in respect of the position (or an equivalent position) held by the contributor immediately before the commencement of the fixed term appointment or, where the contributor has held two or more consecutive fixed term appointments, immediately before the commencement of the first of those appointments;

"**fixed term appointment**" in relation to a contributor means the appointment of the contributor to a higher position for a limited term but

"**higher position**" in relation to a contributor means a position in which the salary, or the aggregate of the various components of the salary, received by the contributor exceeds the salary, or the aggregate of the various components of the salary, received by the contributor in the same or some other position held by the contributor immediately before appointment to the higher position;

"**salary**" means the salary defined by the first or second definitions of "**salary**" in the Act as modified by the provisions of Division 1 or 2 applicable from time to time in relation to a contributor.

Election to reduce salary

30. (1) A contributor's salary will not be taken under regulation 29 to be the highest level of salary achieved by the contributor if the contributor has made an election under this regulation which has not been revoked.

(2) If—

- (a) the highest level of salary achieved by a contributor was achieved, pursuant to a TEC contract; and
- (b) the contributor is now receiving a reduced salary (except where the reduction is due to a reduction in hours of employment or for disciplinary reasons),

the contributor may, by written notice to the Board, elect that regulation 29 will not apply to him or her.

(3) An election under subregulation (2) that has not been revoked remains in force despite the fact that the requirements of subregulation (2)(a) or (b) are no longer satisfied.

(4) Where an election under subregulation (2) is in force, the contributor's salary for the purpose of calculating benefits will be determined in accordance with the following formula:

$$S = S_1 \left[\frac{CM - X}{CM} \right] + \frac{S_2 \times X}{CM}$$

1

Where

- S is the salary
- S₁ is the highest level of salary (as determined in accordance with regulation 29) achieved by the contributor before the contributor's election under subregulation (1) adjusted to reflect changes in the level of remuneration under TEC contracts since the time of that election
- CM is the number of contribution months in the contributor's contribution period
- X is the number of contribution months in that part of the contributor's contribution period occurring after the election
- S₂ is the amount that would, but for this subregulation, have been the contributor's salary for the purpose of determining benefits

(5) Subject to subregulation (6), an election under subregulation (2) cannot be revoked.

(6) An election under subregulation (2) may be revoked by the contributor by written notice to the Board if the value in relation to the contributor of S₂ in the formula in subregulation (4) exceeds the value of S₁ in the formula.
