NATIONAL PARKS AND WILDLIFE ACT 1972 SECTIONS 30 AND 43: CONSTITUTION OF CARPENTER ROCKS CONSERVATION PARK

Proclamation By The Governor

(L.S.) E. J. NEAL

PURSUANT to sections 30 and 43 of the *National Parks and Wildlife Act 1972*, being of the opinion that the land described in the schedule should be protected or preserved for the purpose of conserving wildlife and the natural and historic features of that land and with the advice and consent of the Executive Council, I make the following proclamation:

1. I constitute the Crown land described in the schedule as a conservation park and I assign the name *Carpenter Rocks Conservation Park* to the conservation park.

2. Subject to clause 4, existing rights of entry, prospecting, exploration or mining under the *Petroleum Act 2000* may continue to be exercised in respect of the land constituting the conservation park.

3. Subject to clause 4, rights of entry, prospecting, exploration or mining may, with the approval of the Minister for Minerals and Energy and the Minister for Environment and Heritage, be acquired pursuant to the *Petroleum Act 2000* in respect of the land constituting the conservation park.

4. A person in whom rights of entry, prospecting, exploration or mining are vested pursuant to the *Petroleum Act 2000* (whether those rights were acquired before or after the making of this proclamation) must not exercise those rights in respect of the land constituting the conservation park unless the person complies with the following conditions:

- (a) if work to be carried out in relation to the land of the park in the exercise of those rights is a regulated activity within the meaning of the *Petroleum Act 2000*, the person must ensure that—
 - (i) the work is not carried out until a statement of environmental objectives in relation to the activity that has been approved under that Act has also been approved by the Minister for Environment and Heritage; and
 - (ii) the work is carried out in accordance with the statement as so approved;
- (b) if any drilling, excavation, vegetation clearance, construction or other work in relation to the land of the park in the exercise of those rights has not previously been authorised (whether by inclusion in an approved statement of environmental objectives referred to in paragraph (a) or otherwise), the person must give at least 3 months notice of that proposed work to the Minister for Minerals and Energy and the Minister for Environment and Heritage and supply each Minister with such information in relation to the proposed work as the Minister may require;

(c) if any proposed work in relation to the land of the park in the exercise of those rights would have the effect of disturbing vegetation in the park, the person must ensure that—

- (i) the work is not undertaken until a recovery plan for the rehabilitation of the vegetation prepared by the person (being a plan that does not reduce or otherwise detract from any requirement as to rehabilitation contained in an approved statement of environmental objectives referred to in paragraph (a)) has been approved by the Minister for Minerals and Energy and the Minister for Environment and Heritage; and
 - (ii) the vegetation is rehabilitated in accordance with that plan;
- (d) if directions have been agreed upon by the Minister for Minerals and Energy and the Minister for Environment and Heritage and given to the person in writing in relation to—

- (i) carrying out work in relation to the land of the park in a manner that minimises damage to the land (including vegetation or wildlife on the land) and the environment generally; or
- (ii) preserving objects, structures or sites of historical, scientific or cultural interest; or
- (iii) rehabilitating the land (including vegetation or wildlife on the land) on completion of the work; or
- (iv) (where the work is being carried out in exercise of rights acquired after the making of this proclamation) prohibiting or restricting access to any specified area of the land that the Ministers believe would suffer significant detriment as a result of carrying out the work,

(being directions that do not reduce or otherwise detract from any requirement in respect of any of those matters contained in an approved statement of environmental objectives referred to in paragraph (a)), the person must comply with those directions in carrying out the work;

(e) if a plan of management is in operation under section 38 of the *National Parks and Wildlife Act 1972* in respect of the land, the person must have regard to the provisions of the plan of management;

(f) in addition to complying with the other requirements of this proclamation, the person—

- (i) must take such steps as are reasonably necessary to ensure that objects, structures and sites of historical, scientific or cultural interest and any vegetation or wildlife on the land are not unduly affected by the exercise of those rights; and
- (ii) must maintain all work areas in a clean and tidy condition; and
- (iii) must, upon the completion of any work, obliterate or remove all installations and structures (other than installations and structures designated by the Minister for Minerals and Energy and the Minister for Environment and Heritage as suitable for retention) used exclusively for the purposes of that work;

(g) if no direction has been given by the Minister for Minerals and Energy and the Minister for Environment and Heritage under paragraph (d)(iii), the person must (in addition to complying with the vegetation recovery plan referred to in paragraph (c) and any approved statement of environmental objectives referred to in paragraph (a)) rehabilitate the land (including vegetation or wildlife on the land) on completion of the work to the satisfaction of the Minister for Environment and Heritage.

5. If—

- (a) the Minister for Minerals and Energy and the Minister for Environment and Heritage cannot agree as to whether—
 - (i) approval should be granted or refused under clause 3; or

(ii) approval of a vegetation recovery plan should be granted or refused under clause 4(c); or

(iii) a direction should be given under clause 4(d); or

(b) the Minister for Environment and Heritage does not approve a statement of environmental objectives referred to in clause 4(a),

the Governor may, with the advice and consent of the Executive Council—

(c) grant or refuse the necessary approval under clause 3 or 4(c); or

(d) give a direction in writing under clause 4(d); or

DEVELOPMENT ACT 1993

Port Adelaide Enfield (City) and Salisbury (City) Development Plans

Industry—Gepps Cross Plan Amendment Report Prepared by the Minister—Draft for Public Consultation

NOTICE is hereby given that the Minister for Transport and Urban Planning has, pursuant to section 26 of the Development Act 1993, prepared a draft Development Plan Amendment Report (PAR) covering former abattoir land and adjoining land at Gepps Cross.

The draft PAR covers land currently zoned Special Uses (Abattoir), adjoining land zoned District Commercial, within the City of Port Adelaide Enfield and land zoned Market (C) located in the City of Salisbury. The land affected by the draft PAR is located only 8 km from the City of Adelaide and is of strategic importance to the State as indicated by the Planning Strategy.

The land is required for future industry development focussing on transport, packaging and processing related industries where these rely on strategic links to interstate and overseas markets for import and export of products. The proposed policies will also allow location of smaller production houses, concentrating on custom design and the undertaking of higher order activities of research and product development rather than actual manufacturing.

Policies in the draft PAR promote integration between the former abattoir land and adjoining zones, encourage location of industries in a manner that is compatible with surrounding development and enhanced amenity through retention of character trees and high quality landscaping and signage in accordance with the 'gateway' location.

Copies of this draft PAR are available during normal office hours at the Department for Transport, Urban Planning and the Arts (Planning SA), Level 5, 136 North Terrace, Adelaide or can be viewed on the Internet (www.planning.sa.gov.au/Gepps_Cross). Alternatively the draft PAR is available during normal office hours at the offices of the Port Adelaide Enfield and Salisbury Councils.

The draft PAR will be on public consultation from 6 September 2001 to 6 November 2001.

Written submissions regarding the draft PAR should be submitted no later than 6 November 2001. All submissions should be addressed to the Presiding Member, Development Policy Advisory Committee, G.P.O. Box 1815, Adelaide, S.A. 2001 and should clearly indicate whether you wish to be heard in support of your submission.

Copies of all public submissions will be available for inspection by interested persons at the Department for Transport, Urban Planning and the Arts (Planning SA), Level 5, 136 North Terrace, Adelaide from 7 November 2001 until the public hearing.

A public hearing will be held on 19 November 2001 at 7 pm at the Bridgeway Hotel Function Room, 18 Bridge Road, Pooraka at which time interested persons may appear to be heard in relation to the draft PAR and the submissions. The public hearing will not be held if no submissions are received or no submission makes a request to be heard.

Enquiries on the draft PAR should be directed to Debra Taylor, Planning SA, telephone (08) 8303 0663.

Infauna samples must be preserved in Bennett's solution and stained with Thyloxin-B initially. After sorting the samples should be labelled inside and outside the containers with details of the date of collection, site location, collection method, and the collector's and identifier's name. The samples must be preserved in 70% alcohol and kept in storage for two years to allow for auditing or further analysis if required.

Video transects should be used to assess the broad scale changes in sediment consistency, presence of farming waste and the composition and abundance of macro-fauna and macro-flora communities.

Video transects must be collected using equipment capable of producing a clear and well lit image in Hi-8 format for computerised image analysis using a Sony Hi-8 digital camera or equivalent capable of operating at a minimum of 3 lux. The underwater housing must be fitted with a minimum of two 50 W lights. Transects must be at least 150 m long and a transect line marked at 5 m intervals must be visible at all times. The date and 'live' time should also be visible. The location and unique number of each transect must be clearly marked on a map that includes details of the site layout. The diver should gently disturb the sediment by hand at the start, middle and end of each transect to reveal the colour of the sediments below the surface.

Report

The environmental monitoring report must contain a synthesis of the data, statistical analysis and interpretation of the results. All raw data and video footage must also be presented to Aquaculture SA in electronic format and hard copy.

The environmental monitoring report must be legible and contain a declaration regarding the authenticity and source of all data and results contained in the report. This declaration must be signed by the licence holder and the person(s) conducting the monitoring program.

The report must include an assessment of the results of the monitoring program against the provisions of the Environment Protection (Marine) Policy 1994, and must be accompanied by all raw data, video footage and diver notes.

SCHEDULE 6

Schedule of Environmental Monitoring Reports

The licensee must submit an environmental monitoring program report and videos within three months of the commencement of this licence to the Minister, c/o General Manager Aquaculture SA, 14th Floor, 25 Grenfell Street, G.P.O. Box 1625, Adelaide, S.A. 5000, during the term of this licence.

The Tribunal is located in the Office of the Registrar of the Federal Court in each State.

A copy of this letter together with the determination will be placed on the Public Register kept by the Commission. The Commission has also written to The Hon. Candy Broad, M.P., in the same terms.

CITY OF UNLEY

*Unley (City) Residential Design Plan Amendment Report—
Draft for Public Consultation*

NOTICE is hereby given that the City of Unley has prepared a draft Plan Amendment Report (PAR) to amend the Unley (City) Development Plan by introducing policies affecting all forms of residential development.

The residential zone boundaries and densities within zones, other than for minor adjustments to Institutional Zone boundaries to take account of current land uses, is not addressed within this draft PAR.

The draft PAR is in response to an expressed community desire to see development control policies that improve the design quality of new housing while ensuring that it contributes to the neighbourhood character of the City of Unley.

The draft PAR introduces a 'performance approach' within the policies which concentrate on desired outcomes while providing clear guidance as to what is considered acceptable to achieve these outcomes.

In summary the proposed amendment introduces:

- new council-wide residential objectives to replace the existing;
- new council-wide principles of development control covering all aspects of residential design and related development including land division configuration and frontages, building appearance and design, siting, set-backs, site coverage, open space, privacy, ancillary structures, car parking, energy efficiency, stormwater management, crime prevention, home offices, multiple dwellings, dependent and older persons accommodation and non-residential development in residential zones;
- a Desired Character Statement in each Residential Zone and minor amendments to zone objectives and principles aimed at clarifying the desired form of development;
- revised lists of complying and non-complying forms of development in the Residential and Institutional Zones and a Table to clarify the level of public notification required; and
- minor amendments to the boundary of the Institutional Zone to reflect current development of various sites.

The draft PAR will be available for public inspection and purchase during normal office hours at the Council Office, 181 Unley Road, Unley from 6 September to 22 November 2001. Copies are available for short-term loan from council's libraries or can be viewed on council's web-page www2.unley.sa.gov.au/rdp. A copy of the draft PAR can be purchased from the council office at \$10 each.

Information sessions will be held as follows:

- Fullarton Park Centre—7 p.m. on 10 October 2001
- Goodwood Community Centre—7 p.m. on 16 October 2001
- Unley Civic Centre—3 p.m. on 24 October 2001

All interested persons are invited to attend to ask questions and find out the details of the PAR.

Written submissions regarding the draft PAR will be accepted by the Council until 22 November 2001. The written submission should also clearly indicate whether you would wish to speak at a public hearing on your submission. All submissions should be marked 'Submission—Residential Design PAR' and addressed to City of Unley, P.O. Box 1, Unley, S.A. 5061, Fax: 8271 4886 or E-mail: POBox1@Unley.sa.gov.au.

Copies of all submissions received will be available for inspection by interested persons at the council office from 26 November 2001 until the public hearing.

A public hearing will be held at 7 p.m. on 4 December 2001 at the Unley Civic Centre, Oxford Terrace, Unley. The public hearing may not be held if no submission indicates an interest in speaking at the public hearing.

Dated 6 September 2001.
