NOTICE is hereby given pursuant to section 6 (2) of the National Electricity Law, which forms the Schedule to the National Electricity (South Australia) Act 1996, that a new derogation, part 7 to Chapter 8, is inserted.

These amendments to the National Electricity Code commence on 9 December 2002.

ACCC Letter of Authorisation

27 November 2002

Stephen Kelly
Managing Director
National Electricity Code Administrator Limited
Level 5, 41 Currie Street
ADELAIDE, S.A. 5000

Dear Stephen

Final Determinations:

- South Australian full retail competition and system planning derogation (Nos A90838, A90839, A90840)

- Queensland technical standards derogation (Nos A90841, A90842, A90843)
- Safety net provisions and reserve contracting derogation (Nos A90844, A90845, A90846)

The Australian Competition and Consumer Commission (Commission) received applications for authorisation of derogations from the National Electricity Code (code) for the above matters on 16 August, 26 August and 10 September 2002, respectively.

The South Australian full retail competition derogation amends the existing derogation to delay the introduction of competition for metering services for a transitional period of two and a half years. This is intended to facilitate a smooth transition to full retail competition. The system planning derogation amends the existing derogation to ensure it is consistent with the code as amended by the Network and Distributed Resources code changes. It is also intended to enhance the information available to the Electricity Supply Industry Planning Council.

The Queensland technical derogation extends the existing technical derogation for a further two years. This will bring the expiry date in line with those of the recently extended technical derogations of New South Wales, South Australia and Victoria and will allow a managed transition to the new technical standards regime which is part of an application for authorisation that is currently being assessed by the Commission.

The safety net provisions and reserve contracting derogation is aimed at widening the scope of the existing reserve trader provisions to allow National Electricity Market Management Company to enter into reserve contracts with non-scheduled generating units and loads.

Interim authorisation of this derogation was granted on 6 November 2002 and has been extended until the final authorisation takes effect.

Please find enclosed copies of the determinations outlining the Commission's decisions to grant authorisation and any conditions of authorisation. Further copies may be obtained from the Commission's website at www.accc.gov.au.

In accordance with s.101 of the *Trade Practices Act 1974* a person dissatisfied with the Commission's determination may apply to the Australian Competition Tribunal for a review of the determination. Each application must be lodged on the appropriate form within 21 days of the date of the determination, with the Registrar of the Tribunal. The Tribunal is located in the Office of the Registrar of the Federal Court in each State.

A copy of this letter together with the determinations will be placed on the Public Register kept by the Commission.

If you have any queries or require any further information please contact Mrs Maxine Helmling on (02) 6243 1246.

Yours sincerely,

S. ROBERTS, Acting General Manager,
Regulatory Affairs—Electricity.
