WATER RESOURCES ACT 1997

Notice of Restriction on Water Use in the Padthaway Prescribed Wells Area

PURSUANT to section 16 (1) of the Water Resources Act 1997, I, John David Hill, Minister for Environment and Conservation, being of the opinion that the rate at which water is being taken from wells in the Padthaway Prescribed Wells Area, being the area gazetted on 13 May 1976 as the Padthaway Proclaimed Region under the provisions of the Water Resources Act 1976 and now known as the Padthaway Prescribed Wells Area ('the Area'), is likely to affect the quality of the underground water in the Area, hereby prohibit the taking of water from wells, subject to the exceptions specified in Schedule 1.

SCHEDULE 1

1. A person may take water in accordance with the terms of a written authorisation:

- (a) granted under the Notice of Restriction published in the *Government Gazette* on 13 December 2001 (page 5377), in accordance with the Guidelines For Authorisations For The Taking Of Water Under The Notice Of Restriction In The Padthaway Prescribed Wells Area dated 12 December 2001; or

- (b) granted by me or any person authorised in writing by me under this Notice and in accordance with the Revised Guidelines For Authorisations For The Taking Of Water Under The Notice Of Restriction In The Padthaway Prescribed Wells Area dated 8 October 2003.

2. This prohibition does not apply to the taking of water pursuant to section 7 (5) of the Act for domestic purposes or watering stock (other than stock subject to intensive farming) or to taking of water for fire-fighting, road making or reticulating supplies of potable water for townships in the area.

This notice will remain in effect for two years unless earlier varied or revoked.

Dated 8 October 2003.

J. D. HILL, Minister for Environment
and Conservation

WATER RESOURCES ACT 1997

Notice of Prohibition on Taking Surface Water and Water from Watercourses in the Eastern Mount Lofty Ranges Area

PURSUANT to section 16 (1) of the Water Resources Act 1997 ('the Act'), I, John David Hill, Minister for Environment and Conservation in the State of South Australia, and Minister to whom the administration of the Water Resources Act 1997 is committed, being of the opinion that:

- the rate at which surface water is taken in the Area described in Schedule 1 ('the Area') is such that the surface water available can no longer meet the demand; and
- the rate at which water is taken from watercourses in the Area is such that there is a risk that the available water will not be sufficient to meet future demand;

hereby prohibit the taking of surface water and water from watercourses in the Area except in the circumstances specified in Schedule 2.

SCHEDULE 1

The Area

The area bounded by the bold solid line as shown in the GRO Plan No. 422/2003 ('the Area').

SCHEDULE 2

1. A person may take surface water and water from a watercourse in the Area in accordance with the terms of a written authorisation granted under this notice by me or my authorised agent.

2. An authorisation under this notice may be granted to:

- (a) A person ('a Current User'), who has been taking surface water or water from a watercourse in the Area during the period 1 July 2000 to 15 October 2003 inclusive ('the Relevant Period'), entitling that person to take, from the source specified in the authorisation:

- where the water taken during the Relevant Period was to water a crop or crops, the amount of water reasonably necessary, in my opinion, to water that crop or those crops, the amount being determined taking into account the maximum area of each crop or crops grown, the water requirements of the respective crop or crops and the irrigation capacity of the irrigation equipment used to water the crop or crops; or
- where the water was taken during the Relevant Period for any other purpose, the amount of water which, in my opinion, is reasonably necessary to continue that purpose in the manner in which it had been undertaken during the Relevant Period.

The source specified will be the resource or resources where water was taken during the Relevant Period.

- (b) The transferee under a contract for the sale or other transfer of land where the transferor of the land is the holder of an authorisation under this notice, entitling that person to take the same amount of water from the same source as the transferor was authorised to take.
- (c) Subject to clause 3, a person ('a Prospective User') who did not take any surface water or water from a watercourse in the Area but who needs water for a development, project or undertaking:
- to which that person was legally committed during the Relevant Period; or
 - in respect of which that person had, in my opinion, committed significant financial or other resources during the Relevant Period;
- entitling that person to take the amount of surface water or water from a watercourse in the Area, which in my opinion, is reasonably necessary to undertake the development, project or undertaking to which that person was committed.

3. A Prospective User may not be granted an authorisation or may only be granted an authorisation subject to conditions relating to the manner of taking water where, in my opinion:

- (a) the taking of surface water or water from watercourses will detrimentally affect the ability of other persons to take water from any watercourse, well or dam for domestic purposes or for watering of stock (other than stock being intensively farmed); or
- (b) the taking of surface water or water from watercourses will detrimentally affect the capacity of surface water or any watercourse or well to meet the current or future demand, including the demands of ecosystems dependent on that water resource.

4. Until authorised under this notice, a Current User may continue to take an amount of water equivalent to the maximum amount taken in any one year, from the same source and for the same purpose or purposes as that person took during the Relevant Period without a written authorisation.

5. This notice does not apply:

- (a) to the taking of water directly from a watercourse pursuant to section 7 (5) of the Act for domestic purposes or for watering stock (other than stock being intensively farmed);
- (b) to the taking of water by a dam with a volumetric capacity of up to and including two megalitres where the taking is for domestic purposes or for watering stock (other than stock being intensively farmed); or
- (c) to the taking of water for fire fighting purposes or public road making purposes.

WATER RESOURCES ACT 1997

Notice of Prohibition on Taking Water from Wells in the Eastern Mount Lofty Ranges Area

PURSUANT to section 16 (1) of the Water Resources Act 1997 ('the Act'), I, John David Hill, Minister for Environment and Conservation in the State of South Australia, and Minister to whom the administration of the Water Resources Act 1997 is committed, being of the opinion that the rate at which water is being taken from wells in the area described in Schedule 1 ('the Underground Water Area') is such that there is a risk that the available water will not be sufficient to meet future demand, hereby prohibit the taking of water from wells except in the circumstances specified in Schedule 2.

SCHEDULE 1

The Area

The area bounded by the bold solid line as shown in the GRO Plan No. 423/2003 ('the Underground Water Area').

SCHEDULE 2

1. A person may take water from a well in the Underground Water Area in accordance with the terms of a written authorisation granted under this notice by me or my authorised agent.

2. An authorisation under this notice may be granted to:

- (a) A person ('a Current User') who has been taking water from a well in the Underground Water Area during the period 1 July 2000 to 15 October 2003 inclusive ('the Relevant Period'), entitling that person to take:

- where the water taken during the Relevant Period was to water a crop or crops, the amount of water reasonably necessary, in my opinion, to water that crop or those crops, the amount being determined taking into account the maximum area of each crop or crops grown, the water requirements of the respective crop or crops and the irrigation capacity of the irrigation equipment used to water the crop or crops; or
- where the water was taken during the Relevant Period for any other purpose, the amount of water which, in my opinion, is reasonably necessary to continue that purpose in the manner in which it had been undertaken during the Relevant Period.

- (b) The transferee under a contract for the sale or other transfer of land where the transferor of the land is the holder of an authorisation under this notice, entitling that person to take the same amount of water from the same source as the transferor was authorised to take.

- (c) Subject to clause 3, a person ('a Prospective User') who did not take any water from a well but who needs water for a development, project or undertaking:

- to which that person was legally committed during the Relevant Period; or
- in respect of which that person had, in my opinion, committed significant financial or other resources during the Relevant Period;

entitling that person to take the amount of water from a well in the Underground Water Area, which in my opinion, is reasonably necessary to undertake the development, project or undertaking to which that person was committed.

3. A Prospective User may not be granted an authorisation or may only be granted an authorisation subject to conditions relating to the manner of taking water where, in my opinion:

- (a) the taking of water will detrimentally affect the ability of other persons to take water from any watercourse, well or dam for domestic purposes or the watering of stock (other than stock being intensively farmed); or
- (b) the taking of water will detrimentally affect the capacity of the water resource to meet the current or future demand including the demands of ecosystems dependent on that water resource.

4. Until authorised under this notice, a Current User may continue to take an amount of water equivalent to the maximum amount taken in any one year, from the same source and for the same purpose or purposes as that person took during the Relevant Period without a written authorisation.

5. This notice does not apply:

- (a) to the taking of water pursuant to section 7 (5) of the Act for domestic purposes or for watering stock (other than stock subject to intensive farming); or
- (b) to the taking of water for fire fighting purposes or public road making purposes.

6. The following condition applies to the taking of water in accordance with an authorisation granted under this notice:

- The water may only be taken through a meter which accurately measures the quantity of water taken and is at all times in good working condition.

In this notice:

'Maximum area' for a particular crop means the average of the maximum areas of land planted to a particular crop during the Relevant Period.

'Water requirement' of a crop means the reasonable rate of irrigation (expressed as a volume of water per hectare) to properly produce that crop.

'Irrigation capacity' of irrigation equipment means the amount of water that can be applied by the usual operation of that equipment in its condition at 15 October 2003 under usual pumping rates, hours of operation and seasonal fluctuations.

This notice will remain in effect for two years unless earlier varied or revoked.

Dated 7 October 2003.

J. D. HILL, Minister for Environment and Conservation

I propose that the area bounded by the bold solid line in the GRO Plan No. 422/2003 be known as the Eastern Mount Lofty Ranges Prescribed Watercourses and Surface Water Area and that the area bounded by the bold solid line in the GRO Plan No. 423/2003 be known as the Eastern Mount Lofty Ranges Prescribed Wells Area.

I also propose that the regulation will exclude the operation of subsection (5) of section 7 of the Act.

The reason for making this recommendation is to enable the surface water, watercourse water and underground water in the Defined Areas A and B to be managed and used in accordance with the Object of the Act. Achieving this outcome will assist in sustaining the physical, economic and social well being of the community and facilitate the economic development of the State while:

- ensuring that these resources are able to meet the reasonably foreseeable needs of future generations; and
- protecting the ecosystems (including their biodiversity) that depend on those resources.

I invite all interested persons to make written submissions to me in relation to this proposal. The closing date for submissions is Friday, 27 February 2004.

All submissions should be addressed to:

The Minister for Environment and Conservation
c/o Diane Favier
Senior Catchment Management Officer

Adelaide, S.A. 5001

All enquiries concerning this notice should be addressed to Sarah Clark on phone number (08) 8463 6861.
