1. Purpose

This code provides a framework through which the holder of a bookmaker’s licence (“**gambling provider**”) can ensure that the bookmaker’s advertising activities are consistent with the community’s expectations that the licensed business will be conducted in a responsible manner so as to minimise the harm caused by gambling.

2. General principle

The gambling provider will ensure that all gambling related advertising is undertaken in a manner that—

- (a) is socially responsible; and

3. Specific provisions

- (1) The gambling provider will ensure that, when it advertises its gambling products, the advertising complies with—
 - (a) applicable Commonwealth and State laws; and

as in force from time to time.
- (2) The gambling provider will ensure that, when it advertises its gambling products, the advertising—
 - (a) is not directed at minors;
 - (b) does not portray minors participating in gambling activities;
 - (c) is not explicitly or exclusively directed at vulnerable or disadvantaged groups (including recovering problem gamblers);
 - (d) does not promote gambling as a means of relieving financial or personal difficulties;

 - (f) does not state or imply that gambling is a means to pay for household staples, education or rent, or to meet mortgage commitments;
 - (g) does not make claims related to winning or the prizes that can be won—
 - (i) that are not based on fact; or
 - (ii) that are unable to be proven; or

and **‘radio’** and **‘television’** have corresponding meanings.

ACCC Letter of Authorisation

29 April 2004

Stephen Kelly
Managing Director
NECA
Level 5, 41 Currie Street
Adelaide S.A. 5000

Dear Stephen

*Final Determination—Dispatching the Market—Interim
Arrangements*

On 16 December 2003, the Australian Competition and Consumer Commission (ACCC) received applications for authorisation (Nos A90892, A90893 and A90894) of amendments to the National Electricity Code (code). These applications were submitted under Part VII of the Trade Practices Act 1974 (TPA).

The derogations address the inadequacy of existing arrangements in managing power system security and efficient utilisation of available transmission capacity in the short term. The changes provide NEMMCO with express powers to manage negative settlement residues and to combine inter and intra-regional limits in the same constraint equations. The derogation has a sunset clause which means it will cease to have effect at the end of December 2004.

Please find attached a copy of the ACCC's determination in respect of these applications for authorisation. The ACCC's determination outlines its analysis and views on the proposed derogations. The ACCC has granted authorisation.

A person dissatisfied with this determination may apply to the Australian Competition Tribunal for its review. A copy of this letter together with the determination will be placed on the Public Register kept by the ACCC.

If you have any queries or require further information please contact me on (03) 9290 1867 or Melanie Hewitt on (02) 6243 1245.
