**WATER RESOURCES ACT 1997***Notice of Prohibition on Taking Water from Wells in the Hundred of Peake*

PURSUANT to section 16 (1) of the Water Resources Act 1997 ('the Act'), I, John David Hill, Minister for Environment and Conservation in the State of South Australia, and Minister to whom the administration of the Water Resources Act 1997 is committed, being of the opinion that the rate at which water is being taken from wells in the Hundred of Peake is likely to affect the quality of water in the underground aquifer, hereby prohibit the taking of water from wells in the Hundred of Peake, except for the circumstances specified in Schedule 1.

**SCHEDULE 1**

1. A person may take water from a well in the Hundred of Peake in accordance with the terms of a written authorisation granted under this Notice by me or my authorised agent.

2. An authorisation under this Notice may be granted to:

- (a) A person ('a Current User'), who has been taking water from a well in the Hundred of Peake during the period from 1 July 2001 to 3 February 2005 inclusive ('the Relevant Period'), entitling that person to take, from the source specified in the authorisation:

- where the water taken during the Relevant Period was to water a crop or crops, the amount of water reasonably necessary, in my opinion, to water that crop or those crops, the amount being determined taking into account the maximum area of each crop or crops grown, the water requirements of the respective crop or crops and the irrigation capacity of the irrigation equipment used to water the crop or crops; or
- where the water was taken during the Relevant Period for any other purpose, the amount of water which, in my opinion, is reasonably necessary to continue that purpose in the manner in which it had been undertaken during the Relevant Period.

The source specified will be the resource or resources where water was taken during the Relevant Period.

- (b) The transferee under a contract for the sale or other transfer of land where the transferor of the land is the holder of an authorisation under this notice, entitling that person to take the same amount of water from the same source as the transferor was authorised to take.
- (c) Subject to clause 3, a person ('a Prospective User'), who did not take any water from a well in the Hundred of Peake, but who needs water for a development, project or undertaking:
- to which that person was legally committed during the Relevant Period; or
  - in respect of which that person had, in my opinion, committed significant financial or other resources during the Relevant Period;

entitling that person to take the amount of water from a well in the Hundred of Peake, which in my opinion, is reasonably necessary to undertake the development, project or undertaking to which that person was committed.

3. A Prospective User may not be granted an authorisation or may only be granted an authorisation subject to conditions relating to the manner of taking water where, in my opinion:

- (a) the taking of water from wells will detrimentally affect the ability of other persons to take water from any well for domestic purposes or for watering of stock (other than stock being intensively farmed); or
- (b) the taking of water from wells will detrimentally affect the capacity of any well to meet the current or future demand, including the demands of ecosystems dependent on that water resource.

4. Until authorised under this Notice, a Current User may continue to take an amount of water equivalent to the maximum amount taken in any one financial year during the relevant period, from the same sources and for the same purpose or purposes as that person took during the Relevant Period without a written authorisation.

5. This Notice does not apply:

- (a) to the taking of water directly from a well pursuant to section 7 (5) of the Act for domestic purposes or for watering of stock (other than stock being intensively farmed); or

- (b) to the taking of water for fire-fighting purposes or public road making purposes; or
- (c) to the taking of water for the purpose of chemical application on crops.

In this notice:

'Maximum area', for a particular crop means the maximum areas of land planted to a particular crop in any one financial year during the relevant period.

'Water requirement', of a crop means the reasonable rate of irrigation (expressed as a volume of water per hectare) to properly produce that crop.

'Irrigation capacity', of irrigation equipment means the amount of water that can be applied by the usual operation of that equipment in its condition at 3 February 2005 under usual pumping rates, hours of operation and seasonal fluctuations.

This notice will remain in effect for two years unless earlier varied or revoked.

Dated 3 February 2005.

J. D. HILL, Minister for Environment  
and Conservation
