## PETROLEUM ACT 2000

## SECTIONS 25 AND 90

*Variation and Suspension of Petroleum Exploration Licences—  
PEL 86, PEL 87 and PEL 89*

NOTICE is hereby given that under the provisions of the Petroleum Act 2000, pursuant to delegated powers dated 28 March 2002, *Gazetted* 11 April 2002, page 1573:

1. The conditions of the abovementioned Exploration Licences have been varied as follows:

Condition 1 of the licences is omitted and the following substituted:

*PEL 86*

'1. During the term of the licence, the Licensee shall carry out or cause to be carried out exploratory operations on the area comprised in the licence in accordance with such work programs as are approved by the Minister from time to time. Year one to three exploratory operations are guaranteed. These exploratory operations shall include but not necessarily be limited to:

| Year of Term of Licence | Minimum Work Requirements  |
|-------------------------|--|
| One                     | Begin interpretation of existing seismic data and reprocess certain lines. Review geologic and regional well data.   |
| Two                     | Finalise interpretation of existing seismic data and seismic reprocessing.   |
| Three                   | Geophysical and geological studies and determine location for additional seismic lines.  |
| Four                    | Acquire a minimum of 80 km 2D seismic or airborne geophysical survey or combination of both, sufficient to locate a drillable target for the Year 5 drilling commitment. |
| Five                    | Drill one well to Cambro-Ordovician basement (approximately 7 000 feet).   |

*PEL 87*

'1. During the term of the licence, the Licensee shall carry out or cause to be carried out exploratory operations on the area comprised in the licence in accordance with such work programs as are approved by the Minister from time to time. Year one to three exploratory operations are guaranteed. These exploratory operations shall include but not necessarily be limited to:

| Year of Term of Licence | Minimum Work Requirements  |
|-------------------------|--|
| One                     | Begin interpretation of existing seismic data and reprocess certain lines. Review geologic and regional well data.   |
| Two                     | Finalise interpretation of existing seismic data and seismic reprocessing.   |
| Three                   | Geophysical and geological studies and determine location for additional seismic lines.  |
| Four                    | Acquire a minimum of 70 km 2D seismic or airborne geophysical survey or combination of both, sufficient to locate a drillable target for the Year 5 drilling commitment. |
| Five                    | Drill one well to Cambro-Ordovician basement (approximately 6 500 feet).   |

*PEL 89*

1. During the term of the licence, the Licensee shall carry out or cause to be carried out exploratory operations on the area comprised in the licence in accordance with such work programs as are approved by the Minister from time to time. Year one to three exploratory operations are guaranteed. These exploratory operations shall include but not necessarily be limited to:

| Year of Term of Licence | Minimum Work Requirements  |
|-------------------------|--|
| One                     | Begin interpretation of existing seismic data and reprocess certain lines. Review geologic and regional well data.   |
| Two                     | Finalise interpretation of existing seismic data and seismic reprocessing.   |
| Three                   | Geophysical and geological studies and determine location for additional seismic lines.  |
| Four                    | Acquire a minimum of 70 km 2D seismic or airborne geophysical survey or combination of both, sufficient to locate a drillable target for the Year 5 drilling commitment. |
| Five                    | Drill one well to Cambro-Ordovician basement (approximately 7 000 feet).   |

Variation to each licence provides an option to substitute an airborne geophysical program in part or whole for the originally programmed Year 4 seismic in each licence area. The revised work program as a result of this variation would not have altered the outcome of the original competitive tender process.

2. The Exploration Licences have been suspended from and including 21 December 2004 to 20 December 2005.

The expiry date of Exploration Licences PEL 86, PEL 87 and PEL 89 is now determined to be 7 January 2008.

Dated 6 April 2005.

COMMONWEALTH OF AUSTRALIA  
PETROLEUM (SUBMERGED LANDS) ACT 1967

*Notice of Invitation of Applications for Exploration Permits*

I, BARRY ALAN GOLDSTEIN, the Delegate of the Designated Authority in respect of the adjacent area in respect of South Australia and on behalf of the Commonwealth-South Australia Offshore Petroleum Joint Authority, acting pursuant to delegated powers dated 14 July 2002, *Gazetted* 22 August 2002, page 3127 and pursuant to section 20 (1) of the Petroleum (Submerged Lands) Act 1967, of the Commonwealth of Australia, hereby invite applications for the grant of an exploration permit in respect of each of the following areas as scheduled below:

SCHEDULE

(The references hereunder are to the names of the map sheets of the 1:1 000 000 series and to the numbers of graticular sections shown thereon).

The Commonwealth/State/Territory jurisdictional boundary in coastal waters is determined by the Australian Maritime Boundaries Information System Dataset of 2001, released in January 2001 by the Australian Surveying and Land Information Group (now Geoscience Australia National Mapping Division).

Section 5AAA of the Petroleum (Submerged Lands) Act 1967 provides that, where a change to the baseline of Australia's territorial sea would impact on the boundary of an existing petroleum title (in Commonwealth, State or Territory waters), there is in fact no such impact. The Commonwealth, State or Territory Act (as the case may be) under which the title has been granted, continues to apply to the title and the whole title area for as long as the title remains in force. Therefore, this Instrument does not apply to any such area that is already under title.
