ELECTRICITY ACT 1996

*Default Contract Prices for Small Customers*

NOTICE under the Electricity Act 1996 of AGL South Australia Pty Ltd (AGL SA) ABN 49 091 105 092 of Default Contract Prices for Small Customers.

Pursuant to Section 36AB of the Electricity Act 1996 notice is hereby given by AGL SA of certain of its default contract prices for small customers who are purchasing electricity under AGL SA's default contract terms and conditions. The default contract prices are set out below and will apply from 2 July 2005. They apply in respect of the tariff categories described in the Explanatory Notes. Default contract prices previously fixed by AGL SA in respect of other tariff categories continue to apply.

*Justification Statement*

The default contract prices set out in this notice are the same as the standing contract prices AGL SA anticipates will apply from 2 July 2005 in respect of the relevant tariff categories.

For further information please call AGL on 131 245.

P. JAMES, Director, AGL South Australia Pty Limited

**AGL SA ELECTRICITY DEFAULT CONTRACT PRICES FOR SMALL CUSTOMERS  
effective from 2 July 2005**

*Explanatory Notes:*

1. AGL SA's default contract prices are inclusive of GST.
2. Default contract price categories will only apply to small customers (that is, those customers who consume less than 160MWh of electricity per annum) who are purchasing electricity under AGL SA's default contract terms and conditions. The above default contract prices apply in accordance with the following principles:
  - (a) Daily Consumption is the total electricity consumption for the period to which the customer's bill relates, divided by the number of days in that period;
  - (b) Charitable Institutions 112
    - available to charitable institutions that have been endorsed by the Australian Taxation Office as an income tax exempt Charitable Entity under Subdivision 50-B of the Income Tax Assessment Act 1997.
  - (c) Controlled Load 116
    - for electricity used in permanently installed storage water heaters with a rated delivery of not less than 125 litres, storage space heaters and other approved thermal storage applications; the hours of application are fixed from time to time by AGL SA with control by time switch or other means. This price does not apply to electricity used outside those hours.
    - customers who were taking supply under this tariff, or who had applied to do so, as at 30 June 2003 are subject to the conditions which were applicable at that date.
    - this price is only available in conjunction with tariffs 112, 126, 126M, 128, 128M, 140 or 140M.
  - (d) General Supply 126
    - available only to non-residential customers.
  - (e) General Supply 126M (Monthly Meter Reading)
    - available only to non-residential customers;
    - applies to customers whose meters are scheduled to be read monthly, and who are billed monthly;
    - a monthly meter reading fee applies to this tariff in addition to the above prices.
  - (f) General Supply Time of Use 128
    - available only to non-residential customers with appropriate metering;
    - includes customers previously on tariffs 120 + 121 and 130 + 131 who were taking supply under those tariffs, or who had applied to do so, as at 30 June 1997. Those customers are subject to the conditions which were applicable to those tariffs at that date, in addition to the current conditions.

- (g) General Supply Time of Use 128M (Monthly Meter Reading)
- available only to non-residential customers with appropriate metering;
  - includes customers previously on tariffs 120 + 121 and 130 + 131 who were taking supply under those tariffs, or who had applied to do so, as at 30 June 1997. Those customers are subject to the conditions which were applicable to those tariffs at that date, in addition to the current conditions;
  - applies to customers whose meters are scheduled to be read monthly, and who are billed monthly;
  - a monthly meter reading fee applies to this tariff in addition to the above prices.
- (h) Obsolete Tariff 140 (formerly Farm Tariff 140)
- applies only to small customers that were taking supply under Obsolete Tariff 140, or who had applied to do so, as at 30 June 1997. Conditions applicable at that date apply, in addition to the current conditions.
- (i) Obsolete Tariff 140M (Monthly Meter Reading)
- applies only to small customers who were taking supply under Obsolete Tariff 140, or who had applied to do so, as at 30 June 1997. Conditions applicable at that date apply, in addition to the current conditions;
  - applies to customers whose meters are scheduled to be read monthly, and who are billed monthly;
  - a monthly meter reading fee applies to this tariff in addition to the above prices.
3. Peak period is 0700 hours to 2100 hours from Monday to Friday (Central Standard Time) for all tariffs other than tariff 110 except where the network meters do not recognise specific tariff days. In these situations peak period is 0700 hours to 2100 hours (Central Standard Time) each day for tariffs other than tariff 110.
4. Off peak period is all times other than peak period.
5. Where prices change during a billing cycle the bill for that billing cycle will be calculated on a pro-rata basis using:
- (a) the old price up to and including the date of change; and
  - (b) the new price from the date of change to the end of the billing cycle.
