8. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2003 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above policy.

9. In accordance with commitments by the applicant, wastewater shall not be stored in open storage ponds until it is first treated to reduce the potential for odours to occur.

10. The applicant shall ensure that stormwater, which does not comply with the Environment Protection (Water Quality) Policy 2003 criteria, is not discharged from the site without prior effective treatment.

11. Noise from the development shall be in accordance with the following:

Construction Activities—Mondays to Saturdays:

- (a) not exceed 52 dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property;

- (b) shall not exceed 45 dB (A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest existing

residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994;

- (c) a short-term typical maximum noise level of 60 dB (A) when measured at the nearest existing residential property.

12. The proponent shall, subject to obtaining the landowner's consent in relation thereto, install, operate and maintain frost fans on the property located north of the proposed development site either in accordance with the recommendations in the Development Report and assessed in the Acoustic report on frost fan impacts and in accordance with the Environment Protection Authority's standards for their operation, siting and distance from potential receptors, or in accordance with any alternative arrangement negotiated with the landowner. If the landowner refuses consent for the establishment of frost fans on the property located to the north of the proposed development, the proponent is excused from compliance with this condition.

13. Landscaping of the site shall commence prior to construction of the proposed major development, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased.

14. In accordance with commitments by the applicant, building walls up to 3 m shall be clad in colorbond 'ironstone' (or similar), and walls above 3 m shall be clad in colorbond 'paperbark' (or similar).

Regulation 64 of the Development Regulations 1993 provides further information about the type and quantity of all building rules certification documentation for major developments required for referral to the Minister for Urban Development and Planning.

- The Barossa Council or private certifier undertaking building rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including any Conditions or Notes that apply in relation to this provisional development authorisation).
- Should the applicant wish to vary the major development or any of the components of the major development, an application may be submitted, provided that the development application variation remains within the ambit of the Development Report and Assessment Report referred to in this provisional development authorisation. If an application variation involves substantial changes to the proposal, pursuant to section 47 of the Development Act 1993, the applicant may be required to prepare an amended Development Report for public inspection and purchase. An amended Assessment Report may also be required to assess any new issues not covered by the original Assessment Report and a decision made by the Governor pursuant to Section 48 of the Development Act 1993.

- It is recommended that the applicant finalise the required water licence arrangements pursuant to the Water Resources Act 1997, for the construction of the proposed water storage dam and subsequent re-use of water, prior to construction of the proposed major development (in order for operations to proceed). The applicant is also advised to submit information on the water licence arrangements to Planning SA, together with final details on the design of the stormwater dam and associated release mechanism(s) and infrastructure.
- The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute; without taking all reasonable and practical measures to prevent or minimise harm to the environment.
- The applicant's EMMP should be prepared taking into consideration, and with explicit reference to, relevant EPA policies and guideline documents, including, but not limited to the Environment Protection (Air Quality) Policy 1994, the Environment Protection (Water Quality) Policy 2003, the Occupational Health and Safety Regulations, EPA Guidelines on Odour Assessment, using odour source modelling 2003, EPA Handbook for Pollution Avoidance on Commercial and Residential Building Sites 2004, and the EPA Stormwater Pollution Prevention Code of Practice for the Building and Construction Industry, in addition to other legislative requirements and Guidelines/Australian Standards requiring compliance.
- The applicant is reminded of its obligations under the Aboriginal Heritage Act 1988 whereby any 'clearance' work, which may require permission to disturb damage or destroy Aboriginal Sites, must be undertaken with the full authorisation of the Minister for Aboriginal Affairs and Reconciliation, according to section 23 of the Aboriginal Heritage Act 1988.
- It is recommended that the applicant ensure there are measures in place to promote staff vehicle access to the site from the northern end of Light Pass Road.
- The applicant is advised that a further development application and authorisation will be required pursuant to Part 4, Division 2 of the Development Act 1993, for the following matters:
 - prior to commencement of Stage 2, if the applicant proposes to treat wastewater at the existing Wolf Blass winery wastewater treatment system;

- The applicant is advised that any construction activities proposed to be undertaken on Sundays shall be subject to EPA requirements and further approval.
- The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.

1—Short title

These regulations may be cited as the *Natural Resources Management (Transitional Provisions—Levies) Regulations 2005*.

2—Commencement

These regulations will come into operation on the day on which they are made.

3—Interpretation

4—Levies in respect of water

The scheme established by Part 8 Division 1 of the *Water Resources Act 1997* with respect to the declaration of levies under section 122 of that Act will continue in relation to the 2005/2006 financial year, subject to the following provisions:

- (a) a levy will be payable with respect to water licences or authorisations under the NRM Act (including water licences and authorisations under the *Water Resources Act 1997* that have force and effect by virtue of clause 54 of Schedule 4 of the NRM Act);
- (b) a levy may operate as if it were declared with respect to a water resource within the NRM region that corresponds to or includes the relevant catchment area of a catchment water management board (being a water resource identified by the Minister in the making of the relevant declaration);
- (c) the levy may be recovered as if it were declared under Chapter 5 Part 1 Division 2 of the NRM Act;

- (c) an amount to be contributed by a constituent council will be payable to the regional NRM board for the relevant area rather than the relevant catchment water management board and the regional NRM board may use the amount paid by a council for purposes stated in its regional NRM plan (either in respect of the financial year for which it is paid or a subsequent financial year);
