DEVELOPMENT ACT 1993, SECTION 48: DECISION BY
THE DEVELOPMENT ASSESSMENT COMMISSION AS
DELEGATE OF THE GOVERNOR

Preamble

1. A proposal from the Cape Jaffa Development Company (hereafter 'the applicant') to develop a multi-component residential marina at Cape Jaffa, in the South East has been under consideration under Division 2 of Part 4 of the Development Act 1993.

2. The proposal has been the subject of an Environmental Impact Statement and an Assessment Report under sections 46 and 46B of the Development Act 1993 and is hereafter referred to as the 'proposed Major Development'.

3. The proposed Major Development was the subject of a development application lodged on 20 February 2003, by the applicant. The said application has been amended and expanded upon by the applicant's Environmental Impact Statement, dated April 2005; the applicant's Response to Submissions, dated September 2005; and additional correspondence dated 4 November 2005, 10 November 2005 and 18 April 2006.

4. The Cape Jaffa Development Company, the person having the benefit of the development authorisation has applied to the Development Assessment Commission, as delegate of the Governor, for a decision regarding the reserved matters of (a) the proposed use of the future development site on Figure 3.6 in the EIS and (b) proposed use and extent of the wetland vegetation on the eastern side of the development.

5. The Development Assessment Commission has, in considering the application, had regard to all relevant matters under section 48 (5) of the Development Act 1993.

6. The Development Assessment Commission is satisfied that there is no requirement to prepare a further or amended Environmental Impact Statement.

Decision

PURSUANT to section 48 of the Development Act 1993, the Development Assessment Commission as delegate of the Governor:

- (a) grant a provisional development authorisation in relation to the proposed major development, subject to the conditions and notes to the applicant below;
- (b) pursuant to section 48 (6) and Regulation 64 (1) reserve a decision on the following matters:
 - (i) compliance with the Building Rules in relation to all aspects of the proposed major development (refer to Conditions and Notes to the applicant below);
 - (c) specify all matters relating to this provisional development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached;
 - (d) specify for the purposes of section 48 (11) (b) the period of two years from the date hereof as the time within which substantial work must be commenced on site, failing which I may cancel this authorisation.

CONDITIONS OF APPROVAL

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed major development shall be undertaken in strict accordance with:

- (a) the following drawings contained in the letter from Simon Tonkin on behalf of the Cape Jaffa Development Company to Planning SA dated 11 November 2005, outlining the final amended application:
 - Drawing Titled: 'Figure 3.3—Locality': February 2005;
 - Drawing Titled: 'Figure 3.7—Breakwater Typical Cross Section': February 2005;
 - Drawing Titled: 'Figure 3.9—Central Facilities': August 2004, 9399;
 - Drawing Titled: 'Figure 3.10—Boat Ramp': February 2005;

- Drawing Titled: 'Figure 3.11—Waterway and Wharf Edge Treatment': August 2004, 9399;
- Drawing Titled: 'Figure 3.12—Reserves and Open Space': August 2004, 9399-10-a;
- Drawing Titled: 'Figure 3.13—Landscape Concept': February 2005;
- Drawing Titled: 'Figure 3.14—Landscape Buffers': February 2005;
- Drawing Titled: 'Figure 3.15—Storm Water Management Concept': August 2004, 9399-10-a;
- Drawing Titled: 'Figure 3.16—Land Division Plan': December 2004, 9399-a;
- Drawing Titled: 'Figure 3.17—Main Basin looking South': February 2005;
- Drawing Titled: 'Figure 3.18—Waterway View looking West': February 2005;
- Drawing Titled: 'Figure 3.19—Beach Reserve View into the Main Basin': February 2005;
- Drawing Titled: 'Figure 3.20—Aerial View looking South-East': February 2005;
- Drawing Titled: 'Figure 3.21—Aerial View looking East': February 2005;
- Drawing Titled: 'Figure 3.22—Typical Cross Section and Allotment Plan': August 2004, 9399-02-a;
- Drawing Titled: 'Figure 3.23—Coastal Reserve Walkway': August 2004, 9399;
- Drawing Titled: 'Figure 3.24—Staging Plan': August 2004, 9399-10-a;
- Drawing Titled: 'Figure 3.25—Management Structure': February 2005;
- Drawing Titled: 'Figure 5.12—Irrigation and Storage Site': August 2004, 9399-01-b;
- Drawing Titled: 'Figure 5.35—Coastal Reserves and Buffers': August 2004, 9399-01-b; and
- Drawing Titled: 'Figure 5.59—Cape Jaffa Proposed Zones': February 2005;

or as amended by the following drawings from the Response Document:

- Drawing Titled: 'Figure R1—Concept Plan': August 2004, 9399-01-b;
- Drawing Titled: 'Figure R2—Infrastructure Area Concept': July 2005, 9399; and
- Drawing Titled: 'Figure R3—Site Camp Concept': August 2005, 9399.

In addition, the following drawings in the additional information letter from Masterplan (Simon Tonkin) on 4 November 2005 and appended to the Assessment Report:

- Drawing Titled: 'Figure 1—Water Supply': October 2005; and
- Drawing Titled: 'Figure 2—Vegetation Area B Buffer and Fencing Plan': October 2005.

And

(b) the following documents:

- Development application, 'Cape Jaffa Anchorage Marina Development' prepared by Simon Tonkin (Masterplan) on behalf of the Cape Jaffa Development Company, 20 February 2003, (except to the extent that it may be varied by a subsequent document in this paragraph).
- Environmental Impact Statement, Cape Jaffa Anchorage Marina prepared by the Cape Jaffa Development Company dated February 2005, (except to the extent that it may be varied by a subsequent document in this paragraph).

- Response to Submissions document, Cape Jaffa Anchorage Marina Development prepared by the Cape Jaffa Development Company dated 19 September 2005, (except to the extent that it may be varied by a subsequent document in this paragraph).
 - Assessment Report prepared by the Minister for Urban Development and Planning dated December 2005, including an appended report from Simon Tonkin of Masterplan dated 4 November 2005, (except to the extent that it may be varied by a subsequent document in this paragraph).
 - Letter from Simon Tonkin of Masterplan dated 11 November 2005, outlining the final amended application and listing appropriate plans.
 - Letter from Simon Tonkin of Masterplan dated 18 April 2006, concerning reserved matters (b) (ii) and (b) (iii) from Governor's decision on 12 January 2006.
2. The applicant shall submit further information and application(s) in relation to the matter that has been reserved.
3. Subject to Condition 4, no building works on any part of the development may commence until a favourable decision has been notified to the applicant by the Governor or the Governor's delegate in respect of the reserved matter referred to in subparagraph (i) in paragraph (b) of the Decision section above.
4. The applicant may commence a stage of building works before receiving the Governor's decision concerning building rules compliance for other stages (refer matter (i) in paragraph (b) of the Decision section above). No building works shall commence on a stage of the development until a favourable decision in relation to building rules compliance in respect of that stage has been notified in writing to the applicant by the Governor or the Governor's delegate.
5. A decision on building rules compliance (refer reserved matter (i) in paragraph (b) of the Decision section above) will only be made after a Building Rules assessment and certification has been undertaken and issued by the Kingston Council or a private certifier, in accordance with the provisions of the Development Act 1993 and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993 (refer to 'Notes to Applicant' below for further information).
6. A Management, Maintenance and Monitoring (MMM) Agreement between the Kingston District Council and the Cape Jaffa Anchorage Marina Development Company shall be drafted and finalised, prior to being submitted to the Governor or her delegate (refer to Conditions and Notes below).
7. Before any works commence, a Construction Environmental Management and Monitoring Plan (CEMP) to cover the pre-construction and construction phases shall be prepared in consultation with and approved by the Environment Protection Authority and Planning SA, to address management issues during construction.
8. An Operational Environmental Management and Monitoring Plan (OEMMP) for the operational phase of the development shall be prepared to the reasonable satisfaction of the Environment Protection Authority, other Government agencies and the Kingston District Council, prior to it being submitted to the Governor or her delegate (refer to Conditions and Notes to Applicant below).
9. All works and site activities shall be undertaken in accordance with the approved Construction Environmental Management and Monitoring Plan.
10. Stockpiled soils shall be suitably managed to control dust emissions, erosion and weed infestation.
11. Armour rock used for breakwaters and revetments shall not be contaminated by fine sediment.
12. The wastewater collection and treatment system shall be designed to ensure that the general obligations of the Environment Protection (Water Quality) Policy 2003 are met, and to ensure that effluent does not overflow or escape from drains, pipes, sumps, tanks, storage/treatment basins into any watercourse, or into stormwater drains which do not drain into the effluent collection, treatment and disposal system, except where the effluent complies with criteria in the above policy, or escapes to or is infiltrated from saline groundwater.
13. The proponent shall provide underground public lighting, power supply, a sustainable water supply and telephone supply to each allotment in accordance with, and to engineering design standard plans approved by the electricity, mains water and telephone public utility authorities.
14. The applicant shall ensure that there is no discharge of stormwater into the marina basins, waterways or marine environment for rainfall less than, and including, 1:20 year ARI events.
15. The land to be used for land-based allotments shall be formed to prevent stormwater flows entering into the waterways.
16. Water-sensitive urban design measures and practices shall be adopted for the management of run-off, including stormwater capture and reuse.
17. Undeveloped allotments shall be left in a neat and tidy condition, with soil surfaces stabilised to minimise erosion.
18. Roads, drainage, footpath and intersection designs (i.e. engineering construction plans) shall be finalised in accordance with the requirements of the Department of Transport, Energy and Infrastructure and the Kingston Council, prior to construction commencing. Road and drainage designs shall include water table levels, drainage inverts and pavement details. The roads and drainage works shall be built according to these designs.
19. Road designs shall not affect existing natural drainage lines in such a way as to cause flooding.
20. A set-back distance of 2 m from the top of the waterway edge treatment shall be provided for the construction of further coastal protection works if required in the future.
21. Appropriate navigational aids shall be erected in prominent locations, in consultation with the Department for Transport, Energy and Infrastructure, prior to use of the facility for boating purposes.
22. Further engineering designs for breakwaters, edge treatments and other waterway related structures, commercial and recreational moorings, public boat ramp (including associated car parking and access), hardstand, wash-down, boat refuelling facility and marine toilet pump-out/treatment facility shall be prepared and independently certified by a registered engineer, to the reasonable satisfaction of the Department for Transport, Energy and Infrastructure. A certificate as to the structural soundness of the proposed structures shall be submitted to the Development Assessment Commission, prior to the commencement of their construction.
23. Access systems for all floating boat moorings shall be capable of adjustment or be readily adaptable to projected long-term sea level rise and all marina mooring structures shall be designed in accordance with the Australian Standard AS 3962-2001 Guidelines for Design of Marinas.
24. The public boat ramp facility shall be designed in accordance with the South Australian Boating Advisory Committee's Guidelines for Planning, Design and Construction of Boat Launching Facilities.
25. Vehicular access to the beach shall not be provided, apart from Emergency vehicles, once the boat ramp is constructed and operational in the marina (as this relates to the Major Developments declared area).
26. The boat refuelling area and marine toilet pump-out facility shall be designed to meet the requirements of the Environment Protection Authority, the Department for Transport, Energy and Infrastructure and the Country Fire Service (CFS) respectively, and shall be in place prior to commencement of operation of the marina.
27. The water contained in the marina basin shall be kept to a quality appropriate for secondary contact recreation, public amenity and the maintenance of marine aquatic ecosystems, as stipulated from time to time by the ANZECC Australian Water Quality Guidelines for Fresh and Marine Waters.
28. Normal operating hours for construction activities and truck movements to and from the site shall be from 7 a.m. to 7 p.m., Monday to Saturday inclusive. If it is considered necessary for construction to be undertaken on Sundays, construction hours shall be from 9 a.m. to 6 p.m. on Sundays (refer to Notes to Applicant relating to Environment Protection Authority noise emission policies).

29. Landscaping and streetscaping of the site with locally endemic plant species shall commence prior to the issuing of Certificates of Title for each stage of the land division, and when established must be maintained in good health and condition at all times. A plant must be replaced if or when it dies or becomes seriously diseased within the first growing season after the plant dies or becomes seriously diseased. A weed control program shall also be implemented.

30. The Kingston Council shall be given seven days notice, prior to the commencement of works, and be provided with the name and contact facilities for the person responsible for coordinating site works by this approval.

NOTES TO APPLICANT

1. Approvals will be required for all components of the development not hereby approved, including:

- The land division.
- The marina moorings and other marina facilities.
- The public boat ramp, hard stand, boat maintenance facilities and car park areas.
- The boat refuelling and boat effluent disposal facility.
- Installation of navigational aids.
- All residential, commercial, retail, tourist related and other buildings.

2. Pursuant to Development Regulation 64, the applicant is advised that the Kingston Council or private certifier conducting a Building Rules assessment must:

- (a) provide the Minister a certification in the form set out in Schedule 12A of the Development Regulations 1993, in relation to the building works in question; and
- (b) to the extent that may be relevant and appropriate:
 - (i) issue a Schedule of Essential Safety Provisions under Division 4 of Part 12;
 - (ii) assign a classification of the building under these regulations; and
 - (iii) ensure that the appropriate levy has been paid under the Construction Industry Training Fund 1993.

Regulation 64 of the Development Regulations 1993, provides further information about the type and quantity of all Building Rules certification documentation for Major Developments required for referral to the Minister for Urban Development and Planning.

3. The Kingston District Council or private certifier undertaking Building Rules assessments must ensure that the assessment and certification are consistent with this provisional development authorisation (including Conditions or Notes that apply in relation to this provisional development authorisation).

4. Should the applicant wish to vary the Major Development or any of the components of the Major Development, an application may be submitted, provided that the development application variation remains within the ambit of the Environmental Impact Statement and Assessment Report referred to in this provisional development authorisation. If an application for variation involves substantial changes to the proposal, it will be processed pursuant to section 47 of the Development Act 1993.

5. The applicant should liaise with the Department of Water, Land and Biodiversity Conservation in relation to any further testing of the proposed water supply and negotiate with DWLBC for provision of the already agreed water supply.

6. Pursuant to the Harbours and Navigation Act 1993, the Council will be required to negotiate tenure arrangements with the Minister for Transport over the seabed on terms acceptable to the Minister prior to the commencement of construction.

7. The applicant's CEMMP and OEMMP should be prepared taking into consideration, and with explicit reference to, relevant Environment Protection Authority policies and guideline documents, including but not limited to the Environment Protection (Air Quality) Policy 1994, the Environment Protection (Water Quality) Policy 2003, the Occupational Health and Safety Regulations, EPA Guidelines on Odour Assessment, using odour source modelling 2003, EPA Handbook for Pollution Avoidance on Commercial and Residential Building Sites 2004, EPA

Bunding and Spill Management Guidelines 2004 and the EPA Stormwater Pollution Prevention Codes of Practice, in addition to other legislative requirements and Guidelines/Australian Standards requiring compliance.

8. The following management and monitoring plans may be incorporated into the CEMMP or OEMMP as appropriate:

- Groundwater Management and Monitoring Plan;
- Irrigation (Reclaimed Water) Monitoring and Management Plan;
- Dredging Monitoring and Management Plan;
- Marine Construction Monitoring and Management Plan;
- Vegetation Monitoring and Management Plan;
- Site Construction Monitoring and Management Plan;
- Acid Sulphate Soils Monitoring and Management Plan; and
- Stormwater Monitoring and Management Plan.

9. The following activities in relation to the components of the development hereby approved and/or requiring future approval will require licences under the Environment Protection Act 1993:

- Earthworks Drainage: the conduct of earthworks operations in the course of which more than 100 kilolitres of waste water containing suspended solids in a concentration exceeding 25 milligrams per litre is discharged directly or indirectly to marine waters or inland waters.
- Marinas and Boating Facilities: the conduct of:
 - (a) facilities comprising pontoons, jetties, piers or other structures (whether on water or land) designed or used to provide moorings or dry storage for 50 or more powered vessels at any one time; or
 - (b) works for the repair or maintenance of vessels with the capacity to handle five or more vessels at any one time or vessels 12 m or more in length.
- Dredging: removing solid matter from the bed or any marine waters by any digging or suction apparatus, but excluding works carried out for the establishment of a visual aid to navigation and any lawful fishing or recreational activity.

10. It is likely that as a condition of such licences the Environment Protection Authority will require the licensee to carry out specified environmental monitoring of water quality and to make reports of the results of such monitoring to it.

11. It is also likely that the Environment Protection Authority will require the identification to it of any vessels that visit the marina from international ports or from ports beyond Adelaide and the surrounding area, together with details of the routes travelled by such vessels (for the purpose of identifying the potential introduction of harmful marine species).

12. All works associated with the rehabilitation and remediation of the site must be undertaken in accordance with the General Environmental Duty as defined in Part 4, section 25 (1) of the Environment Protection Act 1993, the Environment Protection (Water Quality) Policy 2004 and other relevant Environment Protection Policies made under Part 5 of the Environment Protection Act 1993, the ANZECC Best Practice Guidelines for Waste Reception Facilities at Ports, Marinas and Boat Harbours in Australia and New Zealand, draft guideline Environmental Management of On-Site Remediation and other relevant Environment Protection and Authorisation publications and guidelines.

13. The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute, without taking all reasonable and practical measures to prevent or minimise harm to the environment.

14. The Management Plan for Acid Sulphate Soils should comply with Guidelines issued by the Coast Protection Board.

15. (a) The applicant is reminded of its obligations under the Aboriginal Heritage Act 1988, whereby during any works conducted, if an Aboriginal site, object or remains are found, authorisation from the Minister for Aboriginal Affairs and Reconciliation, is required to damage, disturb, interfere or remove the object, site or remains (pursuant to section 23 of the Aboriginal Heritage Act 1988).

(b) The applicant should also have regard for the section 23 authorisation (December 2004) and attendant conditions signed by the Minister for Aboriginal Affairs and Reconciliation in relation to the Cape Jaffa Anchorage proposal.

16. The applicant, and all agents, employees and contractors, such as construction crews, must be conversant with the provisions of the Aboriginal Heritage Act 1988, particularly the requirement to immediately contact the Department of Aboriginal Affairs and Reconciliation in the event that archaeological items (especially skeletal material) are uncovered during earthmoving.

17. The applicant, and the Council after hand-over, must comply with the Public and Environmental Health Act 1987, in regard to the maintenance of suitable water quality within the marina basin (and any stormwater holding ponds) to protect public health and amenity.

18. The expression 'secondary contact recreation' includes activities such as wading, boating and fishing in which some human contact with the water may occur, but in which the probability of bodily immersion or the intake of significant amounts of water is minimal.

19. If foreign vessels are allowed to berth in the marina the proponent would need to consult with the Department for Transport, Energy and Infrastructure (Marine Safety Section) to address any requirements of the Australian Quarantine Service (AQIS) and the Australian Customs Service.

20. It is recommended that the applicant approach the Kingston District Council with a view to the Council enacting of by-laws to manage activities associated with:

- The entrance channel and waterways to ensure safe navigation and to protect water quality.
- The boat ramp, wash-down, slip ways and hard stand.
- Refuelling facility and marine toilet pump-out facility.
- The residential development and reserves (including storm-water management devices).

21. The Kingston District Council will need to review and amend the zoning policies in the relevant Development Plan to reflect any development approved by the Governor and for future assessment and decision-making for buildings and structures not part of this provisional development authorisation.

22. Noise generated from the non-residential components of the development should not exceed:

- (a) 52 dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property in accordance with the Environmental Protection (Industrial Noise) Policy 1994.
- (b) 45 dB(A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994.
- (c) A short term typical maximum noise level of 60 dB(A) when measured at the nearest existing residential property.

23. In a land division, provision shall be made for a set back distance of 2 m from the top of the edge treatments (for the construction of coastal protection works if required in the future).

24. A common building scheme encumbrance or equivalent device for the purpose of ensuring compliance with design standards for residential and other buildings will be required at the land division stage.

25. Binding legal arrangements (e.g. easements, encumbrances, charge-back arrangements etc., as appropriate) between the proponent and allotment owners must be put in place, prior to application to the Registrar-General for the issue of new Certificates of Title, to ensure financial and management responsibilities related to the maintenance of edge treatments, the design and appearance of structures and the installation of future coast protection works are clearly allocated. These arrangements should be to the reasonable satisfaction of the Development Assessment Commission.

26. The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.

Given under my hand at Adelaide, 11 May 2006.

ROCIO BARUA, Secretary, Development Assessment Commission

DEVELOPMENT ACT 1993

Notice under Section 50 (6)

1. The contributions in respect of open space under section 50 (5) of the Development Act 1993, are:

	\$
Land within Metropolitan Adelaide	3 470
Land outside Metropolitan Adelaide	1 985

for each allotment that does not exceed one hectare in area.

2. The Valuer-General has advised that the average variation in the market value of land in the year that ended 30 June 2005 were:

Land within Metropolitan Adelaide—an increase of 11.63 per cent; and
Land outside Metropolitan Adelaide—an increase of 16.45 per cent.

3. On and after 1 June 2006, the contributions in respect of open space under section 50 (5) of the Development Act 1993, shall be as follows:

	\$

ENVIRONMENT PROTECTION ACT 1993

Approval of Category B Containers

I, STEPHEN RICHARD SMITH, Senior Adviser, Container Deposit Legislation and Delegate of the Environment Protection Authority ('the Authority'), pursuant to section 69 of the Environment Protection Act 1993 (SA) ('the Act') hereby:

Approval of Category B Containers:

Approve as Category B Containers, subject to the conditions in subclauses (i) and (ii) below, each of the classes of containers identified by reference to the following matters described in the first 4 columns of Schedule 1 of this Notice which are sold in South Australia:

- (a) the product which each class of containers shall contain;
- (b) the size of the containers;
- (c) the type of containers;
- (d) the name of the holders of these approvals.

(i) *Subsection 69 (3) Arrangements:*

The holders of these approvals must ensure that the empty containers which belong to their respective class of containers hereby approved as Category B Containers are collected from collection depots approved under section 69 of the Act by the party named in Column 5 of Schedule 1 of this Notice; and

(ii) *Approved Refund Markings:*

- (a) The holders of these approvals must ensure that each container which belongs to their respective class of containers hereby approved as Category B Containers bears the refund marking approved by the Authority in respect of that class of containers.
- (b) The refund marking that appears on each container that belongs to the class of containers hereby approved, must be a minimum 1.5 mm for the smallest letter in the statement and a minimum 3 mm for the numeric ('5') in the statement.
- (c) The holder of these approvals must ensure that if a sticker bearing the refund marking has been approved, and is applied to the container, then the sticker must not be placed on any portion of the opening mechanism or in any other place that would require complete or partial removal of the sticker before the contents may be consumed.

NATIONAL ELECTRICITY LAW

THE Australian Energy Market Commission (AEMC) gives notice under the National Electricity Law (NEL) of the following matters.

Under section 102, the making of the final determination for the National Electricity Amendment (Reliability Safety Net Extension) Rule 2006.

Under section 107, the time period has been extended for:

- the making of the draft determination for the proposed National Electricity Amendment (Economic Regulation of Transmission Services) Rule 2006 to 29 June 2006;

- the making of the draft determination for the proposed National Electricity Amendment (Management of negative settlement residues in the Snowy Region) Rule 2006, to 16 June 2006; and
- the making of the final determination for the draft National Electricity Amendment (TransGrid Participant Derogation—Treatment of Contingent Projects (Interim Arrangements)) Rule 2006 to 29 June 2006.

Under sections 95 and 96:

- NEMMCO and EnergyAustralia (EA) have requested the making of the proposed National Electricity Amendment (EnergyAustralia Participant Derogation (Settlement Residue Auctions)) Rule 2006, to allow EA to participate in settlement residue auctions; and
- EA has requested the making of the proposed National Electricity Amendment (EnergyAustralia Participant Derogation (Metering Installations)) Rule 2006, which relates to inspection and testing of metering installations.

The Commission intends to expedite the making of each of the proposed Rules subject to any objections (with written reasons). AEMC publishes all submissions on its website, subject to consideration of any claim of confidentiality. Any objection to an expedited process and any submissions on the proposed Rules should be forwarded to submissions@aemc.gov.au and:

- submissions must be received by 9 June 2006; and
- objections must be received by 25 May 2006.

Copies of the Rule proposals and the proposed Rules are published on AEMC's website and are available for inspection at AEMC. Further details on all of the above matters are also available on AEMC's website www.aemc.gov.au.

PETROLEUM ACT 2000

Notice of Invitation of Applications for an Exploration Licence

I, BARRY ALAN GOLDSTEIN, Director Petroleum and Geothermal, Minerals and Energy Resources, Department of Primary Industries and Resources in the State of South Australia, pursuant to the provisions of the Petroleum Act 2000 and pursuant to delegated powers dated 28 March 2002, gazetted 11 April 2002, page 1573 and in accordance with section 22 (1) of the Petroleum Act 2000, on behalf of the Minister for Mineral Resources Development (Minister) hereby invite applications for the grant of an Exploration Licence in respect of the area described below and shown on the attached plan.

*OT 2006-A**Description of Area*

All that part of the State of South Australia, bounded as follows:

Commencing at a point being the intersection of latitude 37°19'15"S GDA94 and longitude 140°42'40"E GDA94, thence east to longitude 140°44'45"E GDA94, south to latitude 37°20'05"S GDA94, east to longitude 140°46'15"E GDA94, south to latitude 37°20'55"S GDA94, east to longitude 140°47'30"E GDA94, south to latitude 37°22'35"S GDA94, east to longitude 140°47'40"E GDA94, south to latitude 37°23'25"S GDA94, west to longitude 140°46'50"E GDA94, south to latitude 37°23'35"S GDA94, west to longitude 140°46'00"E GDA94, north to latitude 37°23'25"S GDA94, west to longitude 140°45'05"E GDA94, north to latitude 37°22'30"S GDA94, west to longitude 140°43'55"E GDA94, north to latitude 37°21'50"S GDA94, west to longitude 140°42'57"E GDA94, north to latitude 37°20'05"S GDA94, west to longitude 140°42'40"E GDA94, and north to the point of commencement.

Area: 36.9 km² approximately.

*Special Conditions**Licence Term*

The PEL will be offered for a five-year term with a right of renewal for a further five-year term at the end of the initial five-year term, with a compulsory relinquishment of 50% of initial area at renewal.

Security

A minimum \$50 000 security (amount subject to review) will be required to be lodged by the licensee prior to entering the guaranteed licence term in which seismic or well activities are planned.

Applications

Applications lodged under section 65 (1) of the Petroleum Act 2000, are required to be made in the approved form as identified on the OT 2006-A Acreage Release DVD (can be ordered from www.petroleum.pir.sa.gov.au or the Director Petroleum and Geothermal at the address below).

Applications:

- must satisfy the requirements of Regulation 4 of the Regulations under the Petroleum Act 2000;
- must be accompanied by a proposed work program for the first five-year term of the licence;
- must be accompanied by a statement of the financial and technical resources available to the applicant; and
- must be accompanied by the scheduled application fee.

Applications close at 4 p.m., Thursday, 20 July 2006 (Australian Central Standard Time).

The following special instructions for lodgement of applications should be observed:

- the application and supporting data, together with the scheduled application fee (currently \$2 815, but expected to increase on 1 July 2006), payable to the Department of Primary Industries and Resources SA, should be sealed in a plain envelope or package and clearly marked as 'Application for Area OT 2006-A—Commercial-in-Confidence';
- the envelope or package should then be enclosed in another envelope and posted, or delivered by hand to:

Director Petroleum and Geothermal
Minerals and Energy Resources
Department of Primary Industries and Resources SA
Level 7, 101 Grenfell Street
Adelaide, S.A. 5000

Copies of the basic exploration data pertaining to the area comprising this notice are available from the Petroleum and Geothermal Group of the Department of Primary Industries and Resources SA. Enquiries may be directed to Barry Goldstein, Director Petroleum and Geothermal (Telephone (08) 8463 3200; email: Goldstein.Barry@sa.gov.au).

Criteria for Assessment of Applications

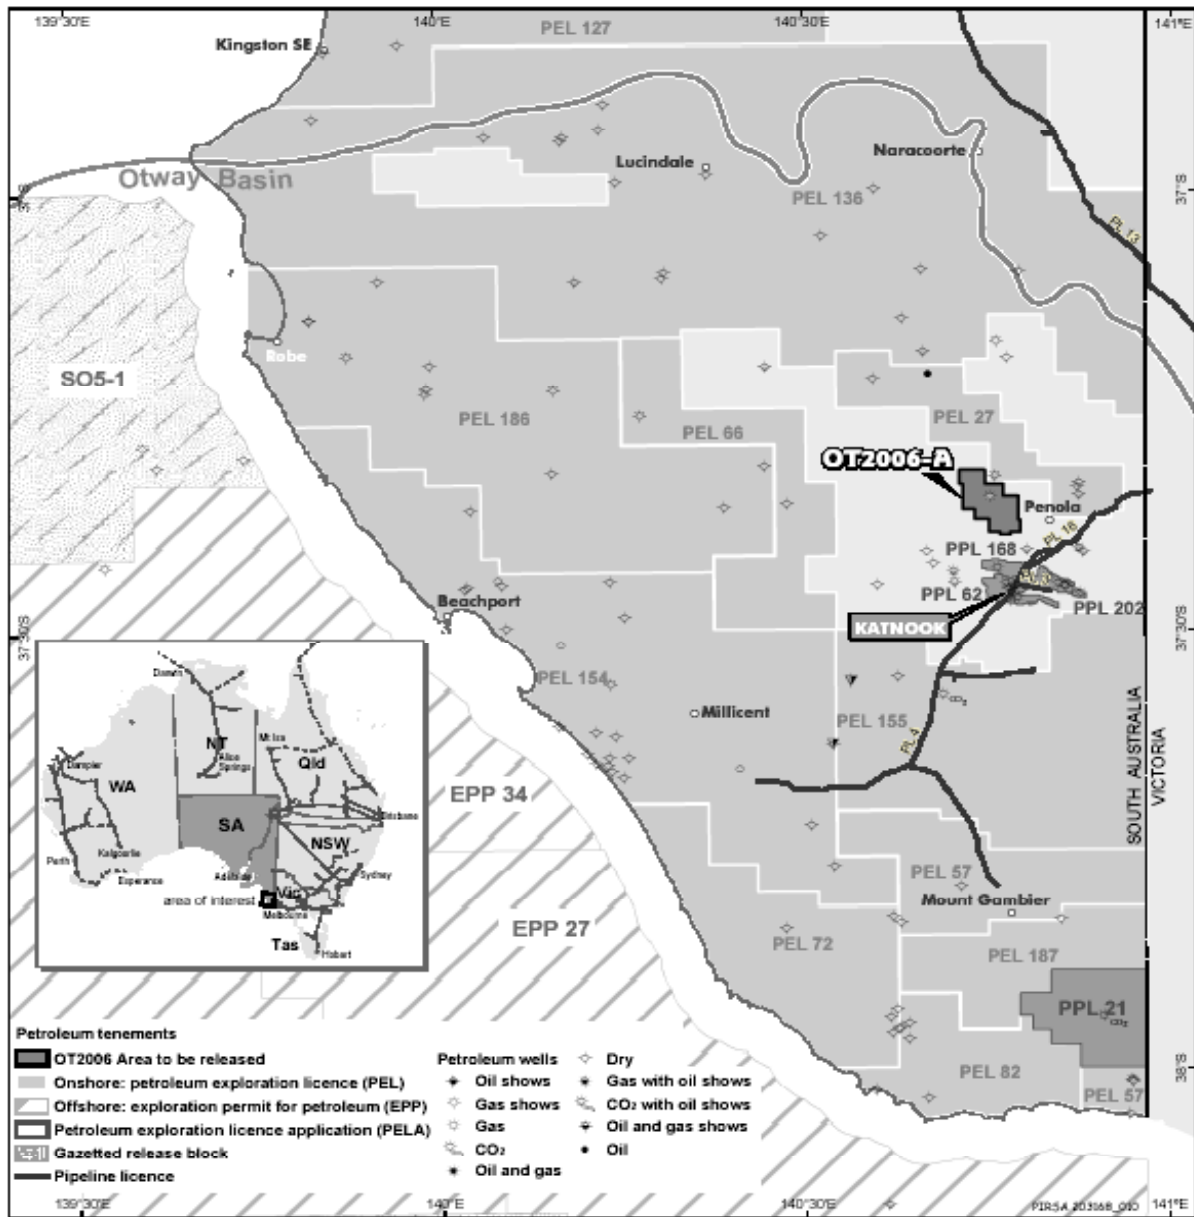

The winning bidder will be selected on the basis of the five-year work program bid. The work program must include a statement of exploratory operations the applicant proposes to carry out in each year of the first five-year licence term. The aim of the work program is to evaluate the prospectivity of the licence area and discover regulated resources. It is expected that at least one petroleum exploration well would be included in the five-year work program.

Bids will be assessed taking account of the criteria listed below. It is important to note that the timing of well drilling and seismic acquisition will be taken into account. The most important criteria for assessment of OT 2006-A work programs are:

- the timing and number of exploration wells to be drilled, including the number of potential targets to be addressed;
- the amount and timing of 3D seismic acquisition;
- well evaluation programs (e.g. logging and coring program);
- the extent to which the applicant is prepared to guarantee the program. (Note that in addition to the guaranteed work program, the work for any subsequent licence year becomes guaranteed upon entry to that licence year);
- adequacy of financial resources and technical expertise available to the applicant; and
- the applicant's past performance in fulfilling work program commitments elsewhere in Australia.

In addition to the above criteria, where bids are similar, the benefits of the introduction of new explorers and new exploration technologies into the Otway Basin (including intention with regard to establishing an office in South Australia) may be taken into account. In the case of cascading bids (i.e. multiple or hybrid bids by one applicant or joint venture), only the highest bid will be considered.

The Minister will announce the winning bidder, together with details of the work program.

Dated 1 May 2006.

NOTICE TO MARINERS

NO. 23 OF 2006

South Australia—Spencer Gulf—Port Bonython—Restricted Areas

MARINERS are advised that following a number of reported intrusions of small craft into the restricted areas as set out in Schedule 5, No. 52 of the Harbors and Navigation Act Regulations 1994, the accompanying chart defines the areas subject to the following Controls, as set out in Schedule 4—Restricted Areas—Controls, Part 4, Reg. (2) 1, 4.

Control 1: A person must not take a vessel into the specified waters or cause or permit a vessel to enter or remain in the specified waters.

Control 4: A person must not ski, aquaplane or be towed in any manner by a vessel in the specified water.

SPENCER

GULF

The controls in the zones indicated are as follows:

Port Bonython Zone 1: Controls 1 and 4.

Port Bonython Zone 2: Controls 1 and 4 but only while the berth operation signal at the seaward end of the jetty is signalling a single red light flashing at an approximate rate of one flash per second.

Port Bonython Zone 3: Controls 1 and 4 but only while the berth operations signal at the seaward end of the jetty is signalling two red lights (in a vertical line 3 m apart) flashing at an approximate rate of one flash per second (so that together they flash at an approximate rate of two flashes per second).

Mariners are further advised that penalties apply to the breach of this regulation.

10	Fee payable before grant of accreditation
11	Fees generally

Schedule 1—Fees

1—Short title

These regulations may be cited as the *Primary Produce (Food Safety Schemes) (Seafood) Regulations 2006*.

2—Commencement

These regulations will come into operation on 1 July 2006.

3—Interpretation

In these regulations—

accredited producer means a bivalve mollusc producer accredited under these regulations;

Act means the *Primary Produce (Food Safety Schemes) Act 2004*;

approved area—see regulation 8(2);

aquaculture licence has the same meaning as in the *Aquaculture Act 2001*;

bivalve molluscs includes cockles, clams, mussels, oysters and pipis, but does not include scallops;

bivalve mollusc producer means the holder of an aquaculture or fishery licence authorising the farming or taking of bivalve molluscs;

fishery licence has the same meaning as in the *Fisheries Act 1982*;

restricted area—see regulation 8(2);

spat means a mollusc that would pass through a screen with a mesh size of 10 millimetres by 10 millimetres;

Standard 4.2.1 means Standard 4.2.1 (Primary Production & Processing Standard for Seafood) of the Food Standards Code, within the meaning of the *Food Act 2001*, and includes other documents called up by that Standard;

wet storage means the storage of live bivalve molluscs in containers (not located in the sea) of natural or synthetic seawater.

4—Seafood food safety scheme

- (1) These regulations establish a food safety scheme (the *seafood food safety scheme*) for the activities of bivalve mollusc producers constituted of the production of primary produce consisting of or involving bivalve molluscs intended for sale or supply for human consumption.
- (2) The Minister is the accreditation body for the seafood food safety scheme.

5—Obligation to be accredited

- (1) For the purposes of section 12 of the Act, a bivalve mollusc producer must not engage in a class of activities to which the seafood food safety scheme applies without an accreditation.
- (2) A bivalve mollusc producer need not hold an accreditation if all bivalve molluscs farmed or taken by the producer comprise spat.

6—Requirements for accreditation

For the purposes of sections 15(1)(c) of the Act, an applicant for accreditation must satisfy the Minister that the applicant has the capacity, or has made or proposes to make appropriate arrangements, to satisfy the requirements of the Act and these regulations applicable to the activities to be accredited.

7—Approved food safety arrangements for bivalve molluscs

- (1) An accredited producer must have a food safety arrangement approved by the Minister for activities to which the seafood food safety scheme applies.
- (2) The food safety arrangement must—
 - (a) comply with the requirements for a documented food safety management system set out in Division 3 of Standard 4.2.1; and
 - (b) be designed to ensure compliance by the producer with regulation 8; and
 - (c) be designed to ensure that the producer meets his or her obligations under the *Food Act 2001* relating to ensuring that food for sale is both safe and suitable for human consumption.
- (3) An accredited producer who farms bivalve molluscs under an aquaculture licence need not have a food safety arrangement approved by the Minister in relation to those farming activities if all bivalve molluscs farmed by the producer are moved to the licence area of another accredited producer who farms bivalve molluscs under an aquaculture licence for further development prior to the molluscs being harvested for sale.

8—Specific requirements

- (1) An accredited producer must ensure that the following requirements are complied with in respect of activities to which the seafood food safety scheme applies:
 - (a) bivalve molluscs of a particular species (other than spat) must not be sold or supplied for human consumption unless they have been harvested for that purpose from a part of an approved area that is open in respect of the species;
 - (b) bivalve molluscs of a particular species (other than spat) must not be brought into an approved area unless, immediately before being brought into the area, they were taken from—
 - (i) another approved area; or
 - (ii) a part of a restricted area that is open in respect of the species;
 - (c) bivalve molluscs of a particular species taken from a part of an approved area that is closed in respect of the species, or from a part of a restricted area that is open in respect of the species, must not be brought into an approved area except in accordance with a written authorisation (a *relaying authorisation*) granted to the producer by the Minister and, while in the approved area, the molluscs—
 - (i) must be kept in an area that is clearly marked as a relaying area; and
 - (ii) must be adequately separated from other bivalve molluscs so as to avoid cross contamination; and
 - (iii) must be subjected to a process for the reduction of pathogenic organisms or contaminants,
in accordance with the relaying authorisation;
 - (d) bivalve molluscs must not be kept in wet storage except in accordance with a written authorisation (a *wet storage authorisation*) granted to the producer by the Minister;
 - (e) bivalve molluscs that have been kept in wet storage must not be sold or supplied for human consumption unless the water in which the molluscs have been stored has been tested as required by the wet storage authorisation and found to be suitable as specified by the authorisation;
 - (f) the producer must, in accordance with a request of the Minister, supply bivalve molluscs and water samples for testing and facilitate the taking of bivalve molluscs or water samples on behalf of the Minister;
 - (g) bivalve molluscs harvested for human consumption by or on behalf of the producer on the same date from the same approved area must be stored and handled in a manner that ensures that they can be readily distinguished from bivalve molluscs harvested on a different date or from a different area and must, before being sold or supplied to another, be placed in a container labelled with—
 - (i) the name of the producer; and
 - (ii) if the producer holds an aquaculture licence—the number of the licence; and
 - (iii) if the producer holds a fishery licence—the number of the fishery licence and the number of the accreditation of the producer under these regulations; and

- (iv) the date on which the bivalve molluscs were harvested; and
 - (v) details identifying the approved area from which the bivalve molluscs were harvested;
 - (h) bivalve molluscs farmed by an accredited producer who is exempt from the requirement to have an approved food safety arrangement must not be sold or supplied for human consumption unless the molluscs have been moved to the licence area of another accredited producer who farms bivalve molluscs under an aquaculture licence for further development prior to the molluscs being harvested;
 - (i) if there is reason to believe that bivalve molluscs are unsafe or unsuitable as food within the meaning of the *Food Act 2001*, the producer must immediately notify the Minister;
 - (j) the requirements set out in Division 2 of Standard 4.2.1 (assuming the activities comprise a seafood business).
- (2) The Minister may, either by notice in the Gazette or by written notice to accredited producers who are authorised to farm or take bivalve molluscs in the area—
- (a) classify an area as an approved area or a restricted area;
 - (b) specify the period during the year when the area or parts of the area will be open (and if the Minister does not specify a period, the area will be taken to be open throughout the year);
 - (c) specify the species for which the area will be open (and if the Minister does not specify a species, the area will be taken to be open in respect of all species);
 - (d) temporarily close an approved area or restricted area or part of an approved area or restricted area absolutely or in respect of specified species.
- (3) The Minister may, by subsequent notice in the Gazette or by written notice to accredited producers who are authorised to farm or take bivalve molluscs in the area, vary or revoke a notice under subregulation (2).

9—Annual fees and returns

- (1) For the purposes of section 17 of the Act, for each year, an accredited producer must, not later than the prescribed date—
- (a) pay to the Minister the fee fixed by Schedule 1; and
 - (b) lodge with the Minister a return that conforms to the requirements of the Minister about its form, contents and the manner in which it is made.
- (2) The *prescribed date* is—
- (a) if the producer holds an aquaculture or fishery licence that is granted on an annual basis—the day and month that the licence will expire;
 - (b) if the producer holds an aquaculture or fishery licence that is granted for a period exceeding 1 year and is required to submit an annual return in connection with the licence—the day and month that the annual return must be submitted;
 - (c) in any other case—the day and month specified by the Minister by notice in writing to the accredited producer.

10—Fee payable before grant of accreditation

Before a bivalve mollusc producer is granted accreditation, the producer must pay a fee of an amount calculated by multiplying—

- (a) the annual fee that would have been payable by or on behalf of the producer had the producer been an accredited producer at the last date for payment of the annual fee; and
- (b) the proportion that the number of whole months between the grant of accreditation and the next date for payment of the annual fee bears to 12 months.

11—Fees generally

- (1) Fees are payable as set out in Schedule 1.
- (2) The Minister may waive or reduce a fee payable under these regulations if the Minister considers that appropriate in the circumstances.

Schedule 1—Fees

1—Application for accreditation or for approval of a food safety arrangement other than in conjunction with an application for accreditation	\$136
2—Application for variation of a food safety arrangement	\$136
3—Annual fee	\$131
(a) if bivalve mollusc producer holds aquaculture licence authorising farming in subtidal area	\$131 + \$107 per hectare of the licence area
(b) if bivalve mollusc producer holds aquaculture licence authorising farming in intertidal area	\$131 + \$213 per hectare of the licence area
(c) if bivalve mollusc producer holds fishery licence	\$131
4—Penalty for default in payment of annual fee or lodging of annual return	\$90

Note—

As required by section 10AA(2) of the *Subordinate Legislation Act 1978*, the Minister has certified that, in the Minister's opinion, it is necessary or appropriate that these regulations come into operation as set out in these regulations.

DEVELOPMENT ACT 1993

Salisbury (City) Development Plan—Industry Zone—Direk Plan Amendment Report—Draft for Public Consultation

NOTICE is hereby give that the City of Salisbury has prepared a draft Plan Amendment Report to amend the Salisbury (City) Development Plan as it affects the whole of the land zoned Deferred Industry on Map Sal/10 of the Development Plan, Direk.

The draft Direk Plan Amendment Report will amend the Salisbury (City) Development Plan by introducing and amending the Objectives, Principles of Development Control and the Complying Conditions Table to promote the following policy direction:

- extension of the Industry Zone to cover the area affected;
- insertion into the Industry Zone of a structure Plan for the areas affected;
- insertion of additional policies into the Industry Zone covering the area affected, including:
 - focus on Transport and Logistics uses;
 - minimum allotment sizes; and
 - vehicular access points.

The Direk Plan Amendment Report including the Statement of Investigations will be available for public inspection during normal office hours at:

City of Salisbury Council Office
12 James Street
Salisbury, S.A. 5108
www.salisbury.sa.gov.au

The draft Direk Plan Amendment Report is also available at Council's libraries throughout the City and on the above-mentioned website from Thursday, 11 May 2006 to Monday, 17 July 2006.

Written submissions regarding the draft Direk Plan Amendment Report will be accepted by Council until Monday, 17 July 2006. All submissions should be addressed to the City Manager of the

City of Salisbury at the abovementioned address. Written submissions should also clearly indicate whether the author wishes to speak on the submission at the public hearing.

Copies of all submissions received will be available for inspection by interested persons at the City of Salisbury Council Office from Tuesday, 18 July 2006 until the date of the public hearing.

The public hearing will be held at the City of Salisbury, John Harvey Gallery at the abovementioned address on Tuesday, 8 August 2006 at 7 p.m.

The public hearing may not be held if no submissions received indicate an interest in speaking at the public hearing.

Dated 11 May 2006.

PORT PIRIE REGIONAL COUNCIL

ROADS (OPENING AND CLOSING) ACT 1991

Road Closure—Ramsay Street, Port Pirie South

NOTICE is hereby given, pursuant to section 10 of the Roads (Opening and Closing) Act 1991, that the Port Pirie Regional Council proposes to make a Road Process Order to close the whole of Ramsay Street between Dawson and Hilda Streets and merge with the adjoining Pieces 1 and 2 in Filed Plan 103097, more particularly delineated and lettered 'A' in Preliminary Plan No. 06/0014. Closed road 'A' to be transferred to John Hannan Munn and Karen Mary Munn.

A copy of the plan and a statement of persons affected are available for public inspection at the offices of the Council, 115 Ellen Street, Port Pirie and the Adelaide office of the Surveyor-General, 101 Grenfell Street, Adelaide during normal office hours.

Any person is entitled to object to the proposed road process, or any person affected by the proposed closure is entitled to apply for an easement to be granted in that person's favour over the land subject to the proposed closure. Such objection or application for an easement must set out the full name and address of the person

making the objection or application and must be fully supported by reasons. Any application for an easement must give full particulars of the nature and location of the easement and where made by a person as the owner of adjoining or nearby land, specify the land to which the easement is to be annexed.

The objection or application for an easement must be made in writing to the Council, P.O. Box 45, Port Pirie, S.A. 5540, within 28 days of this notice and a copy shall be forwarded to the Surveyor-General, G.P.O. Box 1354, Adelaide, S.A. 5001. Where a submission is made, the Council will give notification of a meeting at which the matter will be considered, so that the person making the submission or a representative may attend, if so desired.

Dated 11 May 2006.
