DEVELOPMENT ACT 1993, SECTION 48: DECISION BY
THE DEVELOPMENT ASSESSMENT COMMISSION AS
DELEGATE OF THE GOVERNOR

Preamble

1. The Governor, by a decision made on 27 May 2004 and published in the *Gazette* of that date at pages 1350-1354, granted provisional development authorisation under section 48 of the Development Act 1993, for the development of a 19 storey apartment complex located at 41-51 Hindmarsh Square and 131-139 Grenfell Street (RAA Corner), incorporating environmentally sustainable development features and comprising:

- the construction of a 19 level residential apartment tower and podium (10 storeys high) containing 127 apartments, with ground and part first floor retail and office use;
- renovation of the adjacent two-storey State Heritage listed YWCA building (incorporating a cafe, gymnasium, function room, lounges and wine storage areas);
- redevelopment of the roadway on the western side of Hindmarsh Square in front of the apartment allotment; and
- a three-level basement car park extending 30 m under the Hindmarsh Square roadway (for the width of the development site only), with provision for 158 car spaces, 27 bicycle spaces, storage, plant rooms and water storage tank.

That provisional development authorisation was subject to the 22 conditions attached to the authorisation.

2. Conservatory on Hindmarsh Square Pty Ltd (formerly Grenfell Street East Pty Ltd), the person having the benefit of the development authorisation applied for an amendment to that development authorisation to amend the development which was still for a 19 storey building but contained several changes, including:

- deletion of the underground car parking intruding into the roadway of Hindmarsh Square;
- an elevated car park has been incorporated into the building at levels 2 to 5. The car park façade includes solar panels and passive ventilation. The number of car parking spaces has been reduced from 155 to 116;
- the building of 19 storeys is no longer constructed over the adjoining YWCA heritage building;
- the number of apartments is reduced from 124 to 72 and more commercial space is included with an increase from 832 m² to 3 600 m²;
- all green elements such as water retention, water saving, waste management, power generation and energy usage minimisation have been maintained or improved.

3. The proposal was the subject of an Amended Development Report and an Amended Assessment Report under section 47 of the Development Act 1993.

4. The Governor, by a decision made on 1 September 2005 and published in the *Gazette* of that date at pages 3145-3149 granted provisional development authorisation under section 48 of the Development Act 1993, for the amended development.

5. Amended proposals for the Hindmarsh Square Development were subsequently considered and approved by the Development Assessment Commission and published in the *Gazette* on 2 March 2006, 13 July 2006, 24 May 2006 and 7 June 2007.

6. Application has now been made to the Development Assessment Commission as delegate of the Governor under section 48 of the Development Act 1993, to grant an approval for the reserved matters (ii), (iii), (iv), (v) and (vi).

 - (2) works for the repair or maintenance of vessels with the capacity to handle five or more vessels at any one time or vessels 12 m or more in length.
- Dredging: removing solid matter from the bed or any marine waters by any digging or suction apparatus, but excluding works carried out for the establishment of a visual aid to navigation and any lawful fishing or recreational activity.

18. It is likely that as a condition of such licences the Environment Protection Authority will require the licensee to carry out specified environmental monitoring of water quality and to make reports of the results of such monitoring to it.

19. It is also likely that the Environment Protection Authority will require the identification to it of any vessels that visit the marina from international ports or from ports beyond Adelaide and the surrounding area, together with details of the routes travelled by such vessels (for the purpose of identifying the potential introduction of harmful marine species).

20. All works associated with the rehabilitation and remediation of the site must be undertaken in accordance with the General Environmental Duty as defined in Part 4, section 25 (1) of the Environment Protection Act 1993, the Environment Protection (Water Quality) Policy 2003 and other relevant Environment Protection Policies made under Part 5 of the Environment Protection Act 1993, the ANZECC Best Practice Guidelines for Waste Reception Facilities at Ports, Marinas and Boat Harbours in Australia and New Zealand, draft guideline Environmental Management of On-Site Remediation and other relevant Environment Protection and Authorisation publications and guidelines.

21. The proponent is advised of the General Environmental Duty under section 25 of the Environment Protection Act 1993, which requires that a person must not undertake any activity, which pollutes, or may pollute without taking all reasonable and practical measures to prevent or minimise harm to the environment.

22. The Management Plan for Acid Sulphate Soils should comply with Guidelines issued by the Coast Protection Board.

23. (a) The applicant is reminded of its obligations under the Aboriginal Heritage Act 1988, whereby during any works conducted, if an Aboriginal site, object or remains are found, authorisation from the Minister for Aboriginal Affairs and Reconciliation, is required to damage, disturb, interfere or remove the object, site or remains (pursuant to section 23 of the Aboriginal Heritage Act 1988).

- (b) The applicant should also have regard for the section 23 authorisation (December 2004) and attendant conditions signed by the Minister for Aboriginal Affairs and Reconciliation in relation to the Cape Jaffa Anchorage proposal.

24. The applicant and all agents, employees and contractors, such as construction crews, must be conversant with the provisions of the Aboriginal Heritage Act 1988, particularly the requirement to immediately contact the Department of Aboriginal Affairs and Reconciliation in the event that archaeological items (especially skeletal material) are uncovered during earthmoving.

25. The applicant and the Council after hand-over, must comply with the Public and Environmental Health Act 1987, in regard to the maintenance of suitable water quality within the marina basin (and any stormwater holding ponds) to protect public health and amenity.

26. The expression 'secondary contact recreation' includes activities such as wading, boating and fishing in which some human contact with the water may occur, but in which the probability of bodily immersion or the intake of significant amounts of water is minimal.

27. If foreign vessels are allowed to berth in the marina the proponent would need to consult with the Department for Transport, Energy and Infrastructure (Marine Safety section) to address any requirements of the Australian Quarantine Service (AQIS) and the Australian Customs Service.

28. It is recommended that the applicant approach the Kingston District Council with a view to the Council enacting of by-laws to manage activities associated with:

- The entrance channel and waterways to ensure safe navigation and to protect water quality.
- The boat ramp, washdown, slipways and hardstand.
- Refuelling facility and marine toilet pump-out facility.
- The residential development and reserves (including stormwater management devices).

29. The Kingston District Council will need to review and amend the zoning policies in the relevant Development Plan to reflect any development approved by the Governor and for future assessment and decision-making for buildings and structures not part of this provisional development authorisation.

30. Noise generated from the non-residential components of the development should not exceed:

- (1) 52dB(A) between the hours of 7 a.m. and 10 p.m. measured and adjusted at the nearest existing residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994.
- (2) 45dB(A) between the hours of 10 p.m. and 7 a.m. measured and adjusted at the nearest residential property in accordance with the Environment Protection (Industrial Noise) Policy 1994.
- (3) A short term typical maximum noise level of 60dB(A) when measured at the nearest existing residential property.

31. In a land division, provision shall be made for a set back distance of 2 m from the top of the edge treatments (for the construction of coastal protection works if required in the future).

32. A common building scheme encumbrance or equivalent device for the purpose of ensuring compliance with design standards for residential and other buildings will be required prior to the lodgement of development applications.

33. Binding legal arrangements (e.g. easements, encumbrances, charge-back arrangements etc., as appropriate) between the proponent and allotment owners must be put in place, prior to application to the Registrar-General for the issue of new Certificates of Title, to ensure financial and management responsibilities related to the maintenance of edge treatments, the design and appearance of structures and the installation of future coast protection works are clearly allocated. These arrangements should be to the reasonable satisfaction of the Development Assessment Commission.

34. Any further upgrading of the intersection of the Southern Ports Highway/Cape Jaffa Road shall be borne by the Department of Transport, Energy and Infrastructure and/or Council. The applicant will not be required to contribute to any further upgrading as this relates to the currently approved development.

35. The Minister has a specific power to require testing, monitoring and auditing under section 48C of the Development Act 1993.

Given under my hand at Adelaide, 18 October 2007.

R. BARUA, Secretary, Development
Assessment Commission

SCHEDULE 1

1. A person may only take water from a well in the Padthaway Prescribed Wells Area in accordance with the terms of a written authorisation granted by me under this Notice, or pursuant to any of the following Notices:

2. Subject to Clause 3 of this Notice, an authorisation under this Notice may be granted to the transferee of a water licence or the whole or part of the water (taking) allocation of a water licence, where:

- (a) the transferor is the holder of an authorisation granted under this Notice or any of the Notices listed in Clause 1 ('the transferor's authorisation'); and
- (b) approval is given by me to the transfer of a water licence or the whole or part of the water (taking) allocation of a water licence pursuant to the Act; and

3. Unless I determine no authorisation should be granted under this Notice, the authorisation will entitle the transferee to take:

- (a) where the transferor's authorisation is expressed as a volume, the same volume of water the transferor has foregone through the operation of Clause 2 (c) or Clause 4 of this Notice, or such lesser quantity of water I determine in my discretion is appropriate in the circumstances; or
- (b) where the transferor's authorisation is expressed in irrigation equivalents, an amount equal to the irrigation equivalents the transferor has foregone through the operation of Clause 2 (c) or Clause 4 of this Notice, or such lesser amount of irrigation equivalents I determine in my discretion is appropriate in the circumstances.

4. An authorisation granted under this Notice, or any of the Notices listed in Clause 1, will be cancelled if the person to whom the authorisation is granted no longer holds a water licence endorsed with a water (taking) allocation.
