7. The Chairman submitted 'The Deputy Electoral Commissioner, in his capacity as Research Officer has saved the Commission tens of thousands of dollars in external consultancy fees by applying his knowledge and expertise in the setting up and operation of the computer systems that assist the Commission with its deliberations'. The Chairman also provided details of the time spent by the Research Officer in the discharge of his duties. In Report No. 9 of 2006 the Tribunal considered a request from the Deputy Electoral Commissioner in relation to his work as the Research Officer for the Electoral Districts Boundaries Commission. The Tribunal maintained its previous approach that a determination regarding the appropriate allowance for the work as a Research Officer should only be made after its conclusion.

With regard to the submission made by the Deputy Electoral Commissioner the Tribunal has again utilised a consistent methodology for both the Commissioners and the Research Officer as previously used and has recognised the additional work in specifying, testing and implementing the newly developed mapping software in support of the Commission's tasks.

8. However, it must be noted that the submissions from the Chairman indicated the number of hours performed by both of the Commissioners and the Research Officer was significantly reduced from previous rounds.

9. Having regard to the nature and extent of the additional work and responsibility of the two Commissioners, the Tribunal determines that an allowance of \$5 000 shall be paid to the Electoral Commissioner and the Surveyor-General.

10. With regard to the Research Officer the Tribunal has considered the nature and extent of the additional work and responsibility and determines that an allowance of \$9 000 shall be paid to the Research Officer.

  - (b) if more than 1 candidate is required to be elected—by placing consecutive numbers beginning with the number 1 in the squares opposite the names of candidates in the order of the voter's preference for them until the voter has indicated a vote for a number of candidates equal to the number of candidates required to be elected and then, if the voter so desires, by continuing to place consecutive numbers for 1 or more additional candidates in the order of the voter's preference.
- (2) A tick or cross appearing on a ballot paper is equivalent to the number 1.
- (3) If—

  - (b) if more than 1 candidate is required to be elected—the numbers are at least consecutive up to the number of candidates required to be elected,the ballot paper is not informal and the votes are valid up to the point at which the omission or repetition occurs.
- (4) A ballot paper is not informal by reason of non-compliance with this regulation if the voter's intention is clearly indicated on the ballot paper.

### **14—Scrutineers**

- (3) If a computer program is used, the method of counting votes under Schedule 1 may be modified according to the determination of the returning officer.

## Schedule 1—Method of counting votes

### 1—Interpretation

- (1) In this Schedule—

*continuing candidate* means a candidate not already elected or excluded from the count;

*election* of a candidate means the making by the returning officer of a provisional declaration that the candidate has been elected, and *elected* has a corresponding meaning;

*surplus votes* of an elected candidate means the excess (if any) over the quota of the elected candidate's votes.

- (2) For the purposes of clause 2, a reference to votes of or obtained or received by a candidate includes votes obtained or received by the candidate on transfer under that clause.

### 2—Method of counting votes

The conduct of the counting of the votes in an election will occur according to the following method:

- (a) the number of first preference votes given for each candidate and the total number of all such votes must be ascertained and a quota determined by—
- (i) dividing the total number of first preference votes by 1 more than the number of candidates required to be elected; and
  - (ii) increasing the quotient so obtained (disregarding any remainder) by 1,
- and, if a candidate has received a number of first preference votes equal to or greater than the quota, the returning officer must make a provisional declaration that the candidate has been elected;
- (b) if the total number of all first preference votes does not exceed 150, the number of votes of a particular kind contained in the ballot papers will, for the purposes of this clause (including paragraph (a)), be taken to be the number obtained by multiplying the number of votes of that kind contained in the ballot papers by 100;
- (c) unless all the vacancies have been filled, the surplus votes of each elected candidate must be transferred to the continuing candidates as follows:
- (i) the number of surplus votes of the elected candidate must be divided by the number of first preference votes received by that candidate and the resulting fraction will be the transfer value;
  - (ii) the total number of the first preference votes for the elected candidate that are contained in ballot papers that express the next available preference for a particular continuing candidate must be multiplied by the transfer value, the number so obtained (disregarding any fraction) must be added to the number of first preference votes of the continuing candidate and all those ballot papers must be transferred to the continuing candidate,

and, if a continuing candidate has received a number of votes equal to or greater than the quota on the completion of a transfer, the returning officer must make a provisional declaration that the candidate has been elected;

- (d) unless all the vacancies have been filled, the surplus votes (if any) of a candidate elected under paragraph (c), or elected subsequently under this paragraph, must be transferred to the continuing candidates in accordance with paragraph (c)(i) and (ii) and, if a continuing candidate has received a number of votes equal to or greater than the quota on the completion of a transfer, the returning officer must make a provisional declaration that the candidate has been elected;
- (e) if a continuing candidate has received a number of votes equal to or greater than the quota on the completion of a transfer under paragraph (c) or (d) of the surplus votes of a particular elected candidate, no votes of any other candidate may be transferred to the continuing candidate;
- (f) for the purposes of the application of paragraph (c)(i) and (ii) in relation to a transfer under paragraph (d) or (h) of the surplus votes of an elected candidate, each ballot paper of the elected candidate that was obtained on a transfer under this clause must be dealt with as if any vote it expressed for the elected candidate were a first preference vote, as if the name of any other candidate previously elected or excluded had not been on the ballot paper and as if the numbers indicating subsequent preferences had been altered accordingly;
- (g) if, after the counting of first preference votes or the election of a candidate and the transfer of the surplus votes (if any) of the elected candidate that are capable of being transferred, no candidate has, or less than the number of candidates required to be elected have, received a number of votes equal to the quota, the candidate who has the fewest votes must be excluded and all the excluded candidate's votes must be transferred to the continuing candidates as follows:
  - (i) the total number of the first preference votes for the excluded candidate that are contained in ballot papers that express the next available preference for a particular continuing candidate must be transferred, each first preference vote at a transfer value of 1, to the continuing candidate and added to the number of votes of the continuing candidate and all those ballot papers must be transferred to the continuing candidate;
  - (ii) the total number (if any) of other votes obtained by the excluded candidate on transfers under this clause must be transferred from the excluded candidate in the order of the transfers on which they were obtained, the votes obtained on the earliest transfer being transferred first, as follows:
    - (A) the total number of votes transferred to the excluded candidate from a particular candidate that are contained in ballot papers that express the next available preference for a particular continuing candidate must be multiplied by the transfer value at which the votes were so transferred to the excluded candidate;
    - (B) the number so obtained (disregarding any fraction) must be added to the number of votes of the continuing candidate;
    - (C) all those ballot papers must be transferred to the continuing candidate;

- (h) if a continuing candidate has received a number of votes equal to or greater than the quota on the completion of a transfer under paragraph (g) or (i) of votes of an excluded candidate, the returning officer must make a provisional declaration that the candidate has been elected and, unless all the vacancies have been filled, the surplus votes (if any) of the candidate so elected must be transferred in accordance with paragraph (c)(i) and (ii), except that, if the candidate so elected is elected before all the votes of the excluded candidate have been transferred, the surplus votes (if any) of the candidate so elected must not be transferred until the remaining votes of the excluded candidate have been transferred in accordance with paragraph (g)(i) and (ii) to continuing candidates;
- (i) subject to paragraph (k), if, after the exclusion of a candidate and the transfer of the votes (if any) of the excluded candidate that are capable of being transferred, no continuing candidate has received a number of votes greater than the quota, the continuing candidate who has the fewest votes must be excluded and his or her votes transferred in accordance with paragraph (g)(i) and (ii);
- (j) if a candidate is elected as a result of a transfer of the first preference votes of an excluded candidate or a transfer of all the votes of an excluded candidate that were transferred to the excluded candidate from a particular candidate, no other votes of the excluded candidate may be transferred to the candidate so elected;
- (k) in respect of the last vacancy for which 2 continuing candidates remain, the returning officer must make a provisional declaration that the continuing candidate who has the larger number of votes has been elected despite the fact that number is below the quota and, if those candidates have the same number of votes, the candidate with the larger number of votes at the last preceding count or transfer will be taken to be elected and, if the number of votes at that count or transfer was equal, the returning officer must, in the presence of any scrutineers who may be present, draw lots to determine which of the candidates is to be elected;
- (l) despite any other provision of this clause, if, on the completion of a transfer of votes under this clause, the number of continuing candidates is equal to the number of remaining unfilled vacancies, the returning officer must make a provisional declaration that those candidates have been elected;
- (m) for the purposes of this clause—
  - (i) the order of election of candidates will be taken to be in accordance with the order of the count or transfer as a result of which they were elected, the candidates (if any) elected on the count of first preference votes being taken to be the earliest elected; and

- (ii) if 2 or more candidates are elected as a result of the same count or transfer, the order in which they will be taken to have been elected will be in accordance with the relative numbers of their votes, the candidate with the largest number of votes being taken to be the earliest elected but, if any 2 or more of those candidates each have the same number of votes, the order in which they will be taken to have been elected will be taken to be in accordance with the relative numbers of their votes at the last count or transfer before their election at which each of them had a different number of votes, the candidate with the largest number of votes at that count or transfer being taken to be the earliest elected and, if there has been no such count or transfer, the returning officer must, in the presence of any scrutineers who may be present, draw lots to determine the order in which they will be taken to have been elected;
- (n) subject to paragraphs (o) and (p), if, after a count or transfer under this clause, 2 or more candidates have surplus votes, the order of transfers of the surplus votes of those candidates will be in accordance with the relative sizes of the surpluses, the largest surplus being transferred first;
- (o) subject to paragraph (p), if, after a count or transfer under this clause, 2 or more candidates have equal surpluses, the order of transfers of the surplus votes of those candidates will be in accordance with the relative numbers of votes of those candidates at the last count or transfer at which each of those candidates had a different number of votes, the surplus of the candidate with the largest number of votes at that count or transfer being transferred first but, if there has been no such count or transfer, the returning officer must, in the presence of any scrutineers who may be present, draw lots to determine the order in which the surpluses will be dealt with;
- (p) if, after a count or transfer under this clause, a candidate obtains surplus votes, those surplus votes will not be transferred before the transfer of surplus votes obtained by any other candidate on an earlier count or transfer;
- (q) if the candidate who has the fewest votes is required to be excluded and 2 or more candidates each have the fewest votes, whichever of those candidates had the fewest votes at the last count or transfer at which each of those candidates had a different number of votes will be excluded but, if there has been no such count or transfer, the returning officer must, in the presence of any scrutineers who may be present, draw lots to determine which candidate will be excluded;
- (r) if a candidate is elected by reason that the number of first preference votes received, or the aggregate of first preference votes received and all other votes obtained on transfers under this clause, is equal to the quota, all the ballot papers expressing those votes must be set aside as finally dealt with;
- (s) a ballot paper must be set aside as exhausted where on a transfer it is found that the paper expresses no preference for a continuing candidate;
- (t) for the purposes of this clause, a transfer under paragraph (c), (d) or (h) of the surplus votes of any elected candidate, a transfer in accordance with paragraph (g)(i) of all first preference votes of an excluded candidate or a transfer in accordance with paragraph (g)(ii) of all the votes of an excluded candidate that were transferred from a particular candidate will each be regarded as constituting a separate transfer.
