**GOVERNMENT OF SOUTH AUSTRALIA****COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO  
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS  
ENDED 31 MARCH 2007 AND 31 MARCH 2006*****Receipts******Taxation***

Timing effects account for the lack of growth in payroll tax receipts between March quarter 2006 and March quarter 2007. The March quarter result a year ago was inflated by delayed receipts relating to the December quarter 2005. For the nine months to March 2007 compared with a year ago, there is growth in payroll tax collections reflecting employment and earnings growth.

Higher levels of stamp duty receipts in the March quarter 2007 compared with the same period a year ago mainly reflect underlying strength in the property market and, to a lesser extent, higher share duty receipts.

The higher land tax collections in the March quarter 2007 compared with the March quarter 2006 reflects the timing of land tax payments by the South Australian Housing Trust. In 2005-2006, the Housing Trust paid its land tax liability in the December quarter but in 2006-2007, the payment was made in the March quarter. These timing issues do not affect the comparison of land tax collections for the first nine months of 2006-2007, compared with the same period a year ago. There is growth in land tax receipts for the nine months to 31 March 2007 compared with the same period a year earlier because assessable land values have continued to appreciate.

Gambling tax receipts were higher in the March quarter of 2007, compared with the same period a year ago, reflecting higher expenditure on gaming machines in hotels and clubs.

Debits tax was abolished from 1 July 2005 but some liabilities incurred before that date were not settled until the latter half of 2005. Negative receipts in the nine months to March 2007 relate to adjustments to amounts paid earlier.

***Royalties***

Timing issues also affect royalty comparisons. The March quarter 2006 result effectively included two quarterly payments in respect of Olympic Dam whereas the March quarter 2007 result includes no royalty payment from Olympic Dam.

The nine month comparison is also affected by the timing of Olympic Dam royalty payments (with three payments in the nine months to March 2006 compared with two payments in the nine months to March 2007). Notwithstanding these timing differences, royalty revenue has increased in the nine months to March 2007, compared with the same period a year ago, mainly reflecting higher oil prices impacting on Cooper Basin royalties.

### *Commonwealth – General Purpose Grants*

Growth in general purpose grants between the first nine months of 2006-2007 and the same period of 2005-2006 is not indicative of underlying GST revenue growth. Nor is the growth between the March quarter 2007 and March quarter 2006.

This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth at the commencement of a financial year rather than in accordance with the actual pattern of monthly GST collections.

Full year GST revenue estimates may also be revised during the year but the monthly payment profile is not adjusted retrospectively, although it may be adjusted prospectively. While this achieves consistency with the revised full year estimate, the pattern of disbursements through the year will differ from one year to another due to differences in payment profiles that do not reflect actual GST collection patterns.

Cash receipts are also affected by adjustments for over and under payments in prior periods. Accordingly, it is not possible to extrapolate *pro-rata* the likely full year outcome from year-to-date quarterly receipts.

Comparisons of general purpose grant revenue in the first nine months of 2006-2007 compared with the same period a year ago are also affected by the cessation of competition grants on 30 June 2006. The Commonwealth paid competition grants amounting to \$41.5 million to South Australia in the nine months to March 2006; there is no equivalent receipt in the nine months to March 2007.

### *Commonwealth – Specific Purpose Grants*

The lower level of Commonwealth Specific Purpose Payments in the first nine months of this year, compared with the same period last year, reflects the finalisation in 2005-2006 of debt redemption assistance grants from the Commonwealth. This also explains the lower level of receipts in the March quarter 2007 compared with the March quarter 2006.

### *Other Receipts*

Other receipts are lower in the nine months ended 31 March 2007 compared with the same period last financial year mainly due to SA Water's repayment of equity capital contribution in July 2005 in line with the 2005-2006 Budget. Proceeds from the sale of the CBA Lease Vehicles in the September 2005 quarter were a once-off receipt and as such also contribute to this variation.

### **Payments**

Payments have been made pursuant to the *Appropriation Act 2006* and in accordance with various Acts for which specific appropriation has been authorised.

Payments made from the Consolidated Account during the third quarter of 2006-2007 were higher than the same period in 2005-2006.

This higher level of payments was generally in line with the higher budgeted appropriation for 2006-2007, compared with 2005-2006.

The SA Water Community Service Obligation payment included in the Administered Items for the Department of Primary Industries and Resources in 2005-2006 was transferred to the Administered Items for the Department of Treasury and Finance during 2006-2007 accounting for the variations in the payments for the nine months ended 31 March 2007 compared with the same period last financial year for these purposes respectively.

On 18 September 2006, Cabinet approved the abolition of the Department for Administrative and Information Services (DAIS), effective 31 December 2006. Cabinet approved the DAIS business units to be transferred to four recipient agencies (Department of Treasury and Finance, Department of the Premier and Cabinet, Attorney-General's Department and the Department for Transport, Energy and Infrastructure). This accounts for the variation in payments for the three months and nine months ended 31 March 2007 compared with the same periods last year for these purposes.

The SA Ambulance Service payments included in the Administered Items for the Department of Health in 2005-2006 are included in the Department of Health in 2006-2007. Along with higher budgeted appropriation for 2006-2007, compared with 2005-2006 for the Department of Health, this transfer of appropriation between purposes accounts for the variation in payments for the nine months ended 31 March 2007 compared with the same period last year for these purposes.

#### **Note**

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, that comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.
