DEVELOPMENT ACT 1993, SECTION 48: DECISION BY THE DEVELOPMENT ASSESSMENT COMMISSION AS DELEGATE OF THE GOVERNOR

Preamble

1. On 25 January 2006 the Minister for Urban Development and Planning gave notice in the *Government Gazette* that he was of the opinion that it was appropriate for the proper assessment of development of major environmental, social or economic importance that section 46 of the Development Act 1993, applied to any development of a kind listed in Schedule 1 of that notice in the parts of the State listed in Schedule 2 of that notice.

2. A proposal from Bradken Resources Pty Ltd (hereafter 'the proponent') to upgrade and expand an existing foundry located on Cromwell Road in Kilburn was the subject of a development application lodged in March 2006.

3. In accordance with the declaration referred to in paragraph 1 of the preamble of this Notice, the application has been under consideration under Division 2 of Part 4 of the Development Act 1993. The proposal has been the subject of a Public Environmental Report and an Assessment Report under sections 46 and 46C of the Development Act 1993, and is hereafter referred to as the 'proposed Major Development'.

4. On 13 December 2007, the Governor granted a provisional development authorisation subject to conditions and reserved matters.

5. Application was made to the Development Assessment Commission as delegate of the Governor, for a decision regarding a variation for the proposed development. The proponent sought to make several variations to the current development approval for the Bradken Foundry—Upgrade and Expansion project, primarily related to changes in construction timing, internal spaces, height and width reduction of some sheds and several technical details. Approval was granted on 20 October 2008.

6. The proponent has now sought to satisfy the reserved matters relating to the Construction Environmental Management Plan and Environmental Management and Monitoring Plan as required in Decision (b) (iii) by the Governor. The Development Assessment Commission is satisfied that the amended development does not require the preparation of a further or amended Environmental Impact Statement, and that the amended proposal does not change the essential nature of the development.

Decision

PURSUANT to section 48 of the Development Act 1993 and with the advice and consent of the Executive Council, and having due regard to the matters set out in section 48 (5) and all other relevant matters, I:

- (a) grant a provisional development authorisation in relation to the proposed major development, subject to the conditions and notes to the proponent below;
- (b) pursuant to section 48 (6) and Regulation 64 (1) reserve my decision on the following matters:
 - (i) compliance with the Building Rules in relation to all aspects of the proposed major development (refer to Notes to the applicant below for further information);
 - (ii) additional information shall be provided to the Environment Protection Authority prior to the commencement of any demolition or construction related to this Provisional Development Authorisation, to demonstrate that the proposed method of stormwater disposal via an infiltration basin on soils will not adversely impact on underlying soils and groundwater. In the event that this is not able to be demonstrated, the proponent will be required to install a lining system to the pond that is acceptable to the Environment Protection Authority and discharge excess stormwater to the North Arm East Channel;
- (c) specify all matters relating to this provisional development authorisation as matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached; and
- (d) specify for the purposes of section 48 (11) (b) the period of two years from the date hereof as the time within which substantial work must be commenced on site, failing which I may cancel this authorisation.

Conditions of Approval

1. Except where minor amendments may be required by other legislation, or by conditions imposed herein, the proposed major development shall be undertaken in strict accordance with:

- (a) The following documents:
 - Development application dated March 2006 (except to the extent that it may be varied by a subsequent document in this paragraph).
 - Public Environmental Report, Proposed Upgrading and Expansion of an Existing Foundry, 80 Cromwell Road, Kilburn, prepared by Bradken Resources Pty Ltd, dated February 2007 (except to the extent that it may be varied by a subsequent document in this paragraph).
 - Response Document, prepared by Bradken Resources Pty Ltd for the Proposed Expansion and Upgrading of an Existing Foundry, 80 Cromwell Road, Kilburn, dated June 2007.
 - Assessment Report prepared by the Minister for Urban Development and Planning, dated November 2007.
 - Amendment to major development approval application letter dated 26 June 2008, File: F2618.
 - Amendment to major development approval application letter dated 19 September 2008, Ref. No.: KG-SW-00-19092008.
 - 'Construction Environmental Management Plan (Revision 2)' and 'Environmental Management and Monitoring Plan (Revision 7)' as have been prepared by the proponent to the reasonable satisfaction of the Environment Protection Authority, as contained in the letter EPA 05/11365 and EPA Authorisation 13845.

2. The proponent shall submit further information and application(s) in relation to the matters that have been reserved.

3. Construction and overall operational noise shall not exceed:

- (a) 58dB(A) between the hours of 7 a.m. and 10 p.m. when measured and adjusted at the nearest existing residential dwelling in accordance with the current environment protection noise policy; and
- (b) 50dB(A) between the hours of 10 p.m. and 7 a.m. when measured and adjusted at the nearest existing residential dwelling in accordance with the current environment protection noise policy.

4. All reasonable and practicable measures shall be employed so that work practices achieve a short term maximum noise level of 60dB(A) when measured and adjusted at the nearest existing residential dwelling in accordance with the current environment protection noise policy.

5. The proponent shall submit a post construction noise compliance assessment report (to the reasonable satisfaction of the Environment Protection Authority) prepared by an acoustic engineer* to verify that the above noise criteria are achieved. This must be submitted to the Environment Protection Authority within three months of completion of the development.

(* an acoustic engineer is defined as someone who is eligible for membership of both the Australian Institute of Engineers and the Australian Acoustical Society).

6. The noise reduction measures specified in the following sections of the Bradken Public Environmental Report, February 2007, shall be implemented as per the specifications below:

- (a) Volume 1, Section 5.4.2.1, pp. 51-53;

- Volume 2, Appendix M, 'Construction Environmental Management Plan', October 2006.

8. Noisy construction activities shall be limited to the following times:

- Monday to Saturday: 7 a.m. to 7 p.m.
- Sunday and Public Holidays: If Sunday or Public Holiday work is essential, noise should be kept to a minimum. In these cases work shall not start before 9 a.m. and shall be finished by 7 p.m.

9. All on-site operations shall comply with Work Instruction BK3-E-005 Environmental Noise Control:

- scheduling of particularly noisy machines after 9 a.m. e.g. Jackhammers, Rock Breakers, Piling equipment;
- locating equipment so that impact on neighbouring premises is minimised;
- between work periods, shut down or throttle to a minimum, machines such as backhoes, cranes, bobcats, loaders and generators;
- all equipment to be properly maintained, with special attention to mufflers and other noise control devices. Equipment failing to meet acceptable noise levels shall not be used; and
- preparation of a Traffic Management Plan in conjunction with contractors, suppliers and the Local Government to minimise traffic impacts.

The above construction noise requirements shall be put into any tender contract conditions.

10. An Energy audit shall be undertaken and submitted to the Sustainability and Climate Change Division of the Department of Premier and Cabinet within 12 months of commencement of operation of the new plant, to assess:

- (a) electricity consumption per tonne melted by the Electric Arc Furnace to confirm the performance claimed by the manufacturer; and
- (b) total emissions per tonne of dressed casting.

11. Upon commissioning of the Electric Arc Furnace and plant equipment, appropriate testing shall be carried out to verify the data used to predict the ground level concentrations in the Public Environmental Report.

12. Scrap steel stored on-site shall be located within the designated scrap steel storage area within the Furnace Building.

13. The cutting of scrap steel shall only be carried out within an area whereby any generated fume or particulate is extracted to pollution control equipment.

14. Particulate monitoring (PM10) shall be undertaken to record the particulate levels at the site boundary pre and post expansion and during the construction phase.

15. The proponent shall demonstrate that the proposed ventilation system prevents the escape of fugitive material under all operating conditions.

16. The Furnace Building (incorporating the Electric Arc Furnace, mould pouring and mould cooling operations) shall be managed and extracted to an extent whereby the building remains under negative pressure to limit the generation of fugitive emissions.

17. Mould pouring and cooling shall occur within the Furnace Building whereby fumes, odours and particulates from cooling moulds are extracted to pollution control equipment.

18. Used foundry sand shall be stored within a designated bunker or within an enclosure.

19. Where material is stored within a bunker, the material shall remain below the height of the storage bunker walls.

20. The materials stored in bunkers shall be suitably conditioned by moisture or by some other means to prevent the generation of fugitive emissions during handling.

21. Landscaping of the site shall commence prior to demolition and construction activities and when established, must be maintained in good health and condition at all times. Plants must be replaced when dead or become seriously diseased within the first growing season after death or becoming seriously distressed. Plants used shall be mature and quick growing to ensure screening is achieved in a timely manner.

22. Inert clay soil shall be used to cap the screening mounds.

23. All external lights shall be directed and shielded in such a way as to prevent undue glare from the site and any lighting that is not in use for operational or security reasons shall be switched off.

25. The following building finishes shall be used:

- the walls section to an elevation of up to 3 m from ground surface to be finished in colorbond 'shale grey';
- the wall sections above 3 m and up to the roof to be finished in colorbond 'surf mist'; and

NOTES TO PROPONENT

1. All matters relating to this provisional development authorisation are matters in respect of which conditions of this authorisation may be varied or revoked, or new conditions attached.

2. A decision on building rules will only be made after a Building Rules assessment and certification has been undertaken and issued by a Private Certifier or the City of Port Adelaide Enfield, in accordance with the provisions of the Development Act 1993 and after the Minister for Urban Development and Planning receives a copy of all relevant certification documentation, as outlined in Regulation 64 of the Development Regulations 1993.

3. Pursuant to Development Regulation 64, the applicant is advised that the City of Port Adelaide Enfield or private certifier conducting a Building Rules assessment must:

4. The City of Port Adelaide Enfield or private certifier undertaking the Building Rules assessment must ensure that the assessment and certification are consistent with this provisional development authorisation (including Conditions or Notes that apply in relation to this provisional development authorisation).

5. An application to vary the Major Development or any of its components may be submitted. Whether a new Public Environmental Report and Assessment Report need to be prepared will depend on the nature of the variation and the lapse of time since the preparation of the Public Environmental Report.

6. The applicant is reminded of its general environmental duty, as required by section 25 of the Environment Protection Act 1993, to take all reasonable and practical measures to ensure that the activities on the whole site, including during construction, do not pollute the environment in a way which causes or may cause environmental harm.

7. An environmental authorisation exists for the foundry operation at this development site. The applicant is required to contact the Environment Protection Authority before acting on this development authorisation to ascertain the need for any additional or amended licensing requirements. Additional conditions may be attached to any amended licence granted by the Environment Protection Authority.

8. Any information sheets, guidelines documents, codes of practice, technical bulletins etc. that are referenced in this response have been provided to the planning authority or may be accessed on the following website:

<http://www.environment.sa.gov.au/epa/pub.html>.

9. The 'Construction Environmental Management Plan' and 'Environmental Management and Monitoring Plan' should be prepared taking into consideration relevant Environment Protection policies and guideline documents, including, the Environment Protection (Air Quality) Policy 1994, the Environment Protection (Water Quality) Policy 2003, the Occupational Health and Safety Regulations, Environment Protection Authority Guidelines on Odour Assessment, using odour source modelling 2003, Environment Protection Authority Handbook for Pollution Avoidance on Commercial and Residential Building Sites 2004 and the Environment Protection Authority Stormwater Pollution Prevention Code of Practice for the Building and Construction Industry. AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE COMPLETED 2007-08
YEAR AND THE QUARTER ENDED 30 JUNE 2008*****Receipts***

Taxation receipts are \$313 million higher than the original 2007-08 Budget estimate. This was mainly due to:

- Higher stamp duties (\$281 million)
- Higher payroll tax (\$53 million)
- Higher gaming machines tax (\$8 million)
- Lower land tax (\$30 million)

Contributions from State Undertakings (taxes, dividends and other contributions from government corporations) are \$31 million higher than the original 2007-08 Budget estimate. This was mainly due to:

- Higher Land Management Corporation dividend (\$33 million)
- Higher Land Management Corporation income tax equivalent (\$11 million)
- Higher Forestry SA dividend (\$3 million)
- Lower Transport, Energy and Infrastructure dividend (\$21 million)

Commonwealth general purpose GST revenue grants are \$59 million higher than the original 2007-08 Budget.

Fees and charges are \$24 million higher than the original 2007-08 Budget estimate. This was mainly due to:

- Higher land services fees (\$23 million)
- Higher infringement notice schemes – expiation fees (\$19 million)
- Lower court fees and fines (\$15 million)

Recoveries are \$82 million higher than the original 2007-08 Budget estimate. This is mainly due to:

- Higher return of cash to Consolidated Account – Cash Alignment Policy (\$70 million)
- Higher unclaimed monies (\$7 million)

Royalties collected are \$18 million higher than the original 2007-08 Budget estimate.

Other receipts are \$51 million higher than the original 2007-08 Budget estimate. This is mainly due to:

- Higher interest on investments (\$15 million)
- Higher sale of land and buildings (\$12 million)
- Mitsubishi Limited Grant re-payment (\$35 million)

Payments

Payments pursuant to the Appropriation Act (i.e. to agencies) are \$105 million higher than forecast in the original 2007-08 Budget. The major areas contributing to this outcome are as follows:

- Department of the Premier and Cabinet – \$15 million higher
- Minister for Tourism – \$50 million higher
- Administered Items for the Department of Treasury and Finance – \$66 million higher
- Department for Families and Communities – \$28 million higher
- Department of Education and Children's Services - \$38 million higher
- Administered Items for the Department for Environment and Heritage – \$19 million higher
- Department of Treasury and Finance - \$17 million lower
- Defence SA - \$24 million lower
- South Australia Police - \$9 million lower
- Department of Health - \$14 million lower
- Department of Further Education, Employment, Science and Technology - \$18 million lower
- Department for Transport, Energy and Infrastructure – \$33 million lower

All appropriations were paid within approved limits.

Payments pursuant to Specific Appropriation Authorised in Various Acts were in line with the original 2007-08 Budget.

Note

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, the information is purely limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.

**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS ended on
30 SEPTEMBER 2008 and 30 SEPTEMBER 2007**

*Presented by the
Honourable Kevin Foley MP
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS
ENDED 30 SEPTEMBER 2008 AND 30 SEPTEMBER 2007*****Receipts****Taxation*

Gambling taxation receipts for the September quarter 2008 were lower than for the same period in 2007-08 reflecting lower gaming machine expenditure in hotels and clubs, following the implementation of the full smoking ban in hotels and clubs from 31 October 2007.

The increase in land tax collections between September quarter 2007 and September quarter 2008 reflects growth in land values and the timing of land tax collections. September quarter land tax receipts are typically low relative to the full year estimate, as they mainly comprise the final instalment of the previous year's land tax assessment for taxpayers who choose to pay in quarterly instalments. Taxpayers who pay annually mainly pay a single amount in either the December or March quarters.

Payroll tax receipts for the September quarter 2008 were higher than the September quarter 2007 (notwithstanding the cut in the payroll tax rate from 5.25% to 5.0% and the increase in the tax-free threshold from \$504 000 to \$552 000, both of which took effect from 1 July 2008), reflecting growth in employer payrolls.

Lower levels of stamp duty receipts in the September quarter 2008 compared with the same level a year ago mainly reflect a significant downturn in property sales compared with property experience in the September quarter 2007.

Collections for the River Murray Levy for September quarter 2008 are lower than collections for September quarter 2007 due to delays in the raising of SA Water accounts to allow implementation of the Government's commitment to make ex-gratia payments in respect of 2008-09 water prices applied to water consumption before 1 July 2008.

Contributions from State Undertakings

The contributions from State Undertakings are lower in the September quarter 2008 when compared with the September quarter 2007 due to variations between the two quarters in the timing of the receipt of income tax equivalents from various agencies.

Recoveries

Recoveries for September quarter 2008 are lower than recoveries for the September quarter 2007 due to the repayment of surplus deposit account balances that occurred in the September quarter 2007. These repayments were one-off transactions.

Royalties

The higher royalty receipts between September quarter 2007 and September quarter 2008 mainly reflects higher production levels for copper and iron ore. In addition, higher oil prices and the occurrence of an additional lifting schedule in September quarter 2008 compared with September quarter 2007 mean Cooper Basin royalties are also higher.

Commonwealth – General Purpose Grants

Growth in general purpose grants between the first quarter of 2008-09 and the corresponding quarter for 2007-08 is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government at the commencement of a financial year rather than in accordance with the actual emerging monthly GST collections.

The Commonwealth in its 2008-09 Mid Year Economic and Fiscal Outlook estimates that the total GST pool will grow by around 3.8 per cent in 2008-09.

Commonwealth – Specific Purpose Grants

Specific purpose grants for the September quarter 2008 are lower than the corresponding period in 2007 mainly due to the timing of grants from the Commonwealth in respect of Legal Aid and the cessation of funding to compensate the states for the loss of revenue from company regulation.

The September quarter 2007 figure includes two quarterly payments from the Commonwealth in relation to Legal Aid whereas the September quarter 2008 figure includes only one quarterly payment. No payments have been received in relation to compensation for company regulation for the September quarter 2008, whereas for the corresponding period in 2007, three monthly payments had been received.

Payments

Payments were made pursuant to the *Supply Act 2008*, for the period from 1 July 2008 to 6 August 2008, until assent was given to the *Appropriation Act 2008* on 7 August 2008 and also in accordance with various other Acts for which specific appropriation has been authorised.

Payments made from the Consolidated Account during the first quarter of 2008-09 were higher than the same period in 2007-08.

The higher level of payments was generally in line with the higher budgeted appropriation for 2008-09 compared with 2007-08.

Note

Considerable caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. In addition, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, it should be noted that the timing of receipts and payments could be volatile within a particular year. As a result, apparently significant movements between years may only be due to changes in the timing of receipts and payments, and therefore may not have implications for the underlying budget position.

NARACOORTE LUCINDALE COUNCIL

DEVELOPMENT ACT 1993

Naracoorte Railway Yards Development Plan Amendment, (DPA) By the Naracoorte Lucindale Council— Draft for Public Consultation

NOTICE is hereby given that the Naracoorte Lucindale Council has, pursuant to section 25 of the Development Act 1993, prepared a draft DPA to amend the Naracoorte Lucindale Council Development Plan.

The draft DPA proposes to amend the Naracoorte Lucindale Council Development Plan by reviewing the current zoning of the land within the Naracoorte Railway Yards.

In its current state, and under the current Industrial zoning, the land does not offer the highest potential for development given its strategic location close to the centre of town and on one of the main road entries to the Town Centre.

The investigations conducted to inform the DPA have identified the need to rezone the subject land from Industry to a number of zones including: Town Centre (Naracoorte), Public Purpose and Infrastructure to facilitate the strategic and appropriate development of the land with regard to the existing site conditions and land uses on the land and more generally within the locality.

The draft DPA will be on public consultation from Thursday, 5 February 2009 to Thursday, 10 April 2009.

Copies (both hard copy and electronic) of the draft DPA are available during normal office hours at the office of the Naracoorte Lucindale Council, Degaris Place, Naracoorte or can be downloaded from the Council website:

www.naracoortelucindale.sa.gov.au.

Written submissions regarding the draft DPA should be submitted not later than 5 p.m. on Friday, 10 April 2009. All submissions should be addressed to the Director of Planning and Environmental Services, Naracoorte Lucindale Council, P.O. Box 555, Naracoorte, S.A. 5271, and should clearly indicate whether you wish to be heard in support of your submission. If you wish to lodge your submission electronically, could you please email the electronic submission to council@nlc.sa.gov.au.

Copies of all submissions will be available for inspection by interested persons at the Council Offices from Monday, 13 April 2009 until the public hearing.

A public hearing will be held on Wednesday, 22 April 2009 at 6.30 p.m. in the Council Chambers, Degaris Place, Naracoorte. The public hearing will not be held if no submissions are received or if no submission has a request to be heard.

Dated 5 February 2009.
