ATTACHMENT A

Country Township Zone

The objectives and principles of development control that follow apply to the Country Township Zone shown on Map RePa/23. They are additional to those expressed for the whole of the Council area. To determine all the policies relevant to a specific kind of development, reference should be made to the objectives and principles of development control for the Country Township Zone as well as those applying generally in the Council area.

OBJECTIVE

- Objective 1: Lyrup township developed in accordance with the Lyrup Structure Plan, Map RePa/1 (Overlay 1), Enlargement D.
- Objective 2: Development to be in an orderly and compact form.

Desired Future Character

Lyrup is a small town providing services to the local community. The surrounding horticulture and River Murray frontage retain the town's compact nature.

Additional residential development is encouraged, without expansion to the town centre boundary. A variety of residential development and densities should occur within the township boundary which should maintain and enhance the country township character.

The provision of adequate services, i.e. Septic Tank Effluent Disposal Scheme (STEDS), should occur prior to further residential development of a denser nature. Denser residential development should not occur in areas not serviced by STEDS. The development of STEDS will encourage a variety of developments to occur within Lyrup, including tourism.

The improvement of infrastructure services should encourage medium density residential development, local retail services, commercial enterprises and tourism development.

PRINCIPLES OF DEVELOPMENT CONTROL*Form of Development*

- 1 Development should not be undertaken unless it is consistent with the Desired Future Character and Acceptable Uses for the zone.
- 2 The following are acceptable uses in the zone:
 - commercial enterprises;
 - community facilities;
 - educational establishment;
 - dwellings;
 - hotel;
 - motor repair station;
 - petrol filling station;
 - post office;
 - recreation area;
 - residential outbuilding;
 - shops;
 - caravan park/camping area;
 - outdoor recreation and sport facilities.

- 3 Where appropriate, a variety of residential development and densities should occur within the township zone.
- 4 Local shops and community facilities should be located along Wilson Parade and provide connection to the riverfront.
- 5 Future residential development should take place in the area bounded by Bollenhagen Place, Thayne Terrace, Beames Road, Downer Avenue and Pomeroy Crescent.
- 6 Non-residential development likely to impair the character and amenity of the township should not be undertaken.
- 7 Retail, business and commercial development in the zone should only be undertaken as a logical extension to existing activities of these types and consistent with the township's role being a location for service provision to the local area and surrounding rural district.
- 8 New commercial and industrial development should only occur in townships where there is a mechanism for waste water disposal and stormwater treatment.
- 9 The keeping of animals such as horses, cattle, pigs, goats, donkeys, wild or other large animals should not occur in country townships.
- 10 Camping area/caravan park should only be located in areas where minimal impact on surrounding development will occur.
- 11 Camping area/caravan park adjoining the Flood Zone must ensure stormwater drainage and effluent is not discharged directly in the River Murray.
- 12 Where appropriate, linkages between a camping area/caravan park, township services and recreation areas should be developed.

Appearance of Land and Buildings

- 13 Development should maintain the existing residential character and scale of the zone.
- 14 Buildings should be designed with regard to the appearance, building material, colours, siting and landscaping of existing development, so as to preserve and enhance the character of the locality.
- 15 Buildings should not be erected on any allotment so that any portion of such building or structures would be nearer to the existing boundary of a road, street or thoroughfare than 8 m.
- 16 On allotments with two road frontages, buildings should be setback from the secondary road a minimum of 3 m or in line with the existing building line.

Movement of People and Goods

- 17 Development should provide safe and convenient access for vehicles and pedestrians.
- 18 Where appropriate linkages between camping areas/caravan park, Township services and recreation areas should be developed.

Land Division

- 19 Land Division under 1 500 m² should not occur unless the proposed allotments are connected to STEDS or are of a sufficient size to provide for on-site effluent disposal.

Complying Development

- 20 Those kinds of development listed in Table RePa/1 are complying in the Country Township Zone.

Non-complying Development

- 21 The following kinds of development are non-complying in the Country Township Zone:

- Crematorium
- Dairy
- Fuel depot
- General industry
- Horse keeping
- Intensive animal keeping
- Road transport terminal
- Special industry
- Stock sales yard
- Stock slaughter works
- Water reception, storage, treatment or disposal (except where it is in the form of a recycling collection depot)
- Wrecking yard
- Public Notification

- 22 Those kinds of development listed in Principle 6 and in Table RePa/2, are assigned as Category 1 Development in the Lyrup Township Zone.

ATTACHMENT B

Policy Area 7—Civic and Retail

New PDC Development in Policy Area 7 identified on Map RePa/24 should:

- (a) be principally for offices associated with Civic uses and large scale retail providing for the sale of such items as bulky goods, furniture, hardware and haberdashery;
- (b) be developed in accordance with the Town Centre Concept Plan (Fig. TC/1) including primary access to the area being from Para Street.

New PDC Retail Development should provide a landscape buffer where it abuts the Residential Zone.

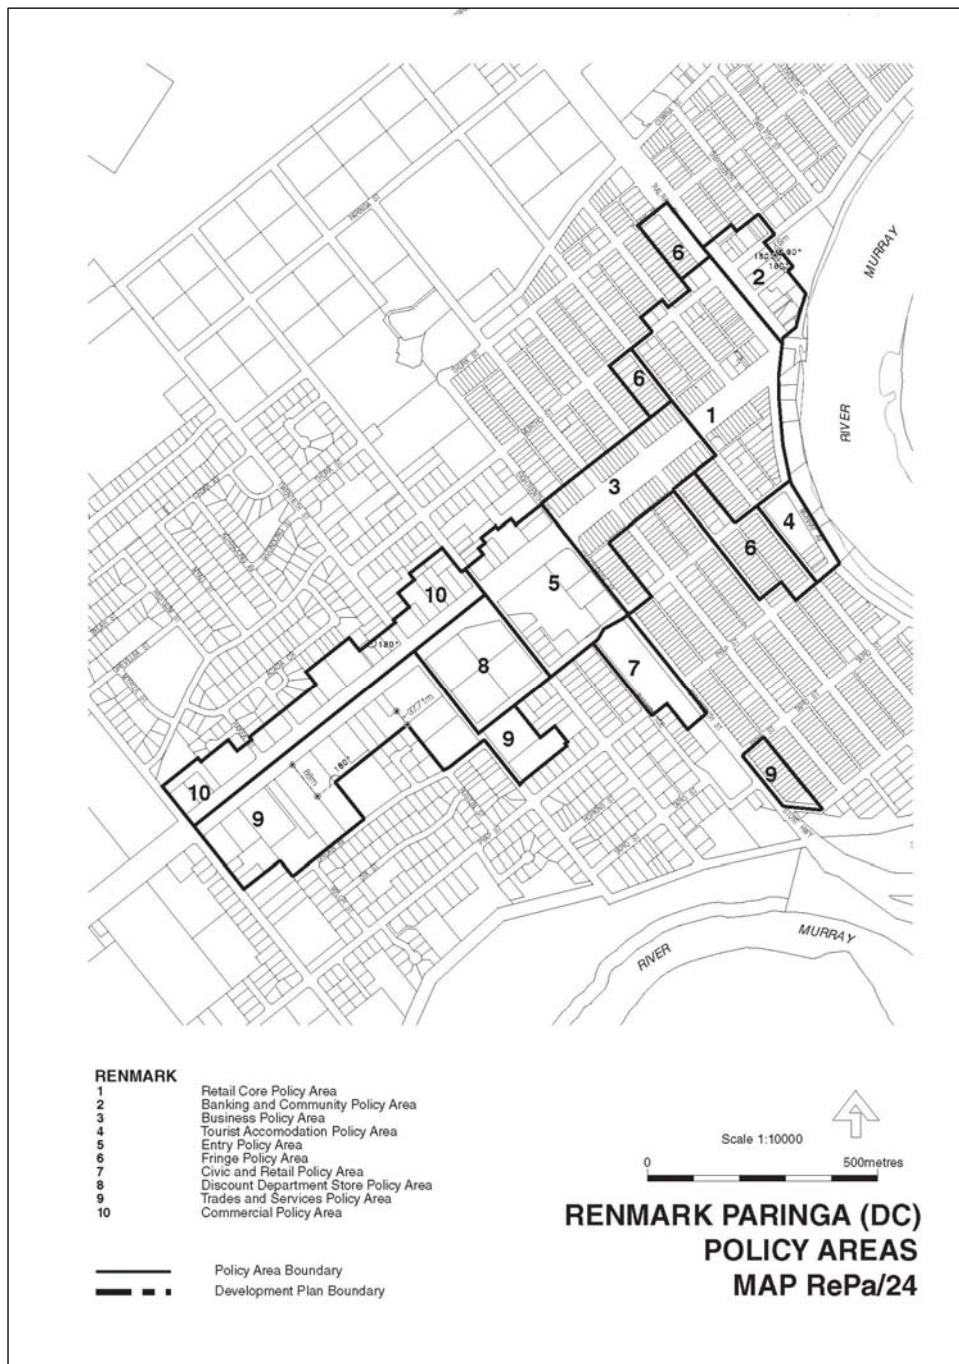

ATTACHMENT C

New PDC Whilst development should provide sufficient car parking having regard to the standards contained within Table RePa/5, either on the site of the development or on another convenient and accessible site in the locality of the development site, a lesser amount of parking may be appropriate dependant upon:

- (a) the nature of the development and the past use of the development site;
- (b) existing built form on or adjacent to the development site which dictates the development of the site in a manner which hampers the provision of on-site car parking;
- (c) the opportunity to exploit shared car parking areas between uses based upon compatible hours of peak operation; and
- (d) suitable arrangements for any parking short-fall to be met elsewhere or by other means, being entered into such as Councils car parking fund.

New PDC Public car parking areas should be developed at appropriate locations within the Zone.
