DEVELOPMENT ACT 1993: SECTION 48

*Decision by the Governor**Preamble*

1. On 5 June 2003 a major development declaration was made for the subdivision and development of land at Buckland Park near Virginia north of Adelaide. The Minister for Urban Development and Planning gave notice in the *Government Gazette* that he was of the opinion that it was appropriate for the proper assessment of the development of major environmental, social or economic importance that Section 46 of the Development Act 1993 applied to any development of a kind listed in Schedule 1 of that notice in parts of the State listed in Schedule 2 of that notice.

2. On 4 January 2007, the earlier declaration from 5 June 2003 was varied to amongst other things, expand the major development declaration.

3. The declaration was subsequently varied again by notice in the *Government Gazette* on 12 June 2008 to include some extra land parcels within the major development declaration.

- Construction of a Neighbourhood Centre as set out in the detailed drawings.

- Construction of a display village as detailed by the proponent.

Future stages of the development (2-5) which will be determined when detailed land division applications are lodged.

6. I am satisfied that an appropriate EIS and Assessment Report have been prepared in relation to the major development, in accordance with sections 46 and 46B, Division 2 of Part 4 of the Development Act 1993, and have had regard when considering the major development, to all relevant matters under Section 48 (5) of the Development Act 1993.

7. I have decided to grant provisional development authorisation to specified components of the major development under Section 48 (6) of the Development Act 1993, whilst reserving the decision on specific matters until further assessment of the major development.

8. Contemporaneously with the issuing of the Notice, I intend, pursuant to Section 48 (8) of the Development Act 1993 to delegate to the Minister:

- the power to assess the reserve matters and to issue a final development authorisation for the purposes of Section 48 (2) (b) (i) of the Act; and

Pursuant to Development Regulation 64, the proponent is especially advised that the City of Playford or private certifier conducting a Building Rules assessment must:

NURSES BOARD OF SOUTH AUSTRALIA (NBSA)

GUIDLINE ON ORDERS FOR COSTS

1. INTRODUCTION

- 1.1 The Nursing and Midwifery Board of South Australia ('the Board') has a discretionary power similar to that of the courts to order costs. The jurisdiction to make an award of costs is sourced from section 22(1) of the *Nursing and Midwifery Practice Act 2008* ('the Act'), which provides:

The Board may award such costs against a party to proceedings before it as the Board considers just and reasonable.

- 1.2 This Guideline sets out the Board's position on when it may be appropriate to order costs and the quantification of such costs. It is intended to provide guidance to Board members and promote consistency in decision-making. However, this Guideline is not intended to confine Board members to a rigidly mechanical approach as that would amount to an abdication of the discretion afforded by section 22(1) of the Act. This Guideline therefore provides no more than an indication of the course the Board may follow in deciding, on the facts of the particular case, whether to award costs and at what level.

2. NATURE OF DISCRETION TO AWARD COSTS

- 2.1 The breadth of language used in section 22(1) of the Act means that the discretion of the Board to make an order for costs against a party is absolute and unfettered.

- 2.2 Notwithstanding its breadth, by its very nature the discretion must be exercised judicially, that is to say, not arbitrarily, capriciously or so as to frustrate the legislative intent. This in itself carries with it the following restrictions as to its exercise:

2.2.1 Although discretionary, costs must necessarily be awarded on principle, not according to whim or private opinion. So it has been said that the discretion 'must be exercised on fixed principles, that is, according to rules of reason and justice, and not according to private opinion... or even benevolence... or sympathy'¹ and 'ought not to encourage arbitrary or capricious adjudication'.²

2.2.2 Judicial discretion is regulated by the principle of doing justice to the parties in each particular case, having regard to the particular circumstances of the case, including the evidence adduced, the parties' conduct and the ultimate result. There is, it is said, 'no better test than the test of what is fair and just between the parties', by reference to their conduct in connection with the litigation, including conduct which precedes it in so far as it bears on matters leading up to that litigation.³ A discretion exercised on grounds unconnected with the litigation, is not fair or just but arbitrary or capricious.

2.2.3 Any costs orders must be expressed in terms that are certain and/or ascertainable.

3. MEANING OF COSTS

3.1 Generally speaking, the term 'costs' is taken to mean:

- 3.1.1 a solicitor's professional charges in respect of legal services rendered to a client; and
- 3.1.2 disbursements or out-of-pocket expenses incurred in the performance of those services.

3.2 Costs, broadly speaking, fall into two categories:

- 3.2.1 'Solicitor-client' costs, which represent the amount a client is obliged to pay his or her solicitor as the price of professional work. The amount of costs on this context may include disbursements.
- 3.2.2 'Party-party' costs, which are all costs which were necessary or proper for the attainment of justice or defending the rights of a party, but which does not include costs which were unnecessarily incurred or were special or unusual. Costs of this kind ordinarily include disbursements. Such costs are not as generous as solicitor-client.

3.3 As a general rule, costs are awarded or ordered on a party-party basis. Such an order is in the nature of a qualified (or partial) indemnity against the expense incurred and, as such, it does not extend to all costs which a party has incurred with his or her own solicitor.

4. GENERAL PRINCIPLES

4.1 In the normal course costs will follow the event. What this means, generally speaking, is that the successful party in the proceedings before the Board has, in the absence of special circumstances, a reasonable expectation of obtaining an order for the payment of costs by the unsuccessful party. Put another way, a successful party has a reasonable expectation of obtaining an order as to costs, unless there are clearly severable issues on which the other party has succeeded or for some reason the conduct of the successful party has been reprehensible.⁴

4.2 The general principle that costs follow the event does not fetter the Board's discretion. Thus whilst a successful party has a general expectation to receive costs, he or she has no entitlement to costs unless and until the Board awards them to him or her, and the Board has an unfettered discretion to award or not to award them.

4.3 An award of costs is to be in the nature of an indemnity against legal costs incurred in proceedings. The object of requiring an unsuccessful party to pay the costs of the successful party is to provide some indemnity to the successful party for the loss incurred in being required to spend money in vindicating or upholding his or her rights in legal proceedings. It follows that the indemnity nature of a costs order may well 'instil in a party contemplating, or defending, litigation a sober realisation of the potential financial expenses involved'.⁵

⁴ *Tramouna Armadora SA* (1978) 2 ALL ER 870.

⁵ *Oshlack v Richmond River Council* (1998) 193 CLR 72 at 97.

- 4.4 Indemnity is to be established on a party-party basis rather than on a solicitor-client basis.⁶ Thus, an award for costs in favour of a successful party is rarely a complete indemnity for the liability to his or her solicitor. The law recognises in most cases no more than a partial indemnity, reasoning that an unsuccessful party should not be required to indemnify the successful party any more than the latter's 'necessary or proper' costs.
- 4.5 Costs that may be claimed by a successful party include all necessary and proper legal costs incurred by him or her in the conduct of litigation. It is generally accepted that the quantum of costs to be allowed must include a proper sum in respect of all necessary preliminary work entailed and actually and properly done in taking instructions, proofing witnesses, and generally getting the matter up for trial or hearing and appearances before the court or other decision maker to present the client's case.
- 4.6 Costs associated with reporting to a client (e.g. attendances, letters etc) are generally not recoverable. Other examples of costs that may not be recoverable are costs associated with proofing witnesses who are not called, or who are called but not really necessary to prove the case.
- 4.7 Disbursements that may be claimed include the costs of counsel's fees for drawing or settling documents or for counsel's advice or opinion, conferences or a brief for an appearance; expert reports; witness fees and expenses (meals, accommodation, airfares or mileage etc); cancellation fees; service fees paid to a process server; transcript costs; photocopying expenses; and STD calls.
- 4.8 As an award for costs is to operate as an indemnity for legal costs incurred by a successful party, it follows that a successful unrepresented party in proceedings before the Board cannot recover costs from the other party. In such a case, the successful unrepresented party can recover only his or her proper and actual disbursements.
- 4.9 The Board does not have the power to make an award for costs against a person who is not a party to the proceedings before it.

⁶ *Medical Board of South Australia v Wong (No 2)* [1996] SADC 3540.

5. CIRCUMSTANCES WHERE COSTS ORDER MAY BE MADE IN 'ONE PARTY' PROCEEDINGS

- 5.1 Under the Act, there are a number of proceedings where there is only one party involved. These include hearings to determine applications for registration, enrolment and reinstatement. In such proceedings, the applicant is the only party to the proceedings, and the Crown who assists the Board cannot be said to be acting on behalf of a party as the Board itself is not a party to the proceedings. Section 22(1) of the Act does not therefore contemplate that a successful applicant for registration, enrolment or reinstatement will seek an order for costs as there is no other party against whom the Board may make an order of costs.
- 5.2 On the other hand, section 22(1) does empower the Board to award costs against an unsuccessful applicant. The Board may therefore order the unsuccessful applicant to pay to the Board an amount that will partly cover the expenses that the Board has incurred to hear and determine an application for registration, enrolment or reinstatement. Expenses that may be recouped by the Board from an unsuccessful applicant include members sitting fees, transcript costs and costs for the services of counsel assisting. This power, however, should be used judiciously, given that the applicant would have already paid an administration fee at the time of lodgement of the application.
- 5.3 Notwithstanding the ability to make an order against an unsuccessful applicant in registration, enrolment or reinstatement proceedings, it is envisaged that the Board will not exercise its discretion in that regard unless in exceptional circumstances. Situations where the Board may consider making a costs order against an unsuccessful applicant include:
- 5.3.1 where an application has been brought frivolously or vexatiously;
 - 5.3.2 where an application for registration, enrolment or reinstatement has been brought shortly after the Board had dismissed a similar application and where there has been no change in the circumstances of the applicant; or
 - 5.3.3 where the applicant acts improperly or unreasonably in a proceedings.

6. CIRCUMSTANCES WHERE COSTS ORDERS MAY BE MADE OR DENIED IN 'TWO-PARTY' PROCEEDINGS

- 6.1 Formal proceedings brought under Part 4 of the Act include:
- 6.1.1 Inquiries to determine complaints brought by the Registrar or the Minister alleging that a person registered or enrolled under the Act is medically unfit to provide nursing or midwifery care (section 60);
 - 6.1.2 Inquiries to determine complaints brought by the Registrar, the Minister, or an aggrieved person alleging that there is proper cause for disciplinary action against a person registered or enrolled under the Act, a services provider or a person occupying a position of authority in a corporate or trustee services provider (section 61); and
 - 6.1.3 Hearings to determine an application to vary and revoke conditions imposed by the Board in relation to a person's registration or enrolment (section 64).

- 6.2 Proceedings under Part 4 of the Act are inter partes (i.e. between parties) and involve at least two parties. In practice, proceedings pursuant to sections 61 and 62 are almost invariably brought by the Registrar as the complainant. The person that is the subject of the complaint/application is referred to as the respondent. Proceedings to vary and revoke conditions imposed by the Board must be commenced upon the application of a registered or enrolled person. In such proceedings both the Registrar and the Minister have standing to appear and be heard. Costs may be awarded against the Registrar who is a party to any proceedings before the Board.
- 6.3 In all these formal proceedings the Board expect parties and their paid representatives to act reasonably in pursuing their applications/complaints or defending their positions. This includes bringing applications/complaints only when there are substantial grounds. It also includes taking all required procedural steps, not taking unnecessary ones and acting in a courteous and orderly way at a hearing/inquiry.
- 6.4 In most cases costs ought to be ordered in favour of the successful party unless there are particular reasons connected with the case not to do so. A successful party will be disentitled to an order for costs if its conduct justifies that course. Examples of where the Board may decline to award the whole or part of the costs in favour of a successful party are:
- 6.4.1 Where the party has acted spitefully or has instituted or continued proceedings recklessly, in bad faith or without reasonable cause;
 - 6.4.2 Where the party has acted unreasonably or improperly in contesting or raising issues;
 - 6.4.3 Where the party has taken unnecessary steps in a proceeding;
 - 6.4.4 Where the party has engaged in misconduct at the hearing or in the proceeding;
 - 6.4.5 Where the party has acted contemptuously towards the Board or displayed a lack of respect for the process of the Board;
 - 6.4.6 Where the party has subsequently raised issues or made allegations which have caused a significant increase in the length or costs of the proceedings;
 - 6.4.7 Where the party has raised an issue which is irrelevant to the proceedings and continues to pursue that issue after the Board has pointed out that it is irrelevant;
 - 6.4.8 Where the party seeks adjournments without any justification;

- 6.4.9 Where the party has caused proceedings to be unduly protracted;
 - 6.4.10 Where the party has acted oppressively in cross-examining the other party's witnesses at length but not given evidence themselves; or
 - 6.4.11 Where the party has been successful on only certain aspects of the proceedings.
- 6.5 The Board has the power in proceedings to make an order for a party to pay both the legal costs of another party and to pay the Board's costs in the same case. However, such an order would only be made in exceptional circumstances. This would usually include the following:
- 6.5.1 A case in which a party clearly and knowingly misled the Board, such as filing false statements or documents;
 - 6.5.2 A case where a party was reckless or indifferent about the truthfulness of their evidence, such as stating that the other party did not serve a document which they know they received;
 - 6.5.3 Situations in which the party failed to comply with directions or orders of the Board about the orderly conduct of the hearing; and
 - 6.5.4 Where there is evidence of harassment of the other party to prevent the application/complaint or defence of the application/complaint.
- 6.6 Ordering a party to pay Board costs is not related to which party is successful. Since the reason such costs are awarded is to encourage proper conduct, it is conceivable that a successful party who adds unnecessary steps to the proceedings or behaves inappropriately at a hearing, may have to pay the Board's expenses for part of the proceedings.
- 6.7 As a general rule, it would be unlikely that the Registrar would seek an order for costs against an unsuccessful respondent in proceedings where it has been established that the respondent is medically unfit to provide nursing or midwifery care, especially where medical unfitness is due to a psychiatric condition or illness. However the Registrar may seek an order for costs in such proceedings where, for example, the respondent:
- 6.7.1 has unnecessarily and unreasonably caused proceedings to be protracted; or
 - 6.7.2 has vehemently defended the allegation of medical unfitness despite the existence of overwhelming documentary evidence, thus requiring the incursion of additional expense to call witnesses.

7. **SCALE OF COSTS**

- 7.1 In the absence of any statutory provision dictating the method in which the Board is to quantify costs, the Board has adopted the Criminal Scale of Costs applicable to the Magistrates Court (which is attached as 'Annexure A').

- 7.2 The Board has adopted a modest rather than a higher scale after taking into consideration the following factors:
- 7.2.1 the Board is analogous to a court or tribunal of inferior jurisdiction.
 - 7.2.2 legal members of the Board are not judge. Further, there is no requirement that a legal member sit in any proceeding before the Board.
 - 7.2.3 the majority of nurses and midwives, unlike other health professionals, are generally not self-employed. As such, they are not protected by professional indemnity and other insurance from the financial burden of defending themselves in disciplinary or medical fitness proceedings before the Board.
 - 7.2.4 nurses and midwives received rather modest remuneration when compared to other health professionals.

8. PROCEDURE

- 8.1 Parties to proceedings before the Board should be made aware from the outset that costs may be awarded for or against them.
- 8.2 An application for costs should only be made and entertained after the Board delivers its final findings in a matter.
- 8.3 Where an application for costs is made, each party should be afforded an opportunity to make submissions on the point.
- 8.4 The Board may request the party seeking the costs order to submit a summary of costs incurred, and then use that summary as the basis of its determination, having regard to the relevant scale adopted by the Board.
- 8.5 The determination of whether it is just and reasonable to make an order for costs against a party is for the hearing committee or panel to determine jointly. Alternatively, in Part 4 proceedings, the question of costs may be heard and determined by the member presiding over the proceedings sitting alone.
- 8.6 A lump or global sum which the Board considers just and reasonable may be awarded. It would not be appropriate to award costs on an item to item basis.
- 8.7 Where the parties to proceedings have reached an agreement as to the allocation of costs, or as to their quantification, this does not by itself oust the Board's jurisdiction to order an alternative allocation or quantification. However, the Board would be most reticent to act inconsistently with any consensus as to costs that have been the subject of an agreement between the parties.
- 8.8 If and once an order for costs has been made against a party, the Board is functus officio and has no further authority on that issue. A party who is dissatisfied with the amount of the costs awarded by the Board may request a Master of the District Court to tax the costs and, after taxing the costs, the Master may confirm or vary the amount of the costs awarded by the Board.

- 2 Interpretation

3	Agreements with occupiers
4	Vegetation clearance schemes with councils
5	Exemptions

1—Short title

These regulations may be cited as the *Electricity (Principles of Vegetation Clearance) Regulations 2010*.

2—Commencement

These regulations come into operation on the day on which they are made.

3—Interpretation

- (1) In these regulations, unless the contrary intention appears—

Act means the *Electricity Act 1996*;

buffer zone, in relation to an overhead powerline in the bushfire risk area or on private land in a non-bushfire risk area, means the space around the powerline that adjoins the clearance zone around that powerline, as shown in the diagrams in Schedule 1;

bushfire risk area means the part of the State shown in the maps in Schedule 4 as the bushfire risk area excluding the areas shown in those maps as non-bushfire risk areas (also see subregulation (4));

centreline in relation to a powerline means—

- (a) in the case of an underground powerline—
 - (i) that consists of a single conductor—an imaginary line on the ground directly above that conductor; or
 - (ii) that consists of more than 1 conductor—an imaginary line on the ground above the powerline that is equidistant from the outer conductors; or
- (b) in the case of an overhead powerline—
 - (i) that consists of a single conductor—an imaginary line on the ground directly beneath the position maintained by that conductor in still air; or
 - (ii) that consists of more than 1 conductor—an imaginary line on the ground below the powerline that is equidistant from the positions maintained by the outer conductors in still air;

clearance zone means the space around an overhead powerline as shown in the diagrams in Schedule 1 (the values of V, H, B, S and P referred to in those diagrams being determined by reference to the tables in Schedule 1 clause 5 or, if a determination of the Technical Regulator under Schedule 1 clause 6 is in force in relation to a particular powerline, that determination);

low risk powerline means an overhead powerline or portion of an overhead powerline—

- (a) that is in a prescribed area; and
- (b) each span of which does not exceed 50 metres and has low voltage conductors;

low voltage conductor means a conductor constructed to operate at a voltage not exceeding 480V;

non-bushfire risk area means a part of the State not within the bushfire risk area (also see subregulation (4));

prescribed area—see subregulation (3);

private powerline—see subregulation (2);

public land means land other than private land;

span, in relation to an overhead powerline, means the part of the powerline that lies between 2 poles or other supports for that line.

- (2) For the purposes of the definition of **private powerline** in section 4(1) of the Act, the prescribed voltage is 19kV.
- (3) For the purposes of Part 5 of the Act and these regulations, each non-bushfire risk area (or portion of a non-bushfire risk area) that is shown on the map in Schedule 5 headed *Portion of Greater Metropolitan Area of Adelaide showing Index to Prescribed Areas Map Sheets* (and in more detail on the following 7 maps indexed on that map) is a **prescribed area**.
- (4) A map of a **bushfire risk area** or **non-bushfire risk area** is to be interpreted as at the date of its inclusion in the *Electricity (Principles of Vegetation Clearance) Regulations 1996* revoked by these regulations or, if it was not included in those regulations, as at the date of its inclusion in these regulations.

4—Duty of electricity entity or council

- (1) The principles of vegetation clearance set out in this regulation are prescribed for the purposes of Part 5 of the Act and govern the duty of an electricity entity or a council to take reasonable steps to keep vegetation clear of powerlines.
- (2) At intervals of no longer than 3 years, overhead powerlines must be inspected and vegetation cleared as follows:
 - (a) in the case of powerlines other than low risk powerlines—vegetation must be cleared so that—
 - (i) no vegetation remains in the clearance zone surrounding the powerline in still air at the time of the clearance; and
 - (ii) no growth or regrowth is likely to intrude into the clearance zone within 3 years (or, if an inspection and clearance is scheduled to take place in less than 3 years, within that lesser period), taking into account the reasonably ascertainable characteristics of the powerline and vegetation; and
 - (iii) no part of the vegetation or growth or regrowth is likely to bend in the wind into the clearance zone at the time of clearance or within 3 years (or, if an inspection and clearance is scheduled to take place in less than 3 years, within that lesser period), taking into account the reasonably ascertainable characteristics of the powerline and vegetation and winds that might reasonably be expected in the area; and
 - (b) in the case of low risk powerlines—vegetation must be cleared—
 - (i) in accordance with the principles set out in paragraph (a); or
 - (ii) so that no part of the vegetation or growth or regrowth is likely to come into contact with the powerline (including by bending in the wind) so as to—
 - (A) form a leakage current to ground through the vegetation resulting in a risk of fire or electric shock; or

- (B) form an electrical path for tracking voltage exceeding 480V into low voltage conductors; or
 - (C) bridge 2 or more low voltage conductors resulting in a phase to phase or phase to neutral breach; or
 - (D) cause damage to the powerline resulting in a risk of fire, electric shock or loss of electricity supply,
at the time of the clearance or within 3 years (or, if an inspection and clearance is scheduled to take place in less than 3 years, within that lesser period), taking into account the reasonably ascertainable characteristics of the powerline and the vegetation and winds that might reasonably be expected in the area.
- (3) If the supporting structure of a low risk powerline also supports conductors that are not low voltage conductors, then—
- (a) the principles set out in subregulation (2)(a) apply in relation to the conductors that are not low voltage conductors; and
 - (b) the principles set out in subregulation (2)(b) apply in relation to the low voltage conductors.
- (4) The principles set out in subregulation (2)(b)(ii) only apply if the Technical Regulator has given approval to the electricity entity or council to keep vegetation clear of the powerlines in accordance with those principles.
- (5) If an electricity entity has the duty to keep vegetation clear of the powerlines—
- (a) the entity must not, in clearing vegetation in accordance with the principles set out in subregulation (2)(a), clear vegetation from around an overhead powerline—
 - (i) more than is reasonably necessary to satisfy those principles; or
 - (ii) if there is a buffer zone around the powerline, beyond the buffer zone, except if—
 - (iii) it is reasonably necessary to do so for the purposes of enhancing the appearance and ensuring the stability and health of remaining vegetation (but in that case, if there is a buffer zone around the powerline, the vegetation must not be cleared beyond the buffer zone); or
 - (iv) the entity agrees, at the request of the occupier of the land on which the vegetation is situated, to undertake the clearance and the clearance would not be contrary to the provisions of any other law if carried out by the occupier; and
 - (b) the entity must not, in clearing vegetation in accordance with the principles set out in subregulation (2)(b)(ii), clear more vegetation than it could by clearing in accordance with the principles set out in subregulation (2)(a).
- (6) If a council has the duty to keep vegetation clear of the powerlines, the council need not, in clearing vegetation in accordance with the principles set out in subregulation (2)(b)(ii), clear more vegetation than would be reasonably necessary to satisfy the principles set out in subregulation (2)(a).

5—Duty of occupier

- (1) The principles of vegetation clearance set out in this regulation are prescribed for the purposes of Part 5 of the Act and govern the duty of an occupier of private land to take reasonable steps to keep vegetation clear of private powerlines on the land.
- (2) An occupier of private land must keep vegetation (other than naturally occurring vegetation) clear of any private overhead powerline on that land so that—
 - (a) no part of the vegetation at any time intrudes into the clearance zone around that powerline in still air; and
 - (b) no part of the vegetation is at any time likely to bend into that zone in winds that might reasonably be expected in the area.
- (3) An occupier of private land is not required to clear vegetation beyond the buffer zone around any powerline.
- (4) An occupier of private land must not clear vegetation which the occupier may not lawfully clear apart from this regulation—
 - (a) more than is reasonably necessary to satisfy the requirements of subregulation (2) and for the purposes of enhancing the appearance and ensuring the stability and health of any remaining vegetation; or
 - (b) if there is a buffer zone around the powerline, beyond the buffer zone.

6—Planting and nurturing vegetation near powerlines

For the purposes of Part 5 of the Act, Schedule 2 sets out requirements for planting or nurturing vegetation near powerlines.

7—Technical Regulator may grant exemption from principles of vegetation clearance

- (1) The Technical Regulator may, on application—
 - (a) exempt an occupier of land on which vegetation is planted or nurtured for commercial purposes (not including the production of timber) from compliance with regulation 5; or
 - (b) exempt a person from compliance with a provision of Schedule 2 in relation to specified vegetation.
- (2) An application under this regulation must—
 - (a) be made in a form approved by the Technical Regulator; and
 - (b) contain the information specified in the form; and
 - (c) be accompanied by an application fee fixed by the Minister.
- (3) Before determining an application under this regulation, the Technical Regulator must give the electricity entity or council with the duty to keep the vegetation clear of powerlines a reasonable opportunity to make submissions and be heard on the matter.
- (4) An exemption under this regulation—
 - (a) must be in writing; and
 - (b) may be subject to conditions, including a condition that the applicant is to pay any costs that the electricity entity or council incur in keeping the vegetation clear of powerlines in accordance with these regulations.

- (5) A person who contravenes, or fails to comply with, a condition of an exemption under this regulation is guilty of an offence.
- Maximum penalty: \$5 000.
- Expiation fee: \$315.

8—Vegetation clearance scheme outside prescribed areas agreed between council and electricity entity

- (1) This regulation applies to public land in a non-bushfire risk area but not within a prescribed area.
- (2) An electricity entity may agree a vegetation clearance scheme with a council governing the way in which the entity will carry out its duty to clear vegetation in the area of the council or part of that area.
- (3) The factors that should be taken into consideration in formulating a scheme include the following:
- (a) the nature of the vegetation, including its expected rate of growth;
 - (b) the impact that the clearance work would be likely to have on the amenity of the area;
 - (c) the historical or biological significance (if any) of the vegetation;
 - (d) the long term effect that the clearance work would be likely to have on the health and appearance of the vegetation;
 - (e) the controls on the planting and nurturing of vegetation applicable in the area;
 - (f) the need to prevent damage to the powerlines and interruption to the supply of electricity and to safeguard the public against electric shock and damage to property;
 - (g) the extent and frequency of past vegetation clearance in the area;
 - (h) whether requirements with respect to vegetation clearance and the planting and nurturing of vegetation have been complied with in the area and, if not, the reasons for the non-compliance;
 - (i) the existence and terms of other vegetation clearance schemes;
 - (j) any proposal to alter, remove or underground powerlines in the area;
 - (k) the costs of the proposals (including insurance premiums) to the council and to the electricity entity and the financial resources of the council and entity;
 - (l) the limits on the financial and other resources of the electricity entity that may be devoted to the scheme and the schemes for the areas of other councils;
 - (m) any arrangement between the electricity entity and the council conferring on the council a specified role in relation to vegetation clearance.
- (4) A scheme cannot derogate from the principles set out in regulation 4.
- (5) A scheme—
- (a) must be in writing and executed by the council and the electricity entity (however, separate execution is not required if the scheme is combined with an arrangement under Part 5 of the Act conferring on the council a specified role in relation to vegetation clearance); and

- (b) may be varied or revoked by written agreement between the parties.
- (6) A vegetation clearance scheme as agreed has effect, and may be enforced, as a contract between the electricity entity and the council concerned.

9—Agreement between occupier and electricity entity

- (1) An electricity entity may enter into an agreement with an occupier of private land under which—
 - (a) vegetation around powerlines in a specified area of the land is to be inspected and cleared more frequently than required under regulation 4; or
 - (b) the occupier undertakes to carry out the required inspection and clearance of vegetation on that land on behalf of the entity.
- (2) The agreement—
 - (a) must be in writing and executed by the occupier and the electricity entity; and
 - (b) must specify—
 - (i) the area concerned; and
 - (ii) the intervals at which inspection and clearance must be carried out; and
 - (iii) unless the occupier undertakes to carry out the inspections and clearance on behalf of the electricity entity—the payments agreed between the parties in respect of the costs of the additional work required under the agreement; and
 - (c) may be varied or revoked by further written agreement between the parties; and
 - (d) has effect, and may be enforced, as a contract between the electricity entity and the occupier.

10—Objections relating to vegetation clearance

- (1) An occupier or owner of private land may lodge an objection with the Technical Regulator concerning a matter set out in a notice of intention to enter land to carry out work received from an electricity entity or council under Part 5 of the Act.
- (2) An objection under this regulation must—
 - (a) be made to the Technical Regulator in writing; and
 - (b) be lodged with the Technical Regulator within 21 days after receipt of the notice to which the objection relates or such further time as the Technical Regulator allows.
- (3) The Technical Regulator must, on receipt of an objection, notify the electricity entity or council, as the case may require, of the objection.
- (4) On receiving notification of the objection, the electricity entity or council is prohibited from carrying out the clearance of vegetation to which the objection relates until the objection has been determined by the Technical Regulator.
- (5) The Technical Regulator may—
 - (a) dismiss the objection; or
 - (b) direct the electricity entity or council to take or to refrain from taking any specified action in relation to the matter; or

- (c) if the objector and the electricity entity or council have reached an agreement as to how the objection might be resolved, and the agreement does not involve a breach of these regulations—determine the objection so as to reflect the agreement.
- (6) The Technical Regulator may dismiss the objection—
 - (a) on the ground that—
 - (i) the subject matter of the objection is substantially the same as the subject matter of an objection previously considered; or
 - (ii) the objection is frivolous or vexatious or without reasonable basis; or
 - (iii) the objector has not made a reasonable attempt to resolve the matter by agreement with the electricity entity or council; or
 - (b) if satisfied that the objector and the electricity entity or council have entered into an agreement under regulation 9 that relates to the subject matter of the objection; or
 - (c) if satisfied for any other reason that the objection should not be allowed.
- (7) The Technical Regulator must, as soon as practicable, notify the objector and the electricity entity or council, as the case may require, of the Technical Regulator's determination of the objection.
- (8) An electricity entity or council must, when giving notice of an intention to enter private land to carry out work under Part 5 of the Act, include in or with the notice a statement of the rights of the owner or occupier to lodge an objection under this regulation.

11—Notification of clearance by electricity entity to council

- (1) An electricity entity must give a council not less than 30 days written notice before commencing a program of vegetation clearance in the area of the council, including details of when and where clearance is to take place under the program.
- (2) Subregulation (1) does not apply if the clearance work to be carried out is subject to a vegetation clearance scheme.

5—Tables for determination of value of V, H, B, S and P

- (1) The values of V, H, B, S and P are determined by the voltage at which the powerline is constructed to operate and the length of the span concerned.
- (2) For 132kV and 275kV lines, a "stepout" S is required for the buffer zone.
- (3) For the purposes of compliance with the requirements of these regulations as to clearance of vegetation from around powerlines, as an alternative, the value of S may be taken to be that fixed for S* in Table 4—
 - (a) until 31 October 2010; and
 - (b) after that date, provided that the clearance zone will still extend at least—
 - (i) in the case of a 132kV line—1.5 m; or
 - (ii) in the case of a 275kV line—2.5 m,
 beyond any point to which the line may swing or sag at a wind pressure of 400Pa (taking into account the length of the span concerned and the characteristics of the line).
- (4) The values given are in metres.
- (5) The clearance to uninsulated LV conductors in non-bushfire risk areas is 0.1 m for the length of the line and beyond termination poles or structures, as is also the case for fully insulated conductors in any part of the State.
- (6) The value of P determines the clearances required beyond a pole where a line terminates, in addition to clearances at poles or other supports along the length of the powerline.
- (7) A buffer zone of 1 m and no clearance zone applies where a neutral conductor (CMEN) is not within the clearance zone or buffer zone of an adjoining conductor.
- (8) The clearance to Insulated Unscreened Conductor ("IUC" or "CCT") is 0.5 m for the length of the line and beyond termination poles or structures, in any part of the State.

3.5m rule

Where the application of the value set out in Table 4 would result in the bottom edge of the clearance zone having a vertical distance from ground level of less than 3.5 m, the bottom edge of the clearance zone shall have a vertical distance from ground level of 3.5 m irrespective of the vertical distance it would otherwise have had from ground level by virtue of the value of V.

6—Technical Regulator may determine values for clearance zone around particular powerline in certain circumstances

- (1) The Technical Regulator may, on application by an electricity entity with a duty under section 55 of the Act in relation to an overhead 132kV or 275kV powerline, determine that for the purposes of that duty in relation to a specified portion of the powerline the value of V, H, B or S is to be a specified number of metres instead of the value given in clause 5.
- (2) The Technical Regulator must not make a determination under subclause (1) unless satisfied by the electricity entity that the clearance zone will still extend at least—
 - (a) in the case of a 132kV line—1.5 m; or
 - (b) in the case of a 275kV line—2.5 m,
 beyond any point to which the line may swing or sag at a wind pressure of 400Pa (taking into account the length of the span concerned and the characteristics of the line).
- (3) An application under this regulation must—
 - (a) be made in a form approved by the Technical Regulator; and
 - (b) contain the information specified in the form; and
 - (c) be accompanied by an application fee fixed by the Minister.
- (4) A determination under this regulation must be in writing.

Schedule 2—Planting or nurturing vegetation near public powerlines

1—Interpretation

In this Schedule—

exempt vegetation means—

- (a) vegetation (such as small plants that produce flowers or vegetables, ground covers, cereal crops or small bushes or shrubs) with an expected mature height of less than 2 m;
- (b) vegetation in relation to which an exemption is in force under these regulations;

prescribed distance means—

- (a) in the case of a powerline constructed to operate at a voltage listed below—the distance set out below in relation to that voltage:

Voltage	Distance (in metres)
500kV	19.0
275kV	12.5
132kV, other than a single pole	15.0
132kV, single pole	10.0
66kV	6.5

- (b) in any other case—6 m.

2—General rules

- (1) Subject to clause 3, only vegetation of a kind set out in the third column of Table 1 may be planted within the distance set out in the second column from a powerline of a kind set out in the first column.
- (2) Subject to clause 3, only vegetation of a kind set out in the third or fourth column of Table 1 may be nurtured if it is growing within the distance set out in the second column from a powerline of a kind set out in the first column.

3—Exemption

Vegetation may be planted in proximity to a public powerline in a non-bushfire risk area and any such vegetation may be nurtured, if—

- (a) the vegetation is planted in replacement of vegetation in a stand or avenue of vegetation situated along a road; and
- (b) the vegetation is of the same species as that being replaced.

4—Tables

Table 1—General rules

Powerline	Distance within which planting or nurturing is controlled	Vegetation which may be planted or nurtured	Additional vegetation which may be nurtured
Overhead public powerline, the conductors of which are not insulated, in the bushfire risk area.	Prescribed distance from centreline.	Species listed in Table 2. Exempt vegetation.	Any vegetation planted or self-sown before 1 November 1988.
	More than the prescribed distance but less than twice the prescribed distance from centreline.	Species listed in Table 2 or 3. Exempt vegetation.	Any vegetation planted or self-sown before 1 November 1988.
Any other overhead public powerline.	Prescribed distance from centreline.	Species listed in Table 2 or 3. Exempt vegetation.	Any vegetation planted or self-sown before 1 November 1988.
Underground public powerline constructed to operate at a voltage of 66kv or more.	3 m from centreline.	Species listed in Table 2 Exempt vegetation.	Any vegetation planted or self-sown before 1 November 1988.
Any other underground public powerline.	No control.
