DIRECTION TO THE SOUTH AUSTRALIAN WATER CORPORATION

Background:

1. Pursuant to Section 6 of the Public Corporations Act 1993, and Sections 6 and 7 (2) (f) of the South Australian Water Corporation Act 1994, the South Australian Water Corporation (SA Water) is subject to control and direction by its Minister, and has the functions conferred on it by its Minister.

2. The South Australian Water Corporation Act 1994 is committed to the Minister for Water and the River Murray (the Minister) by way of Gazettal notice dated 21 October 2011 (p. 4289).

3. The Water Industry Act 2012 provides for the regulation of prices for water and sewerage retail services by declaring the water industry to constitute a regulated industry for the purposes of the Essential Services Commission Act 2002 and providing for the Essential Services Commission of South Australia (the Commission) to make a determination under the Essential Services Commission Act 2002 regulating prices, conditions relating to prices, and price-fixing factors for such retail services.

4. In making such a determination, the Commission must comply with the requirements of any pricing order issued by the Treasurer under Section 35 of the Water Industry Act 2012.

5. The Treasurer has, on 24 September 2012, issued such a pricing order (the Initial Pricing Order) which applies to, amongst other things, a determination in respect of drinking water and sewerage retail services provided by SA Water for the three year period commencing 1 July 2013 (the initial regulatory period).

6. As part of the Initial Pricing Order, the Treasurer has required that any determination of the Commission in respect of such services allow SA Water to recover:

- (a) the efficient cost of assets to be acquired over the course of the initial regulatory period which are required to support activities that SA Water is required to provide in accordance with a direction under Section 6 of the Public Corporations Act 1993;
- (b) the costs of externalities (including water planning and management) as are attributable to and payable by SA Water in accordance with the law, including a direction under Section 6 of the Public Corporations Act 1993; and
- (c) such costs (less any relevant contributions to such costs that it receives) that are attributable to activities that SA Water is required to provide in accordance with a direction under Section 6 of the Public Corporations Act 1993, and are either:
 - (i) specified in the relevant direction, or if not so specified,
 - (ii) determined by the Commission to be efficient.

7. The Minister considers it appropriate, in the interests of transparency, to direct SA Water to:

- (a) provide certain services, in addition to the services it is required to provide pursuant to Section 7 of the South Australian Water Corporation Act 1994 and the Charter for SA Water;
- (b) purchase renewable energy or carbon offsets for the purpose of operating the Adelaide Desalination Plant;
- (c) maintain State-wide pricing in respect of the drinking water and sewerage retail services it provides to customers;
- (d) continue to contribute to water planning and management charges; and
- (e) continue to annually reimburse the Minister in respect of fees paid to the Valuer-General for copies of the valuation roll,

the costs of which may be recovered by SA Water in accordance with the terms of the Initial Pricing Order.

8. The Minister intends that this Direction revoke and replace the previous Direction made to SA Water pursuant to Section 6 of the Public Corporations Act 1993 on 25 February 2013 and published in the *Gazette* on 7 May 2013.

National Parks and Wildlife (Etrick Conservation Park—Mining Rights) Proclamation 2013

under section 43 of the *National Parks and Wildlife Act 1972*

Preamble

- 1 The Crown land described in Schedule 1 is, by another proclamation made on this day, constituted as a conservation park under section 30(1) of the *National Parks and Wildlife Act 1972* and assigned the name *Etrick Conservation Park*.
 - 2 It is intended that, by this proclamation, certain existing and future rights of entry, prospecting, exploration or mining be preserved in relation to that land.
-

1—Short title

This proclamation may be cited as the *National Parks and Wildlife (Etrick Conservation Park—Mining Rights) Proclamation 2013*.

2—Commencement

This proclamation comes into operation on the day on which it is made.

3—Interpretation

In this proclamation—

Environment Minister means the Minister for the time being administering the *National Parks and Wildlife Act 1972*;

Mining Minister means the Minister for the time being administering the *Mining Act 1971* or the Minister for the time being administering the *Petroleum and Geothermal Energy Act 2000*, as the case requires.

4—Existing rights to continue

Subject to clause 6, existing rights of entry, prospecting, exploration or mining under the *Mining Act 1971* or the *Petroleum and Geothermal Energy Act 2000* may continue to be exercised in respect of the land described in Schedule 1.

5—New rights may be acquired

Rights of entry, prospecting, exploration or mining may, with the approval of the Mining Minister and the Environment Minister, be acquired pursuant to the *Mining Act 1971* or the *Petroleum and Geothermal Energy Act 2000* in respect of the land described in Schedule 1 and may, subject to clause 6, be exercised in respect of that land.

6—Conditions for exercise of rights

A person in whom rights of entry, prospecting, exploration or mining are vested pursuant to the *Mining Act 1971* or the *Petroleum and Geothermal Energy Act 2000* (whether those rights were acquired before or after the making of this proclamation) must not exercise those rights in respect of the land described in Schedule 1 unless the person complies with the following conditions:

- (a) if work to be carried out in relation to the land in the exercise of those rights is a regulated activity within the meaning of the *Petroleum and Geothermal Energy Act 2000*, the person must ensure that—
 - (i) the work is not carried out until a statement of environmental objectives in relation to the activity that has been approved under that Act has also been approved by the Environment Minister; and
 - (ii) the work is carried out in accordance with the statement as so approved;
- (b) if work to be carried out in relation to the land in the exercise of rights under the *Mining Act 1971* or the *Petroleum and Geothermal Energy Act 2000* has not previously been authorised (whether by inclusion in an approved statement of environmental objectives referred to in paragraph (a) or otherwise), the person must give at least 3 months notice of the proposed work to the Mining Minister and the Environment Minister and supply each Minister with such information relating to the proposed work as the Minister may require;
- (c) if directions are agreed between the Mining Minister and the Environment Minister and given to the person in writing in relation to—
 - (i) carrying out work in relation to the land in a manner that minimises damage to the land (including the land's vegetation and wildlife) and the environment generally; or
 - (ii) preserving objects, structures or sites of historical, scientific or cultural interest; or
 - (iii) rehabilitating the land (including the land's vegetation and wildlife) on completion of the work; or
 - (iv) (where the work is being carried out in the exercise of rights acquired after the making of this proclamation) prohibiting or restricting access to any specified area of the land that the Ministers believe would suffer significant detriment as a result of carrying out the work,

(being directions that do not reduce or otherwise detract from any requirement in respect of any of those matters contained in an approved statement of environmental objectives referred to in paragraph (a)), the person must comply with those directions in carrying out the work;
- (d) if a plan of management is in operation under section 38 of the *National Parks and Wildlife Act 1972* in respect of the land, the person must have regard to the provisions of the plan of management;
- (e) in addition to complying with the other requirements of this proclamation, the person—
 - (i) must take such steps as are reasonably necessary to ensure that objects, structures and sites of historical, scientific or cultural interest and the land's vegetation and wildlife are not unduly affected by any work; and
 - (ii) must maintain all work areas in a clean and tidy condition; and

- (iii) must, on the completion of any work, obliterate or remove all installations and structures (other than installations and structures designated by the Mining Minister and the Environment Minister as suitable for retention) used exclusively for the purposes of that work;
- (f) if no direction has been given by the Mining Minister and the Environment Minister under paragraph (c)(iii), the person must (in addition to complying with any approved statement of environmental objectives referred to in paragraph (a)) rehabilitate the land (including its vegetation and wildlife) on completion of any work to the satisfaction of the Environment Minister.

7—Governor may give approvals, directions

If—

- (a) the Mining Minister and the Environment Minister cannot agree as to whether—
 - (i) approval should be granted or refused under clause 5; or
 - (ii) a direction should be given under clause 6(c); or
- (b) the Environment Minister does not approve a statement of environmental objectives under clause 6(a),

the Governor may, with the advice and consent of the Executive Council—

- (c) grant or refuse the necessary approval under clause 5; or
- (d) give a direction in writing under clause 6(c); or
- (e) grant or refuse the necessary approval under clause 6(a).

 - (b) if a piezoelectric traffic sensor (*piezo strip*) forms part of the device, the piezo strip must be installed under the surface of the road together with the induction loop;
 - (c) the camera or cameras forming part of the device (other than a closed-circuit television camera) must be positioned and aimed, and the induction loop and the piezo strip (if any) linked up with the other parts of the device, so that when vehicles proceed over or continue past the part of the road under the surface of which the induction loop and the piezo strip (if any) is (or are) installed, a photograph or series of photographs may be taken of the vehicles;
 - (d) the Variable Speed Limit Sign (*VSLs*) must be—
 - (i) installed so that a speed limit sign displayed by the VSLs applies for the purposes of the *Australian Road Rules* (whether some or all of the time) to the length of road under the surface of which the induction loop and the piezo strip (if any) is (or are) installed; and

 - the speed limit (if any) indicated at that time by the VSLS referred to in paragraph (d) as noted by the device and the period for which that noted speed limit has remained constant; and
 - (C) on each of which is recorded the date, time and code for the location at which the record is made, together with the lane in which the vehicle is travelling; and
 - (ii) the following additional electronic records are made:
 - (A) a record containing a portion of the video recording referred to in paragraph (e), being a portion of that recording for a programmed period preceding the detection of the vehicle, on which is recorded the date and start and end times for the video recording;
 - (B) a record containing a still image taken from that portion of video recording, on which is recorded the information referred to in paragraph (f)(i)(C);
- (g) subject to paragraph (h), once in every 28 days—
- (i) a test must be carried out (by reference to speeds not exceeding the speed limit applying to drivers driving vehicles on the length of road under the surface of which the induction loop and the piezo strip (if any) is (or are) installed, and by reference to vehicles of any number of axles) to ensure that the device detects vehicles passing over the induction loop and the piezo strip (if any) and—
 - (A) accurately indicates the speed and (if a piezo strip forms part of the device) number of axles of any vehicle so detected and the lane in which the vehicle is travelling; and
 - (B) makes the video recording and still image referred to in paragraph (f)(ii); and

- (ii) the device must be checked to ensure that the device—
 - (A) indicates the correct date, time and code for the location at which electronic records are made by the device; and
 - (B) correctly notes the speed limit (if any) indicated by the VSLs referred to in paragraph (d); and
 - (C) is set to operate in accordance with paragraph (f); and
 - (iii) if a fault is indicated by the test referred to in subparagraph (i), corrective action must be taken and the test must be repeated until no fault is indicated; and
 - (iv) if a fault is indicated by the check referred to in subparagraph (ii), corrective action must be taken until no fault is indicated;
- (h) if that part of the road surface under which the induction loop and the piezo strip (if any) is (or are) installed has 2 or more lanes for vehicles travelling in the same direction, the test referred to in paragraph (g)(i) is not required to be carried out in relation to each such lane in the same 28 day period provided that, once in every 28 days, the test is carried out in relation to 1 of those lanes and the lane in relation to which the test is carried out is not the same as the lane in relation to which the previous test was carried out;
- (i) if—
 - (i) a test or check; or
 - (ii) any electronic record referred to in paragraph (f) made by the device,indicates a fault that has affected the proper operation of the device as required by these regulations, the part of those electronic records affected by the fault must be rejected for evidentiary purposes;
- (j) the accuracy with which the device detects vehicle speeds must be tested on the day on which it is used (or on a day within the period of 27 days immediately preceding that day) with a view to the issuing of a certificate under section 175(3)(ba) of the Act.
- (2) Where a photographic detection device referred to in regulation 14(1)(b) is used to provide evidence of reckless or dangerous driving offences or registration offences committed other than at an intersection, marked foot crossing or level crossing, the provisions of subregulation (1) must be complied with.
