## NATURAL RESOURCES MANAGEMENT ACT 2004

## SECTION 106 (3)

*Notice of Assessment of Quantity of Water Taken when Meter Readings are not Used*

I, IAN HUNTER, Minister for Sustainability, Environment and Conservation, hereby declare that the basis of assessment of water use rates and the method by which the assessment of water use where meter readings are not used, will be as set out in Schedule 1.

## SCHEDULE 1

The basis of the assessment of water use will be the estimation of water requirements for a crop.

The method by which the estimation of water requirements for crops will be used is the methodology of Doorenbos and Pruitt (1977), as refined by Allen *et al.*, (1998) and set out in the Primary Industries and Resources of South Australia Technical Report No. 263, second edition ('the Report'). Crop factors will be calculated from Kc (crop coefficient) values from Food and Agriculture Organisation of the United Nations, Rome Irrigation and Drainage Paper 56 (Allen, Pereira *et al.*, 1998) ('FAO 56') and using site specific monthly Kp (pan coefficient) values and average monthly Kg values (bird guard coefficient) set out in the Report.

The methodology incorporates the use of Bureau of Meteorology evaporation data, the application of crop specific factors to evaporation figures to calculate crop evapotranspiration for the crop and location in question, subtraction of effective rainfall and an allowance for leaching for salinity control and irrigation efficiency.

The water requirement calculated by this method is expressed as depth of water required in millimetres for a particular crop grown over a particular season. Depth multiplied by the number of hectares of that crop grown (in each specified season for short season crops), multiplied by 10 gives the volume of water required for each crop in kilolitres.

A copy of each of the Report and FAO 56 is obtained through the GEO Science Library at the Department of Primary Industries and Regions SA. The reference number for the Report is ISBN No 07308-4349-1 and the reference number for FAO 56 is Kinetic/Amicus No. 000020037000 or ISBN No. 92-5-104219-5.

This notice has effect in relation to the financial year commencing on 1 July 2013.

Dated 30 April 2013.

IAN HUNTER, Minister for Sustainability,  
Environment and Conservation
