DEVELOPMENT ACT 1993, SECTION 29

AMENDMENT TO THE CLEVE COUNCIL DEVELOPMENT PLAN

Preamble

It is necessary to amend the Cleve Council Development Plan (the Plan) dated 26 April 2013 to address an inconsistency in the Plan.

NOTICE

PURSUANT to Section 29 (2) (b) (i) of the Development Act 1993, I:

1. Amend the Plan as follows:

- (a) within the Primary Production Zone:
 - (i) insert the following text as Objective 5 and consecutively renumber the existing Objective 5 to Objective 6:
 - 'Protection of rural support infrastructure for the bulk handling and transportation of farm commodities situated at Mangalo.'
 - (ii) insert the following text after the last paragraph in the Desired Character section:

'Heggaton and Mangalo

Development within the Hundred of Heggaton and the Hundred of Mangalo will include a range of different types of farming activities, as well as appropriate value-adding uses. Large allotments of greater than 40 hectares in size will be maintained to prevent the reduced viability of primary production and to protect the scenic quality of the rural landscape. Development (including land division) will not lead to a reduction in the ability of land within these areas to be used for primary production purposes and will not result in the establishment of rural-residential land-uses.

New buildings will generally be associated with existing clusters of buildings and will be of complementary scale and mass, while also being of appropriate dimensions to serve their intended function. New dwellings will generally be single storey and will include pitched roofs, verandas and porches to address climatic issues. Isolated new buildings, including large sheds, will be located and designed to blend with the existing landscape, with appropriate earthworks and building design to suit the natural landform. Other structures will be of a form that blends with, and does not detract from, the scenic qualities and function of the primary production area.

The open rural landscape is the dominant character element and new development will maintain that character, with new buildings appropriately sited, designed and screened by vegetation. New buildings will be constructed using materials and colours that blend with the rural landscape and are traditionally used within the rural environment including corrugated steel, stone and timber.'

- (iii) replace Principle of Development Control 11 with:
 - 'Land outside of the Hundred of Heggaton and the Hundred of Mangalo should only be divided if one or more of the following apply:
 - (a) no additional allotments are created
 - (b) an owner of land wishes to create a separate allotment of not greater than 5 hectare in area to contain one of two habitable houses on the land, each of which was built or under construction before 30 June 2002
 - (c) the land division is to facilitate horticulture, floriculture, agriculture, animal keeping, or land based aquaculture.'
- (iv) INSERT new Principle of Development Control 12:

'Land division within the Hundred of Heggaton or the Hundred of Mangalo areas should only occur under one of the following circumstances, where:

- (a) no additional allotments of less than 40 hectares are created
- (b) an owner of land wishes to create a separate allotment of not greater than 5 hectares to contain one of two existing dwellings on the land, each of which was built or under construction before 29 August 1985
- (c) one additional allotment of 5 hectares or less in an area is being excised from the land held in a Certificate of Title existing prior to 29 August 1985, where the allotment is to provide a separate title for the erection of a dwelling for a relative of the registered proprietor of the subject land, or a person being in employment on the land.'
- (v) replace the Complying Development Compliance Criteria / Conditions with the following:
 - 'Provided:
 - (a) all buildings are set back 50 m or more from the existing road boundary
 - (b) within the Hundred of Heggaton or the Hundred of Mangalo, the building's external materials, cladding and roofing are not:
 - (i) damaged in any way
 - (ii) punctured
 - (iii) rusted
 - (iv) stained
 - (v) weathered.'
