**TREASURER'S
QUARTERLY STATEMENT**

for the

**THREE MONTHS ended on
31 MARCH 2015 and 31 MARCH 2014**

*Presented by the
Honourable T. Koutsantonis M.P.
Treasurer of South Australia*

GOVERNMENT OF SOUTH AUSTRALIA**COMMENTARY TO THE STATEMENT OF THE AMOUNTS CREDITED TO
AND ISSUED FROM THE CONSOLIDATED ACCOUNT FOR THE QUARTERS ENDED
31 MARCH 2015 AND 31 MARCH 2014*****Receipts******Taxation***

Payroll tax receipts for the nine months to March 2015 were higher than for the same period in 2014, mainly due to growth in taxable payrolls.

Stamp duty receipts for the nine months to March 2015 were higher than for the same period in 2014. This was mainly due to conveyance duty, reflecting growth in the average price of property transactions, as well as a higher number of receipts from large transactions. Insurance duty collections were also higher than for the same period in 2014, reflecting growth in average premiums.

Gambling tax receipts for the March quarter 2015 were lower than a year earlier due to the timing of payments to the Consolidated Account. Underlying gambling tax receipts for the March quarter 2015 and the nine months to March 2015 were broadly in line with the same period a year earlier.

Land tax receipts for the March quarter 2015 were lower than a year earlier, but overall land tax receipts for the nine months to March 2015 were higher than the same period in 2014. Both of these differences are mainly due to the timing of large land tax payments made by the South Australian Housing Trust.

Royalties

Royalty receipts for the nine months to March 2015 were lower than in the same period in 2014, mainly due to the combination of lower commodity prices, particularly iron ore and petroleum, and the transitioning of large producers to monthly payments in 2013-14.

Fees and charges

Fees and charges for the nine months to March 2015 are higher than in the same period in 2014, mainly due to higher guarantee which are in line with the increase in budget in 2014-15.

Commonwealth – General Purpose Payments

Growth in general purpose grants for the nine months to March 2015 compared to the same period last year is not indicative of underlying Goods and Services Tax (GST) revenue growth. This is because monthly grants are paid according to a payment schedule prepared by the Commonwealth Government rather than in accordance with the actual emerging monthly GST collections.

In its 2015-16 Budget, the Commonwealth Government indicated that the GST pool available to the States is estimated to grow by 5.7 per cent in 2014-15.

Receipts for the nine months to March 2015 are slightly higher than originally anticipated, mainly due to the annual adjustment for actual collections received by the Commonwealth in 2013-14.

Commonwealth – Specific Purpose Payments

Specific Purpose Payments (SPPs) for the nine months to March 2015 were lower than for the same period a year ago, mainly because the recurrent SPP for Government schools is now being paid directly to the Department of Education and Child Development under the new National Education Reform Agreement.

Commonwealth – National Partnership Payments

National Partnership (NP) payments for the nine months to March 2015 were lower than the same period last year, primarily because the Commonwealth Government is no longer funding the NP on Certain Concessions for Pensioner Concession Card and Senior Card Holders.

Other receipts

Other receipts for the first nine months to March 2015 were higher than the same period in 2014, mainly due to the return of equity from SA Water.

Payments

Payments of appropriation are made to Public Authority bank accounts in accordance with cash flow requests.

Payments to the Department of Planning, Transport and Infrastructure for the March quarter 2015 are lower than for the same period in 2014, mainly due to the payment of higher equity contributions in the March quarter 2014 to fund completed projects.

Payments for various Acts for the March quarter 2015 are lower than the same period in 2014, mainly due to the reduction in first home owner grants.

Note

Caution should be exercised in interpreting the quarterly statement of Consolidated Account transactions. Unlike the State Budget, which comprises transactions on an accrual basis, the information reflected in the quarterly statements is limited to cash transactions. Also, the Consolidated Account does not capture all the transactions undertaken by the general government sector (in particular, it does not record receipts to and payments from special deposit accounts). Finally, the timing of receipts and payments could be volatile within a particular year. As a result, apparently large movements between years may only be due to changes in the timing of receipts and payments and therefore may not have consequences for the underlying budget position.
