4—Definition of native vegetation—dead plants

For the purposes of paragraph (a) of the definition of **native vegetation** in section 3(1) of the Act, the class of plants, or parts of plants, comprising trees of a species indigenous to South Australia—

- (a) that have a trunk circumference (measured at a point 300 millimetres above the base of the tree) of—
 - (i) in the case of a tree located on Kangaroo Island—1 metre or more; or
 - (ii) in any other case—2 metres or more; and
- (b) that provide or have the potential to provide, or are a part of a group of trees or other plants (whether alive or dead) that provide or have the potential to provide, a habitat for animals of a listed threatened species under the *Environment Protection and Biodiversity Conservation Act 1999* of the Commonwealth,

is declared to be included in that definition.

5—Mitigation hierarchy

The mitigation hierarchy is as follows:

- (a) *avoidance*—measures must be taken to avoid clearance of native vegetation;
- (b) *minimisation*—if clearance of native vegetation cannot be avoided, measures must be taken to minimise the duration, intensity and extent of impacts of the clearance on biological diversity to the fullest possible extent (whether the impact is direct, indirect or cumulative);
- (c) *rehabilitation or restoration*—measures should be taken to rehabilitate ecosystems that have been degraded, and to restore ecosystems that have been destroyed, by impacts of clearance of native vegetation that cannot be avoided or further minimised;
- (d) *offset*—where required under these regulations, any adverse impact on native vegetation or ecosystems that cannot be avoided or minimised must be offset by the achievement of a significant environmental benefit that outweighs that impact.

Part 2—Guidelines

6—Guidelines to be prepared by Council

Pursuant to section 25(1)(e) of the Act, the Council is required to prepare draft guidelines in relation to a matter for which guidelines under that section are required for the purposes of a provision of Schedule 1.

Part 3—Permitted clearance of native vegetation

Division 1—Permitted clearance

7—Permitted clearance

- (1) Pursuant to section 27(1)(b) of the Act, native vegetation may, subject to any other Act or law to the contrary, be cleared as set out in this Part.
- (2) A person undertaking, or intending to undertake, clearance of native vegetation under this Part must—
 - (a) have regard to, and give effect to, the mitigation hierarchy; and
 - (b) comply with any applicable guidelines adopted by the Council under section 25 of the Act.

Division 2—Permitted clearance without conditions

8—Permitted clearance without conditions

- (1) Native vegetation may be cleared in any of the circumstances set out in Schedule 1 Part 1 Division 1.
- (2) Native vegetation may be cleared in the circumstances set out in Schedule 1 Part 1 Division 2 if the Council has been notified of the proposed clearance in the approved form or if reasonable endeavours have been made to provide such notification.

- (3) However, notification is not required under subregulation (2) if the purpose of the proposed clearance is to maintain an existing track or provide a strip of land on either or both sides of an existing fence (see Schedule 1 Part 1 Division 2 clauses 13 and 14).
- (4) The operation of this regulation extends to native vegetation that is growing or is situated on land that is subject to a heritage agreement or a management agreement if a provision of Schedule 1 Part 1 setting out circumstances in which vegetation may be cleared specifies that the provision applies to such vegetation.

Division 3—Fire hazard reduction

9—Clearance for fire hazard reduction

- (1) Native vegetation may be cleared in the circumstances set out in Schedule 1 Part 2 Division 1.
- (2) Native vegetation may be cleared in any of the circumstances set out in Schedule 1 Part 2 Division 2 if—
 - (a) clearance of the vegetation is undertaken in accordance with the written approval of the Chief Officer of SACFS and any applicable bushfire management plan; and
 - (b) the Council has been notified of the proposed clearance in the approved form.
- (3) The operation of this regulation extends to native vegetation that is growing or is situated on land that is subject to a heritage agreement or a management agreement if a provision of Schedule 1 Part 2 setting out circumstances in which vegetation may be cleared specifies that the provision applies to such vegetation.

10—Approval by Chief Officer

- (1) The Chief Officer of SACFS must not grant an approval under this Division unless the Chief Officer is satisfied that the clearance of native vegetation is reasonably required or appropriate for the purpose of fire prevention or control.
- (2) In considering whether to grant an approval under this Division, the Chief Officer of SACFS must have regard to—
 - (a) any applicable bushfire management plan; and
 - (b) any standards made or approved by the Council for the purposes of this Division.

Division 4—Vegetation management

11—Vegetation management (management plans)

- (1) Native vegetation may be cleared in any of the circumstances set out in Schedule 1 Part 3 if the clearance is undertaken in accordance with—
 - (a) a management plan relating to the clearance that is—
 - (i) prepared in accordance with applicable guidelines adopted by the Council under section 25 of the Act; and
 - (ii) approved by the Council; or
 - (b) applicable guidelines adopted by the Council under section 25 of the Act, or both, as determined by the Council.

- (2) The Council may, in considering whether to approve a management plan for the purposes of subregulation (1), seek and consider the advice of the regional NRM board for the NRM region where the relevant land is situated.
- (3) If, on consideration of an application for approval under subregulation (1), the Council, after applying the mitigation principles, is of the opinion that the clearance would be likely to result in residual significant adverse impacts despite the application of guidelines or a management plan (or both), the clearance must not be approved.
- (4) The operation of this regulation extends to native vegetation that is growing or is situated on land that is subject to a heritage agreement or a management agreement if a provision of Schedule 1 Part 3 setting out circumstances in which vegetation may be cleared specifies that the provision applies to such vegetation.

Division 5—Risk assessment

12—Risk assessment

- (1) Subject to this Division, native vegetation may be cleared in any of the circumstances set out in Schedule 1 Part 4, Part 5 or Part 6.
- (2) The operation of this regulation extends to native vegetation that is growing or is situated on land that is subject to a heritage agreement or a management agreement if a provision of the relevant Part of Schedule 1 setting out circumstances in which vegetation may be cleared specifies that the provision applies to such vegetation.

13—Clearance for major developments and projects

- (1) Clearance of native vegetation for the purposes of a development or project of a kind specified in Schedule 1 Part 4 is permitted only if it is undertaken in accordance with—
 - (a) the consent granted for the proposed development or project; and
 - (b) a management plan, approved by the Council for implementation, that results in a significant environmental benefit.
- (2) Subregulation (1)(b) does not apply if the owner of the land (or a person acting on the owner's behalf) has made a payment into the Fund of an amount considered by the Council to be sufficient to achieve a significant environmental benefit in the manner contemplated by section 21(6) or (6a) of the Act.

14—Clearance for mining and petroleum activities

- (1) Clearance of native vegetation for the purposes of mining activities or operations of a kind specified in Schedule 1 Part 5 Division 1 is permitted only if it is undertaken in accordance with—
 - (a) a management plan, approved by the Council for implementation, that results in a significant environmental benefit; and
 - (b) in the case of operations authorised under a Mining Act—a management plan under that Act; and
 - (c) in the case of operations authorised under the *Petroleum and Geothermal Energy Act 2000*—a statement of environmental objectives under that Act.

- (2) Subregulation (1)(a) does not apply if the person undertaking the activities or operations (or a person acting on the person's behalf) has made a payment into the Fund of an amount considered by the Council to be sufficient to achieve a significant environmental benefit in the manner contemplated by section 21(6) or (6a) of the Act.

15—Clearance for exploratory operations

- (1) Clearance of native vegetation for the purposes of exploratory operations of a kind specified in Schedule 1 Part 5 Division 2 is permitted only if it is undertaken in accordance with industry standards developed and endorsed by the Council for the purposes of this regulation following consultation with the Minister responsible for the administration of the *Mining Act 1971* (the *mining Minister*).
- (2) Industry standards endorsed by the Council for the purposes of this regulation must—
 - (a) be directed towards ensuring that exploratory operations will have a minimal impact on native vegetation and be conducted in a manner that will allow for immediate regrowth of any native vegetation that is cleared; and
 - (b) adequately address any concerns raised by the mining Minister during consultation.
- (3) However, if there are no applicable industry standards, or if it is not possible for the applicant to undertake the operations in accordance with applicable industry standards, the clearance is permitted if—
 - (a) the clearance is undertaken in accordance with a management plan, approved by the Council for implementation, that results in a significant environmental benefit; or
 - (b) the person undertaking the operations makes a payment into the Fund of an amount considered by the Council to be sufficient to achieve a significant environmental benefit in the manner contemplated by section 21(6) or (6a) of the Act.

16—Clearance for other activities

- (1) Clearance of native vegetation for the purposes of activities of a kind specified in Schedule 1 Part 6 is permitted only if it is undertaken in accordance with—
 - (a) the written approval of the Council; or
 - (b) a standard operating procedure determined or approved by the Council for the purposes of this provision.
- (2) Authorisation to clear native vegetation under subregulation (1) is subject to—
 - (a) a condition—
 - (i) that the clearance of native vegetation is to be undertaken in accordance with a management plan, approved by the Council for implementation, that results in a significant environmental benefit; or
 - (ii) that the person undertaking the operations is to make a payment into the Fund of an amount considered by the Council to be sufficient to achieve a significant environmental benefit in the manner contemplated by section 21(6) or (6a) of the Act,as determined by the Council; and
 - (b) such other conditions as the Council thinks fit.

- (3) Clearance of native vegetation for the purposes of activities of a kind specified in Schedule 1 Part 6 is permitted only if any conditions that apply to the approval are complied with.

17—Risk to biological diversity to be considered by Council

When making a determination for the purposes of regulation 16 as to—

- (a) the information to be provided by an applicant for approval to clear land; or
- (b) whether approval should be granted and, if so, the conditions (if any) of the approval,

the Council must make an assessment of, and have regard to, the level of risk to biological diversity conservation presented by the clearance proposal.

Division 6—Miscellaneous

18—Council approval

- (1) An application to the Council in connection with a proposal to clear native vegetation (including an application for approval to clear native vegetation) must be made in the approved form.
- (2) For the purposes of this Part (and without limiting any other provision), the Council may—
 - (a) require a person making an application to provide to the Council a report in the approved form relating to the proposed clearance prepared by an agency, instrumentality, person or body approved by the Council as an entity that may prepare a report of the relevant kind; or
 - (b) require a person making an application to provide to the Council such additional information as the Council reasonably requires to determine the application; or
 - (c) direct that information to be provided to the Council be in a form determined by the Council (after consulting with any relevant person as the Council thinks fit); or
 - (d) direct that a person comply with any other requirement determined by the Council (including a requirement as to the form or content of any plan or other document).
- (3) If an application is made to the Council for approval to clear native vegetation, the Council—
 - (a) must ensure that a copy of any report provided under subregulation (2)(a) is available for inspection, without fee, during ordinary office hours at the principal office of the Council, and is also available in any other manner, or at any other place, determined by the Minister; and
 - (b) must allow any person who desires to do so to make representations in writing to the Council, within 28 days of the day on which the application is received, in relation to the granting or refusal of approval; and
 - (c) may, as it thinks fit, allow a person to appear personally or by representative before it to be heard on whether the Council should or should not approve the application.

- (4) If a person is required by the Council to provide a report under subregulation (2)(a), the Council may also require the person to pay a fee for the preparation of the report.
- (5) The fee (if any) payable under subregulation (4) is the Minister's estimate of the reasonable cost of preparing the report after consultation with the Council.

19—Matters to be considered by Council

- (1) The Council must, when exercising a power or making a decision under this Part—
 - (a) apply the mitigation hierarchy; and
 - (b) consider, and aim to minimise, potential impacts on biological diversity arising from any proposed clearance of native vegetation; and
 - (c) consider, and aim to minimise, potential impacts on soil, water and other natural resources arising from any proposed clearance of native vegetation; and
 - (d) take into consideration comments from agencies or bodies provided in response to any request for comment made by the Council; and
 - (e) consider, and aim to minimise, impacts on—
 - (i) species or ecological communities listed as threatened under the *Environment Protection and Biodiversity Conservation Act 1999* of the Commonwealth; or
 - (ii) species listed as rare or threatened under the *National Parks and Wildlife Act 1972*; and
 - (f) consider the potential cumulative impact, both direct and indirect, that is reasonably likely result from a proposed clearance activity.

Note—

The Council is also obliged under section 14(2) of the Act to do the following when performing a function or exercising a power under the Act:

- take into account, and seek to further, the objects of the Act;
- take into account, and seek to further, the principles of clearance of native vegetation (insofar as they are relevant in the particular circumstances);
- take into account the provisions of the State NRM plan, and any other relevant NRM plan, under the *Natural Resources Management Act 2004*.

In addition, the Council must not act in a manner that is seriously at variance with the principles of clearance of native vegetation

- (2) The Council may, when considering an application under this Part for approval to clear vegetation, take into account the practicability and cost of any reasonable alternative to the proposed clearance.

20—Significant environmental benefit

- (1) If clearance of native vegetation that is growing or is situated on land is permitted under this Part subject to a condition requiring the achievement of a significant environmental benefit—
 - (a) the benefit is to be achieved, to the satisfaction of the Council, by—
 - (i) establishing and managing native vegetation on land as specified by the Council; or
 - (ii) managing and protecting native vegetation that is growing or is situated on land as specified by the Council; or
 - (iii) entering into a heritage agreement with the Minister under the Act in the terms specified by the Council for the management of specified native vegetation; or
 - (iv) taking action in accordance with Part 4A of the Act; and
 - (b) the Council must inform the Registrar-General in writing of the condition and must provide the Registrar-General with such further information as the Registrar-General requires to comply with subregulation (2).
- (2) The Registrar-General must note the condition against the relevant instrument of title for the land or, in the case of land not under the *Real Property Act 1886*, against the land.

21—Time within which permitted clearance must be undertaken

- (1) An approval given by the Council or the Chief Officer of the CFS for the purposes of this Part ceases to operate—
 - (a) 2 years after it is granted; or
 - (b) if the Council or Chief Officer specifies, when granting the approval, a longer period (which must not be more than 5 years after the approval is granted)—at the end of that period.
- (2) If clearance of native vegetation permitted under these regulations is to be undertaken in accordance with a management plan, the clearance must be commenced within 2 years of the day on which the plan is approved by the Council and undertaken within any time frame specified in the plan.

22—Conditions of approval

- (1) A condition imposed by the Council under this Part in connection with an approval granted in relation to clearance of native vegetation is binding on, and enforceable against—
 - (a) the person to whom the approval is granted; and
 - (b) all owners and subsequent owners of the land to be cleared and any other land to which the condition relates; and
 - (c) an occupier of the land to be cleared and any other person who acquires the benefit of the approval.
- (2) A person must not, without reasonable excuse, contravene or fail to comply with a condition imposed on an approval granted by the Council under this Part.
Maximum penalty: \$10 000.

Part 4—SA Motorsport Park

23—Clearance on SA Motorsport Park land

- (1) Pursuant to section 27(1)(b) of the Act, native vegetation may, subject to any other Act or law to the contrary, be cleared if—
 - (a) the land on which the vegetation is situated is in the SA Motorsport Park; and
 - (b) the clearance is incidental to development that has been authorised under the *Development Act 1993*; and
 - (c) the clearance is undertaken in accordance with a management plan that has been approved by the State Coordinator-General appointed under the *Development Regulations 2008*; and
 - (d) the State Coordinator-General is satisfied, after taking into account the full nature and extent of clearance that is to be undertaken on the relevant land and any commitments that have been made with respect to the establishment, restoration or maintenance of native vegetation, that—
 - (i) there will be a significant environmental benefit on the land or within the same region of the State; or
 - (ii) the owner of the land (or a person acting on his or her behalf) has, on application to the State Coordinator-General to proceed with clearing the vegetation in accordance with this provision (or regulation 5(1)(zo) of the revoked regulations), made a payment into the Fund or, if the State Coordinator-General is satisfied that it is appropriate in the circumstances, agreed to make a payment into the Fund, of an amount considered by the State Coordinator-General to be sufficient to achieve a significant environmental benefit, in the manner contemplated by section 21(6) or (6a) of the Act, which outweighs the value of retaining the vegetation.
- (2) In this regulation—

SA Motorsport Park means the land within the shaded area in the map set out in Schedule 2 and described as the "SA Motorsport Park Development Site".

Part 5—Application for consent

24—Application for consent
