## Part 7A—Drug and alcohol testing

### Division 1—Preliminary

#### 38A—Interpretation

- (1) In this Part, unless the contrary intention appears—

***approved blood test kit*** means a kit of a kind declared under the *Road Traffic Act 1961* to be an approved blood test kit;

***approved forensic laboratory*** means a laboratory approved by the CE as a forensic laboratory for the purposes of this Part;

***approved scientist*** means—

- (a) a person appointed by the CE as an approved scientist for the purposes of this Part; or
- (b) a person holding a position of a class approved by the CE for the purposes of this Part;

***authorised officer*** means—

- (a) a person appointed by the CE as an authorised officer for the purposes of this Part; or
- (b) a person holding a position of a class approved by the CE for the purposes of this Part;

***blood test information sheet*** means an information sheet in an approved form that sets out, for the benefit of sample collectors, the procedures prescribed under regulation 38L;

***medical practitioner*** means a person registered under the *Health Practitioner Regulation National Law* to practise in the medical profession (other than as a student);

***prescribed concentration of alcohol*** means a concentration of 0.02 grams or more of alcohol in 100 millilitres of blood;

***prescribed drug*** means—

- (a) cocaine;
- (b) delta-9-tetrahydrocannabinol;
- (c) diacetylmorphine;
- (d) methylamphetamine;
- (e) 3, 4-methylenedioxymethamphetamine (MDMA);

**registered nurse** means a person registered under the *Health Practitioner Regulation National Law*—

- (a) to practise in the nursing and midwifery profession as a nurse (other than as a student); and
- (b) in the registered nurses division of that profession;

**responsible person**, in relation to an approved forensic laboratory, means a person approved by the CE as a responsible person for the forensic laboratory for the purposes of this Part;

**sample collector** means—

- (a) in the case of a sample of blood—a medical practitioner or registered nurse; and
- (b) in the case of a sample of oral fluid or urine—an authorised officer;

**test subject** means a person required to undergo drug and alcohol testing under Part 7A of the Act;

**urine screening test** means a test of a kind approved by the CE under regulation 38C for the conduct of urine screening tests.

- (2) For the purposes of this Part, a reference to a document being in an **approved form** means in a form approved by the CE under regulation 38C.

### **38B—Apparatus for conduct of drug screening tests**

For the purposes of the definition of **drug screening test** in section 81S(1) of the Act, an apparatus a kind authorised by the CE is approved for the conduct of drug screening tests.

### **38C—CE may give approvals and authorisations for purposes of this Part**

The CE may give such approvals or authorisations as are necessary or contemplated for the purposes of this Part, including (for example) approving or authorising certificates, other forms and tests for the conduct of urine screening.

## **Division 2—Testing for drugs**

### **38D—General requirements**

- (1) If a test subject (other than a person to whom section 81U(1) or 81V(1) of the Act applies) has been required to submit to testing for the presence of drugs under Part 7A of the Act—
  - (a) any drug screening test may not be commenced more than 8 hours following a critical incident; and
  - (b) any biological sample that is required to be taken from the test subject must not be taken more than 8 hours following a critical incident.
- (2) The performance of a drug screening test commences when a direction is first given to the test subject to provide a sample of oral fluid to be used for the drug screening test.

- (3) The following applies to the taking of a biological sample from a test subject by an authorised officer for the purposes of testing for drugs:
  - (a) if the authorised officer considers that a sample of oral fluid can be taken—the authorised officer must take a sample of oral fluid;
  - (b) if the authorised officer considers that a sample of oral fluid cannot be taken but that a sample of urine can—the authorised officer must take a sample of urine;
  - (c) if the authorised officer considers that neither a sample of oral fluid nor a sample of urine can be taken—the authorised officer must arrange for a medical practitioner or registered nurse to take a sample of blood.

### **38E—Oral fluid sample processes**

- (1) The following are the procedures in accordance with which a sample of a test subject's oral fluid must be taken and dealt with for the purposes of testing for drugs:
  - (a) the authorised officer must provide the test subject with the means by which the test subject can provide the sample of oral fluid;
  - (b) when the authorised officer is satisfied that the test subject has provided a satisfactory sample of the test subject's oral fluid, the officer must place the sample, in approximately equal proportions, in 2 containers suitable for the purpose;
  - (c) each container must contain a sufficient quantity of oral fluid to enable an analysis to be made of the presence of a prescribed drug in the oral fluid;
  - (d) the authorised officer must then mark each container in a manner approved by the CE and seal each container;
  - (e) it is the duty of the authorised officer to take such measures as are reasonably practicable in the circumstances to ensure that the sample is not adulterated and does not deteriorate so as to prevent a proper analysis of the presence of a prescribed drug in the oral fluid;
  - (f) the authorised officer must then complete a certificate in the approved form by inserting the particulars required by the form, which must then be signed by the officer and the test subject;
  - (g) the original of the signed certificate must then be sent to or retained on behalf of the CE;
  - (h) a copy of the signed certificate must be delivered to the test subject together with a written notice advising that a container containing part of the oral fluid sample taken from the test subject and marked with the identification number specified in the notice will be available for collection by or on behalf of the test subject at a specified place.
- (2) A test subject must comply with all reasonable directions of an authorised officer in connection with the taking of an oral fluid sample and the signing of a certificate under this regulation.

**38F—Urine sample processes**

- (1) The following are the procedures in accordance with which a sample of a test subject's urine must be taken and dealt with for the purposes of testing for drugs:
  - (a) the authorised officer must provide the test subject with a urine collection container and allow the test subject to provide the sample in private;
  - (b) the test subject must provide a sufficient sample of the test subject's urine in the container and then deliver the container to the authorised officer immediately;
  - (c) the authorised officer—
    - (i) must, within 4 minutes of receiving the sample, test the temperature, and conduct a visual examination, of the sample; and
    - (ii) may conduct any other test designed to determine whether or not the sample is a sample of the test subject's urine and is otherwise suitable for analysis;
  - (d) if the authorised officer has reasonable cause to suspect that the sample—
    - (i) is not a sample of the test subject's urine or has been diluted or tampered with in any way; or
    - (ii) is not suitable for analysis for some other reason,the officer must require another sample to be provided in accordance with this regulation;
  - (e) if the test subject provides 2 samples that, in the opinion of the authorised officer, are not samples of the test subject's urine or are otherwise unsuitable for analysis, the test subject will be taken to have failed to comply with section 81T, 81U or 81V of the Act (as the case requires);
  - (f) when the authorised officer is satisfied that the test subject has provided a satisfactory sample of the test subject's urine, the officer may subject the sample to a urine screening test to determine whether the sample should be submitted for analysis;
  - (g) if the authorised officer does not subject the sample to a urine screening test, or a urine screening test indicates that a prescribed drug may be present in the sample, the officer must, in the presence of the test subject place the sample, in approximately equal proportions, in 2 containers suitable for the purpose;
  - (h) each container referred to in paragraph (g) must contain a sufficient quantity of urine to enable an analysis to be made of the presence of a prescribed drug in the urine;
  - (i) the authorised officer must then mark each container in a manner approved by the CE and seal each container;

- (j) it is the duty of the authorised officer to take such measures as are reasonably practicable in the circumstances to ensure that the urine is not adulterated and does not deteriorate so as to prevent a proper assessment of the concentration of any prescribed drug present in the urine of the test subject;
  - (k) the authorised officer must then complete a certificate in the approved form by inserting the particulars required by the form, which must then be signed by the officer and the test subject;
  - (l) the original of the signed certificate must then be sent to or retained on behalf of the CE;
  - (m) a copy of the signed certificate must be delivered to the test subject together with 1 of the sealed containers containing part of the urine sample.
- (2) A test subject must comply with all reasonable directions of an authorised officer in connection with the taking of a urine sample and the signing of a certificate under this regulation.

### **38G—Blood sample processes**

- (1) The following are the procedures in accordance with which a sample of a test subject's blood must be taken and dealt with for the purposes of testing for drugs:
- (a) the sample must be taken by a medical practitioner or registered nurse;
  - (b) the sample collector must place the sample, in approximately equal proportions, in 2 containers suitable for the purpose;
  - (c) each container must contain a sufficient quantity of blood to enable an accurate evaluation to be made of any concentration of any prescribed drug present in the blood and the sample of blood taken by the sample collector must be such as to furnish 2 such quantities of blood;
  - (d) the sample collector must then mark each container in a manner approved by the CE and seal each container;
  - (e) it is the duty of the sample collector to take such measures as are reasonably practicable in the circumstances to ensure that the blood is not adulterated and does not deteriorate so as to prevent a proper assessment of the concentration of any prescribed drug present in the blood of the test subject;
  - (f) the sample collector must then complete a certificate in the approved form by inserting the particulars required by the form, which must then be signed by the sample collector and the test subject;
  - (g) the original of the signed certificate must then be sent to or retained on behalf of the CE;
  - (h) a copy of the signed certificate must be delivered to the test subject together with 1 of the sealed containers containing part of the blood sample;

- (i) a copy of the signed certificate must be delivered by the sample collector together with the other sealed container containing part of the blood sample to an authorised officer.
- (2) A test subject must comply with all reasonable directions of a sample collector in connection with the taking of a blood sample and the signing of a certificate under this regulation.

### **38H—Analysis of biological sample**

- (1) If an authorised officer—
  - (a) takes a urine or oral fluid sample and completes a certificate in relation to the sample; or
  - (b) is given a blood sample and a certificate in relation to the sample, in accordance with this Division, the authorised officer must cause the sample and certificate to be delivered to an approved forensic laboratory as soon as is reasonably practicable after the relevant taking or giving of the sample or certificate.
- (2) A responsible person for the approved forensic laboratory must, as soon as possible following the delivery of a sample under subregulation (1), ensure that the sample is analysed by or under the supervision of an approved scientist to determine the presence of any prescribed drug in the sample.
- (3) The approved scientist must then complete and sign a certificate certifying as to the following matters:
  - (a) the date of receipt at the approved forensic laboratory of the sample container and the certificate accompanying the sample container;
  - (b) the details of the mark on the sample container and the manner in which it was sealed;
  - (c) the name and professional qualifications of the approved scientist;
  - (d) the presence of any prescribed drug found to be present in the sample;
  - (e) any factors relating to the sample or the analysis that might, in the opinion of the approved scientist, adversely affect the accuracy or validity of the analysis;
  - (f) any other information relating to the sample or analysis (or both) that the approved scientist thinks fit to include.
- (4) The approved scientist's certificate must be sent by post to the test subject at the address shown as the test subject's address on the certificate accompanying the sample container.
- (5) A copy of the approved scientist's certificate must be sent to the CE.
- (6) A biological sample delivered to an approved forensic laboratory under this regulation must be held by a responsible person for the approved forensic laboratory for a period of not less than 6 months following the delivery.

### **Division 3—Alcohol testing**

#### **38I—Breath analyses—general**

- (1) An authorised officer may carry out breath testing of a test subject under this Division.
- (2) Breath analysis to which a test subject has been required to submit under Part 7A of the Act may not be commenced more than 8 hours following a critical incident.
- (3) The performance of breath analysis commences when a direction is first given to the test subject to exhale into the breath analysing instrument to be used for the test.
- (4) A test subject required under the Act to submit to breath analysis must not refuse or fail to comply with all reasonable directions of the person operating the breath analysing instrument in relation to the requirement and, in particular, must not refuse or fail to exhale into the instrument by which the breath analysis is conducted in accordance with the directions of the person operating the instrument.

#### **38J—Concentration of alcohol in breath taken to indicate concentration of alcohol in blood**

If a test subject submits to a breath analysis and the breath analysing instrument produces a reading in terms of a number of grams of alcohol in 210 litres of the person's breath, the reading will, for the purposes of this Part, be taken to be that number of grams of alcohol in 100 millilitres of the person's blood.

#### **38K—Conduct of breath analysis**

- (1) If a test subject submits to a breath analysis, the initial breath analysis must be conducted as follows:
  - (a) the test subject must provide an initial sample of breath for analysis;
  - (b) the sample must be provided in accordance with the directions of the authorised officer conducting the analysis and must consist of not less than 1 litre of breath;
  - (c) if the sample provided under paragraph (a) indicates that at least the prescribed concentration of alcohol may be present in the blood of the test subject, the test subject may be required to submit to further breath analysis under this regulation.
- (2) Despite subregulation (1)—
  - (a) if, on analysing the sample of breath, the breath analysing instrument indicates an error in the analysis of the sample—
    - (i) that sample must be disregarded; and
    - (ii) the test subject may be required to provide a further sample of breath for analysis using a different instrument (and that sample must be provided in accordance with subregulation (1)(b)); or

- (b) if, on analysing a sample of breath, the breath analysing instrument indicates the presence of alcohol in the mouth of the test subject—
  - (i) that sample must be disregarded; and
  - (ii) the test subject may be required to provide a further sample of breath for analysis (and that sample must be provided in accordance with subregulation (1)(b)).
- (3) If a test subject is required to submit to further breath analysis under this regulation, the breath analysis must be conducted in the following manner:
  - (a) the test subject must provide 2 separate samples of breath for analysis;
  - (b) each sample must be provided in accordance with the directions of the authorised officer conducting the analysis and must consist of not less than 1 litre of breath;
  - (c) there must be an interval of not less than 2 minutes and not more than 10 minutes between the provision of the samples.
- (4) Despite subregulation (3)—
  - (a) if, on analysing a sample of breath, the breath analysing instrument indicates an error in the analysis of the sample—
    - (i) that sample, or, if that sample was the second sample provided, both samples, must be disregarded; and
    - (ii) the test subject may be required to provide 2 further samples of breath for analysis using a different instrument (and such samples must be provided in accordance with subregulation (3)(b) and (c)); or
  - (b) if, on analysing a sample of breath, the breath analysing instrument indicates the presence of alcohol in the mouth of the test subject—
    - (i) that sample, or, if that sample was the second sample provided, both samples, must be disregarded; and
    - (ii) the test subject may be required to provide 2 further samples of breath for analysis (and such samples must be provided in accordance with subregulation (3)(b) and (c)); or
  - (c) if, on analysing 2 samples of breath, the breath analysing instrument indicates that the reading obtained on analysis of the second sample was more than 15% higher or lower than the reading obtained on analysis of the first sample—
    - (i) those samples must be disregarded; and
    - (ii) the test subject may be required to provide 2 further samples of breath for analysis (and such samples must be provided in accordance with subregulation (3)(b) and (c)); or
  - (d) if, for any reason, a second sample of breath is not provided within 10 minutes of the provision of the first sample—

- (i) the first sample is to be disregarded; and
  - (ii) the test subject may be required to provide 2 further samples of breath for analysis (and such samples must be provided in accordance with subregulation (3)(b) and (c)).
- (5) If a test subject submits to a breath analysis, the result of the breath analysis will, for the purposes of Part 7A of the Act, be taken to be the reading produced by the breath analysing instrument, on analysis of the samples of breath provided by the test subject in accordance with this regulation, that indicates the lowest concentration of alcohol in the test subject's breath (not taking into account any samples that, in accordance with this regulation, are to be disregarded).

### **38L—Procedures for voluntary blood test**

The following are the procedures in accordance with which a sample of a test subject's blood must be taken and dealt with for the purposes of testing for the presence of alcohol:

- (a) the test subject must cause the sample to be taken by a medical practitioner or registered nurse of the test subject's choice and must deliver to the sample collector—
  - (i) the blood test kit supplied to the test subject under regulation 38N(4)(b) for use for that purpose; and
  - (ii) the blood test information sheet supplied to the test subject under regulation 38M;
- (b) the sample must be taken by the sample collector as soon as is reasonably practicable but, in any event, within 4 hours of the test subject having submitted to the breath analysis indicating, for the purposes of the Act, the presence of alcohol in the test subject's blood;
- (c) the sample collector must place the sample, in approximately equal proportions, in 2 containers (being the containers provided as part of the blood test kit);
- (d) each container must contain a sufficient quantity of blood to enable an accurate evaluation to be made of any concentration of alcohol present in the blood and the sample of blood taken by the sample collector must be such as to furnish 2 such quantities of blood;
- (e) the sample collector must seal each container by application of the adhesive seal bearing an identifying number provided as part of the blood test kit;
- (f) it is the duty of the sample collector to take such measures as are reasonably practicable in the circumstances to ensure that the blood is not adulterated and does not deteriorate so as to prevent a proper assessment of the concentration of alcohol present in the blood of the test subject;
- (g) the sample collector must then complete a certificate in the approved form by inserting the particulars required by the form;

- (h) the certificate must be signed by the sample collector certifying as to the matters set out in the form;
- (i) the certificate must also bear the signature of the test subject, attested to by the signature of the sample collector;
- (j) the original of the signed certificate must then be delivered to the test subject together with 1 of the sealed containers containing part of the blood sample;
- (k) a copy of the signed certificate must be delivered by the sample collector together with the other sealed container containing part of the blood sample to an authorised officer who must, in turn, deliver that copy of the certificate and the blood sample container to responsible person for the approved forensic laboratory;
- (l) the blood sample container and copy of the certificate referred to in paragraph (k) must not be delivered into the possession of the test subject;
- (m) on receipt of the blood sample container and certificate at an approved forensic laboratory, the blood in the container must be analysed as soon as is reasonably practicable by or under the supervision of an approved scientist to determine the concentration of alcohol present in the blood expressed in grams in 100 millilitres of blood;
- (n) the approved scientist must then complete and sign a certificate certifying as to the following matters:
  - (i) the date of receipt at the approved forensic laboratory of the blood sample container and the certificate accompanying the blood sample container;
  - (ii) the identifying number appearing on the adhesive seal used to seal the blood sample container;
  - (iii) the name and professional qualifications of the approved scientist;
  - (iv) the concentration of alcohol found to be present in the blood expressed in grams in 100 millilitres of blood;
  - (v) any factors relating to the blood sample or the analysis that might, in the opinion of the approved scientist, adversely affect the accuracy or validity of the analysis;
  - (vi) any other information relating to the blood sample or analysis or both that the approved scientist thinks fit to include;
- (o) the approved scientist's certificate must be sent by post to the test subject at the address shown as the test subject's address on the certificate accompanying the blood sample container;
- (p) a copy of the approved scientist's certificate must be sent to or retained on behalf of the CE.

**38M—Request for approved blood test kit**

- (1) For the purposes of regulation 38N(4)(b), a request for an approved blood test kit must be made in accordance with the following provisions:
  - (a) the request may, in the first instance, be made orally to the authorised officer conducting the breath analysis;
  - (b) on such a request having been made by the test subject, the authorised officer or any other officer or employee of the Department present must complete a written request in an approved form by inserting the particulars required by the form;
  - (c) the test subject making the request must then sign the request form in the presence of the authorised officer or other officer or employee of the Department and the test subject's signature must be attested to by the signature of the authorised officer or other officer or employee;
  - (d) the original of the signed request form may be retained by the test subject making the request;
  - (e) a copy of the signed request form must be delivered to the authorised officer or other officer or employee of the Department.
- (2) The copy of the request form delivered to the authorised officer or other officer or employee of the Department must be delivered to the CE or retained on the CE's behalf for 12 months from the day on which the request form was signed by the test subject making the request.
- (3) If a test subject requests an approved blood test kit, the authorised officer or any other officer or employee of the Department must provide the test subject with a blood test information sheet.

**Division 4—Evidence etc****38N—Evidence etc**

- (1) If the requirements and procedures in relation to breath analysing instruments and breath analysis under this Part, including subregulations (3) and (4), have been complied with, it must be presumed, in the absence of proof to the contrary, that the concentration of alcohol so indicated was present in the blood of the test subject at the time of the analysis.
- (2) No evidence can be adduced in rebuttal of the presumption created by subregulation (1) except—
  - (a) evidence of the concentration of alcohol in the blood of the test subject as indicated by analysis of a sample of blood taken and dealt with in accordance with the procedures set out in this Part; and
  - (b) evidence as to whether the results of analysis of the sample of blood demonstrate that the breath analysing instrument gave a false reading of the concentration of alcohol present in the blood of the test subject.

- (3) As soon as is practicable after a test subject has submitted to an analysis of breath by means of a breath analysing instrument, the authorised officer who conducted the analysis must deliver to the test subject a statement in writing specifying—
  - (a) the reading produced by the breath analysing instrument; and
  - (b) the date and time of the analysis.
- (4) If a test subject has submitted to an analysis of breath by means of a breath analysing instrument and any concentration of alcohol is indicated as being present in the blood of that test subject by the breath analysing instrument, the authorised officer who conducted the analysis must immediately—
  - (a) give the person the oral advice determined by the CE and deliver to the person the written notice determined by the CE as to the operation of this Act in relation to the results of the breath analysis and as to the procedures set out in this Part for the taking and analysis of a sample of the person's blood; and
  - (b) at the request of the person made in accordance with regulation 38M, deliver an approved blood test kit to the person.
- (5) A certificate purporting to be signed by an authorised officer in relation to a breath analysing instrument and to certify that—
  - (a) the apparatus used by the authorised officer was a breath analysing instrument within the meaning of Part 7A of the Act; and
  - (b) the breath analysing instrument was in proper order and was properly operated; and
  - (c) the provisions of Part 7A of the Act and this Part with respect to breath analysing instruments and the manner in which an analysis of breath by means of a breath analysing instrument is to be conducted were complied with is, in the absence of proof to the contrary, proof of the matters so certified.
- (6) A certificate purporting to be signed by an approved scientist, certifying as to the concentration of alcohol, or any prescribed drug, found in a specimen of blood identified in the certificate expressed in grams in 100 millilitres of blood is, in the absence of proof to the contrary, proof of the matters so certified.
- (7) A certificate purporting to be signed by an authorised officer and to certify that—
  - (a) a person named in the certificate submitted to an analysis of breath by means of a breath analysing instrument on a day and at a time specified in the certificate; and
  - (b) the breath analysing instrument produced a reading specified in the certificate; and
  - (c) a statement in writing required by subregulation (3) was delivered in accordance with that subregulation,is, in the absence of proof to the contrary, proof of the matters so certified.

- (8) A certificate purporting to be signed by an authorised officer and to certify—
- (a) that, on a date and at a time specified in the certificate, a person named in the certificate submitted to an analysis of breath by means of a breath analysing instrument; and
  - (b) that the relevant oral advice and the relevant written notice were given and delivered to the person in accordance with subregulation (4)(a); and
  - (c) that—
    - (i) the person did not make a request for an approved blood test kit in accordance with this Part; or
    - (ii) at the request of the person, a kit that, from an examination of its markings, appeared to the person signing the certificate to be an approved blood test kit was delivered to the person in accordance with subregulation (4)(b),

is, in the absence of proof to the contrary, proof that the requirements of subregulation (4) were complied with in relation to the person.

- (9) A certificate purporting to be signed by an authorised officer and to certify that an apparatus referred to in the certificate is or was of a kind approved by regulation 38B for the conduct of drug screening tests is, in the absence of proof to the contrary, proof of the matter so certified.
- (10) A certificate purporting to be signed by an authorised officer and to certify that a person named in the certificate submitted to a drug screening test on a specified day and at a specified time and that the drug screening test indicated that a prescribed drug may then have been present in the oral fluid of the person is, in the absence of proof to the contrary, proof of the matters so certified.
- (11) A certificate purporting to be signed by an authorised officer and to certify that an apparatus used to conduct a drug screening test was in proper order and that the drug screening test was properly conducted is, in the absence of proof to the contrary, proof of the matters so certified.
- (12) A certificate purporting to be signed by an authorised officer and to certify that a person named in the certificate was required under Part 7A of the Act and this Part to submit to breath analysis and refused or failed to comply with all reasonable directions of an authorised officer in relation to the requirement is, in the absence of proof to the contrary, proof of the matter so certified.
- (13) A certificate purporting to be signed by the CE and to certify that—
- (a) a person named in the certificate is an authorised officer; or
  - (b) a person named in the certificate is an approved scientist; or
  - (c) a person named in the certificate is a responsible person for an approved forensic laboratory,

is, in the absence of proof to the contrary, proof of the matter so certified.

- (14) In disciplinary proceedings referred to in section 81X of the Act, and in the absence of proof to the contrary, any of the following certificates is evidence of the matters certified in the certificate:
- (a) a certificate purporting to be signed by a sample collector certifying that an identified urine or oral fluid sample was taken or collected—
    - (i) from a named person; and
    - (ii) at a specified date and time; and
    - (iii) in accordance with this Part;
  - (b) a certificate purporting to be signed by a medical practitioner or registered nurse certifying that an identified blood sample was taken or collected—
    - (i) from a named person; and
    - (ii) at a specified date and time; and
    - (iii) in accordance with this Part;
  - (c) a certificate purporting to be signed by an authorised officer certifying—
    - (i) that the apparatus used to conduct an oral fluid analysis was in proper order; and
    - (ii) that the oral fluid analysis was properly conducted;
  - (d) a certificate purporting to be signed by an approved scientist certifying—
    - (i) that an identified blood, urine or oral fluid sample taken from a named person was analysed for alcohol or prescribed drugs in accordance with this Part; and
    - (ii) the results obtained from that analysis.
- (15) If a certificate of an approved scientist relating to a blood, urine or oral fluid sample taken in accordance with this Part is received as evidence in disciplinary proceedings and states that a prescribed drug has been found to be present in the blood, urine or oral fluid sample to which the certificate relates, it will be presumed, in the absence of proof to the contrary, that the prescribed drug stated in the certificate was present in the sample when the sample was taken.

## **Division 5—Other matters**

### **380—Test subject may arrange for analysis of biological sample**

- (1) A test subject from whom a biological sample was taken for the purposes of Part 7A of the Act may cause the sample as contained in the sample container delivered to that test subject to be analysed to determine the presence of any alcohol or prescribed drug present in the sample.
- (2) The cost of analysis under subregulation (1) will be borne by the test subject.

**38P—Destruction of biological samples**

The CE must ensure that a biological sample taken for the purposes of Part 7A of the Act (and any other forensic material taken incidentally in the course of drug and alcohol testing) is destroyed—

- (a) if disciplinary proceedings based on evidence of the results of analysis of the biological sample are not commenced—as soon as is reasonably practicable after the decision has been made not to commence proceedings; or
- (b) if disciplinary proceedings are commenced—as soon as is reasonably practicable after the proceedings (including any proceedings on review or appeal) are finally determined or discontinued.

**Note—**

As required by section 10AA(2) of the *Subordinate Legislation Act 1978*, the Minister has certified that, in the Minister's opinion, it is necessary or appropriate that these regulations come into operation as set out in these regulations.

### **Part 1—Preliminary**

#### **1—Short title**

These regulations may be cited as the *Landscape South Australia (Transitional Provisions) (Miscellaneous) Variation Regulations 2020*.

#### **2—Commencement**

These regulations come into operation on 9 April 2020.

#### **3—Variation provisions**

In these regulations, a provision under a heading referring to the variation of specified regulations varies the regulations so specified.

## **Part 2—Variation of *Landscape South Australia (Transitional Provisions) Regulations 2019***

### **4—Variation of heading to Part 2**

Heading to Part 2—delete "Establishment of boards" and substitute:

Governance

### **5—Variation of regulation 5—Regional NRM boards**

Regulation 5—after its present contents (now to be designated as subregulation (1)) insert:

- (2) In connection with the operation of Schedule 5 clause 90(1) of the Act—
  - (a) if a person is appointed under that clause as the sole member of a regional NRM board—they will be taken to be the presiding member of the board under the repealed Act; and
  - (b) if 2 or more persons are appointed under that clause as the members of a regional NRM board—the Minister may appoint 1 of the persons as the presiding member of the board under the repealed Act.

### **6—Insertion of regulations 6 to 8**

After regulation 5 insert:

#### **6—NRM groups**

- (1) An NRM group that has not been abolished under section 46 of the repealed Act before the designated day will continue in existence until abolished by the Minister by notice in the Gazette under this regulation.
- (2) In connection with subregulation (1)—
  - (a) subject to any direction of the Minister, the NRM group will be responsible to the regional landscape board or boards with regions that coincide with any part of the area within which the NRM group operates; and
  - (b) sections 47 to 62 (inclusive), other than section 61, of the repealed Act will continue to apply to and in relation to the NRM group subject to the following provisions:
    - (i) a reference in those sections to a relevant regional NRM board or boards will be taken to be a reference to the relevant regional landscape board or boards referred to in paragraph (a); and
    - (ii) a reference in those sections to a relevant regional NRM plan will be taken to include a reference to a relevant regional landscape plan; and
    - (iii) the functions of the NRM group will include supporting the objects of the Act and assisting in other ways to support the administration of the Act at the local level; and

- (c) on the abolition of the NRM group the Minister may, by notice in the Gazette, provide for the vesting or distribution of any outstanding property, assets or rights of the NRM group, and attach any liability of the NRM group to the Minister or to a regional landscape board (as the Minister thinks fit).
- (3) In this regulation—
- designated day* means the designated day under Schedule 5 clause 90 of the Act.

## **7—NRM Committees**

- (1) A committee established by a regional NRM board under section 35 of the repealed Act and in existence immediately before the designated day will, subject to the Act, be taken to be a committee established under section 36 of the Act by a regional landscape board or boards with a region, or any part of a region that coincides with the region of the NRM board (and then may be reconstituted or dissolved by the regional landscape board or boards as they think fit).
- (2) In this regulation—
- designated day* means the designated day under Schedule 5 clause 90 of the Act.

## **8—Financial statements and annual reports**

- (1) The Chief Executive will be responsible for—
- (a) the finalisation of the accounts and financial statements for the 2019/2020 financial year for regional NRM boards and NRM groups; and
  - (b) the preparation of an annual report relating to the activities of regional NRM boards and NRM groups for the 2019/2020 financial year.
- (2) Subregulation (1) does not apply in relation to an NRM group that continues in existence during any part of the 2020/2021 financial year.
- (3) If a regional landscape board established during the 2019/2020 financial year does not hold any money during that financial year, the board is not required to prepare and provide an annual report for that financial year to the Minister.

## **7—Insertion of Parts 3 to 5**

After regulation 8 insert:

### **Part 3—Financial matters (including levies)**

#### **9—Amounts outstanding under *Water Resources Act 1997***

- (1) This regulation applies to—
- (a) a levy or penalty declared under the relevant Act; and
  - (b) interest payable under the relevant Act (including interest that may be declared on account of any default under the relevant Act); and
  - (c) any rental for water meters; and

- (d) any other fee or amount payable under the relevant Act.
- (2) An amount or liability to which this regulation applies is prescribed for the purposes of Schedule 5 clause 96(d) of the Act.
- (3) An amount or liability to which this regulation applies that is recovered under the repealed Act—
  - (a) will, subject to the operation of Schedule 5 clause 97 of the Act, be paid into the NRM Fund; and
  - (b) will be applied—
    - (i) for any purpose for which it could be applied before the relevant day; or
    - (ii) for any purpose connected with the operation of the repealed Act or the *Landscape South Australia Act 2019*.
- (4) In this regulation—

*relevant Act* means the *Water Resources Act 1997*;

*relevant day* means the day on which Parts 1 and 8 of the relevant Act are repealed.

## 10—Funds to assist in implementation of Act

A regional NRM board may apply any part of its fund under section 120 of the repealed Act in providing support to the implementation of the *Landscape South Australia Act 2019*.

## 11—Additional transitional financial years

- (1) In relation to a prescribed transitional financial year—
  - (a) the annual business plan of a regional landscape board does not need to be consistent with a regional landscape plan insofar as that plan is a regional NRM plan that has been applied and adopted under Schedule 5 Part 30 of the Act; and
  - (b) the Minister may extend the scheme established under Schedule 5 clause 95(4) of the Act so that it applies in relation to 1 or both of the prescribed transitional financial years, subject to the following qualifications:
    - (i) subsections (4) to (10) of section 51 of the Act will apply in relation to those prescribed transitional financial years;
    - (ii) the scheme may not modify the requirements of sections 66, 71 or 76 of the Act in relation to those prescribed transitional financial years,but otherwise the scheme may continue to apply as set out in Schedule 5 clause 95 of the Act.

- (2) In this regulation—

*prescribed transitional financial year* means the 2023/2024 financial year and the 2024/2025 financial year.

## Part 4—Water management

### 12—General

- (1) The following regulations will, on and from the designated day, continue to have force and effect as if they were regulations made under the relevant provisions of the Act (and may be varied or revoked by the Governor under the Act):
  - (a) the *Natural Resources Management (Eastern and Western Mount Lofty Ranges—Prescribed Water Resources) (Exemption of Certain Existing Users) Regulations 2012*;
  - (b) the *Natural Resources Management (Marne Saunders Prescribed Water Resources Area—Reduction of Water Access Entitlements) Regulations 2009*;
  - (c) the *Natural Resources Management (Peake, Roby and Sherlock Prescribed Wells Area—Reduction of Water Access Entitlements) Regulations 2010*.
- (2) A direction given to an owner of land under section 134 of the repealed Act, and in effect immediately before the designated day, will continue to have effect as it had been given under section 111 of the Act.
- (3) A proclamation under section 142 or Schedule 2 of the repealed Act, and in effect immediately before the designated day, will continue to have effect as if it were a proclamation made under the corresponding provisions of the Act (and may be varied or revoked by the Governor under the Act).
- (4) A determination of the Minister under section 146(4) of the repealed Act, and in effect immediately before the designated day, will continue to have effect as if it had been made under the corresponding section of the Act (and may be varied by the Minister under the Act).
- (5) A procedure established by the Minister in relation to applications for licences under section 147(2) of the repealed Act, as in effect immediately before the designated day, may continue to have effect under section 122 of the Act.
- (6) A determination of the Minister under section 152(7)(b) of the repealed Act, or any policy established by the Minister for the purposes of that section, and in effect immediately before the designated day, will continue to have effect as if it had been made under the corresponding section of the Act.
- (7) A requirement, direction, approval, specification or determination of the Minister under Part 3 of the *Natural Resources Management (Financial Provisions) Regulations 2005*, and in effect immediately before the designated day, will continue to have effect as if it had been made under the corresponding regulations under the Act (and may be varied by the Minister on or after the designated day as the Minister thinks fit).

- (8) A direction under regulation 20 of the *Natural Resources Management (General) Regulations 2005*, and in effect immediately before the designated day, will continue to have effect as if it had been made under the corresponding regulations under the Act (and in the case of a direction of the Chief Officer, that will be taken to be a direction of the Chief Executive, and any such direction may be varied on or after the designated day).
- (9) In this regulation—  
*designated day* means the designated day under Schedule 5 clause 101 of the Act.

### **13—Bundled water licences**

- (1) A quantity of water included as part of a water licence, as determined under a water allocation plan or section 164N of the repealed Act or section 155 of the Act, and as referred to in Schedule 5 clause 102(1)(b) of the Act, may be taken to be a water access entitlement (and may then be transferred or otherwise dealt with as a water access entitlement under the Act).
- (2) A water allocation plan is not required to comply with the requirements of section 53(1)(c) and (d) of the Act in relation to a prescribed water resource under Schedule 5 clause 102 of the Act.
- (3) A water allocation plan that relates to a prescribed water resource under Schedule 5 clause 102 of the Act may be reviewed or amended without the need to make provision for—
  - (a) a matter referred to in section 53(1)(c) or (d) of the Act; or
  - (b) any other matter that is subject to the operation of Schedule 5 clause 102 of the Act.
- (4) This regulation applies in relation to a particular prescribed water resource until the designated day for the prescribed water resource under Schedule 5 clause 102 of the Act.

## **Part 5—Miscellaneous**

### **14—Regional landscape board staff**

- (1) This regulation applies in relation to any person employed under section 35(4) of the Act before 1 July 2021.
- (2) Until 1 July 2021, the Chief Executive (rather than the general manager of a regional landscape board) will, after obtaining the approval of the Commissioner for Public Sector Employment, determine the terms and conditions of employment of a person to whom this regulation applies.

**15—Landscape affecting activities**

The Minister may approve a landscape affecting activities control policy, and make any consequential amendment to a regional landscape plan, by notice in the Gazette, without the application or adoption of any other procedures under the Act for approval or amendment if the Minister certifies, in the notice, that the policy is making provision in relation to the conservation, management or protection of any landscape in the same terms, or substantially the same terms, as provisions that have been applying under the regional landscape plan.

**16—Control or quarantining of a plant or animal**

A notice of the Minister under section 187 of the repealed Act, and in effect immediately before the designated day under Schedule 5 clause 101 of the Act, will continue to have effect as if it had been made under the corresponding section of the Act (and may be varied or revoked by the Minister under the Act).

**Note—**

As required by section 10AA(2) of the *Subordinate Legislation Act 1978*, the Minister has certified that, in the Minister's opinion, it is necessary or appropriate that these regulations come into operation as set out in these regulations.

## RAIL SAFETY NATIONAL LAW (SA)

## SECTION 203

*Notice of Exemption*

**TAKE notice** that, pursuant to section 203 of the Rail Safety National Law (SA) as applied by the Rail Safety National Law (South Australia) Act 2012, I the Hon Stephan Knoll MP, Minister for Transport, Infrastructure and Local Government (the Responsible Minister) in South Australia, do hereby:

Exempt the rail transport operators prescribed below from the requirement to comply with section 114 of the Rail Safety National Law (as it applies in this jurisdiction).

Take further notice that this exemption is subject to the following conditions:

- (1) The rail transport operator must comply with the provisions of section 114 so far as is reasonably practicable to do so.
- (2) This exemption only applies to periodic health assessments only. It does not include triggered health assessments, pre-placement or change of risk category health assessments.
- (3) Where there are issues accessing authorised health professions as a result of impacts from the global pandemic COVID-19 (as declared by the World Health Organisation in March 2020), the rail transport operator must undertake a risk assessment for the affected rail safety workers and determine, based on their most recent health assessment, whether it is low risk to postpone the periodic health assessment and allow them to continue undertaking rail safety work until such time as the assessment can be scheduled.
- (4) Rail transport operators must document any change management and consultation processes in relation to operating under this exemption.
- (5) Rail transport operators cannot transfer or assign the exemption conferred by this Notice.

Take further notice that these rail transport operators are exempt pursuant to this Gazette:

## WATER INDUSTRY ACT 2012

### *Standard for Dual Reticulation Infrastructure Published by the Technical Regulator*

This Standard is published by the Technical Regulator pursuant to section 66 of the *Water Industry Act 2012*. This Standard comes into effect on the date on which it is gazetted.

The purpose of the Standard is to prescribe the minimum requirements and responsibilities of all parties involved in dual reticulation infrastructure to ensure the safety and reliability of the water services provided to South Australian consumers.

### **Section 1 Scope and General**

#### 1.1 Scope

This Standard sets out requirements for the safe design, installation and construction of dual reticulation infrastructure including up to the point of connection to a property. This Standard is in addition to requirements set out in the Water Services Association of Australia (WSAA) codes.

#### 1.2 Objective

To ensure the safety and reliability of non-drinking water infrastructure and to prevent any adverse impact on drinking water supplies associated with dual reticulation infrastructure.

#### 1.3 Definitions

Drinking water:

Water that is suitable for human consumption, food preparation, utensil washing and oral hygiene.

Non-drinking water:

Water derived primarily from sewage, greywater or stormwater systems and treated to a standard that is appropriate for its intended use.

Property:

A building or area of land, or both together.

Dual reticulation:

Refers to properties which are supplied or have access to both drinking and non-drinking water.

### **Section 2 Requirements**

The design, installation and construction of dual reticulation infrastructure and connections to a property shall comply with the following:

#### 2.1 Water meter assemblies and associated fittings

- Prior to installation, non-drinking water meters including pipes and fittings associated with the meter shall be powder coated or epoxy painted in a permanent purple colour no darker than Jacaranda P24 or Purple P12 and no lighter than P23 Lilac (refer to Figure 1).
- The non-drinking water meter shall not be interchangeable with the drinking water meter.  
NOTE: This may be achieved by dissimilar thread connections for the meter connections to the inlet and outlet tail pieces.
- There shall be a minimum of 300mm separation between the drinking water and non-drinking water meters and the non-drinking water meter shall be located on the left-hand side of the drinking water meter, when facing the property from the street (refer to Figure 2).
- Where the drinking water meter and non-drinking water meter are located in inground boxes, they shall be in separate boxes. The content of all inground boxes shall be clearly and permanently identified on the cover of the box.
- In dual reticulation areas, backflow prevention devices shall be installed downstream of the drinking water meter connections at the property in accordance with the Plumbing Code of Australia.

NOTE: Backflow prevention devices may be required to be installed to the non-drinking water meter connection points.

#### 2.2 Water infrastructure pipework

- The drinking water meter shall be installed, activated and commissioned prior to activating and commissioning the non-drinking water service.
- The non-drinking water isolation valve shall be locked off prior to commissioning.
- Non-drinking water infrastructure pipework shall be permanent purple colour no darker than Jacaranda P24 or Purple P12 and no lighter than P23 Lilac and labelled as non-drinking water.
- Labelling and identification of non-drinking water pipework shall be in accordance with AS 1345.
- Purple marking tape identifying the content of the pipe shall be installed above the buried non-drinking water pipework.  
EXCEPTION: Marking tape may be omitted where below ground non-drinking water pipework is directionally bored provided that:
  - Clause 2.2.(iii) and 2.2.(iv) above are complied with; and
  - The location of non-drinking water pipework is recorded and documented so that it is readily available to any person involved with excavation work in the vicinity of the non-drinking pipework.
- There shall be a minimum 300 mm separation between the inground drinking water and non-drinking water pipework.

NOTE: For further information on separation distances from other utility services, refer to the relevant Standards or Codes of practice.

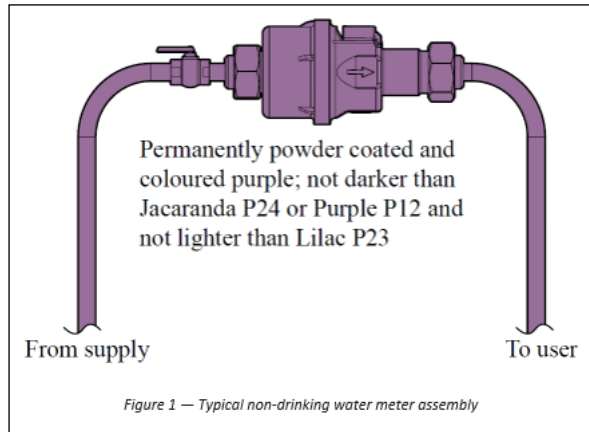

Figure 1 — Typical non-drinking water meter assembly

Figure 2 — Typical residential property with dual reticulation supplies

2.3 Infrastructure inspection process

- (i) Each section of the drinking water and non-drinking water infrastructure installation shall be inspected for compliance by a recognised expert.
- (ii) Documentation of infrastructure inspections shall be retained by the owner/operator of the infrastructure.

2.4 Property commissioning process

- (i) A cross connection test in accordance with AS/NZS 3500.1 must be carried out by an appropriately licensed person in conjunction with the water industry entity who supplies the non-drinking water. This occurs when the non-drinking water service is activated. The results of this cross-connection test must be retained by the water industry entity.
- (ii) Upon activation of the non-drinking water supply at each property, a test distinguishing the two water sources shall be carried out at the meter and recorded by the water industry entity.

NOTE: The recommended test is a Total Dissolved Solids (TDS) test (refer to Appendix 1).

- (iii) Where work is carried out on dual reticulation infrastructure connected to the property, a test distinguishing the two water sources shall be carried out at the meter on completion of work and recorded by the water industry entity.
- (iv) Alterations to on-site drinking water or non-drinking water pipework shall be carried out by an appropriately licensed person.

Dated: 9 April 2020

R. FAUNT  
 Technical Regulator  
 Department for Energy and Mining

APPENDIX 1 (INFORMATIVE)

*Total Dissolved Solids (TDS)*

The amount of total dissolved solids/salts in water (TDS) is used to determine the salinity of water and is measured in mg/L or parts per million (ppm). Electrical Conductivity (EC) is the ability of water to conduct electricity through the metals, minerals and salts in solution and is measured in microSiemens per cm (µS/cm) which is also known as an 'EC Unit'. A TDS meter often measures EC, which is then converted to a TDS measurement. It is not necessary to conduct a TDS test if drinking water is servicing the non-drinking water pipework.

TDS testing can be easily done with a handheld device. Non-drinking water generally has a higher TDS value than drinking water, therefore the TDS test is an important check to verify that the water is from the correct source water.

According the Australian Drinking Water Guidelines, TDS in drinking water should not exceed 500 ppm. Since non-drinking water is derived from various sources, the TDS value varies but will generally lie between 500 and 1500mg/L.

The SA Water website provides information on water quality information for drinking water including TDS values.

It is recommended that a record is kept of TDS results measured in order to understand the normal range of values for drinking and non-drinking water in a certain area.

Example of procedure for TDS Test at the meters

1. Drinking Water turn the water meter off – disconnect the drinking water meter outlet arm. Rinse the sample container with reverse osmosis (RO) Water, turn the drinking water meter on and fill the sample container to a minimum of 40ml and undertake the test.
2. Non-drinking Water turn the water meter off – disconnect the non-drinking water meter outlet arm. Rinse the sample container with RO Water, turn the non-drinking water meter on and fill the sample container to a minimum of 40ml and undertake the test.
3. Record all test results and take appropriate action.

NOTE: For information on calibration and operation of the TDS meter refer to the manufacturer’s user guide.

## LOCAL GOVERNMENT INSTRUMENTS

### CITY OF SALISBURY

#### LOCAL GOVERNMENT ACT 1999

##### *Revocation of Community Land Classification.*

Pursuant to Section 194 of the Local Government Act 1999(2) (b), The City of Salisbury proposes to revoke the Community Land classification from a portion of Community Land.

The City of Salisbury is the registered owner of the land described as George Street Wetland Reserve, Allotment 1 in Deposited Plan 75831, described in Certificate of Title Volume 6006 Folio 373. A portion measuring approximately 627 square meters is required to be revoked of its Community Land Classification for the purpose of constructing a roundabout and declaring as road adjacent George Street, Greenfields and Belfree Drive, Mawson Lakes.

A copy of the plans detailing the proposals and location are available for public inspection at Council's Community Hub at 34 Church Street, Salisbury.

Any objection to the proposal must set out the full name and address of the person making the objection and must be fully supported by reasons.

Any submissions must be made in writing prior to the 30<sup>th</sup> April 2020 to the Council at PO Box 8 Salisbury SA 5108.

Where submissions are made Council will give notification of a meeting to deal with the matter.

Enquiries may be directed to Ms Liz Lynch on (08) 8406 8216 or by email to [elynch@salisbury.sa.gov.au](mailto:elynch@salisbury.sa.gov.au)
