Fee Units

FEE UNITS ACT 1997

THE *Fee Units Act 1997* provides for automatic changes in Government fees and charges in accordance with movements in the Hobart Consumer Price Index (CPI). The Fee Units Act also provides for adjustments to be made on the basis of factors other than movements in the CPI through a fee unit adjustment factor.

In accordance with section 5 of the Fee Units Act, the value of a fee unit is increased by the CPI increase and for 2012–13 will be \$1.44.

I have determined the fee unit adjustment factor for 2012–13 to be zero for the purposes of section 5(4) of the Fee Units Act.

In determining the value of the fee unit adjustment factor, I am satisfied that there were no special factors that would warrant the discounting of the increase in the value of a fee unit in 2012–13 below the CPI increase.

Lara Giddings, MP, Premier, Treasurer.

Living Marine Resources

LIVING MARINE RESOURCES MANAGEMENT ACT 1995

Fisheries (Scalefish) Rules 2004, Rule 9

PARLIAMENTARY STANDING COMMITTEE ON SUBORDINATE LEGISLATION

'Anyone who has problems with, or feels they are adversely affected by, any of the above Regulations can write to the Secretary of the Subordinate Legislation Committee, Legislative Council, Parliament House, Hobart, 7000.'

RUTH FORREST, MLC, Chairperson.

Our conscience is crystal clear.

Together we can make a difference.

Print Applied Technology remains ever vigilant in reducing the impact of its operations on the environment, and environmental management within our production facilities is considered a critical aspect of our business.

Our investment in a world class 'EcoClean' solvent recycling system from Europe has enabled us to recycle all our solvent liquids for reuse, instead of disposing of this material which is traditional industry practice. Waste paper is managed via extraction systems and a compaction unit, capturing and bundling all waste generated during the production cycle which is then collected for recycling, reducing landfill. Vegetable based inks are used where possible on our presses, and green office principles are employed.

Print Applied Technology now adds to these initiatives official certification by the Forest Stewardship Council

(FSC). FSC certification is the "Gold Standard" for eco forestry worldwide, and as a 'Chain of Custody' certificate holder we can now assure our valued customers that selected papers sourced for our operations are from responsibly managed forests.

The use of the highly guarded FSC trademark now also allows our customers to demonstrate their commitment to the growth of responsible forest management. Further to this, we can now share with you the knowledge that areas of natural wealth and endangered wildlife habitat are not being adversely affected as a consequence of our paper sourcing policy.

You too can help to protect our environment, by promoting and using FSC products.
