Information

(This information does not form part of the notice)

The squid fishery (including calamari and Gould's squid) will be subject to a spawning closure from 1 October 2019 to 31 October 2019 (inclusive).

The closure applies to both non-commercial and commercial fishers.

This closure is a precautionary measure aiming to restrain catch and limit disturbance during part of the peak spawning activity to help maintain calamari stocks into the future. The closure applies to all squid species for effective compliance purposes.

It is prohibited to take squid (including calamari and Gould's squid) in this area during the closure. In addition, a person cannot possess squid for use as bait unless they can prove that the squid being used for bait were purchased from a commercial supplier or was taken by a commercial fisher in an open season and open area.

Squid jigs are not permitted to be attached to a line (hand line or rod and line) when in the closed area.

Transiting the closed area in possession of squid taken outside the area is not permitted-with some exceptions as detailed in part 2(b)(i) of the notice.
