Dear Reader

Allow me to introduce myself, I am Keirran Downham, Managing Director of Document Management Tasmania. DMTas is the controlling company for three iconic brands:

Fuji Xerox Business
Centre Tasmania

The Print Division
Tasmania

Acrodata
Tasmania

DMTas was formed to allow our customers a single point of entry for all their document needs, allowing the pooling of our products and services, together with the resources from all three organisations, to provide you with a complete solution.

These three Tasmanian organisations are the leading suppliers of document management in Tasmania bar none. Your support of our organisation over many years is appreciated and respected.

The COVID-19 pandemic has gripped the state, nation and world and has thrown us into uncertain times. There are many things which are, and will be, outside our control during this period, however, we are here to offer you our support and stewardship with the things you do have control over, in your business.

As of the 19th of March, the Australian government have started mandating social distancing within the workplace as being a primary strategy to reduce infection spread. Many organisations are sending their employees to work from home. The fact is 85% of all workplaces do not have complete mobile infrastructure to successfully enable their workforce, to be able to perform their traditional functions remotely, under a decentralised business model.

The net result starts with inefficiency and lack of productivity and results in decreases in financial sustainability. This will lead many organisations to fail from a business event (of decentralising your workforce) for which they had no control.

The fear that exists within the general community would lead us to believe that this lack of productivity and financial degradation of business is acceptable, it is not, and its effects can be minimised.

At Document Management Tasmania we have the specialised skills and resources within the group to equip your organisation with cost effective solutions that will minimise any compromise of productivity or efficiency.
