EXEMPTION

Application No. 27 of 1998

The Anti-Discrimination Tribunal, constituted pursuant to Section 182 of the **Equal Opportunity Act 1995**, ("The Act"), has considered an application pursuant to Section 83 of the Act by Mrs Tamara Proy for exemption from Sections 42, 100 and 195 of the Act. The application for exemption is to enable the applicant to advertise for and provide a specialist massage service for women only.

Upon reading the material submitted in support of the application and upon hearing submissions from Mrs Proy, and for the Reasons for Decision given by the Tribunal on 23 April 1998, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 42, 100 and 195 of the Act to enable the applicant to advertise for and provide a specialist massage service for women only.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 42, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to advertise for and provide a specialist massage service for women only. This exemption to remain in force until 29 April 2001.

Dated 23 April 1998.

CATE McKENZIE
President

N.B. A copy of the Reasons for Decision is available from the Registrar of the Anti-Discrimination Tribunal.

EXEMPTION

Application No. 25 of 1998

The Anti-Discrimination Tribunal, constituted by the President pursuant to Section 182 of the **Equal Opportunity Act 1995**, ("the Act"), has considered an application pursuant to Section 83 of the Act by Sandra Boyd trading as Women at Work. The application for exemption

is to enable the applicant to advertise for and employ female only painters and decorators.

Upon reading the material tendered in support of the application the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ female only painters and decorators.

In granting this exemption the Tribunal noted:

- The applicant is a member of the Master Painters Association of Victoria ("MPA"). Of the 504 members there are 4 female members
- The Australian Institute of Building records shows of 2758 members, 129 are women. The National Association of Women in Construction has stated that less than 10% of construction workers are women.
- The MPA are currently training 65 apprentices of whom 6 are female. Holmesglenn TAFE is a major provider of training apprentices, they are currently training 100 male apprentices and five female apprentices of which 3 are employed by the applicant.
- The applicant's customers prefer women to work in their homes for the following reasons:
 - (a) Women at home and single women feel safer — they perceive they will not be physically threatened or sexually harassed by female painters and decorators.
 - (b) Many elderly ladies feel more comfortable with female painters as do parents of daughters who will be at home whilst the work is done.
 - (c) Mothers of young children have expressed feeling more comfortable with women around their home and their children, that female painters will be more careful with regards to the children's safety during work.
 - (d) The clientele of the applicant include single women, married couples and gay couples. Gay men prefer female tradespeople as they perceive women will not comment

on their sexuality or threaten them in any way.

- (e) Other clients want to give women a go as there are very few women in the trade.
- The employment by the applicant of female tradespeople will help to redress an imbalance in the proportion of males and females employed in the Australian Painting and Decorating industry and will provide a possible role model to encourage other women to enter an occupation currently perceived as one not usually taken up by women.

The Tribunal grants an exemption from the operation of Sections 13, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to advertise for and employ female only painters and decorators. This exemption is to remain in force until 29 April 2001.

Subordinate Legislation Act 1994
CONTROL OF WEAPONS (AMENDMENT)
REGULATIONS

Notice is given of the availability of the proposed Control of Weapons (Amendment) Regulations and Regulatory Impact Statement (RIS) for public comment.

The objective of the proposed Regulations is to reduce risks to public safety by prohibiting certain non-firearm weapons and reducing their

general availability to the public. Weapons that will be prohibited under the proposed Regulations include items such as serrated daggers, capsicum spray and high-powered laser pens.

The proposed Regulations will have several major benefits. They will reduce the risks of injury and crime involving these types of non-firearm weapons, and they will enhance public understanding and compliance with the law. The proposed Regulations will also generate some costs for traders and purchasers of such weapons.

The RIS examines alternatives to the proposed Regulations. The RIS concludes that the proposed Regulations are necessary for the achievement of the objective.

Public submissions on the proposed Regulations and RIS are invited. Copies of both documents can be obtained from Mr Gordan Ivancic, Police and Strategic Development Division, Department of Justice, G.P.O. Box 4356QQ, Melbourne, Vic. 3001. Tel: (03) 9651 6938. Fax: (03) 9651 6922.

The closing date for receipt of written submissions is Monday 1 June 1998. All submissions received will be treated as public documents.

Subordinate Legislation Act 1994
PROPOSED HEALTH (INFECTIOUS
DISEASES) (NOTIFICATION)
REGULATIONS 1998

Notice is given as required by section 11 of the **Subordinate Legislation Act 1994** of the proposed making of the Health (Infectious Diseases) (Notification) Regulations 1998.

The proposed regulations, which are made under the Health Act 1958, will make Haemolytic Uraemic Syndrome (HUS) and verotoxin producing Escherichia coli (VTEC) infection notifiable in Victoria.

The objective of the proposed regulations is to minimise risks to public health and safety by obtaining timely data. This would allow public health intervention to prevent outbreaks of food

poisoning related to these conditions.

A regulatory impact statement has been prepared in accordance with the requirements of the **Subordinate Legislation Act 1994**.

The statement discusses the nature and extent of the problem addressed by the proposed regulations, their potential impact and possible alternatives.

It concludes that the proposed regulations are the preferred option as they will achieve the desired objective at a reasonably low cost.

Comments and submissions are now invited from the public and will be received up to 28 days from the date of publication of this notice.

Copies of the regulatory impact statement and the proposed regulations are available from, and submissions should be lodged with Dr John Carnie, Manager Infectious Diseases Unit, Department of Human Services, G.P.O. Box 1670N, Melbourne, Vic. 3001. Telephone: (03) 9637 4182. Fax: (03) 9637 4509.

**PLUMBING STANDARDS REGULATIONS
1998**

Regulatory Impact Statement

The Minister for Planning and Local Government, the Honourable Robert Maclellan, has approved the publication of a Regulatory Impact Statement (RIS) prepared for the Plumbing Standards Regulations 1998 (the proposed regulations) under section 11 of the **Subordinate Legislation Act 1994**.

Section 221ZZZV of the **Building Act 1993** authorises the making of the proposed regulations. The proposed regulations revoke the Victoria Water Supply and Sewerage Plumbing Regulations 1988.

The primary objects of the proposed regulations are to safeguard public health, safety and welfare of the community and to safeguard and maintain the integrity of water systems and sanitary systems in relation to plumbing work carried out from the reticulation connection point. Subsidiary objects include updating existing plumbing standards and to provide uniformity of national standards.

The proposed regulations prescribe new performance standards and current technical standards under the AS 3500 published by Standards Australia relating to water supply, sanitary waste disposal, and hot water supply, with some modifications. The proposed regulations also provide for standards relating to discharge from evaporative coolers.

The RIS presents an assessment of the costs and benefits of the proposed regulations and examines alternatives to the proposals. The RIS concludes that the overall benefits outweigh the costs imposed by the regulations.

Copies of the RIS and the proposed regulations may be obtained from the Plumbing Industry Board, 450 Burke Road, Camberwell 3124 or by telephoning (03) 9889 2211.

Public submissions on the proposed regulations and the RIS are invited. Submissions must be in writing and must be received at the above address (attention Ken Dare) by 5.30 p.m., 2 June 1998.
