## **Subordinate Legislation Act 1994** **REGULATORY IMPACT STATEMENT**

### **Proposed Liquor Control Reform** **(Prescribed Substance) Regulations 1999**

Notice is given in accordance with section 11 of the **Subordinate Legislation Act 1994** that a Regulatory Impact Statement ("RIS") has been prepared in relation to the proposed Liquor Control Reform (Prescribed Substance) Regulations 1999.

The proposed regulations provide that for the purposes of the definition of "liquor" in section 3 of the **Liquor Control Reform Act 1998** ("the Act"), a food preparation that is intended for consumption in a frozen form is a prescribed substance. The effect of the proposed regulations is that a food preparation that is intended for consumption in a frozen form that has an alcoholic content greater than 0.5% by volume at a temperature of 20 degrees Celcius is liquor for the purposes of the Act.

The reason for the proposed regulations is that it is necessary to classify food preparations like alcoholic-based icy poles as a prescribed substance to bring them under the controls provided by the Act.

The objective of the proposed regulations is to contribute to minimising the harm arising from the misuse and abuse of alcohol by regulating the availability of such frozen food preparations, especially among persons under 18 years of age.

The RIS found that it will achieve its objective by making such frozen food preparations liquor for the purposes of the Act thereby restricting the availability of alcohol-based icy poles to licensed premises and making the sale of such a product to persons under 18 years of age illegal.

The RIS examined an alternative to the proposed regulations which was for persons who wish to sell the product to abide by a voluntary code of conduct.

The RIS clearly identifies that the proposed regulations are the most effective means of achieving the objective whilst imposing only a

relatively small cost on persons who may wish to sell such frozen food preparations.

Public comments are invited on the RIS and accompanying proposed regulations. Copies may be obtained by contacting Ms Lina Muzzi, Liquor Licensing Commission, Level 24, 80 Collins Street Melbourne 3000 Telephone 9655 6975.

Written submissions are to be addressed to Mr Mark Brennan, Executive Director Small Business and Regulation Reform, Level 14, 55 Collins Street, Melbourne 3000. Submissions must be received by 5.00 p.m. 15 February 1999.

All submissions are to be treated as public comments.

Dated 14 January 1999.

LOUISE ASHER MP  
Minister for Small Business

## **Subordinate Legislation Act 1994**

### **Electricity Safety Act 1998**

#### **ELECTRICITY SAFETY (INSTALLATIONS)** **REGULATIONS 1999**

##### **Notice of Regulatory Impact Statement**

In accordance with the **Subordinate Legislation Act 1994** notice is given that a Regulatory Impact Statement has been prepared in relation to the proposed Electricity Safety (Installations) Regulations 1999.

The proposed regulations will be made under sections 152, 156 and 157 of the **Electricity Safety Act 1998**.

The primary objective of the regulations is to promote public safety and minimise risk to persons and damage to property resulting from electrical accidents, by requiring safe working practices for the electricity industry. The regulations provide for the registration of electrical contractors; provide for the licensing of electrical workers; prescribe the methods to be followed in carrying out electrical installation work; prescribe the quality of materials, fittings and apparatus to be used in connection with electrical installations; provide for inspection of prescribed electrical installation work; provide for the testing and

certification of electrical installation work; and prescribe fees, penalties and other matters authorised by the **Electricity Safety Act 1998**.

The Regulatory Impact Statement examines the appropriate level of regulation so as to ensure that the standard of electrical work is maintained and continues to improve through the employment of competent electrical workers and electrical contractors. The Regulatory Impact Statement concludes that the proposed regulated scheme provides the most cost effective means of achieving the objectives and provides for safe working practices for the electricity industry.

A copy of the Regulatory Impact Statement and of the proposed Regulations can be obtained from the Office of the Chief Electrical Inspector, Level 3, 4 Riverside Quay, Southbank or by telephoning (03) 9203 9700.

Public comments and written submissions are invited and will be received up to 35 days from the date of publication of this notice.

Submissions should be addressed to: Mr Allan Driver, General Manager Use Safety, Office of the Chief Electrical Inspector, P.O. Box 262, Collins Street West, Victoria 8007.
