Planning and Environment Act 1987**HUME PLANNING SCHEME**

Notice of Amendment

Amendment L61

The Hume City Council has prepared Amendment L61 to the Hume Planning Scheme.

The Amendment affects land distributed throughout Hume City that has been identified by Melbourne Water as being affected by overland flows in the event of a storm exceeding the design capacity of the underground drainage system.

The Amendment proposes to change the Hume Planning Scheme by inserting the following new Clause:

- Clause 159A – “Special Building Area” (SBA). This is based upon the Special Building Overlay introduced by the Victoria Planning Provisions but has been modified to allow it to be used in the existing planning scheme.

Under this clause a planning permit will generally be required for all buildings and works within the area covered by the SBA, and most applications will be referred to Melbourne Water for comment. There are certain types of buildings and works which are exempt from permit requirements, and these are listed in this clause.

In addition, land which is affected by the new clause will be shown on planning scheme maps.

The existing zoning and other overlays which apply to land will not change.

A copy of the Amendment may be inspected at the following locations during office hours:

- Hume City Council, Broadmeadows Office, 1079 Pascoe Vale Road, Broadmeadows.
- Hume City Council, Sunbury Office, 36 Macedon Street, Sunbury.

Submissions about the Amendment must be sent to: Ms. Margaret Abbey, Manager City Planning, Hume City Council, P.O. Box 119, Broadmeadows, Vic. 3047 by Monday 14 June 1999.

EXEMPTION

Application No. 20 of 1999

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by the Rio Dance Studio Pty Ltd. The application for exemption is to enable the applicant to employ and advertise for male or female teaching staff as demand requires.

Upon reading the material tendered in support of this application the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 & 195 of the Act to enable the applicant to employ and advertise for male or female teaching staff as demand requires.

In granting this exemption the Tribunal noted:

- The applicant teaches a Ballroom and Latin American style of dance.
- Many of their clients learn dancing for recreational and social reasons but some

wish to obtain medal qualifications in dancing.

- Clients are both male and female.
- In the 18 years that the applicant has operated its dancing studio, its clients have invariably requested that their instructor/partner be a person of the opposite sex.
- Dancing is taught by an instructor who teaches the student by being the student's dancing partner. In medal competitions the medal candidate is also partnered by his or her instructor.
- Clients have indicated that, since this form of dancing involves close body contact they feel more comfortable dancing with a person of the opposite sex.
- The applicant wishes to be able to employ male or female dancing instructors as required to promote a gender balance among its instructors and to enable it to cater for the needs of its students.

The Tribunal grants an exemption from the operation of Sections 13, 100 and 195 of the **Equal Opportunity Act 1995**, to enable the applicant to employ and advertise for male or female teaching staff as demand requires.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 12 May 2002.

INDUSTRIAL WASTE MANAGEMENT POLICY (WASTE ACID SULFATE SOILS)

Certificate Under Section 18B

I, Marie Tehan, Minister for Conservation and Land Management hereby certify that there are special reasons as a result of which the industrial waste management policy (waste acid sulfate soils) should be declared without delay, those reasons being:

1. waste acid sulfate may oxidise, if managed inappropriately, generating highly acidic discharges that pose a risk to human health and the environment;
2. in order to minimise such risks, specific management requirements are necessary which differ substantially from those generally applicable to other industrial wastes;
3. the unprecedented level of construction activity in and around the lower reaches of the Yarra River is continuing to result in the generation of large amounts of waste acid sulfate soils; and
4. industrial waste management policy (waste acid sulfate soils) was made in August 1998 for a period of four months and remade in December 1998 for a further period of four months. A final policy is now in the last stages of development. Industrial waste management policy (waste acid sulfate soils) should be declared to ensure that an appropriate management regime continues to be in place until the final policy is declared.
