Proposed Amendment to Consumption of
Liquor in Public Places, Local Law No. 5

At Council's meeting held on 8 August 2000, Council resolved to propose to make amendments to Local Law No. 5 pursuant to provisions of the **Local Government Act 1989**.

Council resolved to give notice of its intent to amend Local Law No. 5, Clause 3.1 to read as follows:

Clause 3.1 (a) "No person or group of persons may, unless acting in accordance with a permit obtained from Council, consume any liquor or have in their possession or control liquor other than in a container with an unbroken seal.

- i) In or on any road or public place (excluding public reserves);
- ii) in or on any stationary vehicle on a road or at a public place (excluding public reserves); situated within the areas defined on the maps of schedules.

Clause 3.1 (b) Between sunset and sunrise, a person must not unless acting in accordance with a permit obtained from Council, on any public reserve within the areas defined on the maps of schedules, whether it be a road with a public reserve or not, or in any motor vehicle on any public reserve or any public road thereon or therein:

- i) Consume any liquor; or
- ii) Have in his or her possession or control, any liquor other than liquor in a container with an unbroken seal.

Clause 3.1 (c) A person must not in a public place or in a stationary vehicle parked in or at a public place:

- i) Have in his or her possession or control any liquor after a member of the police force or an authorised officer has directed that person to dispose of the liquor.
- ii) Have in his or her possession or control any liquor in an unsealed container after a member of the police force or an authorised officer has directed that person to seal the container.

iii) Consume any liquor, after a member of the police force or an authorised officer has directed that person to stop the consumption of liquor.

Clause 3.1 (d) Where an authorised officer believes on reasonable grounds that a person that is in contravention of or has contravened this Local Law, the authorised officer may direct the person to surrender the liquor in the unsealed container to the authorised officer (who shall be empowered to dispose, keep store or otherwise deal with the liquor as he or she, in his or her absolute discretion, thinks fit).

Council resolved to give notice of its intent to amend Clause 4.3 (b) of Local Law 5 as follows:

Clause 4.3 (b) The penalty fixed for infringement notices is two (2) penalty units.

The purpose of the Local Law is:

1. To allow and protect the quiet enjoyment of people in public areas.
2. To respond to community expectations relating to their quality of life.
3. To control and prevent behaviour which is a nuisance.
4. To protect Council assets and facilities.
5. To provide generally for the peace, order and good government and the municipal district.
6. To provide for the administration of Council's powers and functions.

Council will consider written submissions received within fourteen days (14) of the date of publication of this notice in accordance with section 223 of the **Local Government Act 1989**.

Any person lodging a written submission may request to be heard in request of their submission and shall be entitled to appear in person, or by a person acting on their behalf, before a meeting of the Council or a Committee of the Council. Persons lodging a written submission should state whether they wish to be heard by the Council or Committee of the Council. Notice of the meeting, time, date and place will be given to all persons lodging a submission.

STONNINGTON CITY COUNCIL
General Local Law (Dog Litter Amendment)
Local Law

Notice is hereby given pursuant to section 119(3) of the **Local Government Act 1989** that at a meeting of Stonnington City Council held on 7 August 2000, the Council made a local law titled "General Local Law (Dog Litter Amendment) Local Law".

Purpose of the Local Law

The purpose of the Local Law is to amend the General Local Law 1995 (No. 1) in order to:

- control the deposit of dog excrement on roads or Council land; and
- provide for the peace, order and good governance of the municipality of Stonnington.

General purport of the Local Law

The Local Law amends clause 561, so that a person in charge of a dog must carry the means by which to collect and dispose of that dog's excrement and will be liable to a penalty if he or she allows the dog's excrement to remain on any road or Council land.

A copy of the Local Law may be inspected at or obtained from the Council at both Stonnington Service Centres: corner Glenferrie Road and High Street, Malvern and corner Greville and Chapel Street, Prahran. Office hours are 8.30 a.m. – 5.00 p.m.

The land affected by the amendment is the Mildura Base Hospital at 137–157 Thirteenth Street, Mildura (between Deakin and Walnut Avenues) and is as known PC 361636, PC 359721, Lot 2 LP 18503 and Lot 8 LP 2380.

The amendment proposes to introduce heritage controls over a number of buildings and

trees within the Base Hospital site in accordance with recommendations from the City and Shire of Mildura Conservation Study (1988) and the Mildura Rural City Council Significant Tree Register (1999). Planning permission will generally be required for any demolition, external alterations and additions to identified buildings or to remove, destroy or lop any identified tree and/or stand of trees.

You may inspect the amendment, and any documents that support the amendment and the explanatory report about the amendment at: Mildura Rural City Council, 108–116 Madden Avenue, Mildura 3500; the Department of Infrastructure, 1315 Sturt Street, Ballarat 3350 and the Department of Infrastructure, Nauru House, 80 Collins Street, Melbourne 3000.

Inspection may be undertaken during office hours and is free of charge. Any person who may be affected by the amendment may make a submission to the planning authority.

The closing date for submission is 22 September 2000. A submission must be sent to: Mrs Leonie Burrows, Chief Executive Officer, Mildura Rural City Council, 108–116 Madden Avenue, Mildura 3500.

Planning and Environment Act 1987
WHITTLESEA PLANNING SCHEME

Notice of Amendment
Amendment C12

The City of Whittlesea has prepared Amendment C12 to the Whittlesea Planning Scheme.

The amendment affects an area of land in Epping North bounded by O'Herns Road, Bindts Road, Craigieburn Road East and Vearings Road. The total area of Epping North is approximately 1500 hectares.

The purpose of Amendment C12 is to implement the strategies and objectives of the Municipal Strategic Statement and to put in place the statutory framework necessary to enable residential development in Epping North. The amendment will formalise the status of Epping North as a designated residential growth front that will ultimately accommodate up to 40,000 people. Epping North is a masterplanned

residential area that will include commercial and community land uses as well as a quality open space network. The development process will be guided by the Epping North Strategic Plan, and the more detailed Local Structure Plans that will be prepared for each of the planned residential precincts.

The amendment proposes to incorporate the recently completed Epping North Strategic Plan, Harvest Home Local Structure Plan, and Epping North Local Structure Plan into the Whittlesea Planning Scheme. The amendment also proposes to rezone all of the land affected by the Epping North Local Structure Plan, and part of the land affected by the Harvest Home Local Structure Plan, from Rural Zone to Residential 1 Zone (approximately 300 hectares) and the Environmental Rural Zone (approximately 15 hectares). In addition, the Development Plan Overlay (DPO) and Development Contributions Overlay (DCPO) will be applied to land in both Local Structure Plan areas. The Vegetation Protection Overlay (VPO) is to be applied to the entire Epping North Strategic Plan area.

The amendment and explanatory report can be inspected at: City of Whittlesea, Civic Centre, Ferres Boulevard, South Morang; Department of Infrastructure, Customer Service Centre, Upper Plaza, Nauru House, 80 Collins Street, Melbourne.

This can be done during office hours and is free of charge.

Any person who may be affected by the amendment can make a submission to the planning authority. Submissions must be sent to: Chief Executive Officer, City of Whittlesea, Locked Bag 1, Bundoora MDC 3083.

Submissions are to be received by 12 October 2000.

MACEDON RANGES PLANNING SCHEME

Notice of Amendments
Amendment C2

MOUNT ALEXANDER PLANNING
SCHEME
Amendment C8

The Roads Corporation ("VicRoads") has prepared Amendment C2 to the Macedon Ranges Planning Scheme and Amendment C8 to the Mount Alexander Planning Scheme.

The amendments affect land within the vicinity of the existing Calder Highway between Kyneton and Faraday in the Macedon Ranges and Mount Alexander Shires. Specifically, the amendments apply to VicRoads' preferred alignment being route option KF1, for the upgrading of the Calder Highway.

The amendments propose to:

- Introduce a Public Acquisition Overlay to identify land to be acquired by VicRoads and to reserve land for the Calder Freeway between Kyneton and Faraday and to amend the Schedule in both Planning Schemes to include the land.
- Introduce the Design and Development Overlay in the Mount Alexander Planning Scheme and a new Schedule to the Design and Development Overlay in both Planning Schemes. The new Schedule seeks to ensure that development within the vicinity of the Calder Freeway between Kyneton and Faraday incorporates noise attenuation measures to minimise the impact of traffic noise on noise sensitive activities.
- Amend Schedules 1 and 5 of the Environmental Significance Overlay within the Mount Alexander Planning Scheme so that no permit is required for works associated with a road in a Road Zone, Category 1.
- Amend the Schedule to Clause 52.17 so that no permit is required to remove, destroy or lop native vegetation within the Public Acquisition Overlay.

The amendments are on exhibition concurrently with the Calder Highway Kyneton to Faraday Environment Effects Statement, August 2000 and associated documents.

The amendments can be inspected, free of charge, during office hours, at the following locations:

- VicRoads Calder Corridor Project Office, 2 Beauchamp Street, Kyneton;
- Kyneton Library, 81 Mollison Street, Kyneton;
- Castlemaine Municipal Library, 212 Barker Street, Castlemaine;
- Macedon Ranges Shire Council, Kyneton Office, 129 Mollison Street, Kyneton;

EXEMPTION

Application No. 307 of 2000

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by RMIT University for exemption from Sections 13, 14, 37, 100, 195 of that Act. The application for exemption is to enable the applicant to advertise for and employ an Aboriginal or Torres Strait Islander person as head of ATSI Support and Liaison Unit and an ATSI person as an Education and Liaison Officer in that unit.

Upon reading the material submitted in support of the application and upon hearing submissions from Ms Lopez and Mr McFarlane and for the Reasons for Decision given by the Tribunal on 7 August 2000, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 14, 37, 100, 195 of the Act to enable the applicant to advertise for and employ an Aboriginal or Torres Strait Islander person as head of ATSI Support and Liaison Unit and an ATSI person as an Education and Liaison Officer in that unit.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 14, 37, 100, 195 of the **Equal Opportunity Act 1995** to enable the applicant to advertise for and employ an Aboriginal or Torres Strait Islander person as head of ATSI Support and Liaison Unit and an ATSI person as an Education and Liaison Officer in that unit.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 9 August 2003.

Dated 7 August 2000.

Deputy President

N.B. A copy of the Reasons for Decision is available from the Registrar of the Anti-Discrimination List.

EXEMPTION

Application No. 308 of 2000

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by Western Region Centre Against Sexual Assault Inc (WestCASA) for exemption from Sections 13, 100, 195 of that Act. The application for exemption is to enable the applicant to advertise for and employ a person in the position of counsellor/advocate and to require that the person who fills the position must be able to speak English and another relevant community language.

Upon reading the material submitted in support of the application and upon hearing submissions from Ms Davidson and for the Reasons for Decision given by the Tribunal on 8 August 2000, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100, 195 of the Act to enable the applicant to advertise for and employ a person in the position of counsellor/advocate and to require that the person who fills the position must be able to speak English and another relevant community language.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 100, 195 of the **Equal Opportunity Act 1995** to enable the applicant to advertise for and employ a person in the position of counsellor/advocate and to require that the person who fills the position must be able to speak English and another relevant community language.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 16 August 2003.

Dated 8 August 2000.

EXEMPTION

Application No. 326 of 2000

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act**

1995 by St John of God Services Victoria, a company limited by guarantee, for exemption from Sections 13, 100, 195 of that Act. The application for exemption is to enable the applicant to engage in the exempt conduct.

In this exemption "exempt conduct" means to advertise and employ as many male client support workers as the applicant considers necessary to support the needs of those of its male clients whom the applicant considers require a male support worker because of their challenging behaviour.

Upon reading the material submitted in support of the application and upon hearing submissions from Mr Bakos and for the Reasons for Decision given by the Tribunal on 9 August 2000, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100, 195 of the Act to enable the applicant to engage in the exempt conduct.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 100, 195 of the **Equal Opportunity Act 1995** to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 16 August 2003.

Dated 9 August 2000.

EXEMPTION

Application No. 327 of 2000

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by Michelle Mayur for exemption from Sections 42, 100, 195 of that Act. The application for exemption is to enable the applicant to provide relaxation massage services to women only.

Upon reading the material submitted in support of the application and upon hearing submissions from Ms Mayur and for the Reasons for Decision given by the Tribunal on 9

August 2000, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 42, 100, 195 of the act to enable the applicant to provide relaxation massage services to women only.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 42, 100, 195 of the **Equal Opportunity Act 1995** to enable the applicant to provide relaxation massage services to women only.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 16 August 2003.

Dated 9 August 2000.

Deputy President

N.B. A copy of the Reasons for Decision is available from the Registrar of the Anti-Discrimination List.

EXEMPTION

Application No. A333 of 2000

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by Women's Health Association of Victoria (the Association) for exemption from Sections 59, 60, 100 and 195 of that Act. The application for exemption is to enable the applicant to engage in the exempt conduct.

In this exemption "exempt conduct" means:-

- (a) to restrict organisational membership of the association to organisations managed by women and committed to the association's objectives or to other interested organisations that are committed to the associations objectives and that the association has admitted to membership;
- (b) to require that organisations that are members of the association be represented at meetings (whether they come to attend, speak or vote) by women only.

Upon reading the material submitted in support of the application, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 59, 60, 100 and 195 of the Act to enable the applicant to engage in the exempt conduct.

In granting this exemption, the Tribunal noted:

- Under its constitution the purposes and objectives of the association are to provide an information network for women's health services in Victoria and a forum for those health services to raise issues of concern to them, to disseminate information to those health services, to advocate on behalf of those services and to assist in the development of women's health services and in their provision of services of a high standard;
- Under its constitution, the members of the association are women's health services managed by women that are committed to the association's objectives and other interested organisations that are committed to those objectives and are admitted to membership of the association;
- The philosophy of the association is that women have a right to make decisions about their own health and to manage health services designed to meet the needs of women;
- Seven member organisations of the association have obtained exemption from certain provisions of the **Equal Opportunity Act 1995** to permit them to be managed and operated by women;
- In these circumstances, it is appropriate that the association, as the peak body for women's health services in Victoria, should also recognise women's right to be involved in decision making at that peak level and should have an organisational membership which is represented by women only at meetings of the association;
- It is also appropriate that women representatives from women's health services should not be deterred from discussing particular issues sensitive to women at meetings of the association because of the presence of men at those meetings;
- It is also appropriate, given that the association's member organisations are managed by women, that the association's governing body should also comprise women only.

The Tribunal grants an exemption from the operation of Sections 59, 60, 100 and 195 of the **Equal Opportunity Act 1995**, to enable the applicant to engage in the exempt conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 9 August 2003.

Dated 7 August 2000.

“Melbourne Water” means Melbourne Water Corporation;

“Minister”, in relation to any provision, includes any person authorised by the Minister to act on the Minister’s behalf in relation to that provision, or to whom the Minister has delegated the relevant power, discretion, function, authority or duty under section 306 of the Act;

“operating loss” means the amount of water released from the Reservoir to meet entitlements under licences, which is not subsequently used for that purpose;

“Resource Manager” means any person appointed by the Minister to do all or any of the following –

- (a) prepare the Maribyrnong Basin Water Accounts; and
- (b) monitor whether entitlement holders in the Maribyrnong Basin comply with the conditions of their bulk entitlements; and
- (c) investigate and mediate disputes between entitlement holders in the Maribyrnong Basin; and

- (d) investigate and deal with significant unauthorised uses of water in the Maribyrnong Basin; and
- (e) supervise the qualification of any rights to water made by the Minister during periods of declared water shortage under section 13 of the Water Act;

“Reservoir” means the Rosslynne Reservoir on Jacksons Creek;

“security of supply” means the statistical probability of being able to supply a given volume of water in any year;

“Southern Rural Water” means Gippsland and Southern Rural Water Authority;

“Storage Operator” means any person appointed by the Minister to operate all or part of the water supply works of the Reservoir, to manage or measure the flow into or in all or part of the Reservoir or waterway, or to do all or any of them;

“Sunbury gauging station” means the stream gauging station, number 230202, located on the waterway;

“transfer loss” means water lost from the waterway through infiltration and evaporation, between two points;

“unregulated flow” means any flow in the waterway which is not attributable to a release of water to supply entitlements under licences;

“waterway” means —

- (a) Jacksons Creek between the Reservoir and its confluence with the Maribyrnong River, including the pool formed by, and immediately upstream of, Rosslynne dam; and
- (b) the Maribyrnong River between its confluence with Jacksons Creek and Shepherd Bridge.

“Western Water” means Western Region Water Authority;

“year” means the 12 months next following 1 July.

5. CONVERSION TO A BULK ENTITLEMENT

All of Melbourne Water’s entitlement to water from the waterway is converted to a bulk entitlement on the conditions set out in this Order.

6. WATER RESOURCES PLAN

Melbourne Water must submit to the Minister within 12 months of the date of this Order, a water resource management plan for the waterway in accordance with section 64A of the Act.

7. BULK ENTITLEMENT

7.1 Melbourne Water may take from the waterway –

- (a) up to an annual average total of 1096 megalitres over any period of five consecutive years to supply entitlements under licences referred to in item 1 of Schedule 1; and
- (b) an amount sufficient to supply entitlements under licences referred to in item 2 of Schedule 1, up to an annual total of 300 megalitres.

7.2 Melbourne Water must not direct the Storage Operator to release more than the amount it holds in its share of the Reservoir to supply entitlements under licences.

8. OBLIGATIONS TO SUPPLY LICENCES

Melbourne Water must only use water –

- (a) referred to in paragraph 7.1(a) to supply entitlements under the licences referred to in item 1 of Schedule 1; and
- (b) referred to in paragraph 7.1(b) to supply entitlements under the licences referred to in item 2 of Schedule 1; and

in accordance with –

- (c) any allocation procedures and restriction policies approved under clause 16 and set out in Schedule 2; and
- (d) any water resources plan referred to in clause 6.

9. TRANSFER OF ENTITLEMENT AND ADJUSTMENT OF SCHEDULES

9.1 Subject to section 46 of the Act, clause 6 and sub-clause 9.2, this bulk entitlement may be transferred –

- (a) temporarily or permanently;
- (b) in whole or in part; and
- (c) for any purpose, including an in-stream use of water.

9.2 The Minister may, on the application of Melbourne Water, at any time, alter –

- (a) any provision of this Order to reflect trading of this or any other bulk entitlement by Melbourne Water;
- (b) the volume of water specified in item 2 of Schedule 1 to reflect any change in entitlements under licences referred to in that item; and
- (c) the security of supply specified in item 1 of Schedule 2, in accordance with the exchange rates.

9.3 Any application made by Melbourne Water under sub-clause 9.2 must –

- (a) comply with any water resources management plan referred to in clause 6;
- (b) set out the objectives of, and reasons for, the proposed alteration; and
- (c) set out the results of an assessment of the likely effects of the proposed alteration on –
 - (i) the security of supply specified in item 1 of Schedule 2; and
 - (ii) the environment.

9.4 The Minister may –

- (a) approve part or all of any application under sub-clause 9.2; or
- (b) require Melbourne Water to –
 - (i) provide further information; or
 - (ii) re-submit the application in a different form; or
- (c) not approve the application.

10. SHARE OF STORAGE CAPACITY

10.1 Melbourne Water is entitled to a share of 9.5% of the estimated storage capacity of the Reservoir, being 24 670 megalitres at a full supply level of 450.90 metres Australian Height Datum.

10.2 At the commencement of this Order, Melbourne Water is deemed to be entitled to such volume of water as calculated by the Storage Operator and agreed between Melbourne Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir.

10.3 Melbourne Water may, subject to sub-clauses 7.2 and 11.3, use all of the water which the Storage Operator calculates is stored in the Reservoir by Melbourne Water, in accordance with Schedule 3.

11. SHARE OF FLOW

11.1 The Storage Operator must, after allowing for –

- (a) all passing flows required under the Bulk Entitlement (Maribyrnong-Southern Rural Water) Conversion Order 2000; and

- (b) any water being transferred in the waterway to or from either a bulk entitlement holder other than Melbourne Water, or a person holding a licence under Part 4 Division 2 of the Act –
attribute 9.5% of all the inflow to the Reservoir, as calculated by the Storage Operator, to Melbourne Water's share.
- 11.2 In addition to the share of flow attributed under sub-clause 11.1, Melbourne Water may store such further inflow to the Reservoir that the Storage Operator attributes to Melbourne Water's share, in accordance with item 3 of Schedule 3.
- 11.3 The Storage Operator must deduct from Melbourne Water's share of flow determined under sub-clauses 11.1 and 11.2, 9.5% of any flow released from the Reservoir in order to provide, at all times –
- (a) a minimum flow at the Gisborne and Sunbury Gauging Stations at an instantaneous rate of 1 megalitre per day; and
- (b) a minimum flow, which shall include any release made by the Storage Operator to supply licence holders, at an instantaneous rate of 20 megalitres per day at Gisborne Gauging Station, during any period determined under sub-clause 11.4.
- 11.4 Whenever –
- (a) the Reservoir has not overflowed on or before 1 October in any year; and
- (b) the cumulative inflow to the Reservoir over the 24 months immediately preceding 1 October in that year, as determined by the Storage Operator, is
- (i) at least 10 500 megalitres; or
- (ii) less than 10 500 megalitres and on 1 October in that year the Reservoir has in storage at least 13 695 megalitres (being 55% of the total storage capacity set out in sub-clause 10.1 –
the Storage Operator must, for a period of 10 consecutive days determined in consultation with the Department, Melbourne Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir, but before 31 December in that year, make the releases referred to in paragraph 11.3(b).
- 11.5 Subject to any operating arrangements approved under clause 16, Melbourne Water may authorise the holder of a licence to satisfy the entitlement under that licence from –
- (a) any flow released to the waterway for that purpose from the Reservoir at the direction of Melbourne Water; and
- (b) any unregulated flow in the waterway, except flow which the Storage Operator designates as providing for one or more of the purposes set out in paragraphs 11.1(a), 11.1(b) or sub-clause 11.3.
12. PASSING FLOWS
Not applicable to Melbourne Water. The obligation to meet passing flows is on Southern Rural Water – refer Bulk Entitlement (Maribyrnong-Southern Rural Water) Conversion Order 2000.
13. DIVERSIONS OTHER THAN FROM THE RESERVOIR
Not applicable to Melbourne Water – applies only to Western Water.
14. RELEASES
- 14.1 Subject to item 4 of Schedule 2, Melbourne Water must direct the Storage Operator to release sufficient water from the Reservoir in every year to supply the entitlement under every licence.
- 14.2 Unless and until a proposal is approved or determined under sub-clause 14.4, Melbourne Water and Southern Rural Water must share the excess capacity of the Reservoir outlet works

in the same proportion as their respective shares of inflow to the Reservoir bear, one to another.

- 14.3 Melbourne Water may, after consulting with all other bulk entitlement holders with a share of the storage capacity of the Reservoir, propose to the Minister any fair and reasonable arrangement for sharing the excess capacity of the Reservoir outlet works between them.
- 14.4 The Minister –
- (a) may approve any proposal made under sub-clause 14.3 to which all bulk entitlement holders referred to in that sub-clause have agreed in writing; or
 - (b) if all bulk entitlement holders have not so agreed, must refer the proposal to be determined by an independent expert under clause 26.
- 14.5 In this clause, “excess capacity” means the capacity in excess of that required by the Storage Operator to make releases for the purposes set out in paragraph 11.1(a).
15. CALCULATIONS
- 15.1 For the purpose of sub-clause 7.1, Melbourne Water is deemed to have taken from the waterway in any year the sum of diversions made to satisfy entitlements under licences in that year.
- 15.2 For the purpose of sub-clause 7.2, releases made to supply entitlements under licences include such amounts as the Storage Operator allows to meet –
- (a) transfer losses, calculated in accordance with item 2 of Schedule 3; and
 - (b) operating losses between the Reservoir and Keilor Gauging Station.
- 15.3 The Storage Operator must exclude from any calculation under clause 7 any water being transferred to or from –
- (a) a bulk entitlement holder; or
 - (b) a person holding a licence under Part 4 Division 2 of the Act, other than a licence referred to in Schedule 1.
16. OPERATING ARRANGEMENTS
- 16.1 Melbourne Water, after consulting the Storage Operator and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir, must propose to the Minister within 12 months of the commencement of this Order –
- (a) water accounting and operational arrangements for water stored in and released from the Reservoir under this Order; and
 - (b) allocation procedures and restriction policies to ensure that Melbourne Water complies with clause 7 and Schedule 2 in supplying entitlements under licences; and
 - (c) arrangements for reporting under clause 19.
- 16.2 The Minister may –
- (a) approve a proposal made under sub-clause 16.1; or
 - (b) require Melbourne Water to amend the proposal; or
 - (c) not approve the proposal.
- 16.3 The Minister may, at any time, require Melbourne Water to –
- (a) review all or part of any proposal approved by the Minister if, in the Minister’s opinion, it is, at any time, no longer fair, reasonable or representative; and
 - (b) make an amended proposal to the Minister.
- 16.4 Melbourne Water must –
- (a) advise the Resource Manager in writing within 14 days after the Minister approves of any proposal made under this clause; and

- (b) provide the Resource Manager with such other information concerning diversions to satisfy entitlements under licences as the Resource Manager may, from time to time, require.

17. ENVIRONMENTAL OBLIGATIONS

Not applicable to Melbourne Water. The obligation to prepare a program to manage the environmental effects of operating the Reservoir is on Southern Rural Water – refer Bulk Entitlement (Maribyrnong-Southern Rural Water) Conversion Order 2000.

18. METERING PROGRAM

- 18.1 Melbourne Water must propose to the Minister within 12 months of the commencement of this Order, a metering program to demonstrate Melbourne Water's compliance with its bulk entitlement under this Order.
 - 18.2 A proposal under sub-clause 18.1 must include details of any existing or proposed arrangements made by Melbourne Water for any person other than Melbourne Water to measure or to calculate instream flows, or water taken from the waterway to satisfy entitlements under licences.
 - 18.3 The Minister may –
 - (a) approve a program proposed under sub-clause 18.1; or
 - (b) require Melbourne Water to amend the proposed program; or
 - (c) not approve the proposed program.
 - 18.4 The Minister may, at any time, require Melbourne Water to –
 - (a) review the program approved by the Minister if, in the Minister's opinion, it is, at any time, no longer appropriate; and
 - (b) propose an amended program to the Minister.
 - 18.5 Melbourne Water must, at its cost and in accordance with any guidelines issued from time to time by the Minister –
 - (a) implement and maintain any metering program approved by the Minister; and
 - (b) maintain metering equipment and associated measurement structures in good condition; and
 - (c) ensure that metering equipment is periodically re-calibrated; and
 - (d) if rating curves are used to calculate flows, ensure that the curves are regularly checked and, if necessary, revised; and
 - (e) keep a record of all work undertaken under paragraphs (b), (c) and (d).
19. REPORTING REQUIREMENTS
- 19.1 The Minister may require Melbourne Water to report on all or any of the following:
 - (a) The status of Melbourne Water's entitlement to water in the Reservoir including –
 - (i) releases made from the Reservoir to supply entitlements under licences;
 - (ii) the volume of Melbourne Water's share of storage capacity under sub-clause 10.1;
 - (iii) the volume of inflows attributed to Melbourne Water under sub-clauses 11.1 and 11.2;
 - (iv) the volume of transfer and operating losses allowed for under sub-clause 15.2; and
 - (v) the volume of any deduction made under sub-clause 11.3.
 - (b) The volume of water taken by Melbourne Water's licensees from the waterway to satisfy entitlements under licences.
 - (c) Any temporary or permanent transfer of all or part of this bulk entitlement.

- (d) Any temporary or permanent transfer of a bulk entitlement or other entitlement under the Act to Melbourne Water which does or may alter the flow of water in the waterway.
 - (e) Any alteration to Schedule 1 or Schedule 2 made under sub-clause 9.2.
 - (f) The number, amount and places of origin and destination, of transfers of licences.
 - (g) Any amendment to this bulk entitlement.
 - (h) Any new bulk entitlement granted to Melbourne Water to supply entitlements under licences.
 - (i) The implementation of any metering program approved under sub-clause 18.3.
 - (j) Any failure by Melbourne Water to comply with any provision of this bulk entitlement.
 - (k) Any difficulty experienced or anticipated by Melbourne Water in complying with this bulk entitlement and any remedial action taken or proposed.
- 19.2 The Minister may require Melbourne Water to report on all or any of the matters set out in sub-clause 19.1—
- (a) in writing, or in such electronic form as may be agreed between Melbourne Water and the Minister; and
 - (b) within 14 days of receiving the Minister's written request or such longer period as the Minister may determine.
- 19.3 The Resource Manager may require Melbourne Water to report from time to time, on all or any of the matters set out in paragraphs (a) to (k) of sub-clause 19.1.
- 19.4 Any report under sub-clause 19.3 must be made —
- (a) in such form as may be agreed between Melbourne Water and the Resource Manager; and
 - (b) within such period of time as may be agreed between Melbourne Water and the Storage Operator and approved by the Minister under operating arrangements referred to in clause 16.
- 19.5 Subject to sub-clause 19.6, Melbourne Water must, in its Annual Report, report on each of the matters referred to in sub-clause 19.1.
- 19.6 On the application of Melbourne Water, the Minister may, in writing, relieve Melbourne Water from the need to report on one or more failures referred to in paragraph 19.1(j) in its Annual Report for a particular year.
20. WATER RESOURCE MANAGEMENT COSTS
- 20.1 Subject to sub-clause 23.1, Melbourne Water must pay the Resource Manager a fair and reasonable proportion of the costs incurred by the Resource Manager in —
- (a) preparing the Maribyrnong Basin Water Accounts; and
 - (b) monitoring whether entitlement holders in the Maribyrnong Basin comply with the conditions of their bulk entitlements; and
 - (c) directing the release of any water set aside for maintaining water quality in the waterway; and
 - (d) investigating and mediating disputes between entitlement holders in the Maribyrnong Basin; and
 - (e) investigating and dealing with significant unauthorised uses of water in the Maribyrnong Basin; and
 - (f) supervising the qualification of any rights to water made by the Minister during periods of declared water shortage under section 13 of the Act —
as estimated under sub-clause 23.3 and invoiced under clause 24.

21. STORAGE OPERATOR COSTS

21.1 Subject to sub-clause 23.1 Melbourne Water must pay the Storage Operator a proportion of the source costs in any year, whether or not Melbourne Water directs the Storage Operator to release water from the Reservoir in that year.

21.2 For the purposes of this clause, "source costs" means the total annual cost of –

- (a) operating, maintaining and administering the Reservoir; and
- (b) making releases from the Reservoir (excluding costs referred to in sub-clause 22.2); and
- (c) meeting the cost of any new or enhancement work to the Reservoir (other than work designed to increase the yield of the Reservoir); and
- (d) making an appropriate allowance for depreciation of works associated with the Reservoir, using the deprival value approach, or such other depreciation method required by the Victorian Department of Treasury and Finance; and
- (e) managing the stream gauging stations on the waterway; and
- (f) implementing the program established under the Bulk Entitlement (Maribyrnong – Southern Rural Water) Conversion Order 2000, to manage the environmental effects of operating the Reservoir; and
- (g) any other activity undertaken by the Storage Operator that has been agreed to by Melbourne Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir.

21.3 The proportion referred to in sub-clause 21.1 is either –

- (a) the proportion from time to time agreed between Melbourne Water and the Storage Operator; or
- (b) if there is no agreement under paragraph (a), the proportion determined by the following formula:

$$CS = 9.5\% \times (\text{SOURCECOST} + \text{RETURN});$$

where –

CS	=	the source charge for the relevant year, in \$.
SOURCECOST	=	the source costs in \$ as agreed with Melbourne Water for the relevant year.
RETURN	=	the amount of any dividend required to be paid by the Government of Victoria on the value of the Reservoir and associated assets in the relevant year.

22. WATERWAY REGULATION COSTS

22.1 Subject to sub-clause 23.1, Melbourne Water must pay the Storage Operator a proportion of the waterway regulation costs in any year.

22.2 For the purpose of this clause, "waterway regulation costs" means the total annual cost of operating the waterway below the Reservoir to provide –

- (a) entitlements under licences; and
- (b) flows referred to in paragraph 11.1(a); and
- (c) flows referred to in sub-clause 11.3.

22.3 The proportion referred to in sub-clause 22.1 is either –

- (a) the proportion from time to time agreed between Melbourne Water and the Storage Operator; or
- (b) if there is no agreement under paragraph (a), the proportion determined by the following formula:

CR = (TAKE/SUMTAKE) x REGCOST;

where –

CR	=	the waterway regulation charge for the relevant year in \$.
TAKE	=	the volume of water in megalitres referred to in sub-clause 15.1 in the relevant year.
SUMTAKE	=	the average annual volume of water referred to in sub-clause 15.1 for the five years immediately preceding the relevant year.
REGCOST	=	the waterway regulation costs in \$, estimated by the Storage Operator, and as agreed with Melbourne Water, to be incurred in the relevant year.

23. DUTY TO KEEP FINANCIAL ACCOUNTS AND FIX PROPORTIONS

- 23.1 Melbourne Water is not obliged to make any payment to –
- the Resource Manager under clause 20; or
 - the Storage Operator under clauses 21 and 22 –
- unless the person to whom the payment is payable chooses to comply with the provisions of this clause relevant to that payment.
- 23.2 Separate accounts of all costs and payments must be kept –
- by the Resource Manager in respect of clause 20; and
 - by the Storage Operator in respect of clauses 21 and 22.
- 23.3 The Resource Manager must, by 1 March in any year, provide Melbourne Water with an estimate of the fair and reasonable proportion of the costs referred to in sub-clause 20.1, in respect of the ensuing year.
- 23.4 The Storage Operator must, by 1 March in any year, in conjunction with the authority responsible for the Reservoir and Melbourne Water, provide Melbourne Water with a detailed estimate of the amounts payable by Melbourne Water under sub-clauses 21.1 and 22.1 in the ensuing year.
- 23.5 The authority responsible for the Reservoir must consult with Melbourne Water on any proposal to undertake new or enhancement works on the Reservoir, providing reasonable detail and the need for those works, prior to undertaking those works.
- 23.6 Melbourne Water may object to any proposal referred to in sub-clause 23.5 and may give written notice to the other party requiring the matter to be determined by referral to an independent expert in accordance with clause 26.
- 23.7 Accounts required to be kept under this clause must be made available for inspection by Melbourne Water upon request.

24. DUTY TO MAKE PAYMENTS

- 24.1 In this clause, the Resource Manager and the Storage Operator are each a “creditor”.
- 24.2 Subject to sub-clause 24.3, a creditor must invoice Melbourne Water for the annual amounts payable under clauses 20, 21 and 22 in equal instalments.
- 24.3 Where the actual cost of any component of an amount payable is not known to the creditor at the time an invoice is prepared, the creditor may prepare an invoice based on an appropriate proportion of the relevant estimate given to Melbourne Water under sub-clause 23.3 or 23.4.
- 24.4 If an invoice is prepared in accordance with sub-clause 24.3, the creditor must make a corresponding adjustment to the first invoice prepared after the component referred to in sub-clause 24.3 becomes known to the creditor.

- 24.5 Unless the relevant creditor and Melbourne Water otherwise agree in writing –
- (a) invoices under clause 20 must be given to Melbourne Water quarterly, in arrears; and
 - (b) invoices under clauses 21 and 22 must be given to Melbourne Water monthly, in arrears; and
 - (c) Melbourne Water must pay the full amount of each invoice, within 28 days of receiving it.
25. DATA
- 25.1 Subject to sub-clause 18.5, the Minister will use the Minister's best endeavours to ensure that all hydrological and other data required by Melbourne Water to comply with this bulk entitlement are made available to Melbourne Water.
- 25.2 Melbourne Water must make available to any person data collected by or on behalf of Melbourne Water for the purpose of clauses 18 or 19 subject to the person paying any fair and reasonable access fee imposed by Melbourne Water to cover the costs of making the data available to that person.
26. DISPUTE RESOLUTION
- 26.1 If any difference or dispute arises between Melbourne Water, the Minister and, with their consent, the Resource Manager, the Storage Operator or any of them (the "parties") concerning the interpretation or application of this Order, which is not resolved within 14 days of it arising, any party may give written notice to the others requiring the matter to be determined by an independent expert, if it is not otherwise resolved, within 14 days of that notice.
- 26.2 The independent expert will be either –
- (a) a person agreed on by the parties to the difference or dispute; or
 - (b) if those parties cannot agree, a person nominated by the President of the Institute of Arbitrators, Australia.
- 26.3 The independent expert must reach a conclusion on the matter within 30 days of it being referred, but has power to extend the period for reaching a conclusion on the matter by a further 30 days.
- 26.4 The independent expert must send a copy of the conclusion and its supporting reasons to each party to the difference or dispute.
- 26.5 In any difference or dispute to which the Minister is a party –
- (a) the independent expert must express the conclusion as a recommendation; and
 - (b) the Minister must consider any recommendation made under paragraph (a) before deciding to give a direction under section 307 or to take any other action under the Act in relation to the difference or dispute.
- 26.6 In any difference or dispute to which the Minister is not a party, any conclusion by an independent expert is final and binding on the parties.
- 26.7 The apportionment of the costs of and incidental to every reference, including the costs of the independent expert, are at the discretion of the Minister.

Signed:

SHERRYL GARBUTT,

Minister administering the **Water Act 1989**

Dated 27 July 2000.

Note: An explanatory note that accompanies this Order is available from the Department of Natural Resources and Environment.

Schedule 1

Entitlements

1. Licences to take water from the waterway issued by Melbourne Water under Clause 7 of this Order, as renewed from time to time, up to a total volume of 1096 megalitres.
2. Licences to take water from the waterway (other than licences referred to in item 1) issued by Melbourne Water under Part 4 Division 2 of the Act after the commencement of this Order, as renewed from time to time, up to a total volume of 300 megalitres.

Schedule 2

Security of Entitlements

1. Except as set out in item 3, Melbourne Water must supply entitlements under licences with 95% security of supply.
2. The security of supply specified in item 1 was determined from modelling based on the Maribyrnong System Model Run No. 0545 held by the Department.
3. The Minister may, by reference to a computer model, which the Minister considers to be appropriate, modify the level of security set out in item 1 if the Minister is satisfied that either –
 - (a) hydrological conditions have changed since December 1995; or
 - (b) the estimated security of supply is greater than the security of supply estimated from the level of irrigation development and operating rules applying on 30 June 1997.
4. If Melbourne Water –
 - (a) is, because of a shortage of water or for any other unavoidable cause unable to supply; or
 - (b) believes that, in order to avoid future water shortages it is necessary to supply less than – all entitlements set out in Schedule 1 in any year, it must reduce the supply of water to all licensees in the same proportion, unless the Minister is of the opinion that the circumstances are so extreme as to justify some other basis.

Schedule 3

Managing Melbourne Water's Share of Water Stored in the Reservoir

1. Adjustments to Melbourne Water's Share

The Storage Operator must adjust the volume calculated under sub-clause 10.3 to reflect –

 - (a) any inflows to the Reservoir attributed to Melbourne Water under sub-clauses 11.1 and 11.2; and
 - (b) any deduction made from Melbourne Water's share of inflow to the Reservoir under sub-clause 11.3; and
 - (c) any release for the purpose of supplying entitlements under licences made by the Storage Operator at the direction of Melbourne Water; and
 - (d) any share of losses from the Reservoir through infiltration and evaporation, attributed to Melbourne Water under any water accounting or operating arrangements approved by the Minister under clause 16; and
 - (e) any transfer losses attributed to Melbourne Water under sub-clause 15.2; and
 - (f) any share of out-of-balance from time to time attributed to Melbourne Water under item 4 of this Schedule; and
 - (g) any other adjustment provided for in this Order.
2. Transfer Losses

The Storage Operator must calculate transfer losses attributable to Melbourne Water –

 - (a) in accordance with the formula set out in this item; or

- (b) if some other method is approved by the Minister under clause 16, in accordance with that method.

$$\text{LOSS} \times R_i / \text{SUMR}_i$$

where –

LOSS is the volume of transfer loss estimated by the Storage Operator in megalitres;
 R_i is the volume in megalitres of water released from the Reservoir by the Storage Operator at the direction of Melbourne Water; and
 SUMR_i is the total volume in megalitres of water contemporaneously released from the Reservoir by the Storage Operator to supply bulk entitlement holders other than Melbourne Water.

3. Internal Spills
- 3.1 During any period when the Reservoir contains –
- (a) less water attributed to Melbourne Water than the amount set out in sub-clause 10.1; and
- (b) the full amount of the share of the capacity of the Reservoir to which any other bulk entitlement holder is entitled (the “first holder”) –
- the Storage Operator must attribute to Melbourne Water a proportion of any inflow to the Reservoir which would, in other circumstances, be attributed to the first holder.
- 3.2 The volume of inflow referred to in item 3.1 is to be shared between Melbourne Water and any bulk entitlement holder with a share of the capacity of the Reservoir, other than the first holder (an “other holder”) in the proportion which Melbourne Water’s share of the capacity of the Reservoir bears to the sum of Melbourne Water’s and each other holder’s shares of that capacity.
- 3.3 If the Reservoir contains the full amount of the share of the capacity of the Reservoir to which each other holder is entitled, the Storage Operator must attribute all of the inflow to the Reservoir to Melbourne Water, until the full amount of Melbourne Water’s share under sub-clause 10.1 is reached.
4. Out-of-balance
- 4.1 The Storage Operator must determine the difference between the volume of water which the Storage Operator calculates is stored in the Reservoir at any time and the sum of all the adjusted volumes calculated under item 1 of this Schedule at that time.
- 4.2 The Storage Operator must attribute to Melbourne Water 9.5% of the difference determined under item 4.1.

Water Act 1989

BULK ENTITLEMENT (MARIBYRNONG – SOUTHERN RURAL WATER) CONVERSION ORDER 2000

I, Sherryl Garbutt, under the provisions of the **Water Act 1989**, make the following Order –

1. CITATION
 This Order may be cited as the Bulk Entitlement (Maribyrnong – Southern Rural Water) Conversion Order 2000.
2. EMPOWERING PROVISIONS
 This Order is made under sections 43, 47 and 64A of the **Water Act 1989**.
3. COMMENCEMENT
 This Order comes into operation on the day it is published in the Government Gazette.

4. DEFINITIONS

In this Order –

“Act” means the **Water Act 1989**;

“Authority” means a Water Authority other than Southern Rural Water which holds a bulk entitlement granted under Division 1 or 3 of Part 4 of the Act;

“bulk entitlement holder” means a person holding a bulk entitlement under the Act;

“Department” means the Department of Natural Resources and Environment;

“exchange rate” means the rate, determined by the Minister, at which the security of supply for a water entitlement varies inversely to the annual volume of water comprised in that entitlement;

“Gisborne gauging station” means the stream gauging station, number 230206, located on the waterway;

“Keilor gauging station” means the stream gauging station, number 230200, located on the waterway;

“licence” means any licence referred to in Schedule 1;

“Maribyrnong Basin” means the area of land designated as Basin Number 30 in the South East Coast Division of the Australian Water Resources Council's Australian Continental Drainage Divisions;

“Maribyrnong Basin Water Accounts” means an annual report, required by the Minister, on compliance by entitlement holders and licensees, respectively, in the Maribyrnong Basin, with the terms of their bulk entitlements or licences;

“Melbourne Water” means Melbourne Water Corporation;

“Minister”, in relation to any provision, includes any person authorised by the Minister to act on the Minister's behalf in relation to that provision, or to whom the Minister has delegated the relevant power, discretion, function, authority or duty under section 306 of the Water Act;

“modified natural flow” means the sum of flow at the Gisborne gauging station which is attributable to the passing flow or spill from Rosslynne Reservoir, and any unregulated flow entering the waterway below the Gisborne gauging station;

“operating loss” means the amount of water released from the Reservoir to meet entitlements under licences, which is not subsequently used for that purpose;

“passing flows” means the flows referred to in clause 12;

“regulated release” means any release of water from Rosslynne Reservoir made by the Storage Operator to supply entitlement holders on the waterway;

“Reservoir” means Rosslynne Reservoir on Jacksons Creek;

“Resource Manager” means any person appointed by the Minister to do all or any of the following –

- (a) prepare the Maribyrnong Basin Water Accounts; and
- (b) monitor whether entitlement holders in the Maribyrnong Basin comply with the conditions of their bulk entitlements; and
- (c) investigate and mediate disputes between entitlement holders in the Maribyrnong Basin; and
- (d) investigate and deal with significant unauthorised uses of water in the Maribyrnong Basin; and
- (e) supervise the qualification of any rights to water made by the Minister during periods of declared water shortage under section 13 of the Act;

“security of supply” means the statistical probability of being able to supply a given volume of water in any year;

“Southern Rural Water” means Gippsland and Southern Rural Water Authority;

“Storage Operator” means any person appointed by the Minister to operate all or part of the water supply works of the Reservoir, to manage or measure the flow into or in all or part of the Reservoir or waterway, or to do all or any of them;

“Sunbury gauging station” means the stream gauging station, number 230202, located on the waterway;

“transfer loss” means water lost from the waterway through infiltration and evaporation, between two points;

“unregulated flow” means any flows in the waterway which is not attributable to a release of water to supply entitlements under licences;

“waterway” means –

- (a) Jacksons Creek between the Reservoir and its confluence with the Maribyrnong River, including the pool formed by, and immediately upstream of, Rosslynne dam; and
- (b) the Maribyrnong River between its confluence with Jacksons Creek and Shepherd Bridge;

“Western Water” means Western Region Water Authority;

“year” means the 12 months next following 1 July.

5. CONVERSION TO A BULK ENTITLEMENT

All of Southern Rural Water's entitlement to water from the waterway is converted to a bulk entitlement on the conditions set out in this Order.

6. WATER RESOURCES PLAN

Southern Rural Water must submit to the Minister within 12 months of the date of this Order, a water resource management plan for the waterway in accordance with section 64A of the Act.

7. BULK ENTITLEMENT

7.1 Southern Rural Water may take from the waterway –

- (a) up to an annual average total of 382 megalitres over any period of five consecutive years, to supply entitlements under licences referred to in item 1 of Schedule 1; and
- (b) an amount sufficient to supply entitlements under licences referred to in item 2 of Schedule 1, up to an annual total of 300 megalitres.

7.2 Southern Rural Water must not direct the Storage Operator to release more than the amount it holds in its share of the Reservoir to supply entitlements under licences.

8. OBLIGATIONS TO SUPPLY LICENCES

Southern Rural Water must only use water –

- (a) referred to in paragraph 7.1(a) to supply entitlements under the licences referred to in item 1 of Schedule 1; and
- (b) referred to in paragraph 7.1(b) to supply entitlements under the licences referred to in item 2 of Schedule 1; and

in accordance with –

- (c) any allocation procedures and restriction policies approved under clause 16 and set out in Schedule 2; and
- (d) any water resources plan referred to in clause 6.

9. TRANSFER OF ENTITLEMENT AND ADJUSTMENT OF SCHEDULES

- 9.1 Subject to section 46 of the Act, clause 6 and sub-clause 9.2, this bulk entitlement may be transferred –
- (a) temporarily or permanently;
 - (b) in whole or in part; and
 - (c) for any purpose, including an in-stream use of water.
- 9.2 The Minister may, on the application of Southern Rural Water, at any time, alter –
- (a) any provision of this Order to reflect trading of this or any other bulk entitlement by Southern Rural Water;
 - (b) the volume of water specified in item 2 of Schedule 1 to reflect any change in entitlements under licences referred to in that item; and
 - (c) the security of supply specified in item 1 of Schedule 2, in accordance with the exchange rates.
- 9.3 Any application made by Southern Rural Water under sub-clause 9.2 must –
- (a) comply with any water resources management plan referred to in clause 6;
 - (b) set out the objectives of, and reasons for, the proposed alteration; and
 - (c) set out the results of an assessment of the likely effects of the proposed alteration on –
 - (i) the security of supply specified in item 1 of Schedule 2; and
 - (ii) the environment.
- 9.4 The Minister may –
- (a) approve part or all of any application under sub-clause 9.2; or
 - (b) require Southern Rural Water to –
 - (i) provide further information; or
 - (ii) re-submit the application in a different form; or
 - (c) not approve the application.
10. SHARE OF STORAGE CAPACITY
- 10.1 Southern Rural Water is entitled to a share of 4.5% of the estimated storage capacity of the Reservoir, being 24 670 megalitres at a full supply level of 450.90 metres Australian Height Datum.
- 10.2 At the commencement of this Order, Southern Rural Water is deemed to be entitled to such volume of water as calculated by the Storage Operator and agreed between Southern Rural Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir.
- 10.3 Southern Rural Water may, subject to sub-clauses 7.2 and 11.3, use all of the water which the Storage Operator calculates is stored in the Reservoir by Southern Rural Water, in accordance with Schedule 3.
11. SHARE OF FLOW
- 11.1 The Storage Operator must, after allowing for –
- (a) all passing flows required under sub-clause 12.1(a); and
 - (b) any water being transferred in the waterway to or from either a bulk entitlement holder other than Southern Rural Water, or a person holding a licence under Part 4 Division 2 of the Act –
- attribute 4.5% of all the inflow to the Reservoir, as calculated by the Storage Operator, to Southern Rural Water's share.

- 11.2 In addition to the share of flow attributed under sub-clause 11.1, Southern Rural Water may store such further inflow to the Reservoir that the Storage Operator attributes to Southern Rural Water's share, in accordance with item 3 of Schedule 3.
- 11.3 The Storage Operator must deduct from Southern Rural Water's share of flow determined under sub-clauses 11.1 and 11.2, 4.5% of any passing flow released from the Reservoir to meet the provisions under paragraphs 12.1(b) and 12.1(c).
- 11.4 Subject to any operating arrangements approved under clause 16, Southern Rural Water may authorise the holder of a licence to satisfy the entitlement under that licence from –
- (a) any flow released to the waterway for that purpose from the Reservoir at the direction of Southern Rural Water; and
 - (b) any unregulated flow in the waterway, except flow which the Storage Operator designates as providing for one or more of the purposes set out in paragraphs 11.1(a) or 11.1(b).
12. PASSING FLOWS
- 12.1 Southern Rural Water must provide –
- (a) at all times, within the operating tolerances specified in Schedule 4, a passing flow –
 - (i) at the Gisborne gauging station, of the lesser of 3 megalitres/day and the natural flow at this location; and
 - (ii) at the Sunbury gauging station, of the lesser of 10 megalitres/day and the modified natural flow at this location; and
 - (iii) at the Keilor gauging station, of the lesser of 5 megalitres/day and the modified natural flow at this location.
 - (b) a minimum flow at the Gisborne and Sunbury Gauging Stations at an instantaneous rate of 1 megalitre per day; and
 - (c) a minimum flow, which shall include any release made by the Storage Operator to supply licence holders, at an instantaneous rate of 20 megalitres per day at Gisborne Gauging Station, during any period determined under sub-clause 12.2.
- 12.2 Whenever –
- (a) the Reservoir has not overflowed on or before 1 October in any year; and
 - (b) the cumulative inflow to the Reservoir over the 24 months immediately preceding 1 October in that year, as determined by the Storage Operator, is –
 - (i) at least 10 500 megalitres; or
 - (ii) less than 10 500 megalitres and on 1 October in that year the Reservoir has in storage at least 13 695 megalitres (being 55% of the total storage capacity set out in sub-clause 10.1-
- the Storage Operator must, for a period of 10 consecutive days determined in consultation with the Department, Southern Rural Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir, but before 31 December in that year, make the releases referred to in paragraph 12.1(c).
- 12.3 Southern Rural Water must propose to the Minister within twelve months of the date of this Order, a basis under which the natural flows and modified natural flows referred to under paragraph 12.1(a) are to be calculated.
- 12.4 Southern Rural Water, after consultation with the Department and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir, may propose to the Minister a variation to the operating tolerances specified in Schedule 4 to increase operational flexibility in meeting the minimum average passing flow requirements.

- 12.5 The proposal referred to in sub-clause 12.4 must demonstrate that, under operational experience over a period of not less than one year, the provision of the average passing flow requirements cannot be met without an unreasonable impact on the security of licence holders on the waterway.
- 12.6 The Minister may –
- (a) approve or not approve a proposal made under sub-clause 12.3 or 12.4;
 - (b) require Southern Rural Water to amend the proposal; and
 - (c) require Southern Rural Water –
 - (i) to review all or part of any proposal approved by the Minister if, in the Minister’s opinion, it is, at any time, no longer fair, reasonable or representative; and
 - (ii) to propose an amended proposal to the Minister.
- 12.7 Southern Rural Water must –
- (a) advise the Resource Manager in writing within 14 days of any proposal approved by the Minister under sub-clause 12.6; and
 - (b) provide the Resource Manager with such other information concerning the proposed passing flows as the Resource Manager may, from time to time, require.
13. DIVERSIONS OTHER THAN FROM THE RESERVOIR
Not applicable to Southern Rural Water – applies only to Western Water.
14. RELEASES
- 14.1 Subject to item 4 of Schedule 2, Southern Rural Water must direct the Storage Operator to release sufficient water from the Reservoir in every year to supply the entitlement under every licence.
- 14.2 Unless and until a proposal is approved or determined under sub-clause 14.4, Southern Rural Water and Melbourne Water must share the excess capacity of the Reservoir outlet works in the same proportion as their respective shares of inflow to the Reservoir bear, one to another.
- 14.3 Southern Rural Water may, after consulting with all other bulk entitlement holders with a share of the storage capacity of the Reservoir, propose to the Minister any fair and reasonable arrangement for sharing the excess capacity of the Reservoir outlet works between them.
- 14.4 The Minister –
- (a) may approve any proposal made under sub-clause 14.3 to which all bulk entitlement holders referred to in that sub-clause have agreed in writing; or
 - (b) if all bulk entitlement holders have not so agreed, must refer the proposal to be determined by an independent expert under clause 26.
- 14.5 In this clause, “excess capacity” means the capacity in excess of that required by the Storage Operator to make releases for the purposes set out in sub-clause 12.1.
15. CALCULATIONS
- 15.1 For the purpose of sub-clause 7.1, Southern Rural Water is deemed to have taken from the waterway in any year the sum of diversions made to satisfy entitlements under licences in that year.
- 15.2 For the purpose of sub-clause 7.2, releases made to supply entitlements under licences include such amounts as the Storage Operator allows to meet –
- (a) transfer losses, calculated in accordance with item 2 of Schedule 3; and
 - (b) operating losses between the Reservoir and Keilor Gauging Station.
- 15.3 The Storage Operator must exclude from any calculation under clause 7 any water being transferred to or from –
- (a) a bulk entitlement holder; or

- (b) a person holding a licence under Part 4 Division 2 of the Act, other than a licence referred to in Schedule 1.

16. OPERATING ARRANGEMENTS

16.1 Southern Rural Water, after consulting the Storage Operator and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir, must propose to the Minister within 12 months of the commencement of this Order –

- (a) water accounting and operational arrangements for water stored in and released from the Reservoir under this Order; and
- (b) allocation procedures and restriction policies to ensure that Southern Rural Water complies with clause 7 and Schedule 2 in supplying entitlements under licences; and
- (c) arrangements for reporting under clause 19.

16.2 The Minister may –

- (a) approve a proposal made under sub-clause 16.1; or
- (b) require Southern Rural Water to amend the proposal; or
- (c) not approve the proposal.

16.3 The Minister may, at any time, require Southern Rural Water to –

- (a) review all or part of any proposal approved by the Minister if, in the Minister's opinion, it is, at any time, no longer fair, reasonable or representative; and
- (b) make an amended proposal to the Minister.

16.4 Southern Rural Water must –

- (a) advise the Resource Manager in writing within 14 days after the Minister approves of any proposal made under this clause; and
- (b) provide the Resource Manager with such other information concerning diversions to satisfy entitlements under licences as the Resource Manager may, from time to time, require.

17. ENVIRONMENTAL OBLIGATIONS

17.1 Southern Rural Water must propose to the Minister within 12 months of the date of this Order, a program to manage the environmental effects of operating Rosslynne Reservoir, including –

- (a) the effects on the bed and banks of the waterway in the vicinity of the Rosslynne Reservoir; and
- (b) operating practices to remove silt from Rosslynne Reservoir; and
- (c) operating practices to manage the water quality in Rosslynne Reservoir and the waterway; and
- (d) operating rules to control releases from Rosslynne Reservoir to the waterway.

17.2 The Minister may –

- (a) approve the program proposed under sub-clause 17.1; or
- (b) require Southern Rural Water to amend the proposed program; or
- (c) require Southern Rural Water to –
 - (i) review the program approved by the Minister if, in the Minister's opinion, it is, at any time, no longer appropriate; and
 - (ii) propose an amended program to the Minister.

17.3 Southern Rural Water must at its cost –

- (a) implement the approved environmental management program; and
- (b) keep a record of all work undertaken under paragraph (a).

- 17.4 The Minister may, from time to time, require Southern Rural Water to report in writing on the implementation of any program approved under sub-clause 17.2.
- 17.5 Southern Rural Water may recover the costs of implementing the approved program from the Storage Operator.
18. METERING PROGRAM
- 18.1 Southern Rural Water must propose to the Minister within 12 months of the commencement of this Order, a metering program to demonstrate Southern Rural Water's compliance with its bulk entitlement under this Order.
- 18.2 A proposal under sub-clause 18.1 must include details of any existing or proposed arrangements made by Southern Rural Water for any person other than Southern Rural Water to measure or to calculate instream flows, or water taken from the waterway to satisfy entitlements under licences.
- 18.3 The Minister may –
- (a) approve a program proposed under sub-clause 18.1; or
 - (b) require Southern Rural Water to amend the proposed program; or
 - (c) not approve the proposed program.
- 18.4 The Minister may, at any time, require Southern Rural Water to –
- (a) review the program approved by the Minister if, in the Minister's opinion, it is, at any time, no longer appropriate; and
 - (b) propose an amended program to the Minister.
- 18.5 Southern Rural Water must, at its cost and in accordance with any guidelines issued from time to time by the Minister –
- (a) implement and maintain any metering program approved by the Minister; and
 - (b) maintain metering equipment and associated measurement structures in good condition; and
 - (c) ensure that metering equipment is periodically re-calibrated; and
 - (d) if rating curves are used to calculate flows, ensure that the curves are regularly checked and, if necessary, revised; and
 - (e) keep a record of all work undertaken under paragraphs (b), (c) and (d).
19. REPORTING REQUIREMENTS
- 19.1 The Minister may require Southern Rural Water to report on all or any of the following:
- (a) The status of Southern Rural Water's entitlement to water in the Reservoir including:
 - (i) releases made from the Reservoir to supply entitlements under licences;
 - (ii) the volume of Southern Rural Water's share of storage capacity under sub-clause 10.1;
 - (iii) the volume of inflows attributed to Southern Rural Water under sub-clauses 11.1 and 11.2;
 - (iv) the volume of transfer and operating losses allowed for under sub-clause 15.2; and
 - (v) the volume of any deduction made under sub-clause 11.3.
 - (b) Compliance with meeting the passing flows specified in clause 12.
 - (c) The volume of water taken by Southern Rural Water's licencees from the waterway to satisfy entitlements under licences.
 - (d) Any temporary or permanent transfer of all or part of this bulk entitlement.
 - (e) Any temporary or permanent transfer of a bulk entitlement or other entitlement under the Act to Southern Rural Water which does or may alter the flow of water in the waterway.

- (f) Any alteration to Schedule 1 or Schedule 2 made under sub-clause 9.2.
 - (g) The number, amount and places of origin and destination, of transfers of primary entitlements.
 - (h) Any amendment to this bulk entitlement.
 - (i) Any new bulk entitlement granted to Southern Rural Water to supply entitlements under licences.
 - (j) The implementation of any programs approved under sub-clauses 17.2 and 18.3.
 - (k) Any failure by Southern Rural Water to comply with any provision of this bulk entitlement.
 - (l) Any difficulty experienced or anticipated by Southern Rural Water in complying with this bulk entitlement and any remedial action taken or proposed.
- 19.2 The Minister may require Southern Rural Water to report on all or any of the matters set out in sub-clause 19.1 –
- (a) in writing or in such electronic form as may be agreed between Southern Rural Water and the Minister; and
 - (b) within 14 days of receiving the Minister's written request or such longer period as the Minister may determine.
- 19.3 The Resource Manager may require Southern Rural Water to report from time to time, on all or any of the matters set out in paragraphs (a) to (l) of sub-clause 19.1.
- 19.4 Any report under sub-clause 19.3 must be made –
- (a) in such form as may be agreed between Southern Rural Water and the Resource Manager; and
 - (b) within such period of time as may be agreed between Southern Rural Water and the Storage Operator and approved by the Minister under operating arrangements referred to in clause 16.
- 19.5 Subject to sub-clause 19.6, Southern Rural Water must, in its Annual Report, report on each of the matters referred to in sub-clause 19.1.
- 19.6 On the application of Southern Rural Water, the Minister may, in writing, relieve Southern Rural Water from the need to report on one or more failures referred to in paragraph 19.1(k) in its Annual Report for a particular year.
20. WATER RESOURCE MANAGEMENT COSTS
- 20.1 Subject to sub-clause 23.1, Southern Rural Water must pay the Resource Manager a fair and reasonable proportion of the costs incurred by the Resource Manager in –
- (a) preparing the Maribyrnong Basin Water Accounts; and
 - (b) monitoring whether entitlement holders in the Maribyrnong Basin comply with the conditions of their bulk entitlements; and
 - (c) directing the release of any water set aside for maintaining water quality in the waterway; and
 - (d) investigating and mediating disputes between entitlement holders in the Maribyrnong Basin; and
 - (e) investigating and dealing with significant unauthorised uses of water in the Maribyrnong Basin; and
 - (f) supervising the qualification of any rights to water made by the Minister during periods of declared water shortage under section 13 of the Act –
- as estimated under sub-clause 23.3 and invoiced under clause 24.
21. STORAGE OPERATOR COSTS
- 21.1 Subject to sub-clause 23.1 Southern Rural Water must pay the Storage Operator a proportion of the source costs in any year, whether or not Southern Rural Water directs the Storage Operator to release water from the Reservoir in that year.

- 21.2 For the purposes of this clause, “source costs” means the total annual cost of –
- (a) operating, maintaining and administering the Reservoir; and
 - (b) making releases from the Reservoir (excluding costs referred to in sub-clause 22.2); and
 - (c) meeting the cost of any new or enhancement work to the Reservoir (other than work designed to increase the yield of the Reservoir); and
 - (d) making an appropriate allowance for depreciation of works associated with the Reservoir, using the deprival value approach, or such other depreciation method required by the Victorian Department of Treasury and Finance; and
 - (e) managing the stream gauging stations on the waterway; and
 - (f) implementing the program established under clause 17 to manage the environmental effects of operating the Reservoir.
 - (g) any other activity undertaken by the Storage Operator that has been agreed to by Southern Rural Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir.

- 21.3 The proportion referred to in sub-clause 21.1 is either –
- (a) the proportion from time to time agreed between Southern Rural Water and the Storage Operator; or
 - (b) if there is no agreement under paragraph (a), the proportion determined by the following formula:

$$CS = 4.5\% \times (\text{SOURCECOST} + \text{RETURN});$$

where –

CS	=	the source charge for the relevant year, in \$.
SOURCECOST	=	the source costs in \$ as agreed with Southern Rural Water for the relevant year.
RETURN	=	the amount of any dividend required to be paid by the Government of Victoria on the value of the Reservoir and associated assets in the relevant year.

22. WATERWAY REGULATION COSTS

- 22.1 Subject to sub-clause 23.1, Southern Rural Water must pay the Storage Operator a proportion of the waterway regulation costs in any year.

- 22.2 For the purpose of this clause, “waterway regulation costs” means the total annual cost of operating the waterway below the Reservoir to provide –

- (a) entitlements under licences; and
- (b) flows referred to in paragraph 11.1(a); and
- (c) flows referred to in sub-clause 11.3.

- 22.3 The proportion referred to in item 22.1 is either –

- (a) the proportion from time to time agreed between Southern Rural Water and the Storage Operator; or
- (b) if there is no agreement under paragraph (a), the proportion determined by the following formula:

$$CR = (\text{TAKE}/\text{SUMTAKE}) \times \text{REGCOST};$$

where –

CR	=	the waterway regulation charge for the relevant year in \$.
TAKE	=	the volume of water in megalitres referred to in sub-clause 15.1 in the relevant year.

SUMTAKE	=	the average annual volume of water referred to in sub-clause 15.1 for the five years immediately preceding the relevant year.
REGCOST	=	the waterway regulation costs in \$, estimated by the Storage Operator, and as agreed with Southern Rural Water, to be incurred in the relevant year.

23. DUTY TO KEEP FINANCIAL ACCOUNTS AND FIX PROPORTIONS

- 23.1 Southern Rural Water is not obliged to make any payment to –
- (a) the Resource Manager under clause 20; or
 - (b) the Storage Operator under clauses 21 and 22 –
- unless the person to whom the payment is payable chooses to comply with the provisions of this clause relevant to that payment.
- 23.2 Separate accounts of all costs and payments must be kept –
- (a) by the Resource Manager in respect to clause 20; and
 - (b) by the Storage Operator in respect to clauses 21 and 22.
- 23.3 The Resource Manager must, by 1 March in any year, provide Southern Rural Water with an estimate of the fair and reasonable proportion of the costs referred to in sub-clause 20.1, in respect of the ensuing year.
- 23.4 The Storage Operator must, by 1 March in any year, in conjunction with the authority responsible for the Reservoir and Southern Rural Water, provide Southern Rural Water with a detailed estimate of the amounts payable by Southern Rural Water under sub-clauses 21.1 and 22.1 in the ensuing year.
- 23.5 The authority responsible for the Reservoir must consult with Southern Rural Water on any proposal to undertake new or enhancement works on the Reservoir, providing reasonable detail and the need for those works, prior to undertaking those works.
- 23.6 Southern Water may object to any proposal referred to in sub-clause 23.5 and may give written notice to the other party requiring the matter to be determined by referral to an independent expert in accordance with clause 26.
- 23.7 Accounts required to be kept under this clause must be made available for inspection by Southern Rural Water upon request.
24. DUTY TO MAKE PAYMENTS
- 24.1 In this clause, the Resource Manager and the Storage Operator are each a “creditor”.
- 24.2 Subject to sub-clause 24.3, a creditor must invoice Southern Rural Water for the annual amounts payable under clauses 20, 21 and 22 in equal instalments.
- 24.3 Where the actual cost of any component of an amount payable is not known to the creditor at the time an invoice is prepared, the creditor may prepare an invoice based on an appropriate proportion of the relevant estimate given to Southern Rural Water under sub-clause 23.3 or 23.4.
- 24.4 If an invoice is prepared in accordance with sub-clause 24.3, the creditor must make a corresponding adjustment to the first invoice prepared after the component referred to in sub-clause 24.3 becomes known to the creditor.
- 24.5 Unless the relevant creditor and Southern Rural Water otherwise agree in writing –
- (a) invoices under clause 20 must be given to Southern Rural Water quarterly, in arrears; and
 - (b) invoices under clauses 21 and 22 must be given to Southern Rural Water monthly, in arrears; and
 - (c) Southern Rural Water must pay the full amount of each invoice, within 28 days of receiving it.

25. DATA

- 25.1 Subject to sub-clause 18.5, the Minister will use the Minister's best endeavours to ensure that all hydrological and other data required by Southern Rural Water to comply with this bulk entitlement are made available to Southern Rural Water.
- 25.2 Southern Rural Water must make available to any person data collected by or on behalf of Southern Rural Water for the purposes of clauses 18 or 19 subject to the person paying any fair and reasonable access fee imposed by Southern Rural Water to cover the costs of making the data available to that person.

26. DISPUTE RESOLUTION

- 26.1 If any difference or dispute arises between Southern Rural Water, the Minister and, with their consent, the Resource Manager, the Storage Operator or any of them (the "parties") concerning the interpretation or application of this Order, which is not resolved within 14 days of it arising, any party may give written notice to the others requiring the matter to be determined by an independent expert, if it is not otherwise resolved, within 14 days of that notice.
- 26.2 The independent expert will be either –
- (a) a person agreed on by the parties to the difference or dispute; or
 - (b) if those parties cannot agree, a person nominated by the President of the Institute of Arbitrators, Australia.
- 26.3 The independent expert must reach a conclusion on the matter within 30 days of it being referred, but has power to extend the period for reaching a conclusion on the matter by a further 30 days.
- 26.4 The independent expert must send a copy of the conclusion and its supporting reasons to each party to the difference or dispute.
- 26.5 In any difference or dispute to which the Minister is a party –
- (a) the independent expert must express the conclusion as a recommendation; and
 - (b) the Minister must consider any recommendation made under paragraph (a) before deciding to give a direction under section 307 or to take any other action under the Act in relation to the difference or dispute.
- 26.6 In any difference or dispute to which the Minister is not a party, any conclusion by an independent expert is final and binding on the parties.
- 26.7 The apportionment of the costs of and incidental to every reference, including the costs of the independent expert, are at the discretion of the Minister.

Signed:

SHERRYL GARBUTT,

Minister administering the **Water Act 1989**

Dated 27 July 2000.

Note: An explanatory note that accompanies this Order is available from the Department of Natural Resources and Environment.

Schedule 1

Entitlements

1. Licences to take water from the waterway issued by Southern Rural Water under clause 7 of this Order, as renewed from time to time, up to a total volume of 382 megalitres.
2. Licences to take water from the waterway (other than licences referred to in item 1) issued by Southern Rural Water under Part 4 Division 2 of the Act after the commencement of this Order, as renewed from time to time, up to a total volume of 300 megalitres.

Schedule 2

Security of Entitlements

1. Except as set out in item 3, Southern Rural Water must supply entitlements under licences with 95% security of supply.
2. The security of supply specified in item 1 was determined from modelling based on the Maribyrnong System Model Run No. 0545 held by the Department.
3. The Minister may, by reference to a computer model, which the Minister considers to be appropriate, modify the level of security set out in item 1 if the Minister is satisfied that either –
 - (a) hydrological conditions have changed since December 1995; or
 - (b) the estimated security of supply, is greater than the security of supply estimated from the level of irrigation development and operating rules applying on 30 June 1997.
4. If Southern Rural Water –
 - (a) is, because of a shortage of water or for any other unavoidable cause unable to supply; or
 - (b) believes that, in order to avoid future water shortages it is necessary to supply less than – all entitlements set out in Schedule 1 in any year, it must reduce the supply of water to all licensees in the same proportion, unless the Minister is of the opinion that the circumstances are so extreme as to justify some other basis.

Schedule 3

Managing Southern Rural Water's Share of Water Stored in the Reservoir

1. Adjustments to Southern Rural Water's Share
The Storage Operator must adjust the volume calculated under sub-clause 10.3 to reflect –
 - (a) any inflow to the Reservoir attributed to Southern Rural Water under sub-clauses 11.1 and 11.2; and
 - (b) any deduction made from Southern Rural Water's share of inflow to the Reservoir under sub-clause 11.3; and
 - (c) any release for the purpose of supplying entitlements under licences made by the Storage Operator at the direction of Southern Rural Water; and
 - (d) any share of losses from the Reservoir through infiltration and evaporation, attributed to Southern Rural Water under any water accounting or operating arrangements approved by the Minister under clause 16; and
 - (e) any transfer losses attributed to Southern Rural Water under sub-clause 15.2; and
 - (f) any share of out-of-balance from time to time attributed to Southern Rural Water under item 4 of this Schedule; and
 - (g) any other adjustment provided for in this Order.
2. Transfer Losses
The Storage Operator must calculate transfer losses attributable to Southern Rural Water –
 - (a) in accordance with the formula set out in this item; or
 - (b) if some other method is approved by the Minister under clause 16, in accordance with that method.
$$\text{LOSS} \times R_i / \text{SUMR}_i$$

where –

LOSS is the volume of transfer loss estimated by the Storage Operator in megalitres;
 R_i is the volume in megalitres of water released from the Reservoir by the Storage Operator at the direction of Southern Rural Water; and

SUMR_i is the total volume in megalitres of water contemporaneously released from the Reservoir by the Storage Operator to supply bulk entitlement holders other than Southern Rural Water.

3. Internal Spills
 - 3.1 During any period when the Reservoir contains –
 - (a) less water attributed to Southern Rural Water than the amount set out in sub-clause 10.1; and
 - (b) the full amount of the share of the capacity of the Reservoir to which any other bulk entitlement holder is entitled (the “first holder”) –

the Storage Operator must attribute to Southern Rural Water a proportion of any inflow to the Reservoir which would, in other circumstances, be attributed to the first holder.
 - 3.2 The volume of inflow referred to in item 3.1 is to be shared between Southern Rural Water and any bulk entitlement holder with a share of the capacity of the Reservoir, other than the first holder (an “other holder”) in the proportion which Southern Rural Water’s share of the capacity of the Reservoir bears to the sum of Southern Rural Water’s and each other holder’s shares of that capacity.
 - 3.3 If the Reservoir contains the full amount of the share of the capacity of the Reservoir to which each other holder is entitled, the Storage Operator must attribute all of the inflow to the Reservoir to Southern Rural Water, until the full amount of Southern Rural Water’s share under sub-clause 10.1 is reached.
4. Out-of-balance
 - 4.1 The Storage Operator must determine the difference between the volume of water which the Storage Operator calculates is stored in the Reservoir at any time and the sum of all the adjusted volumes calculated under item 1 of this Schedule at that time.
 - 4.2 The Storage Operator must attribute to Southern Rural Water 4.5% of the difference determined under item 4.1.

Schedule 4

Operating tolerances for minimum passing flows

Southern Rural Water will adopt the following operating tolerances for meeting the minimum passing flows, Q, specified in sub-clauses 12.1(a)(ii) and 12.1(a)(iii) of this Order –

- (a) the average flow measured over any continuous 28 day period must not be less than Q_{AV} , calculated using the formula –

$$Q_{AV} = QSUM/28$$
 Where –

QSUM = the sum of the daily minimum passing flows, Q, over the continuous 28 day period;

 and
- (b) the flow is not to be less than 60% of Q at all times; and
- (c) the average flow on any day is not to be less than 80% of Q on more than 7 days within any continuous 28 day period; and
- (d) the average flow on any day is not to be less than Q on more than 14 days within any continuous 28 day period.

Water Act 1989

BULK ENTITLEMENT (MARIBYRNONG – WESTERN WATER) CONVERSION ORDER 2000

I, Sherryl Garbutt, under the provisions of the **Water Act 1989**, make the following Order –

1. CITATION

This Order may be cited as the Bulk Entitlement (Maribyrnong – Western Water) Conversion Order 2000.

2. EMPOWERING PROVISIONS

This Order is made under sections 43, 47 and 64A of the **Water Act 1989**.

3. COMMENCEMENT

This Order comes into operation on the day it is published in the Government Gazette.

4. DEFINITIONS

In this Order –

“Act” means the **Water Act 1989**;

“Authority” means a Water Authority other than Western Water which holds a bulk entitlement granted under Division 1 or 3 of Part 4 of the Act;

“bulk entitlement holder” means a person holding a bulk entitlement under the Act;

“Department” means the Department of Natural Resources and Environment;

“Gisborne gauging station” means the stream gauging station, number 230206, located on the waterway;

“Keilor gauging station” means the stream gauging station, number 230200, located on the waterway;

“Maribyrnong Basin” means the area of land designated as Basin Number 30 in the South East Coast Division of the Australian Water Resources Council’s Australian Continental Drainage Divisions;

“Maribyrnong Basin Water Accounts” means an annual report, required by the Minister, on compliance by entitlement holders and licensees, respectively, in the Maribyrnong Basin, with the terms of their bulk entitlements or licences;

“Melbourne Water” means Melbourne Water Corporation;

“Minister”, in relation to any provision, includes any person authorised by the Minister to act on the Minister’s behalf in relation to that provision, or to whom the Minister has delegated the relevant power, discretion, function, authority or duty under section 306 of the Act;

“Resource Manager” means any person appointed by the Minister to do all or any of the following –

- (a) prepare the Maribyrnong Basin Water Accounts; and
- (b) monitor whether entitlement holders in the Maribyrnong Basin comply with the conditions of their bulk entitlements; and
- (c) investigate and mediate disputes between entitlement holders in the Maribyrnong Basin; and
- (d) investigate and deal with significant unauthorised uses of water in the Maribyrnong Basin; and
- (e) supervise the qualification of any rights to water made by the Minister during periods of declared water shortage under section 13 of the Act;

“Reservoir” means the Rosslynne Reservoir on Jacksons Creek;

“Southern Rural Water” means Gippsland and Southern Rural Water Authority;

“Storage Operator” means any person appointed by the Minister to operate all or part of the water supply works of the Reservoir, to manage or measure the flow into or in all or part of the Reservoir or waterway, or to do all or any of them;

“Sunbury gauging station” means the stream gauging station, number 230202, located on the waterway;

“waterway” means –

- (a) Jacksons Creek between the Reservoir and its confluence with the Maribyrnong

River, including the pool formed by, and immediately upstream of, Rosslynne dam; and

- (b) the Maribyrnong River between its confluence with Jacksons Creek and Shepherd Bridge.

“Western Water” means Western Region Water Authority;

“year” means the 12 months next following 1 July.

5. CONVERSION TO A BULK ENTITLEMENT

All of Western Water’s entitlement to water from the waterway is converted to a bulk entitlement on the conditions set out in this Order.

6. WATER RESOURCES PLAN

Not applicable to Western Water.

7. BULK ENTITLEMENT

7.1 Western Water may take from the waterway up to an annual average total of 6100 megalitres over any period of five consecutive years at a rate not exceeding 69 megalitres/day.

7.2 Western Water must not direct the Storage Operator to release more than the amount it holds in its share of the Reservoir.

8. OBLIGATIONS TO SUPPLY LICENCES

Not applicable to Western Water.

9. TRANSFER OF ENTITLEMENT

9.1 Subject to section 46 of the Act and sub-clause 9.2, this bulk entitlement may be transferred –

- (a) temporarily or permanently;
- (b) in whole or in part; and
- (c) for any purpose, including an in-stream use of water.

9.2 The Minister may, on the application of Western Water, at any time, alter any provision of this Order to reflect trading of this or any other bulk entitlement by Western Water.

9.3 Any application made by Western Water under sub-clause 9.2 must –

- (a) set out the objectives of, and reasons for, the proposed alteration; and
- (b) set out the results of an assessment of the likely effects of the proposed alteration on the environment.

9.4 The Minister may –

- (a) approve part or all of any application under sub-clause 9.2; or
- (b) require Western Water to –
 - (i) provide further information; or
 - (ii) re-submit the application in a different form; or
- (c) not approve the application.

10. SHARE OF STORAGE CAPACITY

10.1 Western Water is entitled to a share of 86% of the estimated storage capacity of the Reservoir, being 24 670 megalitres at a full supply level of 450.90 metres Australian Height Datum.

10.2 At the commencement of this Order, Western Water is deemed to be entitled to such volume of water as calculated by the Storage Operator and agreed between Western Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir.

10.3 Western Water may, subject to sub-clauses 7.2 and 11.3, use all of the water which the Storage Operator calculates is stored in the Reservoir by Western Water, in accordance with Schedule 1.

11. SHARE OF FLOW

- 11.1 The Storage Operator must, after allowing for –
- (a) all passing flows required under the Bulk Entitlement (Maribyrnong-Southern Rural Water) Conversion Order 2000; and
 - (b) any water being transferred in the waterway to or from either a bulk entitlement holder other than Western Water, or a person holding a licence under Part 4 Division 2 of the Act –
- attribute 86% of all the inflow to the Reservoir, as calculated by the Storage Operator, to Western Water's share.
- 11.2 In addition to the share of flow attributed under sub-clause 11.1, Western Water may store such further inflow to the Reservoir that the Storage Operator attributes to Western Water's share, in accordance with item 2 of Schedule 1.
- 11.3 The Storage Operator must deduct from Western Water's share of flow determined under sub-clauses 11.1 and 11.2, 86% of any flow released from the Reservoir in order to provide, at all times –
- (a) a minimum flow at the Gisborne and Sunbury gauging stations at an instantaneous rate of 1 megalitre per day; and
 - (b) a minimum flow, at an instantaneous rate of 20 megalitres per day at Gisborne gauging station, during any period determined under sub-clause 11.4.
- 11.4 Whenever –
- (a) the Reservoir has not overflowed on or before 1 October in any year; and
 - (b) the cumulative inflow to the Reservoir over the 24 months immediately preceding 1 October in that year, as determined by the Storage Operator, is –
 - (i) at least 10 500 megalitres; or
 - (ii) less than 10 500 megalitres and on 1 October in that year the Reservoir has in storage at least 13 695 megalitres (being 55% of the total storage capacity set out in sub-clause 10.1) –

the Storage Operator must, for a period of 10 consecutive days determined in consultation with the Department, Western Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir, but before 31 December in that year, make the releases referred to in paragraph 11.3(b).

12. PASSING FLOWS

Not applicable to Western Water. The obligation to meet passing flows is on Southern Rural Water – refer Bulk Entitlement (Maribyrnong-Southern Rural Water) Conversion Order 2000.

13. DIVERSIONS OTHER THAN FROM THE RESERVOIR

- 13.1 In calculating water available to Western Water under this Order at any point on the waterway downstream of the Reservoir, allowance must be made for –
- (a) any losses of water incurred between that point and the Reservoir; and
 - (b) the time taken to reach that point from the Reservoir.
- 13.2 If Western Water proposes to divert water under this Order from a point on the waterway other than the Reservoir, it must, after consultation with other Authorities sharing the capacity of the Reservoir and the Department, propose to the Minister –
- (a) fair reasonable and representative means for calculating the allowances required by sub-clause 13.1;
 - (b) details of the proposed location and amount of the extraction;
 - (c) details of the operational requirements of the Resource Manager; and

- (d) an analysis demonstrating that there is no impact on any other bulk entitlement or licence held by another person.
- 13.3 The Minister may –
- (a) approve a proposal made under sub-clause 13.2; or
 - (b) require Western Water to amend the proposal; and
 - (c) require Western Water –
 - (i) to review all or part of any proposal approved by the Minister if, in the Minister’s opinion, it is, at any time, no longer fair, reasonable or representative; and
 - (ii) to propose an amended proposal to the Minister.
- 13.4 Western Water must –
- (a) advise the Resource Manager in writing within 14 days of any proposal approved by the Minister under sub-clause 13.3; and
 - (b) provide the Resource Manager with such other information concerning the proposed diversion as the Resource Manager may, from time to time, require.
14. RELEASES
- 14.1 Unless and until a proposal is approved or determined under sub-clause 14.3, Melbourne Water and Southern Rural Water must share the excess capacity of the Reservoir outlet works in the same proportion as their respective shares of inflow to the Reservoir bear, one to another.
- 14.2 Western Water may, after consulting with all other bulk entitlement holders with a share of the storage capacity of the Reservoir, propose to the Minister any fair and reasonable arrangement for sharing the excess capacity of the Reservoir outlet works between them.
- 14.3 The Minister –
- (a) may approve any proposal made under sub-clause 14.2 to which all bulk entitlement holders referred to in that sub-clause have agreed in writing; or
 - (b) if all bulk entitlement holders have not so agreed, must refer the proposal to be determined by an independent expert under clause 26.
- 14.4 In this clause, “excess capacity” means the capacity in excess of that required by the Storage Operator to make releases for the purposes set out in paragraph 11.1(a).
15. CALCULATIONS
- Not applicable to Western Water.
16. OPERATING ARRANGEMENTS
- 16.1 Western Water, after consulting the Storage Operator and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir, must propose to the Minister within 12 months of the commencement of this Order –
- (a) water accounting and operational arrangements for water stored in and released from the Reservoir under this Order; and
 - (b) arrangements for reporting under clause 19.
- 16.2 The Minister may –
- (a) approve a proposal made under sub-clause 16.1; or
 - (b) require Western Water to amend the proposal; or
 - (c) not approve the proposal.
- 16.3 The Minister may, at any time, require Western Water to –
- (a) review all or part of any proposal approved by the Minister if, in the Minister’s opinion, it is, at any time, no longer fair, reasonable or representative; and
 - (b) make an amended proposal to the Minister.

- 16.4 Western Water must –
- (a) advise the Resource Manager in writing within 14 days after the Minister approves any proposal made under this clause; and
 - (b) provide the Resource Manager with such other information concerning diversions as the Resource Manager may, from time to time, require.
17. ENVIRONMENTAL OBLIGATIONS
- Not applicable to Western Water. The obligation to prepare a program to manage the environmental effects of operating the Reservoir is on Southern Rural Water – refer Bulk Entitlement (Maribyrnong–Southern Rural Water) Conversion Order 2000.
18. METERING PROGRAM
- 18.1 Western Water must propose to the Minister within 12 months of the commencement of this Order, a metering program to demonstrate Western Water’s compliance with its bulk entitlement under this Order.
- 18.2 A proposal under sub-clause 18.1 must include details of any existing or proposed arrangements made by Western Water for any person other than Western Water to measure or to calculate instream flows.
- 18.3 The Minister may –
- (a) approve a program proposed under sub-clause 18.1; or
 - (b) require Western Water to amend the proposed program; or
 - (c) not approve the proposed program.
- 18.4 The Minister may, at any time, require Western Water to –
- (a) review the program approved by the Minister if, in the Minister's opinion, it is, at any time, no longer appropriate; and
 - (b) propose an amended program to the Minister.
- 18.5 Western Water must, at its cost and in accordance with any guidelines issued from time to time by the Minister –
- (a) implement and maintain any metering program approved by the Minister; and
 - (b) maintain metering equipment and associated measurement structures in good condition; and
 - (c) ensure that metering equipment is periodically re-calibrated; and
 - (d) if rating curves are used to calculate flows, ensure that the curves are regularly checked and, if necessary, revised; and
 - (e) keep a record of all work undertaken under paragraphs (b), (c) and (d).
19. REPORTING REQUIREMENTS
- 19.1 The Minister may require Western Water to report on all or any of the following:
- (a) Status of Western Water’s entitlement to water in the Reservoir including –
 - (i) the amount of water taken by Western Water from the waterway;
 - (ii) the volume of Western Water’s share of storage capacity under sub-clause 10.1;
 - (iii) the volume of inflows attributed to Western Water under sub-clauses 11.1 and 11.2;
 - (iv) the volume of losses attributed to Western Water as determined by the Storage Operator pursuant to paragraph 13.1(a); and
 - (v) the volume of any deduction made under sub-clause 11.3.
 - (b) Any temporary or permanent transfer of all or part of this bulk entitlement.

- (c) Any temporary or permanent transfer of a bulk entitlement or other entitlement under the Act to Western Water which does or may alter the flow of water in the waterway.
 - (d) Any amendment to this bulk entitlement.
 - (e) Any new bulk entitlement granted to Western Water.
 - (f) The implementation of any metering program approved under sub-clause 18.3.
 - (g) Any failure by Western Water to comply with any provision of this bulk entitlement.
 - (h) Any difficulty experienced or anticipated by Western Water in complying with this bulk entitlement and any remedial action taken or proposed.
- 19.2 The Minister may require Western Water to report on all or any of the matters set out in sub-clause 19.1 –
- (a) in writing, or in such electronic form as may be agreed between Western Water and the Minister; and
 - (b) within 14 days of receiving the Minister’s written request or such longer period as the Minister may determine.
- 19.3 The Resource Manager may require Western Water to report from time to time, on all or any of the matters set out in paragraphs (a) to (h) of sub-clause 19.1.
- 19.4 Any report under sub-clause 19.3 must be made –
- (a) in such form as may be agreed between Western Water and the Resource Manager; and
 - (b) within such period of time as may be agreed between Western Water and the Storage Operator and approved by the Minister under operating arrangements referred to in clause 16.
- 19.5 Subject to sub-clause 19.6, Western Water must, in its Annual Report, report on each of the matters referred to in sub-clause 19.1.
- 19.6 On the application of Western Water, the Minister may, in writing, relieve Western Water from the need to report on one or more failures referred to in paragraph 19.1(g) in its Annual Report for a particular year.
20. WATER RESOURCE MANAGEMENT COSTS
- 20.1 Subject to sub-clause 23.1, Western Water must pay the Resource Manager a fair and reasonable proportion of the costs incurred by the Resource Manager in –
- (a) preparing the Maribyrnong Basin Water Accounts; and
 - (b) monitoring whether entitlement holders in the Maribyrnong Basin comply with the conditions of their bulk entitlements; and
 - (c) directing the release of any water set aside for maintaining water quality in the waterway; and
 - (d) investigating and mediating disputes between entitlement holders in the Maribyrnong Basin; and
 - (e) investigating and dealing with significant unauthorised uses of water in the Maribyrnong Basin; and
 - (f) supervising the qualification of any rights to water made by the Minister during periods of declared water shortage under section 13 of the Act –
- as estimated under sub-clause 23.3 and invoiced under clause 24.
21. STORAGE OPERATOR COSTS
- 21.1 Subject to sub-clause 23.1 Western Water must pay the Storage Operator a proportion of the source costs in any year, whether or not Western Water directs the Storage Operator to release water from the Reservoir in that year.
- 21.2 For the purposes of this clause, “source costs” means the total annual cost of –

- (a) operating, maintaining and administering the Reservoir; and
 - (b) making releases from the Reservoir; and
 - (c) meeting the cost of any new or enhancement work to the Reservoir (other than work designed to increase the yield of the Reservoir); and
 - (d) making an appropriate allowance for depreciation of works associated with the Reservoir, using the deprival value approach, or such other depreciation method required by the Victorian Department of Treasury and Finance; and
 - (e) managing the stream gauging stations on the waterway; and
 - (f) implementing the program established under the Bulk Entitlement (Maribyrnong – Southern Rural Water) Conversion Order 2000, to manage the environmental effects of operating the Reservoir; and
 - (g) any other activity undertaken by the Storage Operator that has been agreed to by Western Water and each Authority holding a bulk entitlement to a share of the storage capacity of the Reservoir.
- 21.3 The proportion referred to in sub-clause 21.1 is either –
- (a) the proportion from time to time agreed between Western Water and the Storage Operator; or
 - (b) if there is no agreement under paragraph (a), the proportion determined by the following formula:–
- $$Cs = 86\% \times (\text{SOURCECOST} + \text{RETURN})$$
- where –
- | | | |
|------------|---|--|
| CS | = | the source charge for the relevant year, in \$. |
| SOURCECOST | = | the source costs in \$ as agreed with Western Water for the relevant year. |
| RETURN | = | the amount of any dividend required to be paid by the Government of Victoria on the value of the Reservoir and associated assets in the relevant year. |
22. WATERWAY REGULATION COSTS
Not applicable to Western Water.
23. DUTY TO KEEP FINANCIAL ACCOUNTS AND FIX PROPORTIONS
- 23.1 Western Water is not obliged to make any payment to –
- (a) the Resource Manager under clause 20; or
 - (b) the Storage Operator under clause 21 –
- unless the person to whom the payment is payable chooses to comply with the provisions of this clause relevant to that payment.
- 23.2 Separate accounts of all costs and payments must be kept –
- (a) by the Resource Manager in respect of clause 20; and
 - (b) by the Storage Operator in respect of clause 21.
- 23.3 The Resource Manager must, by 1 March in any year, provide Western Water with an estimate of the fair and reasonable proportion of the costs referred to in sub-clause 20.1, in respect of the ensuing year.
- 23.4 The Storage Operator must, by 1 March in any year, in conjunction with the authority responsible for the Reservoir and Western Water, provide Western Water with a detailed estimate of amounts payable by Western Water under sub-clause 21.1 in the ensuing year.
- 23.5 The authority responsible for the Reservoir must consult with Western Water on any proposal to undertake new or enhancement works on the Reservoir, providing reasonable detail and the need for those works, prior to undertaking those works.

- 23.6 Western Water may object to any proposal referred to in sub-clause 23.5 and may give written notice to the other party requiring the matter to be determined by referral to an independent expert in accordance with clause 26.
- 23.7 Accounts required to be kept under this clause must be made available for inspection by Western Water upon request.
24. DUTY TO MAKE PAYMENTS
- 24.1 In this clause, the Resource Manager and the Storage Operator are each a “creditor”.
- 24.2 Subject to sub-clause 24.3, a creditor must invoice Western Water for the annual amounts payable under clauses 20 and 21 in equal installments.
- 24.3 Where the actual cost of any component of an amount payable is not known to the creditor at the time an invoice is prepared, the creditor may prepare an invoice based on an appropriate proportion of the relevant estimate given to Western Water under sub-clause 23.3 or 23.4.
- 24.4 If an invoice is prepared in accordance with sub-clause 24.3, the creditor must make a corresponding adjustment to the first invoice prepared after the component referred to in sub-clause 24.3 becomes known to the creditor.
- 24.5 Unless the relevant creditor and Western Water otherwise agree in writing –
- (a) invoices under clause 20 must be given to Western Water quarterly, in arrears; and
 - (b) invoices under clause 21 must be given to Western Water monthly, in arrears; and
 - (c) Western Water must pay the full amount of each invoice, within 28 days of receiving it.
25. DATA
- 25.1 Subject to sub-clause 18.5, the Minister will use the Minister’s best endeavours to ensure that all hydrological and other data required by Western Water to comply with this bulk entitlement are made available to Western Water.
- 25.2 Western Water must make available to any person data collected by or on behalf of Western Water for the purpose of clause 18 or 19 subject to the person paying any fair and reasonable access fee imposed by Western Water to cover the costs of making the data available to that person.
26. DISPUTE RESOLUTION
- 26.1 If any difference or dispute arises between Western Water, the Minister and, with their consent, the Resource Manager, the Storage Operator or any of them (the “parties”) concerning the interpretation or application of this Order, which is not resolved within 14 days of it arising, any party may give written notice to the others requiring the matter to be determined by an independent expert, if it is not otherwise resolved, within 14 days of that notice.
- 26.2 The independent expert will be either –
- (a) a person agreed on by the parties to the difference or dispute; or
 - (b) if those parties cannot agree, a person nominated by the President of the Institute of Arbitrators, Australia.
- 26.3 The independent expert must reach a conclusion on the matter within 30 days of it being referred, but has power to extend the period for reaching a conclusion on the matter by a further 30 days.
- 26.4 The independent expert must send a copy of the conclusion and its supporting reasons to each party to the difference or dispute.
- 26.5 In any difference or dispute to which the Minister is a party –
- (a) the independent expert must express the conclusion as a recommendation; and
 - (b) the Minister must consider any recommendation made under paragraph (a) before deciding to give a direction under section 307 or to take any other action under the Act in relation to the difference or dispute.

- 26.6 In any difference or dispute to which the Minister is not a party, any conclusion by an independent expert is final and binding on the parties.
- 26.7 The apportionment of the costs of and incidental to every reference, including the costs of the independent expert, are at the discretion of the Minister.

Signed:

SHERRYL GARBUTT,
Minister administering the **Water Act 1989**

Dated 27 July 2000

Note: An explanatory note that accompanies this Order is available from the Department of Natural Resources and Environment.

Schedule 1

Managing Western Water's Share of Water Stored in the Reservoir

1. Adjustments to Western Water's Share
The Storage Operator must adjust the volume calculated under sub-clause 10.3 to reflect –
 - (a) any inflow to the Reservoir attributed to Western Water under sub-clauses 11.1 and 11.2; and
 - (b) any deduction made from Western Water's share of inflow to the Reservoir under sub-clause 11.3; and
 - (c) any share of losses from the Reservoir through infiltration and evaporation, attributed to Western Water under any water accounting or operating arrangements approved by the Minister under clause 16; and
 - (d) any share of out-of-balance from time to time attributed to Western Water under item 3 of this Schedule; and
 - (e) any other adjustment provided for in this Order.
 2. Internal Spills
 - 2.1 During any period when the Reservoir contains –
 - (a) less water attributed to Western Water than the amount set out in sub-clause 10.1; and
 - (b) the full amount of the share of the capacity of the Reservoir to which any other bulk entitlement holder is entitled (the "first holder") –
the Storage Operator must attribute to Western Water a proportion of any inflow to the Reservoir which would, in other circumstances, be attributed to the first holder.
 - 2.2 The volume of inflow referred to in item 2.1 is to be shared between Western Water and any bulk entitlement holder with a share of the capacity of the Reservoir, other than the first holder (an "other holder") in the proportion which Western Water's share of the capacity of the Reservoir bears to the sum of Western Water's and each other holder's shares of that capacity.
 - 2.3 If the Reservoir contains the full amount of the share of the capacity of the Reservoir to which each other holder is entitled, the Storage Operator must attribute all of the inflow to the Reservoir to Western Water, until the full amount of Western Water's share under sub-clause 10.1 is reached.
 3. Out-of-balance
 - 3.1 The Storage Operator must determine the difference between the volume of water which the Storage Operator calculates is stored in the Reservoir at any time and the sum of all the adjusted volumes calculated under item 1 at that time.
 - 3.2 The Storage Operator must attribute to Western Water 86% of the difference determined under item 3.1.

Planning and Environment Act 1987
VICTORIA PLANNING PROVISIONS

Notice of Approval of Amendment
 Amendment VC8

The Minister for Planning has approved Amendment VC8 to the Victoria Planning Scheme.

The Amendment comes into operation on the date this notice is published in the Government Gazette.

The Amendment:

- Amends the Environment policy in the State Planning Policy Framework (SPPF) to include references to 'Victoria Biodiversity' and the **Flora and Fauna Guarantee Act 1988**.
- Amends the residential and rural zones and definitions to allow the keeping of a limited number of pet racing dogs, subject to conditions.
- Amends the Rural and Environmental Rural zones to allow schemes to require a planning permit to construct an outbuilding above a specified size.
- Amends Clause 52.20 to allow the consideration of applications for freeway service centres adjacent to metropolitan freeways.

STYLE REQUIREMENTS.

To ensure that material received can be reproduced, and that errors are minimised, the following guidelines are to be observed when submitting material by fax.

Fax resolution:

Material sent by fax should be transmitted using Fine Resolution (200 dots per inch by 200 dpi).

Font size:

Use 12 point (10 pitch) or larger.

Font Style:

Clear plain font styles, such as Helvetica, should be used.

Graphics:

Line drawings should be transmitted as large as possible to ensure clarity. Drawings up to A4 size sent by fax using Fine Resolution provide a good quality for reproduction.

Avoid:

Italics, underlining and full justification.

Ensure document is square when sending as documents that are sent skewed are difficult to read and process.
