EXEMPTION

Application No. A388 of 2001

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by The Richmond Fellowship of Victoria. The application for exemption is to enable the applicant to advertise for and employ a male staff member, one day a week, at its Amaroo Men's Group.

Upon reading the material submitted in support of the application, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ a male staff member, one day a week, at its Amaroo Men's Group.

In granting this exemption, the Tribunal noted:

- The functions of the Men's Group include providing an opportunity for men to observe their effects on others; providing a social and

recreational support for men who feel socially isolated; addressing the psychosocial issues that result from men's experience of loneliness, depression and disempowerment; providing an opportunity for men to relate to other men in an interpersonal setting without women and demonstrate how they should behave in that setting; allowing men to connect up with other men who share similar problems and lead to a greater understanding of special problems for men.

- There is a need for positive role modelling by the group facilitators. The group is facilitated within a framework that is potentially both therapeutic and rehabilitative and involves that setting of boundaries and parameters.
- The facilitators model behaviour and attitudes that are respectful, pro-feminist, non-violent and collaborative both in interactions with each other and to the group members.

The Tribunal grants an exemption from the operation of Sections 13, 100 and 195 of the **Equal Opportunity Act 1995**, to enable the applicant to advertise for and employ a male staff member, one day a week, at its Amaroo Men's Group.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 10 October 2004.

EXEMPTION

Application No. A348 of 2001

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by La Trobe University. The application for exemption is to enable the applicant to advertise for and employ an aboriginal person to the position of Aboriginal Liaison Administrator in the Office of the Pro Vice-Chancellor (Equity and Access).

Upon reading the material submitted in support of the application, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ an aboriginal person to the position of Aboriginal Liaison Administrator in the Office

of the Pro Vice-Chancellor (Equity and Access).

In granting this exemption, the Tribunal noted:

- The position is located in an indigenous support environment. It is important that the appointee is able to relate to the university's indigenous students.
- Such an appointment would be supportive of the university's proposed Indigenous Employment Strategy.
- The Office of the Pro Vice-Chancellor (Equity and Access) has responsibility for leading and co-ordinating policy, development and the implementation of a range of strategies in the area of Aboriginal liaison. The University is committed to providing a supportive and culturally sensitive environment that meets the needs of its Aboriginal students.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 100 and 195 of the **Equal Opportunity Act 1995**, to enable the applicant to advertise for and employ an aboriginal person to the position of Aboriginal Liaison Administrator in the Office of the Pro Vice-Chancellor (Equity and Access).

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 10 October 2004.

Gas Industry Act 2001

EXCLUSIVE RETAIL AND DISTRIBUTION FRANCHISE

Order in Council

The Lieutenant-Governor as the Governor's deputy, with the advice of the Executive Council, under section 27(8) of the **Gas Industry Act 2001** (the "Act") makes the following Order:

1. Purpose

The purpose of this Order is to specify for the purposes of sections 27(3) and 27(4) of the Act the criteria in accordance with which the Office of the Regulator-General (the "ORG") may:

- (a) grant an application for a licence of a kind referred to in section 27(1)(a) or 27(1)(b) of the Act; and
- (b) vary a licence for a purpose referred to in section 27(2)(a) or 27(2)(b) of the Act.

2. Interpretation

In this Order:

"Code" means the National Third Party Access Code for Natural Gas Pipeline Systems as that Code from time to time applies in Victoria.

"Exclusive Distribution Franchise" means a licence to provide services by means of a distribution pipeline in a particular area on an exclusive basis granted in accordance with section 27(1)(a) or varied in accordance with section 27(2)(a) of the Act.

"Exclusive Retail Franchise" means a licence to sell gas by retail in a particular area on an exclusive basis granted in accordance with section 27(1)(b) or varied in accordance with section 27(2)(b) of the Act.

"significant greenfields project" means the development of a new natural gas pipeline service that is not an infill or extension to an existing gas distribution network within the meaning of Clause 8.

“small use customer class” means a customer class that is limited to customers who normally consume or who are expected to consume not more than 1 terajoule of natural gas in any one 12 month period.

Nothing in this Order is intended to derogate from the operation of the Gas Pipelines Access (Victoria) Law.

3. Commencement

This Order commences on the day on which it is published in the Government Gazette.

4. Criteria for Exclusive Retail Franchise

- (a) ORG must not grant, or vary a licence to provide for, an Exclusive Retail Franchise unless the following criteria are met:
- (i) the franchise is in respect of a significant greenfields project;
 - (ii) the applicant for the franchise or the relevant local government body or other public authority seeking the provision of reticulated gas to the local area has provided evidence to ORG demonstrating that:
 - (A) investment in distribution pipelines in the area or areas to be supplied with gas by virtue of the project would not occur without the grant or variation; or
 - (B) the supply of gas to some customer classes would be severely limited without the grant or variation;
 - (iii) the grant or variation is justified on the balance of public interest;
 - (iv) the person who is to sell gas by retail in the area subject to the Exclusive Retail Franchise has been selected through, or subsequent to, a competitive tender process which:
 - (A) complies with the rules or requirements governing tenders for or on behalf of local government bodies or other public authorities to the extent that those rules or requirements are applicable; and
 - (B) establishes the tariffs for the sale of gas by retail to small use customers;
 - (v) the person who is to provide the distribution pipeline service in the area subject to the Exclusive Retail Franchise has been selected through, or subsequent to, a competitive tender process which:
 - (A) complies with the rules or requirements governing tenders for or on behalf of local government bodies or other public authorities to the extent that those rules or requirements are applicable; and
 - (B) if the relevant local government or other public body elects, complies with the competitive tender process set out in Section 3 of the Code;
 - (vi) ORG is satisfied that, when developing the tender process, the relevant local government body or public authority has considered the longer term benefits and feasibility of encouraging market structures which enhance competition by splitting the franchise into smaller or multiple retail franchise areas to be allocated to competing bidders;
 - (vii) ORG has, where practicable, consulted with prospective users of the distribution pipeline service in determining the conditions of the Exclusive Retail Franchise; and
 - (viii) any other conditions that ORG considers necessary to protect the public interest are met.

- (b) The Exclusive Retail Franchise:
 - (i) must be limited to the sale of gas at retail to small use customer classes;
 - (ii) must include a provision requiring the oversight by ORG of the retail tariffs referred to in Clause 4(a)(iv)(B); and
 - (iii) must be granted for a term determined in accordance with Clause 6; and
 - (iv) must not provide for extension or renewal on its expiry.

5. Criteria for Exclusive Distribution Franchise

- (a) ORG must not grant, or vary a licence to provide for, an Exclusive Distribution Franchise unless the following criteria are met:
 - (i) the distribution pipeline service subject to the franchise will be provided through an integrated distribution pipeline network;
 - (ii) that pipeline network will require systematic development over a significant period in order to achieve the lowest expected long term cost;
 - (iii) the applicant for the franchise or the relevant local government body or other public authority seeking the development of a distribution pipeline service has provided evidence to ORG demonstrating that, without the grant or variation, there is a strong likelihood that the distribution pipeline network will not be developed in the area or areas to be supplied with gas in line with the lowest expected long term cost;
 - (iv) the person who is to provide the distribution pipeline service has been selected through, or subsequent to, a competitive tender process which:
 - (A) complies with the rules or requirements governing tenders for or on behalf of local government bodies or other public authorities to the extent that those rules or requirements are applicable; and
 - (B) if the relevant local government or other public body elects, complies with the competitive tender process set out in Section 3 of the Code;
 - (v) ORG has, where practicable, consulted with prospective users of the distribution pipeline service in determining the conditions of the franchise; and
 - (vi) any other conditions that ORG considers necessary to protect the public interest are met.
- (b) The Exclusive Distribution Franchise must:
 - (i) be granted for a term determined in accordance with Clause 6; and
 - (ii) not provide for extension or renewal on its expiry.

6. Terms of Exclusive Franchises

In determining the term of an Exclusive Retail Franchise or an Exclusive Distribution Franchise, ORG must apply the following criteria:

- (a) The term of an Exclusive Retail Franchise should not be more than five years unless ORG considers there are special circumstances which justify a longer period. In considering whether there are special circumstances ORG may have regard to:
 - (i) any recommendations made by the local government body or other public authority promoting the project;
 - (ii) the outcome of the competitive tender process associated with the development of the project; and
 - (iii) any other matter ORG considers relevant.
- (b) The term of an Exclusive Retail Franchise must not in any event exceed ten years.
- (c) The term of an Exclusive Distribution Franchise must not be more than five years.

7. Non-rebuttable Presumptions**(a) Investment in pipelines**

For the purpose of Clause 4(a)(ii)(A) it shall be presumed that investment in distribution pipelines in the area or areas to be provided with gas by virtue of the project has not occurred or would not occur without the grant or variation if there is evidence that:

- (i) no distribution pipelines have previously been constructed in the area or areas concerned; and
- (ii) any previous process by a local government body or other public authority for the construction of distribution pipelines in the area or areas concerned without the grant or variation has not succeeded.

(b) Limited provision of gas services

For the purpose of Clause 4(a)(ii)(B) it shall be presumed that the provision of gas services to some customer classes would be severely limited without the grant or variation if there is evidence that natural gas will not be supplied to all or the majority of small use customer classes in the area or those areas subject to the Exclusive Retail Franchise.

(c) Public interest

For the purpose of Clause 4(a)(iii) it shall be presumed that a grant or variation of a licence to provide for an Exclusive Retail Franchise is justified on the balance of public interest if the following criteria are met:

- (i) the grant or variation will result in the supply of natural gas in an area or areas that previously have not been so supplied; and
- (ii) the price or proposed price at which natural gas is to be supplied in that area is such that, on average and in the aggregate over the period of the franchise the cost to customers within the small use customer class so supplied will be materially less (in real terms) than their continuing to purchase in that period gas other than reticulated natural gas.

(d) Development of distribution pipeline network

For the purpose of paragraph 5(a)(iii) it shall be presumed that there is a strong likelihood that, without an Exclusive Distribution Franchise, the pipeline network will not be developed in the area or areas to be supplied with gas in line with the lowest expected long term cost if there is evidence that:

- (i) no distribution pipelines have previously been constructed in the area or areas concerned;
- (ii) any previous process by a local government body or other public authority for the construction of distribution pipelines constructed in the area or areas concerned has not succeeded; and
- (iii) the competitive tender process used by a local government body or other public authority for construction of distribution pipelines in the area or areas concerned was designed to obtain comparative values of the long term expected cost of developing the pipeline network with and without an Exclusive Distribution Franchise and the relevant local government body or other public authority certifies that the process demonstrated a lower long term expected cost with an Exclusive Distribution Franchise.

8. Criteria for “Infill or extension to an existing network”

For the purpose of the definition of the expression “significant greenfields project”, what is an “infill or extension to an existing network” is to be determined in accordance with the following criteria:

- (a) If gas is to be supplied from a supply point that is installed one kilometre or more away from a distribution pipeline that is in operation, then the supply of that gas does not involve the use of an infill or extension to an existing network.
- (b) Notwithstanding paragraph (a), a project that involves supply points that are, or are likely to be, within one kilometre of a distribution pipeline that is in operation, may be determined by ORG not to be an infill or extension to an existing network if there is evidence that establishes (or tends to establish) that the project is substantial in nature, being evidence as to:
 - (i) the size and location of the proposed franchise area or areas;
 - (ii) the number of potential customers;
 - (iii) the absence of any previous natural gas pipeline services in the proposed franchise area or areas;
 - (iv) the extent to which the proposed franchise area or areas is currently surrounded by or adjoins areas already supplied with natural gas; and
 - (v) the proposed level of capital or other expenditure in respect of the project.

Examples of projects that are not likely to be an infill or extension to an existing network under paragraph 8(b):

- (a) The reticulation of a town, locality or district one kilometre or more away from a distribution pipeline that is in operation.
- (b) The reticulation of an entirely new town, suburb, locality or district within one kilometre of a distribution pipeline that is in operation, where that place:
 - (i) is substantial in size;
 - (ii) is located in a former rural or industrial area; and
 - (iii) all four sides or three sides are not surrounded by or adjoining places already supplied with natural gas.

Examples of projects that are likely to be an infill or extension to an existing network under paragraph 8(b):

- (a) The extension of a gas service to houses on a street already reticulated with gas.
- (b) The reticulation of a new street in a suburb presently wholly reticulated with gas.

Examples are not determinative.

The examples set out above are for illustrative purposes only and are not intended to be determinative.

9. Miscellaneous

For the avoidance of doubt, in determining whether to grant or vary a licence so as to create an Exclusive Retail Franchise or an exclusive Distribution Franchise no regard shall be had by ORG to the economic feasibility tests applying to new facilities investment that are contained in section 8 of the Code, or to any test for determining whether an extension to an existing gas pipeline system is a "significant extension" for the purposes of an approved access arrangement of the proposed franchisee, or to any determinations resulting from the application of those tests.
