Planning and Environment Act 1987**YARRA PLANNING SCHEME**

Notice of Amendment

Amendment C40

The Yarra City Council has prepared Amendment C40 to the Yarra Planning Scheme.

The Amendment affects all land where a planning permit is required to sell and consume liquor.

The Amendment proposes to make changes to the Local Planning Policy Framework section of the Yarra Planning Scheme by:

- introducing a new local planning policy, known as the "Licensed Premises Policy", to Clause 22.08 of the Yarra Planning Scheme;
- modifying the existing local planning policy, known as the "Discretionary Uses in the Residential 1 Zone", at Clause 22.01 of the Yarra Planning Scheme.

The purpose of the Amendment is to introduce a "Licensed Premises Policy" to guide decision making when a planning permit application is required for new licensed premises and the extension of existing licensed premises pursuant to Clause 52.27 (Licensed Premises) of the Yarra Planning Scheme.

The "Licensed Premises Policy" has been developed to effectively manage licensed premises so that their location, hours of operation, patron numbers, noise emissions and car park demands do not have a detrimental impact on the amenity of surrounding uses, especially nearby residential uses. The proposed "Licensed Premises Policy" also specified what information is required to accompany planning permit applications.

The hours of operation requirement of the "Discretionary Uses in the Residential 1 Zone" policy has been modified to ensure consistency with the new "Licensed Premises Policy".

The Amendment and associated documentation can be inspected at: Department of Infrastructure, Planning Information Centre, Upper Plaza, Nauru House, 80 Collins Street, Melbourne; City of Yarra, Richmond Town Hall, 333 Bridge Street, Richmond 3121 and City of Yarra, Collingwood Town Hall, 140 Hoddle Street, Abbotsford 3067.

In addition, copies of the Amendment and supporting documentation are available for inspection at each of the Municipal Libraries (Richmond, Fitzroy, North Fitzroy, Collingwood and North Carlton) The Amendment documentation only may be viewed on Council's website: www.yarracity.vic.gov.au.

EXEMPTION

Application No. 13 of 2002

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by The Gay and Lesbian Switchboard (Victoria) Inc. for exemption from Sections 13, 100 and 195 of that Act. The application for exemption is to enable the applicant to advertise for and employ staff in its phone counselling referral and information service.

Upon reading the material submitted in support of the application and upon hearing submissions from Mr Cosgrave and Ms O'Sullivan and for the Reasons for Decision

given by the Tribunal on 19 March 2002, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ staff in its phone counselling referral and information service.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to advertise for and employ staff in its phone counselling referral and information service.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 27 March 2005.

EXEMPTION

Application No. A444 of 2001

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** by Working Women's Health. The application for exemption is to enable the applicant to advertise for and employ women from non English speaking backgrounds.

Upon reading the material submitted in support of the application the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ women from non English speaking backgrounds.

In granting this exemption the Tribunal noted:

- Working Women's Health is a women's health service that works primarily with immigrant and refugee women from non English speaking backgrounds (NESB).
- In its work with women from many different cultural backgrounds the applicant aims to match the client's cultural and linguistic background with the background of the worker. This enables communications about specific women's health issues, which may vary depending on cultural context, to be effective, accurate and relevant.

- The applicant also conducts advocacy on behalf of NESB immigrant and refugee women in relation to their health needs. In this work it is important for staff to have a good understanding, based on experience, of some of the central issues such as migration, racism and discrimination in employment or the health care system.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to advertise for and employ women from non English speaking backgrounds.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 27 March 2005.

Subordinate Legislation Act 1994

REGULATORY IMPACT STATEMENT

Gaming Machine Control (Responsible Gambling Information) Regulations 2002

Notice is given under section 11 of the **Subordinate Legislation Act 1994**, that a Regulatory Impact Statement (RIS) has been prepared in relation to the proposed Gaming Machine Control (Responsible Gambling Information) Regulations 2002.

The objective of the Regulations is to foster responsible gambling by regulating the provision to players of gaming machines of information relevant to gaming on gaming machines.

Various bodies in the gaming industry have prepared booklets or brochures containing some player information, but there are no standards or minimum requirements with which these publications must comply.

An Inquiry Report by the Productivity Commission in 1999 on Australia's Gambling Industries recommended better disclosure of the price of playing gaming machines, and of the likelihood of receiving high paying winning combinations.

The Report also recommended the provision to consumers of relevant information about the nature of games, such as the fact that machine wins and losses are independent of past results, and that where possible, consumers should be provided with records of their spending.

The problem addressed in the RIS relates to the rights of players of gaming machines as consumers. It has been argued that according to the principle of informed consent, players need to be provided with sufficient information to enable them to make informed choices about their commencement and continued participation in gaming.

The Regulations have been proposed as the most effective solution to this problem.

The proposed Regulations:

- Provide that the Minister may specify standards for the form and content of player information brochures, posters and talkers;
- Require the gaming operators to print and distribute to all venues copies of the standard posters, brochures and talkers;
- Require all venues, including the casino, to display and have available the distributed posters, brochures and talkers;
- Require each gaming machine to display the following information in relation to each game that may be played on that machine:—
 - the return to players of that game; and
 - the average number of individual games played per any win; and
 - the chances or odds of achieving the top and bottom five individual winning combinations; and
 - the maximum and minimum bet options available.
- Require each gaming machine to display the following player information on screen
 - how much money (expressed in dollars and cents) the player has received, either as accrued credits or cash, from the gaming machine during a session; and
 - how much money (expressed in dollars and cents) the player has spent, either in credits or cash, on the gaming machine during a session;
 - the player's net win or loss;
 - the current time of day; and
 - the time the player began the session; and
 - the length of the session.

These requirements apply to all new gaming machine games from 1 January 2003, and will apply to all existing gaming machine games by 1 January 2008.

The Regulations require gaming machines to display the following information if those gaming machines are part of a linked jackpot arrangement:—

- a statement that the game is part of a linked jackpot arrangement; and

- the total return to players of the game, being the sum of the return to players contributed by the game and the return to players contributed by the linked jackpot arrangement; and

- the return to players of the game contributed by the linked jackpot arrangement.

These requirements will apply in relation to a new game, on and after 1 January 2003 or, for any other game, on and after 1 January 2008.

The Regulations also

- require a gaming operator and a casino operator not to permit a gaming machine to be played if it does not or is unable to display electronic game information or electronic player information;
- allow the Director of Gaming and Betting to issue a notice to a gaming operator or the casino operator to remove from use a gaming machine that does not or is unable to display electronic game information or electronic player information.
- impose penalties of 20 penalty units (\$2000) for breaches of the proposed Regulations.

The RIS estimates the costs and benefits of the proposed Regulations in comparison to identified alternatives. It concludes that the proposed Regulations justify any costs of implementation, compliance and monitoring.

Copies of the RIS are available from the Office of Gambling Regulation at Level 5, 35 Spring Street Melbourne 3000 between 9 am and 5 pm weekdays, telephone 9651 3333. A copy may also be downloaded from www.ogr.vic.gov.au

Public comments or submissions are invited on the proposed Regulations and RIS. All comments and submissions must be received in writing by—

Mr Bill Lahey, Director of Gaming and Betting, Director of Casino Surveillance, Office of Gambling Regulation, PO Box 1988R, Melbourne, Vic. 3001 no later than 5 pm on 3 May 2002. All comments and submissions will be treated as public documents.

STYLE REQUIREMENTS.

To ensure that material received can be reproduced, and that errors are minimised, the following guidelines are to be observed when submitting material by fax.

Fax resolution:

Material sent by fax should be transmitted using Fine Resolution (200 dots per inch by 200 dpi).

Font size:

Use 12 point (10 pitch) or larger.

Font Style:

Clear plain font styles, such as Helvetica, should be used.

Graphics:

Line drawings should be transmitted as large as possible to ensure clarity. Drawings up to A4 size sent by fax using Fine Resolution provide a good quality for reproduction.

Avoid:

Italics, underlining and full justification.

Ensure document is square when sending as documents that are sent skewed are difficult to read and process.
