# PROCLAMATIONS

## Land Act 1958

### PROCLAMATION OF ROADS

I, John Landy, Governor of Victoria with the advice of the Executive Council and under section 25(3)(c) of the **Land Act 1958** proclaim as road the following lands:

### MUNICIPAL DISTRICT OF THE RURAL CITY OF WANGARATTA

BOORHAMAN — The land in the Parish of Boorhaman being Crown Allotment 2002 and shown by hatching on plan hereunder. (GP996) — (L8-6392).

This Proclamation is effective from the date on which it is published in the Government Gazette.

Given under my hand and the seal of  
Victoria on 23rd July 2002.

(L.S.)

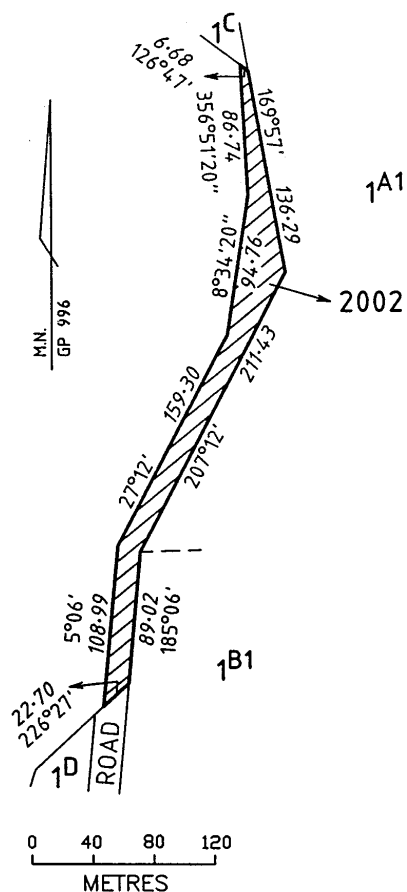

JOHN LANDY

Governor

By His Excellency's Command

SHERRYL GARBUTT MP

Minister for Environment  
and Conservation

### MUNICIPAL DISTRICT OF THE HOBSONS BAY CITY COUNCIL

WILLIAMSTOWN — Crown Allotment 21C, Section 1, Township of Williamstown, Parish of Cut-Paw-Paw as shown on Original Plan No. 117603-A lodged in the Central Plan Office. — (12/L12-1321).

Under Section 206 and Schedule 10, Clause 3 of the **Local Government Act 1989**, the Bass Coast Shire Council at its ordinary meeting held on 17 July 2002 formed the opinion that the portion of road shown hatched on the plan below is not reasonably required as a road for public use and resolved to discontinue the portion of road and to sell the land from the portion of road by private treaty to the adjoining owners, subject to any right, power or interest held by South Gippsland Water Authority and Bass Coast Shire Council in the road in connection with any sewers, drain, pipes, wires or cables under the control of those authorities in or near the road.

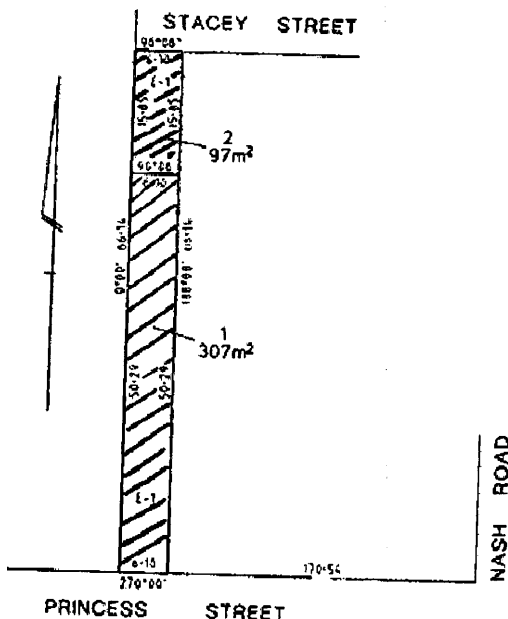

ALLAN BAWDEN  
Chief Executive Officer

## CARDINIA SHIRE COUNCIL

## Road Discontinuance

At its meeting on 15 April 2002 and acting under Clause 3 of Schedule 10 to the **Local Government Act 1989**, Cardinia Shire Council ("Council"):

1. formed the opinion that the road abutting 17 and 19 Princess Street, Bunyip shown on the plan below ("the road") is not reasonably required as a road for public use; and
2. resolved to discontinue the road and to sell the land from the road by private treaty to the abutting property owners at 17 Princess Street, Bunyip and retain Lot 2 of the road in the ownership of Council until such times as it will be sold by private treaty to either of the abutting land owners.

1. The road shown hatched on the plan above is to be sold subject to the right, power or interest held by South-East Water in the road in connection with any drains or pipes under the control of that authority in or near the road.

Chief Executive Officer

## LOCAL LAW NO. 2A - PARKING

Strathbogie Shire Council proposes to make a new local law, to be referred to as Local Law No. 2A – Parking under Part 5 of the **Local Government Act 1989**. The following information about the proposed local law is provided in accordance with Section 119 of the **Local Government Act 1989**.

## Purpose of the Local Law

The purpose of the proposed Local Law is to establish certain activities as parking infringements under this Local Law. This Local Law, if made, will apply throughout the municipal district.

## Definitions

In this Local Law:–

"Council" means the Council of Strathbogie Shire Council.

"Vehicle" means any form of conveyance and includes a:–

- (a) Motor car;
- (b) Caravan;
- (c) Motorbike;
- (d) Trailer;
- (e) Tractor; and
- (f) Recreation vehicle.

## Parking Infringements

The owner, driver or person in charge of a vehicle must not park or leave standing a vehicle in contravention of:–

- (a) Road Rule 205: Parking for longer than indicated;
- (b) Road Rule 211: Parking in parking bays;
- (c) Road Rule 168(1): Stopping contrary to no parking signs;
- (d) Road Rule 209: Parallel parking in a median strip parking area;
- (e) Road Rule 210: Angle Parking.

In this clause, "Road Rule" means the Road Rules – Victoria published in the

Government Gazette (Periodical Gazette No. 2) on 28 October 1999 and incorporated into Victorian law by the Road Safety (Road Rules) Regulations 1999.

#### Penalties for Parking Infringements

Council may by resolution fix a penalty of not more than \$45 for parking infringements under this Local Law.

A copy of the proposed Local Law may be inspected at, or obtained from, the Council offices at:—

- Euroa – corner Binney and Bury Streets.
- Nagambie – corner High and Vale Streets.

Any person affected by the proposed Local Law may make a written submission relating to it to the Council. Submissions must be received by 5pm on 8 August 2002 and will be considered in accordance with Section 223 of the **Local Government Act 1989**. Any person requesting to be heard in support of a written submission is entitled to appear before a meeting of the Council or a Council committee either personally or by a person acting on his or her behalf and will be notified of the time and date of the hearing.

Submissions should be lodged at the above offices of Council or posted to:— Mr Kevin Hannagan, Chief Executive Officer, Strathbogie Shire Council, PO Box 177, Euroa 3666.

Further information may be obtained by telephoning Mr Terry Lovick, Council's Compliance Co-ordinator on 5795 2010.

**GOLDEN PLAINS PLANNING SCHEME**  
Notice of Amendment  
Amendment C11

Golden Plains Shire has prepared Amendment C11 to the Golden Plains Planning Scheme.

The Amendment applies to land at Smythesdale, Haddon and Rokewood.

In particular the Amendment applies to:

- land between Garden Street, Wills Street, Glenelg Highway and Whites Road and Crown Allotment 5A, Section 34A, Glenelg Highway, Smythesdale; and
- land between Sago Hill Road, Bells Road, Station Street and Taylors Road, Haddon;
- land at Crown Allotment 95 Corner Reservoir Road and Cemetery Road, Rokewood.

The Amendment proposes to:

1. change the zoning of land between Garden Street, Wills Street, Glenelg Highway and

Whites Road and Crown Allotment 5A, Section 34A Glenelg Highway, Smythesdale from Rural Living Zone to Business 4 Zone;

2. change the zoning of land between Sago Hill Road, Bells Road, Station Street and Taylors Road, Haddon from Township Zone to Rural Living Zone and include the land within the Policy Area A of the Schedule to the Rural Living Zone;
3. change the zoning of land at Crown Allotment 95, corner Reservoir Road and Cemetery Road, Rokewood from Rural Zone to Public Conservation and Resource Zone.

The Amendment and accompanying supporting material is available for inspection free of charge during office hours at the following places: Golden Plains Shire, Customer Service Centre – Bannockburn, 2 Pope Street, Bannockburn; Golden Plains Shire, Customer Service Centre – Linton, Sussex Street, Linton; Department of Infrastructure, Customer Service Centre, Upper Plaza, Nauru House, 80 Collins Street, Melbourne; Department of Infrastructure, Barwon/South Western Regional Office, 180 Fyans Street, South Geelong and Department of Infrastructure, 88 Learmouth Road, Wendouree.

**Planning and Environment Act 1987**  
**MITCHELL PLANNING SCHEME**

Notice of Amendment

Amendment C25

Mitchell Shire Council has prepared Amendment C25 to the Mitchell Planning Scheme.

The Amendment proposes to change the Mitchell Planning Scheme by introducing an Incorporated Plan Overlay to apply to the subject land. This will reinstate the same entitlements which applied to the use and development of the site, prior to the adoption of the “new format” planning scheme. The Amendment applies to all of the land at Part Crown Allotments 61A3, 68F1 and 68D, and

Crown Allotment 68F, Parish of Mangalore, Old Hume Highway (Granville Drive), Seymour. This land is developed and used as an abattoir, which occupies a total site of 27.93 hectares.

The introduction of the overlay will provide a necessary planning context for the current and future operation of the abattoir. It will provide for the augmentation of the abattoir process by allowing additional meat processing and rendering subject to Environment Protection Authority works approval.

A copy of the Amendment may be inspected, free of charge, at the following locations during office hours: Mitchell Shire Council, Shire Office, 113 High Street, Broadford; Department of Infrastructure, Northern Regional Office, 57 Lansell Street, Bendigo; Department of Infrastructure, Customer Service Centre and Bookshop, Upper Plaza, Nauru House, 80 Collins Street, Melbourne.

Submissions about the Amendment must be sent to: Mitchell Shire Council, 113 High Street, Broadford by 9 August 2002

**YARRA RANGES PLANNING SCHEME**

Notice of Amendment  
Amendment C16

The Council of the Shire of Yarra Ranges has prepared Amendment C16 to the Yarra Ranges Planning Scheme.

Amendment C16 proposes to add 284 places of heritage significance into the Heritage Overlay of the Yarra Ranges Planning Scheme which provides permit controls over demolition, works and development affecting heritage places.

The Amendment also introduces an additional clause 22.13 Heritage Conservation to the Local Planning Policy provisions in the Yarra Ranges Planning Scheme. This will provide guidelines for the assessment of development proposals affecting individual heritage places and for a number of identified heritage policy areas, where existing planning controls apply.

The Amendment can be inspected free of charge during normal office hours at the following Yarra Ranges Service Centres: Lilydale – Anderson Street, Lilydale; Monbulk – 94 Main Street, Monbulk; Healesville – 276 Maroondah Highway, Healesville; Upwey – 40 Main Street, Upwey; Yarra Junction – Warburton Highway/Hoddle Street, Yarra Junction and at: Department of Infrastructure, Office of Planning and Heritage, Level 3 Plaza, Nauru House, 80 Collins Street, Melbourne.

Any submissions about the Amendment must be made in writing, giving the submitter's name, address and, if practicable, a phone number for contact during office hours; set out the views on the Amendment, that the submitter wishes to put before Council and indicate what changes (if any) the submitter wishes made to the Amendment and state whether the person/s making the submission/s wishes to be heard in support of their submission.

Please be aware that copies of objections/submissions received may be made available to any person for the purpose of consideration as part of the planning process under the **Planning and Environment Act 1987**.

Submissions must be sent to the undersigned, Shire of Yarra Ranges, PO Box 105, Lilydale 3140 and must reach the Shire at the above address by 23 August 2002.

**Flora and Fauna Guarantee Act 1988**

NOTICE OF DECISION UNDER SECTION 16

In accordance with section 16 of the **Flora and Fauna Guarantee Act 1988**, I have considered the final recommendations of the Scientific Advisory Committee as advertised in "The Age" newspaper, "The Weekly Times" newspaper and various local newspapers during the week of 11 to 15 March 2002, and in the Government Gazette on 14 March 2002.

I have decided, after considering the comments of the Victorian Catchment Management Council, to recommend to the Governor in Council that, the taxa of flora and fauna, the community and the potentially threatening processes recommended for listing by the Scientific Advisory Committee be added to the list of taxa and communities of flora and fauna which are threatened and to the list of potentially threatening processes.

My reasons for this decision are the same as those advertised in the final recommendations of the Scientific Advisory Committee.

## ..... National Vendor Declaration - Bobby Calves

### Explanatory Notes

This Bobby Calf Declaration has been developed with the assistance of all sectors of the bobby calf industry as a scheme to assist producers document the animal welfare and residue status of bobby calves consigned for sale or slaughter.

This Declaration should only be used for bobby calves under six (6) weeks of age that are not accompanied by their dam. All calves presented for sale must be identified with an approved transaction tag.

#### Completing the declaration

Any false or misleading statements made in a completed Declaration may lead to prosecution and/or attract civil action by the purchaser.

Animal welfare is an increasingly important issue in Australia and overseas. People in possession of, and handling, bobby calves have a responsibility to care for the welfare of bobby calves under their control and this care should be separate from the interests of economic production.

#### Questions 1 to 5

Questions 1 to 5 relate to the minimum animal welfare requirements of bobby calves offered for sale. Calves that do not meet the requirements of the Australian Model Code of Practice for the Welfare of Animals: Cattle and Australian Model Code of Practice for the Welfare of Animals: Land Transport of Cattle must not be offered for sale.

#### Questions 7 and 8

Veterinary drugs or chemicals refer to antibiotics, vaccines, worm and mastitis treatments and externally applied insecticides, but excludes vitamin and mineral treatments. For bobby calves, this also includes exposure through access to milk from cows treated or exposed to drugs or chemicals that may be excreted in the milk.

Ensure accurate calf treatment details are recorded, including cases where calves have had access to milk from cows treated with a veterinary drug or chemical, before the milk withholding period had expired.

Record all treatment details for any calves in the consignment, including any relevant meat withholding period (WHP), in the space provided. For example -

Veterinary Drug/Chemical/Calf Treatment Date MeatWHP(days)	Fixem
02/06/01	15 days

This means that a calf treated with "Fixem" on 2/6/01 is suitable for sale for slaughter on 18/6/01, i.e. after the 15 day meat WHP has expired.

WHP information is located on the label of a veterinary drug or chemical. The WHP is the minimum period of time that must elapse between the last use of a drug or chemical and the sale of the calf for human consumption.

Where a calf has had access to milk from a treated cow before the milk WHP has expired, the calf should be retained for the meat WHP that applies to the cow.

**Always read the label and observe the withholding period.**

#### Question 9

Additional information relating to animal health status or commercial matters, not specifically covered in the Declaration, can be recorded here.

#### Recording serial numbers

A space has been provided on the declaration for vendor's to record serial (or "running") numbers from the tags carried by the calves in the consignment.

By recording these numbers, vendor's will be able to verify the date that calves in the consignment were sold. Recording of serial numbers is optional.

#### Calf Welfare

The following information is taken from the Australian Model Code of Practice for the Welfare of Animals: Cattle (1992) and Australian Model Code of Practice for the Welfare of Animals: Land Transport of Cattle (1999). These points cover the basic requirements expected by industry for bobby calf welfare.

Full copies of these Codes can be obtained from CSIRO Publishing, PO Box 1139 Collingwood, Victoria 3066 (Ph 1800 645 051).

#### Marketing of bobby calves

The Australian Model Code of Practice for the Welfare of Animals: Cattle (1992) requires that calves that do not meet the following criteria should not leave the farm -

- The minimum recommended liveweight for a calf presented for sale is 23 kg;
- The navel should be dry, and the umbilical cord at the junction with the skin should be dry, wrinkled, withered or shrivelled;
- Calves presented for sale should have firm hooves which are worn down flat and not bulbous or soft;
- Leithargic, listless or immature calves should not be presented for transport or sale;
- Calves should be bright and alert, robust and able to rise unassisted;
- Sick or injured calves should be treated appropriately or humanely destroyed;
- Holding pens should provide adequate shelter for calves at all times;
- Calves must be fed within 6 hours of transportation and must not be left without appropriate liquid food for more than 10 hours;
- Calves should be handled in ways that avoid injury and unnecessary suffering;
- Calves should be transported in clean vehicles with enclosed fronts and non-slip floors;
- It is not acceptable to use electrical goading devices or unmuzzled dogs which are prone to bite, when handling, driving, drafting, weighing, loading or unloading calves;

In addition .....

Calves must be -

- at least 4 days old (in their 5th day of life);
- free of antibacterial residues;
- identified with an approved transaction tag;
- transported at a density that will allow them to lie down and stand up; and
- separated from other classes of stock during transportation.

## National Vendor Declaration – Sheep &amp; Lambs

This National Vendor Declaration (sheep & lambs) was developed with the support of all sectors of the sheep industry as a voluntary scheme to assist producers to supply commercially valuable information on sheep and lambs consigned for sale or slaughter.

Any false or misleading statements made in a completed declaration may lead to prosecution and/or attract civil action by the purchaser.

## Why is a declaration necessary?

This declaration is part of a voluntary scheme, developed with the assistance of all sheep industry sectors, to build customer confidence in the safety of Australian sheep products.

By completing this declaration form you will provide information demanded by our customers about the treatment history and residue status of sheep and lambs and thereby encourage increased global sheepmeat usage.

For store buyers the information provided will enhance the husbandry of purchased stock and maximise the effectiveness of any subsequent veterinary treatments.

## Explanatory Notes

## Property Identification Code

The Property Identification Code (PIC) is the current property number allocated to your sheep producing property by the relevant State/Territory Government. It is the same number as the PIC number on the sheep's tail tag number because the same number appears on the tail tags used for the identification of cattle leaving the property.

## Identification of sheep and lambs

The identification of sheep and lambs creates a clear linkage between the livestock and the information provided on this form.

Ear tagging, ear notching, tattooing or distinctive nose or head raddles may be used for identification purposes. The application of brands to the body of sheep and lambs immediately prior to dispatch is not recommended as such brands may not be completely scorable from the animal.

The sheep industry is currently negotiating the introduction of a national sheep identification system. This voluntary system should be available in the near future.

## Period off feed and water

The production of high quality, safe meat from sheep and lambs that arrive at abattoirs covered in manure and urine is difficult and costly. For this reason, except in 'hot conditions', sheep and lambs should be held for a minimum of 12 hours without access to feed and water prior to slaughter. These minimum requirements may be longer, check with your agent/processor.

## Flockcare® Accreditation (Question 1)

Flockcare® is an on-farm quality assurance program designed to assist producers meet the quality expectations of customers and support claims made on this declaration form.

For more information on Flockcare® contact your state farm organisation or AUS-MEAT.

## Scabby Mouth Vaccination (Question 2)

Scabby Mouth is a viral disease of sheep and lambs causing a short term effect to livestock which generally recover fully in approximately 3 weeks. Life-long immunity to the virus is generally achieved post recovery.

To meet the requirements of some live sheep and lamb markets immunity to the virus is required. A Scabby Mouth Vaccination at least 14 days prior to presentation for sale is a requirement to qualify sheep and lambs as eligible for these markets.

## Veterinary Treatments (Question 4)

Includes veterinary drugs and chemicals administered by a qualified person to sheep and lambs for the control of mites, lice, ticks, anthelmintics, vaccines and worm, fly lice treatments, but excluding vitamin and mineral treatments. For lambs this also includes exposure to drugs or chemicals that may be excreted in the milk of lactating ewes.

## Withholding Periods - WHPs (Question 4 &amp; 5)

WHPs are set to ensure that residues resulting from the treatment fall to levels below the Australian maximum residue limits.

- The slaughter WHP is the minimum time period that elapses between the treatment and the delivery of livestock for slaughter.
- The grazing WHP is the minimum time that must elapse between the treatment of pasture or crops with herbicides and/or pesticides and the grazing of those pastures or crops by livestock.

## Export Slaughter Intervals - ESIs (Question 4)

An ESI is the period following treatment when sheep or lambs are unsuitable for export processing. ESIs are an industry standard to ensure export requirements are met.

## Important information on ESIs

- The label WHP is the minimum legal requirement at all times.
- Label directions for use must be strictly followed.
- Lean animals may have higher residue levels than normal. It is wise to add a margin to ESIs for very poor stock losing condition.
- 'Not available' indicates that an ESI is yet to be determined, and
- 'Not set' means that an ESI has been considered but could not be established from the information available.

## Agricultural chemicals (Question 5)

This question is important in identifying animals which have been exposed to agricultural chemicals. Where a grazing WHP has not been established. Where WHPs are identified details should be recorded in the spaces provided.

If the sheep/lambs have been fed purchased stockfeeds or concentrates, the label WHP should be recorded. 'Don't know' to this question unless they held a vendor declaration for the stockfeed which confirms that all required grazing/fodder WHPs have been met and that any chemical applied to the stockfeed within 60 days prior to its grazing or harvesting had a grazing/fodder WHP on the label.

## Feeding Restrictions (Question 6)

The NVD includes a manager's declaration that the sheep and lambs described have not been fed contrary to the law. State law prohibits feeding of most animal materials to livestock.

Animal materials include any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal, etc. It does not include tallow, gelatin or milk products. Contact your State Agriculture/Primary Industries Department for more details on these feeding restrictions.

Some overseas customers also require that the sheepmeat and offal they receive be sourced from sheep that have never in their lives been fed animal material such as meat and bone meals, blood meal, fish meal, feather meal, etc. These materials may be included in a supplementary feed materials.

## Additional Information (Question 7)

Use this section to provide other information on chemical use, animal health status or commercial matters that are not covered specifically on the form. Additional PICs may also be recorded in this section.

## Producing Quality Sheep Meats

## Lamb

Is defined as female, castrate or entire male ovine that has no evidence of eruption of permanent incisor teeth.

## Cheesy Gland (CLA)

Cheesy Gland is a bacterial infection causing abscesses in sheep and is a leading source of carcase condemnation.

Cheesy Gland is controlled by the use of a clostridial vaccine containing a Cheesy Gland component. For the disease to be effectively controlled the vaccine must be administered in accordance with label directions.

Lambs must receive a priming and booster dose in their first year. All adult sheep must receive an annual booster, preferably not more than 6 months and not less than 2 weeks prior to shearing.

## Carcase damaging grass seeds

The seeds produced by some grass species have the potential to damage carcases and cause condemnation of lambs. The grass species not commonly responsible for carcase damage include barley grass, spear grass, corkscrew and brome grass.

Producers should ensure that sheep and lambs do not have access to pasture containing these species when mature seed heads are present.

## Muzzling Dogs

Dog bites cause carcase damage. When handling sheep and lambs prior to slaughter all dogs should be muzzled.

## Hormone Treatments

It is illegal to administer hormone treatments to sheep and lambs in Australia for growth promodant purposes.

## Meat and Bone Meal

It is illegal to feed specified materials including meat and bone meal to cattle, sheep and other ruminants. Contact your State Agriculture/Primary Industries Department for more details on these feeding restrictions.

## Injections and Vaccination Site

Sheep and lambs should be vaccinated either on the side of the neck just below the ear, or on the side of the brisket. In these areas, there is little or no damage to the higher value skin or carcase areas. Do not use the shoulder, flank, rump or inside leg.

## National Vendor Declaration - Cattle

**Background**

The National Vendor Declaration (NVD) is part of the cattle industry's commitment to food safety and product quality. The cattle industry developed it to help producers document the residue status and history of their cattle. Producers are strongly encouraged to provide a NVD for all cattle they offer for sale or slaughter and to insist on a NVD before buying cattle.

**Answer all NVD questions accurately.**

Any false, misleading or unverifiable statements may result in criminal prosecution and/or civil action. If you rely on the NVD to verify future claims about purchased stock then the stock should be identified and recorded against their accompanying NVD. Complete ALL sections of the declaration including the place of loading (property name), destination (name of property, abattoir, saleyard, etc) and the time and date of dispatch.

The cost of any residue testing required or undertaken in response to information given on the NVD is a commercial matter between the vendor and buyer (except where industry funds such testing).

If you have used wrap-around transaction tags on this consignment of cattle please attach an identical tag to the back of this form.

**NLIS Devices**

When cattle carry NLIS endorsed Breeder or Post-breeder devices, record the number of identified animals and device type(s) in the spaces provided in Part A.

You may include the words 'Ownership NLIS Registered' under Additional Information (Question 9) if all of the cattle:

- are identified with a white NLIS Breeder device and are leaving their property of birth,
- were purchased and you have identified them with an orange Post-breeder device, or
- were identified with an NLIS Breeder or Post-breeder device when purchased and you have registered the ownership change on the NLIS database (contact the MLA Information Line 1800 635 445 for further information).

Under State/Territory law, NLIS Breeder and Post-breeder devices must not be removed until the beast is processed in an abattoir or knacker. Cattle only need one NLIS device. Never attach a second NLIS device if a NLIS device is already present.

**Animal Material**

The NVD includes a manager's declaration that the cattle described have not been fed contrary to the law, State law, promissory feeding, or most animal materials to humans.

Animal materials include any tissue, blood or other material taken from an animal and any products made from animal parts, including but not limited to: blood meal, fish meal, feather meal, etc. It does not include tallow, gelatin or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

**HGP Status Declaration**

Only declare cattle HGP free if: (a) they were bred on your property and you know they have never been treated with HGPs; or (b) you have evidence that the cattle have never been treated with HGPs. Acceptable evidence includes an agent's invoice identifying the seller and endorsed with the words 'HGP free' or a signed statement or NVD from the previous owner declaring the cattle to be 'HGP free'. Otherwise, you must declare the cattle as HGP treated or of unknown status.

Only use pink HGP free transaction tags on cattle you declare 'HGP free'. Cattle you declare 'HGP treated' or of unknown status must have a 'HGP free' tag if sent as a mixed load with treated or unknown status cattle. Use a separate NVD for the 'HGP free' cattle.

**Analysts' Reports**

Attach copies of analysts' reports of residue tests done on by-product stockfeeds (Question 4), or on results of biopsy testing of cattle in the consignment (Questions 5, 6 and 7), to the completed Declaration. Copies of letters from State authorities detailing the residue status of the cattle may also be attached.

**By-product stockfeed (Question 4)**

Includes any plant material not produced primarily for livestock consumption, such as waste fruit, pressed pulp, molasses, distillers' grain, oilseed pressings, stem and leaf material. It does not include grain and grain by-products, cotton seed, oilseed meals, tallow or molasses.)

**Extended Residue Program (ERP) status and grazing restrictions (Question 5)**

Answer "Yes" if you have been notified by a State/Territory authority that your property has an ERP status under the NORM program. [Properties with a C (clear) M (minimal risk) or a TS classification under the NORM program do not have an ERP status for the purposes of this Declaration.]

"Grazing restrictions" means quarantine, detention or management controls or other measures about the maximum residue limit (MRL) under restrictions imposed by a State/Territory authority.

**Veterinary drugs and chemicals (Question 6)**

Detail any veterinary drugs or chemicals administered orally by injection or to the skin, including but not limited to: antibiotics, antiparasitics, treatments and externally applied insecticides, but excluding vitamin and mineral treatments. For calves, weaners and vealers, include exposure through access to milk from cows treated or exposed to drugs or chemicals that may be excreted in the milk.

**Agricultural chemicals (Question 7)**

This question is important to ensure that cattle previously exposed to agricultural chemicals do not have unacceptable residues. Record any relevant agricultural chemical treatments (WHPs) in the spaces provided.

If the cattle have been fed purchased stockfeeds within 60 days prior to the sale, you must answer "Don't know" to this question unless they hold a vendor declaration for the stockfeed which confirms that all required grazing/fodder WHPs have been met and that any chemical applied to the stockfeed within 60 days prior to its grazing or harvesting had a grazing/fodder WHP on the label.

**Endosulfan (Questions 8)**

Part (a): You must answer "Yes" if endosulfan was the active ingredient in any spray applied within the 42 days prior to sale, or if the cattle were grazed by these cattle in the 42 days before this sale.

Part (b): You must answer "Yes" if all of the following conditions are met: the cattle were grazed in a zone required for a nearby cotton property and endosulfan has been sprayed on that nearby cotton within ten weeks prior to the sale of these cattle and; at the time of spraying, any part of the property grazed was in a down-wind no-spray zone.

**Additional Information (Question 9)**

Use this section to provide other information on chemical use, animal health status, whether cattle are under a NLIS endorsed Breeder or Post-breeder device, and other matters that are not covered specifically on the form including specific market eligibility. To declare "Saudi eligible" the cattle must have never in their lives been fed animal protein, animal fats/tallow or animal remains.

**Export Slaughter Intervals (ESIs) and Withholding Periods (WHPs)**

An ESI is the period following treatment when cattle are unsuitable for export processing. ESIs are an industry standard to ensure export requirements are met. A WHP is the period following treatment when cattle are unsuitable for processing. ESIs and WHPs are commonly used veterinary chemicals are listed in the table to the right. The WHP is in brackets.

**Important information on ESIs**

- The label WHP is the minimum legal requirement at all times;
- Label directions for use must be strictly adhered to for the ESI to apply;
- Lean cattle usually have higher residue levels than normal. It is wise to add a margin to ESIs for very poor stock or stock losing condition;
- NA indicates that an ESI is yet to be determined; and
- NS means that an ESI has been considered but could not be established from the information available.

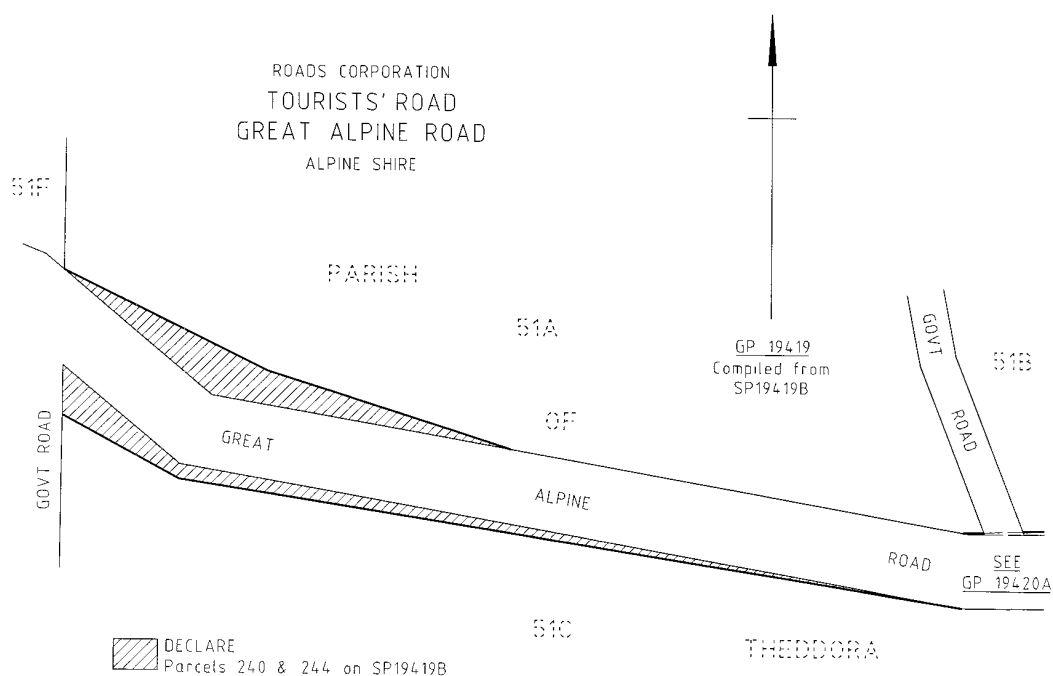

Updated ESI information is available on the internet at the MLA website [mla.com.au](http://mla.com.au) or from the MLA Infoline on 1800 635 445.

## NILLUMBIK SHIRE COUNCIL

## Meeting Procedure – Local Law No. 6

Notice is hereby given that the Nillumbik Shire Council at a meeting on 17 July 2002 completed a review of Meeting Procedure Local Law No. 4 and resolved to commence the process for making the Meeting Procedure Local Law No. 6.

The purposes of Meeting Procedure Local Law No. 6 are to:

- regulate the use of the common seal;
- prohibit unauthorised use of the common seal or any device resembling the common seal;
- regulate proceedings for the election of the mayor and chairpersons of various committees;
- regulate proceedings at Council Meetings, Special Committee Meetings and other meetings conducted by or on behalf of Council where Council has resolved that the provisions of this Local Law are to apply; and
- engage community participation by providing mechanisms within the meeting arrangements for Council to ascertain the community's views and expectations.

The general purport of this Local Law is –

- Division 1: Preliminary Provisions – procedural matters relating to the Local Law.
- Division 2: Common Seal – regulating the use of the common seal and providing that the common seal may only be used on the authority of the Council or the Chief Executive Officer under delegation from Council.
- Division 3: The Council. This part provides the process for the election of the Mayor and if the Council determines to elect a Deputy Mayor, the process for the election of the Deputy Mayor.
- Division 4: Meeting Procedure – this part deals with how ordinary and special meetings of Council should be conducted.
- Division 5: Advisory and Special Committees – this part deals with the establishment of advisory and special committees, election of

Chairperson of a Council or Special Committee, calling of a meeting of a Council or Special Committee and minutes of meetings. In addition, this part deals with submissions by the public under section 223 of the **Local Government Act 1989** and submissions on items listed on Special Committee agendas where application to speak to an item has been made in accordance with Council's procedures.

- Division 6: Suspension of Standing Orders.

A copy of the proposed Local Law may be inspected at or obtained from the Shire Offices, Civic Drive, Greensborough during office hours.

Any person affected by the proposed Local Law may make a submission relating thereto to the Council. Submissions received by the Council by the close of business on 8 August 2002 will be considered in accordance with section 223 of the **Local Government Act 1989**. Any person requesting that he or she be heard in support of a written submission is entitled to appear before a meeting of the Council or Council Committee either personally or by a person acting on his or her behalf and will be notified of the time, date and place of the meeting.

Submissions on the proposed Local Law should be posted to the Chief Executive Officer, PO Box 476, Greensborough 3088 or delivered to the Shire Offices, Civic Drive, Greensborough.

**STYLE REQUIREMENTS.**

To ensure that material received can be reproduced, and that errors are minimised, the following guidelines are to be observed when submitting material by fax.

**Fax resolution:**

Material sent by fax should be transmitted using Fine Resolution (200 dots per inch by 200 dpi).

**Font size:**

Use 12 point (10 pitch) or larger.

**Font Style:**

Clear plain font styles, such as Helvetica, should be used.

**Graphics:**

Line drawings should be transmitted as large as possible to ensure clarity. Drawings up to A4 size sent by fax using Fine Resolution provide a good quality for reproduction.

**Avoid:**

Italics, underlining and full justification.

Ensure document is square when sending as documents that are sent skewed are difficult to read and process.
