

Victoria Government Gazette

No. S 279 Thursday 23 December 2004
By Authority. Victorian Government Printer

Stock (Seller Liability and Declarations) Act 1993

NOTICE SPECIFYING FORMS OF DECLARATION UNDER SECTION 18A

I, Peter Harris, Secretary to the Department of Primary Industries, under section 18A of the **Stock (Seller Liability and Declarations) Act 1993**, (the Act) –

1. **specify** that a declaration made by, or on behalf of, a seller of stock that relates to the treatment, feed, husbandry or pasturing of that stock that is in or is to the like effect of any of the forms appearing in the Schedule below is a declaration to which section 18A of the Act applies; and
2. **require** that the selling agent who receives a declaration made under section 18A retain the declaration for a minimum of two years from the date of the sale to which the Declaration relates.

This notice takes effect from 1 January 2005.

SPECIAL

National Vendor Declaration (Cattle) and Waybill

Edition 1
1 March 2004

This logo represents the Livestock Production Assurance (LPA) Program. By using these National Vendor Declarations the signatory is agreeing to the LPA rules in regards to the use of the LPA logo, and that the livestock covered by the NVD have met all the requirements of the LPA program. These requirements are located in the LPA manual, which was provided upon Provisional Registration and can be viewed at www.mla.com.au/lpa.

Parts A, C and D of this travel document meet the legal requirements for a waybill under Queensland Stock Act 1915, Section 22; and WA Stock (Identification and Movement) Act 1970, Section 46; transported stock statement as approved under NSW Rural Lands Protection Act 1998 Section 140J; and permit to travel stock under ACT Stock Act 1991, Section 33.

ALL PARTS OF THE NVD WAYBILL MUST BE COMPLETED

If you make a mistake keep the copy and use a new NVD form.

The top sheet (white) goes with the livestock to the purchaser.

The middle sheet (green) goes with the carrier.

Keep the bottom sheet (pink) for auditing purposes.

Export Slaughter Interval (ESI) for Cattle – June 2003

The export slaughter interval (ESI) is the minimum time interval that should elapse between the last treatment of an animal and slaughter for export. ESIs are an industry standard to ensure export requirements are met. The withholding period (WHP) for meat is the minimum period that must elapse between the last treatment of an animal and slaughter for human consumption in Australia. The WHP is a statutory requirement. WHPs listed in this table are for meat.

						Proben	5	na
						Young's Levamisole (incl LV)	3	7

Notes:

- ESI for Cydetin Injectable is 40 days if multiple treatments are given.
- ESI is based on the correct re-treatment interval being applied (ie a re-treatment interval of 21 days or more).
- Removal of Ear Tag prior to slaughter is recommended to prevent possible contamination.
- ESI is under review and the final ESI may be longer.
- These are veterinary drugs that require a veterinarian to prescribe actual treatment regimes. Your veterinarian will advise you of the period of time the animal should be held before slaughter. This advice must be adhered to. Shorter periods than the WHP are not acceptable for cattle slaughtered for export.

DISCLAIMER: MLA does not accept responsibility for the accuracy or completeness of the ESIs and the WHPs. The ESIs are advisory only and are subject to change. The ESIs and WHPs have been provided to MLA by third parties and have not been verified by MLA.

IMPORTANT INFORMATION

- The label WHP is the minimum legal requirement at all times.
- Label directions for use must be strictly adhered to for the ESI to apply.
- Lean cattle usually have higher residue levels than normal. It is wise to add a margin to ESIs for very poor stock or stock losing condition.
- 'na' (not available) indicates that an ESI is yet to be determined.

For the latest ESI information contact Meat and Livestock Australia on 1800 635 445 or visit the MLA website at www.mla.com.au/esi

Currency: 1 June 2003

NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL

First edition, March 2004

This form cannot be used where eligibility for the EU market is required.

Part A To be completed by the owner or person who is responsible for the husbandry of the cattle.

Owner of cattle

Property/place where the journey commenced

Property Identification Code (PIC) of this property

Table with columns: Number, Description, PIC on Transaction Tag, Brands, Earmarks

Consigned to

Destination (if different) of cattle

Do the cattle in this consignment carry an NLIS device?

If yes, number: [] Ear [] Runen [] Lifetime traceable? [] Yes [] No

Details of other statutory documents relating to this movement e.g. animal health certificate

Part B To be completed by the person who is responsible for the husbandry of the cattle.

1 Have any of the cattle in this consignment ever in their lives been treated with a hormonal growth promotant (HGP)?

2 Have these cattle been raised consistent with the rules of an independently audited QA program on the property the PIC of which is shown above?

3 Were all of the cattle born and raised on the vendor's property?

4 In the past 60 days, have any of these cattle been fed by-product stockfeeds?

5 In the past 6 months, have any of these cattle been on a property listed on the ERP database or placed under grazing restrictions because of chemical residue?

6 Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) following treatment with any veterinary drug or chemical?

7 In the past 60 days, have any of these cattle consumed any stockfeed that was still within a WHP when harvested or first grazed?

8 In the past 42 days, were any of these cattle:

a) grazed in an endosulfan spray (risk area); or b) fed fodder cut from an endosulfan spray drift risk area?

9 Additional Information: see requirements in Explanatory Notes for completing this document.

Part C To be completed by the owner or person who is responsible for the husbandry of the cattle.

Part D To be completed by the person in charge of the cattle while they are being moved.

Movement commenced: [] am/pm Driver's licence no. []

Vehicle registration number(s): [] am the person in charge of the cattle during the movement and declare all the information in Part D is true and correct.

Part E Agents declaration for cattle sold at auction.

Vendor code [] Agent's code [] Stock agent company []

Buyer's name [] Destination PIC []

No. of cattle purchased [] Saleyard arrival time (am/pm) []

Agent's signature [] Date []

Main form area containing questions 6-9, Part C, D, and E with checkboxes and input fields.

Main form area containing questions 1-5, Part B, and a table for cattle description.

EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (CATTLE) AND WAYBILL

Background
The National Vendor Declaration (NVD) is part of the cattle industry's commitment to food safety and product integrity.

Waybills are required when cattle (and other stock) are moved in the Australian Capital Territory (ACT), Northern Territory (NT), New South Wales (NSW), Queensland (QLD) and Western Australia (WA). Only this combined NVD/waybill need be completed in these States/Territories when cattle are being moved. The completion of Part D of this combined NVD/waybill is optional in those States where waybills are not required.

This document can be used as a waybill without using the NVD component, in which case Part B is not completed and the second paragraph of Part C is struck out. Simultaneous waybills will continue to be available from relevant regulatory authorities, and their use is preferable if only a waybill is required.

Producers are strongly encouraged to provide a copy of this document for all cattle they offer for sale or slaughter, and to insist on a correctly completed copy when buying cattle.

General
Answer all items accurately. Any false, misleading, or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

- The original goes with the cattle to the purchaser or destination.
- The first copy goes to the person who consigns the cattle and completes part B. In the NT it must be sent to the Chief Inspector of Stock, and the ACT it must be sent to the Controller of Stock.
- The second copy stays in the book for your records and must be retained for 2 years (or 3 years in WA).

PART A
Part A is only to be completed by the owner of the cattle or person responsible for the husbandry of the cattle.

Address and PIC (Property Identification Code) of property/place where the journey commenced

The address and PIC (if it is not a property) of the property/place where the journey commenced must be recorded regardless of the length of time the cattle have resided on the property/place. NVD/waybill forms, printed with a property PIC, can only be used when cattle are to be moved from that property.

If the cattle were walked to yards on another property exclusively for the purpose of loading at the commencement of this journey, do not record the PIC of the property on which the cattle were loaded. In such instances, record the PIC of the property of last residence.

A new NVD/waybill must be completed if the cattle have been purchased and/or moved to a new property, and then dispatched to a sub-buyer, abattoir or other destination.

previous owner declaring the cattle to be 'HGP free'. Otherwise, you must declare the cattle as HGP treated or of unknown status.

Only use pink HGP free transaction tags on cattle you have declared to be 'HGP free'. Cattle you declare 'HGP free' MUST be individually identified with a pink 'HGP free' tag if sent as a mixed load with treated or unknown status cattle. Use a separate document for the 'HGP free' cattle.

Quality Assurance (QA) program (Question 2)
Include here any independently audited QA program for example, CattleCare, National Feedlot Accreditation Scheme, or a dairy industry on farm QA program. Please note LPA level 1 is not a QA program.

By-product stockfeed (Question 4)
Includes any plant material not produced primarily for livestock consumption, such as waste fruit, vegetables and fibre crops including beet, pulp, pressings, stem and leaf material. It does not include grain and grain by-products, cotton seed, oilseed meals, tallow or molasses.

Extended Residue Program (ERP) status and grazing restrictions (Question 5)
Answer 'Yes' if you have been notified by a State/Territory authority that your property has an ERP status under the NGRM program. (Properties with a C (clear), M or a T5 classification under the NGRM program do not have an ERP status for the purposes of this document). If an analyst's report or letter of clearance from state authority is available, attach a copy to the original and all copies of the declaration.

'Grazing restrictions' mean quarantine, retention or the management of cattle with residues above the maximum residue limit (MRL) under restrictions imposed by a State/Territory authority.

Veterinary drugs and chemicals (Question 6)
Detail any veterinary drugs or chemicals administered orally, by injection or to the skin, including antibiotics, vaccines, worm and mite treatments and externally applied insecticides, but exclude vitamin and mineral treatments. For calves, weaners and weilers, include exposure through access to milk from cows treated or exposed to drugs or chemicals that may be excreted in the milk.

Export Slaughter Intervals (ESIs) and Withholding Periods (WHPs) for commonly used veterinary chemicals are listed in the table to the right. ESIs are the period following treatment when cattle are unsuitable for export processing. ESIs are an industry standard to ensure export requirements are met. WHPs are the periods following treatment when cattle are unsuitable for processing for domestic consumption in Australia.

Updated ESI information is available at www.mla.com.au/esi

Agricultural chemicals (Question 7)
This question is important to ensure that cattle do not have unacceptable residues after consuming conventional stock-feed, such as pasture, crop, stubble, grain or a pre-mix. If the answer is 'Yes', record all requested details in the space provided.

If the cattle have consumed purchased feeds within 60 days prior to sale the vendor should answer 'Don't know' to this question unless they hold SAFEFEAT endorsed vendor declarations for that feed and those declarations confirm that all required WHPs have been met and/or that

the feed complies with all requirements relating to chemical residues through a QA testing program.

If any of the cattle consumed pasture, stubbles or failed crop treated with a chemical that has no grazing/feeding WHP (see table for question) should be answered 'Yes' and details provided.

Endosulfan (Question 8)
An endosulfan spray (off risk area exists for 10 weeks after application). The risk area includes all grazing land and all high crops within 750m downwind of a site treated by aerial application and 200m downwind of a site treated by ground rig.

Additional information (Question 9)
List any documents, certified documents, and attach copies of the documents to the original and all copies of the declaration. Examples of documents that should be attached include a list of by-product stockfeeds and date when fed, analysts' reports of residue tests done on by-product stockfeeds (Question 4), or biopsy testing of cattle (Questions 5, 6, 7 and 8), letters from State authorities detailing the residue status of the cattle, details of treatment within the withholding period or Export Slaughter Interval (Question 6).

Use this section to provide other information on chemical use, animal health status, or commercial matters that are not covered specifically on the form including specific market eligibility. **To declare "Saudi eligible" cattle must have never in their lives been fed animal protein, animal fats, tallow or animal remains.**

PART C
Signing part C has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages, if any information in parts A and B is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and these explanatory notes.

If the person signing the document has not been responsible for the husbandry of the animals, the second paragraph of part C must be struck out and the document will not be a NVD.

Livestock agents in particular are advised that unless they are directly responsible for the husbandry of the cattle they MUST not sign unless the second paragraph has been struck out.

Restricted Animal Material includes any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal etc. It does not include tallow, gelatine or milk products. Contact your State Agriculture or Primary Industries Department for more details on these feeding restrictions.

PART D
The carrier (or driver where applicable) must complete this part and sign it. When more than one truck is carrying the cattle all vehicle registration numbers are to be recorded. If there is insufficient space to record all the registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities require a copy of the NVD to travel with each individual vehicle. If this is incorrect regulatory authorities may take legal action. Completion of this part is optional within South Australia, Tasmania and Victoria.

Cattle NVD Waybill – Protecting Australia's food safety

Who is responsible for completing the NVD Waybill?

- Parts A, B and C:** The cattle owner or the person responsible for the husbandry of the cattle.
- Part D:** The livestock carrier.
- Part E:** The livestock agent.

Who keeps the copies?

- Top sheet:** (White) goes with the cattle to the purchaser.
- Middle sheet:** (Green) goes to the carrier.
- Bottom sheet:** (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the NVD Waybill?

- 1. Producers need to be fully accredited under the LPA on farm food safety program.
- 2. Go to www.mla.com.au/lpa, phone 1800 683 111, or contact your agent to order your NVD Waybill.

Write your PIC or tail tag number here (if a PIC is not already printed).

Describe the breed, sex, tail tag number and brand or earmark.

Write the name of the person or business (and their address) that the cattle have been transferred to.

Write the address of where the cattle will be delivered (if different).

Tick 'yes' only if cattle have a lifetime traceable status on the NLS database.

Use the tools provided in the LPA program to help you answer Part B with confidence.

NATIONAL ANIMAL DISEASE DEPARTMENT (CATTLE)

Part A: Cattle Details

Owner of cattle: David Grazer
 Property/place where the animal was born: Wintergreen, RMB 123 Warren NSW 2824

Property Identification Code (PIC) of this property	N	A	1	2	3	4	5	6
---	---	---	---	---	---	---	---	---

Description of cattle: 12 Angus Steers

Consignment to: Barrows Livestock Agency
 123 George St, Warren NSW 2824

Destination (if different): Warren Salesyards

Do the cattle in this consignment carry an NUS device? Yes No Don't know

Details of other statutory documents relating to this movement: Animal health certificate

Part B: Health and Treatment

Have any of the cattle in this consignment ever in their lives been treated with a hormonal growth promoting agent? Yes No Don't know

Have these cattle been raised consistent with the rules of an independently audited OA program on the property the PIC of which is shown above? Yes No Don't know

Were all of the cattle born and raised on the vendor's property? Yes No Don't know

Were any of these cattle born or raised by parent stock? Yes No Don't know

In the past 60 days, have any of these cattle been on a property listed on the EPF database or placed under grazing restrictions because of chemical residue? Yes No Don't know

Part C: Movement and Identification

Vehicle registration number(s): 12345678 (km/pm) 12345678 (km/pm) 12345678 (km/pm) 12345678 (km/pm)

Signature: David Grazer Date: 03/01/04 Tel no: 02 9463 5000

Part D: Declaration

I, David Grazer, RMB 123 Warren NSW 2824, declare that I am the owner or the person responsible for the husbandry of the cattle and LPA agent for the cattle described in this document.

As the person responsible for the husbandry of the cattle, I also declare that all the information in this document is true and correct, that I have read and understood all the conditions that I have agreed, that I have read and understood the explanatory notes, and that, under my control, the cattle were not fed restricted animal material (including milk replacer) in breach of State or Territory legislation.

Part E: Agent and Destination

Stock agent company: Barrows Livestock Agency Agent's code: 12345678

Buyer's name: Barrows Livestock Agency Destination PIC: 12345678

No. of cattle purchased: 12 Saleyard arrival time (am/pm): 12:00

Agent's signature: David Grazer Date: 03/01/04

Do not send cattle if they are still within the withholding period or export slaughter interval.

A 'don't know' answer may incur endosulfan residue testing costs.

Declare Saudi eligible cattle here.

Once you have signed this form you have legally met the requirements of a Waybill and declared that all livestock covered by this NVD have met the LPA program requirements and animal material feeding restrictions.

The carrier should fill in Part D.

The agent should fill in Part E.

Don't let Australia down – Fill in your declaration honestly and accurately

LIVESTOCK
PRODUCTION
ASSURANCE

ATTENTION: Re-order your NVD Waybill book now

There are only two NVD Waybills remaining in this book. To order a new book of NVD Waybills you need to become fully accredited under the Livestock Production Assurance (LPA) program.

STEP 1 Ensure you meet the LPA requirements

Read and understand the LPA guidelines and rules in the manual sent to you with this NVD Waybill book. Ensure you have in place the on farm management systems to 'back up' the declarations you make on NVDs. The LPA guidelines and rules help you do this.

STEP 2 Become fully accredited with the LPA program

Once you are confident you meet the LPA requirements, you need to become fully accredited with the LPA program by:

Going to www.mla.com.au/lpa and following the prompts, or

Phoning 1800 683 111, or

Contacting your agent to register on your behalf.

You will need your LPA membership number and password, which was provided to you with this NVD Waybill book.

STEP 3 Order and pay for your NVD Waybill book

Go to www.mla.com.au/lpa and follow the prompts, or phone 1800 683 111 to order your NVD Waybill book.

The NVD Waybill book of 20 forms costs \$25. Credit card and alternative payment options are available.

Don't let Australia down – Use the tools provided under the LPA program to verify your declaration

National Vendor Declaration (Sheep and Lambs) and Waybill

Edition 1
1 March 2004

This logo represents the Livestock Production Assurance (LPA) Program. By using these National Vendor Declarations the signatory is agreeing to the LPA rules in regards to the use of the LPA logo, and that the livestock covered by the NVD have met all the requirements of the LPA program. These requirements are located in the LPA manual, which was provided upon Provisional Registration and can be viewed at www.mla.com.au/lpa.

Parts A, C, and D of this travel document meet the legal requirements for a waybill under Queensland Stock Act 1915, Section 22; and WA Stock (Identification and Movement) Act 1970, Section 46; transported stock statement as approved under NSW Rural Lands Protection Act 1998 Section 140J; and permit to travel stock under ACT Stock Act 1991, Section 33.

ALL PARTS OF THE NVD WAYBILL MUST BE COMPLETED

If you make a mistake keep the copy and use a new NVD form.

The top sheet (white) goes with the livestock to the purchaser.

The middle sheet (green) goes with the carrier.

Keep the bottom sheet (pink) for auditing purposes.

Export Slaughter Interval (ESI) for Sheep and Lambs – June 2003

The export slaughter interval (ESI) is the minimum time interval that should elapse between the last treatment of an animal and slaughter for export. ESIs are an industry standard to ensure export requirements are met. The withholding period (WHP) for meat is the minimum period that must elapse between the last treatment of an animal and slaughter for human consumption in Australia. The WHP is a statutory requirement. WHPs listed in this table are for meat.

Notes:
 T. ESI is under review and the final ESI may be longer.
IMPORTANT INFORMATION
 The label WHP is the minimum legal requirement at all times.
 Label directions for use must be strictly adhered to for the ESI to apply.
 Lean sheep or lambs usually have higher residue levels than normal. It is wise to add a margin to ESI for very poor stock or stock inasing condition.

For the latest ESI information contact Meat and Livestock Australia on 1800 635 445 or visit the MLA website at www.mla.com.au/esi
Currency: 1 June 2003
DISCLAIMER: MLA does not accept responsibility for the accuracy or completeness of the ESIs and the WHPs. The ESIs are advisory only and are subject to change. The ESIs and WHPs have been provided to MLA by third parties and have not been verified by MLA.

NATIONAL VENDOR DECLARATION (SHEEP AND LAMBS) AND WAYBILL Print number: M999 5004

Part A To be completed by the owner or person who is responsible for the husbandry of the sheep or lambs.

Owner of sheep or lambs (NAME OF PERSON IN CHARGE OF THE SHEEP OR LAMBS) _____

Property/place where the journey commenced (FIRST ADDRESS INCLUDING POSTCODE) _____

Property Identification Code (PIC) of this property _____

Description of sheep or lambs

Number	Year born	Description (sex & type of sheep)	Month of shearing	Brand/Ear tag/PIC of parent (if applicable or not)	Earnings or other remarks

Hours off feed and water before transporting _____

Consigned to _____

Destination of sheep or lambs _____

Details of other statutory documents relating to this movement e.g. animal health certificate _____

Document type _____ **Number** _____ **Price of fare** _____ **Every time** _____

Part B To be completed by the person who is responsible for the husbandry of the sheep or lambs.

Does the property from which these sheep or lambs are sourced carry Flockcare® accreditation
 Yes No Accreditation no. _____

Have all the sheep or lambs in this consignment been treated with a Scabby Mouth Vaccination either at marking or at least 14 days prior to their presentation for sale?
 Yes No Don't know

Were all of the sheep or lambs born and raised on the vendor's property?
 Yes No Don't know

If No, how long ago were the sheep or lambs obtained or purchased? (if purchased at different times, tick the box corresponding to the time of the most recent purchase.)
 Less than 2 months 2-6 months 6-12 months more than 12 months

Are any of the sheep or lambs in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) following treatment with any veterinary drug or chemical?
 Yes No Don't know If Yes, give details: Record additional details in question 7.

Part C To be completed by the owner or person who is responsible for the husbandry of the sheep or lambs.

Full name _____ **Full address including postcode** _____

DECLARE THAT I AM THE OWNER OR THE PERSON RESPONSIBLE FOR THE HUSBANDRY OF THE SHEEP OR LAMBS AND THAT ALL THE INFORMATION IN PART A OF THIS DOCUMENT IS TRUE AND CORRECT.

If this document is NOT being used as a National Vendor Declaration, the following paragraph may be deleted and part B need not be completed.

As the person responsible for the husbandry of the sheep or lambs, I also declare that all the information in part B of this document is true and correct, that I have read and understood all the questions that I have answered, that I have read and understood the explanatory notes, and that, while under my control, the sheep or lambs were not fed restricted animal material (including meat and bone meal) in breach of State or Territory legislation.

Signature _____ **Date** _____ **Tel no.** _____

*Only the person whose name appears above may sign this declaration, or make amendments which must be initialed.

Part D To be completed by the person in charge of the sheep or lambs which they are being moved.
Completion of this part is optional in SA, WA and VIC.

Movement commenced: DAY / MONTH / YEAR _____ (am/pm) **Driver's licence no.** _____

Vehicle registration number(s): _____ **am the person in charge of the sheep or lambs during the movement and declare all the information in Part D is true and correct.**

Signature _____ **Date** _____ **Tel no.** _____

*When more than one truck is carrying the sheep or lambs, other vehicle registration numbers are to be recorded.

Part E Agents declaration for sheep or lambs sold at auction.

Completion of Part E is optional. By agreement between the selling agent and the buyer, Saleyard agents completing Part E should retain the original declaration for a minimum of two (2) years, or three (3) years in WA and supply a copy to any buyer on request.

Vendor code _____ **Agent's code** _____

Stock agent company _____

Buyer's name _____

No. of sheep or lambs purchased _____ **Saleyard arrival time (am/pm)** _____

Agent's signature _____ **Date** _____

EXPLANATORY NOTES – NATIONAL VENDOR DECLARATION (SHEEP AND LAMBS) AND WAYBILL

Background

The National Vendor Declaration (NVD) is part of the sheep and lamb industry's commitment to food safety and product integrity.

Waybills are required when sheep or lambs (and other stock) are moved in the Australian Capital Territory, Northern Territory, New South Wales, Queensland and Western Australia. Only this combined NVD/waybill need be completed in these States/Territories when sheep or lambs are being moved. The completion of Part D of this combined NVD/waybill is optional in those States where waybills are not required.

This document can be used as a waybill without using the NVD component, in which case Part B is not completed and the second paragraph of Part C is struck out. Standard waybills will continue to be available from relevant regulatory authorities, and their use is preferable if only a waybill is required.

Producers are strongly encouraged to provide a copy of this document for all sheep or lambs they offer for sale or slaughter, and to insist on a correctly completed copy when buying sheep or lambs.

General

Answer all items accurately. Any false, misleading or unverified statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identified and recorded against their accompanying documentation.

The cost of any residue testing required or undertaken in response to information given on the document is a commercial matter between the vendor and buyer (except where industry funds such testing).

The document is in triplicate.

The original goes with the sheep or lambs to the purchaser or destination. Saleyards agents completing Part E should retain the original for 2 years (for 3 years in Western Australia) and supply a copy to any buyer on request.

The first copy goes to the person who transports the sheep or lambs and completed Part B. In the Northern Territory it must be sent to the Chief Inspector of Stock, and the Australian Capital Territory it must be sent to the Controller of Stock.

The second copy stays in the book for your records and must be retained for 2 years (for 3 years in Western Australia).

PART A

Part A is only to be completed by the owner of the sheep or lambs or person responsible for the husbandry of the sheep or lambs.

Address and PIC (Property Identification Code) of property/place where the journey commenced

The address and PIC (if it is not pre-printed) of the property/place where the journey commenced must be recorded regardless of the length of time the sheep or lambs have resided on the property/place. NVD/waybill forms, pre-printed with a property PIC, can only be used when sheep or lambs are to be moved from that property.

If the sheep or lambs were walked to yards on another property exclusively for the purpose of loading at the commencement of this journey, do not record the PIC of the property on which the sheep or lambs were loaded. In such instances, record the PIC of the property of last residence.

A new NVD/waybill must be completed if the sheep or lambs have been purchased and/or moved to a new property, and then dispatched to a saleyard, abattoir or other destination.

Property Identification Code

The Property Identification Code (PIC) is the current property number allocated to your sheep-producing property by the relevant State/Territory Government authority. The PIC is commonly known as the property's "tail tag number" because the same number appears on the tail tags used for the identification of cattle leaving the property. In WA the owners brand may be used instead of the PIC.

Identification of sheep and lambs

The identification of sheep and lambs creates a clear linkage between the livestock and the information provided on this form.

Ear tagging, ear notching, tattooing or distinctive nose or head marks may be used for identification purposes. The application of brands to the body of sheep and lambs immediately prior to dispatch is not recommended as such marks may not be completely scorable from sheep skins.

The sheep industry is currently negotiating the introduction of a national livestock identification system for sheep. This system should be available in the near future.

Details of other statutory documents

Other documents relating to this movement (eg. permit, animal health certificate, animal health statement, including additional sheets of descriptions of sheep or lambs. The words "Attachment to NVD/waybill serial number..." must be on every additional document with the serial number recorded. Additional document(s) must be attached to the original and both copies.

PART B

Flockcare* Accreditation (Question 1)

Flockcare* is an on-farm quality assurance program designed to assist producers meet the quality expectations of customers and support claims made on this declaration form.

For more information on Flockcare* contact your state farm organisation or AUS-MEAT.

Scabby Mouth Vaccination (Question 2)

Scabby Mouth is a viral disease of sheep and lambs causing a short term effect to livestock which generally recovers fully in approximately 3 weeks. Life-long immunity to the virus is generally achieved post recovery.

To meet the requirements of some live sheep and lamb markets immunity to the virus is required. A Scabby Mouth Vaccination at least 14 days prior to presentation for sale is a requirement to qualify sheep and lambs as eligible for these markets.

Veterinary drugs and chemicals (Question 4)

Detail any veterinary drugs or chemicals administered orally, by injection or to the skin, including antibiotics, vaccines, worm and externally applied insecticides, but exclude vitamin and mineral treatments.

Export Slaughter Intervals (ESIs) and Withholding Periods (WHPs) for commonly used veterinary chemicals are listed in the table to the right. ESIs are the period following treatment when sheep or lambs are unsuitable for export processing. ESIs are an industry standard to ensure export requirements are met. WHPs are the periods following treatment when sheep or lambs are unsuitable for processing for domestic consumption in Australia.

Agricultural chemicals (Question 5)

This question is important to ensure that sheep or lambs do not have unacceptable residues after consuming conventional stockfeeds, such as pasture, crop, stubble, grain or a prepared stockfeed, previously treated with agricultural chemicals. If the answer is "yes" record all requested details in the space provided.

If the sheep or lambs have consumed purchased feeds within 60 days prior to sale the vendor should answer "Don't know" to this question unless they hold SAFENET endorsed vendor declarations for that feed and those declarations confirm that all required WHPs have been met and/or that the feed complies with all requirements relating to chemical residues through a QA testing program.

If any of the sheep or lambs consumed pasture, stubbles or failed crops previously treated with a chemical that had no grazing/forage WHP on the label the question should be answered "yes" and details provided.

Feeding restrictions (Question 6)

The NVD includes a manager's declaration that the sheep and lambs described have not been fed contrary to the law. State law prohibits feeding of most animal materials to ruminants.

Animal materials include any tissue, blood or other material taken from an animal and any meals derived from animals. Examples are meat and bone meals, blood meal, fish meal, feather meal, etc. It does not include tallow, gelatin or milk products. Contact your State

Agriculture/Primary Industries Department for more details on these feeding restrictions.

Some overseas customers also require that the sheep, meat and offal they receive be sourced from sheep that have never in their lives been fed animal material such as meat and bone meal as well as animal fat such as tallow which may be included in supplementary feed materials.

Additional information (Question 7)

List any required attached documents, and attach copies of the documents to the original and all copies of the declaration.

PART C

Signing Part C has legal significance. Regulatory authorities may take legal action, and purchasers may seek damages if any information in Parts A and B is incorrect. Before signing you must be absolutely satisfied you understand all elements of the document, and these explanations notes.

If the person signing the document has not been responsible for the husbandry the animals, the second paragraph of Part C must be struck out and the document will not be a NVD.

Livestock agents in particular are advised that unless they are directly responsible for the husbandry of the sheep or lambs they must not sign unless the second paragraph has been struck out.

PART D

The carrier, including the driver, must complete this part and sign it. When more than one truck is carrying the sheep or lambs all vehicle registration numbers are to be recorded. If there is insufficient space to record all the vehicle registration numbers an additional document must be attached to the original and all copies. Some state regulatory authorities will require a copy of the NVD to travel with each individual vehicle. If any information is incorrect regulatory authorities may take legal action. Completion of this part is optional within South Australia, Tasmania and Victoria.

Updated ESI information is available on the internet at the MLA website www.mla.com.au/esi or from MLA on 1800 635 445.

Sheep and Lambs NVD Waybill – Protecting Australia's food safety

Who is responsible for completing the NVD Waybill?

Parts A, B and C: The sheep or lamb owner or the person responsible for the husbandry of the sheep or lambs.

Part D: The livestock carrier.

Part E: The livestock agent.

Who keeps the copies?

Top sheet: (White) goes with the sheep and lambs to the purchaser.

Middle sheet: (Green) goes to the carrier.

Bottom sheet: (Pink) stays in the book and should be kept for auditing purposes.

How do I order copies of the NVD Waybill?

1. Producers need to be fully accredited under the LPA on farm food safety program.

2. Go to www.mla.com.au/lpa, phone 1800 683 111, or contact your agent to order your NVD Waybill.

Write your PIC or tail tag number here (if a PIC is not printed), if you do not have one, contact your State Department of Agriculture

Describe the breed, sex, brand or earmark here.

Write the name of the person or business (and their address) that the sheep or lambs have been transferred to.

Write the address of where the sheep or lambs will be delivered (if different).

Use the tools provided in the LPA program to help you answer Part B with confidence.

NATIONAL ANIMAL DISEASE CONTROL SYSTEM
ANIMALS AND MATERIALS

Owner of sheep or lambs: Sandra Smith
 Property/Place where the journey commenced: 165 Smith
 Property Identification Code (PIC) of the property: A B C D 1 1 2 3

PIC	Sex	Age	Weight	Remarks
50	2000			

Hours off feed and water before transporting: 1 hour
 Consigned to: John Burrows, Burrows Livestock Agency
123 High St, Bertralla, Victoria 3672
 Description of sheep or lambs: Staleyards
 Details of other statutory documents relating to this movement: e.g. animal health certificate

Have any of these sheep or lambs consumed any stockfeed that was still within a WVP when harvested or first grazed?
 Yes No Don't know

Have any of these sheep or lambs been fed feed containing tallow or gelatin?
 Yes No Don't know

Please include any additional information below:
 * vaccination programs, animal health certification, additional declarations, etc.

I, Sandra Smith, 165 Smith, Bertralla, VIC 3672 declare that I am the owner or the person responsible for the husbandry of the sheep or lambs and that all the information in Part A of this document is true and correct.

As the person responsible for the husbandry of the sheep or lambs, I also declare that all the information in Part B of this document is true and correct. I have read and understood the requirements of the LPA and I have signed this document in the presence of a witness who is not a family member of mine, and I have signed and dated this document in the presence of a witness who is not a family member of mine.

Signature: Sandra Smith Date: 16/01/04 Tel no: (03) 9463 9000

Vehicle registration number: 1 2 3 4 5 6 7 8 9 0 am pm Driver's licence no. 1 2 3 4 5 6 7 8 9 0 am pm

Movement commences: 1 2 3 4 5 6 7 8 9 0 am pm am pm Driver's licence no. 1 2 3 4 5 6 7 8 9 0 am pm

I, Sandra Smith, am the person in charge of the sheep or lambs during the movement and declare all the information in Part D is true and correct.

Signature: Sandra Smith Date: 16/01/04 Tel no: (03) 9463 9000

Completion of Part E is optional by agreement between the selling agent and the Buyer. Selling agents completing Part E should indicate the number of sheep or lambs in the consignments of two (2) years or more in the air of supply a copy to the agent.

Vendor code: 1 2 3 4 5 6 7 8 9 0 Agent's code: 1 2 3 4 5 6 7 8 9 0

Stock agent company: 1 2 3 4 5 6 7 8 9 0

Buyer's name: 1 2 3 4 5 6 7 8 9 0

No. of sheep or lambs purchased: 1 2 3 4 5 6 7 8 9 0 Subday arrival time (am/pm): 1 2 3 4 5 6 7 8 9 0 Date: 1 2 3 4 5 6 7 8 9 0 am pm

Agent's signature: 1 2 3 4 5 6 7 8 9 0

Do not send sheep or lambs if they are still within the withholding period or export slaughter interval.

Some markets require that sheep have never been fed stockfeed containing these materials.

Once you have signed this form you have legally met the requirements of a Waybill and declared that all livestock covered by this NVD have met the LPA program requirements and animal material feeding restrictions.

The carrier should fill in Part D.

The agent should fill in Part E.

Don't let Australia down – Fill in your declaration honestly and accurately

LIVESTOCK
PRODUCTION
ASSURANCE

ATTENTION: Re-order your NVD Waybill book now

There are only two NVD Waybills remaining in this book. To order a new book of NVD Waybills you need to become fully accredited under the Livestock Production Assurance (LPA) program.

STEP 1 Ensure you meet the LPA requirements

Read and understand the LPA guidelines and rules in the manual sent to you with this NVD Waybill book. Ensure you have in place the on farm management systems to 'back up' the declarations you make on NVDs. The LPA guidelines and rules help you do this.

STEP 2 Become fully accredited with the LPA program

Once you are confident you meet the LPA requirements, you need to become fully accredited with the LPA program by:

Going to www.mla.com.au/lpa and following the prompts, or

Phoning 1800 683 111, or

Contacting your agent to register on your behalf.

You will need your LPA membership number and password, which was provided to you with this NVD Waybill book.

STEP 3 Order and pay for your NVD Waybill book

Go to www.mla.com.au/lpa and follow the prompts, or phone 1800 683 111 to order your NVD Waybill book.

The NVD Waybill book of 20 forms costs \$25. Credit card and alternative payment options are available.

Don't let Australia down – Use the tools provided under the LPA program to verify your declaration

1.2. In the last 60 days, have any of these cattle consumed any stockfeed that was still within a WHF when harvested or not grazed?

Name: _____ Date of birth: _____ Sex: _____ Colour: _____

1.3. In the past 42 days were any of these cattle:

1.3.1. grazed on contaminated crop residue? Yes No

1.3.2. grazed on contaminated stubble? Yes No

1.3.3. grazed on contaminated pasture? Yes No

1.3.4. grazed on contaminated silage? Yes No

1.3.5. grazed on contaminated hay? Yes No

1.3.6. grazed on contaminated concentrate? Yes No

1.4. Additional information: any statements in [Government Forms for completing this document]

1.5. Declaration: I, the undersigned, being the owner of the cattle described in this document, hereby declare that the information provided in this document is true and correct. I also declare that I have received and read the conditions of sale of the animals and that I have accepted them. I also declare that I have received and read the conditions of sale of the animals and that I have accepted them. I also declare that I have received and read the conditions of sale of the animals and that I have accepted them.

Movement commenced: _____ **Vehicle registration number(s):** _____

Driver's licence no.: _____ **Date:** _____ **Tel no:** _____

Signature: _____ **Date:** _____ **Tel no:** _____

1.6. Declaration: I, the undersigned, being the person in charge of the cattle during the movement and declare all the information in Part B is true and correct.

Signature: _____ **Date:** _____ **Tel no:** _____

Vendor code: _____ **Agent's code:** _____

Stock agent company: _____

Buyer's name: _____ **Destination PIC:** _____

No. of cattle purchased: _____ **Saleyard arrival time (day/yr):** _____

Agent's signature: _____ **Date:** _____

2. Details of other statutory documents relating to this movement:

2.1. Have these cattle been raised consistent with the rules of an independently audited QA program (in addition to EUCAS) on the property, the PIC of which is shown above?

Yes No N/A (Animalisation of breeding lot)

2.2. Were all of the cattle born and raised on the vendor's property?

Yes No N/A (See page long-appears the cattle, although of parentage, in a separate document)

2.3. In the past 60 days have any of these cattle been fed by product stockfeeds?

Yes No N/A (See table 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100)

2.4. In the past 6 months have any of these cattle been on a property listed on the ERF database or placed under grazing restrictions because of chemical residue?

Yes No N/A (See table 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100)

2.5. Are any of the cattle in this consignment still within a Withholding Period (WHP) or Export Slaughter Interval (ESI) following treatment with any veterinary drug or chemical?

Yes No N/A (See table 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100)

presented with a property PIC, you may be need when cattle are to be moved from that property.

If the cattle are sold to you, you need property ownership for the purpose of loading of the common seal of this order, to not record the PIC of the property on which the cattle are loaded, in such instance, record the PIC of the property of first residence.

A new ELMV/Waybill flag is introduced for cattle that have been purchased and/or moved to a new property, and their description of the property, to not record the PIC of the property on which the cattle are loaded, in such instance, record the PIC of the property of first residence.

Description of cattle

If there is a requirement to describe a cattle entry, it must be described as follows: *Species, sex, age, weight, colour, markings, etc.*

MLIS devices

All cattle must carry National Livestock Identification System (NLIS) approved Brand or Post Breeder devices. Record the number of branded animals and device types in the spaces provided.

Other statutory documents

Other documents relating to this movement eg, permit, animal health certificate, animal health statement, and/or additional sheets of descriptions of cattle. The words "Attachment to ELMV/Waybill number..." must be on every additional document with the serial number recorded. Additional document (as listed be attached to the original and both copies).

Quality Assurance (QA) program (Question 1)

Health, care, and welfare, animal QA program for example, CattleCare, National Animal Quarantine Scheme, or a quality program contain QA program. Please refer to the QA program.

By-product stock (Question 3)

By-products are plant material not produced primarily for but which consumption, such as waste, fruit, vegetables, and fibre crops including wool, pulp, pressings, stem and leaf material, of does not include grain and grain by-products, cotton seed, oilseed meals, by-products, etc.

Extended Residue Program (ERP) status and grazing restrictions (Questions 4)

Some ERP status has been considered by a State/territory authority that your property has an ERP status under this program. Please refer to the ERP status for the purposes of this document. If an ERP status for the purposes of this document, it is an ERP status or better of clearance from State authority is listed in the ERP status table.

Address and PIC (Property Identification Code) of property where the journey commenced

The address and PIC of a property is not the address of the property where the journey commenced, but the address of the property where the journey commenced.

Background

The European Union Cattle Accreditation Scheme (EUCCAS) operates under the Export Control Act 1962. The European Union Cattle Accreditation Scheme (EUCCAS) is a voluntary scheme for the export of cattle from the European Union to Victoria. Declaration, and the waybill-transported stock statement that is required when cattle are moved to ACT, New South Wales, Western Territory, Queensland and Western Australia.

A copy of this form must be used for all cattle consigned from one EU accredited facility to another EU accredited facility. EU accredited facility means farms, facilities, sales yards and markets that are accredited as licensed cattle. The Export Control Act 1962 to handle EU eligible cattle. Victoria cattle are sent from one EU accredited facility to a destination that is not EU accredited (the National Veterinary Diagnostic Institute) to be used. Cattle must be individually identified with an AQIS approved MMS, endorsed or front breeder device (ear tag with a microchip, front horns with a microchip and body ear tag). This form does not let all the rules of the European Union Cattle Accreditation Scheme. The rules are on www.aqis.gov.au.

General

Animal or derive accordingly. Any false, misrepresenting or substantiated statements may result in prosecution and/or civil action. If you rely on the document to verify future claims about purchased stock, then the stock should be identifiable against their accompanying document.

The cost of any further testing required as outlined in the general notice between the vendor and buyer (except where industry funds must testing).

The document is in English.

- The first copy given to the person who consigns the cattle and registration part B. It must be kept for 3 years from the date of issue.
- The second copy given to the person who consigns the cattle and registration part B. It must be kept for 3 years from the date of issue.
- The second copy given to the person who consigns the cattle and registration part B. It must be kept for 3 years from the date of issue.

PART A

Part A is only to be completed by the accredited manager responsible for the movement of the cattle. The accredited manager, as defined under the EUCCAS, must also include a person who is responsible for the husbandry of cattle and is authorised by the accredited manager to sign ELMV.

Part B

Part B is only to be completed by the accredited manager responsible for the movement of the cattle. The accredited manager, as defined under the EUCCAS, must also include a person who is responsible for the husbandry of cattle and is authorised by the accredited manager to sign ELMV.

Part C

Part C is only to be completed by the accredited manager responsible for the movement of the cattle. The accredited manager, as defined under the EUCCAS, must also include a person who is responsible for the husbandry of cattle and is authorised by the accredited manager to sign ELMV.

Dated 20 December 2004

PETER HARRIS
Secretary to the
Department of Primary Industries
