COLAC OTWAY SHIRE
 Renaming Portions of Friends Road,
 Yeo and Elliminyt

Notice is hereby given that the Colac Otway Shire on 24 March 2004 resolved:—
 that Council having advertised its intention to rename parts of Friends Road in Yeo and Elliminyt
 and considered a submission received in relation to the proposal, hereby resolves:—

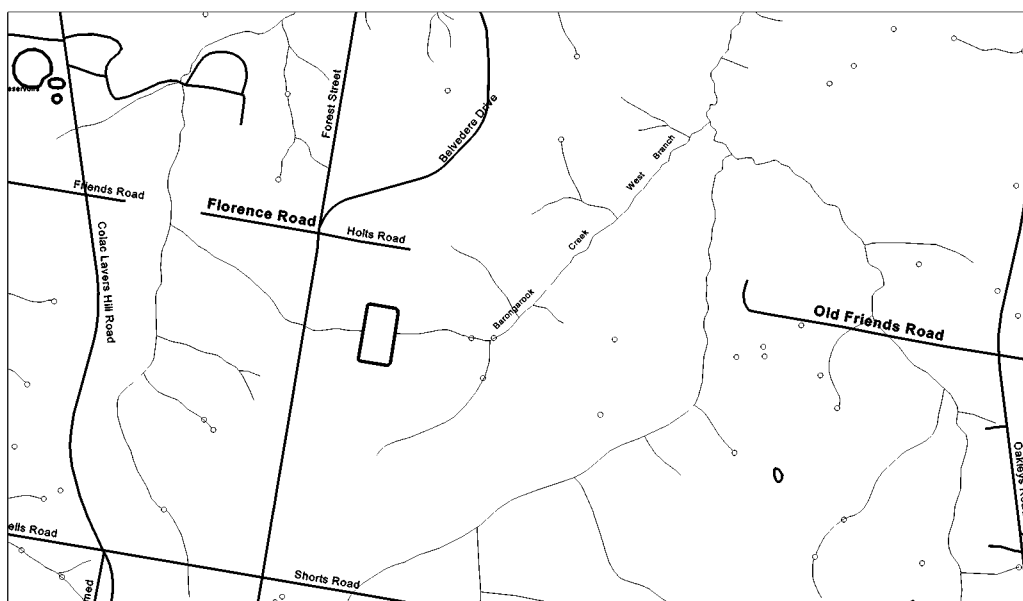

1. the part extending westwards from Old Yeo Road, Yeo to the gully be renamed “Old Friends Road”;
2. that part extending westwards from Forrest Street, Elliminyt to the next gully to be renamed “Florence Road”

in accordance with the provisions of Clause 5, Schedule 10 of the **Local Government Act 1989**.

This name was assigned after a process of public consultation in accordance with the provisions of the **Local Government Act 1989**.

EXEMPTION

Application No A66 of 2004

The Victorian Civil & Administrative Tribunal (the Tribunal) has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** (the Act) by WISE Employment Ltd (the applicant). The application for exemption is to enable the applicant to advertise for and offer employment as part of its "Make It Work" program to male volunteers to become mentors for adult males who are on bail.

Upon reading the material in support of the application, the Tribunal is satisfied that is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ male volunteers in its "Make It Work" program to become mentors for adult males who are on bail.

In granting this exemption, the Tribunal noted that the applicant is a not-for-profit organization providing vocational services for disadvantaged people, and in particular, a program entitled "Make It Work" which is directed at assisting adults on bail by providing mentors to them. The Tribunal noted that overwhelming majority (96%) of persons requiring mentoring under the "Make It Work" program offered by the applicant are males; that persons to be mentored are matched with appropriate volunteers; and that the 15 female volunteer mentors involved in the program have elected not to mentor males. The Tribunal noted that there is a critical shortage of male volunteers relative to male persons requiring mentors, and that the exemption is necessary to enable the "Make It Work" program viable.

The Tribunal hereby grants an exemption from the operation of Sections 13, 100 and 195 of the Act to enable the applicant to advertise for

and employ male volunteers to become mentors in its "Make It Work" program.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 8 April 2007.

Dated 2 April 2004.

APPLICATIONS

CONDITIONS OF APPLICATION

The Minister proposes to issue Petroleum Exploration Permits under the **Petroleum Act 1998** (the Act) to the successful applicant.

Applications shall be submitted in accordance with the provisions of Part 3, Exploration Permits, and Part 7, Provisions Applying to Authorities Generally of the Act.

Full details of the proposed Exploration Program being offered and covering a period of tenure of five (5) years with listings of the key objectives of the first three (3) years of the work program, for the purpose of section 27 of the Act, must be provided.

The areas are offered without implementation of the 'right to negotiate' provisions contained in Part 2, Division 3, Subdivision B of the **Native Title Act 1993** (Cth). The offer contained in this Notice does not constitute a representation by the Crown or any of its officers or employees that the offer does not affect Native Title. The offer is invalid if it impacts on Native Title. The successful applicant will be required where appropriate, to comply with Native Title processes. Information

regarding Petroleum titles and Native Title can be found at www.dpi.vic.gov.au/minpet/ then go to 'Policy and Legislation' then 'Native Title'.

If Native Title processes are applicable, the applicant will be required to resolve Native Title issues. The Department will also require periodic progress reports with respect to these processes.

Preliminary consultation with representatives of Aboriginal people has not identified any particular Native Title interests. However, advice has been received that Native Title Claims have been registered over these advertised areas. The Claims boundaries can be viewed on the National Native Title Tribunal (NNTT) website: www.nntt.gov.au. Successful applicants will be required to consult closely with the relevant Aboriginal groups/agencies and local Aboriginal organisations.

Potential permit holders should also note that:

- before conducting any exploration activities they must make themselves familiar with (and refer to) the Victorian **Petroleum Act 1998**, the **National Parks Act 1975**, **Wildlife Act 1975** and **Flora and Fauna Guarantee Act 1988**;
- they are to contact Parks Victoria, the Department of Sustainability and Environment (DSE) to obtain their views on proposed fieldwork to alleviate possible adverse impact on wetlands, native grasslands, threatened plant communities, rare and threatened flora and fauna species;
- they are not to carry out exploration work in Murray River Reserve;
- they are to contact Heritage Services of the Department for Victorian Communities for consultation with Regional Cultural Heritage Program managers. Information on relevant Aboriginal Regional Cultural Heritage Program Regions can be viewed on Aboriginal Affairs Victoria website: www.dvc.vic.gov.au; and
- to contact local Aboriginal Communities responsible for cultural heritage matters within their particular community boundaries before commencing operations in accordance with section 146 of the Act.

SELECTION CRITERIA

Full details of the proposed exploration program being offered and covering a period of tenure of five (5) years must be provided. The factors that will be considered in assessing applications will be the key objects of the work program for the first three (3) years of the five-year term, and the financial and technical resources available to the applicant. Applicants should note in particular, sections 18–27 and 96–99 of the Act.

Further details of the work program bidding system, mentioned above, including the criteria for assessment of applications and the conditions to apply following the award of the permit are available by visiting the Department's website: <http://www.dpi.vic.gov.au/minpet/> or from the Director Minerals and Petroleum Regulation.

LODGMET OF APPLICATIONS AND CLOSING DATE

Applications addressed to the Minister for Energy Industries and Resources together with the relevant data must be lodged by 4:00 PM (EST) on Thursday, 30 September 2004 and submitted to:

The Tender Box Manager
Department of Primary Industries
8 Nicholson Street
East Melbourne, Victoria, 3002
Attn. Senior Petroleum Tenement Officer
Minerals and Petroleum Regulation

The following special instructions should be observed:

- Two (2) copies of the application and supporting data must be submitted;
- The application should then be sealed and clearly marked 'Application for Area VIC/M-04'

() Commercial-in-Confidence’;

- This envelope or package should then be enclosed in a plain covering envelope or package and delivered by hand or posted to the address above, and marked — Attention: Senior Petroleum Tenements Officer, Minerals and Petroleum Regulation; and
- Each application must be accompanied by a fee of A\$3,000 payable to the Victorian Department of Primary Industries through an Australian bank or bank cheque.

AVAILABLE DATA

Limited basic exploration data (mainly airborne magnetics and gravity data) pertaining to the blocks comprising this Notice is available. It can be ordered from GeoScience Victoria (GSV) or by e-mailing Graeme Torr at: graeme.torr@dpi.vic.gov.au. GSV is currently located on the 7th Floor/250 Victoria Parade, East Melbourne, Victoria 3002. In early June 2004 the GSV will be relocated at 17th Floor/1 Spring Street, Melbourne, Victoria 3000.

APPLICATIONS

Applications lodged under Section 20 of the **Petroleum (Submerged Lands) Act 1982** are required to be made in the approved form and should be accompanied by:

- (a) Details of —
- (i) the applicant's technical assessment of the petroleum potential of the area, including the concepts underlying its proposed exploration program, with sufficient detail to support that program;
 - (ii) the applicant's minimum guaranteed proposal (including indicative minimum expenditure) for exploration wells to be drilled, 3D and 2D seismic and other surveying activities, data evaluation and other work, for each year of the first three years of the permit term. This proposal, to be known as the minimum guaranteed work program, should comprise work expected to involve a substantial exploration component — normally, appraisal work should not be included;
 - (iii) the applicant's proposal (including indicative minimum expenditure) for exploration wells to be drilled, 3D and 2D seismic and other surveying activities, data evaluation and other work, for each of the three remaining years of the permit term. This proposal, to be known as the secondary work program, should comprise work expected to involve a substantial exploration component — normally, appraisal work should not be included.
- (b) Particulars of —
- (i) the technical qualifications of the applicant and of its key employees;
 - (ii) the technical advice available to the applicant;
 - (iii) the financial resources available to the applicant, including evidence of the applicant's ability to fund the work program proposed, a statement of other exploration commitments over the next six years, and a copy of the latest annual report and quarterly reports for each applicant company;
 - (iv) where relevant, the viability of the consortium lodging the application, including evidence that a satisfactory settlement has been, or can be, reached on the Joint Operating Agreement (a copy of a signed Heads of Agreement Dealing will generally suffice); and
 - (v) the percentage participation interest of each party to the application.
- (c) Such other information as the applicant wishes to be taken into account in consideration of the application.

- (d) Each application must be accompanied by a fee of A\$3,900, payable to the Department of Primary Industries through an Australian bank or bank cheque.

Further details of the work program bidding system mentioned above, including the criteria for assessment of applications and the conditions to apply following the award of the permit, are available on the DPI website: www.dpi.vic.gov.au/minpet/

A schedule of Special Requirements is appended to the end of this Notice. The figure included in the Special Requirements Schedule shows the released areas prepared based on AGD66 Datum.

While several of the Requirements related to the State Waters areas exclusively, they may be applied to the Adjacent Commonwealth release because of common boundaries. More detail on environmental issues can be obtained from Geoff Collins, Ph: 03 94125095, e-mail: geoff.collins@dpi.vic.gov.au.

Availability of Data

Available basic exploration data pertaining to the block comprising this notice can be purchased from GeoScience Victoria (GSV) or ordered by e-mail from Graeme Torr at:

graeme.torr@dpi.vic.gov.au. GSV is located on the 7th Floor/250 Victoria Parade, East Melbourne, Victoria 3002 till approximately early June 2004; after that GSV will be relocated at 17th Floor/1 Spring Street, Melbourne, Victoria 3000.

Closing Dates and Lodgment of Applications

Applications must be lodged by 4:00 PM (EST) on Thursday 30 September 2004 and submitted to:

The Tender Box Manager
Department of Primary Industries
8 Nicholson Street
East Melbourne, Victoria, 3002
Attn. Senior Petroleum Tenement Officer
Minerals and Petroleum

The following special instructions should be observed:

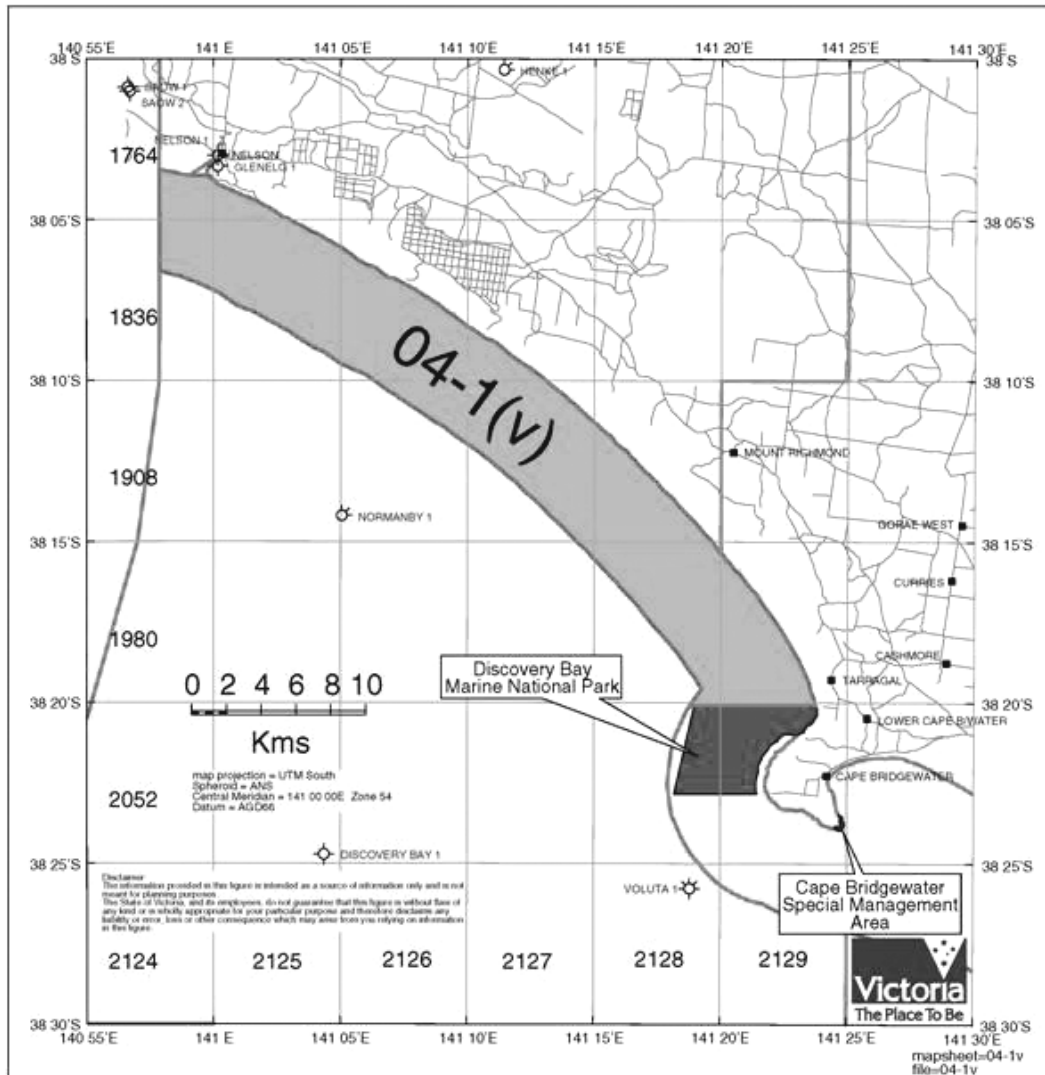

- Two copies of the application and supporting data, together with a fee of \$3,900, should be enclosed in an envelope or package.
- The application should then be sealed and clearly marked "Application for Area 04-1(v) Commercial-in-Confidence".
- This envelope or package should then be enclosed in a plain covering envelope or package and delivered by hand or posted to the relevant address above.

Made under the **Petroleum (Submerged Lands) Act 1982**

PHILLIP ROBERTS
Manager, Minerals and Petroleum Regulation
Delegate of the Designated Authority

**SPECIAL REQUIREMENTS FOR ENVIRONMENTAL PROTECTION
(VICTORIAN LEGISLATION BUT COULD IMPACT AT THE JUNCTION BOUNDARY
WITH THE COMMONWEALTH RELEASE)**

Released Near-Shore Area 04-1(v) in the Otway Basin

PROPOSED EXPLORATION PROGRAM

Should a permit be granted which requires the conduct of seismic surveys or drilling of a well, then under the requirements of the State’s **Petroleum (Submerged Lands) Act 1982** an environmental management plan is required to be submitted and approved before the commencement of the activity. Applicants are encouraged to view “Environmental Information Package for Companies Bidding on Offshore Exploration Permits in Victoria” document on DPI website: www.dpi.vic.gov.au/minpet/.

REFERRALS — ENVIRONMENT PROTECTION & BIODIVERSITY ACT

If the permit operator believes that the activity significantly impacts on a matter of national environmental significance and may need approval under the **Commonwealth Environment**

Protection & Biodiversity Act, 2000 (EPBC), a referral must be submitted to Environment Australia. The purpose of the referral is to determine whether a proposed action requires approval by the Commonwealth Environment Minister. If the Minister determines that an approval is required, then the proposed action will proceed through the assessment and approval process.

INSURANCE

Successful applicants will be required under section 97A of the **Petroleum (Submerged Lands) Act 1982** or the **Petroleum (Submerged Lands) Act 1967** to effect and maintain insurance against expenses or liabilities or specified things arising in connection with, or as a result of, the carrying out of work, or doing any other thing, under the permit, including expenses of complying with directions with respect to the clean-up or other remedying of the effects of the escape of petroleum.

NAVIGATION AND FISHERIES REQUIREMENTS

Section 124 of the **Petroleum (Submerged Lands) Act 1982** requires, inter alia, that petroleum operations be carried out in a manner that does not interfere with navigation or fishing activities.

Successful applicants are required prior to the commencement of seismic and drilling operations to ensure that:

- navigation requirements are met by maintaining regular contact with the Maritime Rescue Co-ordination Centre of the Australian Maritime Safety Authority, early and ongoing liaison to take place with commercial fishing peak bodies and recreational anglers peak bodies as well as local fishing groups and get agreement for compensation to individual fishers for any lost productivity if appropriate.
- proposed exploration activities, in accordance with normal practice, be supplemented by a Declaration of Environmental Factors and Oil Spill Contingency Plan.
- Permit holders will need to liaise with:
 - Seafood Industry Victoria (SIV) which is the peak-fishing industry representing commercial fishermen in Victoria,
 - VRFish (of this department) which is the responsible peak-body under the **Fisheries Act 1995** for recreational fishers in Victoria, and
 - Fisheries Victoria of this Department to resolve a concern by the fishing industry related to possible adverse impacts by seismic source on fish larvae close to the coast.
- Permit holders to note that DPI Queenscliff Fisheries is proposing a research to investigate the effects of seismic surveys on Southern Rock lobster and seek opportunities to support this proposal.
- V04-1 is the prime Squid fishing ground from March to July. This requires careful planning and coordination between the Squid fishing groups and seismic acquisition contractors during this season. Timing for the Squid seasons can be obtained from DPI Fisheries Victoria and from the Australian Fishing Management Authority.

HISTORIC SHIPWRECKS

Heritage Victoria has special concerns that 04-1(v) is likely to contain a number of significant wrecks.

The gazetted area is in the vicinity of remains of Historic Shipwrecks and aeroplane wrecks included on the Heritage Inventory established under the **Heritage Act 1995** and/or in some instances the **Commonwealth Historic Shipwrecks Act 1976**. The proponent permit holder must not do any work within 100m laterally of the archaeological sites and should consult with Heritage Victoria for consent to do work within 100m of such sites. Furthermore, under Sec 132 of the **Heritage Act 1995**, if a relic is discovered in the course of exploration, the permit holder must as soon as practicable report the discovery to the Executive Director, Heritage Victoria.

NATIVE TITLE

Preliminary consultation with representatives of Aboriginal people has not identified any particular interests. However, advice has been received that a Native Title Claim, No. VC99/007, over acreage 04-1(v) and on the National Native Title Tribunal (NNTT) was registered on 27/7/1997. The Claim's boundary can be viewed on the NNTT website: www.nntt.gov.au. Successful applicants will be required to consult closely with this Aboriginal group before commencing operation in this area on all heritage issues.

Petroleum (Submerged Lands) Act 1967

COMMONWEALTH OF AUSTRALIA

Notice of Invitation of Application for Exploration Permits

I, the Delegate of the Designated Authority for and on behalf of the Commonwealth–Victoria Offshore Petroleum Joint Authority, acting pursuant to Section 20(1) of the **Petroleum (Submerged Lands) Act 1967** of the Commonwealth of Australia, hereby invite applications for the grant of exploration permits in respect of the following blocks within the area as described in the following schedule.

The Commonwealth/State/Territory jurisdictional boundary in coastal waters is determined by the Australian Maritime Boundaries Information System Dataset of 2000, released in January 2001 by the Australian Surveying and Land Information Group (now part of Geoscience Australia). The block description of the areas in the 2004 release is based on this system.

Section 5AAA of the **Petroleum (Submerged Lands) Act 1967** provides that, where a change to the baseline of Australia's territorial sea would impact on the boundary of an existing petroleum title (in Commonwealth or State or Territory waters), there is in fact no such impact. The Commonwealth, State or Territory Act (as the case may be) under which the title has been granted, continues to apply to the title and the whole title area for as long as the title remains in force. Therefore, this Instrument does not apply to any such area that is already under title.
