## EXEMPTION

Application No. A404 of 2005

The Victorian Civil and Administrative Tribunal has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** (the Act) by Acheron Technologies Limited (the applicant). The application is for a renewal of an exemption which enables the applicant to operate a telephone chat line service and to charge female callers to the service either no fee or a lesser fee than males who use the service ("the specified conduct").

Upon reading the material filed in support of this application, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 42, 100 and 195 of the Act to enable the applicant to engage in the specified conduct.

In granting this exemption the Tribunal noted:

- An exemption in similar terms was granted in November 2002.
- An analysis of calls to the service from 1 April 2005 to 30 September 2005 shows that the average percentage of callers to the service was:  
Males – 75%  
Females – 25%
- From October 1999 to date the continued disparity in the number of male and female callers justifies the need for a differential charge between those callers to encourage the under-represented group to participate in the service without which the service would not operate.

The Tribunal hereby grants an exemption from the operation of Sections 42, 100 and 195 of the **Equal Opportunity Act 1995** to enable the applicant to engage in the specified conduct.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 1 December 2008.

Key elements of the draft Permanent Water Saving Plan include:

- Changes in the time-of-use for both automatic and manual watering systems. These include private/public gardens and lawns, and public sports and recreational grounds.
- Fountains may only be used if they recirculate water.
- A hand held hose must not be used at any time to clean a vehicle unless it is fitted with a trigger nozzle.
- Hard surfaces must not be cleaned with water from a hose unless cleaning is required as a result of an accident, fire, emergency or a health hazard has developed.
- No restrictions apply to watering of plants at wholesale, retail and municipal garden nurseries.
- Hoses used in the construction industry must be fitted with a trigger nozzle.

Copies of the Permanent Water Saving Plan are publicly available via the LMW web site, [www.lmw.vic.gov.au](http://www.lmw.vic.gov.au) and in hard copy over the counter from any LMW office.

### Water Act 1989

The Gippsland & Southern Rural Water Authority has, in accordance with sections 145, 160 and 231 of the **Water Act 1989**, made By-Law No. 3 Private Works and Subdivision of Land.

The objective of this By-Law is to set application fees for the consideration of proposals for private works affecting Authority assets and fees for the investigation and approval of proposals to subdivide land within irrigation districts.

The By-Law provides for these fees to be set by reference to a number of charge units. The value of a charge unit will be set to produce the fees specified in SRW's Corporate plan.

A copy of this By-Law may be inspected, free of charge, during business hours at the office of the Authority at 88 Johnson Street, Maffra, or 1 Tower Road, Werribee.

### Water Act 1989 PROPOSED PERMANENT WATER SAVING PLAN

Lower Murray Water (LMW) is proposing to introduce permanent water saving rules for all urban and rural garden water supply systems across the LMW region from 1 January 2006, as required and outlined in Action 5.4 of the government's White Paper for Water.

Water shortages across the State led to the development of the Permanent Water Saving Plan and it is important that these new water saving rules, which will be imposed by all water authorities, are easily understood and readily adopted by our customers.

### Water Act 1989 BY-LAW NO. 2 WATER RESTRICTIONS FOR DROUGHT RESPONSE

Lower Murray Water (LMW) is proposing to introduce a revised By-Law No. 2, Water Restrictions for Drought Response, for all urban

and rural garden water supply systems across the LMW region from 1 January 2006, as required and outlined in Action 5.8 of the government's White Paper for Water.

Water shortages across the State led to the development of By-Law No. 2 Restrictions for Drought Response and the intent of the By-Law is to ensure greater uniformity by introducing a four stage uniform restriction schedule across the State of Victoria.

Key elements of By-Law No. 2 Water Restrictions for Drought Response:

- Replacing the five stage restriction schedule with a state wide uniform four stage restriction schedule.
- Increase in the number of restriction categories from fourteen to twenty-four.
- Improvement and an increase in the number of definitions.
- A listing of "Trigger Points" for all four restriction stages.
- The provision of a key word index for ease of restriction schedule access.

Copies of By-Law No. 2 Water Restrictions for Drought Response are publicly available via the LMW web site, [www.lmw.vic.gov.au](http://www.lmw.vic.gov.au) and in hard copy over the counter from any LMW office.

Comment is invited from all interested parties. LMW will consider all comments or submissions before finalising its By-Law No. 2 Water Restrictions for Drought Response.
