#### EXEMPTION

Application No. A82/2005

The Victorian Civil and Administrative Tribunal (the Tribunal) has considered an application pursuant to Section 83 of the **Equal Opportunity Act 1995** (the Act), by the Department of Primary Industries (the applicant). The application for exemption is to enable the applicant to advertise for and employ suitably qualified indigenous Australians in up to 50 positions with the applicant as part of the Wur-cum barra – Indigenous Employment Strategy.

Upon reading the material submitted in support of the application, including the affidavit of Sharon Doyle, the Tribunal is satisfied that it is appropriate to grant an exemption from Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ suitably qualified indigenous Australians in up to 50 positions with the applicant as part of the Wur-cum barra – Indigenous Employment Strategy.

In granting this exemption the Tribunal noted:

- The Wur-cum barra Strategy is a whole-of-government framework for coordinating and sustaining government efforts to achieve a greater representation of indigenous people within all areas and levels of the Victorian Public Sector (VPS).
- The strategy was developed by indigenous Australians in partnership with senior levels of government and within the context of the Victorian Government's Indigenous affairs policy, its broader vision for Victoria, and Victorian public sector employment legislation.
- Wur-cum barra has identified employment targets, with 230 ongoing jobs to be filled by indigenous Australians across the Victorian Public Service and at all levels, by 1 July 2005. This target is almost double the 2002 Indigenous employment numbers.
- The applicant is committed to employing 50 indigenous Australians by 1 July 2005. As at 28 February 2005 the applicant had 7 indigenous Australians employed.
- The applicant is conducting a recruitment campaign to meet its Wur-cum barra commitments. The campaign includes a communication plan that promotes employment opportunities with the Department. The plan will be implemented during March 2005. It includes the distribution of posters and brochures detailing the key messages of Wur-cum barra and Department employment opportunities.
- The targeted positions include, but are not limited to positions in administration, information technology, finance, policy and field officers. The positions will be available within central Melbourne and regional Victoria.

- The Department will be creating genuine employment opportunities for indigenous Australians. The Department is viewed favourably as an employer by indigenous Australians as the majority of its sites are regionally based and many of the job opportunities are field based.

The Tribunal hereby grants an exemption to the applicant from the operation of Sections 13, 100 and 195 of the Act to enable the applicant to advertise for and employ suitably qualified indigenous Australians in up to 50 positions with the applicant as part of the Wur-cum barra – Indigenous Employment Strategy.

This exemption is to remain in force from the day on which notice of the exemption is published in the Government Gazette until 7 April 2008.

- 3.2 A wager in respect of a spin sequence is placed by a person appropriating money standing to the credit of a player's ATS chip account to a particular bet as defined in rule 7 prior to the end of the wagering period of the first spin in that spin sequence.

  - 6.3.2 Must activate an ATS chip account in respect of the ATS by crediting it with the amount tendered, thereby causing chips to appear on the display of the ATS or that amount to be shown as standing to the credit of the ATS chip account.
- 6.4 Where a player inserts cash into an ATS Note Acceptor, the amount of cash will automatically be credited to the ATS chip account in respect of that ATS, thereby causing chips to appear on the display of the ATS or that amount to be shown as standing to the credit of the ATS chip account.

For the purposes of this document the generic term "Jackpot" will be used for all Jackpot styles.

8.2 A jackpot system consists of:

8.2.1 A jackpot server;

8.2.2 A jackpot terminal or back of house monitoring system;

8.2.3 A jackpot meter display;

- 8.2.4 A jackpot client viewer; and

- 8.3.3 A jackpot group may have one or more jackpots operate in respect of it;
- 8.3.4 A jackpot group may be added to or removed from a jackpot or transferred between one jackpot and another provided that prior to the change a sign giving notice of the addition, removal or transfer is displayed;
- 8.3.5 A jackpot may be closed at any time provided that a sign giving notice of the closure is displayed at every table in respect of which system is operating;
- 8.3.6 If a jackpot is closed, an amount equal to the value recorded on the jackpot meter must be transferred to the jackpot meter of one or more other jackpots;
- 8.3.7 Each table in respect of which a jackpot operates must be fitted with a jackpot meter display designed to show the value of the jackpot prize amount recorded from time to time on the jackpot meter and/or any goods or services constituting a jackpot prize.
- 8.3.8 The value of the prize recorded on the meter of a jackpot may be displayed on one or more electronic promotional displays in the casino.
- 8.4 Jackpot Configuration
- 8.4.1 The following formula will be used to determine all jackpot configurations:  

$$IR = ((\text{Min. Jackpot Value} + \text{Max. Jackpot Value})/2) - \text{Min. Jackpot Value} / ((\text{Min. Jackpot Value} + \text{Max. Jackpot Value})/2) \times RTP$$
Where:  
RTP = House Edge X % Reduction in Edge; and  
IR is the Increment Rate
- 8.5 The Casino Operator must ensure that the jackpot meter for a jackpot from time to time records a monetary value no less than—
- 8.5.1 The minimum jackpot value; plus
- 8.5.2 The amount wagered at all Rapid Big Wheel tables at the specified increment rate as described in rule 8.4 from time to time, in the group of tables in respect of which the jackpot operates, since the jackpot meter was last reset under rule 8.4.
- 8.6 If, in respect of a round of play, the value recorded on the jackpot meter of a jackpot would fall below the minimum jackpot value as described in rule 8.4, the Casino Operator must cause the jackpot meter for the jackpot system to be reset to an amount no less than this amount.
- 8.7 The electronic equipment for a Jackpot is operating properly if—
- 8.7.1 The jackpot server of the system is capable of posting contributions from patron wagers at the specified increment rate, calculating random jackpot seed values and recording winning jackpot records; and
- 8.7.2 The Casino Supervisor can read the value of the jackpot prize at the time for settlement.
- 8.8 If at any time it is deemed that the jackpot is not operating properly, the jackpot prize/s offered with respect of that particular jackpot will not be offered to patrons and a regular Rapid Big Wheel game will be conducted.

- 8.9 If a round of play in which a jackpot prize has been won is void, the amount of the jackpot prize as displayed on the meter of the jackpot must be re-credited to the meter of that particular jackpot or must be transferred to the meter of one or more other jackpots.

**9. IRREGULARITIES**

- 9.1 The Dealer must call a “no spin” if—
- 9.1.1 The wheel fails to make three complete revolutions; or
  - 9.1.2 The indicator stops on the divider between two compartments, or
  - 9.1.3 There is a physical interference or a mechanical malfunction during a spin of the wheel.
- 9.2 If the Dealer calls a “no spin”, he or she may attempt to prevent the indicator from coming to rest in one of the compartments.
- 9.3 If the Dealer calls “no spin”, that spin is of no effect, regardless of whether or not the indicator comes to rest in one of the compartments.
- 9.4 If the Dealer reasonably forms the view that he or she has entered an incorrect outcome into the SGC, the Dealer must freeze all ATS chip accounts and cause the results to be recalculated based on the actual outcome.
- 9.5 If a player claims to the Dealer that an incorrect outcome has been entered into the SGC or that any part of the game system has malfunctioned, the Dealer must consider the claim and take whatever reasonable action is permitted by this rule.
- 9.6 The WND must be disregarded if the WND displays a number other than the actual outcome.
- 9.7 If an ATS experiences a malfunction—
- 9.7.1 Prior to the expiry of the wagering period, the Dealer must treat as void all wagers placed on the ATS for the relevant spin; and
  - 9.7.2 On or after the expiry of the wagering period, the Dealer must seek to confirm what wagers were placed through the analysis of available records and cause the appropriate adjustments to be made.
- 9.8 If the game system (other than an ATS) experiences a malfunction (including by reason of physical damage)—
- 9.8.1 Prior to the expiry of the wagering period, the Dealer must treat as void all wagers placed by all players for the relevant spin; and
  - 9.8.2 On or after the expiry of the wagering period, the Dealer must seek to confirm what wagers were placed through the analysis of available records and cause the appropriate adjustments to be made.
- 9.9 If the Dealer is unable, for the purposes of rules 9.7(b) and 9.8(b), to confirm the relevant wagers placed through the analysis of available records, the Dealer must void those wagers.
- 9.10 If during a round of play an error occurs that is not disclosed until after the commencement of a subsequent round of play, that error will not have any effect on the outcome of subsequent rounds of play.
- 9.11 Once a Jackpot has been confirmed it cannot be voided. In the event that a spin is declared a no spin after a Jackpot has been confirmed, payment of that Jackpot stands and the declaration of a no spin will have no effect on the result/s of any prior or subsequent rounds of play.
